MINNESOTA STATE HISTORICAL SOCIETY.

LAST IMPORTANT MEASURES COME BEFORE THE LEGISLATURE AND ARE MADE SPECIAL ORDERS FOR DEBATE

Senate Considers Omnibus Bill Tuesday; House, Monday Afternoon.

Miller's Initiative and Referendum Bill Laid to Rest.

Anti-Pass Bill Still Between Senate and House.

(From a Staff Correspondent.)

St. Paul, April 22.—(Special to The Herald.)—The omnibus appropriation bill, which is the principal matter left unsettled in the legislature, came into both houses this morning, and was made a special order for this afternoon in the house, when it took up item by item, and for tomorrow morning in the senate. The bill was introduced in the house by Representative Wells, chairman of the appropriations committee, and he also introduced the tax levy bill, providing a levy of $1,500,000, or a rate of a mill and a half, for each of the next two years. The omnibus road and bridge bill was introduced by Representative Howard, and placed at the head of the calendar.

* * *

Representative Clarence Miller, this morning, moved that his initiative

SAILORS' STRIKE IS DISASTROUS

Many Russian Factories Must Suspend Owing to Lack of Fuel.

St. Petersburg, April 22.—Russian industry is being placed in a critical situation, owing to the continuance of the strike of sailors belonging to the naphtha flotilla on the Caspian sea. The efforts of Baron Taube, chief of the gendarmerie corps, who has been detailed to deal independently with the strike have not been successful. Only ten of several hundred tank steamers are in operation and both sides are determined to continue the strike. The oil residue, known as mazout, is the principal fuel used by the factories in Central Russia, the stocks of which (ordinarily replenished during the spring floods, when the Volga branches are navigable for big steamers in the remote interior of Russia), are now exhausted. Navigation will open in a few days, but, owing to the strike, the reservoirs below Astrakahan, which supply the river steamers, are empty and the shippers are unable to take advantage of the short period of high water. A veritable panic has been precipitated on the Kazan bourse by the announcement made by the representatives of the oil companies that no mazout is available even for steamer fuel.

Leading industrial magnates have telegraphed to the lower house of parliament asking that body to intervene.

The president of the Moscow bourse, in an interview today, expressed the opinion that if continuance of the strike would force most of the factories to suspend, which would throw hundreds of thousands of men out of work.

BRYAN THE ONLY MAN

In the Running for Democratic Nomination, Says Watterson.

Believes That Hughes Will be Successor to Roosevelt.

New York, April 22.—Col. Henry Watterson, who arrived here from Europe yesterday, said that William Jennings Bryan seemed to be the only man in the running for the Democratic nomination for the presidency.

"Mr. Bryan is an individual man with a certain following," he said. "He is not a law-giver. He may be a law unto himself. It remains to be seen if the fragments of the Democratic party lying around loose can be united on a new program.

"I think that organized Democracy at the present time can see no other alternative except Bryan. Nobody is being seriously considered except him. Nobody except him is seriously con-

MERCHANT GIMBEL DIES FROM WOUNDS

MARK JARDINE,
Harness Maker, Who Has Been Elected Mayor of Rockford, Ill., by the Union Labor League.

Philadelphia Man's Attempt at Suicide is Successful.

He Had Been Arrested on Two Serious Charges.

New York, April 22.—Benedict Gimbel, the wealthy Philadelphia merchant who cut his throat and wrists with broken glass in a hotel in Hoboken, soon after he had been arrested on serious charges in this city, died in St. Mary's hospital, Hoboken, shortly before 3 o'clock this morning.

His wife was at his bedside, also his two brothers who came here at once on receiving word of his trouble—one from Milwaukee and the other from Philadelphia. His personal physician, summoned from Philadelphia, was at his bedside also.

The arrest of Benedict Gimbel, a man of wealth, member of a prominent and prosperous firm, married and hitherto with a spotless reputation, caused great surprise.

Thursday afternoon he was taken from a cab in this city while in company with Iver Clark, a 16-year-old boy, by two detectives who acted on the complaint of Clark's parents. Gim-

THE TIME IS NOW SHORT

Session of Minnesota Legislature Nearly at an End.

Salaries of Duluth Aldermen Have Not Been Raised.

(From a Staff Correspondent.)

St. Paul, April 22.—(Special to The Herald.)—Any further legislation that is enacted by the thirty-fifth session of the Minnesota legislature will have to be put through today and tomorrow, for tomorrrow evening at midnight the session reaches its constitutional limit, and any bills passed after that hour will be invalid.

Of course, if the legislature sees fit, it can put its clocks back when the hands approach the midnight mark, and it can remain 5 minutes to 12 until daylight, as it has on many occasions.

However, there seems to be no disposition to trifle with the time that way this year, and in all probability the session will end at midnight or before.

Wednesday the legislature convenes again, and sits until noon, but no bills can be passed. Resolutions may go through, providing somebody does not give notice of debate, which would put them over into oblivion. Usually the resolutions adopted on the last day, however, are of such a nature that nobody cares to push them over the precipice that way. They are usually of a

THE JAPANESE GET THE MONEY

To Redeem Their War Bonds, Aggregating $115,000,000.

San Francisco, April 22.—Korekiyo Takahashi, the Japanese financier, who has just completed his mission of floating loans aggregating $115,000,000 in London and Paris to redeem the war bonds of Japan, arrived in San Francisco on his way home yesterday. Talking of his work in London and Paris last night, Takahasha said:

"The loans floated abroad are now mostly held by London bankers, the stringency of money in Paris being chiefly responsible for this fact. Japan will pay 5 per cent for this money, which will be used in redeeming the 6 per cent bonds issued during the war. No difficulty is now encountered by Japan in raising money. Her credit has been unquestioned since her achievements in the war, and foreign capital is daily pouring into her in increased account.

"The United States bought about $60,000,000 of the war bonds, but has contributed little or no capital for investment in Japan since. The reason for this is patent. Men with money in the United States can get bigger returns for it here than anywhere else and they do not have to go abroad to seek investments. Japan will probably attract very little American capital while the present reign of prosperity continues in the United States. Just now she is getting most of her foreign capital from England and France."

ENGLISH DIVINE IN N. Y. PULPIT.

REV. CHARLES F. AKED,
Noted Campaigner Against Vice in England, Who Has Assumed the Pastorate of the Fifth Avenue Baptist Church in New York.

QUARTER OF A MILLION

In Bonds Stolen by Clerk of Trust Company.

W. O. Douglas Run Down by President of Institution.

New York, April 22.—The shortage in the accounts of W. O. Douglas, assistant loan clerk of the Trust Company of North America, who was arrested yesterday on a charge of stealing $50,000 in bonds from the institution, may reach a quarter of a million dollars. Douglas is said to have confessed to Oakleigh Thorne, president of the Trust company, at the time of his arrest, that he had made away with $50,000 in bonds, and today it was reported that he had made a

IS SENTENCED FOR GRAFTING

Mert H. Vought of Mellen, Wis. Given One-Year Term.

Ashland, Wis., April 22.—(Special to The Herald.)—Mert H. Vought of Mellen was sentenced to a year in the penitentiary by Judge Vinje today, the other two defendants in the Mellen graft cases, Collins and McDonald, were acquitted a month ago. All three defendants were convicted but were given a new trial. Three charges remain against Collins. This is the first conviction following the grand jury indictments of a year ago.

COMMITTEE OF EXPERTS FROM THE STEEL CORPORATION INSPECTING SITES ALONG ST. LOUIS RIVER

Officials From East Are Accompanied by Local Men.

Well Supplied With Maps and Charts of Localities.

Reports Will First be Made to the Corporation.

Plentifully supplied with maps and charts of the harbor, and with plats of the sites which they are to inspect the members of the committee of experts, accompanied by many of the prominent local officials of the United States Steel corporation, left the Union depot about 10 o'clock this morning on a special train.

They stopped at Smithville and inspected the old Ironton plant there, and also a large tract of land adjoining the plant. This has been the site most prominently mentioned in connection with the steel plant, and it has been rumored for several weeks past that options had been secured on a

AN UNKNOWN MAN DIES IN A SHACK

Body Discovered by Farmer on the Rice Lake Road.

Evidently a Woodsman Who Had Sought Shelter There.

Lying huddled in the straw on the floor of a deserted shack on the Rice Lake road just beyond the poor farm, the body of an unknown woodsman was found last evening by F. Fernandez, who lives in the vicinity.

"I went into the shack about a week ago," said Mr. Fernandez this morning, in reporting his find to The Herald office. "I saw the man lying there on the floor then. He was alive, but seemed to be sleepy or drunk, I don't know which. I woke him up, and tried to get some information out of him, but he didn't seem to be able to answer any questions, and I couldn't get any information out of him.

"There was some straw on the floor, and he had scraped this together and made a bed of it. He was lying there, and apparently didn't want to be disturbed.

"I went back yesterday afternoon and found him lying there. He was in another part of the shack, however, and had moved from where I first saw him. He was dead when I found him. I went and got Mr. Eischen to go with me to the shack to examine the body, and make certain whether or not he was dead. We found that he was all right.

"He was apparently a woodsman, about 45 years of age, and had long rubber boots and lumberman's sox on. He wore a beard.

"We did not disturb the body, but left it lying just as we found it."

Mr. Fernandez came to the city this morning and reported the finding of the body to The Herald office. The coroner was notified and he will send an undertaker after the remains.

AFTER GEN. NEPULEFF.

Sebastopol, April 22.—The petitions for the transfer of Gen. Nepuleff, commander of the fortress here, to some other command have resulted in his appointment to command Kovno fortress, but the revolutionary committee declares that the general will never leave Sebastopol alive.

PRAY FOR RAIN.

Havana, April 22.—Prayers were offered in all the churches throughout the island yesterday for rain, which has not fallen for six months. The country is parched, many cattle are dying and forest fires are devastating various sections.

H. L. F. LAGERCRANZ,
First Minister From Sweden to the United States, Since the Separation From Norway, Arrives to Assume His New Duties.

NO ANSWER TO LETTER

Written to Mrs. Eddy's Advisers by Plaintiff's Counsel.

They Asked to Have Committee Chosen to See Her.

Concord, N. H., April 22.—Counsel for the plaintiffs in the suit brought by relatives as "next friends" of Mrs. Mary Baker G. Eddy, against Calvin H. Frye and others, including officers of the Christian Science church, to secure an accounting of Mrs. Eddy's estate, made public last night a letter which is alleged to have been sent by them to Mrs. Eddy's counsel, Gen. Frank S. Streeter, on March 12. According to attorneys for the plaintiffs, no answer to this letter has been received.

The first part of this letter refers

(Continued on page 11, third column.)

STEAMSHIP ON A REEF

The Mongolia Runs Aground Near Mayeda Light in Japan.

Tokio, April 22.—The Pacific Mail steamer Mongolia, ran aground this morning near Mayeda lighthouse in the province of Nagato, Japan. The locality is full of reefs. The steamer, with a list of 45 degs., lies quite close to the shore, within reach of rescue from all directions. Her proximity to the land prevents any possible loss of life. The accident was caused by an attempt to avoid collision with a sailing ship.

The Mongolia is a twin-screw steamer with a registered tonnage of 13,639 tons. She was built in New York for the Pacific Mail Steamship company in 1904. She has but recently been put in commission again after repairs necessitated by grounding on a reef off Midway island, on which she struck on Sept. 16 last. She was floated again without outside assistance on Sept. 21. On her present trip she was homeward bound from Yokchama and was under command of Capt. Hathaway.

Moji, Island of Kiushiu, Japan, April 22.—The Mongolia is ashore between Kanabu Se and Dan No Ura beacons, in Hayatom strait, near here, and will probably be hauled off at high tide. The vessel is very much listed. She is afloat aft and hangs forward, but is not making any water. Attempts made to get the Mongolia off were unsuccessful. Further efforts to float her will be made at the next high tide. The prospects of success are considered good.

The Mongolia was bound from Hongkong, Shanghai, Nagasak and Moji for Yokohama and San Francisco. She left Nagasaki yesterday for Moji.

ENGINEER HARRY SULLIVAN KILLED

By Engine Going Over Embankment at the Kinney Mine.

Chisholm, Minn., April 22.—(Special to The Herald.)—An accident occurred at the Kinney mine on Sunday ot 5:30 a. m. The roadbed on a high grade gave away and an engine toppled over an embankment fifteen feet high. The fireman and brakeman jumped. The engineer, Harry Sullivan, was killed. He was 42 years of age. His remains will be taken to Chicago, where his family lives.

FIRE AT BRAINERD.

Brainerd, Minn., April 22.—(Special to The Herald.)—Fire destroyed about 500 poles in the cedar yard of McKinley & Co., on Sunday. Loss, $1,500; probably covered by insurance. The supposed cause is a cigar stub dropped by a passer-by.

VERDICT IS DIFFERENT

In Case of Collision Between British and German Steamships.

The German Court Finds That Both Are to Blame.

Bremen, April 22.—The verdict of the German admiralty court on the collision in November last between the North German Lloyd steamer Kaiser Wilhelm der Grosse and the British royal mail line steamer Orinico off Cherbourg is that the accident was "due to excusable errors on both sides."

The British admiralty court of Dec. 18 decided that the North German line steamer Kaiser Wilhelm der Grosse was alone blamable for the collision off Cherbourg Nov. 12 between that vessel and the British steamer Orinoco. The suit for damages was brought by the owners of the Orinoco.

According to the reports submitted to the captain of the port of Cherbourg by the commander of the Kaiser Wilhelm der Grosse, the German vessel was rounding the head of the dyke at Cherbourg when her captain perceived the Orinoco and "gave two blasts of his whistle as a signal for the Orinoco to keep to starboard." The Orinoco, the report added, did not respond and the signal was repeated from the Kaiser Wilhelm der Grosse, but still the Orinoco did not change her course and almost immediately afterwards crashed into the German steamer's starboard bow. The dispatch from Cherbourg regarded the Kaiser Wilhelm der Grosse as having been at fault, as she was running at the rate of eight knots an hour whereas the Orinoco was only running three knots and it was the former's duty to keep clear of the latter. Besides, the captain of the German vessel was blamed for discharging his pilot before the vessel was clear of the harbor. Thirteen persons lost their lives and fifteen were injured as a result of the accident.

TRYING TO HOOK A BIG ONE.

The biggest fish he caught, was the one that got away.

Weather Forecast: Partly cloudy tonight and Tuesday. Cooler tonight with lowest temperature 25 degs. to about 30 degs. Fresh northeasterly winds.

SUPPLY IS VERY LOW

Some Coal Dealers Are Now Purchasing From Others.

The Situation Hinges on Ice in the Soo Channel.

The coal situation at the Head of the Lakes is now dependent upon the weather, as it affects the Soo canal and the St. Mary's river. If the ice in that waterway opens up within the next few days, there will be no fear of a coal famine here and in other parts of the Northwest; but should the opening be inordinately delayed and no boats reach here before the first of May, the coal dealers are likely to find themselves in a situation where the supply will by no means equal the demand. In fact, they can't consider themselves in clover at the present time.

"Collectively, we will be able to pull through for a week or ten days yet, or possibly for two weeks," said one of the dealers this morning. "My company is pretty well fixed, comparatively, as we have a fair amount of the standard grades of hard and soft coal on hand, and we will be able to supply our retail trade, at least, until the boats get through the canal at the Soo. I can't say the same for the others, for some of the companies are entirely out of anthracite coal and others are out of bituminous. We who have coal on hand are selling to the companies less fortunate, and in that way we will all come out on top, providing the ice does not delay navigation too long altogether.

"We are shipping very little coal out of Duluth, although there are orders coming in. We will have trouble supplying our local trade, and we do not care to take any risks by sending out any more than is absolutely necessary. I don't think there is much danger of a famine, however, for the boats must come through soon, and there is plenty of coal waiting at Detour, the ice alone standing in the way."

All of the companies doing business in Duluth are anxiously awaiting news that the Soo waterway is passable, and if that news comes within a week, all fears will be dispelled. Every company has boats waiting at Detour with cargoes of coal for Duluth and Superior docks, and once they are able to work their way through the channel and make the run to Duluth, there will be no fear of an acute shortage of fuel. Fortunately the demand for coal by retail is not very heavy at this time, and the companies are husbanding their supply.

Duluth vesselmen seem to think that the Soo channel will be opened within a few days, as all day yesterday some of the coal companies kept a force of men at work coaling different boats, the masters of which wanted to be prepared to start the trip down the lake just as soon as the news comes that they can get through the Soo.

JAP ROSE transparent toilet and bath soap is made from the whitest, purest and best vegetable oils—OILS THAT YOU CAN EAT. Made by KIRK—sold by all druggists and grocers.

BODY IDENTIFID.

Janesville, Wis., April 22.—The body of a man found today in the river six miles south of this city, was identified as George Liepold of Bradford, Pa. Liepold was about 50 years of age, and had evidently been struck by a train while on the bridge and knocked into the river. The body had been in the water about six weeks.

ALDERMAN AS A COPPER

S. F. Staples Arrests Man Acting in a Disorderly Manner.

Domestic Arrested for Larceny is Put on Probation.

The princely stipend of $25 per month may do as recompense for the purely formal duties of the office of alderman, but when a member of the body attempts in addition to his routine duties to officiate as a police officer and succeeds in disposing of an obstreperous citizen as completely and successfully as Alderman Sam Staples did yesterday, there crtainly is a raise in pay coming to him.

Salamon Aho was rather liberally supplied with squirrel whisky, and it gave him strange delusions and desires. Salamon became imbued with the idea that he was the prize "lady killer" and that every woman he set eyes on was in love with him. In short, Aho was seized with a desire to kiss everything feminine in sight, and boarded a Lakeside car on the Bowery with this end in view. He made several ineffective attempts to accomplish his purpose on passengers on the car much to their discomfort and the car had stopped at Third avenue west when the alderman butted in.

"Here you," said Mr. Staples, collaring the man. "You come with me," and he led him protestingly in the direction of the St. Louis hotel. Just outside the hotel entrance he encountered Detective D. H. Irvine and turned Aho over to him. When arraigned in court this morning, Judge Windom fined him $12 with a ten-day jail alternative, which the Finlander took, having blown all the coin he had in the spree, which ended so disastrously. He admitted he was drunk and that he might have tried to kiss some one, but he was not sure.

* * *

Charged with having stolen from Miss Belle Jaques, at whose home she was employed as a domestic, various articles valued at $25, Bertha Schellberg, a 17-year-old orphan girl, was arraigned in the municipal court this morning on a petty larceny charge.

The case was reported to the police yesterday after the family of Capt. Ell Jaques, 2237 Minnesota avenue, had been missing various articles of value about the house for some time. She confessed to taking everything this morning when arraigned, but said she had no definite plan as to what she was going to do with them, and she simply picked them up because she thought they were pretty and had no idea of their value. Miss Jaques did not want to prosecute her after the arrest had been made, and the articles stolen had been discovered in the girl's satchel, and only swore out the warrant for a few of the less important articles taken. This kept the amount down within the petty larceny limit of $25, though the value of everything which had been stolen amounted to practically $200, it is claimed.

Judge Windom put the girl on probation for thirty days with instructions to report to Mrs. Forey, assistant humane agent, during that interval. If all reports are favorable, sentence will be suspended at the end of the period. He gave a little heart to heart talk before she left the room, however, showing her that if it had been a man, or one better versed in the ways of the world than she was, who had taken the things, the penalty would have been about five years at Stillwater.

HEAD OF FIRM IS ASSAULTED

Striking Cloakmakers Cause Much Trouble in New York.

New York, April 22.—Striking cloakmakers at the establishment of Oscar Margolin & Son, Lispenard street, assaulted the senior member of the firm, created a riot in which several hundred persons participated, and finally were dispersed by the police. Four of the strikers were arrested, Harry Silverstein, the alleged leader of the outbreak, was held in $1,000 bail for the grand jury, on a charge of felonious assault. The others, Barnett Remenskoff, Abraham Lish and Copeland Schuman were released upon payment of fines of $10 each.

There has been a strike on at the Margolin cloak factory for several weeks, and the strikers have been so belligerent that a special detail of policemen has been constantly on guard at the factory. When Margolin and his son, Samuel, were about to open the door today, they were met at the door by a committee of strikers, with Silverstein at the head. Margolin was told that he could not talk business with them on the street. Heated words followed, and a moment later a free-for-all fight occurred. A dozen policemen were called to the scene before the riot was quelled. The police used their clubs freely, and finally, with drawn revolvers, succeeded in arresting the quartet of leaders.

MANY ATTEND THE SERVICE

Chas. M. Hunt and Dr. Saltau Greeted by Large Audiences.

Two large audiences attended the services held yesterday at the Central Baptist church to hear the famous evangelists, C. M. Hunt and Dr. Saltau, who have been assisting in the revival campaign at Superior during the last two weeks.

Evangelist Hunt delivered a stirring and practical sermon at the morning service while Dr. Saltau preached at the evening service. Both of these men are famous throughout the country for the work in this line, and Dr. Saltau, who comes from London, has worked in all parts oftheworld.

Miss Ingram will organize classes in dancing the first week in May, at Steinway hall.

Regular Charge Accounts can have present purchases charged on their May account and bill rendered June 1st.

Giddings Will Begin Tomorrow a Sale of Three Hundred High-Class Tailor-Made Suits

For Women in the Season's Newest and Most Fashionable Models at Very Great Reductions From Former Prices.

The Styles Are Etons, Pony Etons, Tuxedo Etons, Prince Chap Suits, Tight-fitting Hip Length Suits, Tight-fitting Cutaway Suits and various other New and Fashionable Models.

The Materials are Imported Check and Stripe Worsteds—Plain or Fancy Mannish Grey Worsteds—Plain and Novelty Panamas—Plain and Novelty Worsteds—Fine Broadcloths and Voiles.

The Values offered are by far the best ever placed before a Duluth buying public at this season of the year and include some of the handsomest and most fashionable garments we have had in our establishment this season—

We inaugurate the sale at this time because we believe many patrons of this store will more fully appreciate these splendid buying advantages at the beginning of the season, rather than wait until the season is about over and we have decided to *"do it now!"*

The Suits will be arranged on Special Racks so that you may go through them and select the style or shade of garment that suits you best, every one of them from our regular stock and every one of them with the Giddings label, which stands so much for style, quailty and good wear.

The regular prices are on the tickets—the sale price in blue on the reverse side—and let us say it again that this is the most important selling of high-class apparel ever placed before the Women of Duluth as you will see by a glance at the garments themselves in the store or in our show windows, which will contain many good examples tomorrow morning.

60 Suits—Formerly $29.50 to $32.50 — **$18.50**

80 Suits—Formerly $42.50 to $49.50 — **$32.50**

72 Suits—Formerly $35.00 to $39.50 — **$25.00**

52 Suits—Formerly $52.50 to $59.50 — **$39.50**

The balance of the lot that go to make up the total of over three hundred consist of ones and twos, of the very highest type of suits, ranging in price from $62.50 to $97.50 and will be on sale at the same proportionate reductions. Alterations on these sale suits will be charged for at cost—none will be sent out on approval under any circumstances. **Regular charge accounts can have present purchases charged on their May accounts for which bill will be rendered June 1st.** None of these garments will be sold before **9 a.** m. tomorrow morning and we reserve the privilege of withdrawing the sale at any time.

SPRINKLING WEDNESDAY

Fifteen Wagons Will be Put in Service Soon.

Contracts for Season Are Let for Thirteen Districts.

After a day of conflict with minature sandstorms on all the well travelled streets of the city caused by the high wind and warm sun of yesterday acting together upon the thus far unsprinkled roads, Duluthians will be glad to learn that bids for sprinkling contracts were opened by the board of public works this morning and that by Wednesday the whole force of fifteen sprinkling carts will be going their monotonous but effective rounds through their respective districts.

Up to yesterday but three wagons, operated by day labor, were being operated in Duluth, one in the West end and two in the main part of the city. They were entirely ineffective as far as protecting the garments and faces of pedestrians from dust were concerned; and the upper streets in the main part of the city and all avenues in the outlying districts were rendered most unpleasant for pedestrianism and other classes of travel by the dust clouds which went tearing down the avenues before the wind.

By Wednesday, however, all of the force will be at work again and the much needed water will be applied to the roads.

The bids average, it is thought, a little bit higher than those of last year, though the rearrangement of districts has made it hard to judge as to this, and the raise is very evidently not more than would be necessitated by the increased cost of labor and feed. The lowest bids for the various districts and the men to whom the contracts will be awarded are as follows: First district, Sam Scandin, $139.50; second district, Sam Scandin, $129.50; third district, F. Shapiro, $133.50; fourth district, Dominick Scandin, $129; fifth district, S. Goldfine, 142.75; sixth district, Rocco Mari, $121.93; seventh district, Rocco Mari, $119.25; eight district, I. Shapiro, $133.50; ninth district, Bruno Werner, $140; tenth district, Sam Scandin, $135; eleventh district, Sam Scandin, $143.50; twelfth district, $153; thirteenth district, Swan Johnson, $99.

The above bids are by the month, and the rent for the sprinkling carts, $5 per month, and the price of water used, which ranges from $24 in the thirteenth district to $56 in district No. 12, are to be figured out of the contractor's profits. There were nineteen bidders on the various districts and there were some very close bids, $1 being the margin in several cases. It will be seen that Dominick and Sam Scandin have six districts to care for between them, probably more than they figured on, and should it be desired by them they will be released on one or two of them and the job turned over to the next bidder, who was nearly as low as the Scandins.

Bids for hardware and maintenance supplies were also submitted to the board of public works this morning.

STATE COMMITTEE ENDORSES COL. COLT.

Providence, R. I., April 22.—The Republican state central committee, at a meeting today, passed resolutions indorsing Col. Samuel Pomeroy Colt as the majority candidate for the Republican party for the United States senatorship. The vote was 9 to 4.

Grand Chorus

Of fifty voices, Normanna-Svea singing contest, Lyceum, May 5th.

THOSE WHO HAVE PASSED BEYOND

Sioux City, Iowa, April 22.—Thomas W. Bishop, one of the best known newspaper men in South Dakota, died of paralysis last night at Salem, S. D.

New York, April 22.—"Matt" Hicks an old time baseball player, who played with the old New York Mutuals and the Cincinnati Red Stockings, and who is credited with being the first man to catch of the bat, was found dead in a room in Naegeles hotel in Hoboken yesterday. Hicks, who was the manager of the billiard room at the hotel, was asphyxiated by gas, which had probably been turned on accidentally. He was 60 years old.

Baltimore, April 22.—During the progress of the meeting of the board of directors of the Hebrew Orphan asylum yesterday afternoon, the president, Moses J. Oppenheimer, began to read his annual report. He had finished the first page when he suddenly fell dead, a victim of heart disease.

Columbus, Ohio, April 22.—John Orson Johnston, president and general manager of the Columbus Gas & Fuel company, fell dead yesterday at the telephone in his residence, as he had finished a conversation with his family physician making an appointment for a conference. Mr. Johnson had been in ill health for a year.

Upsala, Sweden, April 22.—Frans K. Jellman, professor of botany at Upsala university, died today. He accompanied Nordenskjold on several of his Polar expeditions.

Miss Ingram

Will organize classes in dancing the first week in May, at Steinway hall.

PAK YONG WAH KILLED.

London, April 22.—A dispatch from Tokio today announced that M. Pak Yong Wha, chief of the board of auditors of the Korean imperial household, was assassinated at Seoul last night. The deceased formerly was first secretary of the Korean legation at Tokio.

TAFT GETS BACK.

Norfolk, Va., April 22. — The converted yacht Mayflower having on board Secretary Taft and party, returning from the South, passed in the Virginia capes today and proceeded up Chesapeake for Washington, where immediate preparations will be made for the president's trip to the opening of the Jamestown exposition.

WOMEN WHO SHOOT ELK.

New York Times: One of the most interesting exhibits at the sportsman's show at Madison Square Garden is a collection of three large elk, the result of the rifle work of two women, who shot the elk in the wild part of Wyoming. In the neighborhood of Jackson's hole, near Mount Teton, where President Roosevelt shot some of his biggest game on his hunting trip three years ago. These elk heads are the first ever exhibited as trophies of women shots. The largest and smallest of the two were shot by Miss Annetta Newell of this city, who spent two weeks hunting under the care of John Goff, who was President Roosevelt's guide.

L. H. Joy, a ranchman in that territory, and now a visitor at the sportsman's show, was one of the party with Miss Newell when she bagged her big game. He says that when Miss Newell made her first visit to the elk country she saw the buck coming in her direction. She got a bead on it and then became tearfully hysterical and threatened all kinds of trouble because Goff shot it. The second year that she visited the locality she was able to hold her own with any of the hunters. On the trip she bagged the two elk whose heads are on exhibition. It was necessary for her to travel several miles over rough trails and a long distance up the side of the mountain, the distance proving too great and hazardous for the majority of the male members of the party. She succeeded in making the kill, and, while she did not get the biggest head of the season, she did get the biggest head that any woman has ever shot in that part of the country. The smaller elk was shot by her after all the other members had abandoned hope for the day and returned to the camp. The other elk head was shot by Mrs. Rupernahn of Butte, Mont., one of the best women shots in the West.

If you are selling enough goods, then your advertising in The Herald is sufficient.

The "Most Perfect Food" for Children

Children fed on white flour bread and pastries become pale, flabby and toothless, with no mental or physical vigor. The ideal food for growing children is

Shredded Wheat

because it contains all the elements for making good brain, healthy tissue and sound teeth. Keeps the stomach sweet and clean, and the bowels healthy and active.

For breakfast heat the Biscuit in oven to restore crispness, pour hot milk over it, add a little cream and a little salt; or, sweeten to taste. Shredded Wheat is also delicious and wholesome for any meal in combination with fresh or preserved fruits. At your grocers.

LARGEST IN THE WORLD

Atlas That Comprises Forty Volumes, Weighing Twenty Pounds Each.

Deals With Management and Improvement of National Forests.

Washington, April 22.—(Special to The Herald.)—The largest atlas in the world is not advertised for sale, nor would the most adventurous of book agents undertake to carry it as a sample unless he were indeed a descendant of old Atlas himself. It comprises forty volumes—not books such as would stand on library shelves and be called octavo, quarto, or even folio, but would be designated among book experts as F7. This means that each volume is greater than folio size, and that its height is between sixty and seventy centimeters; in this case, 22 inches. They weight about 26 pounds each, or a total of 800 pounds, although aluminum, the lightest of available metals, was used in constructing the binding covers. The finish is in red Russia leather and slate-colored canvas; both fitted to stand the most wear and show it least.

The volumes are contained in specially constructed steel cases, and lie flat upon separate shelves which are fitted with rollers on the bottoms, sides and tops. It is, therefore, impossible to injure one of them in removing or replacing it for reference. The cases extend around a room which is devoted to the atlas only, and are at such convenient height that the volumes may be reached without stooping towards the floor or reaching higher than the shoulder. When not in use they are covered and protected by sliding steel curtains.

This atlas is unique in other features. It is not only the largest and only one of its kind, but inasmuch as most of its pages are original drawings or typewriting, it can be corrected right up to date. It ranks among the immortals, for it can not grow old. A mechanism in each binder permits it to be unlocked with a key, so that new maps or pages of data may be inserted in the proper place, and a useless or "dead" map may be removed if it encumbers the record or is misleading.

Of course there is a reason for the compilation and assembling of such a vast amount of graphic data and statistics; requiring a corps of skilled men and women. It deals with the management and improvement of the extensive national forests of the United States and its territories; a great landed estate which is to be the heritage of the greater United States; a birthright for the future.

The national forests are for the use of the people, but in such a way as will insure their perpetual value for protective purposes, timber supply and for the grazing of stock. Our lavish destruction of salmon, lobsters, buffalo or seals, were errors which can be corrected within a short period of time, but if we destroyed our forests without replacement, it would be a sin which we have no right to commit against our grandchildren.

The sale of timber or privileges by the government is in some respects a different transaction from the ordinary business principles with which we are familiar. A successful merchant has only to buy wisely and sell at a profit which will cover all his risks. The government reaps where it has not sown, but proposes to sow now that the equilibrium of nature may not be disturbed. It charges for timber and privileges to cover the cost of maintaining and increasing the supply. In each transaction it is necessary that all the conditions be considered, that justice be done and good result. The atlas is to supply the necessary facts.

Suppose a citizen desires to purchase a certain amount of timber from one of the national forests. The questions of agreement arise over the price to be paid and the conditions of the sale. There are a number of conditions under which the government is most anxious to sell. A forest may be overmature; it may be a benefit to a growing forest to thin out the stand, for the light and air will increase the yield of the remaining trees; the amount of dry, dead and down timber may be a menace to more valuable adjoining areas, for forest fires are very destructive; it may be necessary to stop the ravages of bark-beetles and to sacrifice infested areas. It is only in the atlas that such facts could be kept in convenient form for the millions of acres covered by national forests.

In addition to the limited free use which actual settlers enjoy, there are conditions under which the cash price for timber must be low to be equitable. The trees may be almost inaccessible and it will be expensive to get the logs to the mill; there may be considerable underbrush to be removed; it may be an uphill pull to the mill; the wood may be inflammable, and, therefore, the limbs and tops must be disposed of without endangering the standing forest; the timber may be for local use, to assist enterprises which will help the people. The atlas is a collection of all kinds of information which will help the expert who consults its pages when dealing with the public. It shows the topography and streams, roads, railways and trails; houses, schools and other structures; the title to the lands; the stand of the forests and the species represented; the locations and dates of burns and cuttings, and if they are restocking with young trees. It also contains a history of each national forest from the time that it was created by proclamation of the president of the United States. Truly, it is a valuable compilation, so valuable that for its thousands of pages only the best papers and inks are used, and all of the maps are mounted on muslin. It should be in good condition fifty years hence, when some of the baby trees in the present national forests have demonstrated the wisdom of conservative lumbering.

TRAGEDIES IN IOWA.

Series of Murders, Suicides and Other Violent Deaths.

Des Moines, Iowa, April 22.—Iowa experienced a record in tragedies Saturday.

Ovid Thompson of Blockton concealing himself in a deep brush, brutally shot to death Mrs. Sallie Morgan, the wife of a wealthy farmer. The woman was walking in the woods with Russo Thompson, the murderer's brother. Both men clinched in deadly battle for possession of the weapon which the slayer finally secured and sent a bullet into the breast of his brother. Then rushing home he shot himself to death with the revolver. An unnatural and unrequited love was the cause.

At Plymouth, Joseph Havel killed his wife, shot at his daughter and ended his own life, following a suit for divorce.

At Lamoni, Miss Laura Lovell was fatally injured in a runaway.

A 6-year-old daughter of Eli Moon was burned to death in a fire near Knoxville after her 8-year-old brother, Roy, had fought desperately to save the life of his little sister. The children were playing in a meadow where dry grass was burning, when a high wind swept the flames into the girl's clothing. With his bare hands the boy tried to put out the flames, but his heroic efforts were futile.

COURT ENJOINS LOVER.

Is Ordered to Leave Des Moines Young Woman Alone.

Des Moines, April 22.—James Patton was enjoyed by the court Saturday from making love to Miss Katherine Homan, daughter of a Grand avenua family here. The girl complained that Patton persisted in calling her by phone, meeting her as she went to church and otherwise annoying her. The court placed him under $500 bonds.

CAMP BEEF SELLS HIGH

The Light Receipts Have Forced Prices Up Considerably.

Other Meats Are Also Selling at Higher Prices.

Camp beef, the grade that is bought by the lumber concerns and logging contractors to supply their camps is so hard to get that the price has reached a higher figure than the meat has sold for in many years. During the past winter camp beef sold for about 5 cents per pound, but now the packing houses ask 7 cents and, even at that figure, they are having difficulty in filling orders.

The fresh beef market in all grades is similarly affected, though not, perhaps, to so marked a degree as camp beef. All the choicer grades of beef are higher by reason of a shortage. It is understood that the branch offices of the packing companies have placed many carload orders with the main houses, but that the receipts have been light for some days past.

Pork has showed a steady advance until the packing houses are now selling pork loins to the retail trade for 13 cents, where several weeks ago they were selling 9 and 10 cents a pound. Nearly all the pork products have advanced in proportion, with the exception of lard.

Mutton is also selling higher than at the beginning of the month.

ASSUMES HIS NEW PASTORATE

Rev. Charles Aked of England Preaches His First Sermon.

New York, April 22.—Rev. Charles F. Aked, for sixteen years the pastor of the second largest Protestant church in England, where he gained a wide reputation by successful campaigns against all forms of vice, yesterday formally transferred his activities to America, and assumed the pastorate of the Fifth Avenue Baptist church of this city. Dr. Aked's labors in Liverpool, where he was pastor of Pembroke chapel, drew the attention, not only of all England, but even of Europe because of his extraordinary ability as a preacher.

Dr. Aked first preached at the Fifth avenue church early last winter and left a deep impression upon the members. Subsequently a call went out to him to serve as pastor of this influential New York church—a call which received the earnest endorsement of John D. Rockefeller, who is one of the pillars of the Fifth avenue congregation.

The new minister's sermon yesterday was in the nature of a message to the American people. Dr. Aked declared he was here to preach to all men—to take his place with the leaders of all the churches, and to summon all his energies to battle with the problems that trouble American life. He could not, he declared, join a narrow church. His is to be the ministry of reconciliation—unfettered and unbounded.

Prominent among those present yesterday was John D. Rockefeller, Jr., directors of the church's Bible class Mr. Rockefeller, Sr., was not present at the morning services, but participated in the evening services.

MUSTACHIOS WON.

French Waiters Victorious in Fight to Retain Hirsute Adornment.

Paris, April 22.—Garcon may now wear his moustachios. He not only may but probably will. Restaurant-keepers have awarded to their striking waiters permission to assume the hirsute adornment without which a true Frenchman thinks he is, as President Roosevelt would say, a "mollycoddle." A reduction of 50 per cent in charges against the waiters was also granted and waiters are now in a position to earn an average of $4 per day, remuneration far above the average wage of working people in France.

Can't look well, eat well or feel well with impure blood feeding your body. Keep the blood pure with Burdock Blood Bitters. Eat simply, take exercise, keep clean and you will have long life.

HAPPENINGS IN THE DAKOTAS

Rotten Ties Declared to Have Caused Oriental Limited Wreck.

NORTH DAKOTA.

Grand Forks—That the ties of the Great Northern railway were rotten at the point where the Oriental limited wreck occurred last Monday morning and were in such bad shape as to be unfit to hold the rails, is the startling charge made by Charles Wehe, a traveling man, who makes Grand Forks his headquarters. He was a passenger on the ill-fated train and asserts that some of the ties were so rotten that the center had all dropped out and there was nothing left to hold the spikes.

Arne Rossland of Grand Forks is believed to have been one of the victims of the Great Northern Oriental limited wreck Monday. He left on the limited for Williston and has not been heard from. An investigation proves that he has not arrived at Williston. Four persons were burned in the wreck beyond recognition. Rossland has a wife and children here.

Fargo—The committees of the North Dakota Bankers' association and the American Society of Equity will meet at Grand Forks within a week to discuss the erection of a terminal elevator at Superior. The movement to secure the co-operation of the bankers' was started at the session of the Society of Equity here last week. The bankers are backing the plan to boost the price of grain.

Following a divorce several weeks ago of J. J. Crowell and Ella J. Crowell at Brainerd, Minn., there has been two marriages in Fargo, Crowell was the first to rush into wedlock, selecting this time, Mary Dykeman, an 18-year-old girl. Mrs. Crowell followed suit Friday night, W. C. Munyon of Hope being the man selected as No. 2.

The next Red River valley whist tournament will be held in Fargo in March, 1908. The result of the games was a victory for Mayville with Fergus Falls, Elendale, Fargo and Brainerd in the order named.

At the exhibits of drawing of schools and technical institutions to be held in Cleveland, May 7-10, the Fargo schools will be represented. Several specimens will be sent and Miss Rose of that department of the schools here may accompany them.

SOUTH DAKOTA.

Pierre—The Indian council which has been in session at the Cheyenne River agency the past week, has adjourned, its principal action being to vote for the lease to the Ute Indians and to provide for an extension of the lease of the cattle trail to the Milwaukee road, which the road expects to use for part of the summer. The Indians also arranged for an elaborate Fourth of July celebration at Virginia Creek, about twenty-five miles from the agency. Indian Commissioner Leupp is expected to be present at that time.

What came near being a tragedy in the homestead settlement occurred about twenty-five miles up Bad river this week. Scott Smith, a young man holding a claim, was attacked with rheumatism and was unable to leave his bed, and was without food thirty-six hours. When his condition was learned, friends here sent out a carriage to bring him to the hospital, but it was found he could not be moved, and he will be cared for at the claim.

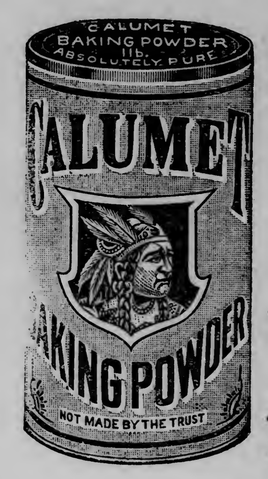
Madison—Madison will try to capture the state home which the Odd Fellows of South Dakota will establish, the contributions now reaching more than $20,000. Dr. Clough, president of the Commercial club, was authorized to offer a site and rock with which to construct a building in the event that Madison is selected as the location.

Used In Millions of Homes

Calumet Baking Powder

Complies with the Pure Food Laws of all States.

Calumet Baking Powder



Makes light, wholesome and easily digested food for the most delicate stomachs.

Calumet Baking Powder

is made from the finest materials possible to select. No Rochelle Salts, no Tartaric Acid, no Alum, no Lime, no Ammonia in Food prepared with **Calumet Baking Powder, Because** by the use of modern chemical methods the materials are so accurately proportioned and perfectly mixed that a complete neutralization occurs.

Calumet Baking Powder

The only high grade powder sold at a moderate price. It is recommended by leading physicians and chemists.

Calumet Baking Powder

Has for years offered **$1,000.00** for any substance injurious to health found in their baking powder.

TO MEMORY OF FRANK HIBBING

Proposal to Erect Monument in Town Which He Founded.

Hibbing, Minn., April 22.—A movementhas been started in Hibbing for the erection of a monument in honor of the founder of the town, and what Hibbing undertakes it carries through to a successful termination. Mrs. Frank Hibbing, relict of the founder of this metropolitan city, has been communicated with and if she consents, a Hibbing monument fund committee will start the work forthwith.

No plans have been made as yet, but it is certain that a monument to do honor to the memory of the intrepid explorer who tramped the floors of the almost primeval forests of the Mesaba wilderness will be the outcome of the movement. Mr. Hibbing explored the Mesaba country in the early '90s, and in the summer of 1893 made his camp under the tall pine trees where now stands the city that bears his name. Mr. Hibbing died five years later—before the full realization of his fondest wish.

It is proposed to erect the Hibbing monument at the race course grounds, which in time is to become a city park. The state of Minnesota has donated the forty acres of ground, one mile west of town, containing the race course, to the village for park purposes, and for the use of the agricultural society. It is the purpose of the St. Louis County Fair association of Hibbing to not only improve the land for its own use, but to make of it a park that will be a lasting blessing to the residents of the town.

Mandy—Hives and other blotches are supposed to be caused by an acid stomach. A simple remedy, and one that is very effective, is Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. Ask your druggist.

BRIEF TELEGRAMS.

Snow fell at El Paso, Texas, Sunday morning at a lively rate for more than an hour. This is the latest snowfall ever known here and the temperature, which was 36 degs., did damage to the small fruit and truck gardens in the valley, variously estimated at from $50,000 to $100,000.

Because she was afraid she was losing the love that meant more than life to her, Isabelle Bouttelot, a pretty French girl, killed herself Saturday night in New York, having sought her lover's room as the place to die.

A body, supposed to be that of Peter J. Kennedy, a well known theatrical manager, who disappeared in December last, was found in the water Sunday night off South Brooklyn.

Three men were injured, two seriously, a large automobile wrecked, and the front of the Krueger Automobile garage blown out by the explosion of an acety-

CASTORIA

For Infants and Children.

The Kind You Have Always Bought

Bears the Signature of Chas. H. Fletcher.

lene gas tank Sunday afternoon at Oshkosh, Wis. The injured are: Frank Blumhart, Henan, Frederick Streich.

Diamonds valued at from $12,000 to $15,000 were stolen early Sunday by burglars, who blew the safe of John Daynes & Sons, jewelers, at 26 Main street, Salt Lake City.

Tom Osadasia, an Italian, living in the Italian settlement on Hill street, Cleveland, was stabbed and killed Sunday night, while attending a christening at the home of friends. His assassin escaped.

The killing of four bulls and four horses in the Juarez bull ring Sunday afternoon was witnessed by over 1,000 tourists, who braved the cold weather.

Doing Business Again.

"When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and general debility" writes A. A. Chisholm, Treadwell, N. Y., "and when it looked as if there was no hope left, I was persuaded to use Electric Bitters, and I rejoice to say that they are curing me. I am now doing business again as of old, and am still gaining daily." Best tonic medicine on earth. Guaranteed by all druggists. 50c.

HELD FOR FIRST DEGREE MURDER

Keaton Willis Charged With Murder of His Father.

Grand Rapids, Minn., April 22.—Justice Bailey of this city has bound Keaton Willis over to the grand jury on the charge of murder in the first degree. He is accused of killing his father at Deer River. An attempt will be made to get bail for young Willis. The testimony given at the preliminary hearing was about the same as that at the coroner's inquest. Marshal Twohy of Deer River, a new witness in the case swore that he had seen the defendant at the jail in Deer Ricer after he (Willis) had shot his father, and Willis had stated to him that he had acted in self defense, but that he was glad "the old man was killed."

John Meagher, who was bound over to the grand jury on the charge of manslaughter in the second degree, was released on $1,000 bail. At the preliminary examination it was shown that Daniel Frawley, who was killed, had been kicked in the head by a horse, but Meagher was bound over on the ground that he had pushed or caused Frawley to fall against the horse. Meagher is well known near Northfield where he owns a farm.

PLUCKY TEACHER.

Miss Agnes Reed Conducts School With a Broken Leg.

Pittsfield, Mass., April 22.—Miss Agnes Reed of Dalton, teacher of the North school in Washington, has shown herself to be of more than ordinary pluck. While coasting she suffered the fracture of the small bone near the ankle bone and a sprain, as well as being bruised, but taught school nearly two hours, although unable to stand.

The hill near her school was excellent coasting, having been made icy by the warm days and cold nights. She and a number of her pupils were out coasting in the morning just before time for the session to begin. There were several bare spots near the bottom of the hill, the upper part of which is protected from the sun by trees, and the double runner struck one on these while going at a high speed, throwing the occupants off. Miss Reed's foot caught in the sled and when she attempted to rise she found that she could not stand up.

The pupils put her on the sled and took her to the schoolhouse, carrying her into the building on a chair. She heard her classes as usual, although her injuries continued to grow constantly more painful, until nearly 11 o'clock, when she was obliged to give up and be taken to the home of Frank Schutt. Mr. Schutt advised that she go to Dalton where she could be better cared for, and took her to Copake, catching the noon train and then telephoned her brother, who met her in Dalton.

BIG JUNKET TO HAWAII

A Large Congressional Party Will Sail on Buford April 30.

Washington, April 22.—The congressional party that is to visit Hawaii on the invitation of the legislature of that territory in order that it may personally become acquainted with conditions there, will assemble at Chicago on April 26. The members will go to San Francisco in a special sleeper attached to the overland limited and will sail on the transport Buford on April 30. The party who will be in charge of George McClellan on behalf of the delegates from Hawaii, consists of Senator Samuel H. Piles of Washington, Representatives W. B. Hepburn and wife, Iowa; A. B. Capron and wife, Rhode Island; E. L. Hamilton and wife, Michigan; A. L. Brick and wife, Indiana; J. V. Graff and wife, Illinois; Charles E. Littlefield and wife, Maine; E. E. Acheson and wife, Pennsylvania; J. Warren Keifer, Ohio; R. D. Cole, Ohio; Charles McGavan, Illinois; W. W. Wilson, Illinois; James H. Davidson, Wisconsin; George L. Lilley and wife, Connecticut; Arthur L. Bates, Pennsylvania; D. S. Alexander and wife, New York; Benjamin F. Howell and wife, New Jersey; John J. Fitzgerald, New York; James P. Conner and wife, Iowa; E. O. Ellis and wife, Missouri; George W. Norris, Nebraska; P. P. Campbell, Kansas; Fred C. Stevens and wife, Minnesota; Edwin Y. Webb, North Carolina; James McLachlan, California; Wesley L. Jones and wife, Washington, and James C. Needham, California.

The party will return to San Francisco early in June.

LAST IMPORTANT MEASURES COME BEFORE LEGISLATURE

(Continued from page 1.)

and referendum bill be made a special order for this afternoon, but the house was in no mood for special orders on matters of such importance so late in session, and voted his motion down. This means that the bill will not pass.

• • •

The Peterson committee to investigate the Minnesota Shippers and Receivers' association presented bills amounting to $335 for witnesses and attorneys' fees, and the house voted it down, because the committee was not authorized to incur any expense. The vote was reconsidered, and the bill put into the hands of a special committee to look into it.

• • •

The house refused to accede to the senate's request to return the anti-pass bill for correction, and again requested the senate to appoint a conference committee on the bill.

• • •

Representative Wells secured the passage of the bill covering back into the treasury $34,000 of the $50,000 appropriated to enable the attorney general to fight the rate cases. In voting upon it Representative Tighe stated he could see no reason for such a bill, except to boom the attorney general's ambition to be governor, and he wanted it understood that in voting for it he did not commit himself to the attorney general's candidacy.

• • •

Representative W. I. Nolan moved that the conference committee on the municipal ownership bill be discharged, and later he will move that the house concur in the senate amendment. He did this because he understood that the senate has framed it up to kill the bill if it comes back there.

• • •

The house committee that investigated stories in a St. Paul paper about the St. Peter insane asylum reported that the stories were based on heresay and were not to be relied upon, but that it found conditions none too good at the asylum. The attendants are too few and generally incompetent.

• • •

The bill allowing the state printing to be done outside the state was passed by the house.

• • •

Representative Peterson tried to pass his bill prohibiting corporations and associations from putting candidates on record by threats or promises, but, on motion of Representative Rockne the bill was put back on the table, where it will remain.

• • •

The senate passed the house bill, allowing the sale of municipal bonds by popular subscriptions in amounts of $100 upward.

• • •

Representative Fosseen called up the house resolution, calling on Roosevelt to run for a third term, and, on motion of Senator Calhoun, the resolution was laid on the table.

• • •

Senator Peterson announced that the Milwaukee road has accepted the 2-cent passenger rate and the new commodity rates.

• • •

An attempt to advace the house agricultural bill in the senate was lost 29 to 24.

• • •

After another debate over the expense accounts in the Hackney-Butler contest, amounting to about $2,000 each, the senate this morning allowed the contestants $1,000 each.

STILLMAN H. BINGHAM.

COMMITTEE OF EXPERTS

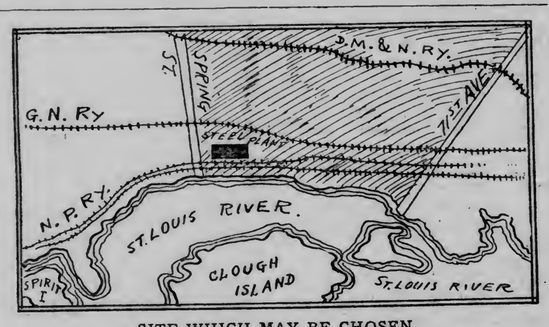
(Continued from page 1.)

large tract of land in this vicinity.

After going over the ground thoroughly, the party again boarded the train and proceeded on up the river to Fond du Lac. It is likely that the party will go as far as Thomson and perhaps look over the power company's plant before returning.

The committee is headed by W. B. Dickson of New York, who was also at the head of the committee which visited Duluth in March to determine whether or not the plant would be profitable and practical in Duluth.

Mr. Dickson is second vice president of the United States Steel corporation and one of the most prominent officials of that company. The other members of the committee are. B. M. Robinson of Chicago; J. S. Keefe of Chicago; F. H. Daniels of Worcester; E. E. Slick of Pittsburg; Edward M. Hagar of Chicago; John Reis of Milwaukee; George L. Reis of New York, and M. A. Neeland of New York.



Arrangements have been made to entertain the distinguished visitors at a banquet at the Commercial club this evening, and about forty or fifty prominent Duluth citizens have been invited to attend the gathering. Dinner will be served at 7 o'clock.

The members of the committee are registered at the Spalding and they will remain in the city until tomorrow morning, when they will return to the East.

It is unlikely that any definite information regarding the selection of a site for the plant will be given out at this time.

The committee is an advisory body only, and while its recommendations regarding the site will doubtless be accepted, it will have to present a report to the directors of the corporation or the finance committee. The announcement of the selection of a site will probably come from the East, therefore.

While nothing definite can be known concerning the site until this announcement is made, there is little question but that it will be along the shore of St. Louis river, some place between the blast furnace and New Duluth. The Ironton site, which includes a strip of property, from about Seventy-second avenue west to the old Ironton plant, is generally considered as being the most probable location, and real estate men predict that it will be chosen.

SITE WHICH MAY BE CHOSEN.
(The "Steel Plant" Marked Is the Old Ironton Mill.)

HEAVY RAIN AT MOBILE.

Mobile, Ala., April 22.—From midnight last night until 8:30 this morning Mobile was visited by a torrent of rain, delaying trains and interrupting wire communication. In many sections of the city the streets were covered with water, one to two feet in depth. Children are unable to reach the schools, and the schools were closed.

CONVENTION OF LEAGUE

Christian Endeavor Societies Hold Session at Lester Park.

Officers Elected and Various Lines of Work Discussed.

The annual session of the Duluth district of the Epworth League was held Saturday at the Lester Park M. E. church.

The afternoon session of the convention was opened at 2 o'clock with devotional exercises led by Rev. Thomas Grice of West Duluth, after which Mr. Brown, president of the district league took charge of the meeting. After the reading of the minutes of the morning session, Mr. T. L. Dunn, superintendent of the Star of Hope Mission spoke on the subject of "Our Soul Saving Station on the Bowery."

Mr. Dunn is a very good example of the kind of work that is being done by this mission. He said that the Star of Hope mission and other missions in the different cities where they are located, reached a class of people who could not be reached in any other way.

A. R. Merritt spoke further on the subject of missions and a discussion of this subject followed. Rev. J. W. Robinson, Rev. J. A. Geer, Rev. Thomas Grice and Rev. M. S. Rice of the First M. E. church spoke on the subject.

The next topic was "Revivals and Civic Problems," which was very ably handled by Mr. Rice.

"He said the country needed men who were able men, such as fear God, men of truth, hating covetousness, and well known men. "If these kind of men were put into office, we would not need to worry about the problems that arise from corruption.

"There is nothing politically right that is morally wrong," he said.

Rev. H. K. Madsen of the Danish-Norwegian M. E. church, was to have led the discussion, but as he was unable to be present, A. R. Merritt was called upon. He said he wanted to emphasize the statement made by Mr. Rice that the Christian citizens of this country could rule if they could only get together.

After a few remarks by Rev. E. C. Clemans, the presiding elder, the meeting was adjourned until 7:45.

The evening session opened with a song service, after which Mr. Piquette led the people in a prayer in Chippewa. The minutes of the afternoon session were read, followed by a solo by James C. Myron, which was well rendered. The nominating committee presented a list of names for the different offices of the Duluth District Epworth league.

A. E. Brown was elected president, and Mrs. James McDowell corresponding secretary.

Rev. George S. Innes of St. Paul spoke on Hamline university, telling of its work and the different courses. As Mrs. Logan of Virginia could not be present, Edward Ranck of the First M. E. church, spoke on "The Social Department—Its Work in Evangelism." This work was discussed by different leaguers present, and a social hour brought the session to a close.

QUARTER OF A MILLION

(Continued from page 1.)

written confession to Mr. Thorne in which he had admitted that the total value of bonds taken by him would reach $250,000. The bonds are said to have been turned over to a Wall street broker who is believed to have acted for Douglas in good faith. It was reported also that the arrest of Douglas is expected to be followed by the arrest of another man, who registered for Douglas at the Hotel Portland in West Forty-seventh street as "W. R. Gray and wife, Boston." It was at this hotel that Douglas was arrested yesterday, where he was stopping with his wife. The arrest was made on the specific charge of stealing Rock Island and Pacific railroad bonds, valued at $50,000. The man who had registered as Gray disappeared just before the arrest was made.

The arrest of Douglas was largely due to the personal efforts of President Thorne of the trust company, who, in addition to asking the aid of the police and a local detective bureau, enlisted twenty-eight employes of the bank to make a personal search for the fugitive. Douglas left the bank Saturday morning and the search began a few hours later. The amateur detectives watched all trains and ferry lines, and an hour after midnight Sunday morning the watchers at the Grand Central station were rewarded by seeing Mrs. Douglas and a stranger enter a cab and drive from the station. The watchers followed the cab to the Hotel Portland, where they found Douglas and his wife registered under the names of Mr. and Mrs. W. R. Gray, Boston. The strange man had disappeared when President Thorne and a detective went to the room and placed Douglas under arrest.

UNITE PARTIES GRAVES' PLEA

Bryan or Roosevelt Withdraw, Appeal of Noted Southern Writer.

Chicago, April 22.—The opinions expressed by Democratic leaders at the banquet given by the Iroquois club Saturday night to open the presidential campaign were diverse and irreconciliable. Three hundred leading local and national members of the party met at the Auditorium hotel to discuss the issues on which the party must go before the public.

John Temple Graves, representing the conservative Southern Democracy, boldly suggested that either Bryan or Roosevelt withdraw in favor of the other.

Congressman Champ Clark of Missouri sharply criticized Graves' view.

B. F. Shively advised a return to the fundamentals as outlined by Thomas Jefferson.

Edwin M. Grout, president of the borough of Brooklyn, praised Jefferson and urged the party to adhere to the principles of its founder.

Congressman G. M. Hitchcock of Nebraska approved of radicalism.

J. M. Dickinson struck a sharp discordant note by denouncing the "oracles of the party who think their expressions are its ipse dixit." Dickinson decried the obvious purpose of disrupters to wrench the very government out of shape.

Mr. Shively warned of approaching danger which shows itself "in the foam on the billow that tells of the threats and danger in the surging tides below."

He described the tumultous sea as the struggle between labor and capital. "This struggle has drawn the lines of classism," in his opinion, "till they are perilously taut."

The speeches were long and the banqueters late and it was early morning before the last speaker concluded. Graves' neutral policy and suggestion to eliminate party lines was rejected by a majority of the leaders.

TOOK POISON.

Red Wing, Minn., April 22.—Hiram Bunker, aged 53, who resided with his son, L. L. Bunker of this city, took carbolic acid and died after six hours of terrible suffering. He had been failing in health for five years. He leaves a wife and ten children.

A PIONEER GONE.

Stillwater, Minn., April 22.—Mrs. M. A. Elliott, one of the pioneers of Stillwater, died suddenly Saturday afternoon of a cerebral hemorrhage, at the age of 65. She was the widow of Daniel Elliott, and left two sons, James and Frank, of Ellsworth, Wis., and a daughter, Mrs. Granville, W. Smith of this city.

EVELETH WANTS THE RAILROAD

Anxious to Have Rainy Lake Road Enter the City.

Eveleth, Minn., April 22.—(Special to The Herald.)—The report that the new line of the Duluth, Rainy Lake & Winnipeg road, now being surveyed between Duluth and Virginia, will pass a short distance south of this city, but will not onter it, has caused many business men to sit up and take notice, as it is felt that the city needs the road and that a determined effort should be made to get it.

In addition to the benefits which accrue to any town from having a number of railroads, I many Eveleth people are especially anxious to get the new line because it is thought that an independent competing line will mean a substantial reduction in freight rates between here and Duluth, and also that business will be increased by trade with the prosperous farming district south of here, which will be opened up by the road.

As a method of action, one business man has suggested that a citizens' committee should be sent to interview the officials of the new road and that the Steel corporation be asked to allow the road to enter the city over mining land. It is probable that the whole question will be taken up at the next meeting of the Eveleth Business Men's association the first Monday in May.

The first prisoners convicted under Eveleth's new law, allowing prisoners to be worked on the streets in case of inability to pay fines, did not improve the city's streets perceptibly, as one of them, Isaac Hill, took leg bail within an hour after being put to work, and the other, Louis Anderson, was a very indifferent worker. However, the ordinance will probably cause bums to steer shy of the city and this is what was desired by the framers of the ordinance.

TEACHERS' ASSOCIATION

At Bemidji Elects Officers for the Coming Year.

Bemidji, Minn., April 22.—(Special to The Herald.)—The North Central Minnesota Teachers' association held its first meeting at Bemidji Friday and Saturday. About 100 teachers and educators from all over the northern part of the state were present and helped in making the meeting a splendid success.

The following were elected officers for the ensuing year: President, A. P. Ritchie of Bemidji; vice president, Miss Morford, Akeley; secretary, P. M. Larson, Cass Lake; recording secretary, Miss Conant, Fosston. It was decided to hold the next annual meeting not later than Thanksgiving, 1907, at Cass Lake.

LATE DOINGS IN UPPER MICHIGAN

Man Buried for Day Under Twenty-Five Tons of Coal.

Escanaba—Caught in a mass of coal, Frank Erickson, a laborer, was carried head forward through a chute at the Reis Coal company's dock, Thursday afternoon, and after being entombed under twenty-five tons of coal for fully a day, was rescued at 3 o'clock Friday afternoon, alive, although bruised from head to foot and sustaining internal injuries. Slight hope for his recovery is entertained. The disappearance of Erickson from the dock was not discovered until Thursday night, and crowds dragged the bay throughout the night thinking that he had been drowned. Friday afternoon, when the car of coal was being dumped at the coal shed, in the railroad yards, a feeble shout was heard from the inside. The car was quickly emptied, and Erickson was found alive and conscious. He said that he had heard men passing the car throughout the night, and shouted repeatedly, but could not make himself heard.

Sobbing bitterly, and scarcely able to speak, because of his apparently deep emotion, a stranger, giving the name of W. H. Wilson, appeared at an undertaking establishment here and informed the proprietor that his wife had suddenly died at their home at Ford River. Every mention of the name of his wife threw Wilson into a paroxysm of grief, but, after his emotions had been mastered, he selected a shroud and casket. The undertaker's bill was drawn up, and, as the stranger explained that he needed a little money while in the city, he drew a check on an Escanaba bank for $20 more than the amount of the bill. The undertaker paid over the $20, and the stranger disappeared. Wilson also went to two local livery stables and engaged carriages for the funeral, presenting in each case a check for an amount larger than the bill incurred. All attempts to locate either Wilson or his dead wife have failed, and the men who advanced funds for his accommodation are satisfied that they were made the victims of one of the most unique swindling games ever worked in this district.

Gladstone—This is the last year of the Gladstone theater. After Jan. 1 next the building will be converted into stores, one of which has already been rented.

Hancock—The municipal lighting project has been revived at Hancock. Mayor Scott is the prime mover of the plan, and he has been authorized by the council to secure estimates of the probable cost of the proposed installation. The city is now paying $90 per lamp per year for thirty-seven street lights, and in the opinion of the mayor this amount would provide an adequate plant within three years' time.

Calumet—The control of the Phoenix Consolidated Copper company was acquired Saturday by the Keweenaw Copper company. Charles A. Wright, president of the latter, succeeds John R. Stanton of New York as president of the Phoenix. This mine was shut down two years ago. It comprises much valuable land which will be explored.

Newberry—The Soo line has purchased the Blaney Lumber company's logging railroad and proposes an extension north to Germfask, where connection will be made with the Manistique railway, extending south from Grand Marais. As the latter village is on Lake Superior, the territory tributary to Lake Michigan would thus be brought in close touch with it and a new and direct rail line would be provided between the two lakes, the only one traversing the eastern portion of the upper peninsula from north to south.

Menominee—William Holmes, a former mayor of this city and one of the best known lumbermen of the Northwest, suffered a stroke of paralysis which affected his throat and is unable to speak. No hope is entertained for his recovery.

Fred Galtz and Jennie Charnetzky bear the distinction of being the youngest couple licensed to marry in this section. The bridegroom is 15, while the bride is 14. The consent of the probate judge had to be obtained to legalize the marriage ceremony.

The Methodist Episcopal church was destroyed by fire Sunday. A high wind spread the flames to the Baptist church, partially destroying it, and the residence of Dr. Phillips, three blocks away. The falling steeple injured two men, Fireman Connora was severely hurt. Samuel Cearfoss was carried from the burning mass to the hospital, probably fatally injured. A flying cinder set fire to the garments of a young woman spectator.

Use Kennedy's Laxative Cough Syrup. Children like its pleasant taste, and mothers give it hearty endorsement. Made in strict conformity to Pure Food and Drugs Law. Sold by all druggists.

CANNING PLANT BURNS.

Lubec, Me., April 22.—The entire plant of the Seacoast Canning company, leased to the American Can company of New York, at North Lubec, was burned today. The fire was caused by an explosion in the gas house. No one was injured. The loss is estimated at $200,000.

Freimuth's

Silk Headquarters at the Head of the Lakes.
Superior St., Lake Avenue and Michigan St.

Wash Goods

SPECIALS

Summer dresses this season are bound to be beautiful and decidedly attractive. The plaids and checks will be seen in almost every costume. Hundreds of Duluth's nobby dressers are buying the pretty Wash Fabrics displayed at Freimuth's.

Imported Ginghams—a new lot just in—new black plaids in all colors—at per yard..... 35c

Irish Dimities—another special for tomorrow—in new large floral and leaf designs—on plaids and small bars—per yard..... 29c

Yoga Silk—a fac-simile of real $1.75 Pongee—27 inches wide—in novel plaided effects—hang gracefully and are very stylish—75c regular—special price per yard..... 59c

French Organdies—in all the beautiful floral designs for the pretty summer costume—per yard..... 25c

Foulard Sateens—1,000 yards in light and dark grounds—small and neat effects for a pretty house dress—regular price 20c—special, per yard..... 15c

New Net Waists

AT SHARP SALE PRICES.

We've just received 200 New Tan Net Waists—all silk lined—trimmed with rich cluny lace. These Waists are very scarce owing to the big demand for this color. It's another result of our wide-awake New York connections. We picked up a dandy lot of them, and owing to the quantity we are able to offer you—

REGULAR $10.00 NET WAISTS

at a smart reduction—Three prices—

$5 $6.50 $7.50

MR. FISHERMAN!

You can't fish without good tackle. This I am prepared to furnish. The best of everything at the most reasonable prices.

Rods, Reels, Minnow Pails, Bait

Boxes, Hooks, Lines, Fish Baskets,

And an extra high grade line of flies. And what you don't see, ask for. We have it.

JOS. E. FOX,

15 E. Superior St. Opp. Bijou Theater.

The All Important

Purity — there is nothing else half so important in beer. And nothing else is nearly so expensive.

Purity means absolute cleanliness.

It means freedom from germs. Even the air in our cooling rooms is filtered. And every bottle of Schlitz beer is sterilized after it is sealed.

It means an aged beer — aged for months, until it cannot cause biliousness.

Without those precautions, no beer can be healthful. And who would knowingly drink beer that was not?

Ask for the Brewery Bottling.
Common beer is sometimes substituted for Schlitz.
To avoid being imposed upon, see that the cork or crown is branded

MARINE NEWS

CHARTERING CONTINUES

Demand for Lake Superior and Michigan Tonnage Good.

Serious Shortage of Coal Exists at Head of Lakes.

At the lower lake ports the chartering for coal continues moderately and loading is going on at the trestles quite briskly. The demand for tonnage for Lake Superior is fair but that for Lake Michigan is better. The Philadelphia & Reading has chartered several vessels to load for Chicago and also a number for Duluth and Superior.

The freight rates remain the same as at the opening and no immediate change is in prospect. Considerable hard coal is going to the Eastern markets at present but a good quantity is arriving daily at the docks. The car shortage is again hampering to some extent the receipt of coal for shipment by lake, but since the first of the month nearly 300,000 tons have cleared.

Several large vessels are already prepared to start up the lakes from lower lake ports, but the unfavorable outlook at the Sault is keeping them in port. At Buffalo an ice field has been packed solidly into a distance of six or seven miles, forming a strong barrier which is reported to be ten to fifteen feet in depth. Vessel owners think it is the wisest course to remain at the docks until conditions better themselves.

In the meantime Duluth and Superior are nearing a coal famine as the docks have been practically stripped of coal. Had the season of navigation opened as early as was expected about April 1, there would have been plenty of coal, but the continued delay of the opening of the Sault has brought matters at the Head of the Lakes to a serious turn. A genuine fuel famine is in prospect unless the big fleet of coal carriers which are tied up at the Sault gets through during the next few days.

Capt. Humble Here.

Capt. R. F. Humble, who it will be remembered was the master of the steamer Mataafa when she was wrecked at Duluth, Nov. 28, 1905, was at the Spalding yesterday. He has not yet had an opportunity to inspect the reconstructed Mataafa but hopes to be able to do so either today or tomorrow.

IS MAKING A CHANNEL

Ice Breaker Algomah Bucking Ice at the Sault.

Five Steamers Leave Duluth for Trip Down the Lakes.

Five of the big steamers, which have been waiting in the Duluth harbor for the past few days, cleared for the lower lakes today upon receipt of the good news from the Sault that conditions there were much improved and that a passage would be opened within a couple of days.

A dispatch from Detour received by The Herald at noon today stated that the ice breaker Algomah, had arrived from St. Ignace and that the onslaught on the ice which bars the passage of the Sault river had been commenced. Warm southerly winds prevail at the Sault and it looks as if Lake Superior navigation will be resumed by Wednesday. The steamers Australia, Amazon and Wotan have joined the waiting fleet at Detour.

The steamers which left the Duluth harbor for the Sault today were the Hoover & Mason, Ball Brothers, H. B. Smith, W. H. Mack and the Goulder with grain. The steamers Maitland and Fitch departed for Two Harbors light to load ore before leaving for the Sault. The steamer Crerar which loaded ore at Two Harbors had orders this afternoon to clear and the Wolvin and Scoapa were about ready to steam out.

A general getaway of all the boats in the harbor is expected by tomorrow or as soon as further assurances are received that the passage through the Sault will be opened. All of the boats are loaded and are merely awaiting the signal to depart from the harbor.

The steamer Sharpless was out in the lake this morning taking on water and washing off. She will return to the harbor this afternoon and coal up preparatory to her voyage down the lakes.

Buffalo Situation Not Improved.

Buffalo, April 22.—Stormy southwest winds have blown more floating ice into this end of Lake Erie, and conditions today are not improved. Three boats arrived and ten left port during the day. The outbound vessels are making slow progress. The steamer Bethlehem left port yesterday to assist the Tuscarora of the same line, which has been held prisoner in the ice fields outside the harbor four days with a broken propeller wheel. After a five-days' battle with the ice, the steamer Northern Light was brought back to the harbor yesterday for repairs to her wheel. The Union liner Chemung, inbound from Chicago with package freight, became fast in the ice at Waverly shoals last night and cannot proceed.

ICE GOING OUT.

Late Reports From Buffalo Say Conditions Are Much Better.

Buffalo, April 22.—(Special to The Herald.)—Ice conditions at this end of Lake Erie were vastly improved today, vessels getting in and out of the harbor with little difficulty. Ice has been running in Niagara river since Saturday. It is believed that in two days more the vast ice fields which have spread from shore to shore will have passed down the river and the lake will be practically clear. The Tuscarora, which has been fast in the ice field since Tuesday of last week, was released this morning and brought back to port. The steamer has a cargo of coal for Chicago.

GRAIN BOATS LOADED.

Millions of Bushels of Grain is Stored in Vessels.

The grain boats are lying at anchor here, laden to the decks with grain, awaiting the opening of navigation at the Sault, that they may go down the lakes to Eastern ports. Much of it is destined to go to Europe.

Something like 2,550,781 bushels of wheat is afloat in grain carriers in the local harbor at the present time. Of this amount, 2,078,781 bus is durum, or macaroni, wheat.

More than 494,288 bushels of flax is loaded in the boats, to be taken down the lakes. A large amount of barley which has been in store here, is afloat as well.

The minute the boats can get under way, the grain in store at Duluth will likely show a decrease, for the first time in a considerable spell.

AMERICA GETS AWAY.

Leaves on North Shore Trip With Big Passenger List.

With over 300 passengers on board the passenger steamer America, of the Booth line, cleared from the Duluth harbor yesterday morning for her first trip up the north shore. She will make all the north shore ports and will put in at Washington harbor, Isle Royale, before starting back for Duluth. She will return either tomorrow or Tuesday. On account of the ice conditions at Thunder Bay outside of Fort Arthur the America will not attempt to get in there this trip.

After her third trip up the north shore to Grand Marias the steamer Bon Ami of the Booth line returned to Duluth Saturday with about 100 passengers on board. The roads along the north shore country are still almost impassable.

TO OPEN SAULT PASSAGE.

Ice Breaker Algomah Leaves for Detour to Buck Ice.

Sault Ste. Marie, April 22.—Predictions were made last night that the great ice blockade in the Soo river will be broken by Tuesday and that the big fleet of vessels which has been held at Detour will be able to negotiate the passage into Lake Superior. The big ice crusher Algomah left St. Ignace for Detour at 4 o'clock yesterday and today will commence operations against the ice packs in the lower stretches of the river. The weather yesterday was fair and warm, with westerly winds favorable for softening the ice. It is not believed the Algomah will experience much difficulty in opening a passage until Mud lake is reached, where the ice is reported still heavy. In the upper river there is no ice to hinder boats unless northerly winds should blow the fields back into Whitefish bay. A large piece of drift ice can be seen beyond Point Aux Pins, but beyond it clear water can be seen as far as Point Iroquois.

DETECTIVES ON BOATS.

Western Transit Company Adopts New Method to Protect Shipments.

A new method will be adopted this season by the Western Transit company to protect the shipments on its boats against thefts committed while the boats are en route and at the docks. A surety company issues a policy in which it agrees to reimburse for any pilfering that may occur while goods are in the possession of the Western Transit company, and also provides a detective system for running down culprits.

It is the plan of the company to place detectives in the employ of the Western Transit company as laborers, checkers, clerks, etc., thereby concealing their identity, and it is assured that the scheme will result in the prompt detection of any attempts that may be made to pilfer. Owing to the liability of the surety company in their agreement, it is assured that no mercy will be shown any offender, and it is believed the new system will aid considerably in the prevention of stealing, which has been carried on quite extensively in past seasons, and has caused considerable expense and worry to the lines.

When offenders were caught in the act of pilfering in past seasons, the managements of the various lines, in some instances, were inclined to extend more or less sympathy; but under the system now in effect on the Western Transit line, it will be woe to the fullest extent for any offenders that may fall into the hands of the surety company's detectives.

The Western Transit company is the first of the lines to adopt the new policy, and it is quite possible that other lines will follow suit soon.

Passed Detroit.

Detroit, April 22.—(Special to The Herald.)—Up: Utica, 2 Monday morning; Imperial, 4:30; India, (Canadian) 5; Averell; Sultana, George Peavey, 7:20; Frank Peavey, 8.

Down: M. C. Neff, 9:10 Sunday night; Fanay, 10; French, 10:10; Winnipeg, 11; Corey, 5 Monday morning; Holden, 5:20; Manchester, 6:10; Major, 6:30.

Later—up: Louisiana, 8:40; Delaware, 9:30; Senora, Sinaloa, 10:30; Saxonia, 10:40; Yosemite, 10:50; Sonoma, 11. Down: Wisconsin, 8:30; Owen (arrived), 8:50; Volunteer, 10:10.

Up: Nimick, 9:40 Saturday night; Cowle, 12:10 Sunday morning; Gettysburg (arrived), 12:20; Douglas, 12:30; Morley, Wilkinson, 1; Simla and barge, 2; Steinbrenner, 7:15; Argo and barge, 7:30; Sherwin, 8:40; Pratt, Athens, 9:40; Kirby, Hartnell, Robbins, 10:20; Uganda, 10:30; Woodruff, Antrim, Sylvania, 10:50; Maine and barges, Bangor, 11:50; Squire, Monteagle, 1 p. m.; Nipigon and consort, 1:10; Garretson, 2; Sahara, 2:30; Niagara, Christopher, 2:30; James Wallace, 8:30. Down: Taylor, 9:40 Saturday night; Sicken and barge, 11:40; Egan, 5:20 Sunday morning; Orion, 5:40; Glasgow, Abyssinia, 6:50; McWilliams, 9:50; Gault, 10:20; D. C. Whitney, 2 p. m.; Luzon, 3:15; Republic, Earling, 5; Heffelfinger, 6; Riddle, Lehigh, 8:30.

Sheltered at Harbor Beach.

Harbor Beach, April 22.—(Special to The Herald.)—Sheltered: Thow, Fannie A., search light, Ontario.

Gas Buoy Carried Away.

Mackinaw City, April 22.—(Special to The Herald.)—Ice last night carried away the gas buoy from South Graham shoals, moving it towards Mackinaw Island.

Passed Mackinaw.

Mackinaw City, April 22.—(Special to The Herald.)—Up: Cowle, 5:30 Monday morning; Wilkinson, 7. Down: Richardson, 4:50 Monday morning; Bielman, consort, Devereux, 8. Wind, west, 24 miles, cloudy. Sheltered: Rust.

Later—Up: Turania, 10:50. Down: Hines and consorts. Wind west, 20 miles, clear.

Coal Chartering Light.

Buffalo, April 22.—(Special to The Herald.)—Coal chartering is very light, but with the ice out of the way it is believed it will start in with considerable activity.

Little Towing Done.

Little towing was done in the Duluth and Superior harbors yesterday partly on account of the heavy west wind and partly because there was hardly any ttowing to be done. The steamer Russel of the Gilchrist fleet was towed to the Allouez ore docks from the Duluth harbor going around outside Minnesota Point. The steamer Fitch and the barge Maitland signalled for tugs, but the captains later decided to postpone the trip until this morning.

Northern Boats Are Ready.

All of the boats of the Northern Navigation company are ready to sail as soon as the word is received that the Sault passage is open according to a statement made yesterday by Harry Hurdon, local manager. The passenger steamer Huronic is coaled up at Sarnia, Ont., and is ready to start for Duluth. The Russia and New York of the Port Huron & Duluth Steamship company are at Port Huron loaded with merchandise ready to get away to Duluth as soon as it is possible for them to get through to Lake Superior.

Singer Docks Leased.

The Singer dock at the foot of Lake avenue has been leased by the Western Transit company and will be used this season by them for handling freight. Until this year this company has used the city dock. The dock is being greatly improved this year and by the time package freight navigation is open it will be in shape to be used by the steamers.

Fireman Is Drowned.

Detroit, April 22.—Peter West, a fireman on the steamer John C. Gault, fell overboard as the boat was proceeding down Lake Huron Saturday night and was drowned. The Gault passed Detroit yesterday and reported the accident.

Collides With Dock.

Port Huron, April 22.—The steamer Henry Steinbrenner, upbound with coal, became disabled by the breaking of her steering gear yesterday while leaving the rapids, and ran into the Grand Trunk dock at Fort Gratiot. Her bow was damaged and there is a leak in her forward compartments. Repairs are being made here.

Vessel Movements.

Buffalo — Arrived: Wolf, Maryland, Mohawk, Nyanza, Mauch Chunk, Uranus, Lagonda. Cleared: Sinaloa, Sultana, Sonora, Yosemite, Saxona, Sonoma, Ketchum, Onoko, Wyoming, Schlesinger, Bethlehem, Utica.

Chicago — Arrived: Owego, Oglebay, C. W. Elphicke, Olympia, Lewiston, Britannic. Cleared: Merchandise—Rutland, Ogdensburg.

Milwaukee—Arrived: Paris, England, Oceania. Cleared: Light—Mary Boyce, Chicago.

Escanaba—Arrived: Chisholm, Walsh, Amazon, Black, Italy, America, Castalia. Departed: Pentland, Fruitport; Fayette Brown, Richardson, Devereux, Lake Erie.

Waukegan—Arrived: H. E. Packer.

Kenosha—Cleared: Curtis, Escanaba.

Port Colborne—Up: Imperial and consort, Locke, India. Down: James.

TO KNOW A GOOD PIPE.

Not one smoker in a thousand or perhaps in 10,000, knows the elements of a good pipe, declared a writer in the Technical World. Sage attention is paid to the pipe material, be it wood, clay or corncob; but all of this has little if anything to do with the qualities of a pipe. Practically nothing whatever is thought of shape and proportion, the two things that make a pipe good or bad.

An engineer will talk by the hour over the draught of his fireboxes and never once in a half a lifetime think of the draught in his pipe that he smokes hourly. Yet the question of a good or a poor pipe is bound up in that single word, draught.

In a pipe made on right principles, the bowl is as narrow and deep as is convenient; the hole in the stem meets the bowl at the very bottom and in the center, thus insuring a perfect and even draught, hence a complete and even burning of the tobacco.

The cake prevents the fire from burning the bowl, and thus prevents making its bore spoil the draught.

The sides of the bowl are thick to keep in the heat, thus making the burning at the same temperature at the edges of the tobacco as in the center, and when the pipe is not puffed preventing undue cooling.

Needless to say, tobacco should be consumed at an even temperature; to vary it from high or low for any cause ruins the flavor of the best kinds of the weed. It is commonly known that a oake adds to the good smoking qualities of a pipe. This is due to two causes; the cake, being mineral, stays hot when the pipe is not puffed; and also, being of different material from the bowl, prevents the loss of heat.

By a cool pipe one means a dry pipe, and this all depends on the stem, not on the bowl. A cool pipe or a hot pipe has little to do with the actual heat of the smoke coming from the stem into the mouth, but depends upon the chemical qualities of the smoke.

Any tobacco smoked at different temperatures produces different chemical results, and the tastes of these are falsely laid to the material of the pipe instead of to its construction.

In a poor pipe the hole in the stem meets the bowl at one side, not in the center. In consequence the draught is everywhere uneven, and over half of the pipe, except on the very surface, there is no burning of the tobacco at all. This is not only waste, but, which is worse, spoils all the tobacco in the bowl.

Not only is the tobacco burned badly, but a zone along the line of consumption is merely charred and smoulders; besides this, the unburned but highly heated tobacco out of the line of draught is more or less distilled, the flavors from which mingle with those from the charred portion and the unevenly burned tobacco—something to weep and cough over.

The same thing is noticed in a corncob pipe, when the reed stem is run into the bowl only to its inner edge. Push the reed a little further in and you have a good pipe.

Besides forming the cake common to all pipes, the corncob is light in weight, hence is easily held between the teeth; moreover, being of a cellular structure and full of dead air, the corncob retains the heat in the bowl, causing an even burning, whereas many other pipe substances, like clay, iron, or a dence, heavy wood, without the cake, change temperature rapidly up and down the scale, almost with every puff.

All fancy types of pipes are apt to be no good whatever. The plain bowl and stem are the best. All contrivances to catch or to absorb the nicotine only drive a man to cigars or out of the house. The reason of this is that the liquid wastes from a pipe are mostly tar, and if held in the pipe in out of the way health corners, decay and become a horror to the smoker.

In a plain pipe, all this waste matter must be, and easily is, cleaned out either after or before each smoke, or there can be no smoke worthy the name.

IN THESE PECKSNIFFIAN DAYS.

Puck: The applicant for a job in the bank stood confidently before the president.

"You do not smoke?" queried the latter, pleasantly.

"No, sir," was the prompt reply.

"Nor chew?"

"No, sir. I consider the use of tobacca a filthy habit, sir."

"You never drink? In fact, you don't know what liquor tastes like?"

"No, sir."

"You don't gamble or play cards?"

"Never, sir."

"Or bet on horse races."

"No, sir."

"You teach a class in the Umpth street Sunday school?"

"Yes, sir."

"And frequently are called upon to open meetings with prayer?"

"Quite true, sir."

"In short, you have no bad habits and are pointed out, generally, as a model man?"

"Well, sir, of course, it is not for me to say, sir, but—"

"I understand. You may be all right, sure enough, but your past record is against you. Banks, in these days, have to be unusually careful in selecting their employees. Good day, sir!"

PRACTICING BEING POOR.

Youth's Companion: Rich American girls have at last discovered that their money is sometimes an obstacle to happy marriage with sensible and promising young men. It is whispered that some of the wise ones have formed a club to learn and practice the charms of poverty.

The young man looking for diversion may be satisfied to find it with the girl who can dance well and talk "sportily" of football and dogs. But when he is looking for a wife he must be lured by other qualities. So the club for reducing the handicap of riches gives its members a course of lessons in the accomplishments of being useful. For example, it teaches them to darn stockings. Not only must the holes be neatly filled, but the girl must be able to do the task while the young man is calling, and to look fascinatingly domestic in the act.

The heiress who is willing to take her chances of a happy life with a foreign count may not trouble herself about housekeeping; but the best American man likes to be assured that his wife can take the place of the cook or the waitress or the laundress should the emergency arise, and that she will be both effective and delightful while she does so.

The girl burdened with wealth employs a poor girl to teach her not only dish-washing and bread making, but amiability. "The rich girl," says the social philosopher, "is often very uncertain in her temper. The poor girl must keep sweet tempered or lose her job." So the noble art of keeping still under provocation is practiced and the passion for having the last word is repressed.

The truth is that all the charms and graces are none too many for "the coming girl." If she is poor she may acquire the dainty habits and the refined taste of the rich girl. If she is rich she may emulate the energy, the optimism and the sweet temper of the poor girl. Until presently the youth in search of a wife may safely choose her where he will, sure that she will adorn and enrich any station to which it may please God to call her.

Day after day The Herald want columns show a procession of opportunities—opportunities to buy, to sell, to lease, to hire, to find people to work for you, to find people to work for, to find boarders, lodgers, tenants, or partners. These want ad. opportunities touch almost all phases of life and living in this city.

PANTON & WHITE COMPANY
THE BIG GLASS BLOCK STORE
WHERE QUALITY IS PARAMOUNT

Mill End Percales 7c

The 10c to 15c Kind : Bargain Counter

Here you are ladies. 2,000 yards of fine 36-inch Percales—that sell regularly at 10c, 12½c and 15c a yard—offered tomorrow at only 7c yard.

MIND YOU THIS! They're NEW plain and fancy Percales—stripes, figures, etc., in a great assortment of bright patterns—all good light colors—many new tans and champagnes in the lot.

Full 36 inches wide—mill-end lengths of from 1½ to 10 yards in a piece—on the bargain counter, main floor, tomorrow—all you want, 7c a yard.

It's High Time You Were Making

Wash Goods Selections

What you want is here today, but there's no assurance that you'll find it if you delay a few days.

30-INCH IRISH DIMITIES—
Organdy printings with the small checks or wide cross-bar—forming, in some instances, the sheer plaids. Instead of 35c, as in most stores, you get them here at 29c a yard.

How About the Paper on Some of Your Rooms?

Don't look bad? Look again!—Open up the windows—let a little sunlight in. Looks a little the worse for wear—don't it? Really ought to have new paper.

Let's suggest a remedy. Come and look at our fine assortment of papers for every room at every price.

Two Lots---10c and 12½c Double Roll,

Are worthy your attention. They're brand new papers—new patterns, new colorings—and far superior, we know, than most papers you'll see at the price.

$1.98 for Go-Carts Worth $3.00

A big shipment of high-priced Go-Carts is on the way, but we haven't room enough for them. That's the reason you get these less expensive carts for two-thirds their value—to clear them out.

Choice of two styles of Folding Go-Carts—strictly high grade, "Whitney" make. One, an all-steel frame—the other a combination frame—both rubber tired—finely constructed and finished. Beginning tomorrow, third floor, choice each..... $1.98

Ladies!

We invite your most careful attention to an announcement to be made very soon, of our

Opening of French Millinery

An incomparable display of the correct and exquisite creations of the leading artists of Paris.

It is important when desiring the address of your paper changed to give both old and new addresses.

THE COUNTY BUILDING SITE.

County buildings are for the convenience of all of the people and, while it is well to have them as architecturally beautiful as money will make them and also have them surrounded with as handsome and large grounds as possible, yet, in plain fact, the matter of easy accessibility is of infinitely more importance to every one. For this reason, if for no other, the attack made by the morning paper on the St. Louis county building site bristles with injustice.

The site selected for the new courthouse, as it is called, occupies over half a block, extending from First to Second street, and is in the very center of the city. No other site could possibly have been secured more convenient or more easily accessible to all of the people. It lies well and a well constructed, rightly proportioned structure will certainly not be obscured by any surrounding buildings.

If it were only a question of commanding site where the building would be a beacon to all and not an easily approachable structure it should be placed on the top of the bluff where forty acres could be purchased for less than a quarter block in the business section and where the courthouse could be seen for scores of miles. It would, however, be useless for the needs of the people.

The present site was secured at an excellent bargain and there is absolutely no question as to its desirability of location and its convenience. It is in this respect far preferable to the old site. An imposing building can and will be erected on it—one that will be an honor to city and county.

To make a comparison of the high school and the Carnegie library in this attack on the courthouse, is unjust to the library. It was erected at a cost of only one-sixth of that of the high school and it was located on a site where it would be most convenient to the reading public. As well might the Duluth city hall be compared invidiously with the Minnesota state capital.

The proposal of Capt. Alexander McDougall, John Megins, B. C. Segog, Capt. R. T. Lewis and others to change the original plans so as to set the courthouse on the rear of the lot and have the main entrance on First street through a front lawn was advocated by The Herald weeks ago and is well worthy of careful consideration and should be adopted by the commission if possible.

The site of the county building is certainly acceptable in all essential particulars, and the people of city and county will not approve of any proposition that will add to its cost at their expense.

CHANGE SPRINKLING CONTRACTS.

The terrific duststorm that raged all yesterday, causing all sorts of trouble to the people of this city, called attention decisively to the imperative necessity for such a change in the sprinkling contracts by the board of public works as will provide that the carts shall be put into service at any time that an emergency shall arise and not be used only between fixed dates.

As at present arranged, the contracts for sprinkling, for which the abutting property owners, and not the city, pay, provide that this work shall be done only between specified periods—and this regardless of whether the streets shall or shall not be covered with dust or with snow and mud. Certainly, as yesterday showed most clearly and effectively, this is wrong in practice, no matter how excusable it may be in theory.

If the board of public works considers it an injustice to compel those having the contracts to have the sprinkling wagons ready at all times for immediate service, there can be no objection to requiring them to be prepared for service early in April, for it is seldom that there is such a series of snowstorms during this month as have occurred this year. The contacts might also be amended to require less service during the rainy season of each year and to add the time thus saved to spring and fall, to meet any such emergency as that of yesterday.

It is most surely a crying cause for angry complaint that the people of the city had to endure all yesterday, without the slightest effort to check it, the blinding, stifling, damaging storm of dust and pulverized stone and sand. Another such storm is liable to occur at any time. It is the plain duty of the board of public works, demanded by all of the people, to take steps at once to guard against any repetition of yesterday's most unpleasant experience.

PEACE AND BATTLESHIPS.

Just as the members of the American peace congress are scattering, after what has been declared the most enthusiastic meeting ever held, to return to their homes to continue the propagation of the doctrine of amity and arbitration for all the world, comes the announcement that, with the completion of the battleship Kansas this week, the United States will have more first-class men-of-war than any other nation in the world except Great Britain, another of the most pronounced advocates of peace. To this declaration is added that Secretary Metcalfe has signed the plans for two monster battleships to be built as soon as possible.

This boast that the United States with its seventeen battleships has passed France, Germany and Japan in naval trength and is second only to Great Britain, which has forty-eight vessels of this class, is unquestionably pleasing to the average American who wants to see his country somewhere near the lead in all things. Certainly, however, it does not indicate any serious belief that there is no further danger, thanks to the growth of sentiment of the people of the world, of any further international conflicts.

Nor does the approval of the plans for two 20,000-ton battleships of the class of the famous British vessel, the Dreadnought, indicate that the United States, some citizens of which have been loudly advocating universal disarmament, seriously considers the possibility of the discontinuance of the expenditure of vast sums of money on what can be employed only in war or in making a bold front in the event of serious disputes.

Of course, no one will deny seriously that, the world being what it is today and what it has always been, huge warships will not be needed for many generations yet to come. Nor will any one, unless it be W. T. Stead, decry the building of two, and more than two, more first-class men-of-war. Peace conferences and peace congresses do much good—of that there is no question—but, so long as the old human nature continues, big battleships a-plenty will remain the strongest of peace arguments.

STEEL PLANT EXPERTS WELCOME.

The people of Duluth, and of Northern Minnesota also, welcome the arrival of the committee of experts of the United States Steel corporation, headed by Second Vice President W. B. Dickson and President's Assistant John Reis. This gives most pleasing assurance that the great plant will be rushed to completion at the earliest possible time.

Such remarkably prompt action as the presence of the experts assures, following so speedily the decision of the corporation less than two months ago to construct a plant that will cost $6,000,000 or probably much more, shows to the people of this city and section that the dream of years will become a glowing, pulsating reality even more speedily than the most optimistic, at all familiar with the usual deliberate ways of corporations, had hoped.

All Northern Minnesota and the whole state, as well as the entire Northwest, welcome the great new enterprise with unanimous good feeling. This was shown clearly by the universal commendation of the press when the decision to erect a vast plant here was first given to the public. All will watch with intense interest the progress of construction and all will rejoice when work shall be actively in operation. When the first steel shall be turned out, a jubilee celebration will unquestionably be held.

The presence of the experts to arrange for the site and conclude the preliminary plans assures to Duluth an unexampled season of activity in every way and marks the beginning of the time when Duluth will be a vast industrial city with double or triple its present population and with the unchallengeable commercial supremacy of the Northwest.

OLD STORIES OVER AGAIN.

Readers of the newspapers of today, especially such readers as have passed middle-age, are apt to declare emphatically that the old world and its people are certainly growing worse, that disasters are more terrible and crimes more frequent and horrible and that we are going faster and faster to the "demnition bow-wows." Yet, as a plain matter of fact, it is the same old world and the stories in the papers are no worse in reality than they were years ago. The only difference is that they are handled more sensationally.

A little reflection on history and a cursory examination of the records of the past will show that what is going on now is only what has been going on all the time. The fact that about two-thirds of the people are practically working to make a very few richer is not even modern. It was the same thing in the times of the Pharaohs, of King Solomon and of the Caesars. Thousands of years ago, the "rich were growing richer and the poor, poorer." The Thaw case is mild compared with the Helen of Troy scandal or the crimes of some of the barons of the Middle Ages. The grafters of today are mere amateurs when compared with Cataline or Warren Hastings. Earthquakes have been worse in the past than now and there have always been disasters on sea and land.

The only great difference is that, whereas in olden times stories had to be carried by word of mouth, now they are flashed around the world and given to people all over the country, or the earth if they are big enough, in a few hours. There were no ancient railroad disasters but ships were lost with as many lives as today. The world gets its news from everywhere fresh and hot instead of waiting days or weeks and this news is dressed up to suit the modern taste. But it is the same old kind of news.

Really and truly, if past and present could be evenly figured out and compared, it would undoubtedly be found that the people of the world are better than their ancestors in every way. The good outnumber the bad by many millions more because there are many millions more people on earth than ever before. There is absolutely no cause to fear that the world is "going to the dogs" for it certainly is not.

THE PASSING SHOW.

Peaches are ripe—but it is in Louisiana, not North Dakota or Manitoba.

* * *

St. Paul's council has put a ban on Japanese snuff. Duluth's council would make no mistake to do likewise.

* * *

Steel plant, dry dock and ship yard and now new postoffice—all for Duluth since the opening of spring! Next!

* * *

An Oregon man never shaved in his life and knew no love. The two events are a perfectly natural sequence, come to think of it.

* * *

Duluth's baseball team lost its opening practice game. This, however, means little. Here's hoping anyhow that it will not keep it up.

* * *

Secretary Taft gave the Porto Ricans as liberal doses of "taffy and honey" as if they had half a dozen or more votes in the next Republican national convention.

* * *

The president has resumed his riding and tennis games. Evidently he has recovered from his Harriman "exaggerated ego" attack and his trust conspiracy "brain storm."

* * *

Can it be that the twenty-six feet of mud that covers the Union Pacific track in Wyoming is the surplusage from E. H. Harriman's recent attack on President Roosevelt?

* * *

An army officer has been ordered to take a horseback ride from Portland, Or., to New York to test the endurance of a steed. This does not, however, mean that Roosevelt is thinking of boycotting the railroads as a mode of transportation.

* * *

The St. Louis Times has "made its bow to the public" and has started on what seems to be a prosperous career. It is a high-grade newspaper and it promises to devote itself to the best interests of its home city. Its contemporaries all over the country will wish it success and a big circulation.

HOTEL GOSSIP.

"Walter Wellman doesn't need to take a balloon to find the north pole, nor does Lieut. Peary need to have a ship frozen up in the ice for several months," said G. R. Coomb of St. Louis at the McKay. "I was as near to the north pole as I want to be and didn't take a ship. It was right down here in the Copper country of Michigan and if Calumet, Mich., isn't pretty close to the north pole this spring, geography, astronomy and all the other ographies and onomies are off the track.

"Say, it's been snowing down there since April 1, and they've hardly seen a square inch of bare ground since last October. They have banks of snow along the streets there higher than any I ever saw in the middle of winter in any other part of this United States. I was down there a few days ago and they were using sleighs just like in February, the street car plows were out clearing the tracks, and every train was late on account of the snow drifts.

"The people there say such a condition at this time of the year is an exception, and it doubtless is, but I don't want to get into any more exceptions of that kind. I'd been traveling around Wisconsin without an overcoat and I was thinking of investing in a straw hat and some low shoes. When I woke up in Upper Michigan one morning, I found the ground covered with snow and the train was losing time through buckling the drifts. As we neared the Copper country towns conditions became worse. At L'Anse, they have a snow drift near the depot, which measures sixteen feet in height. I thought it wonderful at the time, but when I struck Houghton and Calumet, my wonder changed to downright astonishment. At Calumet, they have one drift measuring thirty-two feet and there are others I thought must come pretty close to that.

"The coal and ice men are raking in the sheckles faster than they did any previous time this winter and they are talking of re-opening the skating rinks and playing hockey again there. In the meantime, the travelers coming in there from a warmer country and the people returning after spending the winter in the South are hurrying back into their winter clothing.

Women's Seven Troubles.

At first the colic, tender little thing!
And then the teeth that come to make her sad
And keep her nervous mother wondering
And spoil the temper of her weary dad.

Next, the long and trying days in school,
And then the music lessons she must take,
Forever practicing by rote and rule,
No matter how her tender fingers ache.

And then the sorrow which she has to bear
Because her legs beneath her skirts must show,
Because in braids she has to wear her hair
When she is old enough to have a beau.

Next, the heartaches and the cheerless nights
When he and she have quarreled, and she waits
And wonders if the world still has delights—
He comes! And so that woe evaporates.

Last trouble of them all, and this, alas,
It is that gives her the world-weary look,
And lingers with her as the seasons pass—
The trouble that she has to keep a cook.
—Chicago Record-Herald.

Fast Schedules Then!

Harriman ain't there for fun—
That feller's mighty cunnin'!
An' every time he comes in sight
The unscooped roads prepare for flight—
It's then they do some runnin'!
—Atlanta Constitution.

Good Roads Needed.

Sauk Center Herald: The legislature will surely make a mistake if it adjourns without passing some advanced good roads legislation. This is one of the most important matters before our lawmakers. It means more for the development of our state and its resources than almost any other measure. It affects more people than any other question under legislative consideration.

THE WEATHER.

An exquisitely beautiful spring day, the more delightful because of contrast with what had gone before during this month, made yesterday with its terrific dust storm seem like a nightmare. Such a Sunday has seldom been known in Duluth with the clouds of blinding particles swept up from the streets. Fortunately, the wind ceased by nightfall and the night and morning were perfectly calm. The sun rose in an unclouded sky and the mild night was soon transformed into a spring morning of the most detectable character which had long been wished for, but had seemed destined never to appear. The day was really too warm for overcoats and wraps. The crowds on the street were greater than ever and all reveled in the perfect weather. Last night's lowest temperature was 32 degs. and yesterday's highest was 54 degs. The weather man says it will be cooler tonight with a temperature of about 25 or 30 degs. and fresh northeasterly winds while tomorrow will be partly cloudy.

The sun set at 7:06 o'clock this afternoon and will rise at 5:06 o'clock tomorrow morning. Today has within one minute of fourteen hours of sunlight.

A year ago today was bright, but a north wind made it cooler than for some days previous. The people generally were out and all enjoyed the delightful weather.

Says Mr. Richardson of conditions: "Light to heavy rains fell throughout the Southern states during Sunday or last night, due to a disturbance central over the Gulf of Mexico. Other barometric depressions overlie Lake Superior and Montana, the latter causing a little snow over scattered portions of the extreme Northwest. Comparatively mild temperatures prevail in the lake region attending the low pressure over Lake Superior. The barometer is high over Atlantic and Pacific coast districts and the extreme Southwest attended by freezing weather in the latter section. El Paso, Texas, reports a killing frost this morning. Pressure conditions favor rather cloudy weather and Northeasterly winds in this locality tonight and Tuesday."

Following were last night's lowest temperatures, as recorded by the weather bureau:

Abilene	38	Los Angeles	54
Asheville	40	Marquette	42
Atlanta	46	Medicine Hat	38
Battleford	20	Milwaukee	40

Department of Agriculture, Weather Bureau, Duluth, April 22.—Local forecast for twenty-four hours ending at 7 p. m. Tuesday: Duluth, Superior and vicinity, including the Mesaba and Vermilion iron ranges: Partly cloudy tonight and Tuesday; cooler tonight with lowest temperatures 25 degs. to about 30 degs. Fresh northeasterly winds.

H. W. RICHARDSON,
Local Forecaster.

Chicago, April 22.—Forecasts until 7 p. m. Tuesday: Wisconsin: Fair tonight and Tuesday cooler tonight. Minnesota: Fair tonight and Tuesday. Cooler in east portion tonight.

North and South Dakota—Fair tonight and Tuesday.

Upper Lakes—Winds shifting to fresh northerly tonight and Tuesday. Generally fair weather.

POINTED PLEASANTRIES.

Philadelphia Press: "It's hard," said the sentimental landlady, at the dinner table, "to think that this poor little lamb should be destroyed in its youth just to cater to our appetites."

"Yes," replied the smart boarder, struggling with his portion, "it is tough."

Chicago Record-Herald: "My plea to the jury," boasted the young lawyer, "was more than four hours' long."

"Humph!" replied the experienced attorney, "and the verdict was in your favor. The other side couldn't have had any case at all."

Chicago Tribune: Judge Bluegrass—Col. Gore, let me introduce my friend, Col. Blood."

Col. Gore—Delighted to know you, ccionel. Will you join me in-er-something red?

Harper's Weekly: The Captain—Please, sir, your wife has fallen overboard.

Owner—Confound it! Another of those sinking spells of hers!

Washington Herald: Weary Walker—Say, did yer ever lose yer appetite?

Hungry Hawkes—I did once. One day a kind lady gev me a square meal an' fur ten or fifteen minutes after it I didn't care fur food at all.

Catholic Standard: "But," protested Miss Jokeley, "I assure you the stories I've been telling you were original with me. I shouldn't think a gentleman would doubt my word."

"Well," replied Brightley, "I consider it more gentlemanly to doubt your word than to believe you old enough to have originated those stories."

Washington Star: "Troubles," said Uncle Eben, "is sumpin' like children. It's kind o' hard to make a man realize dat anybody's mounts to much 'coppin' his own."

Philadelphia Ledger: "You shouldn't have hit that man who called you a liar."

"Shouldn't, hey?"

"No, you should have demanded the proof and if he could not produce it he would have been branded as the falsifier."

"That's all right ethically, but I knew he had the proof."

Pointed Paragraphs.

Chicago News: An easy way to get money is to inherit it.

Sharp men know that cutting remarks do not pay.

Many a woman who looks like an angel forgets to act like one.

In relating his experiences a man usually poses as his own hero.

Some people must get awfully tired listening to their own talk.

It's tough even on the six-footer when he has one foot in the grave.

Most people seem to enjoy coming out of a church more than they do going in.

It's to a man's credit if he can truthfully say that his credit is good.

Reflections of a Bachelor.

New York Press: The best language to swear in is the one that sounds the loudest.

Next to trying to get money, the hardest thing is trying to keep it when you do.

A man feels awful rich when he's got a few dollars his wife doesn't know about.

A girl can get up early in the morning unless it's to help her mother around the house.

A woman doesn't seem to bother as much about the sin of gambling as about the crime of paying up.

Divided Skirts at Dance.

Lawrence, Kan., Journal: At a dance given recently by the junior class of the state university, a "farmer's party," a young woman who attends the university probably wore the most original costume ever worn at a party. She wore her riding costume, consisting of a divided skirt and a flannel shirt waist. Around her waist suspended from her belt was a brace of pistols. The young woman says she enjoyed the evening immensely, and recommends divided skirts for universal wear for girls on all occasions.

TWENTY YEARS AGO.

J. H. Lee to B. S. Parsons, lots 7 and 10, block 11, Portland, $10,000.

J. T. Odell to A. P Williams, 24 lots in blocks 114, 119, 120, 148, 150 150½ and 152, Second division, $18,000.

Western Land association to B. J. Farrell, lots 9 to 12, block 91, Portland, $2,100.

Monroe Nichols to F. R. Webber, lot 14, block 34, Endion, $1,600.

R. A. Gray to J. D. Reckie, lot 92, block 33, Third division, $3,500.

L. Mendenhall to S. M. Robinson, lots 3 and 4, block 6, Banning & Ray's $4,000.

***Rev. W. W. Mi: and family have taken up their temporary abode at the home of E. E. Williams on West Second street at the East end.

***Navigation on Superior street has closed and opened on the bay. The mud has dried up.

***R. C. Kruschke, the well known jeweler, who left Duluth two years ago for his health, has recovered and will return here about May 1 and again establish himself in the jewelry business in the new Thompson building on Lake avenue.

***H. S. Higgins has given up his position at the Great Northern elevator, West Superior, and will return to Duluth. Frank Gilmore has also quit and will go to the east to remain permanently.

***Lieut. John W. Danenhoven, the Arctic explorer, shot and killed himself at the naval academy yesterday. He had mental trouble after he returned from thee Arctic region.

***The Y. M. C. A. athletic organization received about $70 as the net proceeds of the entertainment at the opera house.

***Judge Jacques occupied the municipal court bench today, while Judge Martin read up on the new baseball rules.

***Officer Daniels tells of how he and City Attorney Edson captured 384 trout at one "sitting" last summer. Although trout stories are strictly in order, Mr. Edson declines to corroborate more than part of the story, placing the number at 145.

***The Herald is advocating the cutting through of West Superior street from Eighth and oFurteen avenues. Every particle of rock, it says, can be utilized in Filling Michigan street at Ninth avenue.

MINNESOTA OPINIONS.

St. Cloud Journal-Press: Governor Johnson did the courteous act for a former opponent, Hon. R. C. Dunn. Bob called on the governor the other day, and when he left, after a pleasant visit, he carried with him the appointment of J. L. Briggs as probate judge, to fill a vacancy caused by the death of the judge-elect. It was a good appointment, as Judge Briggs is well qualified for the position.

Red Wing Republican: Now that we have had columns about Harriman and Thaw why not give some space to some one or two American gentlemen who are really worth something to the world?

St. Cloud Journal-Press: "Jefferson, Jackson, Johnson." That would be the most popular Democratic slogan ever heard in Minnesota.

Aitkin Age: Publicity is the one thing that the special interests do not want. The dark and devious schemes of corruption cannot thrive in daylight. Turn on the light.

Rochester Post and Record: So many political dinners these days it's evident the politicians are really feeding on the fat of the land.

New Ulm Review. St. Paul is after the next national Democratic convention. Bring it to Minnesota and Johnson's the next nominee as sure as two and two make four.

Owatonna Journal-Chronicle: The new mayor of Faribault declares that the "lid" is on there to stay while he is mayor. Faribault always was bound to be fashionable.

Anoka County Union: Great sight to watch men vote away millions of dollars, when personally a dollar looks as big as a cart wheel to some of them.

Le Sueur News: Most of the congressmen who recently visited the Panama canal say the work will be completed in eight years. Possibly, if congress keeps its hands off.

Mower County Transcript: Those who read the evidence before the federal grand jury at Minneapolis have no doubt that the retail coal dealers' combine is making strenuous efforts to exterminate the independent coal dealers and to punish the wholesalers who dare to furnish them coal. We would like to see every member of this coal dealers' trust in the penitentiary for a term of years. They deserve it.

Freeborn County Standard: Congressman Jim Tawney has returned with enthusiasm from his inspection of the Panama canal. If he did not grab the canal and return with that also it probably was because it is fastened down so tight that he couldn't lift it.

Moorhead Citizen: James J. Hill has abdicated the presidency of the Great Northern, but he has kept the job in the family as the salary is handy to have around the house.

Blame It on the Weather.

When things they go contrary
In the howlin' settlement,
Lay it to the weather
An' go your way content!

When Fortune passes by you—
Not the red gleam of a cent,
Lay it to the weather
An' go your way content!

An' when at last you're summoned
Where Satan first was sent,
Lay it to the weather
An' go your way content!
—F. L. STANTON in Atlanta Constitution.

A "Fan's" Wrath Aroused.

Stillwater Gazette: Some fellow who is a dead 'un, and a newspaper man at that, wonders why President Roosevelt wastes his time to see a baseball game. Wastes his time? Come out of your shell you old fossil and get into a game that keeps a man alive and makes his blood circulate a hundred thousand miles a minute—if there are two men out, a man on third and two strikes on the batter. Waste his time; gwan.

Strength in Vegetable Growth.

Philadelphia Record: "Strength is not a thing usually attributed to maidenhair fern," remarked a local florist, "and yet, if its roots have not sufficient room, they will break the strongest flowerpots. Blades of grass will force the curbstones between which they spring out of place. Indeed, the strength in vegetable growth is wonderful.

"The most striking example is the Island of Aldabra, to the northwest of Madagascar. The island is becoming smaller and smaller through the action of the mangroves growing at the foot of the cliffs. The roots break off immense pieces of stone, which fall into the sea. Into the gaps thus formed the waves eat their way. In a few years it is likely that by the combined action of the waters and mangroves the island will disappear."

Less Motion Than Emotion.

Denver Post: Two men were coming into Denver from a nearby town on a local train the other day. The train stopped every five minutes, it seemed. One of the men became impatient. Finally, when the train halted for the engine to get up steam the man's impatience overflowed.

"Now, what do you think of this train?" he asked the other.

"It isn't making much progress," replied his friend.

"Progress! I should say not," said the impatient man. "It would be a fierce job to take a moving picture of this train."

Squaring the Circle.

Case and Comment: A correspondent sends us a copy of a statute which he says was enacted in Mississippi incorporating a town and declaring "that the corporate limits of said town shall be as follows: "Beginning at the quarter stake in front of Caleb Hannah's residence and running 60 yards every direction, making said corporate limits 1,200 yards square." The correspondent says this repeals the mathematical proposition that you cannot square a circle.

ANENT THE LEGISLATURE.

Anoka Free Press: In legislature as in politics it is the weakest arguments that carry the most weight—possibly on the ground that they are so thin and vapory that they cannot be refuted.

Rush City Post: If the members of the present legislature should ask for an endersement by a re-election, they would have a record of extravagance to explain never before equalled in the history of the state.

Albert Lea Tribune: The representatives in the state legislature in passing the anti-pass bill did not propose to curtail their own enjoyment of the little pasteboards and hence made the proposed new law take effect at the end of their present terms, December 31, 1908. This may be statesmanship but some will call it by another and less delicate name.

Princeton Union: And now, after the legislature has worked hard and long to pass so-called "reform" measures, the courts will be called upon to determine their constitutionality and likely knock them out.

Perham Enterprise: Of all the fool things acomplished by the present legislature, that of endorsing President Roosevelt for a third term was the most foolish.

Cannon Falls Beacon: Seven thousand dollars per year is not too large a salary for governor of Minnesota, for neither John A. Johnson nor any other poor man should feel that the acceptance of the office involves too great financial sacrifice.

Martin County Sentinel: Speaker Johnson broke the gavel the other day in his efforts to maintain order in the house. He has evidently done all he could. An anvil and sledgehammer should be furnished our strenuous speaker.

Bemidji Sentinel: The house passed an anti-pass bill effective Dec. 31, 1908. Say but they are a ——— well Opsahl voted against it. That is one consolation.

St. Peter Herald: It will be necessary to spank a few more members of the legislature before they can be made to understand what the people want. Last week the McColl bill, permitting the nomination of United States senators by popular vote, was killed in the senate.

Sauk Center Herald: It's easy to criticise the legislature, but if you were a member of that body would you do any better?

Redwood Reveille: When the present legislature closes Minnesota will have paid for about $200,000 worth of laws. Now will the old state be good?

Pine River Sentinel: Some of the members have earned the money which is being paid them by the people, and others will not have done so. This should not affect the state of their finances, however, as the corporations have had plenty of loose change this winter.

Cabbages and Cigars.

Princeton Union: Cabbages in Cuba often attain a weight of twenty pounds, says a consular report. This goes to show that the manufacture of Havana cigars must be a mighty profitable business.

AMUSEMENTS.

LYCEUM | 2 NIGHTS

Tuesday and Wednesday, PAUL GILMORE in "AT YALE." 25c to $1.50.

Thursday, "THE EYE WITNESS." 25c to 50c.

Friday and Saturday. Mat. Saturday,

Made up in a fine Chiffon finish, full 36 inches wide—sale price—Tuesday's special..... $1.00

ONE MILE OF PENNIES

Children of City Will Contribute Them to Y. W. C. A.

Members Are Going Into Campaign With Redoubled Energy.

The children of the city have been enrolled as working members of the campaign for subscriptions for the building fund of the Young Women's Christian association. A large number of the interested ones will work during the week to gather together a mile of one cent pieces of coin and the amount will go toward the building fund. A mile of pennies sounds rather appalling. There are 5,280 feet in one mile. It takes seventeen of the coins of the lowest denomination which Uncle Sam issues placed one beside the other to cover the space of a linear foot. Therefore if there are seventeen cents in one foot for 5,280 feet there will be required 89,760 cents, which by another arithmetical process may be expressed as $897.60.

The plan of raising this mile of pennies was originated by one of the women of the association and a few children interested. It was met with such enthusiasm that it was decided by those interested in the campaign to let the idea loose among the children of the city. The younger girls of the gymnasium classes are intensely interested and the high school students will probably interest themselves in it also. A number of the boys of the boys' department of the Y. M. C. A. have signified their intention to work for a mile of pennies and there will probably be more "Gimme a cent" requests this week than Duluth parents have ever before experienced. To the child who brings in the greatest number of feet of pennies by Saturday evening of this week there will be added an extra ten feet of the copper coins. To the one bringing the next greatest number of feet, five extra feet will be given, and to the third largest contributor by feet, will be added 2½ feet of coins.

One of the women working on a committee is interesting little children in the plan to contribute a dollar each to be payable in quarterly installments and already sixty children have signed the pledge cards.

There is great interest in the Y. W. C. A. bazaar arranged by J. M. Gidding & Co. and their force of salespeople. The store with its assistants has been turned over to the association entirely for Wednesday evening of this week and all articles contributed by the association and their friends will be on sale at that time. Subscriptions will be taken and a general celebration time enjoyed. A musical program has been arranged by Miss Jane Everington and a piano and vocal numbers and readings will be given. The piano will be kindly furnished by the Howard Farrell Piano company. Those taking part will be Miss Dora Swan, Walter Smith, Charles Applehagen, Joseph Chrudensky, Miss Everington, Miss Edna Harris, Josephine Sanders, Marie Sims and Eva Casmir.

THE PILOT OF THE LARCHMONT

Held Responsible for Collision in Which 100 Were Drowned.

New London, Conn., April 22.—Local United States Steamboat Inspectors Withey and Steward today made public their findings in the steamer Larchmont disaster on the night of Feb. 1, when upwards of 100 lives were lost in the sinking of the steamer after the collision with the schooner Harry Knowlton in Block Island Sound. The responsibility for the collision is laid upon Pilot John L. Anson of the Larchmont, who was drowned, and Capt. George W. McVey is practically exonerated. The schooner is declared to have been sailed in full compliance with the navigating rules.

LAFAYETTE

Is Subject of Lecture by Charles W. Seymour.

Charles W. Seymour delivered a lecture on Lafayette to the students of the high school this morning and succeeded in keeping his large audience greatly interested throughout the long talk.

The lecturer started with a brief description of the French court at the time of Lafayette's youth and gave a good idea of the atmosphere of the times and the life which the nobility lead.

He also told of the manner in which Lafayette became interested in the hard struggle which the American colonies were making against the tyranny of Great Britain and how the young Frenchman with the impulsiveness which is characteristic of his race offered his sword and money to the colonies.

SAYS SHE IS A PRINCESS.

San Francisco, April 22.—A woman named Martha Covalinsky, claiming to be a princess and a cousin of the czar of Russia, is detained on board the liner Ventura awaiting the decision of the immigration commission as to whether or not she is a victim of trachoma. If she is, she will be deported to Australia, from whence she came.

DEFEAT IS PROBABLE

Grocers' Liquor Ordinance Has Hard Road to Travel.

Bids for Printing Will be Discussed This Evening.

From present indications the ordinance introduced by Alderman Jordan in the city council, which permitted licenses for the sale of liquor to be granted in excess of the number permitted by the charter, the liquors to be sold in the original unbroken package, to be used off the premises, and not sold over a bar, will be defeated when it comes up beforee the council this evening.

The ordinance was designed to permit grocers who wished to carry the stuff in stock to do so, upon the payment of the regulation liquor license of $1,000 per year. This would have required no special regulation were it not for the fact that the saloons and licensed liquor dealers are already up to the legal limit in numbers.

The temperance advocates are said to be opposed to the proposition, and the liquor men are not more than half sure that they want the new innovation.

Some of the grocers were talking rather strongly about briging before the council the manner in which the druggists of the city are claimed to be retailing liquors without the payment of any license whatever, and should the matter be turned down, the lovers of peace and quiet in the council are hoping that the ordinance will be allowed to die a natural death.

City Clerk Cheadle, in his report on bids for city printing last week stated in no uncertain terms that the printers were trying to work the city and county for all they were worth, and when the purchasing and supplies committee reports on the bids this evening there will be some lively discussion as to the acceptance or the rejection of the bids as offered.

The confirmation of contracts for sidewalk work, sprinkling, maintience, supplies, etc., recommended by the board of public works, and other routine business will make up the remainder of tonight's meeting of the council.

GOSPEL MEETINGS

The noted evangelist, Rev. W. H. Dunnett, First Baptist church. Every evening, except Saturday.

THE EVIDENCE AGAINST EDDY

As the Assailant of Miss Hergaton is Very Strong.

San Francisco, April 22.—Alvin Eddy, a motorman on the Fillmore street line, was arrested yesterday and positively identified later by Miss Ethyle Hergaton as the man who had beaten her nearly to death at midnight last Friday, when, ostensibly leading her to the house at 115 Point Lobos avenue, into which her mother had moved that day, he enticed her out on Masonic avenue and there choked her and pounded her face until she was unrecognizable, when she resisted him. He bears teeth marks on his fingers. Eddy declares he is not guilty and asserts he can establish an alibi.

Besides the identification by Miss Hergaton and marks of teeth on Eddy's fingers, the police have obtained still further evidence against Eddy. This evidence was given by Bert Valerga and William C. Smith, both United Railroads carmen, living in a Geary street refugee camp. They saw a man leave the car with Miss Hergaton, and they say positively that that man was Alvin Eddy. They called at the city jail yesterday and picked him out.

TOTAL VALUE OF RAILROADS

In Minnesota, $215,000,000; Capitalized at About $400,000,000.

St. Paul, April 22.—(Special to The Herald.)—The report of the Sundberg committee, appointed to investigate the value and cost of operation of the railroads in Minnesota was made to the senate today.

It is a voluminous document, covering twenty-one typewritten pages. Summarized, the conclusions of the committee are as follows:

"The total value of the railroad property in Minnesota, is, in round numbers, $215,000,000. This is approximately $27,000 per mile. This property is capitalized to the extent of about $400,000,000, over $50,000 per mile on the average.

"The railroads in Minnesota received in land grants from the state and federal governments over 14,000,000 acres of land.

"In view of the facts disclosed, we earnestly recommend that a committee or commission of three be empowered to investigate generally into the capitalization of the railroads of Minnesota, and the relation the stocks and bonds bear to the value thereof, and the enactment of such appropriate legislation as the conditions disclosed demand."

SUSPICIOUS OF STORY

Police Inclined to Doubt Hold-Up in West Duluth.

Circumstances Do Not Bear Out Story Told by Wall.

A hold-up in West Duluth was reported to the police last evening by Charles Wall of 5531 State street, who claimed that he had been stopped by two masked men at the corner of Central avenue and Elinor street, in West Duluth, about 9 o'clock last evening and relieved of about $80 at the point of a revolver. The two men then backed away, said Wall, until out of sight and ran down Elinor street toward the Third street car line.

An interview with Mrs. Wall by the police brought out the fact, Lieut. Briggs says, that the robbed man had, strangely enough, returned home after the robbery without saying a word to his wife about his loss. An examination of the place where the affair was said to have take place showed that it was brilliantly lighted and a family which lives within fifteen feet of the spot where Wall said the men came upon him, said that they had been sitting before a window, without a light, at the hour the hold-up occurred, and that had there been such an affair they could not have failed to notice it. In addition to this Lieut. Briggs says that if the men ran in the direction that Wall says they did, they would have had to do some tall stunts jumping barbed wire fences before reaching the car line.

Wall's story was to the effect that the men leaped upon him from behind a building and had him covered with two big revolvers before he realized what they were about to do. One of them held the revolver against his head, while the other made a thorough search of his pockets and found a leather wallet, containing four twenty-dollar bills, unbroken from the last pay day which he had had on March 30. Wall said he had been down town to buy a newspaper.

DECISION AGAINST "LORD" BARRINGTON.

Washington, April 22.—In an opinion by Chief Justice Fuller, the supreme court of the United States dismissed the criminal case of Frederick Seymour, alias "Lord" Barrington, under sentence of death in St. Louis, on the charge of murdering James P. McCann in the outskirts of that city in June, 1905, in affect affirming the decision of the supreme court of Missouri, and thus sustaining the verdict of guilty returned by the trial court.

THE BOARD OF U. S. ENGINEERS

To Investigate Harbor Will Meet in Duluth June 18.

Washington, April 22.—(Special to The Herald.)—J. Adam Bede is today advised that the board of United States engineers, appointed to investigate the harbors of Duluth and Superior, will meet at Duluth, June 18.

REV. O. PAULSEN DEAD.

Well Known Norwegian-Lutheran Minister Passes Away.

News has been received in Duluth of the death of Rev. O. Paulsen, one of the best known Norwegian-Americans in the Northwest, at Fargo, N. D., Saturday. Rev. Paulsen was credited with founding the First Norwegian-Lutheran church here, and also founded Augsburg seminary, Trinity Lutheran church in Minneapolis, and other Lutheran churches throughout the Northwest. Rev. Paulsen was born in Norway in 1832, and came to the United States when 18 years of age. First a farmer and then a soldier in the War of the Rebellion, he afterwards educated himself for the ministry, and was ordained in 1860, being assigned to duty in Minneapolis. In 1871 he founded Augsburg seminary. He was pastor of a number of churches in Minnesota and Wisconsin, his last charge being Blanchardsville, Wis., from which pastorate he resigned in 1905. He took up his residence with a married daughter at Fargo.

NEW POSTMASTER FOR FLOODWOOD.

Washington, April 22.—(Special to The Herald.)—Clair D. Rutherford has been appointed postmaster at Floodwood, St. Louis county, vice J. B. Mayer, resigned.

CONCERNING WOMEN

What the market offers today:

210 West Superior St.

F. S. KELLY FURN. CO.

All Cars Lead to Kelly's—226-28 W. Sup. St.—Take Any Car Running in Duluth, Get Off at 3d Ave. W.

THE BIG SHOW OF MODERN OFFICE APPLIANCES

Commences tomorrow morning at 8 o'clock and everything will be in place, ready for the "Greatest Event" of this kind ever held in this city and in fact the only event of its kind ever given Duluth people. We want you to visit this exhibition also all your employes, for we believe you can get lots of information and instruction whether you wish to purchase anything or not. COME!

THE "ALLWIN" FOLDING GO-CART

"ALLWIN" IS THE NAME.

Is THE Folding Go-Cart on the market and the only one worth while. The wonderful success of the "ALLWIN" has induced manufacturers to bring out dozens of "Quick" Folding Go-Carts. Yet the "ALLWIN" remains the leader, the best of them all. The frames of the cheaper "ALLWINS" are made of wood, but the better ones are made of bicycle steel tubing—perfectly strong and rigid. Next fall you can get runners to fit on over wheels to make a sleigh. You can use the "ALLWIN" 365 days a year.

THE PRICES ARE:

$5.75, $8.50, $10, $12.50, $15.00 AND $17.50.

THIS LITTLE CUT shows the "ALLWIN" folded the size of an ordinary hand satchel. The size when folded is 13½ inches by 23½ inches by 4½ inches.

SEARCHES RECORDS

Special Representative of Bureau of Census Visits Duluth.

Collecting Data Concerning Marriages and Divorces of County.

Marshall H. Wilson of Washington, D. C., who represents the bureau of census, is spending several days in Duluth, collecting some statistics for the department of commerce and labor which will be published later.

Mr. Wilson has been following the lake port route to Duluth, having stopped at about all the ports between here and Chicago. He has just about completed his work of gathering statistics concerning the lake transportation business and has begun the collection of statistics on marriage and divorce in St. Louis county. As soon as his work is completed here, he will visit Lake and Cook counties for the same purpose.

The department is going into the matter of marriage and divorce very thoroughly, the statistics which are taken covering a period of twenty years. In the matter of divorces not only will the date of the marriage and separation be given, but consideration will be given the causes and whether intemperance was a direct or indirect cause for the severing of the nuptial knot.

None of the data collected by the representatives of the bureau will be given publicity until the department of commerce and labor issues its book. It is expected that the next volume will contain an immense amount of interesting statistical information.

The expenses of gathering the statistics are paid out of the appropriation made by congress for the purpose.

RIP VAN WINKLES IN LIFE.

Many People Have Rivaled the Character In Fiction.

Possibly the closest rival that Rip Van Winkle has had in flesh and blood is Herschell Grider, who, at Rowena, Ky., is calmly enjoying a nap which began twelve years ago.

When he went to sleep one day it was not because of a convivial encounter with gnomes of the wood nor was his slumber attended by any unusual circumstance. He simply arose from the dinner table, stretched his arms, yawned and casually remarked that he guessed he'd go and lie down for about ten minutes. But it appears that his conception of a minute was all wrong.

Fed liquid nourishment twice a day, he holds his own physically, his limbs remain supple; he seems in no danger of dying soon.

His is but another strange case of prolonged sleep, a queer malady, which, in various forms, has puzzled the best physicians of modern times. While history seems to show no other continuous nap of the same duration, there are others as remarkable in some respects.

It would be an odd thing for a man to lose a dozen years of his life.

Think what it would mean to him. When he went to sleep Grover Cleveland was president of the United States. How could he grasp the fact that in the meantime a president had been assassinated and that another had taken his place?

For the sake of popular interest, if not of science, it would be interesting to see aged Mr. Grider awake, but the physicians say it is quite unlikely that he ever will, unless he should experience a brief consciousness preceding death.

Seldom have victims of prolonged sleeping been awakened. In Africa some mysterious element in the atmosphere or vegetation, spread by the bite of a fly, causes what is called "sleeping sickness."

In one instance recently in the United States a man did awake after a three months' sleep and what he told about his experience in the Land of Nod will prove of interest to science. He was William Schnable, 36 years old, who returned to his home in Philadelphia after having been injured on the head at Denver and a few days afterward fell into his long sleep.

When he awoke in the Philadelphia hospital he asked the nurse confusedly, "Is it too late to go to work?" After a while he recalled many things that had occurred during his nap, but was unable to separate the actualities from his dreams.

In another instance, reported by Dr. Scull, a specialist on the brain, a man of 27 awoke after having been asleep fifteen months. The first emotion he betrayed was anxiety about a field of oats which was just sprouting when he went to sleep. He was greatly astonished to learn that the oats had been harvested and the same field was then knee deep with corn. After coming out of his sleep he grew rapidly worse with phthisis and died in eighteen months.

The university of Pennsylvania hospital in Philadelphia some years ago furnished a curious case, that of Clara Gilchrist, a victim of hysteria, who took a nap lasting several months. She was finally aroused by being beaten with wet towels and soon afterward returned to her home in Ireland apparently well.

The form of sleeping most often encountered in America is not associated by physicians with the African malady It is believed to be caused usually by a secretion in the kidneys which gets into the blood and by acting on the white corpuseles creates somnolence.

An interesting case is that of a patient who took nourishment, even sitting up in bed occasionally to drink a cup of coffee. But throughout it all there was no awakening.

Even where no especial effects are noticed it is not uncommon for a person so afflicted to fall asleep in a chair or even standing up at frequent intervals. In this respect Pickwick's fat boy was no visionary character.

When the trouble takes the form of prolonged somnolence it is attended by interesting phenomena. Tickling of the feet, applying electricity, thrusting needles into the flesh to the bone and sound shaking have no effect whatever.

The patients can usually hear and can respond to suggestions, though apparently insensible to painful impressions, and do not appear to smell, taste or see.

The eyes are sometimes closed, sometimes opened; the pupils are turned backward and contracted as in normal sleep.

Usually the jaws are set so firmly that it is necessary to extract a tooth, if one be not missing, in order to apply liquid nourishment. At times, however, a rubber tube is inserted in the patient's nostrils which serves the same purpose.

That eminent physician and literary man Dr. S. Weir Mitchell of Philadelphia has taken part in the investigation of eighteen cases of protracted sleep, the longest lasting six months. All of these persons were under middle age.

Eight of the patients recovered easily and completely, two recovered with loss of intellect, one fell a victim of apoplexy four months after recovery, one recovered with insomnia as a sequel and four died in sleep.

One recovered after six months of continuous slumber and resumed the train of conversation where he had been interrupted by the nap.

Fright has been known to cause prolonged sleeping. A case in point is that of a woman of 45, a seamstress, who after having undergone a narrow escape from death in a gale fell into a sleep which lasted till death.

Dr. Jones of New Orleans related a case of a girl of 27 who had been asleep for eighteen years, only walking at regular intervals and remaining awake for not more than ten minutes at a time. The sleep began when she was 9 years old, after she had taken repeated doses of quinine and morphine. Her case was especially peculiar in that her periods of waking were regular and uniform. She would wake at 6 a. m. and every hour thereafter until noon; again at 3 o'clock; again at sunset; next at 9 o'clock and once or twice thereafter before morning.

A Spanish soldier in the military hospital at San Ambrosio, Cuba, remained in a cataleptic state for fourteen months. His body would, like a jointed doll's, remain in any position in which it was placed.

Marin Cvetskens, a maiden of Stevenswerth, Holland, was asleep for 220 days in 1886. Her case puzzled hundreds of physicians. It was agreed that there could be absolutely no deception. The parents of the girl were eminently respectable and never tried to profit by her unnatural state.

From France comes an instance of a girl who slept four years.

There is a record in medical works on this subject of a man near Rochester, N. Y., who slept five years, never waking more than sixteen hours at a time, and that only at intervals of six weeks or more. When seized by the trance he weighed 160 pounds, and he dwindled to ninety pounds. No treatment availed; he died.

Dr. Balndet, a French specialist in nerve and brain diseases, is authority for information relating to a girl who fell asleep the day after her marriage in her 20th year, and slept for fifteen days. Four years later she again became insensible and remained so for twelve months, with the exception of one day, when she arose, ate dinner with her husband and again lapsed into what proved a sleep of death. During her first sleep it was necessary to pull a tooth in order to give her nourishment, but this ordeal never disturbed her slumbers.

A REAL BARGAIN.

New York Times: Ex-Senator Clark, at a studio tea in New York, declared that his recent purchase for $40,000 of Jules Breton's "Harvesting of the Poppies" was a bargain.

"As a work of art," said the Senator, "as an object of consummate beauty, the painting is easily worth $40,000. Besides it is sure to go up in value. Oh, yes, any way you look at it, I have got a bargain."

Turning idly the Algerian sketches in a huge portfolio, while the author of the sketches looked on with hopeful, anxious eyes, he resumed:

"I have got such a bargain as a small tobacco dealer tried to get last Easter. An advertising agent told me about it.

"The tobacco dealer, called at a newspaper office, and pointed out the half-page tobacco advertisement of a powerful firm.

"'Is this advertisement to appear again?' he asked.

"'Oh, yes,' replied the clerk. 'It is to appear all Easter week.'

"'Well,' said the dealer, 'just insert this small card of mine immediately below it.'

"And he handed the clerk a card that said:

JOHN SMITH,
Cigars and Tobacco,
Supplies All the Goods Described in the Above Advertisement,
SAME QUALITY AND
20 PER CENT CHEAPER."

CONCERNING WOMEN

A successful way of dodging, if there be any one so debased as to desire to dodge, the young women of the city who bravely wear a colored ribbon with "Y. W. C. A." emblazoned thereupon, has not yet been discovered. Talk is a pretty good way. But the men according to their own admission are not yet able to talk rapidly enough and sufficiently to escape the determined young women, and women are far from immune from their onslaughts.

A victim sees one approaching in the distance and there are so many of them that the few who do not wear ribbons are beginning to have a furtive look in their eye, and the victim immediately tries to buck up mentally. A contest will surely ensue.

"Oh, how do you do," cries the feminine victim with a brilliant gaiety that falls falsely on her own ear. "How are the subscriptions getting along?"

"Fine," says the wearer of the ribbon with a speculative look in her eye.

The victim hurries on "I think you girls are doing perfectly splendid. Is your committee ahead now or not? I haven't seen the bulletin for five minutes and so of course I don't know but I'm sure you will collect a lot of money. You don't urge people too much and I think that it is just as good in the end, don't you, and I think that your color is so much nicer than the other and goes with almost everything, so more people will be likely to want to wear it. It's so hard for me to decide which color to wear. If I take blue it won't go with my green suit and if I take another color it won't go with something else. It's very hard to decide. Oh, thank you! Don't bother, I have ten cards of my own to give to people so it won't be necessary to hand out one of those things to me. Well, no I haven't signed one yet but I'm going to save one of my own ten cards to write my subscription on. Oh yes indeed, I will. Oh, my, no, I wouldn't think of letting the month go out without getting my subscription in. Yes, I know there is no time like the present, but to tell the truth, I haven't got my dressmaker's bill yet and honest I'm afraid to look at it even. I know I don't have to pay it just this minute, but I always like to know where the money's coming from before I contract to pay out a lot that I am enthusiastic over. Yes, I know the Lord may help—but why, no of course I don't doubt His ability nor His trustworthiness nor anything, but I haven't yet been able to make $10 do the work of $40, even with the help of—but if you'd only let it go a day or so I know that I'd feel richer. The dressmaker's bill may not be so large as I expect and then I may be able to save some, some other way and I'd put that on my subscription. Well, I can tell you, for I know myself better than you do, that I never will sign two cards and if you make me sign now, it probably won't be so large and I'll not sign another one. You may think it's funny to consider one pledge card signed is better than ten in a desk drawer, but I'll just bet anything if you had let it go I would have made it more. Here it is and for goodness sake don't let anybody come collecting for six weeks at least. And this ribbon doesn't match a thing I own."

Exit ribbon wearer, temporarily triumphant.

The small and diminishing band of ribbonless ones might as well submit first as last, and become immune by signing one of the little pledge cards.

D. A. R. Meeting.

The regular April meeting of tre Greysolon du Lhut chapter of the Daughtears of the American Revolution will be held tomorrow afternoon with Mrs. W. W. McMillan of 1016 East First street. The meeting will be observed as Duluth day and the following outline of study will be followed.

Roll call.
Names of pioneers in Duluth.
Early history.
Cutting canal.
Reading from speech of Proctor Knott.

April Weddings.

Invitations have been received in this city from Mrs. Jennie Pengilly of Northfield, Miss., for the wedding of her daughter. Martha Frances Pengilly to Carl Lester Harkrader, to take place Wednesday of this week. The bride is the daughter of the late Capt. Pengilly, well known throughout the range country and Duluth. Mr. Harkrader and his bride will be at home after May 20 at 620 Ashland avenue, St. Paul.

Lecture-Recital.

Emil Liebling, the Chicago pianist-composer, was heard in a piano recital Saturday evening at the Pilgrim Congregational church, and a large audience enjoyed the program presented by this pioneer in lecture recitals in this country. The audience was made up largely of young piano students and the program arranged especially with a view to the help of students rather than a brilliant concert performance.

The program opened with a McDowell number Prelude, Opus. 10 and was followed by the "Fire Music From Wagner's Wilkuere." A Beethoven Sonata, Op. 31, No. 2 in the three movements was played, and two Raff numbers, Prelude and Menuetto, Op. 72 and "Fantasie Polonaise." "Chant Polonaise" by Chopin-Liszt was followed by two Chopin numbers, Nocturne, Op. 37, No. 2 and Etude, Op. No. 3. A group of the player's own compositions were delightfully interpreted and receoived with pleasure and the group of Schumann selections were among the most delightful of the program. "Children's Dance" by Westerhout and a Moszkowski arrangement of the gypsy music of "Carmen," which closed the program, were delightful.

Events of Interest.

The annual meeting of the Matinee Musicale was held this afternoon at Steinway hall immediately following the last regular program of the year, which was arranged by Mrs. Margaret McLean.

* * *

The regular rehearsal of the Duluth Oratio club will be held this evening at the church parlors of the First Methodist church.

* * *

The Central Auxillary of the First Presbyterian church will hold an all day meeting Wednesday of this week at the church.

* * *

The Second division of the Ladies' Aid society of the First Baptist church will hold a sewing session tomorrow at the church from 9 a. m. till 3 p. m.

Personal Mention.

Mrs. D. Waite of East Superior street is the guest of Mrs. James T. Morris of Minneapolis.

* * *

Mrs. Edward Hazen and Mrs. Charles Hazen left today for St. Paul, where they will attend grand opera.

* * *

Mrs. J. N. McKindley and her guest, Mrs. R. M. Atwater, left yesterday for St. Paul to attend the season of grand opera.

* * *

Mrs. Percy Gough will leave tomorrow for St. Paul, where she will attend grand opera and be the guest of her brother, John M. Stowell.

* * *

Mrs. R. N. Marble, Jr., who has been a guest at the home of her parents, Mr. and Mrs. C. A. Duncan, for several weeks, returned yesterday to her home at Ishpeming.

* * *

C. d'Autremont and daughter, Miss Antoinette d'Autremont, have returned from a several weeks' trip to Mexico and Southern California and the Southwest.

* * *

Mr. and Mrs. John G. Williams have gone to New York for a short trip.

* * *

Mrs. J. D. Zien has gone to St. Paul to attend grand opera.

* * *

Mrs. Fred M. Anderson left this afternoon for St. Paul, where she will join a party and attend grand opera.

* * *

Mrs. J. M. Gidding, Mrs. B. Silberstein and Miss Elsie Silberstein left yesterday for a month's visit at French Lick Springs, Ind.

* * *

Mrs. James E. Goodman of 1927 West Third street will leave tomorrow for St. Paul, where she will attend grand opera. Mrs. Goodman will be the guest of Mrs. F. B. Farmer of Portland avenue.

What Retail Markets Offer.

New potatoes, 3 lbs for 25 cents.
Head lettuce, 15 cents a head.
New beets, 10 cents a bunch.
Strawberries, 25 cents a quart.
Lamb chops, 25 cents a lb.
With paper frills on, 30 cents a lb.
Veal cutlets, 15 and 18 cents a lb.

The days of the market things being displayed on the walk is approaching, and although as yet only onion sets, in three colors, are where one can lift a bite of refreshment, it will not be long before the berries and vegetables are in enticing nearness. The market gets more interesting every day. The potatoes are more reasonable in price, and everyday folks may have creamed new potatoes at any time now. The new beets are tender and young and delicious, and quite cheap, and the berries are available.

If one eats meat during these ecstatic weeks of spring, nothing but the tender lusciousness of a lamb chop should be the tax put on the system. A delicate veal cutlet might do, but the lamb chops will be found much better. As a special addition the market man will put paper frills around the end of the neatly scraped rib bone. One feels rather sorry for the lamb who is deprived of the pleasure of doing that typically lamb-like gambolling on the green.

MUSIC AND THE DRAMA

TONIGHT'S ATTRACTIONS.

METROPOLITAN—Burlesque.
BIJOU—Vaudeville.

GOOD SHOW AT THE MET.

Imperial Burlesquers Offer Entertainment That Seems to Satisfy.

Yesterday afternoon, the Imperial Burlesquers opened a week's engagement at the Metropolitan. They gave a clever entertainment, with plenty of fun, songs, and first-class vaudeville, all of which were appreciated by those present.

Harry Marshall wrote both burlesques offered by the Imperials and he did not do such a bad job. He supplied some lines that are witty and one or two lyrics that are worth while. There are many interpolated numbers which find favor with the audience. To the success of these, the comely chorus contributes largely.

"A Night in Paris" is the title of the first frolic. The scene is laid in a Parisian hotel and an effort has been made to make the atmosphere of the gay French metropolis pervade the piece. It has been successful to a considerable extent.

Pauline Moran, comedienne and vocalist, opens the olio. Her best song is "Won't You Come Over to Philly, Willie," which makes quite a hit. Fred Gray and Nellie Graham have a well-garbed and enjoyable musical act. They play on several different kinds of instruments.

Deonzo and McDonald enliven the ordinary barrel-jumping act with many original stunts, making the fifteen minutes or so alloted to them on the program, pass very pleasantly. Murphy and Magee have a sidewalk conversation of the old school, and Zimmer, first-class juggler, closes the olio with his act.

The chorus reappears to advantage in "Off to the Front," a skit which is filled with satire on the military. Ben Cook and associate fun-makers create many laughs and the songs are pretty.

AT YALE.

Four years ago, when Bandmaster Duss engaged the Madison Square garden for his elaborate production of "Venice," the electricians of the city studied the moving waves and shifting moonlight on the waters of the painted Adriatic with curiosity and awe. Nothing of the kind had been seen in this country on so elaborate a scale before and it was not until they discovered that the device had been brought over from Germany and experimented with for a week before it became tractable that they were satisfied. The elaborate lighting effects in Paul Gilmore's new college play "At Yale," to be seen at the Lyceum, on Tuesday and Wednesday, are extensive alterations and perfections of this German contrivance. Between the first and second acts the scene changes from a daylight effect to those of afternoon and night and back to sunrise. During the singing of college songs between the second and third acts of the piece another like change is made from daylight to night. These changes are produced by patented appliances adapted by Jules Murry for this production.

NEW BILL AT BIJOU.

The bill, which will open at the Bijou tonight, includes: Gavin, Platt and Peaches in the Stolen Kid; Harry Braham, Maud Isabel Entwistle and company, Lorreno Marchel, Reeves and Kenney, Isadore Silver, Moving Pictures, The Curfew Shall not Ring Tonight, a curious dream.

BUILDING AT BEMIDJI.

Contracts Let for Brick Hotel and Other Structures.

Bemidji, Minn., April 22.—(Special to The Herald.)—On Saturday Thome & Mayer let the contract to George E. Kreatz of this city, for the erection of their new three story brick block, to be known as the Merchants' hotel block. The contract price is $20,908.

Bemidji's new building which will be used as a roller skating rink and an auditorium is nearing completion and the finishing touches will be made during the next three weeks. The promoters of the combined opera house and rink are C. M. Bacon, Frank and Chester Snow.

A deal has been closed whereby Schroeder & Schwandt become the owners of lot 1, block 15, original townsite of Bemidji, being the southwest corner of Fourth street and Minnesota avenue, across the street from the city hall. The firm will at once have plans prepared for a modern to story brick block.

Silberstein & Bondy Co.

Announce with pleasure the engagement of the expert Corsetiere

Miss Helene Rosenthal

who will be occupied in demonstrating and fitting the celebrated

American Lady Corsets

beginning today, April 22, and continuing for two weeks

PULPIT AND PLATFORM

CHAPMAN IS IMPRESSIVE

Gives Able Talk to Vast Audience at M. E. Church.

"Personal Evangelism," He Says, Does the Most Good.

Dr. J. Wilbur Chapman is an optimist.

He made that very clear last evening, when he addresed an audience at the First Methodist Episcopal church which was probably the largest gathering that spacious house of worship has ever held.

Many of the largest churches of the city did away with their regular evening services yesterday, that the members of their congregations might journey to the Methodist church and hear the well known evenagelist. It seemed as if everybody took advantage of the opportunity.

Every seat in the church was filled, people were standing at the back and in the aisles, while even on the steps outside sat late comers, who, after going, were loath to return to their homes without hearing what Dr. Chapman had to say.

Many persons, finding the church packed to the doors, returned home.

"Personal Evangelism" was the topic to which Dr. Chapman did such ample justice and which showed his ability to look upon the sunny side of things.

"East and West, North and outh, the time for a religious awakening and a fuller realization of the significance of Christianity is at hand," said Dr. Chapman.

"The people are hungry for the spirit of Christ, an omen most cheering."

Dr. Chapman, while he is a very forceful speaker, did not resort to melodramatic tactics in an effort to impress his hearers with the beauty of Christianity and the good of strict adherence to its principles.

Perhaps the most striking thing he said was that which he most disliked was being called a "professional evangelist." He said he had no time for professional evangelism, in the generally accepted sense, and declared that it was personal evangelism which would do the most good in the right direction.

"If the people themselves," he said, "would take the teachings of Christ home to themselves, submerge the ego—exaggerated and otherwise — long enough to think of others and their relation to man and things, and spread the gospel from one person to another, they could do more good than all of the public speakers on religious topics."

The speaker referred to conditions in different parts of the country, where he has spoken recently. He regarded the outlook as mast hopeful and he told of some recent meetings he addressed.

In the course of his remarks, Dr. Chapman paid a neat tribute to Rev. William Asher and his wife, who are well known in Duluth and who for more than a year have been working the new school of evangelism. He said the former Duluthian and his wife had been doing a great work.

Dr. Chapman was introduced by Rev. M. S. Rice, pastor of the First M. E. church. On the platform also were Rev. William Asher and Rev. Alexander Milne, pastor of Pilgrim Congregational church.

Clergymen of various denominations were scattered through the big church where a dozen different local churches were represented by large delegations.

REVIEWS LECTURES.

Rev. Kirby Miller Praises Work of Mr. Mills.

At the Unitarian church yesterday morning, Rev. Kirby B. Miller, the pastor, told of his impressions of the meetings held during the past week by Benjamin Fay Mills.

Rev. Mr. Miller reviewed the lectures in an able manner and commented most favorably on the broad lines of the doctrine advocated by the eminent lecturer. Mr. Miller said he believed that it is possible to live for universal instead of private ends, and that he intends to preach wholly from that standpoint in the future.

MEETING EACH EVENING.

W. A. Dunnett Holding Services at Baptist Church.

W. A. Dunnett, the evangelist holding services at the First Baptist church delivered addresses to two large congregations yesterday. In the morning, he chose for his subject "David's Choice" and built around it a powerful sermon. In the evening he preached on "Belshazzar's Feast" and he also sang a solo "The Handwriting on the Wall." This evening Mrs. Cavan will sing. Mr. Dunnett will conduct meetings every evening this week.

"My child was burned terribly about the face, neck and chest. I applied Dr. Thomas' Eclectric Oil. The pain ceased and the child sank into a restful sleep." —Mrs. Nancy M. Hanson, Hamburg, N. Y.

Old Phone 1721-L. DULUTH, MINN.

WAS CROWDED TO THE DOORS

Big Audience Hears Sacred Concert at the Lyceum.

Whether due to the influence and advertising of the Y. M. C. A., the fact that the affair was held in the Lyceum theater, or to the general excellence of the program promised, the sacred concert of the High School Musical society, held for the first time in its history at the Lyceum, yesterday afternoon, was attended by a crowd of nearly 2,000 people, every inch of standing room, from parquet to gallery, being filled.

In spite of the uncomfortable situation forced upon a good many of the audience by the conditions, every one of the big crowd left the building with nothing but praise for the high school performers, their director, Mr. Custance, and the prominent soloists who assisted them in the program.

The program opened with a song by the full chorus of 125 voices. "Praise Ye the Lord, O My Soul," by Shelley, and the second number was a beautiful rendition of Barnard's "Plains of Peace," by A. R. Bjorkquist, which was one of the most appreciated numbers on the program. Prof. Custance's announcement, before the program commenced, that owing to its length, there would be no encores granted, did not serve to limit the applause, which was enthusiastic for many of the numbers.

Custance's beautiful anthem, "O Come, Emmanuel," was given a fitting rendition by the chorus, and Frank S. Huse was warmly applauded after his trombone solos, "Rocked in the Cradle of the Deep" and Faure's "The Palms."

Miss Florence Hyland sang, "I Heard the Voice of Jesus Say," and a chorus of girls from the musical society gave Goring Thomas' "Night Hymn at Sea," an especially pretty number.

Charles O. Applehagen was enthusiastically applauded at the close of each of his numbers, Handell's "Arm, Arm Ye Brave," and Custance's recitative, "And I Beheld."

Leon Cooley, with his solo, Shelley's "Resurrection," won perhaps the most honor among the high school musicians, and in spite of Prof. Custance's prohibition of encores, the audience continued their applause for some time in hopes that the young singer might return.

Miss Jane Everington, with a soprano solo, Gounod's "Adore and Be Still," and George Suffel, baritone, with the DeKoven-Kipling "Recessional," won much appreciation by their work, and St. Paul's choir rendered an anthem, by Custance, "Hark, a Thrilling Voice is Sounding," very commendably.

A sextette of girls from the Musical society gave Abt's "Once Again the Day Has Flown," in a manner which would have done credit to older musicians. Other numbers rendered by the full chorus of the society were Mendelssohn's "Heaven and Earth Display," from "Athalie;" Gounod's "By Babylon's Wave" and Handel's "Halleluja Chorus," which concluded the program.

Secretary Bevis, in calling for the offering for the benefit of the association, which was taken up, gave some interesting facts and figures in regard to the nineteen big meetings which preceded yesterday's during the winter. Three of the meetings have been held in the Methodist church, and the remaining sixteen in the Lyceum, and practically 10,000 men attended the series, an average attendance of about 525.

LENROOT STILL IN THE RUNNING

Wisconsin Senatorial Toga Fight Enters Upon Another Week.

Madison, Wis., April 22.—In spite of many rumors to the contrary, the senatorial situation may be said to be unchanged. A flurry of excitement was caused by a rumor that Lenroot had withdrawn, and that the bulk of his votes would go to Hatten, thus giving the latter a long lead. But this was denied by the Lenroot supporters. The poll at the Republican caucus this evening will probably show no appreciable change in the following of the five leading candidates.

At a meeting of Lenroot's supporters, he told his friends he was seeking the welfare of his party and the principles for which it is fighting, rather than the gratification of any personal ambition, and he offered to release them if they saw fit to go elsewhere. This doubtless led to the report that he contemplated withdrawing.

Former Assemblyman Wallace Andrew, who is here in Lenroot's interest, said yesterday: "It is not for Lenroot to withdraw, but for his supporters, and they are resolved to stand firm. They certainly see no reason why the man who has the largest vote, and three times as many La Follette members as any other candidate should be the first to pull out. No, sir, set it down, Lenroot is still in the game and his show is as bright as ever."

Assemblyman LeRoy, Stephenson's supporter, said: "We are still holding the fort, and I see no reason for hoisting the white flag. Mr. Stephenson went home over Sunday, but is coming back early this week."

Former Senator Hatten is still in the city, and says the outlook for him is very encouraging. Congressmen Cooper and Esch returned to their homes over Sunday. Rumors are persistent that the Lenroot and Stephenson support will go to pieces early this week, but such reports are said to emanate from the Stalwart headquarters entirely. Should this occur, it is believed the contest would narrow down to Esch and Hatten.

The Stalwarts prefer Governor Davidson first and Esch second, but rather than have Lenroot or Stephenson chosen, will go to Hatten, while the La Follette people are said to prefer Hatten to Esch, which would seem to make Hatten the most likely compromise candidate.

There is still talk of a dark horse, and Senators Hudnell of Superior and Sanborn of Ashland are receiving favorable mention.

SPECIAL SOUVENIR SALE OF

Madame Yale's Beauty Preparations

ALL THIS WEEK.

SKIN FOOD FREE.

It is unnecessary to state that Madame Yale's toilet requisities are the standard, having stood the test of time and experiment. They are now in universal use by all lovers of high grade toilet specialties throughout the world. It is safe to say that millions of pretty girls and beautiful women in this country owe the beauty of their complexions and the luxuriance of their hair to Mme. Yale's preparations.

FIRST SWEDISH MINISTER COMES

To United States Since Separation of Sweden and Norway.

New York, April 22.—M. De Lagercrantz, the first Swedish minister to Washington since the separation of Norway and Sweden, arrived here yesterday, accompanied by his wife, on the Hamburg-American liner Amerika. He will remain in this city for a few days and then will go to Washington.

"This is my first diplomatic post," said the newly appointed minister, "and I think I shall enjoy immensely my duties. President Roosevelt, whom I expect to meet on Thursday, is remarkably popular with the people of Sweden in general, and is especially well thought of by the royal family. They follow closely the progress that is being made in America, and are anxious to profit by American experience.

"My people are particularly interested in the labor of this country. The working classes are just now in an unsettled condition and are anxious to get on as firm a basis as their fellows in America. Sweden is also desirous of establishing better commercial relations with the United States."

HOLD KISSING BEE.

Reunion of Relatives Results in Interesting Performance.

The spectacle of a crowd of bearded men falling on each others necks, hugging and kissing and weeping for joy is a somewhat unusual one, and when this performance was given on Michigan street, between Fourth and Fifth avenues west, Saturday afternoon, the crowd of 200 or 300 spectators who were in the vicinity realized that they were being treated to an Old World custom.

All of the men participating in the kissing bee were Austrians, and were relatives who had not seen each other for years. The reunion took place near the depot, after some of the relatives had arrived and been met by the others. The greetings lasted for about fifteen minutes, the participants being perfectly oblivious of the people looking n.

GOLDFIELD STRIKE ENDS

Goldfield, Nev., April 22.—An agreement was signed yesterday by the executive committee of mine owners and the officers of the miners' union, No. 220, Goldfield district, which terminates the great lockout and labor struggle of the past seven weeks. The terms of the settlement are as follows:

First—The wage scale in effect in the district March 1, 1907, shall remain in force and eight hours shall constitute a day's work.

Second—The miners' union shall have jurisdiction over all regularly employed men in and around the mines, mills and smelters.

Third—No strike or boycott shall be officially declared by the miners union unless by a two-thirds vote of the organization and no lockout shall be enforced by the mine owners and operators unless by a like vote.

Fourth—No town labor controversy shall interfere with the question of the operation of the mines or the employment of the miners.

Fifth—The terms shall remain in force for a period of two years from date.

"Good for everything a salve is used for and especially recommended for Piles." That is what we say about DeWitt's Carbolized Witch Hazel Salve. Get the original. All druggists.

MAY BE MURDER.

Roethlisberger's Tragic Death Will be Investigated by Officials.

Chippewa Falls, Wis., April 22.—The death of Jacob Roethlisberger, the Chippewa county farmer found dead in a smoldering haystack on Friday, will be investigated, as it is hinted he was murdered.

The fact that he was shot in the side by a shotgun, and that he had received threatening letters lately is the basis for the foul play reports. Mrs. Roethlisberger denies eloping with Louis Loeur, as reported.

WE AIM to reach women who appreciate style and insist upon getting the latest in their clothes—whether it be extreme or conservative.

We extend a cordial invitation to those women who like to believe they cannot be suited with ready-to-wear clothing.

The variety of our made garments is as great as the selection of unmade cloths and the tastes of a host of modistes—we guarantee to fit you at once, which is more than they can do.

Our clothes are designed to meet the demand of the scrutinizingly particular, and whether you pay $19.50—$25.00, or whether you go up the scale to $100.00, you get the superior style in each, the differences represent finer fabrics and trimming quality.

Specialists in Wearing Apparel for Women, Misses and Children.

Silk Jumper Suits $22.50.
Full Pleated Princess Dresses $27.50.
Taffeta Trimmed Voile Skirts $12.50.
Net Waists over silk $6.75.

SPORTS OF THE DAY

SOX DROP TWO MORE

Duluth Loses Entire Series to the Freeport, Ill., Team.

Saturday's Game a Pitchers' Battle—Sunday's Game a Farce.

Freeport, Ill., April 21.—"Smiley" Smith's Duluth White Sox struck rough sledding in this burg, dropping all three games to the Freeport team of the Wisconsin State league.

Saturday's game was a pretty contest. Cummings was in the box for the Sox and held the locals to seven hits. They made a driving finish in the ninth, however, and nosed out a victory by one run. The score at the end of the fourth inning was 3 to 3, and for the remainder of the game it was a pitchers' battle between Cummings and Miller and Darrah.

Score: R.H.E.
Freeport .. ..—4 7 1
Duluth .. ..—3 9 2

Batteries—Miller, Darrah and Ireland; Cummings, Weaver and Smith.

Sunday's game was a farce. Haney and Backus worked out for Duluth, and pitched fair ball, but their support was a nightmare. The Sox were very raw in the field, and eight glaring errors were chalked up against them.

Haney was taken out at the end of the fifth, and Backus was substituted. He had better support, and held the home team down to one tally in the remaining three innings. The final score was 12 to 3. Duluth's runs also came on errors, but the Freeporters were lucky and their errors did not come at such critical moments as did those of this visitors.

Score: R.H.E.
Freeport .....1 0 4 2 4 0 0 1 x—12 9 5
Duluth .. .. ..0 0 0 0 0 1 0 0 2— 3 8 3

Batteries—Gasper, Scott and Ireland; Haney, Backus, Weaver and Smith.

McCUNE AND JACK PARRES

Local Fighter Wants Match With Iron River Man.

Tom McCune is now out for a fight with Jack Parres and the match may be arranged. If the Iron River man takes up the deft, some Northern Minnesota club will probably put the men on, and Duluth sports will have an opportunity of seeing McCune in action, thus giving him a line on his possible chances with Schreck, should he succeed in getting the Cincinnati man to go with him.

McCune and Parres would undoubtedly make a good go. Since his fiasco at Minneapolis with Grig Jones, Parres has been lying low, and now that the roasting he received for that affair has passed, it is about time for him to come out of retirement. If Parres wants to make himself solid with the fight fans again, it is up to him to make good and show that there is some fight in him. McCune is probably a little out of condition now, but with a few weeks' training he can get into shape and he can make things mighty interesting for Parres if they get together for ten rounds or so.

SPORTING BREVITIES

It's nice that the White Sox are on a trainnig trip just about now, instead of playing in the regular series. The fans would be in a cheerful mood if the Sox allowed the Houghton Giants to walk over them in the first series like the Freeporters did in the exhibition games.

• • •

Evidently this man Backus has it on the other pitchers in ante-season form. Twice he went in and held Freeport, after the other pitchers had allowed the Wisconsin leaguers to annex the game. He is showing rare form in the exhibition games, and if he can do the same when he arrives in Duluth, he will be solid with the fans.

• • •

Wisconsin isn't the best place in the world to train. The Sox, since they reported in Madison, have been shaking and shivering with the cold and have been unable to do much with stiff joints and benumbed hands. If they were up here in their own little Duluth right now, they would probably have better weather for training.

• • •

Reports say that the recruits threw the ball all over the lot yesterday. It's a good idea for them to try to work all the bum chunks out of their system before the regular seasaon begins. Here's hoping they do.

• • •

At the same time, if the Freeport manager isn't careful, his men will have worked off all their bingles on Duluth, and will have none when the regular season down that way opens.

• • •

Winnipeg has reported at Minneapolis, Houghton reports next week at Oshkosh, and Calumet will probably report at Calumet. From the 1st to the 16th of May it is very likely that the managers will exercise their arms by swinging the ax more or less. "Smiley" has already taken some training in that manner.

MERTES TO THE MILLERS.

"Sandow" Goes Back to the American Association.

Chicago, April 22.—Samuel Mertes, a controversy over whose services between the New York, St. Louis and Boston National league clubs caused a recent decision of the National baseball commission declaring him a "free agent," has signed with the Minneapolis team of the American association. He left here for Louisville last night to report to Manager Cantillon.

FISHERMEN WERE OUT

Hundreds Took Advantage of Fine Weather Yesterday.

Streams Are Still High and the Banks Muddy.

Yesterday's good weather was warmly greeted by the fishermen and hundreds of anglers shouldered their rods and went out into the woods to fish the nearby streams. Although the fishing season opened a week ago, very little fishing had been done up to yesterday. The cold weather made it decidedly uncomfortable for the fishermen and also tended to spoil his chances to make a catch. As though delivering just what the anglers ordered, the weather man sent along a nice day yesterday and the fishermen were given their first opportunity to enjoy the sport without suffering from cold and wind.

The streams in the vicinity of Duluth were thronged yesterday. Lester river, which has been touted as swarming with fish this year, was the objective point of a good many of the anglers, but few good catches were made there. The other streams also drew their full quota, with varied fortune to the holders of the rods. The streams are still somewhat high and the air is not as warm as it might be, but if good weather holds out for a week, next Saturday and Sunday will see the trout fishing season in full swing.

A number of longer fishing trips are planned for this week, for it is believed that the larger creeks and rivers will soon be right for fishing. The Wisconsin trout season opened Saturday and there are a number of streams along the south shore in Wisconsin, which always draw a crowd of fishermen from Duluth.

One party of about twenty men left yesterday on the Booth line steamer America for Chicago Bay and other points, for a week or so. Later, when the Isle Royale camps are put in shape after the winter, a number of excursions to the island are planned by fishermen, for the streams flowing into the lake from the island yields up some fine trout at times.

Wrestling is a queer game; "queer" in more than one sense of the word. Prof. M. J. Dwyer, once a good wrestler and now a physicial culture man, physical director of the Denver Athletic club, threw Dan McLeod two straight falls at Denver the other night. The first fall went to Dwyer in 33 minutes and 23 seconds and the second in 20 minutes and 53 seconds. McLeod weighed in at 190 pounds and Dwyer at about 170.

Wrestling is notoriously a faker's sport. When a man puts down his money to see a wrestling match, he doesn't knew whether he's going to see a bona fide contest of skill, or whether one man is going to lie down after wrestling around for a time. There have been more fake wrestling matches pulled off than boxers ever hoped to pull in money for, and the best of it is, the wrestlers can put a better appearance on a fake match than fighters can. Usually they give the spectators a run for their money, anyway.

That match at Denver the other night may have been on the square. That's an open question, but those who have followed the wrestling game at all, are inclined to doubt it. In his prime, Dan McLeod could put Dwyer down and do it in lesss time than a half hour, also. Dwyer is a clever man, but he hasn't the Scotchman's strength and strength goes a long way in a wrestling match. It seems incredible that Dan would go down twice in succession before Dwyer, the second time almost without a struggle, if he were really trying to throw the Denver favorite. According to the reports of the bout, they gave the crowd a good exhibition of the game and perhaps the sports are satisfied.

Now they are talking Dwyer and Beell for a match. Dwyer has thus far won every match he has wrestled in Denver, this despite the fact that he is a dead one in the East and Middle West. Fred Beell has the reputation of being a square wrestler and if he goes to Denver, Dwyer is due for a beating. But, Dwyer and the man behind him have succeeded in introducing the wrestling game into Denver and perhaps they are willing to have their man defeated for the sake of bringing a top-notcher there to make the sport solid.

Meanwhile the Beell-Maynard match has been set for April 29 in Duluth. Maynard is a better man than Dwyer ever was and will give Beell a harder match.

ANOTHER DEER SEEN IN CITY

Animal Ran Across the Street at Lakeside Yesterday.

A number of people walking in the Eastern part of the city near Lakeside yesterday were brought to realize that Duluth is still pretty close to the woods by a deer crossing the street. The animal came out of the woods on one side of the road and crossed at a rapid gait to the opposite side, in plain view of a number of people.

This is the third deer seen in Duluth this spring. The first one was at Lakeside and the second at West Duluth.

BASEBALL

National League.

Boston	7	3	4	.429
Pittsburg	5	2	3	.400
St. Louis	8	3	5	.375
Brooklyn	6	1	5	.167

Saturday's Results.

Boston, 2; New York, 13.
Pittsburg, 1; Chicago, 5.
Brooklyn, 0; Philadelphia, 2.
Cincinnati, 1; St. Louis, 2.

CHICAGO, 5; CINCINNATI, 3.

Cincinnati, April 22.—Minahon's lack of control gave Chicago a winning lead in yesterday's game, which was witnessed by 17,000 people, the largest crowd ever in the Cincinnati ball park. The local team, by a fine batting rally in the sixth, came near tying the score, but Overall recovered his effectiveness in time to shut them off. Score:

R H E
Cincinnati ....0 0 0 0 0 3 0 0 0—3 8 2
Chicago ....0 1 2 0 1 0 1 0 0—5 8 1

Batteries—Minahan, Coakley and Schlei; Overall and Kling. Umpires—Carpenter and Johnstone.

PITTSBURG, 6; ST. LOUIS, 5.

St. Louis, April 22.—Four errors by the St. Louis Nationals in the seventh inning of yesterday's game with Pittsburg gave the visitors the game. Leifield pitched the last fivee innings for Pittsburg and saved Phillippe's game. Score:

R H E
St. Louis .....0 0 0 4 0 0 0 0 1—5 13 4
Pittsburg ....1 0 0 0 0 0 5 0 0—6 8 2

Batteries—Brown and Noonan; Phillippe, Leifield and Phelps. Umpire—O'Day.

RECLAMATION OF SWAMP LANDS

Bill to be Pushed at Next Session of Congress.

Washington, April 22.—(Special to The Herald.)—According to official figures, since the reclamation law was enacted by congress in 1902, eight towns have been built and 10,000 people have settled on what were desert lands. To prepare the way for these settlers 100 miles of branch railways have been built, 1,267 miles of canals have been dug, many of which carry whole rivers, and forty-seven tunnels have been excavated. It is estimated that the territory embraced in what is known as the arid regions of the United States covers 600,000,000 acres, of which about 60,000,000 acres are subject to irrigation, which, when properly supplied with water, can be converted into farms fully as productive as lands in the most favored sections.

A bill was introduced in congress at the last session for the purpose of reclaiming overflowed and swamp lands in Arkansas, Indiana, Minnesota, Wisconsin, New Jersey, North Carolina, South Carolina and other states, and those back of it say that it will be "pushed" at the next session. The member who offered this measure roughly estimates the amount of overflowed and swamp lands to be reclaimed at 50,000,000 acres, the reclamation of which would increase the land value more than $5,000,000,000, the annual crop value $1,500,000,000, and, if subdivided into forty-acre farms, would supply 2,500,000 families with homes and put 12,000,000 people on lands now practically worthless.

Hives, eczema, itch or salt rheum sets you crazy. Can't bear the touch of your clothing. Doan's Ointment cures the most obstinate cases. Why suffer. All druggists sell it.

WILL SELL MUCH SUGAR

The Northern Minnesota "Sugar Bushes" Becoming Profitable.

Pure Maple Syrup and Sugar of 'Home-Grown' Variety.

"Home-grown" maple syrup and a large quantity of it will find its way this spring into many Duluth households. A few years ago maple syrup and maple sugar of Northern Minnesota production was an almost unheard of thing in this market, but quite a number of the enterprising Northern Minnesota citizens who have been developing farms on which there is considerable standing maple timber, have turned some attention to their "sugar-bushes" with very successful results.

Probably the largest of these "bushes" is G. G. Hartley's, near Island station on the Cass Lake branch of the Great Northern road. Mr. Hartley expects to supply the market with a large quantity of pure maple syrup, about May 1, although the season has not been just exactly what might be termed good sugar-making weather.

Alexander Marshall, a well known Duluth attorney, has just returned from a several days' visit to his farm two miles south of Barnum, Carlton county, where he has a "sugar-bush" with a camp and about 250 good sap trees. Mr. Marshall says he expects a pretty good return from his "bush" this year, although the season for sap-flow has not been quite as favorable as in some other ears.

Pure maple syrup, the sort that brings one out of bed early in the morning with anticipation of a plate of hot griddle cakes swimming in "the real thing," is pretty hard to get. It is related by some of Duluth's lumbermen that the syrup manufacturers in some of the New England states used to buy up the boards, logs and sawdust of maple timber in Northern Wisconsin and Michigan and ship them down East to boil up into the "pure maple syrup of commerce."

The pure food laws have brought about a considerable change for the better in the sale of maple syrup, as well as other food products, and while the general run of the syrup of commerce is probably a long way from being the "clear stuff" it is a big improvement on the former decoctions that the public used to get from the East.

THE TIME IS NOW SHORT.

(Continued from page 1.)

complimentary and good natured sort. Promptly at noon Wednesday the end will come, and the legislature, adjourning sine die, will pass into history.

• • •

Very few important measures remain unfinished, and these will doubtless be disposed of today and tomorrow.

Chief of importance, though perhaps second in interest, is the tax commission bill. Conference committees are working upon the measure now, with an excellent chance that the two houses will be able to get together on a strong experimental bill.

The anti-pass bill has yet to be settled, and in all probability it will be fixed up before adjournment. There is no lack of members who are disposed to defeat it if they can, but the majority of both houses had much rather not go home without passing the anti-pass bill.

There is a vast difference between the attitudes of the two houses on the proposition, however, which must be adjusted before a bill can go through. The house is committed to a bill which prohibits only railroad passes, and which will not go into effect for nearly two years, though the house will undoubtedly agree to let it become effective at the end of the present year.

The senate, on the other hand, has declared for a bill that is not only effective at once, but that covers all kinds of free privileges in addition to railroad passes. Conference committees will be appointed today on this bill.

• • •

The Appropriations.

The omnibus appropriation bill, upon which the senate finance committee and the house appropriations committee have been working jointly for some time, was finally completed on Saturday night, and it came into the legislature today. The total appropriation for two years is $6,587,418. The standing appropriations are $3,602,000, and the appropriations already made by the legislature amount to $1,300,000, so that the total for the two years to be raised by taxation is $11,500,000.

Unless otherwise stated, the figures given in the appended table of the principal amounts mean that the same amounts will be appropriated for each of the net two years.

New capital repairs	$2,000
State Auditor's Office—	
Clerks	9,500

Hospital for crippled children	16,000
Capitol grounds	75,000

For Roads and Bridges.

The joint road and bridge committee finished carving the road melon Saturday afternoon, and split up the $400,000 lately appropriated for road and bridge purposes so as to give each county a share. St. Louis county gets $4,300 for each year. Lake county $800, Koochiching county $1,000, Itasca county $2,350, Carlton county $2,350, Cass county $2,500, and Aitkin county 2,500. The share of each county for each of the next two years will be as follows, providing the constitutionality of the appropriations, which will be tested, is upheld.

Aitkin	$2,500
Anoka	2,350
Becker	2,300
Beltrami	2,425
Benton	2,000
Big Stone	2,000
Blue Earth	3,000
Brown	2,500
Carlton	2,350
Carver	2,000
Cass	2,500
Chippewa	2,000
Chisago	2,000
Clay	2,500
Clearwater	2,000
Cook	500
Cottonwood	2,350
Crow Wing	2,600
Dakota	2,500
Dodge	1,800
Douglas	2,500
Faribault	2,650

Wright	2,600
Yellow Medicine	2,350

The house, Saturday afternoon, killed Senator Smith's bill giving municipalities the right to regulate and prohibit street meetings. Some of the members voted against it because they thought it was aimed at the Salvation Army. The bill was introduced at the request of the chief of police of Minneapolis.

• • •

The state highway commission is not likely to be abolished, as many members desire. Representative H. O. Hanson, Saturday afternoon, tried to have the rules suspended to pass a bill having that effect, but failed.

• • •

Game and Fish Code.

A second conference committee will be necessary over the game and fish code, the two houses splitting over the question of whether all residents of the state shall be required to pay $1 for a license to hunt. The house passed the bill with that provision, and the senate cut it out. The house refused to concur in the amendment and conference committees tried to compromise by a provision that all residents over 21 years of age should be required to take out licenses, leaving boys the right to hunt free. The senate refused to stand for this, so another conference committee will have to be appointed.

• • •

The house Saturday killed Milo N. Young's bill, providing that nobody shall mark the ballots of those unable to read English. Mr. Young explained that he wanted to stop the practice of letting one man mark the ballots of a large number of voters, but Representative Swendsen said that many foreigners, who have not yet learned English, are as intelligent as anybody, and the house killed the bill.

• • •

Bills Passed.

The following bills were passed Saturday afternoon and evening:

BY THE HOUSE.

By Representative W. A. Nolan—Giving the state board of health power to inspect and regulate street cars, railroad trains, bathrooms, barber shops, packing and slaughter houses, etc.

By Representative Harrison White—To prevent the printing of fraudulent and indelicate advertisements.

By Representative Case—Prohibiting the marriage of first cousins.

By Representative Bicknell—Providing for the removal of all obstructions to the free passage of fish from any lake to its outlet.

By Representative W. I. Nolan—Punishing persons making false reports of crime to police officers.

By Representative Lennon—Requiring safety guards upon passenger elevators.

By Representative Cooke—Providing for the reception of the records of the United States surveyor general in the office of the secretary of state.

BY THE SENATE.

By Representative Putnam—Increasing the amount of temporary relief to be granted to individuals from $50 to $75 a year.

By Representative Libby—Providing a woman inspector of labor for establishments employing women and girls.

• • •

Salaries of Aldermen.

Duluth aldermen who have noted the passage of a bill relating to the salaries of aldermen in cities of more than 50,000 should not begin spending money on the theory that their salaries have been raised to $1,200 a year.

They are left right where they have been at $300 a year, the only advantage the new law giving them is that the conference committee has the power to increase them to $1,200 a year, if it sees fit.

The bill is the result of a compromise between St. Paul and Duluth. Minneapolis aldermen now get $1,200 a year, so they are not affected at all. St. Paul aldermen, however, are only getting $100 a year, and they and their friends wanted more. They wanted $1,200, and an attempt was made to give it to them. It could not be done without affecting Duluth, so a bill was fixed up making the salaries $300 a year, the same as those in Duluth, and giving the conference committee power to increase the figure to $1,200.

It is not a raise for the Duluth aldermen, but it may be the opening for a raise.

STILLMAN H. BINGHAM.

Do You Think For Yourself?

Or, Do You Open Your Mouth Like a Young Bird and Gulp Down Whatever Food or Medicine May be Offered You?

If you are an intelligent, thinking woman, in need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is *one* tried and true, honest medicine OF KNOWN COMPOSITION, sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible indorsement of the leading and standard authorities of the several schools of medical practice, are not afraid to print, as they do, the list of ingredients, of which it is composed, *in plain English*, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, to injurious to delicate women even in small quantities when long continued. Neither does it contain any narcotics, or other harmful, or habit-forming drugs and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised by its manufacturers.

No other medicine for woman's ills has any such *professional* endorsement as Dr. Pierce's Favorite Prescription has received, in the unqualified recommendation of each of the several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration? It certainly is entitled to far more weight than any number of non-professional, or lay testimonials.

A booklet of ingredients, with numerous authorative professional endorsements by the leading medical authorities of this country, will be mailed *free* to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

Dr. Pierce's Favorite Prescription is a scientific medicine, carefully devised by an experienced and skillful physician, and adapted to woman's delicate system. It is made of native American medicinal roots and is perfectly harmless in its effects *in any condition of the female system.*

As a powerful invigorating tonic "Favorite Prescription" imparts strength to the whole system and to the organs distinctly feminine in particular. For overworked, "worn-out," run-down," debilitated teachers, milliners, dressmakers, seamstresses, "shop-girls," house-keepers, nursing mothers, and feeble women generally, Dr. Pierce's Favorite Prescription is the greatest earthly boon, being unequaled as an appetizing cordial and restorative tonic.

As a soothing and strengthening nervine "Favorite Prescription" is unequaled and is invaluable in allaying and subduing nervous excitability, irritability, nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, St. Vitus's dance, and other distressing nervous symptoms commonly attendant upon functional and organic disease of the organs distinctly feminine. It induces refreshing sleep and relieves mental anxiety and despondency.

If a woman has bearing down, or dragging pains, low down in the abdomen, or pelvis, backache, frequent headaches, dizzy or fainting spells, is nervous and easily startled, has gnawing feeling in stomach, sees imaginary floating specks, or spots before her eyes, has melancholia, or "blues," or a weakening disagreeable drain from pelvic organs, she can make no mistake by resorting to the use of Dr. Pierce's Favorite Prescription. It will invigorate and tone up the whole system and especially the pelvic organs.

No woman suffering from any of the above symptoms can afford to accept any secret nostrum or medicine of unknown composition, as a substitute for a medicine like Dr. Pierce's Favorite Prescription, which is OF KNOWN COMPOSITION and has a record of over forty years and sells more largely to-day than ever before. Its makers withhold no secrets from their patients, believing open publicity to be the very best guaranty of merit.

Dr. Pierce invites all suffering women to consult him by letter *free of charge.* All letters of consultation are held as sabredly confidential and an answer is returned in plain sealed envelope. Address Dr. R. V. Pierce, Invalids' Hotel and Surgical Institute, Buffalo, N. Y.

Dr. Pierce's great thousand-page illustrated Common Sense Medical Adviser will be sent free, paper-bound, for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

Dr. Pierce's Pleasant Pellets invigorate the stomach, liver and bowels. They are the *original* Little Liver Pills, having been put out for sale by old Dr. Pierce over 40 years ago. Much *imitated*, but never *equaled*. One to three a dose. Tiny sugar-coated granules; easy to take as candy.

Dr. Pierce's Golden Medical Discovery is a most potent alterative, or blood-purifier, and tonic, or invigorator, and acts especially favorably in a curative way upon all the mucuous lining surfaces, as of the nasal passages, throat, bronchial tubes, stomach, bowels and bladder, curing a large per cent. of catarrhal cases whether the disease affects the nasal passages, the throat, larynx, bronchia, stomach (as catarrhal dyspepsia), bowels (as mucous diarrhea), bladder, uterus or other pelvic organs. Even in the chronic or ulcerative stages of these affections, it is often successful in affecting cures.

TWO ARE KILLED IN A RAILROAD COLLISION.

Birmingham, Ala., April 22.—Two dead and twelve injured is the result of a collision on the Southern railway at Woodlawn Junction early yesterday. A southbound freight train entering the yard limits found itself without power on the main line. A passenger train some hours later ran into the rear of this train, though it is claimed a flagman was sent back to protect the freight. A wrecking train leaving the city yards to clear another wreck ran into the Woodland Junction wreck.

S.S.S. NATURE'S TONIC

Every one should take a tonic in the Spring; their systems require it. The blood has become thick and sluggish with the accumulations left in the system from the inactive, indoor life and from the heavy, rich foods of the Winter season. The blood, being in this unnatural and disordered condition, is unable to furnish the body with the increased amount of nourishment necessary for the more energetic life of Spring and Summer, and the system suffers from debility, weakness, nervousness, indigestion, loss of appetite, and many other unpleasant symptoms of a disordered blood circulation. When the system is in this run down and disordered condition it is not safe to take unknown concoctions, sarsaparillas, compounds, etc., because they usually contain potash or some other equally strong and harmful mineral ingredient, which acts unfavorably and often dangerously on the depleted, weakened system at a time when it needs gentle and natural stimulation to throw off the impurities and recuperate its lost energy. S. S. S. is appropriately called Nature's tonic. It is made entirely of roots, herbs and barks from the great storehouse of forest and field, selected for their purifying and health-restoring qualities, and as it does not contain the slightest trace of mineral in any form it is perfectly safe for young or old. S. S. S. acts directly on the blood, ridding it of all impurities and poisons, and restoring the lost properties of rich, nutritive strength so that it is able to supply the system with the healthful, invigorating energy needed to pass the trying season of the year. Its action is the most pleasant, prompt and satisfactory of all tonics, and those who feel the need of such a medicine will do well to commence the use of S. S. S. at once. S. S. S. restores lost energy, relieves the tired, worn-out feeling, helps the appetite, aids digestion, and adds tone and vigor to the system. THE SWIFT SPECIFIC CO., ATLANTA, GA.

Women Avoid Operations

MISS ROSE MOORE

When a woman suffering from female trouble is told that an operation is necessary, it, of course, frightens her.

The very thought of the hospital, the operating table and the knife strikes terror to her heart.

It is quite true that these troubles may reach a stage where an operation is the only resource, but a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after an operation has been decided upon as the only cure. The strongest and most grateful statements possible to make come from women who by taking

Lydia E. Pinkham's Vegetable Compound

made from native roots and herbs, have escaped serious operations, as evidenced by Miss Rose Moore's case, of 307 W. 26th St., N.Y. She writes:—

Dear Mrs. Pinkham:—"Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."

This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised.

STRANGE PREDICAMENT.

Had a Fortune in Scrip But Could Not Pay.

Geneva, April 22.—Colonel Waldemar Annesky, who was formerly attached to the staff of Gen. Sakaroff during the Russo-Japanese war, was arrested at Bellinzona because he was unable to pay the rent for a single room which he occupied in a poor quarter of the town.

The police, on searching the officer's belongings, report that they found scrip of the face value of nearly $400,000 and a certificate signed by Gen. Sakaroff at Mukden in February, 1905, granting the colonel six months' leave.

The colonel refuses to say how he obtained possession of the shares, but acknowledges that he had acted as a spy in Paris in the service of the Russian government.

As the colonel said he could obtain funds from the Russian consul at Milan, he was allowed to depart, but his papers and scrip were retained by the police.

FINDS POVERTY FATAL.

Ambitious to Become Great Singer, He Starves to Death.

New York, April 22.—As a result of having slowly starved himself so that he might have money to gratify his ambition to become a great singer, John G. McFadden died in the New York hospital at the age of 32.

McFadden came to this city last November from Oberlin, Ohio, where he had worked his way through college, devoting himself especially to music, for he had a voice of great promise. Then, having saved sufficient money to care for his mother and sister and pave the way for a finishing course in music, he came to New York, took a room at 134 West Fifteenth street and entered a class in the Institute of Musical art, at 53 Fifth avenue.

There he attracted the attention of Prof. W. Klamroth, but suddenly developed a catarrhal affection which threatened to wreck his prospects of becoming a singer. He was not willing to become a charity patient, and at Prof. Klamroth's suggestion he went to Dr. Percy E. D. Malcolm of 55 West Fifty-fifth street. The physician saw him repeatedly, and noticing that he was growing thinner and that his hair was turning gray, warned him more than once that he was not nurturing his body properly.

Dr. Malcolm found McFadden on the verge of collapse in a chair in his office. His face was flushed and he was apparently in a high fever. Dr. Malcolm hurried him to the hospital, where Dr. Murray operated on him promptly for appendicitis. The poorly nurtured body, however, could not stand the strain. He had been eating in the cheapest of restaurants, but with great infrequency, and had depended on the scanty meals which he had in his cold hall bedroom.

Kodol for Dyspepsia clears the stomach and makes the breath sweet as a rose. Sold by all druggists on a guarantee relief plan. Conforms to the National Pure Food and drugs Law. All druggists.

BANK ACCOUNT

Started by Chicago Police Judge for Men He Reforms.

Chicago, April 22.—"A savings bank annex" to the branch of the municipal court, presided over by Judge Cleland, is announced by the judge as an additional means of reform held out to unfortunates who come before him.

Any person paroled by the court will have started for him a savings account in a Chicago bank, with a gift of $5 from the bank to start the account. The gift carries with it the condition that the person to whom it applies will not violate the parole and will deposit to his own account at least $2 each month. The amount deposited may not be withdrawn until the end of the year.

The plan is intended to encourage thrift and economy and to check the neglect of families by the men usually brought before the courts on the charge of drunkenness. It is a development of Judge Cleland's present plan of paroling the men to responsible persons in the neighborhood. Semi-monthly reports are made to the judge.

The principal condition imposed on the paroled person is that he will stay away from drink for the period of a year and is not sent to the Bridewell in that time.

The only form of food made from wheat that is all nutriment is the soda cracker, and yet—the only soda cracker of which this is really true is

Uneeda Biscuit

The only soda cracker scientifically baked.
The only soda cracker effectually protected.
The only soda cracker ever fresh, crisp and clean.
The only soda cracker good at all times.

NATIONAL BISCUIT COMPANY

THAW UPSET THE PLANS

Of His Mother to Have Him Sent to the Asylum.

Knox and Other Pittsburg Lawyers Refused Large Fees.

New York, April 22.—Light on the hidden perplexities of Mrs. William Thaw in the matter of dealing with the problem of counsel for her son has been obtained from an authoritative source.

It was declared that it was Mrs. William Thaw's original purpose to have Harry Thaw declared insane and committed to an asylum or sanitarium last summer, and thereby avoid his trial for murder, with the attendant disclosures.

All the data necessary for a successful plea of insanity had been collected within a few weeks after the killing of Stanford White by Olcott, Gruber, Bonynge & McManus and Daniel O'Reilly, the original counsel in the case. The night of the murder O'Reilly started in his own responsibility on the insanity plea and rounded up the different policemen attached to the West Thirtieth street police station, who subsequently testified to Thaw's irrational behavior the first night of his incarceration.

The alienists whom ex-Judge Olcott's firm immediately retained, and who saw Thaw soon after he was removed to the Tombs, and looked into his family history, all pronounced him, it is said, mentally irresponsible, and ex-Judge Olcott's firm went ahead on this theory with the full sanction of Mrs. Thaw senior, it is asserted.

These plans were all upset by Thaw himself. After he had talked with his two personal friends, Clifford W. Hartridge and John B. Gleason, Thaw, it is said, became convinced that an appeal to the higher or unwritten law would result in his acquittal and a complete vindication of his killing of White. He was confident not only of escaping the electric chair, but of avoiding incarceration in an asylum or sanitarium. His wife, it is said, took this view of the case also.

Mrs. William Thaw opposed any change in the original plans with the greatest determination, but was powerless to shake her son's resolve. He being of age, and supposedly mentally competent, it was impossible for the mother to compel obedience to her wishes. Most reluctantly she consented to the retirement of ex-Judge Olcott's firm and the substitution of the other lawyers.

Shortly before the trial began Mrs. William Thaw, greatly perturbed in mind, made a hurried trip to Pittsburg and held a series of conferences with United States Senator Knox, D. C. Watson and Charles F. McKenna, former United States district attorney for Porto Rico. She besought each one of them in turn to take charge of her son's defense. It is said that she offered Senator Knox and Mr. Watson $100,000 and Mr. McKenna almost as much.

Each of the Pittsburg lawyers, it is said, objected to entering the case on the ground that the lawyer with whom young Thaw had surrounded himself made harmonious co-operation impossible. Each one also insisted that insanity was the only tenable plea which the defense had.

One of the Pittsburg lawyers told Mrs. Thaw, it is said, that if she could eliminate certain of her son's counsel and make him understand that insanity must be the plea her offer would be given consideration. This lawyer told her it was his wish that Daniel O'Reilly be continued in the case, and that Delphin M. Delmas might remain, but only as assistant advisory counsel.

Mrs. Thaw returned to this city, it being arranged that Mr. Watson should follow in a few days and see what progress had been made along the lines indicted by the Pittsburg lawyers. Mr. Watson did come here and, it is understood, had a conference, in which Mr. Hartridge was the chief speaker. What happened could not be learned, but it is stated that the conference terminated suddenly. Mr. Watson, much incensed, washed his hands of the whole matter, and when he returned to Pittsburg and related the happenings to Senator Knox and Mr. McKenna they absolutely refused to have anything to do with the case.

They explained to Mrs. William Thaw that it would be utterly impossible for them to conduct the defense along proper lines so long as Harry Thaw had one word to say about its management, and that if the course which the young man wanted to pursue were followed it would simply mean the exhibition to the public of family skeletons, while the final outcome would be the same—young Thaw in an insane asylum.

It is stated that a peculiar sliding scale system of compensation had been arranged with Thaw's lawyers. Should young Thaw by any chance go to the electric chair the lawyers were to get but $50,000. If he went to an asylum the fees were to aggregate $200,000, and should he be acquitted, it is said, the stupendous sum of $500,000 would be paid.

One of Thaw's lawyers, when asked about this sliding scale of payment, said he did not know what arrangements had been made by the Thaw family with the other counsel. He said he simply knew the arrangement which had been made with himself, and that his compensation was not dependent upon the outcome of the trial.

It was learned yesterday that when Olcott, Gruber, Bonynge & McManus were in charge of the defense, one of the members of the firm, after a long conference with Thaw in the tombs, failed utterly to get the prisoner to take a reasonable view of the matter being discussed. Somewhat exasperated, the lawyer finally said:

"See here, Mr. Thaw, you fail to see this case in the proper light. We are the doctors, you the patient."

"Oh, no," replied Thaw haughtily, "you misunderstand our relative positions. I am the general in command; you are merely my adjutants."

BRAINERD CONFERENCE

Of the Methodist Episcopal Church Was Largely Attended.

Brainerd, Minn., April 22.—(Special to The Herald.)—The Brainerd district conference of the Methodist Episcopal church was largely attended on Saturday and Sunday. Saturday evening Dr. Forbes gave a lecture to a crowded church and preached on Sunday morning with great power and eloquence. He left for Monticello and Akeley. On Sunday evening Dr. S. P. Long of Minneapolis gave an able sermon. Throughout the conference addresses were given by Drs. Hingeley and Bridgeman of Minneapolis. The conference elected Rev. C. F. Davis secretary and Rev. J. T. B. Smith treasurer. The presiding elder, E. K. Copper, presided at all the sessions. Over forty churches were represented. Five new churches are in course of construction and an increase of over 300 members is reported. The district Epworth league will meet at Wadena in June. Pastors were present from Bemidji, Wadena, Little Falls, Akeley, Park Rapids, Big Falls, Brainerd, Royalton, Walker and other towns and villages. Fully fifty delegates were in attendance.

A suggestion by Charles S. Scheers of Akeley to begin a Methodist paper by himself with Rev. J. T. Brabner Smith as managing editor and the presiding elder as associate editor was referred to a special committee which will report in six weeks at the Wadena conference.

One of the best papers, for which the author was given a special vote of thanks on "The Preacher and the Press" by Editor Scheers of Akeley.

"Pneumonia's Deadly Work

Had so seriously affected my right lung," writes Mrs. Fannie Connor, of Rural Route 1, Georgetown, Tenn., "that I coughed continuously night and day and the neighbors' prediction—consumption—seemed inevitable, until my husband brought home a bottle of Dr. King's New Discovery, which in my case proved to be the only real cough cure and restorer of weak, sore lungs." When all other remedies utterly fail, you may still win in the battle against lung and throat troubles with New Discovery, the real cure. Guaranteed by all druggists, 50c and $1.00. Trial bottle free.

CIGAR BUTT MANIA IS THE LATEST IN EUROPE.

Vienna, April 22.—An eminent Viennese barrister was recently struck off the rolls for a practice which was pronounced "unseenly and derogatory to the dignity of his profession;" namely, the habit of picking up and collecting the fag ends of cigars in public streets. It was pleaded for the barrister that he was suffering from a peculiar nervous disorder.

Considerable discussion followed in medical circles in Austria and Germany. Cases are cited of persons otherwise sane, of good social positions, who are unable to withstand the impulse to pick up bits of paper, twigs, corks and such things which are lying on the pavements.

A Friend in Need—Always with You.

WHEN you have Heartburn, Colic, Coated Tongue, Suspected Breath, Acid-rising-in throat, Gas-belching, or an incipient Cold, take a Cascaret.

Remember, all these are not merely Discomforts, but indications of a serious Cause.

Nip them in the bud—eat a Candy Cascaret. Cascarets don't purge, nor punish the stomach like "Bile-driving" "Physics."

They act like Exercise on the Bowel-Muscles that propel Food, and that squeeze the natural Digestive Juices of the body into Food.

* * *

Cascarets ward off, or cure, the following diseases:

Constipation	*Bad Breath*
Biliousness	*Headache*
Indigestion	*Diarrhœa*
Dyspepsia	*Flatulence*
Torpid Liver	*Jaundice*
Appendicitis	*Nausea*
Colic	*Vertigo*
Worms	*Pimples*
Piles	*Blotches*

In such cases a little Cascaret in time is worth fifty dollars worth of Treatment later on, to say nothing of the suffering, discomfort, loss of Business Energy, and loss of Social Sunshine it saves.

* * *

Headaches, Heartburn, Gas-belching, Acid-risings in the throat, and Colicky feeling are sure signs of bowel trouble from food poisons, and should be dealt with promptly.

One Cascaret will stop the coming trouble, and move on the Bowel load, if taken at the first signs.

Don't fail to carry the Vest Pocket Box of Cascarets with you constantly.

* * *

All druggists sell them—over ten million boxes a year.

Be very careful to get the genuine, made only by the Sterling Remedy Company and never sold in bulk. Every tablet stamped "CCC." 746

CARTER'S LITTLE LIVER PILLS. Genuine Must Bear Fac-Simile Signature *Brent Good* REFUSE SUBSTITUTES.

SICK HEADACHE

CARTER'S LITTLE LIVER PILLS. Positively cured by these Little Pills.

They also relieve Distress from Dyspepsia, Indigestion and Too Hearty Eating. A perfect remedy for Dizziness, Nausea, Drowsiness, Bad Taste in the Mouth, Coated Tongue, Pain in the Side, TORPID LIVER. They regulate the Bowels. Purely Vegetable.

SMALL PILL. SMALL DOSE. SMALL PRICE.

CARTER'S LITTLE LIVER PILLS. Genuine Must Bear Fac-Simile Signature *Brent Good* REFUSE SUBSTITUTES.

WORK WILL BE PUSHED

Hillside and Lakeside Systems Will be Contructed at Once.

Order Made for Delivery of Water and Gas Mains.

The work of constructing the "hillside" water and gas system and the Lakeside gas system will be carried on simultaneously this season. This is the decision that was reached by the board of water and light commissioners, and will probably allay any feeling on the part of residents in either part of the city who might think their section of the city was being discriminated against if the work were pushed on one of the extensions more than the other.

Toward the end mentioned the board has instructed the manager of the department to order for the first delivery the 12-inch water mains for the hillside system and the 10-inch gas mains for the Lakeside gas extension.

Just as soon as the pipes arrive the construction work will be started on the contracts, which will have been awarded by that time.

It is thought probable that the work will be started by July 1 next.

Preliminary work in connection with the hillside system has already been begun. The department is investigating the matter of the best location for the new reservoir. As soon as the location is determined, plans and estimates will be secured, and the board will advertise for bids and award the contracts.

The announcement by The Herald, a few days ago, that the question of disposing of the bonds had been straightened out satisfactorily, and that the money will now be forthcoming for the extensions was hailed with delight by the people in the hillside district and at Lakeside. It means that the improvements will surely be made this year.

Subsequent to the delivery of the supply mains the branch mains for both the districts mentioned will be received, and these will be laid as fast as practicable.

Fairbanks, Morse & Co. have secured another contract from the department for the laying of about 4,000 feet of gas pipe on Raleigh street, from Fifty-fifth to Sixty-third avenue west, on its bid of 55 cents per cubic yard of excavation. Pastoret & Lunz bid 74 cents, Adam McAdam bid 79½ cents, and Thomas & McCoy $1.20 for the same work.

The smokestack on the Endion pumping station is in a dilapidated condition, and the board has awarded the contract for a new smokestack to the Gogebic Steam Boiler works of this city, on its bid of $454. The Northwestern Steam Boiler company bid $603 for the same contract.

The contract for furnishing the valve and sleeve, and making the connection of the 24-inch water main to the big 42-inch water main at the Lakewood pumping station was awarded to the A. P. Smith Manufacturing company of Newark, N. J., for $900.

It was first planned by the department to buy the thimble and make the connection, but when it was found that, with its own equipment the department would have have to shut down the pumps at Lakewood from twenty-four to thirty-six hours, the board decided that it would be advisable to award the contract to some concern that makes a business of making such connections without shutting off the water pressure. The A. P. Smith company will furnish the material and make the necessary connection without any interruption to the water supply from the pumping station.

BEER—Our Nation's Beverage—has many of the nutritive properties of milk and less alcohol than cider.

ALWAYS THE SAME GOOD OLD BLATZ

For Health's Sake

Try any of these brands—whether on draught or in bottles—wherever you can—

BOOKS ADDED TO THE LIBRARY

List of Volumes Acquired During the Last Two Weeks.

The following books were added to the library during the first two weeks of April:

GENERAL WORKS, PHILOSOPHY AND RELIGION.
Addison, "The Episcopalians."
Baskerville, B. C., "The Polish Jew, His Social and Economic Value."
Beach, H. P., "India and Christian Opportunity."
Clemens, S. L., "Christian Science."
Coffin, Paul, "Sermon Preached August, 1672, in Narragansett."
Dole, C. F., "The Hope of Immortality."
Drake, E. F., "What a Woman of Forty-five Ought to Know."
Faulkner, J. A., "The Methodists."
Merrill, S. A., "A Man's Place in the Kosmos."
Minneapolis public library. Bibliography of missionary literature.
Schmidt, Nathaniel, "The Prophet of Nazareth."
Thomson, John, "Hither and Thither," a collection of comments on books and bookish matters.

SOCIOLOGY AND EDUCATION.
Day, E. F., "Princess of Manoa," folk lore of Hawaii.
Eaton, D. B., "Government of Municipalities."
Fairlie, J. A., "Municipal Administration;" "National Administration of the United States of America."
Hamilton, Samuel, "The Recitation."
Jones, E. D., "Economic Crisis."
Wright, C. D., "The Battles of Labor."

SCIENCE AND USEFUL ARTS.
Atlas Portland Cement company, "Concrete Construction About the Home and on the Farm."
Deniker, Joseph, "The Races of Man."
Farmers' club of Minnesota, year book.
McKim, W. D., "Heredity and Human Progress."
Newman, George, "Bacteria."
Richards, E. H., "Air, Water and Food From a Sanitary Standpoint;" "Food as a Factor in Student Life;" "The Dietary Computer."
Rivers, W. H. R., "The Todas."
Woolman, M. S., "A Sewing Course For Teachers."

FINE ARTS.
Candee, H. C., "Decorative Styles and Periods in the Home."
Nordau, Max, "On Art and Artists."
Sherlock, E. L., "A Trip to Music Land."

LITERATURE.
Benson, A. C., "From a College Window;" "The Gate of Death;" "The House of Quiet;" "Lord Vyet," and other poems; "Lyrics;" "Memoirs of Arthur Hamilton;" "Peace," and others poems; "The Professor," and other poems.
Calderon de la Barca, "Select Plays."
Gissing, C. R., "Private Papers of Henry Ryecroft."
Nevinson, H. W., "Between the Acts."
Sellar, W. Y., "Roman Poets of the Augustan Age."
Sheridan, R. B., "Plays."
Spalding, Bishop J. L., "Religion and Art," and other essays.

HISTORY AND BIOGRAPHY.
Acton, J. E. E. d'Acton, first baron. "Letters to Mary Gladstone."
Bacon, E. M., "Narragansett Bay."
Ballard, Edward, "Memorial Volume of the Popham Celebration."
Biriukov, Pavel, "Leo Tolstoy, His Life and Work."
Boas, H. C., "With Milton and the Cavaliers."
Broglie, Emannuel de, "Saint Vincent de Paul."
Brooke, E. S., "True Story of George Washington."
Burry, B. P., "Ethiopia in Exile: Jamaica Revisited."

ORDER FOR HEARING ON PETITION FOR ADJUSTMENT OF FINAL ACCOUNT AND FOR FINAL DECREE OF DISTRIBUTION.

State of Minnesota, County of St. Louis, ss.

In Probate Court.

In the Matter of the Estate of John Lund, Deceased.

The petition of Andrew Johnson as representative of the above-named decedent, together with his final account of the administration of said estate, having been filed in this court, representing, among other things, that he has fully administered said estate, and praying that said final account of said administration be examined, adjusted and allowed by the court, and that the court make and enter its final decree of distribution of the residue of the estate of said decedent to the persons entitled thereto, and for the discharge of the representative and the sureties on his bond.

It Is Ordered, That said petition be heard, and said final account examined, adjusted and allowed, by the court, at the Probate Court Rooms in the Court House, in the City of Duluth in said County on Monday, the 13th day of May, 1907, at ten o'clock, A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

Ordered Further, That this order be served by publication in the Duluth Evening Herald, according to law.

Dated at Duluth, Minn., April 15th, 1907.

By the Court,
J. M. MIDDLECOFF,
Judge of Probate.
(Seal, Probate Court, St. Louis County, Minn.)

NOTICE OF SHERIFF'S SALE ON EXECUTION.

State of Minnesota, County of St. Louis —ss.
District Court, Eleventh Judicial District.

George W. Leslie, Plaintiff,
vs.
Samuel L. Smith, G. J. Atkins, F. C. Howard, F. J. Chipman, and John Cogan, Co-partners as Chipman and Cogan, and W. C. Sherwood, Defendants.

Notice is hereby given that by virtue of an execution directed and delivered to me, issued out of the District Court for St. Louis County, Minnesota, on a judgment rendered and docketed therein on May 15th, 1897, in favor of said plaintiff and against said defendants, except Defendant G. J. Atkins, for the sum of $2,091.62, I have levied upon and will sell at public auction to the highest bidder, for cash, at the front door of the court house, in the City of Duluth, in said St. Louis County, Minnesota, on the 14th day of May, 1907, at 10 o'clock in the forenoon, all the right, title and interest that W. C. Sherwood, one of said defendants, had on May 15th, 1897, or has since had, in and to the following described real property situated in the County of St. Louis and State of Minnesota, to-wit:

Lots one (1), two (2), three (3), four (4), five (5), six (6), seven (7), eight (8), nine (9) and ten (10), in Block four (4); lots one (1), two (2), three (3), four (4), five (5), and six (6), and lots thirteen (13), fourteen (14), fifteen (15), sixteen (16), and seventeen (17), in Block twenty-nine (29), all in Kimberley and Stryker's Addition to Duluth, Second Division; lot twenty-nine (29), in Block one hundred thirty-five (135), West Duluth, Fifth Division; lot two hundred fifteen (215), St. Louis Avenue, Lower Duluth; and lot nine (9), in Block four (4), New Duluth, First Division; all according to the recorded plats thereof, on file and of record in the office of the Register of Deeds in and for said St. Louis County.

Also an undivided 2-16 interest in lots three (3) and four (4) and in the Southeast quarter of the Northwest quarter (SE¼ of NW¼), all in section four (4), Township sixty-two (62), North of Range twelve (12) West; also an undivided 29-96 interest in the South half of the Southwest quarter (S½ of SW¼) of section thirty-three (33), Township sixty-three (63), North of Range twelve (12) West; also the Northwest quarter of the Northwest quarter (NW¼ of NW¼) of section seventeen (17), Township fifty-one (51), North of Range seventeen (17) West; also the Northwest quarter of the Northwest quarter (NW¼ of NW¼) of section twenty-six (26), Township fifty-two (52), North of Range seventeen (17), west; also an undivided 7-64 interest in lots three (3) and four (4), in section thirteen (13), and in lots two (2), three (3), and four (4), in section fourteen (14), in Township sixty-two (62), North of Range fourteen (14) west; all according to the United States Government survey thereof.

Dated Duluth, Minnesota, April 1st, 1907.

WM. J. BATES,
Sheriff of St. Louis County, Minnesota.
By S. L. PIERCE,
Deputy.

SULLIVAN & GRANT,
Attorneys for Assignee of Judgment Creditor.

TO WOMEN MANGAN PILLS are safe and absolutely reliable. Price $2.00. Safety Capsules, price $2.00. Pasteur's Syringe and Tablets, price $5.00. Sent in plain package on receipt of price. Address Mrs. Julia A. Saunders, care of EDMOND MEDICINE CO., 79 Fifth Avenue, Chicago, Ill.

Lead and Zinc Most Profitable and Permanent of all Mining!

Gold mines no longer attract the world's greatest financiers. They are piling up their wealth with dividends from Lead and Zinc investments. Lead and Zinc stocks afford the safety of a government bond. The great Southwestern Lead and Zinc fields is the best in the world, having produced over fifteen million dollars' worth of ore last year. The Baxter Springs district is the richest section of this field, in which is located the Mission Mine.

The Mission Mine a Producer---Not a Prospect.

A 75-ton mill now in operation on Mission property has shown the immensity and richness of the ore body of the Mission, and fully warrants the installation of a 1,000-ton mill which will increase the capacity nearly fourteen times. The Underwriters' Mine, in this district, with a 1,000-ton mill (an exact duplicate of the mill with which we propose to equip the Mission Mine), is clearing $50,000 per month and yielding 60 per cent in dividends. The Empire Zinc Mine has paid 380 per cent, and the stock is worth eight times its par value. Two years have been spent in developing the Mission Lead and Zinc Mine. The property has been proved in every way. The Mission is conceded to be the most valuable in the entire Baxter Springs district. Now, after practically every element of risk has been eliminated, you are invited to join us and help furnish money for the installation of a 1,000-ton mill, which will make the Mission one of the largest dividend payers in the great Southwestern Lead-Zinc District.

Plan of Proposed Concentrating Mill of 1,000 Tons Daily Capacity. The Mill Is to Be Constructed in Two Sections of 500 Tons Capacity Each.

$540,000.00 A YEAR IN DIVIDENDS.

We have the mine, we have the ore, and are now ready for a 1,000-ton mill. Everything is in readiness to begin earning large dividends as soon as this equipment can be installed. Those qualified to speak say that the immense **proved ore bodies would supply a** 2,000 or 3,000-ton mill, but for the present it is desired to install equipment to handle 1,000 tons per day, producing concentrates worth **$3,612 per day.** After deducting cost and expenses of every nature and description, even this capacity should yield a net profit of not less than $1,800 daily. Counting 300 working days per year, we expect the Mission Mine to yield a net profit of $540,000 yearly. As soon as the new equipment of machinery is installed and in full operation and quarterly dividends are being paid, the actual value of Mission stock should be at least $1.00 per share.

40 Acres of Ore, 30 Feet Thick

Three shafts have been opened up and connected underground and fifteen drifts have been driven. Every foot of this drifting has been through an immense blanket formation of ore. To prove the extent of the ore deposits, test drill holes have been sunk on every portion of the Mission property, absolutely demonstrating that this great body of ore, averaging 30 feet in thickness underlies the entire 40 acres.

The sales of concentrates from the Mission Mine during the past two years of development work, in which time there has been mined more than 90,000 tons of crush ore, prove that the ore averages 6 per cent of concentrates, of which 3.6 per cent is zinc and 2.4 per cent is lead. Basing an estimate on the present price of these two metals, it is an easy matter to determine the value of this immense deposit.

BAXTER SPRINGS PEOPLE ARE BUYING MISSION STOCK.

When people have been on the ground through every step of the development of a mine, and have been intimately associated with its growth, invest their money heavily in it, the mine can safely be considered as fulfilling the claims made for it. Below we give a list of some of the citizens of Baxter Springs, Kansas, who have watched the progress made in development of the Mission Mine from the time the first drill-hole was put down. THEY KNOW the mine is at present a tremendously rich property and that its future prosperity is assured. They invested in this property solely because they KNEW IT TO BE A SAFE, PROFITABLE AND PERMANENT INVESTMENT.

OFFICERS OF THE MISSION COMPANY.

Your attention is directed to the fact that our officers and directors are men who are and who have been for years engaged in an executive capacity in banks, railroad construction, investment companies, ranches, etc. To be successful in such positions it is self-evident that our officers must not only be men of integrity and honesty, but that they have those qualities of initiative and judgment that go to make leaders and captains of industry. We invite those contemplating investing in Mission stock to thoroughly investigate the standing of our officers and directors through the Commercial Agencies, or any other source of information, or write to the National Bank of Commerce, Kansas City, Mo., the largest bank in the State of Missouri.

OFFICERS.

R. W. BAILEY, President, Omaha, Neb.
T. J. FOLEY, Vice-President, Council Bluffs, Iowa.
C. W. CRANEY, Secretary, Baxter Springs, Kas.
E. T. McCARTHY, Treasurer, Omaha, Neb.

DIRECTORS.

E. T. McCARTHY, President Baxter Mining Co., President Baxter Springs Electric Light Company.
T. J. FOLEY, Capitalist, Council Bluffs, Iowa.
R. W. BAILEY, President, Hutton Investment Co., Omaha, Neb.
C. B. FINCH, President Empire Alfalfa Ranch and Cattle Co., Kearney, Neb.
H. R. CRANEY, Railroad Contractor, Baxter Springs, Kas.
H. L. RUNKLE, President Kenton National Bank, Kenton, Ohio.
IRVING ALLISON, First National Bank, Omaha, Neb.
L. H. WATTS, Treasurer, Amador Mining and Milling Co., Baxter Springs, Kas.
C. W. CRANEY, President Sunburst Mining Co., Baxter Springs, Kas.

REFERENCE—Baxter National Bank, Baxter Springs, Kas.
DEPOSITORY—National Bank of Commerce, Kansas City, Mo.

BE A STOCKHOLDER IN A PRODUCING COMPANY.

Would you rather buy stock in a mining claim, which, upon being developed with your money, may or may not prove valuable, or would you prefer stock in a mine with two years' development work done, now in actual operation, already on a dividend-earning basis, with over 6,000,000 tons of ore proven?

We believe you will decide in favor of the proven, operating mine, which represents actual, intrinsic value, rather than a "prospect" of no present value and of UNCERTAIN FUTURE VALUE. Stock in DEVELOPED PROPERTIES SUCH AS THE MISSION IS USUALLY PLACED ON THE MARKET AT PAR. However, the directors of the Mission Mining Co. decided that the best method of obtaining quick returns, enabling them to carry out their extensive plans at an early date, was to offer the stock for sale at a price within the reach of even the smallest investor.

Ground Floor Allotment at 30 Cents Per Share---Par Value $1

The Allotment Is Limited and Price Will Soon Advance.

THESE MEN HAVE INSPECTED THE MISSION—READ WHAT THEY SAY.

F. S. Hall, President Baxter National Bank, Baxter Springs, Kas. "I consider the Mission Mine the most valuable in the Southwest District."

C. M. Summer, Ore Buyer, Galena, Kas.: "I have bought most of the output of the Mission Mine for the past two years and consider it the best proposition in the entire Joplin-Galena-Baxter district. All it needs is a mill of larger capacity."

F. A. Brown, Capitalist, Baxter Springs, Kas.: "An immense body of ore is blocked out and the completion of a mill handling 1,000 tons daily will make this company a big payer. I have no personal interest in the Mission except the purchase of stock made by me this week."

Edward C. Gates, Keene & Gates, Ft. Scott, Kas.: "I am personally acquainted with nearly all the officers and they are men of excellent standing, experienced in the mining business. Investment in this company is safe."

Chas. E. Martin, Mgr. Martin-Baldwin Mining Co., Chanute, Kas.: "Mill capacity of a thousand tons will put this mine on a dividend basis that would satisfy the most sanguine expectations."

G. E. Rucker, Mgr. A. Hood & Sons Implement Co., Baxter Springs, Kas.: "This property contains the smallest element of risk of any mining proposition I know of."

YOU CAN BUY FOR CASH OR PAYMENTS.

In order to begin at once the installation of a 1,000-ton mill and other necessary equipment and carry out the further development as already outlined, the Board of Directors has authorized the sale of a block of 100,000 shares of treasury stock; every share shares alike; stock full paid and non-assessable, par value $1.00 per share. As proof of faith in the future of the Mission Mine, we make this liberal offer: Buy as much of this stock as you want. Thoroughly investigate the matter for 30 days. Then if you do not wish to keep your stock, the company will return your money in full and promptly. After you have investigated our statements, look up the records of our officers and directors. Get a report on them from any commercial agency, and you will find they fulfill every requirement. The more you investigate, the better the proposition looks. If you contemplate buying $1,000 worth of stock, we will gladly pay the expenses of your visit to the property, so you can personally verify every statement made.

By our plan of easy payments, 10 per cent down and 10 per cent monthly, it is possible for even the smallest investor to enter with us in this great industry and become a sharer in its enormous profits. A large block of Mission Stock can be reserved now at the ground floor price and paid for in sums that will hardly be noticed.

STOCK NOW 30 CENTS A SHARE—PAR VALUE $1.00.

$3 down and $3 monthly for 9 months buys 100 shares, Par Value $100.
$6 down and $6 monthly for 9 months buys 200 shares, Par Value $200.
$12 down and $12 monthly for 9 months buys 400 shares, Par Value $400.
$24 down and $24 monthly for 9 months buys 800 shares, Par Value $800.
$60 down and $60 monthly for 9 months buys 2,000 shares, Par Value $2,000.
$90 down and $90 monthly for 9 months buys 3,000 shares, Par Value $3,000.

The advantage of this plan to the investor should not be overlooked. Your whole reservation is secured, and you receive the benefit of every advance in the price of the stock, even while you are paying for it.

Immediate acceptance of this offer is earnestly advised, but prospectus and full information will be sent free upon request to those desiring to make further investigation befor remitting.

Address all communications and make all remittances payable to

MISSION MINING COMPANY,
657 Bank of Commerce Building, Kansas City, Mo.

A LARGE SUCCESS ALREADY ASSURED

Even undeveloped mines in the Southwestern Lead and Zinc district are very valuable. Therefore, when the Mission stock is placed on the market at the ground-floor price the prospective investor is offered a proposition of unusual merit—an interest in a property with tangible assets, and not a mere prospect.

We propose to make the Mission a mine of such magnificent proportions that no other lead and zinc mine can rank with it in any particular. As soon as the necessary equipment can be installed the Mission will begin to roll up its millions in dividends for its stockholders.

CUT OUT AND MAIL THIS COUPON TODAY.

MISSION MINING CO.,
657 Bank of Commerce Building, Kansas City, Mo.

Please send me illustrated prospectus of the Mission Mining Co., with photographic reproductions of the mine, map of Southwest District, and free samples of lead-zinc ore in crude and concentrated forms.

NAME .....

MAY DISBAR ATTORNEY

Harris Richardson Accused of Using Discourteous Language.

St. Paul, April 22.—Harris Richardson of St. Paul, one of the leading attorneys of the West, has been served with notice by the state supreme court, to show cause April 25, why he should not be disbarred. The order to show cause is issued as the result of a complaint filed with the court by Eli Southworth, secretary of the state board of examiners at law, and is entirely based on sarcastic, cutting and alleged discourteous language addressed to the supreme court in an application for a re-hearing in the case of Norman Fetter and John F. Kelley, respondents, represented by Harris Richardson, against the London, Liverpool & Globe Insurance company, appellants.

BADLY DAMAGED.

British Steamer is Run Into by the Old Point Comfort.

Baltimore, Md., April 22.—The British steamship Barnstable, Capt. Davidson, arrived in port this morning from Port Antonio, Jamaica, with a large hole in her port side and with stem twisted. She was run into at full speed at 10 o'clock yesterday morning by steamer Old Point Comfort which runs from Cape Charles City, Va., to Old Point, Va.

No one was injured on either vessel and the Barnstable was able to proceed to Baltimore unassisted. Capt. Davidson of the Barnstable could not account for the collision.

BOY HELD IS NOT MARVIN

Nephew Fails to Identify Gloverville Child as Kidnaped Boy.

Gloversville, N. Y., April 22.—Myles Standish, a nephew of Dr. H. M. Marvin of Dover, Del., father of Horace Marvin, the kidnaped child, arrived in Gloversville yesterday morning to see the child here held on suspicion that he is the kidnaped Marvin boy.

Mr. Standish went at once to the place where the boy was staying with the woman alleged to be the wife of Al. H. Allen, the suspected kidnaper and saw the child. He made a minute examination of the lad, and was convinced that the boy was not Horace Marvin and so told Chief Smith, who accompanied him.

Don't use harsh physics. The reaction weakens the bowels, leads to chronic constipation. Get Doan's Regulets. They operate easily, tone the stomach, cure constipation.

RUSSIAN NATIONALISTS PUNISH THE SOCIALISTS.

Lodz, Russian Poland, April 22. — Lynch law has been inaugurated by the Nationalists to put an end to the Socialistic outrages here. Having captured one of three Socialists who murdered a 15-year-old girl, the Nationalists took their prisoners to the outskirts of this city, tried him, sentenced him to death by hanging and carried out the sentence.

Last week's victims of Nationalist and Socialist fights toaled twenty-three killed and fifty-seven wounded. The majority of the casualties were among the Socialists.

DEATH IN GRASPING WIRE.

Tennessee Man Killed in Attempt to Remove Fallen Strand.

Bristol, Tenn., April 22.—James W. Hill, a prominent citizen, was killed by an electric light wire Saturday. He was starting for a drive with a fine span of horses when he saw the wire in the way. He took hold of it to remove it and received a 1,100-volt charge. He fell with the wire across his body. His clothing was burned off and the body was almost burned in two before the wire could be removed. He is survived by a family.

TROUBLE AT CAIRO.

Cairo, April 22.—Serious disorders have occurred here as a result of a strike of the cab drivers and tramway employes of the city. Mobs attacked tram cars which attempted to run and much damage followed. British troops will patrol the chief thoroughfares today to preserve order.

BRYAN THE ONLY MAN

(Continued from page 1.)

sidering running. I sometimes doubt whether he himself cares a fig for the presidency. For, I should think, if he believed Democracy had a reasonable chance of carrying the country, and that he might be mentioned, he would be more circumspect and would show a greater sense of responsibility than he seems to be showing."

Asked what he considered the most vital issue to be raised by the Democratic party, Col. Watterson said:

"The one thing to constitute a militant Democracy is that we must think together. So long as we don't there is no use proposing any issue. The relations of franchise corporations to the public and of capital and labor are the great economic problems to be worked out in the coming years. We are on the threshhold of their rapid development.

"I do not believe President Roosevelt wants a third term for himself. I know he recently stated that if the convention nominated him and adjourned it would have to reconvene, as he would never accept another nomination. I am willing to take him at his word."

Col. Watterson declared that Governor Hughes was a force to be reckoned with in Republic politics.

"I predicted last June," he said, "that Hughes would succeed Roosevelt in the White House. At that time Horace White, Mr. Hughes and I were at Brown university, where the degree of LL. D. was conferred on each, and I told Hughes that, while some Republicans might not like him, they would have to select him. I believe Hughes will be to the Republican party what Tilden was to the Democratic. I have in my pocket a ticket in the Paris Mutuals calling for 100 to 1 that Hughes will be the next president of the United States."

NO ANSWER TO LETTER

(Continued from page 1.)

to the claim made by the "next friends," that Mrs. Eddy is of infirm mind and unable to understand and protect her property rights, and contains some quoted denials from Gen. Streeter and others of this allegation. The letter then continues:

"In view of these denials we have the honor to ask you to assent to certain steps designed to ascertain the truth concerning Mrs. Eddy's present and past condition, and to expedite litigation.

"Unfortunately we have not free access to Mrs. Eddy's presence, as you have, and we should reluctantly undertake to force our witnesses into her house, under circumstances which might prove disturbing or injurious to her—notwithstanding the confidence of yourself, Mr. Baker and other gentlemen that she is capable of so much labor and endurance as you have described.

"But you have the free right of entrance to Mrs. Eddy's house, and can readily secure admittance and considerate interviews with her of the witnesses by whom her condition of body and mind is to be established in the pending legal proceedings.

"We therefore propose that you select three competent gentlemen, and we select three others, and that at various convenient hours the six be allowed to visit Mrs. Eddy, and by observation and conversation qualify themselves to be witnesses for or against our contentions; no one but these six persons to be allowed to talk to her, and not more than six additional persons, selected in the same way, to be permitted to be present. Shorthand writers may attend to take down all that is said, or may be excluded and nothing taken down, as you prefer. Of course, we do not suggest that other proper persons shall not see Mrs. Eddy at suitable times.

"We are confident that you and the counsel for the defendant will welcome the offer of ours as purposing a wise and considerate method of expediting litigation."

The letter is signed by William E. Chandler, Martin and Howe, and John W. Kelley, as counsel for the "next friends."

Gen. Streeter, when asked last night about the letter, said he did not care to make any comment on it.

EXAMINE THEM FOR YOURSELF.

In selecting our goods we exercise the greatest care to buy only those fabrics which will give good wearing value. Those are made up in the latest styles (and fit guaranteed), at almost the same price you would pay for an inferior piece of goods in a ready-to-wear suit.

MORRISON, Tailor,
8 LAKE AVENUE SOUTH.

MERCHANT GIMBEL DIES.

(Continued from page 1.)

bel, according to the detectives, resorted to an attempt at bribery and offered the detectives $2,000 if they would release him. The detectives apparently consented and, demanding cash, were driven with Gimbel to his banker's office here and given $2,000. They then informed Gimbel that the additional charge of attempted bribery would be placed against him and took him to the district attorney's office, where, it is alleged, Gimbel, who keenly felt his predicament, offered Assistant District Attorney Krotel any amount of money to gain his release.

Later Gimbel was released on heavy bail and started, ostensibly for his home in Philadelphia. He never reached there. Instead he went to the Palace hotel in Hoboken and there, with jagged glass, obtained from a water pitcher which he broke, he cut his throat in many places and gashed his left wrist. He was discovered several hours afterwards, almost dead from the loss of blood. At St. Mary's hospital, to which place he was removed Friday night, it was thought for a time that his life might be saved, but Sunday he began suddenly to fail and late last night hope was abandoned.

Gimbel's wife and two brothers, who have shown confidence and devotion to the husband and brother, went to his bedside late Friday night and have remained near him ever since. In a statement the family notified the public that Benedict Gimbel had been ill for some time as the result of overwork and that this had undoubtedly dethroned his reason.

That the mental strain under which Gimbel labored because of his arrest was one of the important contributions of his failure to recover from his wound is the opinion of Dr. Jurist, the family physician who came from Philadelphia to attend him. It was only by the constant use of stimulants that the patient was kept alive Sunday, the doctor said. Mr. Gimbel's evident desire to die even after the arrival of the members of his family, who vainly did their best to encourage him to live and fight for his liberty, also operated greatly to the disadvantage of the doctors, who were striving to save his life. Mrs. Gimbel had rooms at the hospital where she could be called at a moment's notice, and was almost constantly at his bedside endeavoring to overcome his desire to be relieved of his troubles by death.

Members of the family had a strong hope, that if Mr. Gimbel recovered, the charges against him could be overcome by the plea of insanity, and they had engaged Mr. Shields of Philadelphia to assist Daniel O'Reilly of this city as counsel to fight the case. They had planned to send Mr. Gimbel to an asylum if they were successful in court.

It became evident before midnight that Gimbel could not live unless heroic treatment was attempted. Oxygen was administered to him all yesterday afternoon and late into the night. He failed to respond to this treatment and Charles Gimbel then suggested that, as a last resort, his blood be infused into the veins of his brother. While the physicians could hold out little hope even with this infusion of blood to strenthen the patient, it was determined to try it as a last resort.

However, it is said that Gimbel did not revive sufficiently after midnight to test the experiment. Early this morning he became unconscious and expired.

Philadelphia, April 22.—In connection with the death of Benedict Gimbel in Hoboken today, the following statement was made by Gimbel Brothers, Incorporated:

"Gimbel Brothers is a corporation managed by the seven brothers, deceased being the youngest of the number and owning a small minority block of the stock. His demise will have no more effect on the business than the death of any one director of a railroad."

CHURCH GUILD DISSOLVED.

Pastor Says Women of His Flock Are Gossipers, Not Workers.

Madison, Wis., April 22.—On the ground that the woman's guild of Grace church, composed of the most fashionable and richest women in the capitol city, has developed into a society of gossipers rather than charity workers, Rev. E. A. Ewing has dissolved the organization. Ewing has been here but a year, and his action has caused a sensation. He is strong for democracy in church and against gossiping.

WOULD PENSION THE OLD NURSES

Who Served in Civil War and Are Now Destitute.

Philadelphia, April 22.—Mrs. Clarrissa F. Dye, aged 75 years, of this city, president of the Association of Army Nurses of the Civil war, who did heroic work at Gettysburg and on other battlefields during the Rebellion, is collecting data from the 100 and more surviving female nurses in the United States who saw service on the field of battle and in hospitals during the war, with a view of furnishing congress with facts looking to the securing of pensions from their government for these volunteer nurses.

"Many of these women today," said Mrs. Dye, "are poor and destitute widows, and too old to work. They were volunteer nurses, and left their comfortable homes during the time of the Civil war to nurse the sick and dying soldiers. Their work was one of love and sympathy, and they received no compensation from the government. The contract nurses were provided for, receiving a pension of $12 monthly. I plead for the poor, aged woman who nursed back to life many a sick and wounded hero of the battlefield.

"The government should certainly make provision for them, and I believe it will next December, when the bill will be brought up."

KENNEDY MAY SUCCEED DEL VAL

American Prelate Mentioned as Secretary to the Pope.

New York, April 22.—Private advices received in this country, says the Tribune today, tend to confirm the cable reports that Cardinal Merry del Val will retire from the office of secretary of state for Pius X. It is stated he is to be succeeded by an English-speaking prelate, and that Monsignor Kennedy, rector of the American college at Rome, may get this higher office.

Monsignor Kennedy has been rector of the American college for years, and in a way has been the intermediary between the pope and the bulk of the English-speaking countries. He is thoroughly conversant with the internal affairs of the Vatican. Should he be called to this office, Mgr. Kennedy would undoubtedly be created a cardinal in private consistory, as was Cardinal Merry del Val.

Mgr. Kennedy is a Pennsylvanian by birth. He is in his 50th year, and at the time of his appointment to Rome was stationed at Overbrook seminary.

Giddings begin tomorrow

A Notable Sale of High-Class Tailor Made Suits for Women!

Full details and prices will be found on page 2 of this paper.

STOCKS ARE STRONGER

The Copper Shares Exhibit a Much Healthier Tone.

Market Has an Advance All Along the Line.

Copper stocks exhibited a healthier tone today than they have for some time past. There were no spurts upward of ten or twelve points, but rather an advance, which indicated a more confident feeling.

North Butte opened at $87, declined to $86.50, rallied to $88 and closed at $87.75 bid and $88 asked. Amalgamated opened at $94.62½, went off to $94.50, reached $96.87½ and closed at $96.75 bid. Anaconda opened at $62.50, went off to $62.25, rallied to $63.50 and closed at $63.37½ bid and $63.50 asked. Butte Coalition opened at $26.37½, went up to $27.12½ and closed at $27.12½ bid and $27.75 asked. Calumet & Arizona opened at $162, advanced to $165 and closed at $164 bid and $165 asked.

Greene-Cananea sold at $16.50, advanced to $17 and closed at $16.75 bid and $17 asked.

Superior & Pittsburg sold at $17.75, advanced to $18.37½ and closed at $18.12½ bid and $18.25 asked. Globe Consolidated was traded in at $13.75, advanced to $14 and closed at $13.75 bid and $14 asked. Keweenaw sold at $10 and $10.25 and closed at $10 bid and $10.25 asked. Copper Queen of Idaho sold at $1.50 and closed at $1.50 bid and $1.75 asked and Butte & Superior sold at $3.25 and closed at $3 bid and $3.50 asked.

Denn-Arizona sold at $10 and $10.12½ and closed at $10 bid and $10.50 asked.

Warren sold at $7.50 bid and $8 asked, Hancock at $9 asked, Calumet & Sonora at $22 asked, Carman at $4 bid and $4.25 asked, Calumet & Montana at $1 asked and Cliff at $3.75 bid and $4 asked.

Black Mountain sold at $6 and closed at $6 bid and $6.25 asked.

* * *

B. Silberstein and Jerome E. Cooley, both of whom are heavily interested in the Calumet & Sonora Mining company, have returned from Cananea, Mex., where they spent some time looking over the Calumet & Sonora and other properties.

"The Norton shaft at Calumet & Sonora is down 200 feet," said Mr. Silberstein today. "On the 100-foot level and sixteen feet from the shaft, a vein of copper sixteen inches in width was encountered and it is being followed. We expect good news from this working very soon. The Underhill shaft is down 110 feet and is in good ground.

"A shaft has just been started on the Catalena claim. We expect to find ore there at a shallow depth. The shipping of ore is expected to commence with a few weeks. For a time, the product of the mine will probably be treated at Douglas, Ariz."

* * *

The annual meeting of the Calumet & Montana company, held at Bisbee, the following directors were elected: John H. Holman, Calumet; John J. LeFevre, Chicago; Thomas Bastian, Calumet; W. Frank James and M. M. Foley of Hancock and Houghton; Edward Ulseth and Charles Chynoweth of Calumet and W. J. Sineck and W. A. Waldner, Sr., of Chicago.

The directors in turn elected the following officers: President, John H. Holman; vice president, John J. LeFevre; second vice president, Thomas Bastian; secretary, W. Frank James and assistant secretary, M. M. Foley.

LONG VACATION FOR PRESIDENT

Leaves for Oyster Bay June 12, Returns October 1.

Washington, April 22.—President Roosevelt will leave Washington for his summer home at Oyster Bay on June 12. This is much earlier than has been the practice of the president to leave Washington for the summer, but he feels that public business is in such shape that he can conveniently do so. He looks forward to a long period of rest and reercation. Secretary Loeb today said that no speeches were to be made by the president after he leaves Washington until he goes to Canton, Ohio, for the unveiling of the McKinley monument, Sept. 30. From Canton, the president will return to Washington for the fall and winter season.

LATEST BULLETIN.

Y. W. C. A. Workers Add Big Sum to the Total.

The Y. W. C. A. committees have been doing some of the most effective work of the campaign today and have been setting a pace, which, if maintained to the end, will mean the accomplishment of all they have been striving for.

Blue	$1,415.66
Yellow	1,369.91
Lavendar	1,335.00
Red	832.13
Pink	830.41
Green	395.45
Women's Committee	6,082.90
Business Men's	56,095.00
Total	$68,356.46

EXEMPT FROM TAXATION.

Washington, April 22.—During several cases brought to it by savings banks in Des Moines, Iowa, the supreme court of the United States held today that government bonds in which the capital stock of such banks is invested, are exempt from taxation.

RUEF JURY COMPLETED.

San Francisco, April 22.—Gustav Wormser, a wholesale grocer, entered the jury box in the Ruef case today, completing the panel of twelve jurors.

JURY TO PLEAD FOR PRISONER

Did Not Expect He Would Get a Prison Sentence.

Milwaukee, April 22.—An Evening special from Kenosha, Wis., says: A remarkable state of affairs has been brought to light in connection with the sentence of Edward Collier, who recently was convicted of manslaughter in the killing of William Dreyer by running him down with an automobile.

It became known today that members of the jury which tried Collier have held a meeting which may save Collier from a prison term. It is stated on authority that members of the jury are ready to go before the district attorney and Judge Belden and plead for leniency for the convicted man. One of the jurors in an interview said:

"In all of our consideration of the guilt of Collier not once did we consider it possible that Collier would be sent to prison. The understanding among the jurors was that should we find Collier guilty he would pay a fine."

The district attorney last week moved for a prison sentence, Judge Belden at that time deferred sentence until later.

CITY BRIEFS

For Rent.

Two front office rooms in our building, 212 West First street. Northern Electrical company.

Cheap Rate.

We can save you money on shipping your goods to Western points. Call or write. Duluth Van & Storage company.

Nurse Dies Suddenly.

Miss Jane Harris, 26 years of age, and for the past two years a nurse at St. Luke's hospital here, died yesterday morning at 9:30 o'clock of spinal meningitis. She was taken very suddenly with the disease last Friday, and her death was a shock to her many friends in the hospital and in the city. Services were held in the chapel yesterday afternoon, Dr. Ryan officiating. Miss Harris' home was in St. Cloud.

Falls From Scaffolding.

Falling backwards from the iron work which will support the second story of the new Y. M. C. A. building at Third avenue west and Second street yesterday afternoon, Ronald Dresden, an 8-year-old boy, sustained a fractured leg and a painfully cut head in his drop to the basement thorty feet below. The children have been doing "stunts" over the iron work whenever the workmen have been away, for some time, and an accident of this nature has been predicted by many of those who have watched the youngsters trying to outdo each other on the scaffolding. It offers a tempting occupation to the daring small boy, and it is to be haped that the present accident, though far less serious than it might have been, will tend to keep the children out of danger.

Dory Asks Damages.

Peter Dory has sued the City of Duluth for $4,400 damages for injuries alleged to have been received by breaking his right leg in a hole in the approach to the Central avenue bridge between Main and Polk streets in West Duluth, the morning of Jan. 31 last. Dory is represented by Jacques & Hudson.

R. F. D. Carrier Appointed.

A dispatch from Washington today announced the appointment of James P. Mohan regular and David Jamison substitute rural free dellvery carrier for Route No. 3 of the Duluth office.

Petition in Bankruptcy.

A voluntary petition in bankruptcy was filed in the United States circuit court yesterday by John Brown of Little Falls, Morrison county. Brown's liabilities total $806.46, all in unsecured claims, his creditors being mostly merchants of Staples, Brainerd and Little Falls. His assets

Sheriff J. W. Dreger of Hennepin county, arrived from Minneapolis, this morning on business connected with his office and will remain over this evening. Sheriff Dreger is not only president of the Minnesota Sheriffs' association, but he is president of the Interstate Sheriffs' association and a member of the National Prison association of the United States.

A Pioneer's Death.

The sudden death of Simon Phillips from a stroke of apoplexy, near Chobio, in Stevens county is announced. He was born in Prussia in 1842, came to America when 17 years of age and settled in Mazeppa, Minn., in 1873. He held the office of justice of the peace for nearly thirty years and in 1885 was appointed postmaster at Mazeppa by President Cleveland. In 1896 he united with Republican party. He was the father of Samuel A. Phillips and David Phillips, formerly residents of Duluth.

DIED AT MILWAUKEE.

Milwaukee, Wis., April 22.—Julius Klauser, aged 53 years, for many years one of the most prominent men in musical circles of the city, died at Lakeside hospital after a brief illness.

WOMEN IN MEN'S ATTIRE.

Curious Mania That Has Long Caused Trouble to the Police.

St. Louis Post-Dispatch: What is it that impels women to masquerade as men, dressed in men's clothing? So many cases of this kind have occurred in St. Louis, Chicago and the Southwest during the past few months that the custom has almost reached the stage of an epidemic in this section.

And the practice is much more widespread than the cases coming to light indicate. Policemen say their suspicions are frequently aroused, and that at times it is hard or impossible to detect an offender.

Various reasons for the vagary have been given by those detected. Perhaps the underlying sentiment with the majority of them is the desire to "see how it seems" to look upon the world as nearly as possible from a man's standpoint, a longing to throw off the restraints of their sex—the eternal curiosity attributed to woman, in short.

There are probably few girls who have not at some time felt an inclination to an escapade of this sort, and those who have slipped into their brothers' clothing and masqueraded about their own homes and those of their intimate friends are numerous. But the police bear witness that very seldom do they capture a young girl so disguised on the streets.

Their fun is of the most innocent sort; older women are usually the more daring ones, and from their ranks come those who get into police court.

Only a few days ago two St. Louis women, sisters, were arrested as men and taken to the Dayton street police station. They had been found arrayed in their husbands' "Sunday clothes."

One of them was found in a saloon, and the judge required, before he finally released them, that they take a pledge to abstain from drinking during Lent.

These two women—Mrs. Kate Ashard, 37 years of age, of 2215 Carr street, and Mrs. Margaret Spath, of 1903 O'Fallon street—were held over night at the police station. The husband of one of them brought their proper clothing next morning and they were alowed to dress before being called for trial.

These two women stated that they had put on masculine attire in order to "have a lark," and none of the evidence indicated that there was anything further improper about their actions than the mere fact that they had on men's clothing.

Different from them, however, was the case of another St. Louis woman some time ago. This was Nellie Woods, alias May Willard, alias Morris Stewart, who entered the bachelor apartments of Park Von Wedelstaedt, a St. Louis young man noted for his dress proclivities, and helped herself to the contents of his wardrobe.

Miss Woods was later arrested while arrayed in a suit of Von Wedelstaedt's clothing, including a fancy waistcoat, frock coat, pearl-gray trousers and silk hat. She looked almost as beautiful as Mr. Von Wedelstaedt. She was finally convicted and sent to the penitentiary, although Von Wedelstaedt did what he could to get her sentence lightened. She afterward escaped from prison, but was recaptured.

Numbers of other cases are on the records at the St. Louis police stations, but the general public generally hears little of them unless something unusual about their escapades attracts attention. Negroes are frequent offenders, the police say, but owing to the peculiarities of a negro's physical construction the officers have difficulty in distinguishing a man from a woman when both are dressed alike, unless the opportunity is exceptionally good—another case of all colored people looking alike.

Differing from any of the instances before mentioned was that of Mrs. Sarah Westbrook of St. Louis, wife of Dr. George Westbrook. Mrs. Westbrook suspected her husband of having an appointment with another woman, and jealousy prompted her to dress in a suit of his clothes, don an overcoat and follow him.

Her disguise was penetrated by a man who stood beside her in a Jefferson avenue car, and the story came to light through the police courts. Mrs. Westbrook's husband came to her relief and mutual explanations followed. The result was a happy one, for the domestic relations of the two were relieved of a strain which might have caused them to break had Mrs. Westbrook borne her suspicions in silence until they were beyond belief allayed.

Probably the world's history of masqueraders of this class has not witnessed a more remarkable one than that which came to light recently at Phoenix, Ariz. Nicolai de Raylan, supposed to be a man, died there of consumption. Preparations for burial showed that De Raylan was a woman. Further investigation showed that De Raylan had been three times married and that "he" had lived with the last wife for more than ten years.

More remarkable than this, De Raylan attempted to keep her identity as a woman concealed to the very last, and to further this effort left a will leaving property to her "wife and son." A son actually existed in the De Raylan household, but he was the son of "Mrs." De Raylan by a former husband.

Disguised as a man, De Raylan had acted as secretary to Baron Schlippenbach, the Russian consul at Chicago. Backed by the standing obtained in that capacity the De Raylan woman conducted a "Russian legal bureau" in Chicago and profited to the extent of $500 to $1,000 a month from Russian and Jewish immigrants.

Reprive from military duty, remittance of fines and punishments, release from allegiance to Russia and permission to return for Russia for persons who had left there without passports were some of the things promised by De Raylan—for a consideration. The Russian Consulate at Chicago was boldly given as a reference.

While in Chicago the DeRaylan woman had joined a secret revolutionary society and it is supposed she was selling to the Russian government information thus obtained. She was a "good mixer" and able to stand under her share of the liquors along with the most convivial.

Previous to coming to America she had "fallen in love" with a girl in Russia, and during her time in this country corresponded with the girl abroad, letters of the most affectionate nature passing between them.

The De Raylan woman was versed in different languages and had held important positions. She had lived in New York, Chicago and the City of Mexico.

At first her "widow" refused to talk about the dead woman. It was only after the story had been unraveled from other sources that she could be induced to add anything to it.

While in Mexico City, De Raylan was aid to Adolf Deverschnitz, Russian charge d'Affairs there. Deverschnitz died and the sex of the De Raylan woman was discovered. For a while she lived in Mexico City as a woman, then left for New York, again adopting men's clothing. Then she "married" a chorus girl, with whom she lived until her death.

While in Chicago the De Raylan woman's figure developed as she grew older, and in order to disguise the lines and prevent discovery she had her tailor carefully pad her coats. This she tailor did, and after her death said that, although he knew the woman wore corsets, he never suspected her sex and was as much astonished as anybody to learn that his customer, who had always worn expensive and well made clothing, was a woman.

Beaumont, Tex., was recently the scene of the discovery of another woman masquerading as a man. In this case the offender was a young girl.

She had secured employment as a bellboy at the Oaks hotel. Her disguise was penetrated by the proprietor of the hotel, who, came upon her one day when she had taken her coat off. Her figure attracted his attention, and under his questioning she confessed her sex.

She had come to Beaumont from New Orleans and applied to the secretary of the local Y. M. C. A., for employment. He directed her to the hotel, where she was put to work under the name of Perry Martin. She had been there for some time before her disguise was discovered and had many friends among the young men about the hotel and the town. She said her home was in New York city, that she had come South and being unable to find employment as a girl had adopted men's clothing. She left Beaumont for Houston and was not again heard of. A strange part of her story was that she was engaged to a girl in New York and that the two were devotedly attached to each other.

Wichita, Kans., has two young women of a different class from any of these mentioned. Although they dress in men's clothing they make no attempt to conceal their sex, it being well known that they are women.

They have a farm near Wichita, and adopt men's clothing "because it is more convenient." This farm, however, is only an adjunct to their real business—that of operating two combined dining and sleeping cars from Wichita to New Mexican and Texas points for real estate agents who take parties of homeseekers to that country. They do not dress as men while on these trips. Vegetables and provisions for their cars they get from the farm. These two women are Misses Agnes Kinney and Edna Sanburn.

POETIC MARKER FOR DOG.

Atlanta Constitution: Capt. James Dunlap, for many years one of the most widely known and most popular passenger conductors on the Atlanta & West Point railway, but now a planter with an abundance of leisure on his hands, residing near College Park, is mourning the loss of a pet dog, Wiggy Winks by name.

All his life Capt. Dunlap has been a lover of dumb brutes and chickens, and when he quit the road he gathered about him a colony of high-class fowls and a few select dogs.

But of his canine family, Wiggy Winks—Capt. Dunlap fails to tell where the dog got his classic name—was the favorite. He was a small black and tan, and was brimful of sense. He was the pet of the household, and, unlike the other dogs, was never allowed to sleep in the open air. There was a corner in the house for Wiggy's bed, and at bedtime Wiggy Winks went to that bed. Wiggy grew old in the family, and soon after passing his twelfth birthday he began showing signs of wear and tear, and a day or two ago the old fellow's spirit took its flight to that bourne from which no traveler ere returns.

The death of Wiggy Winks created a decided void in the Dunlap home. His death was felt keenly by his master, and after the body had been in state it was given an appropriate burial. With a heavy spade Capt. Dunlap dug a grave under the rose bushes in his spacious lawn, and into that Wiggy Winks was tenderly placed. The earth heaped upon the opening hid the form of the one-time pet from sight, and then at the head the captain placed a marker. On that marker was engraved:

"Wiggy, dog with heart of gold,
Died when he was 12 years old,
And here reposes 'neath the roses
In the garden mold."

So, under poetry as well as under ground, Wiggy Winks is having his last long sleep. May his dreams be as pleasant as his master made his life.

The Team Is Worried.

We're gittin' up our baseball team,
Say, it will be a peach;
To some of these here would-be clubs
The game we're goin' to teach.
Bill Taylor's booked to ketch fer us,
An' Scrawney's go'n to pitch;
I'll either hold down second base,
Er first, I don't know which.

We're mighty tickled 'bout our team,
But there's jist one thing wrong,
We've got no place for Danny Brown;
You see, the kid ain't strong.
They's somethin' wrong with Danny's spine,
But he thinks he could play,
An' we keep stallin' him along
With promises each day.

Today he hobbled up an' says:
"Jim, in a week er so
I'm go'n' to throw this crutch away;
Come on, gimme a show!"
Say, Jim, put me in center field,
I'll play it fine fer you."
He'll have ter use that crutch for years,
Gee, whiz, what kin we do?

The club will meet tomorrer night,
We're go'n' to jolly Dan,
An' see if he won't be pig-tail,
Er mascot—that's our plan.
We're mighty tickled 'bout our team,
An' yet we're feelin' tough,
Cause we must disappoint poor Dan;
The kid ain't strong enough.
—Denver Post.

You like to find a bargain—and if you have one to offer you may be sure that the "want ads' readers" of The Herald will soon seek you out.

SKELETON COMES OUT

Family Troubles Are Told in Court by Mrs. Argyle.

Claims Husband Ill-Treated Her and Applied Bad Names.

By calling Mrs. Lillie Argyle to the witness stand, in rebuttal, to testify concerning the details of the family relations between herself and Fred M. Argyle, the state, this morning, went much further into the troubles that brought about a separation, than was brought out at the first trial. Some of the testimony tended to show that Argyle was disappointed in his wife and applied some offensive epithets to her.

Mrs. Argyle was called shortly before the noon adjournment and had not completed her direct testimony when that occurred.

Three rebuttal witnesses, from the Glass Block store, Daniel T. McDonald, the superintendent, Miss Frieda Ryning and Miss Lina Anderson, clerks, testified that to their knowledge Argyle acted perfectly rational up to the time that he is accused of having assaulted his wife.

Dr. S. H. Boyer was called by the state as an expert witness in insanity, but he was excused without answering the hypothetical question put to him by County Attorney Norton, after a large part of the morning session was spent in a fight between the state and the defense over the wording of the question. The court held with the defense on many points, particularly on the contention that the state must first produce testimony tending to support facts alleged in the hypothetical question, instead of asking the question with alleged facts that the state intends to prove afterward.

Under this ruling County Attorney Norton excused Dr. Boyer for a time and called Mrs. Argyle.

According to Mrs. Argyle's testimony her husband treated her with great kindness up to Labor day, last September, when the first quarrel is said to have occurred.

Asked to relate the circumstances Mrs. Argyle said she asked her husband to go to the picnic at Fairmount park, but he refused as he had to work. She claimed that she went to the picnic with the Wellings and that after the picnic herself, the Wellings and Jacob Johnson, Argyle's friend, went to the Bijou. The witness said that Jacob Johnson took her home from the show as Mrs. Welling was not well enough to go. She testified that Argyle was very angry when she got home and accused her of running the streets with other men, although Johnson was considered his, Argyle's best friend.

Mrs. Argyle claimed that from Labor day on their troubles grew worse, that she could not do a thing to suit her husband. She claimed that Argyle said he hated her and "wished she would get out of the house as he could not bear the sight of her."

Mrs. Argyle testified that when her sister remonstrated with Argyle for his treatment of his wife, the defendant said he married her because he wanted her at the time, but that he was now tired of her.

The witness claimed that she stayed with her husband as long as she could endure it and left him in October, being gone from home for two weeks. She said that she went back because Argyle coaxed and begged her to do so and promised that he would do better if she would only give him another chance. She said his promises were lived up to for about a week or ten days, when he renewed his former ill-treatment until the climax was reached the latter part of December.

Asked to tell in detail the last quarrel that led to the breaking up of their family relations, the witness said she had been suffering from a severe cold and remained up late the evening of Dec. 30, to bathe her feet in hot water. She testified that her husband was angry because she did not go to bed as he ordered and got up, put out the light and took the dish away, in which she was bathing her feet, remarking that if she did not go to bed he would kick her out the door. Mrs. Argyle claims that she told him she would go if he wanted her to and he said she could get out the next day. She claimed that she remained awake all night and that the next morning her husband said he had not changed his mind and she must leave and stay away from him, that the farther she went the better he would be suited, and that she could get a divorce if she desired it.

Mrs. Argyle said she went back to the house in the evening to get her clothing, that her husband urged her to hurry and go and that he walked with her as far as Third avenue west, neither of them talking.

The witness said she went back to the house Jan. 3, to get some things and that she then accused Argyle of playing her a mean trick by arranging it so that she could not get a trunk from the store on credit.

She said Argyle at first denied, but finally admitted that he fixed it so she could not get the trunk in which to pack her things, by telling that she had left him and that he, Argyle, would not be responsible for her debts.

There was not the slightest indication this noon that the case would be finished today.

BRING MANY WITNESSES

Walsh Divorce Case Partakes of a Sensational Nature.

Parents Make Determined Fight for Possession of Children.

Trial of the Walsh divorce case was resumed before Judge Dibell this morning with a courtroom filled with witnesses from Virginia, where Minnie Walsh, the plaintiff, and Ellis Walsh, the defendant, formerly lived.

The action is one in which there is a contest. Mrs. Walsh seeks the legal separation on the grounds of cruelty, and Mr. Walsh has filed a counter-claim, alleging adultery. As is usual in such cases, the testimony partakes somewhat of a sensational nature, and involves people quite prominently known in Virginia.

When the case was opened, a stipulation was brought to the attention of the court, in which Mrs. Walsh agreed to give up the children. Questioned by the court, she stated that she did not wish to give them up, but did so because she supposed she had to. Mrs. Walsh was advised by the court that she had certain rights in the matter, and the hearing was postponed in order to permit of the plaintiff's securing additional evidence, and to hear from her parents in Michigan, to whom she might have to look for aid.

There are three small children, one a boy about 2½ years old, and each parent is making a determined fight for their custody. Mrs. Walsh claims that her husband is not a fit person to have the children, while he, as set up in his counter-claim of adultery, maintains that Mrs. Walsh is not a fit person to bring up children.

A large proportion of the witnesses from Virginia are women, and Judge Dibell's courtroom, this morning, had very much the appearance of a sewing circle meeting.

It was understood this morning that Mr. Walsh had some fifteen or seventeen witnesses coming to Duluth on the Iron Range train, due to reach the city this noon.

Mrs. Walsh is represented by C. E. Adams and Mr. Walsh by Albert Baldwin.

ROADS IN RACE FOR THE BORDER

Right of Way Clearers Have Reached International Falls.

International Falls, Minn., April 22—After several years of waiting, International Falls is about to see its hopes realized. The contractors, who are extending the Minnesota & International road to the border for the Northern Pacific railway, have reached town with the crew of men who have cleared the right of way. Hard behind them are pressing the other departments of the work.

Rails have now been laid several miles this side of Big Falls and the work is going forward at a rapid rate, the roadbed being completed to the Little Fork river. The sixteen miles intervening between the village of Little Fork and International Falls is covered with men and teams on the grade, culvert builders and telephone linemen. All are seemingly interested in doing their part in helping the contractors to make good their promise to complete the road so that this city can have a train as a part of its Fourth of July celebration.

The railroad situation seems to have resolved itself into a race between the Duluth, Rainy Lake & Winnipeg and Northern Pacific to see which can reach the border first. The Rainy Lake is building a temporary track, leaving the heavy work for a later time. Between transients looking over the prospects of the town and country, laborers from the railroad camps and the workers on the great power development in Rainy Lake, the local business situation is greatly improved.

Town property is changing hands, several buildings are in course of construction, merchants are stocking up, and all indications point to an early realization of the hope for a substantial growth of the town.

JAPS NEW FIELD GUN.

Tokio, April 22.—The new field gun with which the Japanese artillery is being armed, has an effective range of about 8,500 yards. Each gun costs $5,000.

When you need a pill, take a pill, and be sure it's an Early Riser. DeWitt's Little Early Risers are safe, sure, satisfactory pills. They do not gripe or sicken. Sold here by all druggists.

You'll never know how good a cook you are, or how easy to make good biscuit or cake, until you have used Hunt's Perfect Baking Powder.

NEGOTIATIONS STRIKE ON SNAG

Deadlock Between Represenatives of Nicaragua and Salvador.

Washington, April 22.—Advices received here from Central America are to the effect that the peace negotiations which have been in progress for the past few days at Amapala have come to a deadlock and it is feared that a renewal of hostilities is impending. The difficulty appears to lie in the Nicaraguan demand that Salvador shall be held responsible for what has occurred, which condition is not acceptable.

Senor Corea, the Nicaraguan minister here, called upon Assistant Secretary Bacon at the state department today to explain to him the Nicaraguan position, which in brief was as follows: Nicaragua feels that by her interference between Nicaragua and Honduras, Salvador has made herself liable for damages inflicted upon Nicaragua and financial expenses of some part of the war. As Salvador denied any such liability, Nicaragua, in order to avoid delaying the present negotiations for peace at Amapala, proposes that the question may be submitted to President Roosevelt or to some person to be designated by him, as to whether or not Salvador is liable for pecuniary damages and, if so, to what amount.

GOLDEN WEDDING HELD FOR THREE

Mormon With Two Sisters for Wives, Celebrates Fiftieth Anniversary.

Salt Lake City, April 22.—At Hyde Park, near the city of Logan, Absolam Woolf, a wealthy Mormon farmer, celebrated his golden wedding with his two wives, Mrs. Lacy Ann Woolf and Mrs. Harriet Woolf. Surrounded by a score of children, they received their friends, and held open house.

The two wives were two sisters. During all this time they have lived side by side, and both have been blessed with large families. Woolf was among the first company of Mormon pioneers, and landed in Salt Lake City on July 24, 1847. The wives occupy different houses on their farm. There has been no quarreling.

Mrs. Lacy Ann Woolf, the younger of the two is the mother of eight children, while her sister has reared a family of nine.

POPULAR KANSAS SALOON

Put Out of Business by Coup of Construction Company.

Kansas City, Kan., April 22.—After the county court had granted him a license Raode Strika built a shanty in Cement City and started a saloon. Cement City is about two miles north of Independence. The plant of the Freeborn Engineering and Construction campany is there, and around the plant are many small houses in which about 200 Italians and Greeks, employed at the plant, live.

Strika's saloon became a popular place for the laborers. Many of them, it is said, shirked their work and "hung around" the saloon, both day and night. Officers of the company tried to induce Strika to move. He refused. They told him his saloon was on the company's property and threatened to raze it. Still he refused. Then the company took the matter up with the county court, but no action was taken.

Then the company procured a force of workmen and built a board fence fourteen feet high around the saloon. When the fence was finished the little saloon was "out of sight."

In the afternoon Strika went to his saloon—he was not there when the fence was built—and found the modern Roman wall. He yelled to the bartender and the customers who had been in the place when he left. There was no response. One by one, customers came, listened to the excited talk of the Greek saloonkeeper, then left thirsty.

It was reported that a mob of Italians and Greeks intended to lay seige to the fence. The company made preparations by placing its temperate workmen near the saloon. Also, Thomas Hughes, marshal at Independence, was notified.

The mob—about fifty Greeks and Italians—came, but there was no seige. They saw the guard about the fence, and desisted. The seige consisted chiefly of threats and much noise. The noisiest of all was Strika, who was arrested and taken to Independence on a charge of disturbing the peace.

The high board fence still stands.

The Gidding Store

Begins tomorrow a notable sale of women's fashionable tailor-made suits. The sale is notable because the Gidding label on a garment denotes not only style and quality, but high character in every line. To offer them at sale prices at the beginning of the season is something unusual. Yet this popular store is always doing something unusual. Their business these past two months has far surpassed any previous spring, and it has left many lines of suits in their stock that cannot be reordered, sometimes because the maker cannot get any more of the same cloth; sometimes because of the higher cost attached to making, and sometimes because they do not expect to continue the model. But whatever the reason, the fact is that the Gidding establishment will place on sale on Tuesday, April 23, over 300 of their high-class tailored suits at very great reductions, of which these are instances: Sixty suits, formerly $29.50 to $32.50, at $18.50; seventy two suits, formerly $35 to $39.50, at $25; eighty suits, formerly $42.50 to $49.50, at $32.50; fifty-two suits, formerly $52.50 to $59.50, at $39.50. The balance of the lot to make up the 300 range in price from $62.50 to $97.50, and will be on sale at the same proportionate reductions. They have arranged them on special racks, the regular prices remaining on the ticket, with the sale price in blue pencil on the reverse side. None of the sale suits will be sent out on approval, and alterations will be charged for at cost. They also state that regular charge accounts can have present purchases charged on their May account, for which bill will be rendered June 1.

Once in a year you may find a good tenant by chance—through "happenstance." But a Herald want ad. will find him for you at the time you want him.

Modern Ideas In Smart Clothes

Each of the number of leading makers of fine clothes in the country excels in designing and tailoring garments for women of some particular build.

We know along what lines each manufacturer is most expert, and buy ONLY those models from him that show a marked superiority over all other makers.

For this reason we are in a position to give every woman, garments that not only show the most highly developed craftsmanship, the most faultless detail and the richest qualities, but that are also fashioned to suit his particular style of build.

Never have you seen in this city, such marvels of garment makers' art, such a diversity of patterns and fabrics, and such incomparable values as are shown in our new stock.

Handsome Suits at $15, $18.75, $20, $25, $35 and up to $75.

Smart Jackets and Long Coats at $7.50, $10, $12.50, $15 and up to $35.

Beautiful Evening Wraps, Lace and Silk Garments at $25, $32.50, $37.50 and up to $100.

Pretty Skirts from $5 to $35.

Elegant Waists, from 98c to $27.50

Artistic Millinery from $2.50 to $50.

ALBENBERG'S

"GET THE HABIT"

NORQUIST'S BODY FOUND.

Jumped From Train Near Ashland Two Weeks Ago.

Ashland, Wis., April 22.—(Special to The Herald.)—The body of Samuel Norquist of Ramsey, Mich., was found in a creek near Ashland last night. Two weeks ago Norquist was being brought to Ashland for treatment when he jumped from the train, before leaving the station, eluding his wife and the train crew. Search has been made ever since, and a reward of $200 will be shared by four small boys who found the body.

FORGOT HIS INCOG.

Chancellor James R. Day of Syracuse university was discussing at a dinner his recent edict against theater-going and the use of tobacco by students holding scholarships, says the Los Angeles Times.

"Scholarships," said Chancellor Day, "are for poor students, and he who smokes and visits the theaters may be poor, but he is not living up to the part.

"We should all live up to our parts. To disguise ourselves, to travel incognito is never wise."

Chancellor Day smiled.

"To travel incognito is too often associated with something disgraceful," he said. "Witness the story of the tramp who, at a magistrate's early morning hearing, did not answer to his name, sitting absently in his seat as the name was shouted four or five times. When matters finally righted themselves, the magistrate said angrily:

"'Why didn't you answer to your name?'

"'Beg pardon, yer honor, but I forgot wot name I guv last night,' replied the tramp.

"'What?' thundered the magistrate. 'Didn't you give your right name?'

"'No, yer honor,' said the tramp. 'I'm travelin' incog.'"

THE WINNING CARD.

In rose-wreathed bowers I spoke in burning verse
To win her smiles;
I sung to her beneath a silver sail,
'Mid moonlit isles.

Under her open lattice oft I touched
The light guitar;
When, throbbing like the heart of night, arose
The evening star.

I laid the fairest blossoms at her feet;
In vain, alack!
I gave her jewels worthy of a queen;
She sent them back.

She met my minstrelsy with jests and gibes;
She heard my vows
With cold indifference, or the stern reproof
Of frowning brows.

But when, behold! I bought an auto car,
A scarlet beauty gay,
With burnished brass and cushions soft and bright,
She named the wedding day.
—New York Times.

COST OF MINING IN ROME.

Portland Oregonian: More than double the amount of money taken out in gold in the Nome district was expended during the last season in the purchase of supplies and development work. In other words, $2 was expended for every dollar that was taken out of the ground in the form of mineral wealth. The Nome district produced about $6,000,000 in gold, and $12,000,000, or even more, was expended in the district.

This is according to a conservative estimate made by John Rigby, chief engineer of the Nome improvement company, who has returned to Portland for the winter.

"Last season was a poor one," Mr. Rigby said, "because of the dry weather, the consequent low water interfering with much of the placer mining. With plenty of water the output would have been much larger.

"Much of the money expended in Nome this year was in development work, from which the investors will not realize, it at all, until later. The men who took out the money are not the ones who spend the most. The history of nearly all mining camps is that more money is spent than taken out in gold.

"Nome is still the camp of the small miner. The big companies have not grabbed up everything as yet, and will not until the rich pay streaks are exhausted. When the rich pockets have all been found and only the low grade ore and sands remain to be mined the big companies will have to do it, as that kind of operating requires a big initial investment. There are hundreds of individual miners near Nome who are working small placer claims.

"There are hundred of claims around Nome which are tied up in litigation, and because of the many lawsuits the production of gold is not as large as it would be if all the claims were free. The federal court is crowded with work and is a year behind.

"During 1900 and 1901 there was a great rush into Nome. People were wild in their pursuit of wealth, and they had been led to believe that all of the land near Nome for miles around was good. So they staked out thousands of claims. Eventually they drifted back to the states, and, for the most part, left their claims in the hands of others, to whom they gave the power of attorney.

"But little development work was done on the claims and in later years many of them have been relocated. Rich deposits were overlooked by the first locators. Learning that the old claims were of value, many of the original locators, or those who represent them, are now trying to renew possession of them. This is the cause of the constant litigation."

TWO REASONS FOR EXPLANATION.

Baltimore Sun: "I am in favor of short speeches, both on the stump and in court," said Robert Leach, one of George Stewart Brown's campaign managers. "Whenever I hear a long discourse I am reminded of a story told me years ago by an old Baltimore lawyer.

"This lawyer, when a case in which he was interested was called, arose and in a husky, tired voice, asked for an adjournment.

"'On what ground?' demanded the judge.

"'Your honor,' was the reply, 'I have been making a closing argument in another court all morning and am completely exhausted.'

"'Adjourned,' said the accommodating judge.

"Then he called the next case, and another lawyer asked for an adjournment.

"'Are you exhausted too?' asked the judge sarcastically. 'What have you been doing?'

"'Your honor,' was the reply, 'I have been listening to my learned brother.'"

THE "BAND" SHE MEANT.

London Sketch: A gentlemanly merchant traveling in a railway carriage met a lady, and politely rendered her such assistance that she reciprocated by permitting him to talk to her. He became quite friendly, and desired to know where she lived and who she was.

"Oh," she replied, "I'm only an ordinary little woman, but my friends persist in trying to make me somebody."

"Ah," was the gallant answer, "I am sure they act quite wisely and in good taste."

"You flatter me, sir, and yet I have no doubt a band will meet me at the station when I arrive at Windsor."

"Indeed!" he replied, in open-eyed astonishment. "Yes; and the same band always meets me. Isn't that flattering?"

"Very, my dear miss; but may I ask what band it is that is always so honored?"

"Oh, yes, certainly; it is a husband."

He caught on to the arm of the seat for a minute, and then went into the next carriage and bumped his head during the rest of the journey.

WHEAT HAS WEAK TONE

Bearish News Puts Prices Off in American Markets.

Flax is Steady and Quiet in the Duluth Market.

Duluth Board of Trade, April 22.—Wheat closed lower in all of the American markets today. Most of the news was bearish. However, during the middle of the session, a strong demand put prices up a little above Saturday's close, but they fell off again. The world's shipments were large, receipts in the Northwest were liberal and there were predictions of rain for the Southwest. Liverpool closed unchanged to ½d lower, Berlin ¾c lower and Budapest ⅞c higher.

The May option closed ⅞c lower in Duluth, ⅜-½c in Chicago, 1c in Minneapolis and New York, ⅝c in St. Louis and Winnipeg and ¾c in Kansas City. The July option closed ¾c lower in Duluth, ⅜-½c in Chicago, ⅜-¾c in Minneapolis and Kansas City, ⅝c in New York, ⅞c in St. Louis and ½c in Winnipeg.

May corn closed ⅛-¼c lower in Chicago and was ¼d higher in Liverpool. May oats closed ⅜-½c lower in Chicago.

World's shipments of wheat last week, the week previous and the corresponding week last year were as follows:

WHEAT.	Last Week.	Previous Week.	Last Year.
America	3,088,000	2,272,000	1,728,000
Russia	1,312,000	1,344,000	2,432,000
Danube	920,000	544,000	752,000
Argentina	5,192,000	4,448,000	3,248,000
India	600,000	488,000	192,000
Australia	624,000	512,000	824,000
Austria-Hungary	80,000	144,000	40,000
Various	120,000	120,000	.....
Totals	12,656,000	9,872,000	9,256,000
CORN.			
America	1,560,000	1,603,000	1,276,000
Russia	772,000	601,000	24,000
Danube	926,000	423,000	276,000
Argentina	41,000	40,000	410,000
Totals	3,410,000	2,667,000	1,990,000

Car receipts at Duluth were 277 against 41 last year, and at Minneapolis 486 against 368 last year, making a total for the Northwest of 763 against 409 last year. Chicago received 47 against 4 last year.

Primary receipts of wheat were 969,000 bus, last year 559,000 bus. Shipments 560,000 bus, last year 579,000 bus. Clearances of wheat and flour aggregated 411,000 bus.

The visible supply of wheat increased 812,000 bus.

Primary receipts of corn were 569,000 bus, last year 420,000 bus. Shipments 463,000 bus, last year 523,000. Clearances of corn were 128,126 bus.

The visible supply of corn decreased 556,000 bus.

Wheat trading was rather light during most of the session in the Duluth market. May wheat opened ⅝c lower at 82¾c, advanced to 83c by 9:54, went off to 82⅝c by 9:55, rallied to 83⅜c by 10:35 and 10:55 to 82¾c by the close, a loss of ⅞c off to 82¾c by the close, a loss of ⅞c from Saturday. July wheat opened ¼c lower at 81c, went up to 81⅜c, off to 81⅛c, rallied to 81¾c, declined to 81⅜-¾c, rallied to 82c, declined to 81⅝c and closed at that price, a loss of ⅜c from Saturday. September wheat was inactive and closed ⅜c lower than Saturday at 84c.

Durum wheat closed ½c lower and cash spring wheat was selling on a basis of ½c over May for No. 1 northern.

Flax was quiet and prices steady. May flax opened ⅛c higher at $1.17¼, advanced to $1.17⅝, declined to $1.17 and rallied by the close to $1.17¼, a gain of ⅛c over Saturday. July flax opened ¼c higher at $1.19½, advanced to $1.19¾, went off to $1.19, rallied to $1.19¾ and closed at $1.19, unchanged from Saturday. October flax opened at $1.19, advanced to $1.19¾ and closed at that price, a gain of ¼c over Saturday.

Rye was marked up 1c and the other coarse grains closed unchanged.

Following were the closing prices:

Wheat—No. 1 hard, on track, 83¾c; to arrive, No. 1 northern, 82¾c; No. 2 northern, 81¾c. On track: No. 1 northern, 82¾c; No. 2 northern, 81¾c; May, 82¼c; July, 83¼c; Sept., 84c. May durum, No. 1, 71¾c; No. 2, 68½c. July durum, No. 1, 71¾c; No. 2, 68½c. Durum on track—No. 1, 71¾c; No. 2, 68¼c. Flax to arrive, $1.17¼; flax on track, $1.17¼; May, $1.17¼; July, $1.19; October, $1.19. Oats on track, 41c; April oats, 41c. Rye, 61c. Barley, 60-62c.

Cars inspected: Wheat, 277, last year 41; oats 9, rye 1, barley 32, flax 67, last year 27.

Receipts: Wheat, 266,156, corn 1, oats 6,700, barley 37,229, rye 439, flax 59,959.

Shipments: Wheat 269,942, oats 700, barley 5,366, rye 1,223, flax 51.

Duluth Car Inspection.

Grain Gossip.

Logan & Bryan, Chicago, to Paine, Webber & Co.: Today's market was rather nervous. Damage reports were of much the same tenor, but the trade inclined to wait for something definite from Kansas in the way of damage. It is believed the southern and central portions are plentifully supplied with bugs, but as yet nothing serious has been forthcoming. Rains were reported along the southern edge and southeastern portion of the state, which caused considerable profit taking. Snows report of conditions in Oklahoma quite bullish. It seems to be conceded now that the crop in that state is beyond repair, but whether or not this damage is to be repeated in Kansas remains to be seen. The rains reported today is undoubtedly nothing more than showers, and altogether inadequate. Old crop conditions are undeniably bearish, and offset in a great measure damage reports. They also tend to keep in check undue bullish enthusiasm. In our opinion the uncertainty in the situation favors the buyers on reactions.

Corn—Would only buy corn on the reactions.

* * *

Forecast for grain belt:

Illinois, Indiana, Missouri, fair in north, showers in south tonight.

Lower and Upper Michigan, Wisconsin and Iowa, fair tonight and Tuesday. Colder tonight.

Minnesota, fair tonight and Tuesday. Colder in east tonight.

North and South Dakota, Nebraska and Montana, fair tonight and Tuesday.

Texas, fair in north, showers in south tonight. Tuesday, fair.

REMARKS.

No rain of consequence fell during the past twenty-four hours. Freezing temperatures were quite general west of the Mississippi river late last night.

H. W. RICHARDSON,
Local Forecaster.

T indicates inappreciable rainfall. * For yesterday. ** For twenty-four ending at 8 a. m., 75th meridian time.

NOTE—The average maximum and minimum temperatures and the average rainfall are made up at each center from the actual number of reports received. The state of weather is that prevailing at time of observation.

Chicago Live Stock.

Chicago, April 22.—Cattle—Receipts, about 29,000; market steady to shade lower; beeves, $4.25@6.70; cows, $1.75@4.80; heifers, $2.65@5.40; calves, $4.50@6.40; good to prime steers, $5.35@6.70; poor to medium, $4.25@5.30; stockers and feeders, $2.90@5.00. Hogs—Receipts, about 41,000; steady; light, $6.45@6.67½; mixed, $6.45@6.67½; heavy, $6.30@6.65; rough, $6.30@6.40; pigs, $5.10@6.65; good to choice heavy, $6.55@6.67½; bulk of sales, $6.57½@6.65. Sheep—Receipts, about 28,000; market steady; native, $4.50@7.00; western, $4.50@7.00; yearlings, $7.00@7.80; lambs, $6.50@8.60; western, $6.50@8.60.

Treasury Balances.

Washington, April 22.—Today's statement of the treasury balances in the general fund exclusive of the $150,000,000 gold reserve in the division of redemption shows: Available cash balance, $250,371,603; gold coin and bullion, $107,228,801; gold certificates, $38,139,300.

St. Paul Live Stock.

St. Paul, April 22.—Cattle—Receipts 950; market steady; quotations unchanged. Hogs—Receipts, 2,100; market 5c lower; range, $6.20@6.32½; bulk of sales, $6.30. Sheep—Receipts, 1,750; market about steady; woolen killing sheep, wethers and lambs, $4.50@7; yearlings, $4.50@7.25; lambs, $4@8.50.

The Cotton Market.

New York, April 22.—The cotton market opened steady at a decline of 3@6 points, which was considered a little better than due on the cables. Further rains were reported in the Southwest over Sunday, but temperature continued low, the near months showed no signs of special weakness either here or at New Orleans, and the market worked up to within a point or two of Saturday's final quotations during the early session, on covering of shorts and moderate bull support. Trading was moderately active at first, but became rather quiet after the partial recovery, and during the middle of the morning the market lost ground under realizing, with prices about 3 to 5 points net lower. May was selling on about even terms with July.

Spot cotton, steady; middling uplands, 11.20; middling gulf, 11.45. Sales, 1,200 bales. Futures closed steady. Closing bids: April, 9.76; May, 9.82; June, 9.74; July, 9.79; August, 9.80; September, 9.82; October, 10.05; November, 10.07; December, 10.11; January, 10.27; February, 10.32; March, 10.40.

New York Money.

New York, April 22.—Close: Money on call easy, 1¼@2¾ per cent; ruling rate, 2¾; closing bid, 1¾; offered at 2. Time loans steady and dull; sixty days, 3½@4 per cent; ninety days, 4½; six months, 4¾@5 per cent; prime mercantile paper, 5½@6 per cent. Sterling exchange strong, with actual business in bankers' bills at $4.86.65@4.86.10 for demand and at $4.83.10@4.83.15 for 60-day bills; posted rates, $4.83½@4.84 and $4.86½@4.87; commercial bills, $4.82¾. Bar silver, 65½c; Mexican dollars, 50¾c. Government bonds steady; railroad bonds firm.

THE CHICAGO MARKET.

Trading In Wheat Very Quiet With All Prices Easier.

Chicago, April 22.—Trading was quiet at the opening in the wheat market and prices were easy. Large world's shipments, good weather in the Northwest, and predictions of rain tonight in Kansas combined to soften the market. July wheat opened unchanged to ½c higher at 80c to 81¼c and declined to 80¼c. Minneapolis, Duluth and Chicago reported receipts of 810 cars, against 881 cars last week and 441 cars one year ago.

The market was nervous during the latter part of the day. On reports of damage, the July option sold up to 81¼c and then because of reports of rain in Southern Kansas, it declined to 80½c. The close was weak with July off ⅝@½c at 80¼@⅝c.

Prices in the corn pit opened firm because of higher cables, but later eased off in sympathy with wheat. July corn opened ½c to ¾c higher at 48⅜c to 48⅝c and declined to 48⅜@¼c. Local receipts were 235 cars, with 17 of contract grade.

Prices became weak in the last half of the session, July selling off to 48c. The close was easy with July ½c lower at 48¼c.

The oats market was easy because of more favorable weather for the crop. Trading was dull. July oats opened a shade to ¼c higher at 41⅜@½c to ⅝c and sold at 41¼c. Local receipts were 344 cars.

The prices in provisions were easy on moderate selling. The market for live hogs was steady despite a heavy run. July pork opened 7½c lower at $15.80. Lard was down a shade at $8.75. Ribs were 2½c lower at $8.62½.

Close: Wheat, May, 78¾@¾c; July, 80½@⅝c. Corn, May, 47¾c; July, 48¼c. Oats, May, 43⅝@¾c; July, 40⅞c. Pork, $15.75; July, $15.30@15.92½. Lard, May, $8.65; July, $8.77½@8.80. Ribs, May, $8.50; July, $8.67½. Rye, cash, 61c. Barley, cash, 65@73c. Flax, clover and timothy, nothing doing. Cash wheat, No. 2 red, 79@¾c; No. 3 red, 77@78c; No. 2 hard, 77½@79½c; No. 3 hard, 76@76c. No. 1 northern, 83@86c; No. 2 northern, 81@85c; No. 3 spring, 77@83c. Corn, No. 2, nothing doing; No. 3, 46¼@47c. Oats, No. 2, 41@1½c; No. 3, nothing doing.

Minneapolis Flour.

Minneapolis, April 22.—Millers report the demand for flour as inclined to easiness. Buyers are not disposed to take the stronger tendency of wheat values as representative other than speculative anticipation, and will not follow the advance. Shipments are fairly liberal and old orders are being pretty well cleaned up. Shipments, 54,500 barrels. First patents, $4.20@4.40; second patents, $4.15@4.25; first clears, $3.20@3.50; second clears, $2.40@2.50.

ADVANCES IN STOCKS

Strength Developed Early and Continued Throughout the Session.

Close Was Strong at Best Prices of the Day.

New York, April 22.—Business for the week in the stock market began with an upward movement in prices, and with trading in larger volume than at any time recently. The rise was due to a renewal of the heavy buying toward the close on Saturday, and the good effect produced by the strength of the London market this morning. First prices were anywhere from ½ to 1 point beyond Saturday's closing, with the general railroad list most in demand. Union Pacific, Southern Pacific, Pennsylvania, St. Paul, Delaware & Hudson, Cleveland, C., C. & St. Louis (Big Four), Smelting and Amalgamated Copper improved 1 to 1¾ and Canadian Pacific, Atechison, Northern Pacific and United States Steel preferred ¾.

Operators who favored the long side of the market became more confident of their position when the market failed to display its usual declining tendency after a high opening. Purchases were curtailed for a while, but a strong indication of weakness followed, and the buying was resumed in larger volume than before. All of the representative stocks were in keen demand, especially Reading, New York Central and the Harriman stocks. The gains during the first hour amounted to 2¾ in St. Paul, 2¼ in Reading, 2 in New York Central, Northern Pacific, Union Pacific, Cleveland, C. C. & St. Louis and Lead, 1¾ in Smelting, 1½ in Southern Pacific, Delaware & Hudson, Amalgamated Copper, General Electric and a large number of other stocks a point or more.

Prices in some cases rose in the second hour of trading above the previous levels, but there was a marked subsidence of demand. Reactions, however, were slight. Reading rose 2¾, North American 2⅝, Delaware & Hudson and National Lead 2½, American Smelting and General Electric 2¼ and Louisville & Nashville and Pennsylvania 2. The tone was strong and dull at noon. Bonds were firm.

A relapse amounting to a point in Reading threw the market into dullness. A subsequent rise in which many of the important stocks sold higher than in the morning, was also attended by very small dealings. Union Pacific sold at 140, a gain of 2½. Smelting also moved up ¾. Amalgamated Copper 2¼. Southern Pacific and Rock Island preferred 2 and Great Northern preferred 1½.

Stocks moved irregularly in the afternoon when the profit-taking sales and buying orders conflicted. Fluctuations either way did not amount to much, and the market stiffened readily when pressure was removed. Louisville & Nashville gained 3½. Atlantic Coast Line 3, International Pump 2, Brooklyn Rapid Transit and Erie first preferred 1¾ and Baltimore & Ohio and American Ice 1½.

The market closed strong at best prices. Realizing sales were on a small scale, and the bulls took favorites in hand for another upward movement. Union Pacific's extreme advance reached 4. Reading, Delaware & Hudson and American Smelting as much. Amalgamated Copper 3, National Lead 2⅝, Pacific Coast and Consolidated Gas 2¼, Erie second preferred, Norfolk & Western, Central Leather, Colorado Fuel and United States Realty 1½. The rest of the list was held firm in sympathy, but the transactions were scanty.

Quotations furnished by Wisconsin Grain & Stock company, 109 Manhattan building:

The total sales were 875,800 shares.

Stock Gossip.

New York—Walker Bros. to Paine, Webber & Co.: Market opened steady and then developed a good deal of strength. The strength continued all day and when stocks were offered were easily absorbed. We look for better prices this week as the general sentiment is good. Call money was easy and in good supply.

* * *

New York—Logan & Bryan to Paine, Webber & Co: Today's market opened with a rush. Reading, Union Pacific and St. Paul assumed leadership and tided threst of the list through an unusually stiff and healthy appearing market. That the large interests are accumulating slow seems almost certain from the action of today's market. The rally was more like a natural and healthy upturn than we have seen for some time. We advise the purchase of standard issues on all marked recessions.

* * *

New York to Gay & Sturgis: The stock market opened higher and improved further in sympathy with London. There is a marked change in feeling on the floor. Brokers who have been bearish are advising buying on weak spots.

Copper Gossip.

Boston to Paine, Webber & Co.: Amalgamated was being accumulated all day long, rallying steadily without a setback and closing at the highest. Copper Range and Mohawk were the two favorites in Boston and we consider the buying of both to have been extremely good. The disappointment caused by the North Butte statement has not yet been forgotten and the stock seemed heavy, but we consider it cheap around present prices. We advise picking up Atlantic at anything under $15.

* * *

Hall to Gay & Sturgis: We feel very much encouraged over the market today. If one would notice it was a creeping market, and one that shorts would hestitate to cover in, that is, several times it looked as though the buying had stopped, but every time it hesitated there was fresh buying, and not by shorts. Our own market here acted very well, indeed, and there was excellent buying of the better class coppers. As we have said so many times our markets are made up of sentiment and we have had bearish talk drummed into us so long, that it would seem as though they had used up all their ammunition.

People are beginning to realize that perhaps after all this country may not be going to the devil, as a great many peope would have us believe. Just let sentiment change people (and its beginning to) and you would find this market would rally $10 all around easier than it went off.

THE COPPER STOCKS.

Articles of Incorporation ---OF--- LUNDMARK-FRANSON COMPANY.

For the purpose of forming and being a body corporate under and by virtue of the provisions of Chapter 58 of the Revised Laws of Minnesota for the year 1905, and all laws amendatory thereof, the undersigned have adopted, signed, sealed and acknowledged the following Articles of Incorporation.

ARTICLE I.

The name of this corporation shall be "Lundmark-Franson Company," and the nature of its business shall be the carrying on of any kind of mercantile or transportation business, buying, selling and improving lands and tenements, and such other lawful enterprises as are incidental to the above specified purposes of this corporation. The principal place of business shall be Duluth, Minnesota.

ARTICLE II.

The period of duration of such corporation shall be thirty (30) years. And the time of the commencement shall be the 1st day of May, 1907.

ARTICLE III.

The names and place of residence of the incorporators are Charles Franson, J. E. Lundmark and Louis Cato, all residing at Duluth, Minnesota.

ARTICLE IV.

The government of this corporation and management of its affairs shall be vested in a board of three directors, each of whom shall be stockholders, and the following officers to be chosen by the said Board of Directors from among the stockholders of said corporation, to-wit: President, Vice President, Secretary and Treasurer; any two of said offices may be held by the same person with the exception of the offices of President and Vice President.

The Directors shall be elected by the stockholders by ballot, each stockholder being entitled to cast as many ballots as he has shares of stock annually on the first Monday after the first Sunday in June in each and every year commencing with the month of June, 1907.

The said officers and directors shall each hold office for one year from the first Monday after the first Sunday in June and until their successors are elected and qualified. Until said officers are elected the following named persons shall act as the first Board of Directors, to-wit, Charles Franson, J. E. Lundmark and Louis Cato. And until such election the following named persons shall be officers of said corporation, Charles Franson, President; Louis Cato, Vice President, and J. E. Lundmark, Secreary and Treasurer.

The annual meeting of both the stockholders and directors shall be held on the first Monday after the first Sunday in June of each year, and besides such annual meeting any other special meetings may be held at such time and place as may be prescribed by the by-laws.

ARTICLE V.

The number of shares of the capital stock of said corporation shall be five hundred (500), and the amount thereof shall be one hundred dollars ($100) each, and may be paid for either in property, money or services as the Board of Directors shall elect, and said stock shall be subscribed for at such times and in such amounts as may be prescribed by the Board of Directors. This corporation may commence doing business when twenty per cent (20 per cent) of its stock shall be subscribed for.

ARTICLE VI.

The highest amount of indebtedness or liability to which this corporation shall at any time be subject shall be Fifty Thousand Dollars ($50,000).

IN WITNESS WHEREOF we have hereunto set our hands and seals this 18th day of April A. D., 1907.

CHARLES FRANSON, (Seal.)
LOUIS CATO, (Seal.)
J. E. LUNDMARK, (Seal.)

Signed, Sealed and Delivered in Presence of
H. B. FRYBERGER.
AUSTIN LATHERS.

State of Minnesota, County of St. Louis—ss:

On this 18th day of April A. D. 1907, before me a notary public within and for said county, personally appeared Charles Franson, J. E. Lundmark and Louis Cato, to me well known to be the persons described in and who executed the foregoing Articles of Incorporation and they severally acknowledged that they executed the same as their free act and deed.

H. B. FRYBERBER.
(Notarial Seal.)
Notary Public St. Louis Co., Minn.
My commission expires June 1st, 1909.

State of Minnesota, Department of State:
I hereby certify that the within instrument was filed for record in this office on the 19th day of April A. D., 1907, at 2 o'clock p. m., and was duly recorded in Book O3 of Incorporations on page —.

JULIUS A. SCHMAHL,
Secretary of State.

Office of Register of Deeds—
State of Minnesota, County of St. Louis—ss.

I hereby certify that the within instrument was filed in this office for record April 20, 1907, at 11:30 a .m., and was duly recorded in Book 4 of Misc., page 369.

M. C. PALMER,

ADDITIONAL WANTS
FROM PAGE 16.

HERALD "WANTS" BRING QUICK RESULTS

CLAIRVOYANT.

READ THIS CAREFULLY,

AND THEN HEED
THE MARVELOUS REVELATION
MADE BY PROF. GIRARD.

If you are going to consult a palmist or clairvoyant, why not consult the best and be guided aright?

One who is well known.
One who has stood the test of time.
One who is competent.
One who has helped thousands to a higher life and success.

If you are in doubt, in trouble, or disappointed with your life, your love, or your business, his knowledge will help you. He has extraordinary clairvoyant power which enables him to reach human life with accuracy from infancy to old age. His powers are wonderful, indisputable; his advice reliable, his information clear, conscientious and to the point, in love, courtship, marriage, divorces, sales, wills, journeys, patents, investments, speculations, minerals and stocks. Traces lost and stolen articles. Tells you what your land contains that you own. How to make your enemies your friends. He will show you how to remove evil influence from your home and make it happy. No matter what station of life you may occupy, if you are in trouble of any kind you should consult Prof. Girard.

BUSINESS MEN

Can profit greatly by consulting this wonderful man. He will tell you what investment will prove most profitable and what to avoid. He will tell you just what sort of business you will be most successful in. He will give you countless pointers that will redound to your future and present welfare.

LOVE AND COURTSHIP.

If the affairs of the heart or emotion of love interest you, he will give you an exact and truthful revelation of all love affairs. He tells you when and whom you will marry, and how to gain and triumph over your enemies.

THOSE IN TROUBLE

Should see Prof. Girard. He will guarantee to help you. He will give you information that will help you overcome your difficulties. His ability to secure knowledge that the physical sense can not ascertain aids him to make homes happy. Do you find, with all your talents and natural gifts, that you are baffled and unsuccessful?

IF SO, COME AND BE ADVISED.

Find out the cause of your bad luck and how to change your condition to that of success and happiness. He has helped others. Why not you?

ARE YOU IN LOVE?

If so, do you find the one you have bestowed your affections and trust upon acting in a cold and indifferent manner. Has a rival or obstacle crept between you and your future hopes? No matter what may be your hope, fear or ambition, come to this gifted man; he will help you find what the future has in store for you.

If you will succeed in business; if advisable to change, to sell or invest; is pending lawsuits troubling you? You may be able to get a better position, better wages; perhaps you are waiting for something you will never realize by not knowing.

HE STARTLES DULUTH

With his marvelous predictions, this master mind in clairvoyancy. The marvelous powers which enable him to penetrate the innermost recesses of the human soul and extract therefrom the knowledge of your true self and your mighty forces.

HE HAS HAD GREATER SUCCESS

Than any clairvoyant that has ever been in Duluth, owing to his truthful predictions. He also gives names and dates; also tells you where you can locate lost and absent friends; lost sons and daughters compelled to return to their good mothers' teachings again. Not only call yourself, but bring your children, as to whom it is most important to learn what they are best adapted for and what their diseases are and where located, as they cannot explain, and parents should waste no time to learn, and not continue with a short sight, failing to see what they ought most to know.

Consult this wonderful man and you will gain knowledge that will lead to a brighter future. Do not be misguided by others. To those living at a distance, sox questions by mail, $1.00. Remember the name and number.

MEMBERS OF BLACK HAND

Placed on Trial at Wilkesbarre, Charged With Many Crimes.

Wilkesbarre, Pa., April 22.—More than a score of foreigners charged with being members of the "Black Hand" and responsible for a large number of crimes in this vicinity were placed on trial here today. Thirteen cases of shooting with attempt to kill, thirteen of them conspiracy, six of dynamiting and two of robbery, by threats and menaces, are charged against the men who are alleged to be the leaders of the "Black Hand." Hundreds of foreign families in this section have for several years lived in a state bordering on terror as a result of threats made by this mysterious organization which in many cases have been followed up with murder. The men on trial were arrested in February at the instance of District Attorney Salsburg. Twenty-six men were captured, and all but two, who were released, were held without bail for trial.

The men who exposed the personnel of the society are Charles Salvatore and Joseph Ritz of Browntown. The persecution of these men began in the early part of last year, when a letter was slipped under their door demanding $500 lest the entire Ritz family desired to be annihilated. The principal witnesses in the cases have been placed under ball to appear, and families that were driven away by the society's persecutions were brought back as witnesses by the district attorney from Buffalo, Rochester and many other cities.

BRITISH DELEGATES TO PEACE CONFERENCE.

London, April 22.—The British delegates to the peace conference at The Hague are as follows: Sir Edward Fry, ex-lord justice of appeal and a member of the permanent court of arbitration at The Hague; Sir Ernest Satow, ex-British minister at Tokio and Pekin and a member of the permanent court of arbitration at The Hague; Lord Reay, president of the Royal Asiatic society and University college, London, an da member of the privy council and Sir Henry Howard, the British minister at The Hague.

Naval and military experts will be added to the delegation later.

CHURCH ROW CAUSES A RIOT AT PORTSMOUTH, O.

Portsmouth, Ohio, April 22.—A faction opposing their pastor, Rev. Freeman Chase, making an attempt to depose him and hold service with an other minister caused a riot in the Free Will Baptist church here yesterday. The followers of the different factions came to blows, women fainted and others fled screaming into the streets. When the police authorities were appealed to they refused to interfere. Order was finally restored by the new minister and elders withdrawing. A majority of the church officers are opposed to Chase, who has withdrawn from the conference and has been conducting the church independently.

ARGUMENTS PROCEED IN THE HERMANN CASE.

Washington, April 22.—Assistant United States Attorney Adkins concluded his argument today in the trial of Binger Hermann for destroying the public records. A. S. Worthington then began a two-days' argument for the defense. United States Attorney Baker will make the concluding address for the government. It is now expected the case will go to the jury Thursday.

The Hyde-Benson-Dimond-Schneider land fraud case, which was set to begin today, before Justice Stafford, is necessarily postponed to await the conclusion of the Hermann trial.

Bitten by a Spider.

Through blood poisoning caused by a spider bite, John Washington of Bosqueville, Tex., would have lost his leg, which became a mass of running sores, had he not been persuaded to try Bucklen's Arnica Salve. He writes: "The first application relieved, and four boxes healed all the sores." Heals every sore. 25c at all druggists.

NEWS FROM WEST DULUTH

SCARCITY BEING FELT

Many Families Are Unable to Find Homes Here.

Much Building Being Done, But Demand is Too Great.

As was forecasted several months ago by real estate agents of West Duluth, the scarcity of houses and apartments in this end of the city is already making itself apparent and families desiring to live here are being compelled to seek quarters in other residence districts of the city.

A great deal of building is being done in West Duluth this spring and houses and flats are going up rapidly, but even when these are completed there will still be a famine. The increase of population caused by the additional manufacturing institutions at this end of the city is so great that the houses being erected at this time will not meet the demand.

Besides the people coming into the city to be employed in the new factories many people who have been living at Duluth proper are now trying to find quarters in West Duluth. The inquiries for houses for rent at real estate offices in West Duluth are coming in at a great rate and only a few of those anxious to rent houses can be satisfied.

There are also numerous inquiries by those wishing to purchase houses and lots. Transfers made last week through the offices of J. J. Frey were as follows: Lots 202-204-206 and 208, Sixty-first avenue south to Mrs. E. Wille for $1,200 for store purposes; lots 221-223, Fifty-sixth avenue north to Mrs. K. Sennott for $600, residence purposes; lot at 5828 Grand avenue to H. Wilson for $750; lots 616-618 North Fifty-ninth avenue west to A. Ferguson for $600, residence purposes; lot 524 North Fifty-ninth avenue west to Miss Bowen for $300; lots 426-529 to T. M. Brooks for $300; lots 410-404, Fifty-ninth avenue west to M. Kemerer for $600; lots 5924-5926-5928 Grand avenue to C. M. Brooks for $750, residence purposes; lots 288-232, Fifty-fifth avenue south to J. A. Sanford for $1,000.

INVESTIGATE ROUTE.

Proctor Extension Committee and Superintendent Warren Make Inspection.

Chairman Getchell and the other members of the Commercial club committee which has the Proctor extension project in charge, took a trip over the proposed route for the street railway line to Proctor yesterday afternoon.

The route which was investigated by them was that extending from the present Fifty-seventh avenue line, under the Missabe railroad tracks and then to the Oneota cemetery over the hill to Bay View heights. The hills and grades along the route were found to be pretty steep but it is the general opinion that a line could be built and cars run to Proctor.

Besides the members of the committee Supt. Warren of the street railway company was in the party. Other members of the committee are Messrs. Phelps, Patterson, Warren, Langslow and Merriman.

CELEBRATE ANNIVERSARY.

Odd Fellows Attend Services at Baptist Church.

The West Duluth Baptist church, Grand and Fifty-ninth avenues west, was yesterday afternoon filled to the doors by Odd Fellows and their friends, gathered together to celebrate the eighty-eighth anniversary of the founding of their order. Two addresses were delivered, one by T. W. Hugo of Duluth, and the other by Rev. Arthur Hoag, pastor of the church. There was also a program of music by the choir.

In his address, Mr. Hugo dealt chiefly with Odd Fellowship in Minnesota, but in a general way told of the history of the order, from its origin. It was organized in 1819 by five men, and has had a wonderful growth since that time. Mr. Hugo said that both numerically and financially it is the strongest organization in the world. Mr. Hugo also spoke of the home for Odd Fellows, which has been established in Northfield.

"Truth, the Third Link," was the subject of Rev. Hoag's address. The speaker explained that the first link is friendship, the second love and the third truth. He touched upon the meaning of the word, and upon its relationship to Odd Fellowship.

The church was prettily decorated with greens and potted plants.

Fire Damages House.

Fire at the home of John Peterson, 819 North Fifty-sixth avenue west, did about $500 damage yesterday morning, several of the rooms being gutted, the roof and attic nearly destroyed, and the kitchen ruined. The origin of the blaze is unknown.

The fire department was also called out to quench a blaze on Sixty-seventh avenue west, where the snow fences along the Northern Pacific tracks were burning.

Dies From Heart Failure.

The death of Ole Jacobson, a laborer, occurred early yesterday morning at the camp of John Lundquist, a contractor at Proctor. Jacobson's companions were awakened during the night by groans, but when an investigation was made, Jacobson had already expired. An autopsy, held yesterday afternoon, showed that heart failure was the cause of death. The body was removed to Filiatrault's morgue and prepared for burial. The friends of the dead man are contributing toward the expense of the funeral.

Popular Couple to Wed.

The marriage of Miss Clara Lacose of Fifty-ninth avenue west, to Joseph Fountaine, 5228 Ramsey street, will take place tomorrow morning at Ste. Jean the Baptiste church at the West end. The young people are well known in West Duluth, where they have lived for a number of years. They will make their home at the West end.

Planning for Feast.

A regular meeting of the Twentieth Century Progress club of West Duluth was held yesterday afternoon at Gilley's hall. There was a large attendance, and a dozen new members were added to the roll. The club is planning to hold a banquet and entertainment, about the middle of next month, and a committee was yesterday appointed to make the preliminary arrangements. A program of music and speaking will be prepared.

Experts at Smithville.

West Duluth people are much interested in the visit of the experts of the United States Steel corporation who arrived in the city today to pick out a site for the big plant which will be located here. Speculation is rife among the citizens as to the exact location. This morning the members of the committee took a trip to Smithville, where they are looking over the ground.

West Duluth Briefs.

The trustees of the Wistminster Presbyterian church will meet this evening at the home of Mrs. Jennings.

W. R. Thompson of St. Paul spent Saturday in West Duluth on business. He may erect a store building on Grand avenue.

Mrs. K. O. Paulson went to St. Paul Saturday, where she will visit her son for a few days.

Miss Martha Ramson of Madison is the guest of her sister, Mrs. L. J. Lewis of Sixty-third avenue west, for a few day.

Rev. W. G. Boyle of Deer River has returned to his home after visiting at the home of Rev. and Mrs. Thomas Grice for several days.

Frank Thorwald left yesterday for a trip through South Dakota and Southern Minnesota on business.

R. T. Foote of Minneapolis spent Saturday on business in West Duluth.

Miss Helen Marving of Gresco, Minn., has returned to her home after visiting for a few days with her sister, Mrs. T. H. Johnson of Forty-eighth avenue west.

Sherwin-Williams mixed paints, $1.75 per gallon, at Nygren's drug store.

Rev. Thomas Hawkes has returned to his home at Biwabik after spending the past week visiting at the home of Rev. and Mrs. Thomas Grice.

The banquet committee of the Western Curling club held another meeting Saturday evening at J. A. Scott's office and completed the plans for the feast and entertainment which will be given April 30.

Russell Richardson has mover his family to Grand Marais, where they will live in the future.

L. C. Wileland of Bayfield, Wis., spent Saturday and Sunday in West Duluth and Duluth, visiting old friends.

Lewis Sliger is confined to his home, 5715 Cody street, today, on account of illness.

West Duluth baseball fans held an indignation meeting yesterday afternoon and declared themselves as being thoroughly disappointed with the showing of the White Sox so far this season.

M. Murphy returned to Grand Marais yesterday after having spent a few days visiting in West Duluth. He made the return trip on the steamer America.

George Method received a telegram this morning from Saginaw, Mich., informing him of the sudden death of his mother at that place.

Samuel Spooner left yesterday for Grand Marais where he will be employed in a saw mill.

The young people of St. James church will begin rehearsals for a minstrel entertainment Tuesday. Excellent material has been selected and the entertainment which will be given some time next month promises to be a great success.

Watch and jewelry repairing. Hurst.

The report published last week that M. L. Olander had sold his house and lot and had purchased a drug business in Minneapolis was not true. At the time, Mr. Orlander had an option on a store in Minneapolis, but the deal fell through and for the present he will remain in West Duluth. He has not sold his house and lot.

The large fishing boat which was built during the winter by A. Storm, 714 North Central avenue west, was yesterday hauled to the Merrill & Ring dock and launched at noon. Twelve horses hauled the trucks upon which the boat was carried.

BUT ONE DAY TO BREAK DEADLOCK

In Rhode Island Legislature Over Election of Senator.

Providence, R. I., April 22.—With only one more day in which to break the deadlock in the legislature over the election of a United States senator to succeed George Peabody Wetmore, the Republican state executive committee of Rhode Island today took steps to harmonize the warring factions in the party and to bring about an election tomorrow. The Republicans comprise nearly two-thirds of the membership of the legislature, and could they unite on one candidate the deadlock would be broken. To bring about such a result a meeting of the state executive committee has been called for today. Up to this time fifty-six ballots have been cast for senator. Col. Samuel H. Colt of Bristol, one of the principal candidates has polled thirty-eight votes and Former Senator Wetmore, thirty-one. For many ballots one vote was cast for Former Governor George R. Utter, but last week the supporter of Mr. Utter transforred his vote to Mr. Wetmore.

There are thirteen members of the executive committee and of this number seven are said to be for Colt and six for Wetmore. It is not believed that either Colt or Wetmore will yield in the other's favor and there is the probability that if any candidate is determined upon for the Republican support it will be some one whose name has not yet appeared in connection with the office.

LID AT EAST GRAND FORKS.

Grand Forks, N. D., April 22.—Following sensational charges of gambling in East Grand Forks, Mayor O'Leary on Saturday night put on the lid, and the gamblers have put away their layouts. Resorts on Demers avenue also have been ordered closed.

TO BE RECEIVED BY CZAR.

St. Petersburg, April 22.—M. Golovin, president of the lower house of parliament, has been notified by Baron Fredericks, minister of the imperial house, that he will be received in audience by the emperor at Tsarskoe-Selo tomorrow afternoon.

CLAIRVOYANTS.

MARVELOUS REVELATIONS.

PROF. ROXBURY.

THE WORLD'S GREATEST CLAIRVOYANT AND PALMIST.
Makes a Remarkable Statement: "Your Greatest Wish Can Be Realized—
You Would Not Desire a Thing
If You Were Not Capable of
Attaining It.

I know how to control and use that power for your success and mine. If you wish to succeed in any business undertaking consult me. I can put you on the right road. If you so desire to win in love, or be reunited with one from whom some trouble or estrangement separates you, I Can and Will Help You to Gain the Desire of Your Heart. Are you tired of being poor and living a "from hand-to-mouth" existence? If so Come to Me and I Will Show You a Better Way. Life is not half so much of a mystery as some people would have you believe. If you had studied more into Nature's laws and learned the lesson there revealed you would know better Why Some People Succeed and Others Fail). There is a good reason just the same as There is a Reason why water will run down hill more easily than it will run up hill. I Can Explain That Reason to You. I Am Successful Myself, I do not make this claim in the spirit of a braggart or egotist, but to enable you to appreciate what I can do for you.

AN HONEST PROPOSITION.

In order that each and every person may call upon me feeling perfectly confident that they are running no risk of spending one penny unless they receive

ABSOLUTE AND COMPLETE SATISFACTION

I do hereby submit for your consideration the following agreement and

SOLEMN GUARANTEE.

I do hereby agree to make you No Charge in Advance but will First give you a full, truthful Reading, telling your Name in Full, names of Friends, Enemies or Rivals, whether Husband, Wife or Sweetheart is true or false. I will tell the name in full of the one you will marry—also giving you sure advice how to gain the love of the one you most desire, even if miles away. I will give you never failing advice upon all matters of interest, such as Love, Marriage, Business, Speculations and Transactions of All Kinds. In fact, no matter what may be your Hope, Fear or Ambition, come to me and I will guarantee to tell you everything. Without You Uttering One Word to Me. I also will help you to Overcome your difficulties, and if I fail to fulfill faithfully every promise Guaranteed above then

PAY ME NOTHING.

YOU TO BE FULL JUDGE. IS THIS NOT HONEST? COULD ANYTHING BE FAIRER? FULL, COMPLETE $5 READING. $1. PERMANENTLY LOCATED AT

MUNICIPAL OWNERSHIP BILL IS FINALLY PASSED, BUT SOMEWHAT AMENDED

Requires a Three-Fifths Vote to Pass Any Law.

The Omnibus Bill Is Still Under Consideration.

The Measure Providing Court for Range Cities Passes.

(From a Staff Correspondent.)

St. Paul, April 23.—(Special to The Herald.)—The municipal ownership bill, in which Duluth is interested, finally got through this morning after undergoing several narrow escapes. The senate had amended it so as to make it much more difficult to apply it to the various communities, by requiring a three-fifths vote of all those voting at the election where the law is proposed instead of a majority of those voting on the proposition, as the original bill proposed. The house had refused to concur in this amendment, and appointed a conference committee. Later it was discovered that the senate was preparing to kill the bill when it came back, so the house decided to concur in the senate amendments, which it did this morning. Then the bill was repassed as amended, and now goes to the governor. Representative Dalzell of Morton opposed the bill as being dangerous and as tending to create political machines by furnishing a lot of new public jobs. He pointed out that the Illinois Mueller law, on which this law is based, has been knocked out. Representative Clarence B. Miller of Duluth defended the bill earnestly and effectively. He said that it simply provided that the people should decide, and that there is no danger in leaving such matters to the people. The bill passed, 65 to 21.

• • •

The senate took up the omnibus appropriation bill shortly before noon and will spend a good share of the afternoon upon it. Before the house got through with it last night it

GIVES HALF OF FORTUNE

To Lawrence University Toward Raising the Required $150,000.

Milwaukee, Wis., April 23.—An Evening Wisconsin special from Appleton, Wis., says: Dr. Samuel Plantz, president of Lawrence university today announced that a gift of $15,000 has been received toward the $150,000 which must be raised to meet the conditions of the general education board which offers $50,000 to the Appleton institution.

The donor's name is not given out, but it is intimated that he is not a man of great wealth. On excellent authority it is stated that this donor has given over one-half his possessions in making the gift. In addition to this gift he has made the verbal promise to give the last $10,000 toward the completion of the $150,000 which is required. With the $8,000 already subscribed, this means that $33,000 is already pledged toward the fund to be raised.

TEACHERS' PENSIONS

House Passes Bill Allowing Cities to Create Pension Fund.

Hot Fights Over Items in the Omnibus Appropriation Bill.

(From a Staff Correspondent.)

St. Paul, April 23.—(Special to The Herald.)—A start upon the organization of a pension fund for public school teachers will be made if the house bill, by Representative Rodenburg, which passed the house yesterday afternoon, gets through the senate today, and there is a reasonable assurance that it will.

The bill does not provide a pension fund, and as amended in the house yesterday afternoon, it does not even permit the levying of a tax to form one, but it provides that in cities of more than 50,000 inhabitants, there may be created a public school teachers' retirement fund, to be managed by a corporation which the boards of education are authorized to form.

In the original bill the cities were authorized to levy a tax of one-tenth of a mill for the fund, but this was cut out. Now the only sources of funds are through gifts and through

MOTHER OF THAW TELLS THE STORY OF SUICIDE

Desires to Controvert the Sensational Tales Printed Thereof.

Pittsburg, April 23.—Mrs. Mary C. Thaw, mother of Harry K. Thaw, has asked the Associated Press to give to the public the facts concerning a suicide at her home here, eight years ago which, she asserts, some sensational newspapers in the East have distorted and elaborated upon. Mrs. Thaw says:

"In the eighteen years during which I occupied Lyndhurst it is safe to say that the number of ministers and their families for whom it was a stopping place, reached many scores. Among these was the wife of a former assistant to the pastor of the Third Presbyterian church, of which I and my family are members. After her husband had resigned from that position, they both engaged in teaching in a seminary in the central part of Pennsylvania. Later, I heard that the wife had become an invalid, suffering from nervous prostration with a tinge of melancholia. When I heard that the husband had received a call from a church in Kentucky, I invited the invalid wife to visit me at Lyndhurst, while preparations for leaving the old home and settling in the new were under way, believing that the change of scene, rest, medical care and careful nursing would be beneficial.

"I returned from an afternoon re-

PRESENT CONDITIONS IN CHINA NOT ENCOURAGING

Educated Men Are Not in Favor With the Court.

Revolutionary Sentiment is Spreading Very Rapidly.

London, April 23.—The progress of the reform movement in China is described from a point of view much less eulogistic than recent reports from English newspaper correspondence, in a letter received here from Pekin. The writer is a foreigner, holding official position, whose opportunities for gaining reliable information and whose judgment are worthy of the greatest confidence. He tells the inner story of the downfall of Tang Shoa Yi, the Yale graduate who until recently was one of the most powerful men near the court; he speaks of disaffection in Yuan Shih Kai's much-advertised army, and takes a discouraging view of the government's financial status, of the attempts at educational reform and the suppression of opium. The letter follows:

"After the startling edicts of last autumn," says the writer, "reorganizing the central government, there came a reaction. Its cause cannot be stated definitely, but it is probably twofold—the rapid spread of revolutionary ideas among the students in Japan and the foreign educated Chinese at home, and, secondly, the success of Conservative intrigue at the court inspired by jealousy.

"The approval of the imperial court to the reform programs was no doubt given with the object, in part, of taking the wind out of the sails of the Revolutionists; but the fact that, in spite of the proposed measures, the party kept up its activity and was recruiting so rapidly, was a great discouragement and has aroused great fear.

"As a consequence, all men of modern education have come more or less under suspicion. It has been easy, therefore,

FREIGHT WRECK ON THE SOO LINE

At Elbow Lake and Two Men Injured, One Seriously.

Elbow Lake, Minn., April 23.—While Soo way freight No. 21, in charge of Conductor Toms, was unloading at the station in this city yesterday morning, an extra westbound freight, heavily loaded, crashed into it.

The caboose and one box car were smashed into splinters, and two other box cars rolled down a twenty-foot embankment.

J. P. Dunne, traveling representative of the Minneapolis Tribune, and Eric Erickson of Tintah, who were in the caboose at the time, were injured, the former quite seriously. Mr. Dunne was hurried to a nearby hotel, where he was given medical attendance.

He has a broken arm, a badly bruised eye, and is suffering from internal injuries, the nature of which the doctors have not yet ascertained.

Erickson was badly bruised but will soon recover. Dunne was found under a pile of debris with a stove resting on a portion of his body. Erickson was thrown into the air and fell away from the wreckage, which fact probably saved his life.

Conductor Beck of the extra asserts he had orders to go through Elbow Lake without a stop. The top of the caboose was cut off and the trucks shoved ahead, where they crashed into the depot platform. The engine of the extra lost its smoke stack and was damaged considerably on the forward part.

Conductor Toms saw the impending disaster and attempted to warn the men in the caboose, but was unable to reach it in time.

A DISASTROUS CONFLAGRATION IN AN ARSENAL

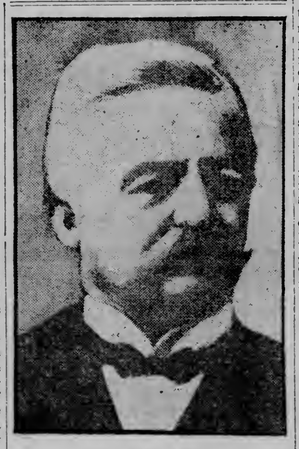
Toulon, France, April 23.—A fire which broke out at the arsenal here shortly after midnight, has assumed alarming proportions. Private residences outside the arsenal are threatened, immense quantities of stores have been burned and damage amounting to many millions of francs has been done.

The wall of a storehouse fell in, burying twenty men, ten of whom were severely injurd. Two or three persons are believed to have been killed.

Large bodies of soldiers and sailors were engaged in fighting the flames throughout the night, but all the efforts to control the fire have been without success, up to the present. The building in which the commission of inquiry appointed to investigate the explosion on board the battleship Lena had been holding its sessions, is in flames, and it is said that most of the documents relating to the investigation have been destroyed.

HOSTILE TO RAILROADS

Is Attitude of State of Michigan Says Company's Report.



New York, April 23.—The attitude of the state of Michigan toward the railroads is demonstrated in the annual report of the Grand Rapids & Indiana railroad just issued. Referring to the demand for a flat 2-cent a mile passenger rate, irrespective of conditions on individual lines, the report says that "this public outcry is unforunate as the state is already well advertised in the financial world as hostile and unfair to its railroads."

As a result of the state's policy, the report declares, little new railroad mileage has been constructed in Michigan in the last five years.

Between 6,000,000 and 9,000,000 acres of good agricultural land that lie idle in the Northern part of the state would be developed, the report says, if railroads were built into these sections. This land has been taken by the state for nonpayment of taxes.

MISTRIAL IN DAVENPORT'S FAMOUS "SPONGE CASE."

Davenport, Iowa, April 23.—Davenport's famous "sponge case," in which two leading surgeons, Dr. A. L. Hageboeck and Dr. J. T. Halleck, were sued for $50,000 on the ground that they caused the death of Johannes Arp, a wealthy farmer, by leaving a sponge inside of him after an operation for appendicitis, ended in a mistrial, the jury being discharged after being out twenty-four hours. All day they stood 11 to 1 in favor of a verdict for the plaintiff.

DR. MULLER,
Recently Elected President of Switzerland for One Year. His Salary is $25,000 for the Term.

STEAMER ARCADIA GOES DOWN IN LAKE MICHIGAN; ALL ON BOARD ARE LOST

Has Not Been Heard From Since Sailing April 12.

Large Amount of Her Wreckage Has Been Picked Up.

Fourteen Persons Were Aboard the Ill-Fated Craft.

Manistee, Mich., April 23.—The wooden lumber steamer Arcadia which left port April 12 for Two Rivers with a cargo of hardwood has undoubtedly been lost in Lake Michigan with her captain and owner, Harry May and about thirteen others. Marine men here have given her up as lost and would not be surprised to hear that her wreck was caused by a boiler explosion. Some hold the theory that she went down as the result of the big storm of April 14.

The known list of persons aboard the Arcadia was: Capt. Harry May, Mrs. Harry May, young woman cook, name unknown here; Otto Chavalia, sailor, Manistee; Harry Powers, sailor, Manistee.

There were about eight more members of the crew.

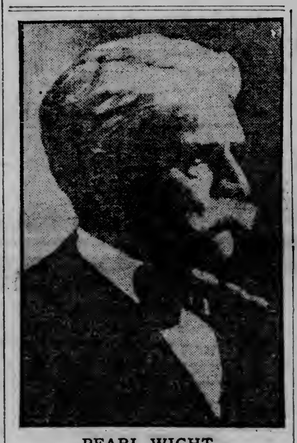
The cargo of the Arcadia was shipped by the State Lumber company of this city to the Hamilton Manufacturing company of Two Rivers. The boat has not been heard from definitely since leaving Manistee. Wreckage has been found along the beach from Pentwater, north to Little Point Sabel and part of it has been identified as the cargo of the lost craft. Portions of her cabins and bulwarks have also been found on the beach near Pentwater.

The Arcadia was a wooden steamer, 119 feet in length, 26 feet beam and 9 feet draft, registering 230 tons, and was built in Milwaukee, Wis., in 1888.

FOUR MEN AND 250 HORSES PERISH IN NEW YORK FIRE

Several Very Exciting Conflagrations Occur at the Metropolis.

New York, April 23.—Four men burned to death, 250 horses killed, twelve firemen injured, two of them seriously, two engines overturned and wrecked by collisions with street cars, several thrilling rescues from burning buildings and property loss of $200,000—that is the story of the fire department for the five hours following last midnight.



Six different fires on the upper East side in Broadway on the middle East side and a big stable fire at Christopher and Barrow streets kept the firemen constantly at work.

The dead are four Italians whose bodies, burned beyond recognition, were found in the ruins of the burned stable. The fire was in the Dispatch stables, in the block between Christopher, Barrow, West and Washington streets. Three alarms called out a great battery of fire apparatus, including two big adjoining tenements and the Palace and Knickerbocker hotels. Two hundred and fifty horses which were quartered in the building perished. The bodies of the four Italians were found in the ruins an hour after the fire had been extinguished. The money loss in the stable fire is placed at $100,000.

Another serious fire started in the Madison laundry in East Seventy-third street and swept up through the five story building, several of the upper floors of which were occupied as tenements. It was while on the way to this fire that the two fire engines were

(Continued on page 3, fifth column.)

A GRAFT COMBINE HOLDS UP RAILROAD PRESIDENT

PEARL WIGHT,
Who Will Succeed John W. Yerkes as Collector of Internal Revenue. The Latter Has Resigned From Office.

Pittsburg Man Tells How City Councilmen Worked Him.

Puts $70,000 in His Coat Pocket for the Crowd.

Chicago, April 23.—A dispatch to the Tribune from Pittsburg, Pa., says: A sensation was sprung in the councilmanic graft investigation yesterday when President C. S. Cameron of the Pittsburg & Tube City railway went on the witness stand and told in detail how he was held up for $70,000 by the graft combine which controls both branches of the city council.

Cameron was asked by Attorney John Marron, special counsel for Mayor Guthrie in prosecuting the graft cases, if he did not have in his possession a list of the grafting councilmen. He admitted he had such a list and said that he would produce it today.

President Cameron denied emphatically that he ever intended giving the councilmen one dollar. He told how he fooled them by means of checks placed in safe deposit boxes and afterwards removed.

He said Councilman Gen. William A. Martin, now under sentence of three years for soliciting bribes from Cameron, was the collector of the combine, and that finally, in desperation, the combine demanded the cash and that $70,000 disappeared from his coat pocket while in the presence of Martin.

President Cameron, through his attorneys, announced after the hearing was adjourned, that he would resist all efforts to try him on the charge of bribery, for which he has already been indicted, on the grounds that his testimony gives him immunity from prosecution.

SOME AMUSING INSTANCES TOLD

Of Armed Resistance of Honduran Revolutionists to Americans.

Puerto Cortez, April 17, via New Orleans, April 23.—An amusing instance of the armed resistance to American marines by Honduran revolutionists came to light today in the official correspondence of the American gunboat Marietta. Col. Luis Isaulwila, a revolutionist, in command of the port of Tela, Honduras, drew a revolver upon Ensign McNair of the Mariette, when the latter was sent ashore at Tela to say that American marines would protect foreign property. Col. Isaulila threatened to kill the ensign if he did not desist in his purpose of landing marines. Commander Fullam of the Marietta sent a body of marines ashore to demand an apology from Isaulila. These marines found the colonel with eight men drawn up in skirmish line and were told that Col. Isaulila demanded an apology of the Americans. When, however, the Americans advanced and said they intended to have an apology, Isaulila backed down and wrote one.

Among the acts for which an apology was asked, was the cutting down of a British flag at Salubo. Isaulila's soldiers threatened the life of William Collins, a British subject, who had raised his flag for protection.

WOULD HAVE ALL PLAYS CENSORED.

Montreal, April 23.—At the meeting of the city council, Monday afternoon, a letter was received from Archbishop Bruchesi of the Roman Catholic diocese of Montreal, suggesting that a censorship be established to examine all plays to be produced in the local theaters. Two of the local French theaters recently agreed to submit all plays to the archbishop, and he now desires that the censorship be extended to the English theaters. The council appointed a special committee to study the matter and report.

WATCHMAN INJURED IN A CHICAGO FIRE.

Chicago, April 23.—Fire early today destroyed the five-story building at 71-85 Ann street, occupied by the Bunge Pickle & Yeast company. John Evosta, a watchman, was probably fatally injured by jumping from the burning building. The watchman discovered the fire on the fourth floor, and attempted to communicate with the engineer in the basement by the factory telephone, in order that the latter might send the alarm to the fire department. While at the telephone, his means of exit was cut off, and he was compelled to jump from the window. The loss was $50,000.

DISPLAY OF WARSHIPS

At Jamestown, Greatest Ever Made by United States.

Many Modern Foreign Vessels Will Also be Present.

Norfolk, Va., April 23.—The greatest fleet of American vessels ever assembled in the historic waters of Hampton roads, 300,000 tons of floating steel, was made ready today to receive the first of the visiting foreign battleships and cruisers which are from time to time to take part in the celebrations which will mark the progress of the Jamestown ter-centennial exposition. For the opening of the exposition—Friday, April 26, the war vessels of Great BBritain, of Germany and of Austria, are expected. One of the visiting Germans—the dark hulled cruiser Bremen, commanded by Lieut. Coma. Alberts—is already in the roadstead awaiting the arrival of the Roon, a big armored cruiser typical of the modern fighting craft in Emperor William's navy. The Roon, it is expected, may arrive late this evening, when she will be officially welcomed by the boom of

(Continued on page 3, fourth column.)

BEATING THE MACHINE.

Duluth: "I wonder what I will get next time?"

WEATHER FORECAST—Partly cloudy tonight and Wednesday; cooler tonight with lowest temperatures 20 to 25 degs.

Our Windows Are Admired

Not alone for their artistic arrangement, but for the elegant merchandise they contain. The windows are the eyes of the store, the mirror, so to speak, reflecting the nature and character of the goods to be found therein. Hundreds of men are daily attracted by our clothing windows.

They contain examples of the season's choicest and smartest productions in Spring Suits, Topcoats, Trousers, and Fancy Vests.

But what you see in the windows is but the merest hint of what you may see inside. Once you begin to look through the innumerable styles and patterns, you cannot help but enthuse, and then admit that surely nowhere else are such splendid garments or such a broad variety to be seen.

Suits and Topcoats, $15.00 to $35.00
Trousers, $3 50 to $10.00
Fancy Vests, $1.50 to $8.00

ONLY SIX DAYS MORE

Y. W. C. A. Building Fund Campaign Enters on Its Last Week.

"Get Your Subscriptions in Early," is the Appeal.

"Without regard to race or color, every person in Duluth should contribute to the fund for a new home of the Young Women's Christian association of Duluth," said B. Silberstein today, in speaking of the enterprise which is being carried forward this month by the local association. "In my estimation," said Mr. Silberstein," this organization is doing the finest work of any institution in the city, without exception. Anyone in touch with the commercial life in Duluth cannot but realize the important and splendid influence which the Y. W. C. A. exerts, and the contributions from those of small estate and from those who are able to give bountifully should flow in. There can be no doubt or question about the value of the work and its worthiness, and it only remains now for everyone to do his share."

"Get in your subscription now," is the slogan of the energetically working committees in this last week of the campaign and an earnest message is sent broadcast that anyone who has not yet been seen nor spoken to, if there be any such, send his name at once to headquarters. Those at the head of the campaign are anxious that the pledge cards which are out be filled in and mailed or sent to the rooms at once, as that is the only way in which those who have responded can be known.

There remain six more days of active campaigning for the workers to reach the $130,000 set as the amount needed for the work of the association and the members of all the active committees are busily and earnestly at work and there will hardly be a man, woman or child in Duluth but will know of the enterprise and what is to be accomplished by the arrival of May day.

The latest report of the committees is as follows:

Red—Charlotte Robinson	$889.13
Blue—Carrie Russell	1,465.66
Yellow—Alice Drew	1,447.91
Green—Augusta Ehling	395.70
Pink—Elsie Look	1,169.41
Lavender—L. L. Garvin	1,386.00
Women's committees	7,690.00
Men's committees	56,005.00
Total	$70,539.71

There is much interest in the Y. W. C. A. Bazaar which will be held tomorrow evening at the Gidding store and for which many and elaborate preparations have been made. The many departments of the store will be given up to the women of the association, assisted by the saleswomen of the store, and articles, fancy and plain, and dainty cookery and other things, which have been submitted will be placed on sale. A large list of patronesses, including many of the society women of the city, will insure the success of the affair. A musical program has been arranged and will be presented during the evening. It is as follows:

Piano Solo—"Witche's Dance" ..... MacDowell
Josephine Sanders.
Vocal Solo—(Selected) .....
John Crudinsky.
"Love's Springtime" ..... Hammond
Miss Dora Swan.
Reading—"The Volunteer Organist" ...
Miss Eva Casmir.
The Two Grenadiers ..... Schumann
Walter Smith.
Duet ..... Von Weber
Josephine Sanders, Miss Edna Harris.
Vocal Solo—"Bedowin Love Song" .....
Charles Applehagen.
Soprano Solo (Selected) .....
Miss Jane Everington.

It is expected that a large sum will be realized for the building fund.

For the benefit of the building fund the management of the Central Business college has decided to hold a box social next Tuesday evening, April 30. The receipts of the social will be turned over to the Y. W. C. A. Announcements of the affair are being sent all over the city and a big crowd is anticipated. The social will be held at the college auditorium, 30 East Superior street.

The Highest Tower in U. S.

The Metropolitan tower now being built in New York city will be the highest structure in this country and only exceeded by one other in the entire world, the Eiffel Tower in Paris. In building this new tower 8,500 tons of steel will be used, this amount being necessary for proper wind bracing. When the system is run down and in a weakened condition you require a medicine that is capable of building up and renewing the entire system. In Hostetter's Stomach Bitters you will positively find such a medicine, and when you remember that it is backed by a 53 years' record of cures you ought not hesitate another minute in trying a bottle. It cures poor appetite, belching, costiveness, heartburn, biliousness, indigestion, dyspepsia, kidney troubles, female ills or malaria, fever and ague. It is strictly pure.

BUSINESS IS FINISHED

Visitors Spend a Quiet Day After Breakfast in Their Honor.

Following the breakfast tendered in their honor at the Northland Country club this morning by G. G. Hartley, the visiting steel men spent a rather quiet day.

The committee broke up and scattered about the city, the members finishing up any business they had to do, and spending their time consulting with the local officers of the Steel corporation, or visiting friends in the city.

They did not take any further action as a body, and their car was to have been attached to the afternoon Omaha train for Chicago.

The announcement of the selection of a site will doubtless come from the East after the committee has presented its report. There is little doubt in the minds of Duluth people that the site selected will be some place between the blast furnace and New Duluth, but the exact location will not be known until the report of the committee has been received and acted upon.

DEADLOCKS UNBROKEN

Madison, Wis., April 23.—The fourth joint ballot for United States senator to succeed John C. Spooner, resigned, resulted in no material change from the former ballots, and no choice. The vote:

Republicans—Stephenson, 29; Esch, 20; Lenroot, 17; Cooper, 18; Hatten, 16; Baensch, 5; Winkler, 3; Hudnall, 1; Owen, 1; Bird (Democrat), 18; Haselwood (Democrat), 1; Rummel (Social Democrat), 5; Thompson (Social Democrat), 1.

There were eight absentees.

Providence, R. I., April 23.—The five ballots of the legislature today for United States senator, like the fifty-six preceding ones, resulted in no choice. One man changed from Wetmore to Colt.

Three Hundred High Class Tailor-Made Suits Are Now On Sale at Decided Price Reductions

Instead of waiting until the end of the season, we've taken every odd suit from the past two months' spring selling—which for one reason or another will not be re-ordered—and have blue penciled them for a ready cleanup.

They are grouped together into four distinct lots so that they may be more readily handled—the range of sizes run from 32 bust that will fit small women, up to size 46 bust that will fit very large ones.

All of them taken from our regular lines—all with that dash and "smartness" so characteristic of Gidding garments!

The Styles are many and varied—including Etons, Pony Etons and Tuxedo Etons Prince Chaps, Tight-fitting hip lengths, Tight-fitting Cutaway styles and various other new and fashionable models.

The Materials are imported check and stripe worsteds—plain and fancy mannish grey worsteds—plain and novelty Panamas, plain and novelty worsteds, broadcloths and voiles.

The Values are unquestionably the best offered by a Duluth house at this season of the year and afford one a splendid opportunity of getting a high-class Gidding garment at comparatively small cost!

The Suits are all displayed on special racks—the original selling tickets and mark on them—the special price in blue pencil on the reverse side.

Indications today point to rapid selling—so do not put off the coming if you expect to get any of the plums!

60 SUITS—Formerly $29.50 to $32.50, **$18.50**

80 SUITS—Formerly $42.50 to $49.50, **$32.50**

72 SUITS—Formerly $35.00 to $39.50, **$25.00**

52 SUITS—Formerly $52.50 to $59.50, **$39.50**

The balance of the lot that go to make up the total of over three hundred consist of ones and twos, of the very highest type of suits, ranging in price from $62.50 to $97.50 and will be on sale at the same proportionate reductions. Alterations on these sale suits will be charged for at cost—none will be sent out on approval under any circumstances.

Giddings
Corner First Ave. W. and Superior St.

Regular charge accounts can have present purchases charged on their May accounts for which bill will be rendered June 1st. None of these garments will be sold before 9 a. m. tomorrow morning and we reserve the privilege of withdrawing the sale at any time.

NOTICE!

Freight Handlers' Union Local No. 64, meets tomorrow night in Kalamazoo hall, 8 o'clock, for the election of officers. All are requested to attend. By order JOHN MAXWELL, Sec.

EXISTENCE OF COMBINES

St. Paul, April 23.—(Special to The Herald.)—The joint legislative committee appointed to investigate the alleged combine in coal and lumber, reported to the legislature, this afternoon, that while in the time at its disposal it was impossible to get satisfactory evidence, it is the unanimous opinion that combines in these two branches of trade do not exist.

The committee says, in its report, that it is satisfied that both wholesale and retail dealers in coal are combined to keep up the prices to the consumer, and recommends that its evidence be turned over to the attorney general for such action as he may care to take in the matter.

MISS LINDBERG

Announces to her patrons that she will keep her lunch room, 20 West Superior street, upstairs, open Wednesday evening, during the Y. W. C. A. bazaar at the Gidding store.

G. N. TRAIN WRECKED

Minot, N. D., April 23.—(Special to The Herald.)—Twelve persons were seriously injured and a dozen or more were more or less badly hurt in the wreck of Great Northern passenger train No. 4, one mile east of Blaisdell, last night. It is feared that one or two of the injured may die.

The wreck was caused by a broken rail. The engine did not go off the track, but the baggage, express and mail cars, smoker, day coach and tourist sleeper were hurled into the ditch, where they lay on their sides.

The passengers say that the train was an hour late and was making up time. Most of those who were hurt were in the smoker, which seemed to have received the full force of the impact. A relief train was sent out last night, which arrived at the scene of the wreck about 3 o'clock this morning, and the injured were brought to Minot on a special train which arrived at 9:15 this morning.

The following are among those injured: George Hersin, Glasgow, Mont., leg broken; Tony Sesco, Chicago, both legs bruised and head injured; Ole C. Nelson, Park River, N. J., knee sprained; Arne Weberg, Adams, N. D., ear nearly cut off; Alex Evars, Hill Yard, Wash., left ear bruised; E. W. Crowell, Minneapolis, injured internally; James Burke, Sleepy Eye, Minn., slightly injured; Paul Harding, Minneapolis, back injured; John Nelson, Culbertson, Mont., foot crushed; Mike Faye, Wolford, N. D., face bruised; P. J. Engeseth, arm sprained and bruised; —— Blestervold, Sioux Falls, S. D., foot crushed.

KIRK'S JAP ROSE soap is twice the size and less than half the cost of any brand of really good transparent soap. Druggists and grocers.

ERUPTIONS CONTINUE.

Santiago, Chile, April 23.—Severe volcanic eruptions continue in the southern part of Chile. The town of Valdavia is covered with ashes and overhung with clouds.

Local Breveties.

"Fitwell clothes are equal to the best custom made at one-half price.

OLD CLERGYMAN DIES.

New York, April 23.—The Rev. Dr. William W. Lord, one of the oldest clergymen of the Protestant Episcopal church in this country, and the minister and friend of Jefferson Davis, died here yesterday, aged 88. At the outbreak of the Civil war he became a Confederate chaplain.

MOTHER OF THAW TELLS THE STORY OF SUICIDE

(Continued from page 1.)

ception one day, and not finding her in the library, sent a maid to her room, who reported that the door of the bathroom was locked, and she could get no answer. This alarmed us, and I ordered the gardener to enter by a window, when the startling discovery was made that the poor woman had ended her life in the manner described in the highly colored account given in one Pittsburg and some of the Eastern newspapers. The family physician was immediately sent for. The husband was telegraphed to. The pastor of the Third Presbyterian church and his wife came also, and he very kindly offered to accompany the remains to Kentucky and conduct the funeral services. The doctor, on his arrival, said that it would be necessary to have the coroner. The coroner was sent for, and all the usual formalities attended to. Stripped of all useless verbiage, these are the facts in the case."

PRESENT CONDITIONS IN CHINA

(Continued from page 1.)

for the Conservatives to intrigue successfully against such men as Yuan Shih Kai and his protege, Tang Shao Yi. Tang Shao Yi had been made senior vice president of the new board of communications and secured some of the most important posts for his friends who have a foreign education. One of these is young S. Alfred Sze, who is a graduate of Cornell and an accomplished man. Unfortunately, Sze is related by marriage to Tang, and technically it was improper to appoint him. This gave the Conservatives the chance they sought. They impeached Tang, saying that the board of communications was nothing but a Canton clubhouse and was filled with Tang's relatives and friends, though Sze seems to have been the only man related to him. Two severe edicts were issued, reproving Tang, and one of them removed Sze and another under secretary from office as incapable.

"It looks as though the government was doing everything to alienate the young men educated abroad, and thus to play right into the hands of the Revolutionists.

"The floods in Hunan, Kiangsi and Kiangsu last summer and the resulting famine have greatly strengthened the revolutionary party. Many men have been driven into brigandage. In Kiangsi the revolutionary bands received so many recruits that they were able to inaugurate the rebellion some weeks ago. It is reported suppressed by the authorities but the real situation is unknown. Large quantities of arms and ammunition were smuggled into the country from Japan, and the rebels have been operating in a mountainous region where it is easy to elude pursuit, and just as easy to cut off small bands of troops. Many of the imperial soldiers are said to be surrendering without much resistance and thus turning over their arms to the rebels. It is said in Pekin that 70 per cent or more of the troops in the Yangtse region are disaffected.

"Discouraging facts have come to light in connection with the Northern army, which was supposed to be thoroughly loyal. Now, that Yuan no longer commands, there is want of promptness in paying the men's wages and corresponding discontent.

"There is another feature of the present revolutionary movement that distinguishes it from other rebellion conspiracies in the past and that is the high character of many of those engaged in it.

"The result of the suspicion and fear which prevail is a general feeling of unrest, and a slackening of the wheels of progress. The reforms instituted on paper have never really gone much beyond this initial stage except in the matter of education and the army. But even in these departments there is being felt now the lack of properly qualified men to carry out the program."

"There is no doubt a real desire on the part of some of the promoters of the anti-opium crusade to have the opium smoking habit eradicated, but the method employed, that of increased taxation does not seem likely to accomplish much, as it has led to a great increase of revenue, and the government is in such sore need of funds that it is doubtful if the reduction in cultivation of the poppy will be seriously carried out.

"The financial condition of the government does not seem to be an enviable one. The provincial governments are hard pressed by the demands for the indemnity and the many reforms inaugurated, and by a loss of a part of their opium revenue which now goes to the imperial treasury."

SPEAKS ON LA SALLE.

Charles W. Seymour Gives Interesting Talk to Students.

La Salle was the subject on which Charles W. Seymour lectured at the high school last night, and in opening he announced that his story would be about "this new world at the time when it was a wilderness, roamed by untamed beasts and savage men."

Mr. Seymour told of La Salle's early explorations and discoveries along the Mississippi river and described in an entertaining way the journey of the great explorer down the Great Lakes in his small boat. He portrayed in vivid language the many wonderful scenes which greeted the eyes of the astonished explorer and his men as they traveled over this land on which the foot of the white man had never before trod and told of their wonder when they saw the great herds of buffalo that dotted the boundless prairies.

More Staple Than Any "Staple"

All staples in our markets are unstaple in value as compared with a policy in the Mutual Life Insurance Company. Cotton, wool, wheat, steel go up and down through the years, while such a policy steadily gains in value. Stocks, bonds, securities rise and fall, but such a policy never depreciates—it is always worth more as time goes by. A policy, therefore, in

The Mutual Life Insurance Company

should be prized, not alone for its present, but also for its improving value. It stands for security and solidity; for the satisfaction of the policy holder and the comfort and care of his beneficianes. Such a policy, in time, becomes beyond price. The man of responsibility, the man of prudence, who lacks such a policy should get started with the Mutual Life Insurance Company.

The Time to Act is NOW.

For the new forms of policies consult our nearest agent, or write direct to

The Mutual Life Insurance Company of New York, N. Y.

WEST END

GETS A DOG BY EXPRESS

R. M. Stitt Receives a Gift From Unknown Friend.

Other News From the West End of the City.

Although reasonably well supplied with dogs before, R. M. Stitt, proprietor of the Esmond, has a new one.

It was sent to him by express, but who the sender was, he has not the slightest idea. He was considerably surprised when an express wagon backed up to his door yesterday and the driver began to unload a huge package that barked loudly.

Mr. Stitt was sitting in the office at the time. The unloading of the barking crate was interesting and there was considerable speculation as to whom the dog was intended for. As there are many guests at the Esmond who might, for one reason or another, want to possess such a treasure, Mr. Stitt suspected himself the least.

However, he was to receive a surprise—as well as a dog.

The driver deposited the noisy crate on the sidewalk and entered the hotel office. He shifted his cud of "First-Aid-to-the-Navy" to an unused portion of his mouth, and then spake as follows:

"Say, here's a dog fer Mr. Stitt. Where'd yuh want him put?"

It was then that Mr. Stitt ceased speculation and experienced realization. He took his feet down from the elevated position they had been enjoying and opined that while he wasn't keen about having another dog around, if it must come, it should be delivered in the rear, along with all of the packages except those carried by the guests, personally.

An investigation followed but it furnished no light on the former ownership of the dog. It was shipped from the Twin Cities. Mr. Stitt left for these towns on business in the afternoon, so perhaps he will find out while gone, who made him the present.

They say it is a perfectly good dog. Some persons have been telling around that it is a Great Dane, but the clerk at the Esmond says he guesses it is a St. Bernard.

A THIEF IN THE NIGHT

Entered O. B. Johnson's Hardware Store and Took Things.

Some amateur cracksman entered O. B. Johnson's hardware store the other night and took a little stock. When the establishment was opened for business next morning, evidences of the burglar's visit were everywhere.

Show cases were open, knives and other articles were on the floor, as if dropped by the thief in his flight. The goods taken do not aggregate a great loss for the firm.

The robbery is thought to have been the work of some inexperienced hand.

HUNT TO GIVE A TALK

At the Swedish Mission Church in the West End.

C. N. Hunt, the well known evangelist who has been at the head of the evangelistic campaign waged in Superior during the past two weeeks, will speak at the Swedish Mission church in the West end Friday evening.

He will come over from Superior and will speak for one night only, so it is expected that he will be greeted by the largest audience the spacious Swedish Mission house of worship has ever held. He is said to be a very forceful and interesting speaker.

His son, who is a member of the University Glee club of Minneapolis, will be present and contribute several vocal numbers. There will be other music. Rev. F. O. Kling, pastor o fthe church, will preside at the meeting.

West End Shortrails.

The Ladies' Aid society of the Swedish Mission church will be entertained this week by Mrs. L. M. Johnson of 2101 West Fourth street.

Miss Edith Leonard of Twenty-fifth avenue west and Second street, has gone to Fond du Lac, Wis., for a visit.

The Ladies' Aid society of the First Swedish Baptist church will give a sale Thursday evening at the church.

Rev. A. Edstam, pastor of the First Swedish Baptist church, conducted services in Two Harbors Sunday. In his church services were conducted in the morning by John Hurtig and in the evening by A. Thoren.

The Sunday school teachers of the First Swedish Baptist church will be entertained this week at the home of A. Thoren, 226 Twentieth avenue west.

George Jewell of the United States block is confined to his apartments by illness.

Why go uptown. Hats and prices can't be beat. Bring your old hats. We'll make them new. Pearson's, 1814 Piedmont avenue west.

Mrs. John Nord of 2122 West Third street is seriously ill.

David Lewis, the West end blacksmith who was so severely injured in a runaway accident in the West end more than a month ago that he remained unconscious most of the time for weeks, is able to be around again. His friends are very glad to see him so well on the road to recovery. His skull was injured and even now he is subject to spells of severe dizziness However, his complete recovery is looked for.

The Parthinoe society of the Swedish Mission church will hold an auction sale in the church parlors Wednesday evening.

The new Swedish Mission church in Virginia will be dedicated Sunday when the principal sermon in the morning will be delivered by Rev. F. O. Kling, pastor of the Swedish Mission church in the West end. The pastor of the church, Rev. J. O. Ahleen and C. V. Bowman of Minneapolis, secretary of the Mission society of the Swedish Mission church, will also take part in the exercises.

"For weak lungs or lingering cough nothing equals the Norwegian Cod Liver oil sold at the Lion Drug store."

Rev. F. O. Kling, pastor of the Swedish Mission church, leaves in a few weeks for Europe. He will be gone several months, which will be spent in Sweden, England and on the continent.

Mrs. E. F. Guild and son of Boston are guests at the Esmond.

Mrs. Gust Johnson of 2112 West Second street, was hostess at a charming luncheon at her home, yesterday afternoon.

Mrs. E. F. Wiberg of 821 North Twenty-first avenue west, was surprised at her home yesterday by a number of her friends. She is about to leave for an extended tour of Europe and yesterday's function was in the nature of a farewell for her. She was presented with a handsome bracelet.

J. J. Howe of Brainerd spent the week-end at the Esmond.

Mrs. R. M. Stitt has gone to Brainerd for a visit.

Charles Mayer of Stanley, Wis., is registered at the Esmond.

A. G. Carlson, who has been staying at the Esmond, has gone to Minneapolis.

S. B. Power and wife of Proctor, spent yesterday in the West end.

Your prescriptions will be properly filled at the Lion Drug store.

All Humors

Pimples, boils, eruptions, eczema or salt rheum, scrofula, are radically and permanently cured by

Hood's Sarsaparilla

Liquid or tablets, 100 Doses One Dollar.

MUNICIPAL OWNERSHIP BILL

(Continued from page 1.)

added a total of $39,600 to its appropriations, including $10,000 for a memorial on the battleship Minnesota. This was put on by motion of C. B. Miller of Duluth, and at the request of Governor Johnson, as the committee had omitted it.

• • •

The house this morning passed Lennon's hotel bill, providing regulations for safety of guests, and for inspection annually by the labor bureau. Representative Adams wanted to amend it to apply only to cities over 50,000, but this amendment was lost.

• • •

The range members of the legislature have succeeded in passing the bill giving them terms of court in cities and villages of more than 6,000, located more than fifty miles from the county seat. The district judges are permitted to hold one or more terms a year for the trial of court cases. No jury cases are to be tried. Representative Saari introduced the house bill, and Senator Vail the senate bill.

• • •

The house committee appointed to investigate the state university's books reported today that it found that several professors are drawing two salaries, and recommends that this practice be discontinued. The accounts of the agricultural school were found to be in such a state that the expert could not figure them out, and the committee recommends a new system of bookkeeping.

• • •

The house concurred to the senate amendment to Speaker Johnson's bill, providing a 4 per cent tax on gross earnings of sleeping car companies. The senate amendment gave the companies the option of accepting the gross earnings tax or an ad valorem tax.

• • •

The senate passed the bill giving the state university $700,00 in the next four years. Senator Schaller withdrew his amendment providing for a women's dormitory because he understood that a Minneapolis man has agreed to build one.

• • •

The senate also passed the house bill converting back into the treasury $34,000 of the $50,000 appropriated to help the attorney general fight railroads.

• • •

The senate passed Saari's house bill, allowing time deposits of county funds, Austin's bill relating to the publication of notices of applications for liquor licenses, Sawyer's bill allowing school districts to invest sinking funds in public bonds, and Knox's bill, giving the railroad commission jurisdiction over track scales used by railroads for weighing carload freight.

No reports had been received up to noon from the conference committees on anti-pass and tax commission, though it was stated that both would agree.

STILLMAN H. BINGHAM.

DISPLAY OF WARSHIPS

(Continued from page 1.)

cannon from the Connecticut, the flagship of Real Admiral Robley D. Evans, commanding the Atlantic fleet.

All the American vessels now at anchor belong to the Atlantic fleet. There are probably twenty-five battleships and cruisers in the far-flung line which is headed by the Connecticut just off the government pier at Fortress Monroe and which trails away almost to the vanishing point up the broad channel-way leading to Norfolk.

The fleet has been arranged so as to give the visitors to the exposition the best possible opportunity for viewing the fighting strength of the American navy. The glistening white hulls, spotless in their new coats of paint and the buff superstructure of the two and three piped line of battleships and armored protected cruisers, form a marine panorama, viewed from the water esplanade of the exposition grounds such as has seldom if ever before been presented to the American public. The vessels are anchored several thousand yards off the exposition shore and being arranged in huge semi-circle are visible from every part of the grounds. Practically every type of fighting craft in the American navy is represented in the positions. Battleships range from the 19,000 ton monsters of the Connecticut and Louisiana class, the forerunners of the Dreadnaughts about to be added to the navy, down to the all but abandoned Old Texas, the oldest American battleship and sister of the Maine which was wrecked in Havana harbor. The Texas was built at the Norfolk navy yard many years ago and, being a local product, is to remain at the exposition as a permanent feature of the naval exhibit. With her eight guns and paltry 6,315 tons of weight, the Texas, when ranged alongside the mammoth Connecticut, which mounts twenty-four guns and displaces 19,000 tons of water, offers a striking example of the progress of the American navy since the days of 1886, when the Texas and the first Maine were authorized by congress.

The cruisers of the fleet are all modern craft, though the variance in size between the largest and the smallest is as great as that which marks the heavier vessels of the battle class. The armored cruisers Tennessee and Washington, each of 14,500 tons and mounting twenty guns apiece, are the heaviest of the cruisers. They can hurl a weight of metal almost equal to the first class battleships while at the same time they possess the fleetness of the ocean greyhound—the massive, throbbing engines in their holds being capable of the development of 20,000 horsepower. The smallest cruisers are the Denver and the Cleveland—3,100 tons each—the third class of the protected vessels of the navy. In the cruiser class the most interesting vessel is perhaps the Brooklyn, the flagship of Rear Admiral Schley in the battles with Cererva's squadron off Santiago, Cuba. The Brooklyn, bearing on her after turret, the memorial plate simply and eloquently inscribed "July 3, 1898," will also remain a permanent naval exhibit during the seven months of the life of the exposition.

The English squadron, under command of Rear Admiral Neville, is expected in Hampton Roads either tomorrow or Thursday. There will be four armored cruisers in the squadron, a homegeneous set of gray-coated fighters built along the fleet lines of all the modern vessels. The flagship will be the Good Hope and the companion ships will be the Argyll, Hampshire and Roxburgh.

The Austrian vessels, the armored cruiser Sankt George and the protected cruiser Aspern, will arrive either late Thursday evening or early Friday morning. It is hoped they will be here in time for the opening ceremonies. The vessels of the other navies of the world will arrive on dates yet to be fixed. The Japanese squadron is expected May 8.

President Roosevelt will review the gathered American fleet and the visiting foreigners from the bridge of the Mayflower on Friday morning before he lands on the exposition grounds. The foreign vessels will be given positions of honor inside the long sweeping circle of American ships during their stay in the roads. Bluejackets will be landed from the American vessels to take part in the military and naval parade Friday afternoon which will be reviewed by the president from the grand stand erected on the exposition's plaza known as Lewis's parade. The foreign vessels in port at that time will be invited to land parties and if they consent to do so their forces will be given the right of line.

FOUR MEN AND 250 HORSES PERISH IN NEW YORK FIRE

(Continued from page 1.)

wrecked. The drivers of both engines were injured, but it is not believed that either of them was fatally hurt. The firemen had a hard fight before the laundry and tenement house fire was subdued because of the lack of water pressure. The families in the upper part of the building were cut off from escape by the stairways, but were rescued by firemen. The fire caused a loss of $20,000.

It was in a high building in Wooster street that most of the firemen were injured. Fire had been discovered on the top floor and the firemen had dragged their hose up the stairs to fight a stubborn blaze in the factory of the Railroad Manufacturing company. The full company had reached the scene when came the back draught and the flames and choking smoke swept over them. A dozen of the men were blown down a flight of stairs. Several of them were severely burned and bruised.

The other fires were in widely separated sections of the city.

GEN. M'ARTHUR TO GREET GEN. KUROKI.

San Francisco, April 23.—Gen. McArthur, accompanied by Lieut.-Col. Frank Winn, Maj. William M. Harts and Col. John L. Chamberlain, will leave this city, next Thursday, for Seattle, to meet Gen. Kuroki, who will arrive there on May 1. Gen. McArthur and his staff will escort the distinguished Japanese warrior to the Jamestown exposition.

Silberstein & Bondy Company

Exclusive Silks—

Keen judgment always votes for the "Best." It is common sense, and it pays well in the end. New comers are: All Silk Chiffon Voile, in black and white. For Party Dresses, 45-in.—per yard, **$1.75.**

Shadow Plaids for Waists and Suits. Combinations of brown, black and white; blue, black and white, 21-in.—per yard, **$1.25.**

Trustworthy Dress Stuffs—

Ask your Dressmaker. Chances are she will tell you to go to Silberstein's—a case of professional price with her—fashioning the best, and wearing the best gives all round satisfaction. Such as "Lupin's Voiles." Here in every leading shade, including black, and cream; plain, and fancy weaves, shadow checks, and plaids. Particular attention is directed to the plain silk and wool Marquisette—the aristocrat of the dress goods family for spring, **$1.00 to $2.50.**

"Lyonaise Batiste" in all shades, including cream; ideal for confirmation, and graduating dresses—41-in.—per yard, **69c.**

American Lady Corsets—

The Demonstration is a leading event in store news today. Corsets scientifically fitted by Madame Rosenthal—the skillful corsetiere of American Lady Corsets.

Her instructions and advice are entirely at your disposal.

A complete line of American Lady Corsets in all the new models, **$1.00 to $5.00.**

Women have decided that in case they cannot vote, they will cut out the "Stork" proposition. Perfectly proper. Take Hollister's Rocky Mountain Tea, it is good for most everything. 35 cents. Tea or Tablets. Ask your druggist.

MUSIC AND THE DRAMA

TONIGHT'S ATTRACTIONS.

LYCEUM—Paul Gilmore in "At Yale."
METROPOLITAN—Burlesque.
BIJOU—Vaudeville.

GOOD BILL AT BIJOU.

Clever Caricatures Are Features of the Program.

An entertainment which, to say the least, is fully up to the average of those presented at the Bijou is the card for this week at Duluth's vaudeville theater and the house was packed for both performances last evening. Harry Braham, touted by the advance men as "The Man With a Hundred Faces" does some very clever work in face caricature, Emperor Wilhelm and the strenuous Teddy being the most appreciated of his numbers. This feature of vaudeville work is rather well attended to on the program this week as "The Great Fulgora," a slim little man with a tremendous capacity for producing clothes and costumes from unheard of places about his person, did some very able work along this line. Grant, Lincoln, and several characters being much appreciated by the house. The little costume artist also has no little ability as an elocutionist and his delivery of Robert Emmet's last speech was fully up to the requirements of the oration.

"The Stolen Kid" in which Gavin, Platt and Peaches were featured, is a breezy little farce of somewhat more intricate and complete a nature than those which usually appear in vaudeville, and was warmly applauded while "Maud Isabel Entwistle and company" in another one act burlesque were equally good. Reeves and Kenny do some acceptable dance work.

Miss Lorrens Marchel was recalled for one encore and an attempt was made to solicit a third appearance after she had exhibited a soprano voice of high quality.

WEARS SWAGGER CLOTHES.

Paul Gilmore, who will be seen at the Lyceum tonight, in the new college play "At Yale," under the management of Jules Murry, is one of the best dressers on the American stage. This, his new play, offers him every opportunity to wear the most modish of garments, and he has taken every advantage of the opportunity. Mr. Gilmore's first costume is a suit of dark Yale blue cheviot. The next is an effective outing suit of white cheviot, and a third is of fawn color. The new coats have lap cuffs on the sleeves fastened with one small button. These take the place of the former cut cuffs with three buttons. The pockets of one suit are cut on the bias—called the "cross pocket." Another has large patch pockets. The lapels are made to roll instead of being pressed flat. A new evening coat has a velvet collar and velvet cuffs. The cuffs have three buttons. On the coat with velvet cuffs and collar the tails are cut square—on all others (evening coats) the tails are cut pointed as before.

COMING ATTRACTIONS.

"The Eye Witness," the latest melodrama by Lincoln J. Carter, will be seen at the Lyceum Thursday, and Friday and Saturday "Mrs. Warren's Profession," with Rose Coghlan will be the attraction.

DRAWING GOOD HOUSES.

Large houses have been greeting the Imperial Burlesquers since their opening performance of their engagement at the Metropolitan, showing that they have found great favor with the patrons of that popular home of burlesque and vaudeville. There is a matinee there this afternoon and there will be one for ladies Thursday afternoon.

BIG SAWMILL BURNS AT PORT BLAKELY, WASH.

Seattle, Wash., April 23.—Fire, which started last night in the planer room of the Port Blakely company's mill, at Port Blakely, destroyed the entire plant, the largest lumbering establishment on the coast, and one of the largest in the world, entailing a loss of between $300,000 and $500,000. The management of the mill announces they will rebuild at once.

The fire originated in a hot box, and when discovered was beyond control. The 300 employes were compelled to flee for their lives.

Think what good baking powder means in cooking. Then profit by the reputation of Hunt's Perfect—made in Minneapolis.

COOK'S DELICATESSEN STORE QUITTING BUSINESS

We have been unable to make a paying venture out of the liquor and delicatessen business. They don't seem to work well together, so we have decided to close out everything and quit. Here's the chance of your lifetime to supply yourself with

HIGH-GRADE DELICACIES AT ACTUAL WHOLESALE PRICES

CASTORIA

THE CENTAUR COMPANY, NEW YORK CITY.

TEACHERS' PENSIONS.

(Continued from page 1.)

the payment of dues by teachers who join the associations.

The pension is limited to $40 a month, and to get it teachers must have been in the business for twenty-five years, not less than fifteen years of which must have been in the city in which they seek retirement. Arrangements may also be made for teachers that become permanently incapacitated through physical or mental disability, after they have served the city for not less than ten years.

No teacher is to be allowed to receive the benefits of the pension fund unless he or she shall become a member and pay such initiation fees and annual dues as may be prescribed by the association in its articles of incorporation or by-laws.

The governing board is to consist of the board of education, the superintendent of schools and the city treasurer, with eight teachers who are members of the association, the latter to be elected by the teachers themselves.

• • •

To Examine Accounts.

Examination of the accounts of cities, villages, townships and school districts is provided for in a bill by Senator Gunn, which was substituted in the house yesterday afternoon for a bill by Representative Case of Cloquet, and passed. On application by the county board, the state public examiner is required to make the examination and report the results. There is at present absolutely no outside check upon the affairs of such bodies, and the need of some such arrangement has long been felt.

St. Louis county has been provided with a county public examiner to do this work by a bill passed this winter.

• • •

Representative Peterson made another attempt yesterday afternoon to secure action upon his bill licensing chiropractors, but failed, and the bill is not likely to get through. A committee had been formed to pick out local bills, which were to be made a special order, and Mr. Peterson got this bill on the list.

Representative J. A. Gates, who is a physician, objected, on the ground that the chiropractic bill was not a local measure, and moved that it be excepted from the list. Representative Peterson moved to lay the motion on the table, but when informed that this would have the effect of laying the bill on the table also, he quickly withdrew his motion.

• • •

Fishing in Lake Superior.

Representative Miller yesterday afternoon secured the passage by the house of his bill, allowing fishermen to take herring out of Lake Superior every month of the year, with the further provision that no nets shall be set closer to the shore than half a mile. This amendment was the work of the game and fish commission, which wished to prevent the possibility of taking young whitefish that sometimes frequent the shallow water near the shore.

• • •

The bill by the St. Louis county delegation, authorizing the construction of a foot and wagon bridge over the St. Louis river between Duluth and Superior, was passed by the house yesterday afternoon.

• • •

The omnibus road and bridge bill, distributing $400,000 in road and bridge money over the state to be used in the next two years, passed both houses yesterday afternoon.

When the bill was put in the house Representative Miller complained that Lake county, with only $500 a year, and Cook county with only $500 a year, had not had their share. He wanted to take $300 a year from St. Louis county's share of the $4,300 and divide it between these two counties, but it was discovered that to make the amendment would practically require a redrafting of the entire bill, and as the time was short, the attempt to help out the north shore counties further had to be abandoned.

• • •

The house yesterday afternoon passed the Higgins bill requiring that clergymen, before performing marriages, must have certificates showing that they are regularly ordained ministers.

• • •

The senate conference committee on the anti-pass bill was appointed by Lieut. Governor Eberhart yesterday afternoon, and it consists of Senators Sullivan, Peterson, Clague, Gunderson, Wilson and Hall.

• • •

The senate had another fight yesterday afternoon over the question of whether residents of the state are to be required to take out licenses to hunt. As a compromise, it was finally agreed that all citizens over 21 years of age must pay $1 apiece to hunt, while boys can hunt in their own counties free.

• • •

Value of Railroads.

The Sundberg committee, which with James Manahan as its attorney has put in much of the session looking into the value of railroad property in this state, made its report yesterday afternoon, and it finds that while the railroads' property is capitalized at $400,000,000 or about $50,000 a mile, it is really worth only $215,000,000 or about $27,000 a mile. The net earnings last year were $5,000 a mile, or 18 per cent on the valuation fixed by the committee.

The committee consisted of Senators Sundberg, Cashman, Sageng, Cancstrop and Nelson, who are about as radical as any members of the upper branch of the legislature. The committee held many meetings and worked hard and many of the most prominent railroad men of the state, including Presidents Hill and Stickney of the Great Northern and Great Western roads, appeared before it.

Its report recommend that a committee or commission of three should be empowered to investigate generally the capitalization of the railroads of Minnesota, and the relation the stocks and bonds bear to the actual value of the roads, and to suggest such legislation as the conditions disclosed demand.

The Great Western road comes in for particular attention, and the committee reports that this road "was built by A. B. Stickney, who raised the funds by acquiring, reorganizing and Harrimanizing divers and sundry corporations of Minnesota, Iowa and Illinois." The capital stock and funded debt of the road amount to $143,668 per mile, and the committee figured it worth $28,000 a mile.

The stock of the Minneapolis & St. Louis road is declared to be practically all water. The stock, which cost nothing, was taken up by sale of bonds, which not only paid for road equipment but for retirement of $2,500,000 of capital stock. The committee places a value of $33,000 a mile on the 2,040 miles of the Great Northern in Minnesota, though James J. Hill testified that the total investment represented $43,000 a mile on the entire system. The Northern Pacific was valued at $35,000 per mile, the Rock Island at $26,000, the Soo at $24,000, the Northwestern at $22,000, and other lines at an average of $25,000.

• • •

Most of the members have suffered the common fate of having bills die on their hands, and the discovery that losers are not alone, on the theory that misery loves company, is furnishing abundant cheer at this stage of the game.

The other day Representative John Dalzell of Morton, who tried to get the house to extend the right of eminent domain to electric lines in order that rural lines may be established, and failed in the attempt, decided that after the session he would hold obsequies on the remains of the late eminent domain bill, and among those whom he chose as pallbearers were the following, each title representing pet measures that have gone by the board: "Income Tax" Bicknell; "Dog Tax" Ejorge; "Anti-Pass" Hicks; "Prohibition" Higgins; "Sunken Log" Lennon; "Gross Earnings" Miller; "Chiropractic" Peterson; "County Option" Rachie; "Dog Muzzle" Randall; "Railroad" Rockne, and "Agricultural School" Johnson, the latter being the speaker.

• • •

The Appropriation Bill.

The house took up the omnibus appropriation bill yesterday afternoon, and put in three hours on it before dinner, when a recess was taken to evening. At that time seven out of twenty-eight pages had been covered, and the net result was an increase in the amount carried by the bill, $26,500 being stricken out and $62,500 being added.

There were a number of hot fights on various items, but the real knotty ones had not been reached when the recess was taken.

Representatives Jefferson and Carlton joined in a series of amendments designed to save the state money, but they succeeded in getting none adopted.

They tried to cut the following items, and failed: Stenographer in the governor's office, $1,000 to $900; repairs of the new capitol, $2,500 to $2,000; for the Minnesota naval militia, for expenses of bringing the Gopher to Minnesota and other expenses, $8,500 to $5,000; allowance for railroad and warehouse commission in 1908, $50,000 to $25,000; same in 1909, $15,000 to $10,000; bureau of immigration, for 1908, $12,500 to $10,000; same for 1909, $17,500 to $10,000; drainage of state lands, $100,000 a year to $50,000 a year.

The only items stricken out were by motion of Representative Rockne, who cut out $1,500 for printing the school laws, and $25,000 for a light and power plant on the state fair grounds.

W. I. Nolan had the allowance for the bureau of labor raised from $7,800 to $30,800, to provide for additional work required by laws passed this winter, including a woman factory inspector.

There was a long fight over an item of $40,000 for a bridge over the glen at the soldiers' home. Representative Harrison White offered an amendment substituting a $500 appropriation for repairing the old bridge instead of an item of $40,000 for a new one, and his motion prevailed 55 for and 47 against.

• • •

Items of interest to Northern Minnesota carried by the bill are as follows:

Drainings of state swamp lands, $100,000 annually.

To pay the state's assessment for state lands drained by counties, $10,000 annually.

For advertising the sale of state lands by the state auditor, and issuing statistics, $5,000 annually.

For the newly created bureau of immigration, $12,500 in 1908 and $17,500 in 1909.

For the Duluth normal school: 1908—Current expenses, $30,000; finishing dormitory, $5,000; repairs, $1,500; library, $750; furniture, $500; additional grounds, $2,000; fire escapes, $2,000; 1909—Current expenses, $30,000; repairs, $1,500; library, $750; furniture, $500.

For the Walker sanatorium for consumptives, $50,000.

• • •

All Amendments Beaten.

At last night's session the two items that received the hardest attacks were those for the state fair and for enlarging the capitol grounds. There were five items in the section relating to the state fair, amounting in all to $149,000, and four of them were subjects of amendments, all of them being lost excepting that providing for the light and power plant, which had been stricken out in the afternoon. All of the other amendments were defeated.

A strong fight was made against the appropriation of $75,000 for each of the next two years for enlarging and making symmetrical the capitol grounds, but the motion to strike it out of the bill failed, 37 for and 66 against. Representative Spooner offered an amendment, which was adopted, providing that the board of capitol grounds and commissioners, already provided for in a separate bill, shall not be permitted to make any expenditures or incur any indebtedness in excess of the amount of the appropriation. This was because of the fear that this appropriation was merely an entering wedge, and that the commission might bind the state to spend a lot more money on grounds later.

The university sustained a slight attack, but came out of it without loss. Representative Winzer wanted to cut the appropriation for current expenses from $165,000 to $100,000, but it was explained that this large item was made necessary by the fact that many of the best men at the university will have to leave if salaries are not raised.

There was a provision for a dairy barn at the state agricultural school, to cost $15,000, and Representative Jefferson made an ineffectual attempt to cut this down to $10,000.

Representative Mork attempted to strike out the appropriation of $50,000 for a dormitory and dining hall at the Crookston agricultural school, but he also failed.

The appropriation for $3,000 for buildings at the Grand Rapids experimental station, and $5,000 a year for current expenses, was left unmolested.

The appropriations committee had given $700 for Peter Sederlander, who lost a foot in a capitol elevator while working for the state, and the house raised this to $2,000, besides paying his hospital and surgical expenses.

The allowance of $2,500 for L. C. Thompson, who was hurt while in the employ of the state as deputy state weigher at the Peavey elevator in Duluth in 1901, was allowed to stand.

STILLMAN H. BINGHAM.

A Woman Tells How to Relieve Rheumatic Pains.

I have been a very great sufferer from the dreadful disease, rheumatism, for a number of years. I have tried many medicines but never got much relief from any of them until two years ago, when I bought a bottle of Chamberlain's Pain Balm. I found relief before I had used all of one bottle, but kept on applying it and soon felt like a different woman. Through my advice many of my friends have tried and can tell you how wonderfully it has worked.—Mrs. Sarah A. Cole, 140 S. New St., Dover, Del. Chamberlain's Pain Balm is a liniment. The relief from pain which it affords is alone worth many times its cost. It makes rest and sleep possible. For sale by all druggists.

The "hundred-times-a-day-question"—how to make a little more money, will not down. But, to the store man, advertising in The Herald always figures in the answer.

PART OF MISSING BONDS FOUND AT CLUB HOUSE.

New York, April 23.—A portion of the bonds alleged to have been taken from the Trust Company of America by William O. Douglass, who is under arrest on a charge of larceny, were recovered yesterday in an apartment in the Manhattan club. The club officials refused to either affirm or deny the story, the detectives were very secretive about the matter, and attorneys for O. U. Dennett, a broker, whose name has been mentioned in the case, said they had nothing to say about the matter.

It was stated yesterday afternoon that Mrs. Douglass had disappeared, and her friends became excited over her absence. She was found last night, however, at the home of her parents in Brooklyn.

There were rumors of possible additional arrests, but the detective bureau deny they have taken any action.

SEVERE ECZEMA CURED IN SOUTH

Suffers Three Years—Hands and Eye Most Affected—Employed Doctor to No Effect—Now Entirely Recovered and Will Recommend

CUTICURA REMEDIES IN ALL PARTS OF PARISH

"My wife was taken badly with eczema for three years, and she employed a doctor with no effect at all until she employed Cuticura Soap and Ointment. One of her hands and her left eye were badly affected, and when she would stop using Cuticura Soap and Ointment the eczema came back, but very slightly; but it did her a sight of good. Then we complied with the instructions in using the entire set of Cuticura Remedies and my wife is entirely recovered. She thanks Cuticura very much, and will recommend it highly in our locality and in every nook and corner of our parish. God bless you for the sake of suffering humanity. I. M. Robert, Hydropolis, La., Jan. 5 and Sept. 1, 1906."

SOUTHERN MAN CURED

Of a Terrible Eczema by Cuticura in Six Weeks.

"Some time ago I suffered terribly with eczema, and I had the best medical attendance, but the more medicine I took the worse it seemed to get. I kept on with medicine for about five weeks until I saw the Cuticura Remedies advertised, and I at once purchased the Cuticura Soap, Cuticura Ointment, and Cuticura Resolvent, but had not the slightest hope of them curing me. After I had used the first set of the Cuticura Remedies I saw the improvement, and in just six weeks my skin was as smooth as ever. I advise any one suffering from this terrible disease to use the Cuticura Remedies. Henry J. Stelljes, 132 Spring St., Charleston, S. C., June 12, 1906."

Complete External and Internal Treatment for Every Humor of Infants, Children, and Adults consists of Cuticura Soap (25c.) to Cleanse the Skin, Cuticura Ointment (50c.) to Heal the Skin, and Cuticura Resolvent (50c.) (or in the form of Chocolate Coated Pills, 25c. per vial of 60) to Purify the Blood. Sold throughout the world. Potter Drug & Chem. Corp., Sole Props., Boston, Mass.

Mailed Free, How to Cure Skin Humors.

LAWYER MAKES AN APOLOGY

Court Orders Action Against Harris Richardson Dismissed.

St. Paul, April 23.—Harris Richardson the well known local attorney who was threatened with disbarment by the state supreme court because of certain charges and uncomplimentary statements made concerning the character of the court in an application for a re-hearing of a certain case sent an apology to the court and Chief Justice Start ordered the action against him dismissed.

The trouble between the court and Mr. Richardson arose out of the case of Flettner and Kelly respondents, against the Liverpool, London and Globe Insurance company, Mr. Richardson appearing for the former. The supreme court ruled in favor of the insurance company, refusing to grant relief to the plaintiffs in a certain loss by fire. The request of Mr. Richardson for a re-hearing was based upon the fact that the court had previously sustained the claim of the plaintiffs in a suit against the Citizens Mutual Insurance company, a farmers' organization. Claims were made by Flettner and Kelly in the two cases, they related to the same fire and the insurance in both cases had been written by the same agent.

TWO CHILDREN DEAD.

Burned in Their Home, Set Ablaze by a Small Bonfire.

Ottumwa, Iowa, April 23.—Two children are dead and a third is dying as the result of a fire which burned the home of Charles Bradwell in the mining town of Mystic, near here. While the mother was taking an older child to school yesterday morning a boy of 4 started a bonfire which set the house ablaze. A girl 3 years old and the baby aged 18 months were burned to death as they slept. The boy's clothing caught firecmfwypcmf boy's clothing took fire and he was so badly burned that he cannot recover.

ROBBED IN 1862; ASKS POLICE TO MAKE ARREST.

Indianapolis, April 23.—A belated report of a holdup and robbery was made to the police department last week, and it went on record as being in a class by itself. George W. Morgan of Putnam county, complained that he was robbed and injured in 1862, and he wanted one of the alleged robbers arrested. The complaint was one that caused Desk Sergeant Corrigan to "sit up and take notice."

Morgan is 74 years old, and served throughout the Civil war in the Twenty-seventh Indiana regiment. He said that after a severe campaign in Virginia he became stricken with fever and was sent to the convalescent camp on the Potomac river. He was able to walk and was on his way to the camp when attacked by four men, whose names he gave. They broke his jaw, permanently crippled his hand with a knife, and one of them shot him in the side with an army pistol.

Morgan said the robbers took $79.85, which he had saved from his army pay, and a pair of alligator boots that cost $9. They left him for dead. When he recovered, Morgan said he was never able to find the thieves. He thought all of them had died.

Morgan came to Indianapolis on business and while on a West Washington street car he saw "Bill," one of the men. "Bill" saw him and got off the car and escaped. Morgan said he was sure the man was "Bill," and he asked if the police would issue a warrant and arrest the man on the charges of assault and robbery. Corrigan said he would be pleased to favor an old soldier, but could not, because the Indiana authorities did not have jurisdiction in Virginia.

THE MONGOLIA PROCEEDS.

Modji, Japan, April 23.—The Pacific mail steamer Mongolia which went ashore in Hayatomo sprait near here yesterday was assisted into deep water at high tide this evening and proceeded on her way. She apparently sustained no serious damage.

CARNEGIE CROWD TORE DOWN MR. FRICK'S FENCE.

Pittsburg, April 23.—The famous feud between Henry C. Frick and his erstwhile partner, Andrew Carnegie, was emphasized by the fact that Mr. Frick did not attend the dedication of the new Carnegie institute. Mr. Frick was not expected. He and Mr. Carnegie do not speak as they pass, and although Mr. Frick is Pittsburg's most representative citizen, as well as its wealthiest, his name was missing from the list of prominent ones.

It was a sad day for Mr. Frick. It was bad enought to have all this fuss made over his old enemy, but it was still worse to think that the celebration cost him several hundred dollars. This is how it happened:

When Mr. Carnegie started to build his magnificent institute, Mr. Frick noticed a beautiful plot of ground just opposite. He knew that the day would come when Mr. Carnegie would want this property to improve the appearance of the institute, and so he bought it. It is worth $1,000,000 or more, and people say that some day Frick will erect a building on it that will make Mr. Carnegie's institute look like a Canadian dime, just as he erected the Frick building alongside the Carnegie building and made the latter resemble a boathouse.

Twenty-five thousand people turned out to see Mr. Carnegie and his distinguished guests march from the Hotel Schenley to the institute. Mr. Frick's vacant lot afforded a magnificent viewpoint. Before the crowd assembled the property was inclosed with a fence. After the parade was over there was no more sign of a fence than there is on a Western prairie, and Mr. Frick's lot looked as if a cyclone had struck it. Mr. Carnegie's face was wreathed in smiles when he saw the crowd perched on Mr. Frick's fence to look at him. The smile still continued when he witnessed the debris the next day.

WIVES GET DIVORCES.

Court Grants Legal Separation in Two Cases.

Two more mismated couples have been given a legal separation in the district court.

Zole McCorrison has been divorced from Frank Melville McCorrison on the grounds of non-support. They were married a few years ago, one of the local fraternal lodges taking considerable interest in the union, the presents being numerous. Mrs. McCorrison alleges that very soon after the wedding her husband began to neglect providing her with the necessaries of life, and she was even forced to dispose of some of her wedding presents to keep the wolf from the door.

Annie Paule was granted a divorce from Louis Paule on the grounds of drunkenness and abusive treatment. The case was heard yesterday, there being no appearance on the part of Paule.

WILL DIE AT LAST.

Negro to be Executed Who Had Been Condemned Four Times.

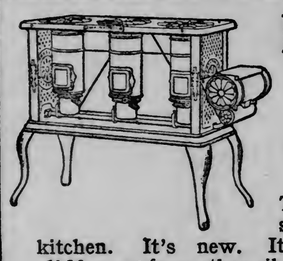
Washington, April 23.—William Burge, a negro, will be hanged here today for the murder of his wife, Daisy Burge, in January, 1905. After the murder Burge attempted suicide and then escaped from the hospital where he was sent under guard. He was tried twice, feigning insanity during the second trial. The date for his execution has been decided on four times, but postponements allowed. The last was in order that his case might be brought before President Roosevelt with an appeal for life imprisonment. This appeal was denied.

ST. CLOUD FIRM

Gets Large Contract for Irrigation Project in Lower Yellowstone.

Washington, April 23.—(Special to The Herald.)—The secretary of the interior has executed a contract and approved the bond of Arthur J. Coates & Co. of St. Cloud, Minn., for the construction and completion of seventy-four miles of laterals, and twenty-nine miles of waste ditches in connection with the Lower Yellowstone irrigation project in North Dakota and Montana. The bid of the contracting company was $112,011.

Once in a year you may find a good tenant by chance—through "happenstance." But a Herald want ad. will find him for you at the time you want him.



DID HE KISS HER.

Denver Post: A few nights ago a Denver university boy took his best girl, a young woman who lives out on the East side, to a theater. During the evening she complained of not feeling well, and they left before the show was over. He took her home, and when he said good night the girl was pretty sick. Next day it turned out that she had diphtheria. Then the young man began to wonder if he was booked for a siege with the disease, too. He called on a physician he knew to ask about it.

The physician heard the young man's tale. "Well," said he at the conclusion of it, "I think your chances to catch the disease depend on how you you said good night to the young lady."

The young man was quiet a moment. Then he said: "Doctor, I'm much obliged. If that's the case I'm not in danger."

The young man went out. A minute later he stuck his head in the door. "Say, Doc," he said, "diphtheria don't go very hard with strong, healthy young men, does it?"

For Every Cooking Purpose

This is the stove you should have in your kitchen. It's new. It's up-to-date. It's *different* from other oil stoves. It will give you best and quickest results on baking-day and other days. The flame of the

(INCORPORATED)

People Who Drink Moose Brand Beer

Who are the people who drink Moose Beer?

They are the merchants, mechanics, bankers, clerks, lawyers, doctors and toilers of Duluth, people in fact, from every walk in life.

These men drink Moose Beer because they enjoy it and because they have found that it thoroughly agrees with them. They drink it winter and summer because it is as satisfying a beverage at one season of the year as another.

As a class the men who drink Moose Beer are opposed to intemperance in any form. They find in this beer a mild, healthful drink, containing just enough of stimulation to satisfy the demands of a strenuous people, but not sufficient to create intoxication, unless used in unreasonable quantities.

Join the ranks. Let us send you a trial case of this excellent product.

MARINE NEWS

SEPARATE COURSES

For East and West Bound Boats is Favored.

Committee of Captains Submit Recommendations to Owners.

It has been recommended by the committee of captains of the Lake Carriers' association that east and west courses be established on the Great Lakes, and the committee has so communicated with President Livingstone. According to the plan recommended by the committee, upbound vessels would follow the present course, while downbound vessels would follow an outer course.

Up to the present time these courses have been defined only so far as Lake Superior and Lake Huron are concerned. It is recommended that downbound vessels on Lake Superior steer a course that will carry them to a point eight miles north of Devil island and fourteen miles north of Copper Harbor. Downbound vessels on Lake Huron would steer a course that would take them twelve miles to Thunder Bay island and twelve miles off Harbor Beach.

These courses would increase the length of the run on Lake Superior by only eleven miles and on Lake Huron by eight miles. It is recommended by the committee that these courses be steered at all times, for the reason that, if vessels use the usual paths taken in the past, fog is liable to overtake them when a portion of the distance might be covered, which would possibly be the means of causing more or less trouble.

The recommendations of the captains are now being given earnest consideration by owners, and they are looked upon generally with favor. Another recommendation is to the effect that during foggy weather, when two steamers meet, the steamer which is to the leeward shall keep out of the way of the other, for the reason that the steamer to leeward has no difficulty in receiving signals, while the steamer to windward may be unable to hear the signals of the steamer to leeward.

Lumber Rates the Same.

North Tonawanda, April 23.—Season rates for unloading lumber were agreed upon yesterday by the North Tonawanda Lumbermen's association and the Longshoremen's association. Rates are practicedly the same as last year.

Vidette's First Trip.

Joseph H. Darling, assistant United States engineer of the Duluth district, made the first trip of the season yesterday on the United States steamer Vidette. The vessel went to Two Harbors where the breakwater was inspected and returned late in the afternoon having made the trip in a few hours. Mr. Darling says that the breakwater at Two Harbors is in need of repairs, but that another inspection would be necessary to determine the nature and extent of them. When it is definitely known just what must be done the government will prepare estimates and ask for bids for the work.

Specifications Approved.

Detroit, April 23.—District Engineer Davis has received the approval from Washington of the specifications for the new channel in the lower Detroit river for which congress made an appropriation. He is advised, however, not to ask for bids until a decision by the supreme court on the eight hour law has been rendered. Many lake contractors are under indictment for violations of this statute.

ONLY ONE DEPARTURE

Steamer Malietoa of Pittsburg Fleet Leaves With Ore Cargo.

Big Movements of Boats Out of the Harbor Monday.

Only one departure was recorded for today at the office of the dispatcher of the Union Towing company up to 2 o'clock this afternoon. The steamer Malietoa of the Pittsburg line steamed out of the harbor early this morning with a load of ore for lower lake ports. She will probably overtake the other boats which departed yesterday before the passage through the Sault is opened.

Yesterday afternoon there was a general movement of boats out of the harbor and sixteen cleared the port in all, only two of them going to Two Harbors, the Fitch and the Maitland. They are loading ore at that point and will then depart for the Sault. Thirteen of the boats carried grain and the total number of bushels was nearly 3,000,000.

It was expected that the boats of the Pittsburg fleet which have not already pulled up anchor and left the port would do so today, but the Malietoa was the only one to get away. The other are all ready to leave, however, and may do so any moment.

The later reports that the vesselmen had refused to hire the tug Algomah at the Sault probably kept a number of the boats inside the harbor as the owners think it is more profitable to keep the boats lying at dock than tied up waiting for the Sault to open up.

RATE UNCHANGED.

Some Demand for Grain Tonnage on Two Cent Basis.

There is some little demand for grain tonnage at the Head of the Lakes and some charters are being made on a basis of 2 cents to Buffalo.

Several of the boats which are being held at Detour are under charter to take grain from elevators at the Head of the Lakes. One or two of them have been lying there since the first of the month. They will load grain as soon as they reach Duluth and discharge their coal cargoes.

VESSELMEN WILL WAIT.

Refuse to Hire Tug Algomah to Break Passage.

Cleveland, April 23.—L. R. Berinton, owner of the ice crushing steamer Algomah, yesterday wired Cleveland vesselmen that he would open up the Soo passage from Detour to the locks at Sault Ste. Marie if he were paid $150 for each steamer benefited. The vessel owners, however, are satisfied that the present favorable weather will open the channel in a few days and did not accept the offer. Boats which have been held at Lake Erie points awaiting the opening of navigation in Lake Superior will sail today and Wednesday. The steamers Henry Smith and Goulder, first of the Lake Superior grain laden fleet to sail, left Duluth yesterday.

D. E. H., April 23, 1907.

SINCERITY CLOTHES.

Anybody who sells clothes can give you a suit that looks as nice as anyone could possibly want. You couldn't possibly ask for a better fit the day you buy it. But, in nearly every case, you would find that suit would look as if you had slept in it after a week or two of wear.

The reason is that so many clothes are made to look nice and fit well by shrinking or stretching the cloth with a hot iron.

It's just like hair made wavy with a curling iron. It all comes out in time, and it don't take long on a damp day.

Try the Sincerity Test on the clothes you buy. Better still—buy Sincerity Clothes of us. Then you take no chances—$12.50 to $25.00.

COLUMBIA CLOTHING CO.
The Sincerity Shop.

CENTER OF INTEREST.

Duluthians Keep Close Track of Steamer Mataafa's Movements.

The steamer Mataafa again steamed out of the Duluth canal entrance this morning for the second time since she has been repaired. This time she was carrying a full load of ore from the Missabe docks, and cruised about in the lake all the morning in order that her compasses might be correctly adjusted.

Last week the Mataafa took a cruise out in the lake for a few miles for the purpose of adjusting her compasses, but at that time she had no cargo, and the trip was made this morning in order that her compasses might be adjusted when she was loaded.

"It is surprising how interested Duluth people seem to be in the movements of the Mataafa, now that she is out again," said one of the officials at the tug office today. "If the big boat makes a move about the bay or out of the canal entrance, we are sure to receive from half a dozen to a dozen calls from people who are watching from the office buildings and residences in Duluth."

WILL GO TO ASHLAND.

Steamer Easton Will Leave on First Trip Next Tuesday.

The steamer Easton of the Both line will leave on her first trip down the south shore a week from today, April 30. At present she is in the dock at the foot of Tenth avenue being repaired for her initial trip of the season, but she will be gotten out by the last of the week. The boat will go as far as Ashland on her first trip, and if the ice conditions permit it she will continue through the canal to Houghton. Capt. Smith will be in command.

The steamer Bon Ami was taken to the dry dock today where she will undergo a thorough overhauling before continuing her trips. This boat was in commission practically all winter making north shore trips until the middle of January, and as she laid up during February and March at Two Harbors, there has been little chance to give her a thorough fitting out. She will be painted inside and out before she begins her trips along the south shore.

NEW LINE OPENS.

Steamer Alva of Chicago & Duluth Company Leaves Chicago.

Chicago, April 23.—The new Lake Superior line will be opened today by the sailing of the steamer Alva with the first cargo of general merchandise for Duluth and intermediate points. In conjunction with the steel steamer W. H. Gratwick, the Alva will give the line a sailing every six days in each direction. The officers of the new line are: President, J. O. Nessen; secretary and treasurer, T. J. Prindiville; vice president and general manager, James Prindiville. The Chicago docks will be at the foot of Randolph street.

Boats Released at Buffalo.

Buffalo, April 23.—Outbound steamers yesterday, after leaving port went well over toward the north shore of the lake, where the ice is not piled so badly and at dark last night were out of sight. The steamer Tuscarora, which has been fast in the ice outside the breakwater since last Wednesday was released today by tugs and left for Chicago in tow of the Wilkesbarre. The Tuscarora has a broken wheel. The Wyoming was also released. The Union liner Chemung released herself and got into port this morning.

The steamer Lizzie Madden with the first lumber cargo of the season is held here being unable to reach Tonawanda.

Formerly Commanded the Ireland.

Capt. Miskey, who was master of the steamer Ireland when she was wrecked last fall, arrived at Cleveland the other day to take command of the steamer Joseph C. Gilchrist on its first trip up the lakes. The vessel has a cargo of coal aboard and will start as soon as the ice conditions are more favorable.

Have Been Renamed.

The former Anchor line passenger steamer India, which was sold to the Jacques of Montreal, has been renamed the City of Ottawa. The steamer Tadoussac, purchased by the Northern Navigation company, has been re-christened the Doric. She had been converted from a coarse freighter into a package boat.

First Lumber Cargo.

The steamer Charles Beatty will be the first vessel to take out a cargo of lumber this season from the port of Duluth. She has a load of ore in her hold and a deck load of lath which she took on at the Mesaba long dock. She goes to the lower lakes.

'Tis an act of courtesy to serve Pabst Blue Ribbon Beer—delicious, appetizing, refreshing—a nourishing food. Order a case by phoning. 'Phone, 346.

Chief Engineer Hayes Returns.

Joseph Hays, chief engineer of the Wolvin line of steamers, has arrived in Duluth from Cleveland where he spent the last few months fitting out the vessels of his lines preparatory to the opening of navigation. Most of the boats of this fleet wintered in Lake Erie, and Cleveland was the handiest point for the chief engineer to direct the work from.

Grain For Depot Harbor.

The steamer Frank J. Hecker is the first boat at the Head of the Lakes to clear for the port of Depot Harbor, Ontario. This port is on Georgian bay, and the Hecker has a cargo of grain consigned for that point Capt. J. C. Byers is in command.

Waiting Fleet Grows Larger.

Detour, April 23.—(Special to The Herald.)—The Sonomia, Sahara, Sierra Sylvania, Wallace (big), Christopher, Fannie Hart, L. E. Hines, Bartin, Nimick and one Gilchrist boat; name unknown, have reached here since noon yesterday and are now awaiting the opening of the passage to Lake Superior. The weather today is warm and calm.

Ocean Steamships.

New York—Arrived: Steamer Zeeland, from Antwerp.

Bremen—Arrived: Steamer Rhein, from New York.

Amsterdam—Arrived: Roterdam, from New York.

Glasgow—Arrived: Steamer Pretorian, from Boston.

Gibraltar—Arrived: Steamer Friedder Grosse, from New York for Genoa.

Ice Conditions Improve.

Buffalo, Ajril 23.—(Special to The Herald.)—The ice conditions are so much improved that boats today are having little trouble. No further obstruction to navigation is feared. The steamer City of Buffalo opened the season this morning, arriving from Cleveland.

Coal Chartering Slow.

Buffalo, April 23.—(Special to The Herald.)—Coal chartering is slow, with more tonnage offered than could be taken. Charters reported are the Maryland for South Chicago at 50 cents; Majestic, Chicago; Manchester, Milwaukee, 40 cents; Lycoming, Houghton.

First Ore at Chicago.

South Chicago, April 23.—The first iron ore cargo of the season was brought in yesterday by the steamer James S. Dunham. It consisted of 8,600 tons loaded at Escanaba and consigned to the Illinois Steel company.

Passed Detroit.

Detroit, April 23.—(Special to The Herald.)—Up: Ketchum, 9:50 Monday night; Brower, 1:10 Tuesday morning; Neptune, 1:50; Warren, 3; Snyder, 3:40; Crammer, 5:10; Muney, Shrimpley, 5:40; Pabst, (arrived) 5:50; Harlow, 6:20; Holmes, 7:15; Dennacone, 7:20; Paine, Adams, 7:40. Down: Maine, Tyson, 3:50 Tuesday morning; Hayward, 6:40; Imperial, 8.

Up yesterday: Black Rock, 11 p. m.; Schlesinger, 4; Stone, 4:50; Bethlehem, 5. Down: Chicago, 12:50 p. m.; Flint and barges, 1:30; Widlar, 2:30; Colborn, 3; Parent, 3:20; Thomas Davidson, Baltic, 3:50; Berlin, Aurora, 4; Hinton, 4:20; Owen, cleared, 4:50; Langdon, 8:20.

Passed Mackinaw.

Mackinaw City, April 23.—(Special to The Herald.)—Up: Uganda, 10:10 Monday night; Utica, 2 Tuesday morning. Down: Iron King, Queen, Midnight; Robert Mills, 12:40 Tuesday morning; Fayette Brown, 12:40; Panay, 3:20; Oades, 4:30; Wawatam, 7:50. Wind northwest, light, clear.

Later—Up: Delaware, 10:10; Missouri, 11. Wind, northwest, twelve miles. Clear.

Boat Passes Eagle Harbor.

Houghton, April 23.—(Special to The Herald.)—The first boats on Lake Superior to pass Eagle Harbor were led last night by the Hoover & Mason, which passed the light at 10 o'clock. There is a mile of open water in Portage Lake, but Big Portage is still frozen over although the ice is rapidly honeycombing.

The Steinbrenner Repaired.

Port Huron, April 23.—(Special to The Herald.)—After making necessary repairs, the steamer Henry Steinbrenner departed at 8 a. m.

Returns From Isle Royale.

The steamer America of the Booth line returned from her first north shore trip at 11:30 last evening with a passenger list of about seventy-five from Washington harbor, Isle Royale, and points on the north shore. Her captain reported a successful voyage. The America will leave for her second trip at 10 o'clock tomorrow morning for Isle Royale. The reports from Port Arthur indicate that the channel will not be open for several days yet and no attemnt will be made by the America to get in at that point.

Port of Duluth.

Departures: A. C. Minch, Venus, P. G. Walker, F. J. Hecker, Lake Shore, Steel King, Yale, D. Z. Norton, grain, Buffalo; W. H. Gratwick, No. 2, Charles Beatty, Malietoa, ore, lower lake ports.

SERIOUS FIRE AT TENSTRIKE

Six Buildings and Contents in the Business District Destroyed.

Tenstrike, Minn., April 23.—(Special to The Herald.)—Six buildings in the heart of the business district of this village, together with their contents, were totally destroyed by fire, which broke out at 3:30 yesterday morning and raged unchecked until 6:30, when the flames died out for want of fuel to consume.

The fire started in the kitchen of the Hotel Richards. There was no one astir in the hotel at that hour, and the fire was discovered by a passerby, who happened to look in the direction of the kitchen.

An alarm was quickly turned in, and as every room in the hotel was occupied, the guests were quickly aroused from their slumbers and hastily left the building, some being arrayed in very scanty attire.

Every effort was made to stop the flames, but without avail. The engine used by the fire department "bucked" and was almost useless, and the attempts to stop the fire with a bucket brigade were also abandoned.

The Richards hotel, a splendid two-story building, was soon reduced to ashes, and the flames swept on to the adjoining store buildings to the west.

Following are the losses and insurance:

	Loss.	Insurance.
G. W. and J. O. Harris, Hotel Richards and contents	$8,000	$5,000
L. M. Dudrey, building	1,200	.....
Charles Gustafson, printing plant and postoffice fixtures	1,000	200
A. W. Anderson, household goods	300	.....
Elmer Sewell, household goods	300	.....
A. W. Danaher, building	800	500
Bacon & Brown, building	1,200	.....
J. H. Lackey, stock of general merchandise	3,000	400
Edward Leonard, building	1,600	1,000
J. A. Radschweitz, building	2,000	.....
Hotel Stechman (estimated damage)	1,000	.....
Total	$20,400	$7,100

Breakfast on

for a change and observe the "change" in the way you feel—strong and bright, with a clear, active, working brain.

"THERE'S A REASON."

Panton & White Company Announce for Wednesday, April 24, a Grand Formal Opening of Millinery French and American.

WE WISH to invite the ladies of Duluth and Superior to visit, not only a vastly improved Millinery salesroom, but our new and elegant French pattern rooms which have just been completed. The plan, and completeness and beauty of these rooms tend to make this the finest Millinery department in the Northwest and equal to any found in the largest cities of the East.

'Tis not alone the rooms we want you to visit and admire and criticize, but there is gathered here for you a magnificent display of Foreign and American made headwear of every description for ladies, misses and children.

But a glance—and you readily recognize the distinctiveness, the character and style which is so magnificent in all the hats—foreign and our own beautiful creations as well.

Our Millinery department is now under the able management of Mrs. Lena Price, a lady already popularly known to a large number of Duluth's well dressed ladies. We want the ladies of Duluth and Superior to make the acquaintance of Mrs. Price. We have utmost confidence that the acquaintance will prove to our mutual advantage when you are buying headwear.

But to the day's exhibition—this display of most beautiful patterns. The showing is one of great beauty, presenting as it does, an assemblage of the favorite creations of the best artists on two continents.

There are picture hats—glorious with ostrich plumes; and there are others which are resplendent with flowers and fancy feathers. Not all the hats are large, though they're very much favored for those whom they become. But becomingness is the style note—never lose sight of that.

In a word this opening display is glorious—and gloriously complete. We shall be glad to have you just come and enjoy the exhibit. It continues Thursday, Friday and Saturday, but will be best tomorrow.

Millinery Department—Second Floor.

THE BIG GLASS BLOCK STORE
WHERE QUALITY IS PARAMOUNT

PARTY RATE TICKETS FOR GENERAL PUBLIC.

Washington, April 23.—A far-reaching decision was rendered today by the interstate commerce commission respecting "party rate tickets." Various railroads of the country have been proceeding on the theory that such tickets applied only to theatrical or amusement companies. The commission holds, however, that the transportation of such amusement companies on party rate tickets would be similar to transportation where the same number of persons not belonging to such company offered to travel, and that, therefore, the tickets must be opened to the use of the general public.

Skeptical!

We want the skeptical man that thinks he cannot be fitted in ready-to-wear clothing to call on us. We will prove to him that we can save one-half of his tailor's bills.

BANKER KING OF SOUTH DAKOTA

Arrested in Chicago, Charged With Misappropriating Funds.

Chicago, April 23.—Charles C. King, president of the First National bank of Scotland, S. D., was arrested here today by United States Marshals Griffith and Donovan.

He will be taken to Yankton, S. D., where he will be given a hearing on charges of having misapplied the funds of the bank, and of having issued certificates of deposit in his own favor, amounting to $45,000.

King was arrested on a warrant sworn out by Assistant District Attorney Davis on information received from William G. Porter, United States attorney at Sioux Falls. The warrant was placed in the hands of United States Deputy Marshal Donovan, who searched two days for King, and finally found him in a hotel.

He was taken to the office of United States Commissioner Foote, where he was shown copies of two indictments against him. One indictment charged him with issuing to himself nine certificates of deposit of $5,000 each for which no money was turned into the bank. The second indictment, containing nineteen counts, alleged the misapplication of funds amounting to $21,777.

While in the office of the commissioner he declared that the allegations in the indictment were false and the work of his enemies. He asserted that there had never been anything wrong in any of his dealings with the bank.

YOUR CREDIT IS GOOD.

YOUR GOODS ARE RIGHT—
THE PRICES YOU PAY ARE RIGHT—
IF YOU BUY AT BAYHA'S.

YOUR CREDIT IS GOOD.

Compare our goods, style for style, quality for quality—and see if our prices are not right. Are not the kind that, by comparison, will be found to save you money.

We do not wish to have any one reading our advertisements, derive the impression that we are the only furniture store in Duluth. We're not desirous of being judged conceited. But we do want our readers to be impressed with the fact that our spring showing of Furniture and Home Furnishings is by far the largest and most complete in Duluth—that our showing is strictly up-to-date and that we are in a position to save you money.

We earnestly ask all who are about to purchase new spring goods in our lines to visit our store and make comparisons—give us an opportunity to demonstrate to you that the buying power of your dollars is greater at this store than at any other Duluth store.

The Bohn Syphon Refrigerator

There are many imitators, but **ONLY ONE** Bohn—the patent refrigerator that has been the choice of the railroads for their refrigerator cars. Do you think for one moment that the Bohn patent would have been their choice had it not been **PROVEN** to them conclusively to be the only **PERFECT** means of refrigeration?

What the railroad companies have tested and found to be right surely ought to be the one to appeal to you.

Come in and let us show you the construction and show you **WHY** the Bohn is superior to any other refrigerator. The Bohn costs no more than other dealers ask for inferior grades—then why not make your choice a Bohn?

Just the Cart You've Been Looking For

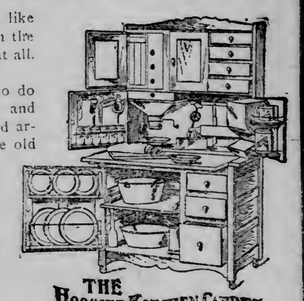
This Fine English

Reclining Folding Go-Cart

An $18 Cart for $10.98

It's like the cut exactly—the finest Folding Cart of its kind ever brought to Duluth.

The body of the cart is dark green finish (just like the big English perambulators)—seat, back and sides are covered in English leatherette—a dark, rich brown—entire upholstering is tufted and felt filled—the gearing is dark green enameled—and the spring construction the very best—wheels are heavy rubber tired—the price includes very tasty parasol—this cart reclines and folds—and is a cart that is well worth every cent of **$18.00.** If you want a Go-Cart—a dandy—a fine looker—at a remarkably attractive price, here's your opportunity.



SEE DISPLAY IN WINDOWS 9 AND 10.

The Hoosier Kitchen Cabinets

Are You Satisfied With Your Kitchen?

Is it as convenient as you would like to have it? Perhaps the pantry is in the wrong place, or there may be none at all. Something is wrong, anyway.

It takes too much of your time to do the kitchen work—too many steps and too much time hunting for misplaced articles, but you worry along with the old arrangement because it is too much trouble and the cost too much to remodel the kitchen.

What you want is a **HOOSIER KITCHEN CABINET.**

It makes any kitchen up-to-date and convenient.

It brings the pantry to you—that saves steps.

It puts everything in order—that saves time.

It has a special place for everything from a nutmeg to a sack of flour—that saves waste.

An architect could not plan anything for your kitchen half so convenient as the Hoosier Cabinet. Many of the best architects and the largest builders use the Hoosier Kitchen Cabinets in their own homes and flats.

We sell them at factory prices and on very easy terms of payment.

The Rex Inner-Tufted Felt Mattresses

The **very finest** Felt Mattress on the market—layer felt filled—clean springy felt—tufted inside the tick.

No hollows or hills to collect dust or vermin—covered with the very best grade of ticking—makes a most comfortable bed—and guaranteed by us to give the very best of satisfaction.

We will gladly send one to your home on trial—if not satisfactory your money back. Once you use an Inner-tuft you will be satisfied with nothing else. The price **$15.00.**

Beautiful Three-Piece Parlor Sets

Upholstered in dark green velour—

TERMS $5.00 CASH AND $5.00 A MONTH.

We have many other **Special** Victor combinations—one of which **ought** to be in **your home.** When down town run in and let us play some selections for you.

NORWEGIAN ARTIST HERE

During the next two weeks an exhibit of oil and water color landscapes, the work of G. Sether, a Norwegian artist of note, will be held at the Flaaten auditorium. The exhibit will be from 9 a. m. to 8 p. m., and will be of interest to many lovers of painting in the city.

Mr. Sether is a pupil of Fritz Thaulow and he has studied in the greatest art centers of the world. His work is of much originality and power. He is noted as a water color painter of note and his winter scenes, especially, typical of his native country, have aroused much interest.

One of the best of Mr. Sether's painting on exhibition is entitled, "A Country Blacksmith Shop." It is characteristic of the artist, in that it represents a winter scene of the Far North.

Over the vivid whiteness of the snow, the artist has cast a widening crimson flame emanating from the forge of the blacksmith shop, through the open door. The gleam of this flame is caught with delicacy on the innermost branches of some birch trees and scrub oaks across the way. An old white horse on the outside of the shop, some logs piled on one side of the road, with the shop itself constructed of logs and having one window, through which another gleam of the forge is discerned, complete the picture.

THOUSANDS ASK FOR A PARDON

Kansas City, April 23.—The Missouri house of representatives at Jefferson City today by a vote of 64 to 30 joined in a petition to President Roosevelt to pardon W. C. Anderson, who was arrested at Kansas City last Friday and taken back to the federal penitentiary at Fort Leavenworth, Kan., from which institution he had escaped nine years ago.

Anderson was convicted of breaking into a postoffice in Sweetwater, Okla., and was sentenced to seven years in the penitentiary. After serving three years he escaped and came to Kansas City, where he went into business, married and raised a family. He became highly respected and his rearrest has resulted in the circulation here of hundreds of petitions to the president asking that he grant the man a pardon. Thousands of signatures to the petition have already been secured.

GOV. JOHNSON WILL SEND DELEGATES.

New York, April 23.—Governors Sheldon of Nebraska, Johnson of Minnesota, Beckham of Kentucky and Vardaman of Mississippi have accepted invitations to send delegates to the national conference on trusts, called by the National Civic Federation to meet in Chicago in May. These acceptances were received today. Fifteen other governors had previously accepted invitations to have their states participate in the conference.

MURDER AND SUICIDE.

Boston, April 23.—During the course of a quarrel today John U. Sperry, a painter, shot and killed his wife, Mary, in their home in Roxbury. Sperry then fatally shot himself through the head. Sperry was 53 years old, and was formerly confined in an insane asylum.

Champion of Duluth.

Our $15 black suit is certainly champion of this town. Tailors charge double for the same goods.

HAPPENINGS IN THE DAKOTAS

Crazed by Effects of Wood Alcohol, Butcher Hangs Himself.

NORTH DAKOTA.

Minot—Maddened by the effects of an overdose of wood alcohol, George W. Will, employed in the butcher shop of Joseph Hevelna at Sawyer, went to the slaughter house Sunday afternoon and hanged himself to the rafters of the building with a hempen string used to tie up bundles of hides. The string snapped before life was extinct, but he was past help.

A queer mixup has resulted from an attempt on the part of City Assessor Murray to call a bluff. Murray had been directed to assess all property at its full value, and last week fixed a valuation of $3,500 on seven houses and lots owned by Nels Tufoeson. Tufoeson insisted that the property was worth not more than $1,000 and offered to sell it for that sum. Judge Murray immediately went to the bank and secured a certified check for $2,000, which he delivered to Tufoeson to bind the bargain and made arrangements for the signing of the deeds. When the time came, however, Tufoeson said that he could not get his wife to sign. Murray offered to take the deeds without the wife's signature if Tufoeson would covenant to defend his title thereto. This Tufoeson refused to do. Meantime Tufoeson had cashed the check for $2,000 and as the deal stands at present has both the cash and the property. It is announced that Judge Murray will start a suit to compel the completion of the agreement.

Fargo—At Dogden, Wells county, the 2-year-old daughter of Mr. and Mrs. Paul Heringer was burned to death in a fire which destroyed their home. The parents were at the barn looking after the stock and milking, and the child with the others, was in the house. The little girl upset a lamp. The father could only save the other two.

The April term of the district court opened today. There are seven important criminal cases and about sixty civil. Of the criminal cases the most important is that of Mrs. Cramer, charged with the murder of her husband at Page a few months ago. The jury on the first trial disagreed. Mrs. Cramer and her husband could not live harmoniously and she alleged frequent assaults by him. He was killed by her 16-year-old son at her command.

Grand Forks—S. DeCamp enjoyed the finest sleigh ride of the winter Saturday, driving from Langdon down to Milton. The snow was about a foot and a half deep on the road. In one place they drove over the top of a snowdrift nearly forty feet high. On both sides of the road for half a mile are groves of large trees and for some little distance the snow had drifted over the trees.

Valdmar Gram has been awarded the contract to build the new Catholic church at Devils Lake, which will cost $30,000.

Jess Hoksina, an Indian, committed suicide at his home, two miles from Fort Totten by shooting himself with a revolver. He had been suffering with consumption.

P. A. Jurgenson of Grafton, a grocer, has failed with liabilities of about $5,000 and assets of probably $3,000.

Title to the approach of the old Red Lake river bridge at East Grand Forks is involved in the case of James Jarvis vs. Polk county. Last fall Jarvis employed a man to tear up the aproach to the bridge, claiming title to the property. The man was convicted of destruction of property. Recently Mr. Jarvis brought suit against the county and the trial is to take place April 26. Jarvis several years ago deeded the land to the county and when the bridge was condemned and abandoned, except by pedestrians, contended that the land reverted to him.

Joseph B. Moore, aged 47, former circuit judge for Lawrence county, committed suicide last night by shooting himself through the brain. Despondency over ill health is supposed to have been the cause. He leaves a family.

Huron—A. F. Bicks' two story frame building on Dakota avenue, occupied by Nels Watt's restaurant, was totally destroyed by fire yesterday. The loss was $2,000, partly covered by insurance. John T. Breen's two story brick, occupied by Emerson & Eager's restaurant and Fuchia's saloon, was damaged to the extent of $2,000, covered by insurance. While workmen were removing the ruins they found the remains of Daniel Carroll, aged 30, and single, of Algona, Iowa. He had been here only a few days and was employed as a lineman for the Western union.

Sisseton—The decree of divorce granted to A. R. Paulson was set aside by Judge McCoy of the circuit court at a hearing in Webster, S. D. A few days before the decision, Paulson left for North Dakota without bidding farewell to his children.

Salem—Thomas W. Bishop, one of the best known newspaper men in South Dakota, died Sunday night from paralysis. He was born at Mineral Point, Wis., in 1840. He served during the Civil war in the famous "Iron Brigade." Mr. Bishop was married in 1865 to Miss Josephine Henrietta Warren of Beddeford, Me., who survives him. They had no children.

Pierre—Harvesting flax in April is not just the usual order of affairs on a farm in this part of the world, but it is being done in Potter county. Early snows prevented harvesting last fall, and when the snow which lay on it all winter had disappeared, and the field was hard enough to work, it was found that enough of the flax was left to make it worth while to harvest it.

Aberdeen—Sioux City packers are figuring on putting in stockyards and a packing plant in Aberdeen, in order that the move of the Armour interests to build a similar plant in Minneapolis may be discounted.

FEET HURT?

Then your shoes are not right. They may satisfy your ideas of appearance but their lines do not conform to the lines of your feet. For such feet as yours we build

NORTH STAR SHOE CO. MINNEAPOLIS, MINN.

$5.00

MAY ENJOIN THE WOMEN.

Rich Iowa Bachelor Asks the Police to Protect Him.

Des Moines, Iowa, April 23.—With tear-filled eyes and trembling voice, H. J. Higgins, a bachelor worth $100,000, appealed to Chief of Police Jones to protect him against the scores of women who, he declared, are determined to make love to him against his will.

"For nearly a year I have not had a moment's peace," declared Higgins. "I have worried so that I am getting as thin as a rail."

Higgins insisted that he did not care a snap for any woman on earth, and only asked to be let alone. He told the chief that if molested further he would demand an injunction. The chief promised Higgins protection.

ONE YEAR IN PRISON FOR SHOOTING NURSE.

New York, April 23.—William T. Davidge, an actor, who several weeks ago tried to kill Miss Rosalie D. Wilbert, a trained nurse, when she refused to marry him, was sentenced yesterday to serve one year in jail. Davidge fell in love with Miss Wilbert, a year ago. One day last month he called her from the home of a patient in Brooklyn, where she was employed, and as they stood in the vestible he pleaded with her to marry him. When she refused he shot her. Miss Wilbert recovered.

Miss Ingram

Will organize classes in dancing the first week in May, at Steinway hall.

CLAIM CITY IS HELD UP

Aldermen Will Invite Outside Printers to Bid for Work.

Commission Men Ask That Michigan Street be Cleaned.

The council is apparently convinced that a printers' combine is attempting to bleed the city of Duluth and the county of St. Louis for all that they will stand, and in pursuance of this, the city clerk was authorized to order the city printing done outside the city if by the last day of this month a bid of at least 20 per cent less than the lowest bid yet registered, is not offered.

The clerk may not, however, order this printing done outside unless he can get a further discount of 10 per cent after the 20 per cent above referred to has been deducted.

Alderman Staples led the trust bucking at the meeting last evening and in the course of his talk he told the following story of the experience of City Clerk H. W. Cheadle in connection with the printing bids.

"Mr. Cheadle visited the shop of a printer in this town where he was not known. This printer is not known to be connected with the combine officially, but as he has unusually complete book binding facilities he receives much work from other printers in town and in the combine on a percentage basis, and does not feel like losing this trade by bucking the trust in prices.

"Mr. Cheadle showed him some blank books which he wanted printed and the printer in question submitted a bid of $90.

"'All right,' said the clerk. 'I will take a hundred of those. Now I have some other work down at my office which you might like to bid on.'

"'Where is you office?' asked the printer.

"'Why, down at the city hall,' replied the city clerk.

"'Thunder! Are you the city?' ejaculated the startled printer. 'Then I can't make you that price,' and then he proceeded to raise the bid over 20 per cent.'

Alderman W. E. McEwen wished to offer an amendment providing that the printing, if done outside, should be done in a union shop, but it was pointed out by the attorney that such an amendment would invalidate the motion and Mr. McEwen withdrew his amendment, saying that if the contract were granted to a non-union shop he guessed they could raise enough labor votes in the council to block the confirmation.

The motion passed without opposition.

• • •

An echo of the affair at the St. Luke's hospital some time ago, when Dr. Tillquist is said to have released two nurses from quarantine without proper precaution, was heard in the council chamber last evening in the form of the following communication from C. Nelson, one of those concerned.

It was as follows:

"To the Common Council:

"On March 22 my son, Carl W. Nelson, was operated on at St. Luke's hospital for appendicitis, and on March 28, still remaining at the hospital, he was taken with diphtheria and has been compelled to remain at the hospital ever since, under quarantine.

"Two of the nurses of the hospital had had diphtheria and had been allowed by the doctor in charge to attend patients without permission from the health commissioner. I write this as a request that you pay the cost of the attendance upon my son on account of the quarantine, as I have no means with which to pay the same and Health Commissioner Murray advised me to place the matter before you.

"C. NELSON."

• • •

A petition was received from the Fitzsimmons-Palmer company, Thomas Thompson company, Fendel & Swofe, the Hammond Packing company, E. A. Stessman, Paine & Nixon, R. J. Kellogg, the Barthe-Martin company and Sanders & Co. asking that immediate steps be taken to clean Michigan street, and setting forth in strong terms the insanitary, unsightly and inconvenient condition of the street at present. In response to this the board of public works was directed to proceed at once with the cleaning.

• • •

Thinking that the board of water and light commissioners were proceeding with too great deliberation in the matter of extending the water mains in the Lakeside gas systems, Alderman F. Staples last evening introduced a motion intended as a hurrier which, after considerable amendment, was passed in the following form:

"Resolved, That the urgent necessity of the Hillside system and the Lakeside gas system is hereby called to the attention of the board of water and light commissioners and said board is urged to use the balance of the bond proceeds, and their surplus earnings in the construction of said system, as these were the purposes for which said bonds were authorized and voted—to the end that the same may be completed as soon as practicable. And said board is hereby requested to report what plans have been made and what progress has been made on said system.

• • •

The board of public works was directed, on a motion by Alderman W. E. McEwen to appoint an electrical inspector, in accordance with a motion of the council last fall. The motion as passed at that time contained a provisional clause depending upon the action of one of the electrical companies which invalidated it. The board has not been sure how to act on the question and last evening's motion will doubtless result in the appointment being made in the near future.

• • •

In response to a communication from the mayor and a petition from owners interested, an ordinance extending the fire limits from Third avenue east to Eighth avenue east on Superior street was given its first reading last evening.

• • •

In response to a motion introduced by Alderman Barnes before he vacated his seat in the council, the city engineer last evening submitted a bid and estimate on the cost of improving Helm avenue from the present terminal of West Michigan street to Jenswold street and the subway, opening another highway to West Duluth, at $3,166, a 24-foot roadway, paved with crushed rock macadam, and with a 2.3 per cent grade, being the basis of the estimate.

• • •

The sprinkling contracts, the contracts for cement, tile and plank sidewalks, the contracts for maintenance supplies and the contract for paving Lake avenue from Sutphin street to the south end of the viaduct, were approved as recommended by the board of public works.

• • •

The ordinance permitting the granting of liquor licenses in excess of those prescribed by the charter, to grocers, under certain conditions, was withdrawn as a hopeless proposition by Alderman Jordan, its promoter, last evening. Both liquor and temperance interests were opposed to the new measure, and it would have secured scarcely a vote in the body.

• • •

Two old propositions which were regarded as practically settled as far as the council was concerned, bobbed up last evening. Alderman Filiatrault introduced a resolution appropriating $250 from the West Duluth dock fund for the purchase of the dock site, and Alderman Mork introduced a motion authorizing the board of public works to advertise for bids for the construction of the West end police station, subject to plans and specifications as drawn up by the city engineer.

• • •

The council ordered the board of water and light commissioners to turn the water into the watering troughs and drinking fountains at once.

• • •

Alderman McEwen introduced an ordinance restricting the granting of licenses to pawn brokers on Superior street. According to the ordinance, licenses not to exceed two in number may be granted for offices on the main street until April 30, 1908, and after that date none can be granted. The crowds of men which congregate about the offices during the day are the cause of the objection to the maintenance of the places on Superior street.

GIRL PAYS FOR HER COURTING

Long Courtship Ends in Engagement, Which is Broken.

New York, April 23.—When Obenburg, Sullivan county, heard that Joe Moser had finally popped the question and he he and Barbara Rutz were to be married this spring the people could hardly believe their senses. The couple had been "goin' together" for fifteen years. Moser has good horses and a buggy and every week he took his sweetheart driving. Following the announcement that the marriage was to take place there came disquieting rumors.

Soon all the facts became known. When Barbara's father, Jacob, died a year ago he left most of his property to his daughter. She continued to live in the homestead with her stepmother until this month, when she sold the property. The two went to live on another small farm owned by Miss Rutz. It was the intention of the latter to remain there after her marriage. Moser objected to this. He was quite willing to live on Barbara's farm, but he would not consent to have her mother with them. Barbara said that she could not live without her mother. Therefore the match was declared off. A few days afterward it came to Barbara's ears that Moser was bemoaning the fact that he had spent so much money on her during their long courtship.

"Joe Moser will get back every cent that he ever spent on me," she declared. "All I want him to do is to put in a bill and I will pay it."

Joe at once made out and sent in an itemized bill as follows:

To expenses, North Branch fair..	$9.00
To merry-go-round rides..	3.00
To pop corn..	2 00
To candy, including peppermint, Sunday night	6 00
To maple sugar..	4 00
To trinkets	1 00
Time lost on moonlight nights in having season	8 00
Charge for buggy to Mrs. Frolic party..	3 00
Repairing buggy reins..	35
To Tennamah lake dances.....	4 00
Charges for buggy rides in busy season, no charge in slack time	15 00
Repairing roof of mother's house	10 00
Sundries, which does not include many things not charged for.....	2 00
Total.....	$41.75

When Barbara received the bill she gave her stepmother the amount and told her to see that Moser was paid. Mrs. Rutz made an appointment with the farmer at the postoffice.

There the money was paid and the bill receipted in the presence of the postmaster.

IT'S YOUR KIDNEYS.

Don't Mistake the Cause of Your Troubles. A Duluth Citizen Shows How to Cure Them.

Many people never suspect their kidneys. If suffering from a lame, weak or aching back they think that it is only a muscular weakness; when urinary trouble sets in they think it will soon correct itself. And so it is with all the other symptoms of kidney disorders. That is just where the danger lies. You must cure these troubles or they lead to diabetes or Bright's disease. The best remedy to use is Doan's Kidney Pills. It cures all ills which are caused by weak or diseased kidneys. Duluth people testify to permanent cures.

J. Vaughn of 532 First street west, Duluth, Minn., says: "In the summer of 1898 I told the people of Duluth, through our local newspapers, of the splendid results I had obtained from the use of Doan's Kidney Pills. My trouble was a kidney and bladder disorder that was painful and annoying, and had clung to me for a considerable time. The kidney secretions were quite irregular and contained a sediment which varied in color and condition. There were dull, heavy pains through the loins, and I was very restless at night, being unable to remain in one position for any length of time. The trouble was becoming worse, when I was induced to try Doan's Kidney Pills. I continued taking them until entirely relieved of the affliction. I am glad to say that the cure has been permanent, and will always be pleased to recommend Doan's Kidney Pills."

For sale by all dealers. Price 50 cents. Foster-Milburn company, Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

Gray-Tallant Co

Duluth's Newest Rug and Drapery Stock Is Just Three Days Old

Our Rugs Are Shown in This Way

Modern fixtures makes our department an easy one to inspect—for instance we show rugs on an immense rug rack as pictured above which enables you to see rug after rug with no more effort on the part of a salesman than if he were turning the pages of a book.

And we display Lace Curtains and Portieres on a fixture which you will appreciate, too.

No other house hereabouts has all the conveniences offered to customers by our new department.

Thank you for the magnificent welcome you have given our latest venture—it pleases us immensely—we feel that such a kindly greeting is not only an appreciation of our fine new stocks but also an endorsement of the Gray-Tallant way of merchandising! And it surely is! For what other store's trade is growing so fast!

Aside from the oft and easily proven fact that prices here are always right—that they are never more and are often less than common—the most important thing to you about this new department is the fact that

Everything Is New

There's not an inch of old goods in the department—we spent weeks and weeks selecting the stock and getting ready and the very fact that we were buying an entirely new stock enabled us to buy more liberally than any already existing stock could buy. This gives us two distinct advantages over all others, viz:

ADVANTAGE No. 1—Makers, in competition for our business, gave us choice of their best at liberal price concessions, which are shared with you!

ADVANTAGE No. 2—We were able to buy complete assortments of the new things—and as there was never before a season in which so many tasty novelties appeared, it is of decided advantage to you that you see the assortment.

We have ample room to show goods properly and splendid light by which to see them—and we'd be powerfully pleased to have you honor us with a visit tomorrow so that you yourself could enjoy the department as thoroughly as so many of your friends have already done.

Special Work

We will make draperies, shades, etc., to order. Let us send a man to take measures and we'll submit estimates on good work that will please you.

CONDEMNS PILLOW FAD.

Preacher Says Society's Hobby Had Origin in Biblical Times.

Chicago, April 23.—"There is nothing new under the sun—not even the sofa-pillow fad. It's a chestnut. It dates from the time before Christ."

Dr. William E. Barton, pastor of the First Congregational church, Oak Park, swept the joy of discovery from another of society's "hobbies" when he quoted from Ezekiel's biblical condemnation of "the women who sew pillows on all elbows."

"The prophets were humorists and fond of exaggeration, he said. "I do not suppose the women actually sewed pillows on people's elbows, but they delighted in having pillows in every corner where any one might care to sit.

"I imagine the world has never seen so many sofa pillows as in this day. In our parlors there is scarcely a place to sit because of them. Mere luxury, physical ease, becomes our aim. Our fine homes stand tenanted with janitors and caretakers, while we go about seeking for more comfort."

JEROME OPPOSED TO A CHANGE OF VENUE.

New York, April 23.—District Attorney William Travers Jerome stated last night that he had no intention of either asking for or consenting to a change of venue for the next trial of Harry K. Thaw.

"There is no reason why the case should not be tried in New York," he said. "I shall certainly not ask for a change of venue, and will just as certainly fight an application for a change if the defense makes one."

HAYTIAN VICE ADMIRAL,

On Borrowed Warship, Would Outrank Others at Jamestown Exposition.

Norfolk, Va., April 23.—If the republic of Hayti carries out its threat there will be more trouble at the Jamestown exposition than all the old English pioneers put together ever encountered in the strenuous times the big show is intended to commemorate.

A report from Washington, which got out to Rear Admiral Evans' fleet yesterday, and gave the officers seven different varieties of brainstorm, says the Haytian government is trying to borrow a warship somewhere with the object of sending it to the naval review as the flagship of a vice admiral.

A Haytian vice admiral would be black and probably short and extremely fat. That, though bad enough, is not all. The Haytian vice admiral, black and short and fat, would be the only vice admiral, with the possible exception of the commander of the Japanese squadron, at the exposition. And, according to the etiquette of the navy, all the other naval officers would have to kowtow to him and give him social and official precedence.

OLD WARRIOR, DYING, APPEALS FOR HIS RACE.

Omaha, Neb., April 23—Realizing that the time of his departure for the happy hunting grounds is approaching, old Red Cloud, the famous chief of the Sioux Indians, has issued a farewell message that is full of pathetic appeal to the white people to be good to the poor Indian. His letter is addressed to Col. William F. Cody (Buffalo Bill), whom he addresses by the Indian name of Pe-Ha-Has-Ka. The letter follows:

"Tell my friend Pe-Ha-Has-Ka that it is Red Cloud that talks to him by one of my people. I want to tell him old chief soon go to Manitou hunting grounds; never see Pe-Ha-Has-Ka more. I say we fight—then smoke pipe, shake hands, bury hatchet—live same tepee. My people follow white man's road. You always good after fight to red brother. I speak you to be always friend to my people. I like you come—I no see you, but I could hear you talk, shake hands—make good by friend."

Red Cloud is more than 80 and is blind.

CHOKED TO DEATH.

Ball Player Died Before a Physician Could Reach Him.

Montezuma, Iowa, April 23.—Choked to death by a piece of candy was the tragic fate of Orrie McWilliams Sunday while engaged in a game of ball. An exciting game was in progress and McWilliams was catching with a gum drop in his mouth. The ball was thrown to him to shut out a home run by a man on third.

McWilliams caught the ball, but immediately fell to the ground in a fit of strangulation and was dead before a physician could reach his side. The gumdrop was found to be lodged securely in the windpipe.

BRIEF TELEGRAMS.

Mr. Bluestone of Allegheny county offered a resolution in the Pennsylvania house Monday night, asking President Roosevelt to be a candidate for a second elective term as president. The resolution was defeated by a vivo voce vote, without debate.

About 800 men employed at the Larimer coke ovens of the United States Steel corporation at Irvine, Pa., went on strike Monday for a 10 per cent increase in wages. Two hundred ovens were ready to be drawn, but they were left burning by the men. The strikers, who were ordered off the company's property, immediately surrounded the plant. Special police are guarding the ovens.

Three persons were drowned Monday in the Delaware river a few miles below Chester, Pa., by the capsizing of the schooner Eben. The drowned men were: Archibald McBride, George Edger and Edward Murphy, all of Philadelphia. Six other persons who were on the schooner when it capsized were rescued.

SKIN DISEASE GERM RUN DOWN AT LAST

Remarkable Results of Treatment With a Doctor's New Prescription.

When treating eczema and similar diseases with that mild, soothing liquid, D. D. D. Prescription, you avoid the greasiness of salves and the distress of dosing your stomach with chemicals that can have no effect whatever on the skin.

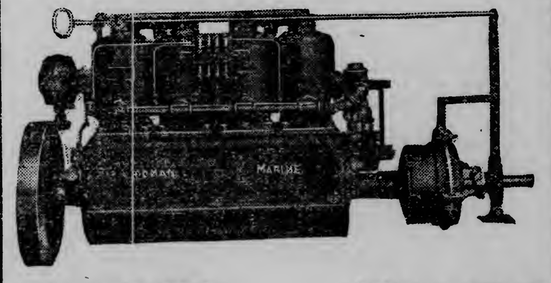
Thousands of letters from patients who have been cured show their happiness in finding a remedy that strikes at the root of skin disease—Kills the germs. A few drops of D. D. D. Prescription give instant relief. Then gradually the skin is cleansed and finally no trace of the disease is left.

"I can recommend your D. D. D. as a complete cure for skin diseases," writes Luther A. Carson of Level Road, Ala. It cured me in ten days."

This remedy can be had at the Lyceum Pharmacy, Duluth. The first drop will take away the terrible itch. Get rid of your itch today.

LOVING HEARTS ARE TORN APART

Angry Fathers and a Charivari Party Separate Newly Weds.



Miller, S. D., April 23.—A charivari that startled citizens of this town from their beds because of its fierceness took place last week. Mark Gifford and Grace Cuyer, mere children, decided to elope from their homes northeast of here and come to town to get married. Twenty minutes after the wedding, and just after the young people had gone to their hotel, a loud knock at the chamber door greeted them. Answering the call, there stood before them the father of the girl bride and also the father of the bridegroom.

The two fathers had hotly pursued the flying couple, but reached them only to find that they were too late except to get the benefit of the big charivari. The command to the young people to return forthwith to their paternal roofs was complied with without delay, and the scared youngsters shook the dust of the town from their feet to the charivari music, which was still going on.

WILL AID WALSH.

Syndicate to Complete Chicago Southern and Southern Indiana Railroads.

St. Louis, April 23.—John Scullin, the St. Louis financier, said that the dispatch from Chicago stating that St. Louis capitalists, with financiers of New York and Chicago, have arranged to provide funds to re-establish John R. Walsh, the Chicago banker, is true. The plan is said to be for the St. Louis, New York and Chicago syndicate to subscribe, with Mr. Walsh, $20,000,000 to complete the Chicago Southern and the Southern Indiana railroads.

DOMAN ENGINES DINGLE HULLS DUPLEX COILS

Here is a combination of D's that can't be beat.

The demand for **DOMAN** engines has been so great that we were obliged to quit advertising them as we could not get delivery in less than sixty days. The **DOMAN** factory has been enlarged and is now running night and day and we are again accepting orders for **DOMANS.**

DINGLE HULLS are winners. We are agents for them and will be pleased to furnish you a blue print and price on a hull built to order.

DUPLEX COILS will increase the speed of your engine by giving greater rapidity of spark, more positive vibration, less consumption of primary current and greater life.

DUPLEX COIL FOR 1 CYLINDER ENGINE...$ 8.00
DUPLEX COIL FOR 2 CYLINDER ENGINE....$16.00

If you want a **FIRST-CLASS** outfit we have it and will be pleased to show it to you at **329-331 CENTRAL AVENUE.**

F. H. WADE

P. S.—If you live out of the city send for our illustrated catalogue and price list.

LARGEST CIRCULATION IN DULUTH

TO SUBSCRIBERS:

It is important when desiring the address of your paper changed to give both old and new addresses.

HELP ON THE Y. W. C. A.

Every person interested in young women—and who is not?—should give most liberally to assure the realization of the ambition of the Duluth Young Women's Christian association to have an acceptable home for itself in which to care for the hundreds of young women who find all sorts of comforts and pleasures in the present totally inadequate rooms of that most worthy organization.

The members of the association have already secured over half of the $130,000 needed to purchase the ground decided on at the corner of Second street and Second avenue west and to erect a building that will be commodious and, while not costly in itself, will be an honor to Duluth, great, growing and prosperous city that it is now and destined, in the immediate future, to be the industrial and commercial metropolis of the Northwest.

To complete the full amount needed, scores of earnest women are straining every nerve. They want the last needed cent on their subscription books by May 1. It is a matter of the plainest duty of the men and women—and boys and girls, too—to make happy these women by giving to them with the utmost freedom and then making pledges to double or triple subscriptions, if this be found necessary when the final count is made.

Indianapolis, Ind., has just given $200,000 for a similar home and Portland, Or., people have subscribed $150,000 for a similar purpose. Duluth is certainly entitled by all rights to consider herself in the same class with those two cities. It should, therefore, make this consideration felt by giving to its Y. W. C. A. the $130,000 it asks for.

Not one cent of the money will be expended unnecessarily. All will be devoted to the most worthy of Christian purposes. The Y. M. C. A. is constructing a handsome building only one block from the proposed Y. W. C. A. Let all of the good people of this city open their purses wide and assure to the young women what they so ardently desire and what they most unquestionably need.

TAFT FACES HIS PROBLEM.

The return of Secretary Taft to Washington, after completing the first part of his nine months' program of inspection and placation of America's outlying dependencies and semi-dependencies, brings to a head the matter of the acceptance or avoidance of Senator Foraker's challenge to a combat to the political death for the control of the delegation from Ohio to the Republican national convention.

Mr. Taft's inclinations and his very nature are opposed to making anything even remotely resembling a rough-and-tumble political fight. His chief, however, who is nothing if not strenuous and combative and who has a long series of scores to settle with Mr. Foraker, may be expected to use all of his powers toward impelling his secretary and his favorite for the presidential succession to make an aggressive contest for the Ohio delegation. It remains to be seen, nevertheless, whether Mr. Taft will be forced to go against his inclinations.

The control of the Ohio delegation would unquestionably give Mr. Taft a great leverage in the national convention, but it is not absolutely necessary. On several occasions in the past, notably the Samuel J. Tilden instance in 1876 when New York fought him bitterly to the end, a candidate has been selected without the support of his own state. There is no doubt, however, that if Mr. Taft should succeed in defeating Mr. Foraker in the state, it would make his nomination much more likely, provided, of course, Mr. Roosevelt shall put an end to the third term insistence on himself.

Mr. Taft is slated for a series of speeches within the next seven days in Ohio. At any one of these, he will have ample opportunity to boldly accept the Foraker challenge if he is ready and willing to make a fight. But until he shall have spoken, all will be in doubt. If he shall avoid the proffered combat, the question will then arise—will Mr. Roosevelt who glories in a fight continue to support him or will he drop Taft and take up Governor Hughes who is showing rare fighting capacity in New York?

HILL'S RAILROAD VIEWS.

James J. Hill, Minnesota's railroad master who recently retired from the presidency of the Great Northern but has not thereby put himself out of touch with the weighty problems of the rail, acknowledges in an authorized interview that the many lines of this country that a few years ago were wont to boost that they were ahead of the people are now utterly unable to handle the business of the nation.

Mr. Hill declares that the cost of terminals in all of the large cities is now so enormous as to make it virtually impossible to find capital in sufficient amount to construct new lines. Yet he believes that nothing except the expenditure of the almost inconceivable amount of $5,500,000,000 distributed over five years will meet the present demands of commerce. He adds: "Unless this money be raised, the business of the country will be prostrated." And he draws a decidedly dark picture of the freight blockades which he says are growing worse hourly.

Mr. Hill acknowledges that from 1895 to 1905 the railroad mileage increased only 21 per cent, the passenger equipment only 23 per cent, and the freight equipment only 45 per cent while, in the same time, the passenger mileage increased 95 per cent and the freight ton mileage 118 per cent. He declares that the roads are doing all that lies in their power to secure adequate equipment but car and locomotive works are crushed with orders for a year ahead. Even these shortages, he holds are not so menacing as the actual shortage in trackage and especially terminal facilities which are growing worse day by day.

The only remedies Mr. Hill can suggest is an increase of 25 per cent in the next five years of the present 220,000 miles of railroad with an added increase of one-third in terminal and passing tracks—making the total of the increase 75,000 miles. This he estimates will cost at least $5,500,000,000. He holds that inadequacy of trackage is responsible for the many deadly accidents of late years and declares that they will increase despite all precautions until the trackage shall be increased.

Mr. Hill acknowledges that the proposed additions to the railroads in the next five years are virtually out of the question because of the impossibility of securing such a vast amount of capital under present conditions and because the 200,000 men needed for the work cannot be obtained at any price. He favors decentralization of traffic, more points for export, more interior markets. He advocates also a fifteen-foot canal from St. Louis or Chicago to New Orleans. He would also place the terminals and heavy transfer points away from the large cities. Above all, he would have confidence between railroad builders, investors and the people restored.

These matters have all been discussed from time to time since last fall by Mr. Hill, but they possess as deep interest now as they did when the car shortage complaints reached their maximum. The ideas have behind them the weight of experience and will receive close attention. On one point, however, Mr. Hill is silent—will conditions, if the increased mileage be constructed, be any better five years from now if business continues to grow as it has in the past decade?

MYSTERY OF EARTHQUAKES.

After a brief period of quiet succeeding the Jamaica catastrophe, the earth's crust has begun to quake again in inhabited regions and the wisest of the scientists do not even pretend to say where next there may be a terrific temblor. Geologists have a theory that some portion of the globe is in motion at all times but that generally the disturbances are at the bottom of the ocean—usually the Pacific or Indian—but this is merely a theory incapable of clear demonstration.

Four times in about twelve months have there been terrific seismic shocks in different parts of the New World, San Francisco, Valparaiso, Kingston and towns of Southern Mexico being the victims in turn. In the first three cases, fires added to the devastation. In the last instance, the shocks were so violent that had the City of Mexico been within their radius, the horrors of the three former earthquakes would undoubtedly have been repeated.

The old theory of well defined earthquake belts may or may not have been overthrown by the fact that the four destructive shocks occurred at great distances from one another. Nor can the late Professor Shaler's theory that the western coast of the whole of America is unstable account for more than the San Francisco and Valparaiso temblors. As a matter of fact, these are evidences of one of the forces of nature that man has been unable to explain or foresee.

Even in these days when more attention is being paid to earthquakes than ever before, no more is known as to their origin or their places of disappearance than was known two hundred years or more ago nor have there ever been satisfactory explanations as to their cause. Man can only build his structures within the sections most frequently disturbed in a manner to suffer the least damage. In every other respect he is at the mercy of the resistless and mysteriously moving power.

Warnings and past experiences have also been in vain. For ages men have built on the slopes of volcanoes and on ground shaken at frequent intervals. When the shocks have passed, after leveling the work of years in an instant, they invariably rebuild. Almost as mysterious as the earthquakes are the people who thus continue to defy the most terrible power of nature.

THE PASSING SHOW.

Harriman wants "to get close to the people." Surely he is not thinking of trying to absorb the whole United States.

* * *

Half Paris is menaced with temporary starvation. The cafe waiters are on a strike for some wages beyond the tips they have been getting.

* * *

The Roosevelt boys beat their distinguished parent at hurdling. Is the president beginning to lose his cunning as an invincible rough rider?

* * *

Instead of hunting mountain lions the coming summer, President Roosevelt will devote himself to the boa constrictor of Wall street, E. H. Harriman.

* * *

If eastern homeseekers are at all wise they will flock to Minnesota in June and gobble up every acre of the 336,000 of state lands to be sold during that month.

* * *

While Wall street is having all kinds of troubles, iron and steel, the barometer of real business, keep on rising and all the rest of the country is as busy as busy can be.

* * *

Teddy Roosevelt, Jr., is evidently not like his father. The boy is sick of too much publicity; the presidential parent can never get enough of it—from the corporations.

* * *

New York is having another of its periodical shakings-up. If just one of them would do some good, it would be all right but even Roosevelt could not bring lasting reform.

* * *

Roosevelt's "mollycoddle" address has proved more powerful than President's Eliot's "Football is brutal" and Harvard will try once more next fall to down its best beloved foe, Yale.

* * *

Secretary Root declares war with Japan over the San Francisco school incident was never imminent. Every one except Hobson and Hearst knew it all the time and all refused to get excited.

* * *

The Abe Ruef jury was completed on the eve of the anniversary of San Francisco's disaster. The revivified metropolis of the Pacific enters on its second year of new life with a physical and moral cleaning up.

* * *

Sweden's crown prince has discovered that the people, while willing to tax themselves liberally for him and his family, will not pay for his fun with the "ponies." Therefore he must sell out his expensive stable and become a real good prince once more.

* * *

New York is beginning to object to the butter part of Minnesota's new title "The Bread and Butter State." The old commonwealth claims that it is still the greatest butter and cheese state and does not propose to give up the honor without a fight. When, however, Northern Minnesota shall have become one vast dairy and truck farm, New York will have to take second place.

HOTEL GOSSIP.

"I've seen a good many electric lighting plants since I've been on the road," said G. R. Cosley, representative of a Chicago electrical supply house, who is at the St. Louis, "and I've learned a good many things about municipal electric lighting plants. Every town gets the municipal lighting plant bug every so often, and, in the greater number of cases, the bug dies a peaceful death, which is a good thing for the town in some of those cases. In others the bug is successful, and then it's up to the town to have success or failure attend the venture.

"One thing more than any other is responsible for the failure of most municipal ventures of any kind, and particularly so in the case of electric lighting plants. That is too much politics. Too much politics results in mismanagement. Mismanagement results in failure, and failure spells a big loss for the taxpayers. I've seen plants in prosperous towns in a condition such as no private company would think of keeping them, and no public company should either. They have gone to wreck and ruin, the machinery is out of order, and the town without light most of the time, just because every new mayor appoints a different superintendent, and every alderman and officeholder who has a political parasite he wants to reward, gives him a job at the municipal plant. They do not do their work properly and the plant goes to ruin.

"Down there in Marquette, Mich., they have a system of conducting the municipal plant which I regard as admirable and ideal. The management of the plant is given into the hands of a board, which is made up of some of the best business men of the town. One member of the board is appointed each year, and no mayor can change its complexion in one term. The board hires the superintendent and attends to all the affairs of the plant, without pay. They give the superintendent full control and he hires his help, and does the purchasing and selling under their direction. The business is run just as though a private company owned it, and during the past year it made $30,000 clear. It's very seldom a municipal electrical plant turns out that way, but good management is the secret. The present superintendent has been with the city for several years, and he acts just as though he were working for a corporation and his job depended upon the amount of dividends he could turn over. And he and that board are turning over dividends to the city. But you'll find that's the exception, although I hear you run your gas plant here in the same way."

Had Them Guessing.

Le Cir de Paris: The new ambassador of the United States, Henry White, has the gift of tongues which is not generally the case with his countrymen.

Some time ago he was at Venice with his wife and daughter. Each took a cup of tea at a garden. Not far from them, at another table, were seated two Americans who did not know the diplomat.

"I'll bet," said one—the Yankees always bet—"that he is an American; he looks out for the ladies."

"No," said the other, "he is English. He has already drunk three cups of tea. An American would be content with only one."

At that moment a waiter appeared. The ambassador addressed him in unimpeachable Italian.

"Bah!" cried the Americans in the same breath. "He's a Roman."

Waiting at he Church.

London Express: A remarkable incident occurred at a wedding at Scarborough. When the bridesmaids reached the entrance of St. Mary's parish church, they were informed that they could not enter, as they were not wearing hats, but only wreaths of marguerites.

The girls were naturally disappointed, but they got over the difficulty by placing their handkerchiefs on their heads and the marguerites over the handkerchiefs. Then the bridesmaids were allowed in the church, and the ceremony proceeded.

One of the rules enforced at this church is that women shall not enter bareheaded, and the vicar never makes an exception to the rule.

THE WEATHER.

Not exactly spring-like was the early morning, the coolness in the atmosphere making buttoned-up heavy wraps acceptable, but it was by no means unpleasant, especially when compared to other days of the month. The clouds that partially hid the sun for the first two or three hours gradually passed away and before 9 o'clock the orb of day was sending its April rays full force to the earth. The consequence was that the atmosphere warmed up rapidly and by noon most people were going about without heavy overcoats or wraps. The day was a fine one for shoppers and hundreds took advantage of it. Last night's lowest temsays that it will be cooler tonight with the lowest temperature 20 to 25 degs., and that brisk northerly winds will blow.

The sun set at 7:07 o'clock this afternoon and will rise at 5:04 o'clock tomorrow morning. The sun remains above the horizon today for two minutes over fourteen hours.

A year ago today was cool in the early morning, but clear and bright, and the temperature attained the delightful maximum of 62 degs. in mid-afternoon.

Says Mr. Richardson of conditions: "The disturbances central Monday morning over Lake Superior and the Gulf region have apparently consolidated their forces over the Ohio valley, causing rains in that section and in the Atlantic, Gulf and Lower Mississippi valley states, and higher temperatures in Eastern districts. The Montana low pressure has retreated to Idaho, its movement being attained by light snow over Montana and extreme Western Canada, and warmer weather in the Lower Rocky mountains. High pressure areas over the Western Gulf region and Western Canada have caused cooler temperatures in those sections. The barometric pressure distribution indicates further pleasant weather in this section during tonight and probably Wednesday."

Following were last night's lowest temperatures, as recorded by the weather bureau:

Abilene	38	Medicine Hat	34
Asheville	46	Memphis	34
Atlanta	52	Miles City	36
Battleford	32	Milwaukee	45
Bismarck	30	Modena	32
Boston	46	Montgomery	56
Buffalo	40	Moorhead	30
Cairo	50	New Orleans	52

Marquette	38		

Department of Agriculture, Weather Bureau, Duluth, April 23.—Local forecast for twenty-four hours ending at 7 p. m. Wednesday: Duluth, Superior and vicinity, including Mesaba and Vermilion Iron ranges: Partly cloudy tonight and Wednesday; cooler tonight with lowest temperatures 20 degs. to 25 degs. Brisk northerly winds.

H. W. RICHARDSON,
Local Forecaster.

Chicago, April 23.—Forecasts until 7 p. m. Wednesday: Wisconsin, Minnesota, North and South Dakota: Generally fair tonight and Wednesday.

Upper Lakes: Brisk northerly winds possibly becoming high on Huron tonight. Threatening tonight with rain on Huron. Wednesday generally fair.

MINNESOTA OPINIONS.

Marshall News-Messenger: Whatever difference of opinion there may be as to Mr. Hill's methods and policies, there is none to dispute his pre-eminent position in the railroad world, or to belittle the tremendous influence he has exerted in the building up of the great Northwest.

Rochester Post and Record: When some of the Western railroads try to make the schedules they kill the passengers; and if they run behind time, the lone train bandit walks in and robs 'em—so there's trouble anyway you take it.

Warroad Commonwealth: It's a pretty safe bet that within the last fortnight several railroad presidents have discovered that they can wear hats a size smaller than the old ones through which they have been conversing with the state legislatures.

Mesaba Ore: Hibbing building contractors report that there never was a season opening in Hibbing that promised the business now in sight.

Sunbeam Sunbeam: There will be no more quarreling over the petition for the removal of the county seat to Thief River Falls, for empty is the pigeon-hole, "baby has gone."

Carlton County Vidette: President Roosevelt has signified his willingness to meet the railroads half way. And at the rate he has been going, some of the railroad men are afraid he will catch up with them before they have started.

Crookston Times: Minnesota won in two interstate debates last Saturday, one against Illinois and one against Iowa. What's going to happen? There must be something like a revolution going on at the "U." It may forebode a poor football team next fall.

Stillwater Gazette: An Omaha man saved $100,000 by living on 15 cents a day. We would rather save $10,000 and live on $1.50 a day, while there are a lot of fellows who would rather spend the $100,000 and let the future hustle for itself.

Red Wing Republican: If Mr. Harriman desires to know in exact figures his popularity with the people, he might get nominated for some public office and watch the vote he rolls up. A good microscope might locate it.

Mankato Free Press: If this weather continues, the frost will be on the wheat instead of the pumpkin.

Pointed Paragraphs.

Chicago News: A bad imitation is often better than the real thing.

It isn't the fault of the fair sex if a secret remains a secret.

There are lots of people in the social scale who do not weigh much.

Usually a woman of uncertain age remains at a certain age for a long time.

About the time a man gets used to himself the undertaker gets busy with him.

A popular photographer is one who can make a woman feel satisfied with her face.

A pretty girl is as fond of drawing attention as a political office holder is of drawing a salary.

Men who really love their neighbors as themselves must have affection to throw at the birds.

Reflections of a Bachelor.

New York Press: After a man has had his engagement broken off he can afford even a automobile.

It makes a woman awful ashamed to have you see above her shoe tops if they are shabby looking.

When a man is making all sorts of faces at himself in a mirror he usually isn't crazy, only shaving.

A girl's idea of being bold is to forget to look daggers at a man who gives her his seat in a street car.

Women are mighty smart to be able to wear their clothes so as to make a man guess whether they are dressed or not.

Are Our Solons Meant?

North Branch Review: The chaplain of the Michigan legislature has broken into print with a complaint that the Michigan legislators sit with their feet on their desks. Even that is better than putting them in their mouths the way they do in some states.

ROYAL
Baking Powder

Made of Pure Grape Cream of Tartar.

ROYAL BAKING POWDER CO., NEW YORK.

TWENTY YEARS AGO.

Taken From the Columns of The Herald of This Date, 1887.

***The ice at the head of the St. Paul & Duluth slip is still as solid as the everlasting hills, and the Joseph L. Hurd and John McKay are firmly locked in for some time to come.

***The following real estate transfers have been recorded:

B. S. Parsons to B. S. O'Connor, lots 7 and 10, block 11, Portland, $11,250.

S. S. Walbank to J. E. Bowers, block 23, Walbank's addition, $5,400.

W. C. Sherwood to E. Wilson, west half lot 40, block 1, Central division, $8,125.

Caroline A. Lafaus to S. E. Boots, lot 76, East Fourth street, First division, $2,000.

Johnson & Bredeson to N. F. Hugo, lots 29 and 31, East Fifth street, First division, $4,100.

Charles H. Clague to Lins Kleman, lots 449 and 451, block 83, Second division, $3,000.

Charles Witt to H. F. Thompson, lot 6, block 3, lots 14 and 15, block 89, Portland, $7,000.

Thomas Orr to Benton Murphin, lots 2, 3 and 4, Transfer division, $40,000.

W. C. Sargent to W. H. Goodwyn, undivided half block 22, London, $1,800.

***George H. Harrison has recovered from a severe attack of rheumatism.

***The visit of Senator Stewart to Duluth, and his able appeal for the coinage of silver, are significant. Several leading journals throughout the country are of opinion that the silver question may enter into the issues of the next presidential election.

***Noll Mack, a workman at Elevator I, was seriously injured yesterday afternoon by falling from a ladder, a distance of fourteen feet. One arm was broken and his head and shoulders were badly injured.

***Rev. S. J. McKinney has been engaged for the coming year as pastor of the First Presbyterian church of West Superior.

***Architect Carl Wirth, formerly of Duluth, is now engaged on the plans and specifications for the Pilgrim Congregational church, to be built this summer at West Superior.

***Judge Stearns has filed his decision in the courthouse case. It is a perpetual injunction on the city of Duluth and the county of St. Louis from issuing any bonds or taking any further steps for the erection of a courthouse and city hall under the act of Feb. 25.

***H. Stevens, cashier on the depot at Northern Pacific Junction, has gone on a month's trip to Portland, Or.

***The grading of Sutphin street began yesterday. Capt. Lutes has the contract.

***Over $10,000 has been subscribed for the establishment of a public library in Duluth.

***S. K. Duff of Pittsburg, Pa., has arrived to become superintendent of the Duluth Steam Forge works.

ANENT THE LEGISLATURE.

Ortonville Herald-Star: A defender of the present legislature says that the "ensemble" is not bad but only an occasional individual. The "ensemble" then should pass a few bills and not leave quite so much to individuals.

Warren Sheaf: A large number of bills introduced at this session of the legislature will fail to become laws. We suppose they will make a valuable addition to the "unwritten law" of which we hear so much.

Detroit Record: The members of the present legislature have done one good thing—for themselves, at least. They have doubled their own salaries. Now, if they would cut the time of the session in two perhaps the people would be willing to stand for another double on the salary.

Red Lake Courier: There will be no reapportionment at the present session of the legislature. The Republican party loves Northern Minnesota so dearly that it will do its utmost to prevent any more of our good people from being contaminated by the vile of the capitol city.

Cook County Herald: As was anticipated the anti-treating bill was joked to death—or killed somehow. Of course, it was not killed because of the great good it would do in lessening drunkenness, but because those whose business it would hurt made it appear ridiculous and beneath the dignity of the legislature to seriously consider.

Long Prairie Leader: The present legislature will go down into history as the one having passed more reform legislation than any previous legislature in many years.

Albert Lea Tribune: The grafters did not find this legislature as easy as they had expected and there are large chunks of gloom in evidence all over the two big cities of the state.

Minneota Mascot: A legislature composed of about 200 men will sit for three months trying to make a batch of laws and when it gets through a supreme court, composed of five men, will knock the stuffing out of the whole thing with one word — "unconstitutional." Great system that!

Karlstad Advocate: "By their works ye shall know them." So it will be regarding the work done by our legislators during the past session. It is not so much in having a bill become a law, as to whether it is a good and just law and will stand the test of the supreme court.

Roseau County Times: The average reform legislator whose selection was demanded by the people (?) under the peculiar workings of the primary law appears to think there are just two objects to be attained—to tax everything in and out of sight, and to raise salaries.

WIT IN SHORT MEASURE.

Cleveland Leader: Mrs. Jawback—I'd be so happy if I had money enough to travel abroad for a whole year.

Mr. Jawback—So would I.

Philadelphia Press: "Yes," said Cassidy, "the poor lad's gittin' along purty well."

"But," said Casey, "I thought ye said he was mortally injured."

"So he is, but his hurts ain't quite as mortal as they thought at first."

Yonkers Statesman: Bacon—I see this paper says there is no kissing in Japan, except between husband and wife.

Egbert—But it doesn't say between whose husband and whose wife.

Mexican Herald: Teacher—Yes, Freddie, the tail of the comet is 3,000,000 miles long.

Freddie—Gee! There wouldn't be no fun tyin' a tin can on the end o' that.

Washington Herald: "The office boy wants to get off this afternoon. Says his grandmother—"

"Is dead, hey?"

"No; is willing."

Kansas City Times: "Why didn't you interfere?"

"When?"

"Why, when those two men threatened to mop up the street with one another."

"My dear sir, the streets need cleaning so badly, I would be glad to see them mopped up in any style."

Columbus Press-Post: "How old are you?"

"I have seen sixteen years."

"How long have you been blind?"

Louisville Courier-Journal: "The president distributes the plums, I believe."

"Quite so."

"What are Secretary Lobe's functions?"

"He hands out the lemons."

Bon Vivant: Portly Dame—Save me, oh, save me!

Fireman—I'll do my best, mum; but I'm afraid I shall have to take you down in installments.

Brooklyn Eagle: Ethel—She is sorry she ever married him!

Edith—I thought she could read him like a book?

Ethel—She could; but she skipped all the chapters but the sentimental.

Philadelphia Inquirer: "Todd, your wife has a voice like velvet."

"Don't talk so loud. If she heard you I should have to get her a new dress to match it."

Washington Star: "Do you think that smoking conduces to tranquillity of mind?"

"Not judging by the population of Cuba."

PROMPT SERVICE

DO YOU OWN A FINE HAIR MATTRESS?

If you do not, you do not know what you are missing. Very few people know where the hair comes from that goes into hair mattresses. Well, we will tell you where the hair comes from that goes into OUR hair mattresses. It comes from South America. In South America they raise horses for their mane and tail hairs, just the same as we do sheep for their wool in this country. These horses are rounded up once or twice a year and their mane and tail hairs clipped and made into ropes, as shown in cut on the right here. It is then thoroughly sterilized and curled, and then made into mattresses.

All Our Hair Mattresses Are Made by Hand in the Sunlight in Our Own Workshop

This Cut Shows How Pure South American Horse Hair is Imported Into This Country

A $40.00 HAND MADE MATTRESS $30.00

We want to more thoroughly introduce our fine "SANITARY HAND-MADE" Bedding and to do this we offer to make up for you special this week our regular $40.00 full weight hair mattress, covered in any ticking you may select out of our big stock—special at..... **$30.00**

WE SELL THE CELEBRATED

STREIT DAVENPORT SOFA BEDS

These are the Davenport Beds you see advertised in all the magazines, and are beyond a doubt the best and most convenient on the market. You can use the box underneath without letting down the back—only one of many good features in these beds. Let us show you all of them. The prices are from

$19.75 up to $150.

WEST DULUTH

MAY EFFECT BELT LINE

Two-Cent Fare Law Might Hit Company Hard.

Not Likely That Any Change Will be Made, However.

Much speculation is being indulged in by West Duluth people these days as to what the Belt Line railway to Bay View Heights will do when the 2-cent fare law goes into effect on May 1. If the law is observed by the Belt Line company, it will be practically impossible to keep the line in operation as the distance of the trip is less than two miles.

Heretofore a charge of 10 cents has been made for the trip over the hill, but under the 2-cent law not more than 5 cents can be charged. When the bill was being discussed in the senate, Senator Laybourne tried to amend it so that the Belt Line railroad to Proctor would be exempt, but the amendment was turned down.

It is not likely that the company will make any change in the rate, however, claiming that as they have been charging 10 cents for the trip in the past when the 3 cent law was in effect, they can do the same under the new law.

FAREWELL PARTY.

Mr. and Mrs. Eber Given Pleasant Surprise by Friends.

A delightful farewell surprise party was given last evening for Mr. and Mrs. Phelix Eber at their home, 313 North Fifty-third avenue west by a number of their friends and neighbors. Mr. and Mrs. Eber are about to go to Seattle, where they will reside in the future. Mr. Eber has been employed at the Merrill & Ring mill for the past twenty-three years, and is a highly respected West Duluth citizen.

During the evening progressive cinch was played and the gentlemen's prizes were awarded to Messrs. Saya and Fred Brassard while Mrs. Brassard and Miss Essie LaFlair won the ladies' prizes. Refreshments were served, covers being laid for twenty-six.

Those present were: Mr. and Mrs. M. LaFlair, Mr. and Mrs. Bart Rosner, Mr. and Mrs. Alex Forbes, Mr. and Mrs. Peter Hartogh, Mr. and Mrs. Marshal Eber, Mr. and Mrs. Fred Brassard, Mr. and Mrs. Louis Caya, Mrs. James Pickard, Mrs. Joseph Goneau, Mrs. J. Eber, Frank Rice, L. McDonald, Misses Iva Hosner, Essie LaFlair, May Rice, Estella Rice and Masters Garden and Rae Rice.

CREDITORS HOLD MEETING.

General Review of Sales of Merchants' Bank Property is Made.

An all day session of the creditors of the old Merchants bank of West Duluth was held yesterday at the office of W. W. Sanford in the Lonsdale building and there was a general review of the items of sales and discussion of future plans.

As the purchasers of the properties have so far paid up only about two-thirds, no dividend could be declared, and it was decided to give two weeks more for the purchasers to complete the payments. In two weeks another meeting will be held, and it is expected that matters will be in such shape as to warrant the payment of a dividend.

The creditors made plans for the disposal of the few remaining pieces of property on the range, and it is said to contain valuable iron ore deposits.

To Improve Church.

A meeting of the trustees of the Westminster Presbyterian church was held last evening at the home of Mrs. Jennet Jennings, Sixty-second avenue west and Gosnold street, and it was decided to begin the improvements at the church immediately. A basement and heating plant will be put in and it is expected the improvements will cost between $1,800 and $2,500, most of which has already been raised.

Royal League Meeting.

Members of the West Duluth Council, No. 255, Royal League, will hold an important meeting this evening at their club rooms over the Western State bank. State Organizer H. H. Stone, who has but recently returned from the meeting of the supreme council at Chicago, will give a short review of the business transacted and will explain the matter relative to the readjustment of rates.

West Duluth Briefs.

Peter Gilley made a business trip to Barnum today.

George Vilk of Minneapolis was in West Duluth visiting friends yesterday and looking over the city with a view of going into business.

Mrs. W. H. Wright of Fifty-eight avenue west, left yesterday for St. Paul where she will spend the week visiting relatives.

Rev. R. J. Mooney and family moved into the new rectory of the Holy Apostle's Episcopal church at 634 Ellnor street yesterday.

Rev. W. J. Lowrie has purchased a lot at the corner of Cody and Fifty-ninth avenue west and will build a residence soon.

Work has commenced on the new livery barn of John Winness on Fifty-fourth avenue.

Mr. and Mrs. Richard Duby and Mr. and Mrs. John Bouchard will leave today for Ballard, Wash., where they will make their homes in the future.

George Method left last night for Saginaw, Mich., to attend the funeral of his mother.

Practice was begun this morning by some of the members of the ball club to be organized by members of the West Duluth fire company.

Wall paper and paints at Nygren's Drug store.

Walter Riske, who has been visiting relatives in Minneapolis, returned yesterday. Tomorrow he will go to Detroit, where he will be employed by a printing concern.

A daughter was born yesterday to Mr. and Mrs. Albert Larson, 809 North Fifty-ninth avenue west.

William Wardstrom left yesterday for Mountain Iron, where he will be employed by the Oliver Mining company.

Albert C. JoJhnson has returned to West Duluth and resumed his position at Nygren's drug store, after several months of study in a pharmacy school in the Twin Cities.

Members of the Plymouth Congregational church will hold a weekly cottage prayer meeting this week at the home of Mr. and Mrs. R. J. Hamilton, 614 North Fifty-eighth avenue west.

Rev. J. B. Hingeley of Minneapolis spent Sunday and Monday visiting at the home of Rev. and Mrs. S. G. Briggs, 4227 Grand avenue west.

Mr. and Mrs. Albert Meldahl, 509 North Fifty-ninth avenue west, and Miss Eliza Remfry, have gone to Rochester, Minn., where Mrs. Meldahl will receive treatment.

Rev. T. M. Burns of Mountain Iron returned to his home today after spending several days visiting at the home of Rev. and Mrs. Thomas Grice of the Asbury M. E. church.

Mr. and Mrs. C. Bishop, 522 North Fifty-sixth avenue west, are the parents of a daughter, born Sunday night.

Watch and jewelry repairing. Hurst.

Mr. and Mrs. Simon Rudee, 322 North Sixty-third avenue west, are the parents of a son, born yesterday.

John Trow returned today to his home at Barnum, after spending several days visiting friends in West Duluth.

The funeral of Ole Jacobson, who died at Proctor Sunday, will be held Wednesday afternoon from Fillatrault's morgue, at 2 o'clock. The remains will be buried at Oneota cemetery.

Hunyadi János

The Best Natural Laxative Water for biliousness, torpid liver, sluggish bowels, indigestion, stomach troubles. Safe, sure and prompt. Half a glass before breakfast for

CONSTIPATION

NEWS OF BOYS' DEPARTMENT

Committee Will Make Plans for Annual Field Meet.

The committee which will have charge of the fourth annual interscholastic field meet, will meet at the boys' department, Y. M. C. A., this afternoon at 5 o'clock. All the schools of the city are invited to take part, and each school is requested to be represented at the meeting. The delegates will form the committee and will have charge of all the details of the meet at the conclusion of which they will be entertained along with the winners at a banquet.

At the meeting today officers of the league will be elected the date set, and the list of events drawn up. There is some talk of having a junior and a senior division so that the schools not having many big boys will have an equal chance. The matter will be thoroughly discussed by the committee. A silk banner will be awarded the school winning the largest number of points, and a gold medal to the boy winning the largest number of points. These are presented by the boys' department, but it is expected that other trophies will be presented by men who are interested in school boy athletics. Last year twelve schools were represented in the meet, in the fifteen events. There were 155 entries and over 1,000 people attended.

• • •

The annual international Bible study examination for boys who have been in the Bible study clubs of the boys' department will take place this evening at 8 o'clock, when the boys who have been studying the travels of Paul will try for the diploma that is awarded every boy who gets over 75 per cent. Twenty-five boys have registered for this examination.

Wednesday the boys who have been taking the Life of Christ will take their examination. Twenty-three will take part in this examination. This is the third year that the Duluth boys' department has participated in the examination. The first year they won eight diplomas and the second year twenty-five won eighth place. The examination papers are prepared by the international committee in New York city and are not opened until the time of the examination.

Not a drop of Alcohol

Doctors prescribe very little, if any, alcohol these days. They prefer strong tonics and alteratives. This is all in keeping with modern medical science. It explains why Ayer's Sarsaparilla is now made entirely free from alcohol. Ask your doctor.

We have no secrets! We publish the formulas of all our preparations. J. C. Ayer Co., Lowell, Mass.

Hay's Hair Health

Miss Grace Eichman.

RESTORES your HAIR to its NATURAL COLOR.

"Had been troubled with dandruff a long time. After using one bottle of Hair-health I found the dandruff gone and my hair, which was two-thirds gray (I am 48 years old), restored to its natural auburn color.—GRACE EICHMANN, La Crosse, Wis."

Guaranteed perfectly pure.

Philo-Hay Spec. Co., Newark, N. J.

50c AT W. A. ABBETT'S

SPORTING NEWS OF THE DAY

WILL OPEN AT HIBBING

Kelley Hardware Team to Go to Range May 5.

Team for First Game to be Selected Next Sunday.

Manager C. N. Ziegler of the Kelley Hardware baseball team yesterday received a letter from the manager of the Hibbing team, accepting the terms of the Duluth players to go to Hibbing for the opening game of the season, May 5. This closes the deal, and on that date the season at Hibbing will be opened, and the Kelley Hardware team will make its first venture on the sea of independent baseball.

Sunday some of the prospective members of the Kelley Hardware team were out on the diamond at the league park, and they did a little work to get the stiffness out of their joints after the long winter. On the whole, however, the boys are in good shape, and they expect to make a showing against the Hibbing professionals. The opening of the season comes very early for the Kelley aggregation, however. The Hibbing team has been together some time, and they have been able to do a little work, but the local men were unable to get out on the field until Sunday, and then the men weren't together. Conditions are such that they will be unable to work together very much before a week from next Sunday, the date set for the game with the range team, and they will certainly not be in midseason form when they play the first game.

Next Sunday the entire squad of about eighteen men will be trotted out and looked over, and the nine men to take the trip to Hibbing selected. It is possible that the men chosen for the first game will not form the permanent team, but the most likely players on the showing in next Sunday's practice will be used at the range town. The men will not be able to practice very much together, and as they have never played together as a whole, the team will be something of an unknown quantity, collectively. The prospective members of the team are all ball players, however, and they can be expected to make a showing in any event. Some of the best amateur and former professional players in Duluth have been secured to wear the Kelley uniform, and they will make Hibbing go some to win the first game, if the range team does annex it.

An unfortunate occurrence, which will set the Kelley's back somewhat, is an accident to Charles Combes, the playing manager. Mr. Combes, while riding his wheel Saturday evening, collided with a wagon, and he is now at his home with a badly lacerated face and two fractured ribs. His not being able to get out with the boys and give the affairs of the team his personal attention is unfortunate, but he will be around again in a few weeks to take charge.

Last Sunday a number of other amateur organizations had their first practice, and corner lot ball promises to flourish in Duluth this year. The Big Duluth and Universal Miller squads were both out, and there is a possibility that the two teams will get together for a sort of practice game next Sunday. If the weather warms up sufficiently a number of the amateur teams will arrange games, but the real season for the future greats will open May 5.

BANQUET ENDS SKI SEASON

Members of Duluth Club Hold an Informal Gathering.

The ski season in Duluth was brought to a fitting close last night, when the members of the Duluth Ski club attended a banquet at Lanigan's chop house. There were twelve members of the club present, and a very pleasant evening was spent. The gathering did full justice to the viands served, and the later hours were made enjoyable by speeches and music.

H. B. Knudsen acted as toastmaster, and in the opening speech he briefly reviewed the season, pronouncing it the most successful in the history of the club, from every viewpoint. He paid a tribute to H. Wannebo, the keeper of the hill, to whose efforts he attributed the excellent condition in which the slide was maintained. George M. Jenson also spoke, touching on the selection of Duluth for the National Ski tournament, next year, and predicting that the affair would he the greatest ever held in the United States. Speeches were made by others of those present, and songs were sung, individually and in chorus.

The following were present: P. C. Wright, H. Wannebo, H. B. Knudsen, John Wold, C. E. Evens, W. Wells, H. H. Borgen, H. M. Carr, J. A. Solvick, S. Ringdahl, H. Hoode, George M. Jenson.

WHITE SOX IN MADISON

Preparing to Tackle Cassiboine's Leaguers on Friday.

Thirteen Men Picked to Start the Regular Season.

Madison, Wis., April 23.—(Special to The Herald.)—After taking three bumpings in succession from the Freeport Wisconsin State leaguers, the Duluth White Sox have returned to Madison and are again working on the greensward here in an attempt to get in shape by the time the season opens. Up to Friday of this week, the team will go into regular exhibition games, but will work out morning and afternoon. Now that the weather has moderated, better work will be possible and, under the changed conditions, it is expected they will round out into baseball form.

"Smiley" Smith and every member of his crew are disgruntled over the sorry showing made at Freeport, but they realize that the fact that they had but little opportunity to practice is responsible for their defeat. Now they are working hard and the Madison team next Friday will go up against a different proposition from that with which Freeport had to contend. Howard Cassiboine's crowd is here and the two teams will work out together. They meet Friday, Saturday and Sunday when local fans will be given an opporunity to size up the first team to represent the capitol city in the Wisconsin State league.

Smith has now done all the weeding out he intends to do before the team arrives in Duluth and gets off the mark in the regular pennant race. More heads may go under the ax later, but Smith doesn't think so, as he believes the men he has selected will arrive in Duluth in such condition that they will hold their own with the other three teams from the first pop of the gun to the hoisting of the flag. "Smiley" isn't claiming the pennant, but he is doing a lot of thinking and figuring and the smile-that-never-comes-off is assuming a knowing aspect.

Following is the team Smith has selected: Catchers, Weaver, Smith; pitchers, Cummings, Krick, Tredway, Backus, Haney; first base, Tracey; second base, Leighty; shortstop, Summers; third base, Odwell; left field, Fagin; centerfield, McCormick, right field, a pitcher.

Fagin has not yet joined the team, nor will he do so until it arrives in Duluth for the ante-season series to be played there with the Canadian barnstormers. In the meantime, two pitchers will be played in the outfield. All of the pitchers are good fielders and fair hitters, so the team to play the training games will be practically as strong as that which will start in the league race.

Of the team picked, Weaver, Backus, Haney and Odwell are the only men not known in Duluth; Weaver is a plucky youngster, small in stature, but all there. He is built much on the lines of "Ducky" Stewart, who caught for Fargo last year. He can clout the ball some, too. Backus is just the opposite. He stands about six feet three inches and weighs over 200 pounds. He has speed, curves and a good noodle, and it is believed he will make good. Haney is a veteran southpaw, who made his mark years ago. He is showing good form this year and it is believed he will have no trouble holding a place on the regular staff. He is the "funny man" of the crowd and the fans will find him a capital entertainer on the coaching lines.

Odwell is the "find" of the outfit and the awkward corner will be well taken care of for Duluth. Odwell is lightning fast, has a corking good whip, evidences an ability to use his brains, and is a fair sticker. All in all, the team looks good and before the training trip is over, the boys expect to dispel the bad impression left by the three defeats in the Illinois town.

AMERICANS BREAK EVEN

One Loses and One Wins in London Boats.

London, April 23.—The announcement of two big international contests attracted a great crowd to the National Sporting club last night.

The first fight was between Owen Moran of Birmingham and Albert Delmont of Boston, twenty rounds, for the bantam championship of the world and a purse of $2,000. Moran was a warm favorite in the betting and proved the winner on points, but only after the fight had gone the full rounds.

The second contest was between Sam Langford, an American, and "Tiger" Smith, a Welsh fighter, twenty rounds, for the middleweight championship of the world and a purse of $2,000. Langford was victorious in the fourth round.

State of Ohio, City of Toledo, Lucas County—ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh cure. Sold by all Druggists, 75c.
Take Hall's Family Pills for constipation.

A CORNER IN SPORTS

The White Sox will carry four, possibly five, pitchers this year, playing one in the outfield. The pitchers will not be worked to death in this way and the management can put better men in the other positions and still keep within the salary limit.

• • •

The Sox will clash with the Madison team of the Wisconsin State league next Friday, Saturday and Sunday. Here's hoping Cassiboine's men do not put it over them like the Freeporters did. Four days' practice in Madison should put the Sox in shape to eat up the Wisconsin leaguers without effort.

• • •

Taking the bunch, which J. M. Lamb and Eddie Herr have gathered together, on its paper appearance, it might be well for the other teams of the league to watch the "Peggers" this year. The pitching staff, especially, looks dangerous and is likely to make trouble for some of the boys who had fat averages last year.

• • •

Hugo Kelly, the Chicago middleweight, has been matched to meet Jack (Twin) Sullivan at Los Angeles May 10. The men will fight at 158 ringside and Tom McCarty, manager of the club, who arranged the match, will offer a championship belt, for which the men will fight.

• • •

Charles Milton, the 120-pound fighter, last evening pulled down the forfeit he had posted with the sporting editor of The Herald, to bind a match with Walter Griffin. Both men had their money up, but no club would come forward and stage the uneven match, Milton being willing to give away twelve or thirteen pounds. Milton says he will have the forfeit ready to post again just as soon as there is a match in sight and he says he is willing to fight anyone of his weight in the Northwest.

AUSTRIA'S RICHEST MAN.

New York World: According to the income tax returns recently published, Austria's richest citizen has an income of something over $2,000,000 a year, for which he is taxed more than $100,000. That fact, which has been cabled to America, may have aroused curiosity as to who the individual is, and how he came to accumulate such a vast fortune.

He is the Archduke Frederick Marie Albert William Charles of Teschen. He offers no such incentive to the struggling poor youth as do the self-made multi-millionaires of America, for he never worked for a living, nor have his ancestors for generations back. He inherited his great possessions. But that fact does not appear in the least to diminish his enjoyment of them. He is a chubby-faced man with none of those deep, careworn furrows one is accustomed to see on the faces of those great American financial magnates who started in life with what Andrew Carnegie has declared to be the most blessed of all inheritances—poverty. He has a good appetite and his stomach has never gone back on him. He is never troubled with insomnia. He has an abundant crop of hair and all his teeth are sound.

Several members of the Austrian imperial family are rich, but none of them have anything approaching the possessions of Frederick. These are of the most varied and comprehensive character, including iron works and coal mines, forests and agricultural lands, castles and country villas, and city palaces. In Silesia the archduke owns some of the largest iron works in Austria and extensive, rich coal mines in the same province. An influential Berlin syndicate was recently negotiating for the purchase of the iron works at a very high figure, running into some millions of crowns. At Hegycs Hallom, on the Hungarian frontier, an hour or so from Vienna, is the archduke's dairy farm, one of the greatest in Europe, which supplies butter and milk to a large proportion of the population of Vienna. There is a private railway on the farm connecting with the main line to Vienna, and fast freight trains are stopped to pick up the dairy produce of the imperial farmer. Iron, coal, milk and butter mark the limits of the archduke's commercial activities. In Bohemia he owns vast tracts of forest lands covered with valuable timber and affording fine hunting and shooting. For these latter, however, his immense estates at Bellyee, in the Danube delta, down near the Servian frontier, are more interesting. They contain all classes of game, including big bears, for which hunting parties are arranged on a large scale. The archduke has yet another hunting estate in Hungary at Halb Thurm, on the Austrian frontier near Pressburg.

Most imposing of all the archduke's residences is the Albrecht palace in Vienna, commandingly situated on part of the old fortifications. Inside it is a veritable treasure house of art, the "Albertina," or library, of the late Archduke Albert, containing one of the most valuable and celebrated collections of drawings in Europe. They include works of Raphael, Durer, Rubens and Rembrandt. The engravings number over 220,000, there are 50,000 volumes of books, many of them rare, and a collection of 24,000 maps and plans. Below the terrace of the palace is the Albert fountain, with figures representing the chief rivers falling into the Danube.

CHAMPION TYPEWRITER.

One of the largest and most interesting typewriting competitions that ever have taken place was the recent one at Paris, when 157 competitors, male and female, rattled and banged at their machines for four hours. Those who were present described the noise as a miniature hail and thunder storm. It says much for feminine nerve and endurance that it was a woman gained the first place. Mlle. Gabrielle Revert, a native of Bordeaux, at the end of the four hours was 2,000 words ahead of every one else in the room. How formidable was her victory may be imagined from the fact that her most dangerous opponent all through the dictation was M. Porez, secretary of the Paris chamber of commerce. At one time, indeed, this gentleman had gained some hundreds of words on Mlle. Revert; but she soon pulled up with a brilliant finish. The judges had given some chapters of "Paul and Virginia" as the test—fairly difficult prose, as all the world knows—and when the bell was rung for a finish Mlle. Revert had written 17,000 words in the four hours, or at the rate of seventy words a minute. An amusing, if somewhat pathetic incident of the competition was an old-fashioned scrivener, who would not admit that the pen could be beaten. The contrary was proved before he was half an hour at his task.

Day after day The Herald want columns show a procession of opportunities—opportunities to buy, to sell, to lease, to hire, to find people to work for you, to find people to work for, to find boarders, lodgers, tenants, or partners. These want ad. opportunities touch almost all phases of life and living in this city.

A SQUAD OF NINETEEN

Herr's Winnipeg Maroons Have Assembled at Minneapolis.

The Canadian City Has a Likely Looking Bunch.

The Winnipeg Maroons, under the direction of J. M. Lamb and Manager Eddie Herr, are now working out at Minneapolis and reports from that city are that the men are showing up well. Eddie Herr thinks well of the men he has gathered around him and he promises to round the Peggers into pennant winning form. Herr has been pitching in the Western league for a number of seasons and last year was with St. Joseph.

There are nineteen Maroons now in Minneapolis as follows: Pitchers, Herr, Terry, Dunn, Giencke, Sawyer, Wills; catchers, Vos, Crisp; first base, Ludurus, O'Neill; second base, Ryan, Dougherty; third base, Zeider; shortstop, King, Sassenbach; outfielders, Henderson, Monroe, Piper, Cox. Several others are expected to report before the team leaves Minneapolis and Herr should have no trouble in picking out a likely looking crowd from such an array of talent. Most of the men now in the Flour City have already been tried in the Northern Copper County league, and they are known to have the ability to hold the place on the team and the positions, for which new men are trying should be easily filled.

In an interview published by a Minneapolis paper, Mr. Lamb said:

"The present idea of a four team league doesn't altogether please me, but I would much rather see four reliable organizations such as we have than six or eight clubs to begin with and probably a wrecked league before the season was half over. We have the four best cities in the Northern country this season and I personally think the season will be a success in every respect."

BUSSE WILL ALLOW BOXING

Six Round No Decision Affairs for Windy City.

Chicago, April 23.—Boxing is to be resumed in Chicago again, under certain restrictions, after being under the ban for over two years. Announcement was made last night by the Chicago Athletic association that the wrestling bouts scheduled for April 27 had been cancelled, and that boxing bouts would be substituted.

When elected, Mayor Busse stated that he was in favor of boxing if it could be carried out under certain restrictions. One of the chief objections he had to the sport was the rendering of decisions by the referee, thus making it possible to wager money on the results. The contest at the Chicago Athletic club, Saturday night, will be without decision.

LEAGUE TEAMS TO HIBBING

The Independent Nines Have Some Good Games Arranged.

Hibbing, Minn., April 23.—(Special to The Herald.)—Hibbing will go in for baseball on a larger scale this year than ever before and the fans of the town will be shown some fast ball, if they give the team the right support. That this support will be forthcoming is evidenced by the success, with which the committee soliciting funds for the repair of the park is meeting. Already about $800 has been pledged and little trouble is expected in raising the $1,000 required to put the grounds and park in excellent shape. When completed, Hibbing will have the best diamond in the Northwest.

The management of the Hibbing team has been successful in arranging games for the opening of the season. The Kelley Hardware team, the Lethbridge team of the Western Canada league, the Duluth White Sox and the Houghton Giants will all appear here and those games should arouse the interest of the fans. The season will be opened a week from next Sunday, May 5, when the Kelley Hardware team, which is reported to be a strong semi-professional aggregation, will open the season here. May 8 and 9, John Morrison's Lethbridge team will be here and they will be followed by the Duluth White Sox on May 10. May 14 and 15, the Houghton Giants will come for two games.

After the games with the league teams, the Hibbing boys will be ready to take on all semi-professional and amateur teams in the Northwest and the management hopes to repeat the performances of previous years, when Hibbing won the independent championship.

BASEBALL

American League.

	Played.	Won.	Lost.	Pct.
New York	7	5	2	.714
Chicago	9	6	3	.667
Cleveland	6	4	2	.667
Philadelphia	8	5	3	.625
Detroit	8	4	4	.500
Boston	8	3	5	.375
Washington	7	2	5	.286
St. Louis	9	2	7	.222

DETROIT, 9; CLEVELAND, 4.

Detroit, April 23.—The home team had the better of a free hitting contest with Cleveland yesterday. The hitting of McIntyre, Crawford and Birmingham featured. Score:

	R	H	E
Detroit	2 0 0 2 0 0 5 0 x	9	11	3
Cleveland	1 0 1 0 0 0 0 1 1	4	10	3

Batteries—Killian and Schmidt; Rhoades and Clark. Umpire—O'Loughlin.

NEW YORK, 8; BOSTON, 7.

New York, April 23.—The New York Americans won an uphill game from Boston yesterday. They forced Winter out of the box in the sixth inning and won out in the ninth on a base on balls to Keefe, Hoffman's sacrifice and Keeler's single. Score:

	R	H	E
Boston	2 1 0 1 0 1 2 0 0	7	11	5
New York	0 1 0 1 2 3 0 0 1	8	11	7

Batteries—Winter, Harris and Armbruster; Hughes, Keefe and Thomas. Umpires—Connolly and Hurst.

PHILADELPHIA, 8; WASHINGTON, 7.

Philadelphia, April 23.—Philadelphia defeated Washington yesterday in a game marked by heavy hitting on both sides. Score:

	R	H	E
Washington	0 0 1 0 0 1 4 1 0	7	12	2
Philadelphia	0 1 4 2 0 0 1 0 x	8	11	2

Batteries—Smith, Graham, Heydon and Warner; Plank, Dygert and Schreck. Umpire—Evans.

National League.

	Played.	Won.	Lost.	Pct.
Chicago	7	6	1	.857
Philadelphia	7	6	1	.857
New York	8	6	2	.750
Pittsburg	6	3	3	.500
Cincinnati	8	3	5	.375
Boston	8	3	5	.375
Brooklyn	7	1	6	.143

NEW YORK, 1; BOSTON, 0.

Boston, April 23.—A base on balls, a hit by a pitched ball and a single in the ninth inning gave New York one run and the game, 1 to 0. Both pitchers were in fine form and the fielding of both was excellent at critical stages of the game. Score:

	R	H	E
New York	0 0 0 0 0 0 0 0 1	1	6	1
Boston	0 0 0 0 0 0 0 0 0	0	7	4

Batteries—Matthewson and Bresnahan; Flaherty and Orendorff. Umpire—Emslie.

CHICAGO, 3; CINCINNATI, 2.

Chicago, April 23.—Chicago yesterday earned the winning run in the ninth inning on three hits and two stolen bases. All the other scores started on the pitchers' wildness. Score:

	R	H	E
Chicago	0 0 2 0 0 0 0 0 1	3	9	1
Cincinnati	2 0 0 0 0 0 0 0 0	2	2	1

Batteries—Reulbach, Pfeister and Moran; Hall and Schlei. Umpires—Johnstone and Carpenter.

PITTSBURG, 8; ST. LOUIS, 2.

St. Louis, April 23.—The St. Louis Nationals were defeated by Pittsburg yesterday. Druhot, who started to pitch for St. Louis, was very wild and was taken out in the third inning, McGlynn finishing the game. St. Louis would have been shut out had it not been for Holly's hit in the ninth inning. Score:

	R	H	E
Pittsburg	3 0 2 0 1 2 0 0 0	8	11	0
St. Louis	0 0 0 0 0 0 0 0 2	2	8	3

Batteries—Willis and Gibson; Druhot, McGlynn and Marshall. Umpire—O'Day.

PHILADELPHIA, 8; BROOKLYN, 0.

Brooklyn, April 23.—Philadelphia again shut out the Brooklyn team yesterday, 8 to 0. The visitors batted McIntyre out of the box in the sixth inning and played havoc with his successor, Whiting, in the ninth. Score:

	R	H	E
Philadelphia	0 0 0 2 0 2 0 0 4	8	8	0
Brooklyn	0 0 0 0 0 0 0 0 0	0	4	2

Batteries—Sparks and Jacklitsch; McIntyre, Whiting and Ritter. Umpires—Rigler and Klem.

American Association.

	Played.	Won.	Lost.	Pct.
Columbus	5	5	0	1000
Louisville	5	4	1	.800
Indianapolis	5	4	1	.800
Toledo	6	3	3	.500
St. Paul	6	2	4	.333
Kansas City	5	1	2	.333
Milwaukee	5	1	4	.200
Minneapolis	6	1	5	.167

COLUMBUS, 7; ST. PAUL, 2.

Columbus, April 23.—Pitcher Le Roy of St. Paul was pounded hard by Columbus early in yesterday's game and retired in favor of Dickinson. Two catches by Friel and a stop by Hulswitt were the features of Columbus' perfect fielding. Wicker kept St. Paul's hits wele scattered. Score:

	R	H	E
Columbus	0 3 2 0 0 1 0 1 x	7	13	0
St. Paul	0 0 1 0 0 0 1 0 0	2	7	3

Batteries—Wicker and Blue; Le Roy, Dickson and Sugden. Umpire—Kerin.

KANSAS CITY, 4; INDIANAPOLIS, 0.

Indianapolis, April 23.—The locals were unable to solve Crutcher's delivery and lost their first game of the season yesterday, being shut out, 4 to 0. Huelsman's rattling two-base hit down the left foul line, bringing in Kerwin in the fourth inning, started the scoring for the visitors. Kerwin's throw to the plate, catching Livingstone in the eighth inning, was a fielding feature. Score:

	R	H	E
Kansas City	0 0 0 2 0 0 1 0 1	4	7	2
Indianapolis	0 0 0 0 0 0 0 0 0	0	2	2

Batteries—Crutcher and Sullivan; Kellum and Livingston. Umpires—Sullivan and Hayes.

MINNEAPOLIS, 9; LOUISVILLE, 0.

Louisville, April 23.—Thomas pitched great ball yesterday, shutting out the locals in the second game of the series. Durham was batted hard with men on bases. Score:

	R	H	E
Louisville	0 0 0 0 0 0 0 0 0	0	4	3
Minneapolis	0 2 0 0 0 1 4 2 0	9	12	0

Batteries—Durham and Hughes; Thomas and Towne. Umpires—Werden and Egan.

MILWAUKEE, 7; TOLEDO, 4.

Toledo, Ohio, April 23.—Errors lost the game for Toledo to Milwaukee, 7 to 4, yesterday. Dougherty was a puzzle till the seventh. Score:

	R	H	E
Toledo	1 0 0 0 0 0 2 1 0	4	8	6
Milwaukee	1 1 0 2 1 0 0 0 2	7	8	2

Batteries—West and Abbott; Dougherty and Roth. Umpire—Kane.

HELPING ALONG HIS MEMORY.

San Francisco Argonaut: Mrs. Morse is an undemonstrative man and an absent-minded one as well. In these two respects he is a trial to his wife, who is exactly his opposite. "James," she said, as she bade him good-by when he was about to start for Chicago, "will you remember to hunt up Cousin William and find out all about Aunt Sarah? It is so many years since I've heard from any of that family."

"Yes, my dear."

"And do you suppose you will remember to put on your overcoat if the wind changes, so as not to catch one of your dreaded colds?"

"Yes, my dear."

"And will you try to remember that you have plenty of clean collars, so you needn't go about looking as if you had no wife to see to you?"

"Yes, my dear," said Mr. Morse, as he turned to take up his bag.

"And, James," said Mrs. Morse, tearfully, do you suppose you will think of me every day while you are gone and I am here at home?"

"My dear," responded Mr. Morse, with his mind on catching the train, "I will certainly make a memorandum to do so."

A WONDERFUL COUNTRY.

Lippincott's: An Irish contractor in San Francisco sent to Ireland for his father to join him. The journey was a great event to the old man, who had lived in rural districts all his life, and he reached San Francisco much excited.

After several days of sightseeing, his son resumed his business and suggested that his father should visit the Presido.

"And phwat's the Presido?" asked the old man.

"The Presido, father, is the government reservation for the soldiers, a fine bit of a park, and you'll enjoy yourself."

At the end of a strenuous day the old man stood gazing at the big buildings, comparing them with the small huts of his old home. Seeing a soldier near, he tapped him on the shoulder.

"Me bye, phwat's that string of houses fornist us?"

"Why, those are the officers' quarters."

"And that one with the big smokestack?"

"That's the cook shanty."

"Shanty, is it? Well, 'tis a great country! 'Tis palaces they're using."

The young man offered to show him the new gymnasium. On the way the sundown gun was discharged just as they passed. The old man, much startled, caught his companion's arm.

"Phwat's that, now?"

"Sundown," replied his friend smiling.

"Sundown, is it? Think of that, now! Don't the sun go down with a terrible bump in this country?"

BECOMING A MOTHER is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and pain in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of **Mother's Friend** during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does **Mother's Friend** carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period. Sold by all druggists at $1.00 per bottle. Book containing valuable information free.

MOTHER'S FRIEND

"O. K." Say U. S. Pure Food Inspectors.

This MEANS that our Rye and Bourbon Whiskies, after careful analysis by U. S. Government Chemists, are found to COMPLY with the National Pure Food Law. It also MEANS that

Sunny Brook

The Pure Food Whiskey

is "Bottled in Bond" under the direct supervision of U.S. Internal Revenue Officers, who affix over the neck of every bottle of Sunny Brook the Government "Green Stamp" guaranteeing Age, Purity and Quantity.

Of the hundreds of samples analyzed by the North Dakota Pure Food Department chemists—acknowledged to be the most rigid in the U.S.—Sunny Brook was the only whiskey found NORMAL.

"DIVVY" WITH THE CABBIES

The Scheme of Youngstown, O., Ministers to Get Weddings.

Youngstown, Ohio, April 23.—A combination between cab drivers and ministers to monopolize the business of marrying eloping couples who visit the city was revealed during the trial of Edward Cramer, a hackman, charged with having importuned a couple to go with him to the probate court and later to a minister's house.

"The ministers usually divide their fees with us," said the prisoner. "When we are asked to bring couples to their homes for marriage ceremonies they 'split' with us."

BRIDE PREFERS DEATH TO LIFE IN PITTSBURG.

Pittsburg, Pa., April 23.—Saying that she couldn't stand the smoky atmosphere of Pitsburg, Mrs. Margaret Meyers, 18 years old, a bride of only a few months, committed suicide by drinking carbolic acid. She came here with her husband from Cleveland recently, and begged him to take her away again. He had a good position and refused to give it up for what he considered a whim of his wife. She then told him that life in Pitsburg with its smoke was not worth living.

A STOCK COMPANY MAY BUY ANNA GOULD'S HOME.

Paris, April 23.—It is the talk of the boulevards that Mme. Anna Gould, for some unhappy time the Countess Boni de Castellane, will sell her magnificent home in the Avenue Bois de Boulagne.

The probable purchasers are the members of a large stock company which has been formed to exploit the Bois de Boulogne palace as a sort of Paris "Sherry's." It is the intention to use the mansion for large entertainments, fashionable weddings, society balls, etc., purposes for which it is admirably adapted.

For the site on which the mansion was built Count Boni paid in 1895 some 4,700,000 francs ($940,000) of the Gould money. The house was built in imitation of the Little Trianon, cost more millions in construction and furnishing, and was the means of spending still other millions in lavish entertainments.

Mme. Anna Gould has been put to prodigious expense in settling some of her former husband's debts and paying off her lawyers' bills, and it has for some time been an open secret that she is hard pressed financially.

Cured of Rheumatism.

Mr. Wm. Henry of Chattanooga, Tenn., had rheumatism in his left arm. "The strength seemed to have gone out of the muscles so that it was useless for work," he says. "I applied Chamberlain's Pain Balm and wrapped the arm in flannel at night, and to my relief I found that the pain gradually left me and the strength returned. In three weeks the rheumatism had disappeared and has not since returned." If troubled with rheumatism try a few applications of Pain Balm. You are certain to be pleased with the relief which it affords. For sale by all druggists.

SON OF PROF. DWIGHT OF HARVARD IS A MONK.

Boston, April 23.—Joseph Dwight, 22 years old, the son of Prof. Thomas Dwight of Harvard university, has become tired of the pleasures of this world and joined the Trappist order of Our Lady of the Valley at Hardale, R. I. His decision has met the approval of his parents.

He was formerly a student in the Massachusetts Institute of Technology in the class of '04, but did not graduate on account of ill health. After leaving college he went to work as clerk. Illness again compelled him to give up, and on his recovery he decided to devote his life to religion. His life in the monastery will be that of a recluse. Silence is mandatory among the Trappists, with the exception of the morning prayer.

The monks rise at 2 a. m., and after an hour of prayer partake of hard bread and black coffee. They go out into the fields in charge of French priests and work until noon, when they have a dinner of vegetable soup with plenty of bread. They sleep until 4 o'clock, when they go out into the fields again, staying this time until 6. Supper is served at 7 and the monks go to bed at 8 o'clock.

Buy a Ticket to Chicago

Good on the Burlington's Chicago Limited, leaving Minneapolis 7:50 p. m., St. Paul at 8:40 p. m. daily (no extra fare).

Before you have gone fifty miles on your journey you will know why it is the most satisfactory train between the Twin Cities and Chicago.

Other good trains for Chicago leave Minneapolis 7:30 a. m., 9:50 p. m., St. Paul at 8:20 a. m. and 10:30 p. m.

QUESTION OF GARBAGE

Council Will Have to Face Collection Proposition Soon.

Health Department Has Big Contract for Spring Cleaning.

Garbage collection is a question which is due to be sprung by some member of the city council within the next few weeks. The need for it is becoming more and more apparent as the weather grows warmer, and Health Commissioner Murray is becoming more and more anxious that something be done about it.

"Until we have a systematic municipal garbage collection Duluth will be confronted with a condition of filth similar to what we have to deal with this spring, every winter during which there is any considerable snow fall," said Dr. Murray. "People pitch refuse into alleys and back yards and it is charitably covered by snow, before conditions become insanitary enough to warrant the intervention of the department, for it is only the insanitary, not the unsightly with which we have to deal. In the spring it is still there.

"I expressed myself about as forcibly as I care to in my annual report. We have got to compel people to dump their garbage into air tight metal cans, and provide a suitable method for its collection and transportation to an incinerator. As long as we do not do this the health department will be up against just such a colossal undertaking every spring as we are facing today.

"We are pushing things just as fast as we can but people must realize that it has thawed but very little this spring and most of the refuse is as yet under quantities of ice and cannot be moved. Our incinerator engineer says that there is twice as much stuff going to the incinerator and the dumps this year as last, and we have every available scavenger at work."

Thus far the much discussed question has not even been hinted at within the boundaries of the council chamber and none of the aldermen have considered it as far as known. The warm fight last season over the proposition will be remembered by all when an attempt was made to get the work done by contract.

The contract boosters are still in the field however. A conuractor, they say, can do the work cheaper than the city because he can get more from his men, and is not expected to pay such wages or grant such privileges as the city would be, while politics would be eliminated from the management of the department.

UNIQUE MESSAGE OF A MAYOR IN OREGON.

Eugene, Or., April 23.—At a meeting of the Eugene city council the other night, at which time Mayor J. D. Mattock and the new councilmen took the oath of office, there were two very unique features: The opening of the meeting by prayer by Rev. F. C. Sanderson, dean of the Eugene Divinity school, upon the invitation of the new mayor, and the new mayor's message to the council.

The message was most unique and one of the briefest in the annals of the council, and that, together with prayer on the opening of the meeting, has created widespread comment. Salient paragraphs of the message were as follows:

"A public office is a public trust, conferred on you by your fellow citizens; therefore perform your duties with pure heart and clean hands."

"Remember you are servants of the people, and not their masters; therefore do right—you cannot serve two masters at the same time."

"Fear God rather than man or corporate influence, for this is the beginning of wisdom."

"Be broadminded, progressive and liberal. Encourage improvements, commerce, education, morality and sports."

"Place the value of man above the value of the dollar, for such is the will of God."

"God and one man are stronger than satan and all his hosts."

"In this country the voice of the people is the voice of God for good."

BIG STICK FOR ROOSEVELT.

Citizens of Brownsville to Present President With Jewelled Memento.

Galveston, Texas, April 23.—With a suggestion that he use it to make the senate investigating committee give Brownsville a fair show, President Roosevelt is to be presented with one of the most costly "big sticks" ever used. The citizens of Brownsville feel grateful to the president for dismissing the negro soldiers from the army for the raid, on the night of Aug. 12 last, and will give him a big stick as a memento.

The "big stick" weighs nearly five pounds and is in the form of a walking cane made of Mexican coffee wood taken from the former home of Gen. Samuel Houston before he became president of the republic of Texas. The wood has been preserved in the family for half a century and could not have been bought at any price owing to its historical value. The cane is hand carved and the intricate engraving of various state and national emblems represents six months labor.

Texas silver is used in the mounting and jewels are inlaid about the handle. A special committee will be sent to Washington to present the token to the president.

POOR MAN SENT $250.

Russian Donates Most of His Savings to Starving People.

St. Petersburg, April 23.—Ambassador Riddle has transmitted to the Russian Red Cross $5,000 collected through the American Red Cross for the relief of famine sufferers. Another American contribution received is $250 sent by Mr. Elynski of Davenport, Iowa. Mr. Elynski, who was born in Russia, explains in a letter that he is a poor machinist, and the remittance represents a great part of his savings, but he could not enjoy the money while unfortunates in the fatherland were starving.

The free economic society, which is conducting extensive relief work, has received $20,000 from New York.

ADEE VERY METHODICAL

Second Assistant Secretary of State Gone on European Trip.

Extortionate Rates by Hotels in Vicinity of Jamestown Exposition.

FROM THE HERALD WASHINGTON BUREAU.

Washington, April 23.—(Special to The Herald.)—Alvey A. Adee, second assistant secretary of state, has gone to Europe. That is by no means an uncommon occurrence, for Mr. Adee goes to Europe nearly every summer. Mr. Adee will tout France on a bicycle. That is nothing new either, for the bike is Mr. Adee's common vehicle of travel on the continent. Nor is it an unusual thing for an American official to visit Europe. They go in droves every year, but not one man in a million arranges his itinerary beforehand. Mr. Adee spends six months out of every twelve in "laying out his course." When he left Washington he carried in his pocket a program that for completeness of detail has never been approached. He knows within an hour what time the French liner Savoie will reach Havre. He has arranged for his first meal on French soil, and the French Boniface has already been advised as to the number of courses and the component parts of each. Mr. Adee had figured out to a nicety just where he will repose the first night of his stay and has even arranged for the exact location of his room. He can reach it without a candle. The second morning, rain or shine, he will have ridden at least ten miles before he takes his cafe au lait and rolls. He has his "dejeuner" and dinner menus prepared and at each inn and hotel on his journey the proprietor has already been advised as to the exact minute when the distinguished guest may be expected and exactly what food and drink to prepare and at what moment of time it must be served. There must never be the slightest deviation, for the Adee program is as carfully adjusted as the works of the chronometer on the avole itself. Mr. Adee is methodical. He is always accurate to a degree; that is why he is regarded as the most valuable man in the state department. His position can always be depended upon, whether he is needed to define a diplomatic note or to reach a point in Europe at a given second of time, which he has previously marked on his "sailing chart" before leaving Washington for his annual vacation.

The departure of Mr. Adee recalls a funny telephone story in connection with his name. Some months ago a New Yorker called up the state department on the telephone and upon being properly connected he said:

"I would like to know the name of the second assistant secretary of state."

The voice at the other end replied: "A. A. A-dee."

"What's that?" inquired the stranger.

"A. A. Adee" was the answer.

"How do you spell it?"

"A. A. A-d—" was as far as the clerk could get when the enquirer exclaimed: "I don't want to hear a primar class repeat alphabet. Please oblige me with the name of the second assistant secretary."

"That's what I am trying to do," irately replied the clerk, "his name is A. A. A—"

"Oh, h—" yelled the gentleman from Gotham, and he hung up the 'phone.

* * *

Reports from the Jamestown exposition seem to indicate that the proprietors of the boarding houses and hotels in the vicinity of the forthcoming fair have formed a combination for the purpose of bilking the public to the utmost of their ability. Government officials and others who have had business at the exposition grounds all report that the hotels in Fortress Monroe, Newport News, Hampton, Portsmouth, Norfolk and Jamestown, as well as the summer resorts in the immediate neighborhood have quadrupled their rates in many instances, and even regular guests have been notified that they must pay double or move on after the first of May. All of the towns and cities in the vicinity of Jamestown combined have not sufficient hotel accommodations to accommodate anything like an extraordinary crowd, and if it should happen that the naval review, which will be a grand sight in itself, should attract a great concourse of people to tidewater Virginia the visitors will not stay very long, unless the greedy hotel men revise their programs. Already the reports of exorbitant charges have caused many who intended to visit the fair to cancel their arrangements. There will undoubtedly be many wealthy people owning their yachts, who will take parties down to the exposition and entertain them upon their vessels. Intending visitors to Jamestown would do well to wait until June, at least, before making their contemplated trip, at it will certainly be the end of May before the show will be in full running order.

The navy department is already well represented and the fleet gathered in Hampton Roads is a glorious sight and one which gives the American citizen an excellent idea of what has been done towards building up the sea power of this republic. In 1893 there was a somewhat similar display of men-o'-war previous to the opening of the World's fair in Chicago. Then later there was a gallant exhibition of American war vessels in the harbor of New York. The display of 1907 will probably be the feature of the Jamestown celebration, and if only the food purveyors of the Virginia shores will be satisfied with decent profits on their investments, there will undoubtedly be many thousands of visitors from the North and West, but they must change their methods quickly or the anticipated financial harvest will certainly be blighted.

* * *

The navy department is waiting with a great deal of interest the outcome of the tests of submarine torpedo boats, which are to be made early in May in the waters of Long Island sound. The appropriation for the next fiscal year for vessels of this character amounts to $3,000,000. This sum is sufficient to pay for the construction of six vessels of the highest type. The tests to be made are between boats that are known as the Holland and Lake type, and whichever one proves to be the most effective under the water and on the surface will be adopted as the type for the navy in the future.

Up to the present time the half dozen or so submarine boats purchased by the navy have been made on the modified lines of the original Holland boat. But the Lake people claim they have a superior vessel and the test will demonstrate whether or not their claim is worthy of consideration. The fight is between the octopus of the Electric Boat company's design and the Lake built by the company bearing that name. Each company claims superior navigating abilities for its own production and these claims are to be settled by a board over which Commander Marix will preside.

When submarine torpedo boats were first added to the navy they were not popular among officers and men, but since President Roosevelt and Commander "Dick" Wainwright of Gloucester fame, tested sub-surface navigation personally no difficulty has been experienced in finding officers and crews to man them. The submarine torpedo boat has come to stay and it will undoubtedly prove an effective means of coast defense should this country get into another foreign war.

Insist upon its being Pabst Blue Ribbon Beer—the perfection of brewing. The famous Eight-Day Maturing Process makes it so.

'Phone, 346.

COCKRELL REFUSES TO AID HIS WAYWARD SON.

Washington, April 23.—Interstate Commerce Commissioner Francis M. Cockrell, former United States senator from Missouri, and one of the best known men in national life has made a public statement, repudiating and practically disowning his son, Ephraim Cockrell, on account of the latter's misconduct.

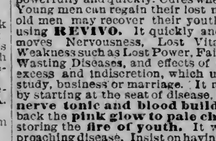
Ephraim Cockrell, who is only 24 years old, is in Europe. He is said to be accompanied by a young woman who poses as his wife. The real Mrs. Ephraim Cockrell is in Washington with the family of her father-in-law.

Ex-Senator Cockrell has been ill for many months, and his son's wife was devoted in her attention to him until he was taken South for the benefit of his health.

The ex-senator returned to Washington recently, and Mrs. Ephraim Cockrell, who has been with her father in Maryland, joined him here.

This is Mr. Cockrell's statement:

"I have done my best in my son's behalf, but he has declined to follow my advice. Already he has proved a source of great expense to me, and I am now unable to render him further assistance. Those who deal with him must do so independently of his relationship with me.



"No one can more deeply or sorrowfully regret the course he is alleged to be pursuing than I. He has treated his wife shamefully. She has not been with him in Europe, but has either been with me or with my family, or with her father's family. Ephraim left this country last June, and since then I have had no communication with him, nor have I his address.

"The news contained in London dispatches is, indeed, humiliating to me."

California Excursions.

On account of the Mystic Shriners' convention and conference of German Baptist Brethern at Los Angeles, Cal., the Minneapolis & St. Louis railway will sell tickets to San Francisco and Los Angeles, Cal., from April 25 to May 18, limited to July 31 for return passage, at rate of one fare for the round trip. Rate will apply going via any direct route, returning via any other direct route. Stopover privileges granted at any point. For further particulars call on agents or address A. B. Cutts, G. P. T. A., Minneapolis, Minn.

Disease and Health

REVIVO RESTORES VITALITY

"Made a Well Man of Me."

Bar Sickness From the Nursery

Keep **the children well!**

The best way to insure their health is to *prevent* the attacks of ills to which they are most subject.

You *can* guard them against attacks of sickness by fortifying them with the oldest and most reliable medicine and tonic known—

DR. D. JAYNE'S TONIC VERMIFUGE

A Safe Worm Cure

A large percentage of children have worms. A very large proportion of children's ills are directly due to this cause, and to the weakening effect of worms on the child's frail system.

JAYNE'S TONIC VERMIFUGE has for over four generations successfully expelled worms and kept children strong and healthy. This long-tried worm-cure and child's tonic is the best medicine you can possibly give your children, and the best way you can insure their health. Per bottle, 35c. and 50c.

JAYNE'S EXPECTORANT has been a reliable cure for Croup, Whooping Cough, Coughs, Colds, Bronchitis and other lung troubles for 77 years.

Beer—FITGER'S Beer—

A Temperance Beverage

What was the attitude of "The Fathers" toward beer?

James Madison and Thomas Jefferson enthusiastically fathered the cause of malt as against distilled liquor, the former trusting "that the brewing industry would strike deep root in every State in the Union," and the latter stating that "no nation is sober when the dearness of fermented drinks substitutes ardent spirits as the common beverage."

The value and nourishment of

Fitger's Beer

lies not in its percentage of alcohol (only 3½ per cent) but in the wholesome product of malted barley and well cured hops.

FITGER BREWING CO.
Duluth, Minn.

Articles of Incorporation ---OF--- LUNDMARK-FRANSON COMPANY.

For the purpose of forming and being a body corporate under and by virtue of the provisions of Chapter 58 of the Revised Laws of Minnesota for the year 1905, and all laws amendatory thereof, the undersigned have adopted, signed, sealed and acknowledged the following Articles of Incorporation.

ARTICLE I.

The name of this corporation shall be "Lundmark-Franson Company," and the nature of its business shall be the carrying on of any kind of mercantile or transportation business, buying, selling and improving lands and tenements, and such other lawful enterprises as are incidental to the above specified purposes of this corporation. The principal place of business shall be Duluth, Minnesota.

ARTICLE II.

The period of duration of such corporation shall be thirty (30) years. And the time of the commencement shall be the 1st day of May, 1907.

ARTICLE III.

The names and place of residence of the incorporators are Charles Franson, J. E. Lundmark and Louis Cato, all residing at Duluth, Minnesota.

ARTICLE IV.

The government of this corporation and management of its affairs shall be vested in a board of three directors, each of whom shall be stockholders, and the following officers to be chosen by the said Board of Directors from among the stockholders of said corporation, to-wit: President, Vice President, Secretary and Treasurer; any two of said offices may be held by the same person with the exception of the offices of President and Vice President.

The Directors shall be elected by the stockholders by ballot, each stockholder being entitled to cast as many ballots as he has shares of stock annually on the first Monday after the first Sunday in June in each and every year commencing with the month of June, 1907.

The said officers and directors shall each hold office for one year from the first Monday after the first Sunday in June and until their successors are elected and qualified. Until said officers are elected the following named persons shall act as the first Board of Directors, to-wit, Charles Franson, J. E. Lundmark and Louis Cato. And until such election the following named persons shall be officers of said corporation, Charles Franson, President; Louis Cato, Vice President, and J. E. Lundmark, Secreary and Treasurer.

The annual meeting of both the stockholders and directors shall be held on the first Monday after the first Sunday in June of each year, and besides such annual meeting any other special meetings may be held at such time and place as may be prescribed by the by-laws.

ARTICLE V.

The number of shares of the capital stock of said corporation shall be five hundred (500), and the amount thereof shall be one hundred dollars ($100) each, and may be paid for either in property, money or services as the Board of Directors shall elect, and said stock shall be subscribed for at such times and in such amounts as may be prescribed by the Board of Directors. This corporation may commence doing business when twenty per cent (20 per cent) of its stock shall be subscribed for.

ARTICLE VI.

The highest amount of indebtedness or liability to which this corporation shall at any time be subject shall be Fifty Thousand Dollars ($50,000).

IN WITNESS WHEREOF we have hereunto set our hands and seals this 18th day of April A. D., 1907.

CHARLES FRANSON, (Seal.)
LOUIS CATO, (Seal.)
J. E. LUNDMARK, (Seal.)

Signed, Sealed and Delivered in Presence of
H. B. FRYBERGER,
AUSTIN LATHERS.

State of Minnesota, County of St. Louis—ss:

On this 18th day of April A. D. 1907, before me a notary public within and for said county, personally appeared Charles Franson, J. E. Lundmark and Louis Cato, to me well known to be the persons described in and who executed the foregoing Articles of Incorporation and they severally acknowledged that they executed the same as their free act and deed.

H. B. FRYBERBER.

M. C. PALMER,
Register of Deeds.
By THOS. CLARK,
Deputy.

CONCERNING WOMEN

Duluth society was much interested in the wedding of Odgen H. Hammond of Superior and Miss Mary Stevens of New York, which took place in New York on April 8. Mr. Hammond is well known in Duluth society, and the following account of the wedding will be of interest to many here:

"The marriage of Miss Mary Stevens to Ogden H. Hammond of Superior, formerly of St. Paul, took place in Trinity church, Hoboken, on April 8. Fashionable New York was present at the ceremony, and at the reception that followed at Castle Point, as the bride belongs to an old New York family, and the Stevens home is one of historic interest.

"The bride wore an empire gown of ivory satin, embroidered in roses of chiffon and seed pearls, with yoke and sleeves of rose point, the same lace bordering a tulle veil held in place with orange blossoms. In her hair was worn a small tiara of diamonds, the gift of the bridegroom. The maid of honor, Miss Marvin of Kentucky, wore a white chiffon cloth costume, with a three-quarter lace coat and large leghorn hat trimmed with white plumes and pink roses. The bridesmaids, four young cousins of the bride, wore lingerie frocks of handkerchief linen and Valenciennes lace and carried baskets of pink roses and streamers of soft pink ribbon. Mr. Hammond's brother, John H. Hammond, of New York, acted as his best man.

"Mr. and Mrs. Hammond sailed for Europe the day following the wedding, and expect to remain abroad for two or three months.

"On their return they will be at home in Superior."

May Wedding.

Invitations have been received in this city from Mr. and Mrs. F. C. Smith of Minneapolis for the wedding of their daughter, Miss Gertrude Smith, to Edward H. Mirick of this city. The wedding will take place Wednesday, May 8, at the home of the bride's parents on Stevens avenue, Minneapolis. The bride is well known in Duluth, as the family made their home here for many years. The wedding will be a quiet home affair, the service to be read at 2 o'clock in the afternoon. Mr. Mirick and his bride will be at home in Duluth after July 1.

Ideal Mme. Butterfly.

Duluthians are still interested in the press notices that follow Rena Vivienne's appearance in the title role of "Mme. Butterfly," as produced by the Savage Opera company. One of the recent notices is from the Denver correspondent of the Musical Leader and Concert Goer, and is as follows:

"Concerning the three Madam Butterflys who were heard here, it may be said each formed a circle of special admirers, towit: Mme. Szamossy, for her beauty of face, form costume and some of her dramatic poses. All of these were greatly admired by the audience. Miss Easton added many to her already large number of friends and admirers. Her voice retains its purity and has gained materially in breadth and depth. She sings well. Her acting in the final scenes with the child was exquisitely pathetic. Miss Easton caused more tears to flow than did either of the other Madam Butterflys. Her death scene was splendidly dramatic. Miss Easton's singing and acting give great promise for a bright future.

"Miss Vivienne, taken altogether, was the ideal Madam Butterfly. She sang, acted and lived the part almost faultlessly. Her voice is rich, pure, mellow and very sympathetic. Her interpretation showed such clear conception of every detail that it made her work appear the more realistic. Concerning the other members of the company who were heard here it may be said that their work was wholly satisfying."

ANNUAL MEETING

Of Matinee Musicale Is Held at Steinway Hall.

The annual business meeting of the Matinee Musicale was held esterday afternoon following the last regular program of the year and the officers selected were: President, Miss Mary Syer Bradshaw; vice president, Mrs. Margaret McLean; recording secretary, Miss Wiley; corresponding secretary, Mrs. Fred Bradbury; treasurer, Mrs. George Richards; librarian, Miss Woodbridge; directors, Miss Berenice Crowley, Mrs. Stephen Jones and Miss Winifred Holmes.

The reports of the officers were read. The year has been a successful one and the artist recital programs presented by the Olive Mead quartet, Herbert Witherspoon and Arthur Hartman, have been especially delightful. The club has been carried through financially and has a surplus of $43.52 with which to begin the next year's work. The expenses of the year were as follows: Olive Mead quartet, $296.50; Witherspoon recital, $252.75; Hartman recital, $221.75; current expenses, $211.77. From dues and artist recitals and a surplus of $29.49 from last year, the entire amount in the treasury for the year was $1,026.29.

A committee consisting of Mrs. George Richards and Mrs. Stella Prince Stocker was appointed by the president, Mrs. Percy S. Gough, to arrange for the representation of the Duluth Matinee Musicale at the general musical program at the biennial meeting of the Federated Musical clubs, which will be held at Memphis, Tenn., in May of this year.

The program presented was of miscellaneous selections and was arranged by Mrs. Margaret McLean. The numbers were well presented and the afternoon was a fitting close to the year. The members who appeared were Mrs. D. H. Day, Miss Elizabeth Morton, Mrs. C. P. Craig, Mrs. Leo Ball, Mrs. Saul Goldberg and Mrs. Wayne Clarke.

Personal Mention.

Mrs. E. A. Silberstein left yesterday for a month's trip to French Lick Springs, Ind.

• • •

Miss Louise Hicks and Miss June Carra are visiting at St. Paul for a few days.

• • •

Mrs. Charles Neimeyer and Mrs. E. H. Pugh have been called to St. Joseph, Mo., by the illness of their father.

• • •

Mrs. Stillman H. Bingham of 1607 East Fourth street has returned from Ashland and St. Paul where she passed the winter. Mr. Bingham will return from St. Paul tomorrow.

Events of Interest.

The Evening Art History class will meet tomorrow evening at the club room of the library for the last meeting of the year. The morning class has completed its study.

• • •

Circle No. 2 of the Ladies' Guild of Endion Methodist church will meet tomorrow afternoon at 2:30 o'clock with Mrs. F. H. Merritt of 1827 East Second street.

• • •

The Park Point Auxiliary of the First Presbyterian church will meet Thursday afternoon with Mrs. W. L. Jackson, Twentieth street, Park Point.

• • •

The Ladies' Aid society of the Lester Park M. E. church will meet tomorrow afternoon at the home of Mrs. W. J. Stevenson, 5719 Oneida street.

• • •

Mr. and Mrs. J. M. Oreckovsky of West Third street have announced the engagement of their daughter, Miss Lena Oreckovsky, to B. Davidson of Chicago.

Would You Care!!

If we should offer you a very beautiful Piano and Pianola to make your home one

Grand Sweet Song

To help educate your children in music, at the same time enable you to play yourself, and have a visit with all the leading composers, and artists in the world, every evening after daily toil and labor, at your own home, for the small price of

$275

A small payment down and $10 per month.

This splendid opportunity is now offered to you.

Would you care to avail yourself of this offer. Call at the

Duluth Music CO.

222-224 West First St.

What Retail Markets Offer.

Egg plant, 25 cents each.

South African pears, 25 cents each.

Green onions, 3 bunches for 10 cents.

New beets, 10 cents a bunch.

Strawberries, 20 cents a quart.

Sirloin steak, 20 cents a lb.

Hamburger steak, 12½ cents a lb.

Shad roe, 45 cents a pair.

There is no longer any use of dodging the issue—there is nothing new in the market. Chagrined, and downcast, and discouraged, and unsuccessful, it must be admitted that the market is exactly as it was this time last year, and just the same as it will be tomorrow. New potatoes may become a few cents cheaper, and the berries may get a little riper, and the fruit may become more plentiful, and the vegetables may descend to a price where a combination salad is an everyday necessity, but the great fact remains that the market does not change. "Change and decay" may have been what the hymnist saw in all around, and, of course, one would hate to contradict him, but he surely did not study the morning markets or he would never have been so sure about the first part of that phrase.

Like most other things in life, the condition is altogether in the eyes of the beholder.

PUBLICITY IS RECOMMENDED

By Railway Age As a Cure for Railroad Accidents.

Chicago, April 23.—Publicity is recommended in a striking editorial in the Railway Age as a cure for railroad accidents. The Age says, in part:

"The publicity which is given to railway accidents by the press and by the interstate commerce commission is the cause of much bitter arraignment of railway managements, but is of little benefit to the public, to the railway managers or to the railway employes. Might not a different kind of publicity make for the great benefit of all of these parties? As it is now, the principal facts which reach the public are that so many persons were killed and so many were injured in a certain period. The attention of the public is not directed to the persons who are primarily responsible for these fatalities and injuries, and its resentment is visited upon the management, even when every precaution that human foresight could devise has been taken.

"Could the censure of the public be directed to the employe instead of to the manager, and could there be aroused a public feeling which would enforce the existing laws to punish criminal negligence, there could not but result an improvement in the discipline of the railway service.

"The question arises as to whether the railways could not themselves accomplish all the good results to be expected of a government board to investigate accidents, were they to pursue systematically the policy of giving to the press at regular intervals the results of their own investigations into the causes of accidents. Probably the railways could, with advantage, go further and report to the public serious acts of negligence on the part of employes, even though no accident resulted.

"Reference to recently published statistics from various sources show: (1) That in the five years that the railways have made reports of accidents to the Interstate commerce commission, over 70 per cent of the serious collisions on American railways have been due to the negligence of train men and engine men. (2) That where serious collisions have occurred on lines protected by block signals, 94 per cent of these have been due to negligence of train men and signal men.

"Such facts as these cannot be ignored, and the point it is desired to make is that good discipline and a high morale among railway employes are essential, if such appalling accidents as those fresh in the minds of all our readers are to be prevented. Discipline is difficult to enforce in a republic, and, in fact, cannot be enforced unless the authority administering it has the sympathy and support of the public. Without the support of public opinion any statute will soon become a dead letter."

DIED FROM OPERATION.

Bemidji, Minn., April 23.—(Special to The Herald.)—Roy Mitchell, the son of Mr. and Mrs. A. W. Mitchell of this city, died Sunday afternoon, being unable to withstand the shock incidental to an operation which he underwent last Friday for relief from an aggravated and long-standing attack of appendicitis. He was 17 years of age.

VISITORS ENTERTAINED AT THE BANQUET BOARD

"The Minnesota Steel Company" Will be Organized Shortly.

Speakers Predict That Duluth Will be Important Steel Center.

Cement Plant to be Established at Cost of $500,000.

Following their trip of inspection to the proposed sites for a steel plant on the St. Louis river, the members of the committee of experts who are in the city for the purpose of selecting a site for the steel plant, were last evening entertained at a banquet at the Commercial club, to which about sixty guests were invited.

The banquet was served shortly after 7 o'clock, and it was followed by a short, informal program of speeches.

T. W. Hugo acted as toastmaster, and the guests of honor were: W. B. Dickson of New York, second vice president of the United States Steel corporation; T. W. Robinson of Chicago, first vice president of the Illinois Steel company; J. S. Keefe of Chicago, traffic manager of the American Steel & Wire company; F. H. Daniels of Worcester, Mass., chief engineer of the American Steel & Wire company; E. E. Slick of Pittsburg, mechanical engineer; Edward M. Hagar of Chicago, president of the Universal Portland Cement company; John Reis of New York, assistant to the president of the Steel corporation; George L. Reis, manager of the Milwaukee plant of the Illinois Steel company; and M. A. Neeland of New York, a mechanical engineer.

The Duluth men present at the banquet were as follows: W. E. Manger, T. W. Hugo, Thomas F. Cole, W. J. Olcott, J. H. McLean, A. B. Wolvin, W. A. McGonagle, A. C. Weiss, Millie Bunnell, G. G. Hartley, M. B. Cullum, A. L. Ordean, F. E. House, Julius H. Barnes, Watson S. Moore, A. W. Frick, D. T. Helm, G. A. Tomlinson, Alexander McDougal, C. A. Duncan, W. G. Heggardt, W. I. Prince, C. A. Luster, H. R. Armstrong, Thomas Pettigrew, H. P. Broughton, Edward P. Coleman, A. J. Cokefair, H. V. Eva, C. F. MacDonald, Whitney Wall, N. J. Upham, Henry Nolte, W. B. Silvey, Percy S. Anneke, O. H. Simonds, R. S. Powell, Judge W. A. Cant, Herbert Warren, G. H. Crosby, W. B. Patton, George D. Swift, H. L. Hartenstein and W. E. Richardson.

Mayor Cullum Speaks.

After the banquet had been enjoyed, Mr. Hugo called upon Mayor Cullum to open the program. The toastmaster stated that he had been informed that the guests of honor could not be inveigled into making any speeches, but that he hoped that they would be coaxed into it before the evening was over.

Mayor Cullum's remarks were brief and to the point.

"The occasion is so unsual and out of the ordinary," said his honor, "that the ordinary things that I might say, which would suit the ordinary occasion, would not meet the requirements. I question my ability to express my satisfaction and the deep appreciation of the action of the Steel corporation in deciding to erect a steel plant in this city. This sentiment also extends to those gentlemen who have been instrumental in bringing it about. I cannot but feel that we people of Duluth have been very fortunate in receiving at the hands of the Creator the natural conditions which have made this industry and others practicable. Some day one of the great cities of the world will stand on these rocks beckoning to the North, the West and the South to bring hither their resources of the mine, the forest and the farm. You gentlemen will be largely instrumental in redeeming these promises of a great future for this city. I assure you that in coming to Duluth you will meet as fine a body of clean cut business men as there are in America."

The mayor's remarks were freely applauded, and Toastmaster Hugo next called upon F. A. Patrick, the first president of the Commercial club.

F. A. Patrick's Talk.

Mr. Patrick spoke briefly on the importance of the Commercial club, saying that it was an institution of which Duluth might well feel proud, as no other city of this size could boast of a club of this kind with 1,000 members or more.

"I came to Duluth as a trader," said Mr. Patrick, "and I believe that it is the history of events that the trader precedes the manufacturer. Manufacturing comes to meet the demands of the trader for those things which he has a market for. I think that Duluth is recognized as a natural manufacturing and distributing point. Other manufactures will follow in the wake of the steel plant and I am glad that our dreams of future greatness is about to come true."

W. B. Dickson Speaks.

W. B. Dickson, the head of the committee, was the next speaker. Mr. Dickson proved to be an excellent after dinner talker, and had a number of good anecdotes, which were enjoyed by his hearers. One might have referred to Duluth. It was told of Andrew Carnegie, whom the speaker said, was much perturbed when a boy to find that the area of England was greater than that of Scotland. His uncle, however, assurred him that Scotland would be the larger if it were 'ironed out.'

"The Minnesota Steel Co."

"I don't believe I can tell you anything that you don't know now," said Mr. Dickson in closing. "It is the intention of the Steel corporation to organize a company to be known as 'The Minnesota Steel company.' The plant to be constructed here will, we hope, be bounded on the North by the good will of the people of Minnesota, on the south by eternal development, and on the west by an expanding market."

Mr. Dickson's closing remarks were the signal for prolonged applause, and he was assured by the toastmaster that the people of Duluth would guarantee these things.

Captain Wolvin Talks.

Capt. A. B. Wolvin was next called upon to speak as a practical and successful Duluth iron manufacturer. Capt. Wolvin briefly reviewed the history of the plant of the Zenith Furnace company at West Duluth, and said that it had been a commercial success since the by-product coke ovens had been installed.

He closed his speech by proposing a toast to Thomas F. Cole, "the man to whom is due in great measure the success of the iron and steel enterprise here, and who has done much more for the people of Duluth than any other man." The toast was most enthusiastically received, and drunk standing.

Mr. Cole Responds.

Mr. Cole responded with a few apt remarks. He said in part:

"Coming to reside with the people of this city, I would say after several years of close companionship that I firmly believe in their integrity and honesty of purpose, and the good will of business people as evidenced toward our corporation. They treat with us fairly. I have been pleased at all times with the fairness of Duluth people and with the fairness of Minnesota people generally, when they are in possession of the facts. We have found a persistent but fair minded and reasonable request on the part of the people here that sometime, when the occasion was right, we should reduce a part of our ores here, but at all times we have been treated fairly and impartially. That spirit has imparted itself to us, and the recent developments are known to you all.

"I visited the Steel corporation's plant at Gary last week. I want to tell you that a steel plant is a tremendous thing, and it will be better and more generally understood here when we get fairly started on the shores of the St. Louis river. Nature has done much for Duluth. The ore deposits of the state have, in my estimation, not yet all been discovered, and I am sure there are great reserves yet to be disclosed. Duluth will be a good distributing point. We can distribute almost as well here as from Chicago. We believe in the Northwest as well as the Southwest and I hope that we shall yet have reciprocal relations which will enable us to go into Canada and find no barrier.

"The officials of the Steel corporation are always ready to listen to any just request on the part of any community in which it is interested. There is no place that they have met more friendly faces than in Duluth." (Applause.)

Overlooked Cement Plant.

Edward M. Hagar followed Mr. Cole. Mr. Hagar is president of the Universal Portland Cement company, and he proved that the cement business does not prevent a man developing abilities as a humorous after-dinner speaker.

He joked the Duluth people about overlooking the cement industry, and said that during the dull period of 1903-04, when some of the furnaces were shutting down, he indeed the corporation to keep some of them open to make cement. He said that the cement business came out of the waste basket of the Steel corporation, but that it was a large and important item. He showed that he was thoroughly familiar with the cement business of the Lake Superior district, and quoted statistics of the shipments of cement to the Head of the Lakes. They showed that the business nad doubled in the last two or three years.

Mr. Hagar stated that the proposed steel plant would include a cement plant, costing $500,000, and employing 250 men. The plant would have a capacity of 1,500 barrels of cement a day, and would be an extensive industry in itself.

Mr. Hagar concluded his speech with a toast to "The Steel Plant and the Cement Plant," which met with the hearty approval of all present.

Henry Nolte spoke very briefly, and said that if it were true that the city was overlooking the cement plant, it might be a good idea to discover if anything else were being overlooked.

O. H. Simonds gave a very interesting talk on the early efforts to establish the iron industry in Duluth. He said that the pioneers in the industry lost their money cheerfully, and were glad to see it being taken up successfully on a larger and grander scale.

Capt. Alexander McDougall spoke entertainingly touching on the question of labor. He said that Duluth possesses the finest body of laboring men in America and, in addition, a class of business men who would lend such a corporation every support and encouragement.

Too Active Gastronomically.

T. W. Robinson of Chicago said that the only criticism he had of Duluth was that it was too active gastronomically. He referred to Duluth as "The celestial city of unstinted hospitality," and expressed his appreciation of the treatment which had been accorded the members of the committee. Mr. Robinson stated that Duluth, in his opinion, would become a very important point in the iron and steel industry, and expressed the hope that the next five years would see the "future Pittsburg of the Northwest" double in wealth and population.

Sums Up the Case.

Judge W. A. Cant was called upon to "sum up the case" by Toastmaster Hugo. This he did in the following words:

"We have come here appreciative of what has lately occurred, and the methods of the Steel corporation warrant the appreciation of all familiar with them. The high standing that the corporation has where it is best known and understood has stood it in good stead with the legislature. We are gratified that the Steel corporation is going to establish a steel plant here, and we hope that it will be the biginning of still greater and always successful things. It has been the corporation's policy to deal fairly and our business men know it. I have never found the corporation asking for a favor. All that it asks is fair treatment and it is proper and best that they get it. Let us maintain such policy to the end."

• • •

This morning the visitors were the guests of G. G. Hartley at breakfast at the Northland Country club.

The breakfast was an informal affair, served shortly before 9 o'clock. The following men composed the party: W. B. Dickson, T. W. Robinson, J. S. Keefe, F. H. Daniels, E. E. Slick, Edward M Hagar, John Reis, George L. Reis, M. A. Neeland, Thomas Cole, W. J. Olcott, W. W. Walker, E. P. Alexander and G. G. Hartley.

LATE DOINGS IN UPPER MICHIGAN

John A. Lowe, a Laurium Barber, Missing for a Week.

Laurium—John A. Lowe, colored, a Laurium barber, is missing. He has been conducting a shop in Laurium and has been connected with the business in the Copper country for over twenty years. His shop is in the hands of an employe who declares that he knows nothing of his employer's whereabouts. There is no known reason for Lowe's disappearance, and while his friends do not believe anything serious could have happened to him they are very anxious. He has been missing for a week. As far as is known Lowe is single and has no relatives in the Copper country.

Houghton—Dr. J. L. McD. Gibson, for the pat six years located in Houghton in the practice of dentistry, left that village Friday for a Marquette county town, where is to permanently locate. His departure caused astonishment to his friends in all the Copper country towns. It had not been thought for a moment that he contemplated it change. But the dental profession in Houghton is crowded, and Dr. Gibson evidently decided to make a fresh start.

St. Ignace—Mackinac Island is to be provided with banking facilities, which will prove a boon to the thousands of summer visitors as well as to the hotels and business men. J. F. Moloney of the Cheboygan County Savings bank, who recently organized banks at Indian River and Mackinaw City, has also organized the bank for the island. Other directors of the Cheboygan County Savings bank and himself will be largely interested financially in the new venture, as well as leading business men of Mackinac Island.

Marquette—Mrs. Catherine Martindale Babcock, an old and esteemed resident of this city, died at Tucumari, N. M., April 15, aged 83 years. Mrs. Babcock came to Marquette with her husband, the late Anson Babcock, in the fall of 1862. Three children, Mrs. C. A. Hall of Monterey, Cal.; Mrs. De Roy Welsh of Tucumcari, N. M., and James S. Babcock of this city, survive.

Marquette friends of the bride have received announcements by Mr. and Mrs. Franklin P. Burnham of the wedding of their daughter, Miss Jane Pearl Burnham, and George Wilson Tuttle, which occurred April 15 at Los Angeles, Cal. Mrs. Tuttle is known to many here, having frequently been a guest at the home of S. R. Kaufman.

Negaunee—T. C. Yates received a telegram Saturday morning advising him of the death of his father-in-law, L. Buschnell; at his home in Chicago. The deceased was 84 years of age. He was well known to many Negaunee people, as he frequently visited this cit. y

T. W. Simcox, who a short time ago closed out his plumbing and general repairing business in this city, will locate at Waupaca, Wis., where he resided a number of years before moving to Negaunee some eight or ten years ago.

Ishpeming—Mrs. Ingeborg Hammer, a resident of Ishpeming for about twenty years past, died Saturday at the home of Mrs. Bertha Sisted on Douglas street, with whom she lived. The deceased was 50 years of age. The husband of the deceased died in Norway before her departure for this country. She came out with her son, who was killed at the Salisbury mine a few years ago.

Mrs. Able Tallon left yesterday for Chisholm, Minn., to join her husband, who went up there a few months ago to take a position at one of the mines.

Deputy Postmaster John Delbridge and wife left today for England, on a two months' visit with relatives and friends.

Mandy—Hives and other blotches are supposed to be caused by an acid stomach. A simple remedy, and one that is very effective, is Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. Ask your druggist.

YOU SEE, we allow no poor quality garments to enter our store. You never see a "sleazy," cottony material nor a jumble of "ginger-bread" trimming in Gidding clothes. There are two things which go to make a perfect garment—the garment which will retain its shape and style long after it has ceased to be new. **These are cloth and tailoring.**

Only all-wool cloth of good quality will look well after hard wear, and good tailoring is the thing which lends perfect outlines to the stylish figure.

These two essentials are found in each and every garment that we have selected for our stock, they have imbued in them that indefinite note of charm and individuality which defies being copied. That is why one always feels "dressed" in a Gidding garment.

OBJECTS TO TESTIMONY

Legal Battle Over Admissibility of Evidence Causes Delay.

Fighting the state's rebuttal testimony on the alleged sanity of Fred Argyle at the time of the shooting at Lester Park, W. E. Culkin, attorney for the defendant, is placing every legal obstacle possible in the way of preventing the admission of evidence tending to show that Argyle was in a sane condition the day of the shooting and the day following.

Dr. S. H. Boyer of this city was called by the state as an expert witness on the question of insanity.

County Attorney Norton refrained his hypothetical question, based on testimony and observations of witnesses, alleged to have been brought out during the trial, and asked an expert opinion as to whether a person under those conditions was sane or insane.

Dr. Boyer unhesitatingly declared that he must have been sane. Under cross-examination Dr. Boyer said he based his answer absolutely on the hypothetical question, eliminating personality or any idea that Fred Argyle might have been the person referred to by the county attorney.

Busy Gidding Store.

Gidding's cloak department, always a busy place, was more crowded today than ever with women garment buyers. Their sale of three hundred high class tailor made suits at very decided savings being the magnet that drew to this store the most critical women shoppers of the city. The fact that a sale of this importance is held right at the threshold of the wearing season should quickly appeal to the economical instincts of those who desire goods of high character. Four different lots and four prices are named: Those formerly selling at $29.50 to $32.50 at $18; those formerly selling at $35 to $39.50 at $25; those formerly selling at $42.50 to $49.50 at $32.50; those selling at $52.50 to $58.50 at $38.50. No particular lot is large as they are the lines that for one reason or another will not be reordered this season and are, therefore, being closed out.

Top coats at the "Fitwell," $15.

F. S. KELLY FURN. CO.,
226-228 WEST SUPERIOR STREET.

SPECIAL NOTICE!

Owing to numerous requests from several of the wholesale houses and merchants, we have decided to keep our store open Tuesday and Wednesday evenings of this week, in order to give every one a chance to

VISIT THE
BUSINESS SHOW

MARKET IS IRREGULAR

Copper Stocks Show But Little Change From Monday.

Fairly Good Trading in the Local Curb Shares.

The copper stocks maintained a fairly good tone today. The prices did not show a great deal of change from yesterday. There was a slump during the middle of the session, but many of the shares rallied at the close. Some unlisted stocks were slightly off.

North Butte opened at $87.75, advanced to $88, went off to $86.25 and closed at $86 bid and $86.50 asked. Amalgamated opened at $96.75, advanced to $97.25, declined to $95.6½ and closed at $97.12½ bid. Anconda opened at $63, declined to $62.50, rallied to $63 and closed at $63 bid. Butte Coalition opened at $27.25, advanced to $27.50, declined to $26.50 and closed at $26.50 bid and $26.75 asked. Calumet & Arizona opened at $165, advanced to $166 and closed at $166 asked.

Greene-Cananea sold at $17.25, went off to $16.50 and closed at $16.25 bid and $16.50 asked.

Superior & Pittsburg sold at $18.37½, went off to $18 and closed at $18 bid and $18.25 asked. Globe Consolidated sold at $13.87½ and closed at $13.50 bid and $13.75 asked. Denn-Arizona at $10.25 and $10 and closed at $10 bid and $10.25 asked. Hancock sold at $9 and closed at $8.75 bid and $9.25 asked, and Copper Queen of Idaho sold at $1.50 and closed at $1.50 bid and $1.62½ asked.

Keweenaw closed at $10 bid and $10.25 asked, Carman at $3.75 bid and $4.25 asked, Calumet & Sonora at $22 asked, Calumet & Montana at $1.12½ asked and Cliff at $3.75 bid and $4 asked. Black Mountain sold at $6 and closed at $5.87½ bid and $6.12½ asked.

* * *

It is rumored that F. Augustus Heinze, the Millionaire mining man of Butte, is trying to purchase the Panhandle smelter at Sandpoint, Idaho. A number of Duluthians hold stock in the Panhandle company.

MILLINERY OPENING.

American and Foreign Headgear Display at the Glass Block.

The firm of Panton & White Co. has been for some time preparing a rare treat for the ladies of Duluth and vicinity, who admire the highest type of beauty and elegance in headwear.

A few years ago artisans put the finishing touches on a suite of French pattern rooms, in the millinery department, which, in point of elegance, clearly outclasses anything of like nature that Duluth has ever seen, and which rank with the finest of the big stores in the largest Eastern cities.

On another page announcement is made of the opening exhibit of French and American made headwear of highest character and beauty. The opening occurs Wednesday, April 24th, and continues throughout the week.

Panton & White Co., through The Herald, extends to every woman a cordial invitation to visit and inspect this display. Such artists as M. Lewis, Camille Roger, Mme. Georgette and Mme. Ponyanne of Paris have contributed of their choisest creations to this display.

CITY BRIEFS

For Rent.

Two front office rooms in our building, 212 West First street, Northern Electrical company.

Bisbee Broker Sued.

D. S. Fairchild and Joseph C. Helm, trustees for Fred H. Merritt, the stock broker, have instituted a suit against Frank J. Graf, a stock broker of Bisbee, Ariz., to collect $26,572.61 alleged to be due Mr. Merritt. The amount is alleged to be a balance due on an open account in the copper stock business.

Accused of Non-Support.

Sheriff J. W. Dreger of Hennepin county left for Minneapolis last evening with Antoine Vavra, a Bohemian tailor, who was arrested here and held for the Hennepin county authorities on the charge of non-support of his family. Vavra is said to have a wife and five children in the Flour City.

Grocery Concern Incorporates.

Articles of incorporation of the Lundmark-Franson company have been filed with the register of deeds. The company is organized to do a grocery business, and is capitalized at $50,000. The incorporators are Charles Franson, J. E. Lundmark and Louis Cato.

Judgment Is Unsatisfied.

The sheriff's return of an unsatisfied execution of judgment in the sum of $362.22 in favor of John G. Howard against Charles F. Leland, former president of the Commercial bank in this city, was filed yesterday afternoon with the clerk of the district court.

Inspect Fishing Tug.

Capt. Monaghan and M. F. Chalk, United States steamboat inspectors, left yesterday for Odanah, Wis., to inspect the fishing tug Stella B. They will probably return to Duluth today.

Court Fines Defendant.

The adverse possession case of Carl Rosedal against Joseph Dibell and others was heard by Judge Cant yesterday. Rosedal claimed that Dibell and others took possession of the premises and used them without the owner's permission. At te conclusion of the testimony the court awarded Rosedal the restitution of the premises nad fined Dibell $10.

Married in Duluth.

George J. Smith and Miss Clara Eastman, both of Superior, came over to Duluth yesterday afternoon, secured a marriage license and were joined in wedlock by Probate Judge Middlecoff before leaving the courthouse. It is understood that they will make their home in Superior.

Gone to New York.

Mr. L. Frankman of the Silberstein & Bondy company, left for New York to pick up the newest novelties in the market.

Wife Gets Divorce.

Emma Swanson was granted a divorce from William Swanson, in the district court yesterday afternoon on the ground of cruelty. Besides her divorce, Mrs. Swanson is granted the custody of their 9-year-old boy, and the costs and disbursements are assessed against Swanson.

Removal Papers Filed.

Removal papers have been filed in the office of the clerk of the United States circuit court in the case of Anna Almquest, as administratrix of the estate of Gustav Almquist, deceased, vs. The Drake & Stratton Co. The case was transferred from the district court to the United States court. It is a personal injury damage suit, Almquist having been injured by a train while in the employ of the defendant company.

Asks Large Damages.

H. W. Cummings has sued the Oliver Iron Mining company for $25,000 for the loss of a foot that was crushed under one of the company's engines in the Burt-Poole mine near Hibbing on July 6, 1905. In his complaint Mr. Cummings alleges that the footboard to the locomotive on which he was ridding was broken and defective and that he was thrown under the engine.

The Gidding Store

Was a very busy place to day. The sale of three hundred tailor made suits having drawn hundreds of women to their store.

Evangelistic Services.

W. A. Dunnett, the evangelist, drew another large congregation to the First Baptist church last night. Tonight C. M. Gidding will sing. Mr. Dunnett will preach at the Baptist church each evening this week.

CARNEGIE'S PORTER

is a pure and nourishing malt beverage, brewed and bottled at Gottenburg, Sweden. Prescribed by prominent physicians. Carlson Bros., 15 West Superior street, Importers and Distributors. Zenith 'phone, 661; Bell, 1000.

PERSONALS

J. Miller Stafford of Cloquet was in the city today.

Mr. and Mrs. Ed Hambler, Mr. and Mrs. Fred Jenkins, and Mr. and Mrs. E. Persan of Virginia spent yesterday in Duluth.

Mr. and Mrs. H. Cooke of Two Harbors are spending a few days in the city.

Mrs. T. B. Casey of Boston and grandson, L. Ellines of New York, are spending a few days in Duluth and are registered at the Spalding.

W. H. Faucett and Charles Vaughn of Calumet, Mich., are in the city for a few days on business.

J. B. Connors and John Erickson of Hibbing are in Duluth today.

James Dunphy of Carlton, Minn., is in the city today.

Mr. and Mrs. F. A. Vanderpool of Park Rapids, Minn., are visiting Duluth friends today.

Mrs. William McCullough and mother, Mrs. G. Kimball, have returned from Los Angeles, Cal., where they spent the winter.

Mr. and Mrs. Lee Farmer arrived in Duluth today from their wedding trip abroad.

Mr. and Mrs. A. B. Stewert left this afternoon for the Twin Cities, where they will attend grand opera.

The Carlton Horse Market, Carlton, Minnesota, will sell at Auction, Thursday, April 25th, Draft, Express and Farm Horses; Top-Notch Drivers; Matched Driving Teams.

This is our regular semi-annual auction sale, and is looked forward to by the many customers of the Market in Duluth and the Range Towns.

"Fitwll" $15 suits hold their shape.

CENTRAL AMERICAN DEADLOCK UNBROKEN.

Washington, April 23.—The Central American controversy is no nearer a settlement today than it was yesterday according to a dispatch received today at the state department from Phillip Brown, the American charge at Gautemala, cabling from La Union, Salvador. Mr. Brown says the various questions involved continue to be discussed but that the deadlock is still on. He holds out no hope of an early agreement.

PIEDMONT EXTENSION

City Engineer, Aldermen and Superintendent Warren Investigate.

Grades Now Rather Steep, But Alteration Could be Made.

A committee composed of City Engineer Thomas F. McGilvray, Alderman Mork and Kennedy from the Sixth ward, and Manager Herbert Warren of the Duluth Street Railway company spent this morning in a trip over Piedmont avenue from the present turn in the street car line at Third street to Twenty-third avenue west, with a view to determining in a general way whether or not it would be practicable to run cars over the route, and whether any changes in grade could be effected at a reasonable expense so as to facilitate car service over this route.

While no careful investigation was made by the committee and they are not prepared to state positively as to the practicability or impracticability of such a line, the general impression seems to be that the present grades are so steep as to render the operation over the route somewhat dangerous.

RAILROAD SHOPS BURN.

New York, April 23.—The big repair shops of the New York Central & Hudson River railroad in the Melese yards near One Hundred and Fifty-sixth street, were burned today with a loss to the building, machinery and rolling stock which will reach $100,000.

DOMINICANS WOULD AMEND

The Proposed Treaty With the United States Government.

Santo Domingo, April 23.—Some of the members of the committee on foreign affairs of the Dominican congress propose making the following modifications of the new treaty for Santo Domingo:

Article 1.—That the president of the United States appoint a receiver for the customs of Santo Domingo, he to have only the assistance of customs employes of the Dominican government.

Article 2.—That the United States government extend protection to the receiver only in case the Dominican government is unable to do so.

Article 3.—That, in view of the fact that the receipts from customs dues during the past two years have exceeded $2,000,000 yearly, a system of tariff reform be adopted immediately.

Article 4.—That the treaty must have the approval of the Dominican congress and of the United States senate previous to its ratification by the high contracting parties.

The congressional committee is of the opinion that the Dominican congress is justified in proposing modifications of the treaty in view of the fact that the one previously before the United States senate was modified by that body.

President Caceres has gone into the interior. Quiet prevails throughout the country.

SIR CHENTUNG CHENG TO RETURN TO PEKIN.

Washington, April 23.—While no official advices on the subject have been received here, it was stated at the Chinese legation today that the transfer of Sir Chentung Liang Cheng to Pekin, where, it is reported, he will become president of the board of foreign affairs and controller general of maritime customs, had rather been looked for, in view of private information which recently had come to the minister. This information also confirms the dispatch from London that the new minister will be Liang Tung Yen.

SPLENDID TO USE.

This is the month to rid the system of Blood disorders of all kinds, of which Rheumatism is the most prevalent symptom and hardest to overcome during the winter months, when the Kidneys have failed to filter out the uric acid and other waste matter.

A well known authority writes that the worst forms of Rheumatism, Blood disorders, also Kidney and Bladder weakness are often readily relieved and prevented during an entire year by taking for a little while one teaspoonful of the following mixture after meals and at bedtime, viz:

Fluid Extract Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces.

A local druggist states that these are harmless ingredients, which any good prescription pharmacy can supply and anyone can easily mix them at home by shaking in a bottle.

It is said by many of the old folks that the above mixture, if taken during this month, will add years to life and prevent many a sick and miserable day during the year.

RUSSIAN TERRORISTS

Sevastopol, April 23.—A band of armed terrorists drove up to the postoffice this afternoon, made the officials hold up their hands under penalty of being shot, took $5,000 of the postoffice funds and escaped, leaving no trace of their identity.

PEABODY RE-ELECTED.

New York, April 23.—Charles A. Peabody was re-elected president of the Mutual Life Insurance company at the first meeting of the new board of trustees today. Emory W. McClintock was re-elected vice president.

The Ideal Freezer!

The **Ideal Freezer** will always freeze 1 quart, 3 minutes; 2 quarts, 4 minutes; 3 quarts, 5 minutes.

It is **light** and **convenient.**

Has **Indurated Fibre Tube,** which is the best non-conductor of heat or cold known.

No hoops to fall off.

No staves to shrink or swell.

No wooden tub with leaky seams.

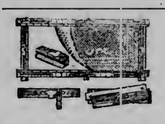
No **denting of can** from lumpy ice.

No **Wearing friction** between ice and can.

No overflow from the tub to slop the floor.

No repacking necessary to keep cream five hours.

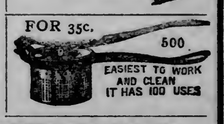
Only requires **15 pounds of ice and 5 pounds of salt** to do the work of an old-style gallon freezer. A saving of 50 per cent in ice.



Only need to fill ice compartment **once.**

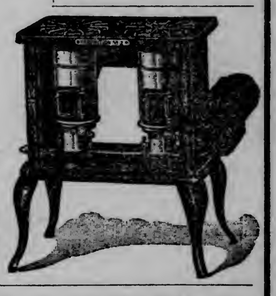
The regular price is $4, but we are after an early start on the **Ideal Freezer** and will sell them for $3.25, the coming week.

GASO STOVES



Gaso Stoves from $2.95 up to our $8.50 Self Generating Gaso Stoves. By self generating, we mean all you have to do is light it and it goes just the same as a gas stove. It is something new—so don't think you have seen anything like it before. It gives a powerful heat and with the addition of an oven you can bake the same as gas stove bakes.

Curtain Stretcher



We have them—the kind you would expect to find in a hardware store—98c, $1.50 and $1.75. The $1.75 one has adjustable pins and is the best we carry.

THE STANDARD
OIL COOK STOVE

The One You See Advertised

We are agents for the Standard Oil Stoves and carry a full line.

HOME - COMFORT BREAD AND CAKE **CABINET**

Patented April 12, 190

Bread

placed in the cabinet will keep from one and one-half to two weeks. This assures no waste. We guarantee the last of a baking will taste fresh and sweet, which is a thing impossible the ordinary way of caring for it.

Cake, pie, cookies, doughnuts, etc., also keep in the House Comfort Cabinet in perfect condition. The cabinet is divided inside so each article is by itself, and in plain sight when the door is opened.

The ventilating feature of the Home Comfort Cabinet makes it as desirable as a refrigerator.

WHEAT HAS GOOD BULGE

Market Advances After Opening With an Easier Tone.

Flax Closes Irregular After Dull Session in Duluth.

Duluth Board of Trade, April 23.—Wheat was easier at the opening today on reports of rain in the Southwest and lower cables, but during the latter part of the session became firmer and closed at higher prices in all of the American markets. Covering by shorts and more green bug stories from the winter wheat belt put prices up. Liverpool closed ½d to ¼d lower, Budapest 1¾c higher and Berlin unchanged.

The May option closed ⅞c higher in Duluth and New York, ⅝-¾c in Chicago, ¾-⅞c in Minneapolis and Kansas City, and ¾c in Winnipeg. The July option closed ⅞-1c higher in Duluth, ⅝c in Chicago and New York, ⅞-1c in Minneapolis, ½-⅝c in St. Louis, ¾c in Kansas City and ½c in Winnipeg.

May corn closed ½c higher in Chicago and was unchanged to ⅜d lower in Liverpool May oats closed a shade higher in Chicago.

Car receipts at Duluth were 417 against 102 last year, and at Minneapolis 237 against 129 last year, making a total for the Northwest of 654 gainst 231 last year. Chicago received 75 against 14 last year.

Primary receipts of wheat were 716,000 bus., last year 281,000 bus. Shipments 411,000 bus., last year 303,000 bus. Clearances of wheat and flour aggregated 135,000 bus.

Bradstreet's reports an increase of 388,000 bus., in the world's visible supply of wheat east of the Rockies. There was an increase of 264,000 bus., in Canada a decrease of 1,166,000 bus., in Europe and afloat there was an increase of 1,300,000 bus.

Primary receipts of corn were 576,000 bus., last year 366,000 bus. Shipments 704,000 bus., last year 413,000 bus. Clearances of corn were 150,000 bus.

The visible supply of corn decreased 1,645,000 bus.

Wheat was fairly active in the Duluth market. May wheat opened ⅝c lower at 81⅞c, advanced to 82¼c by 9:40, went off to 82¼c by 9:50, rallied to 83⅛c by 12:30 and closed at that price, a gain of ⅞c over yesterday. July wheat opened ⅛c lower at 82⅝c bid, advanced to 83⅝c, went off to 83⅜c, reacted to 84½c and closed at 84⅜c, a gain of ⅞c over yesterday. September wheat opened ¼c lower at 88⅝c, advanced to 89⅜c and closed at that price, a gain of ¾c over yesterday.

Durum wheat closed ⅛c lower and cash spring wheat was selling on a basis of ½c over May for No. 1 northern.

Flax was quiet and the closing prices were irregular. May flax opened unchanged at $1.17¾, went off to $1.16¾, rallied to $1.17, declined to $1.16⅞ and closed at $1.17⅛, a loss of ½c from yesterday. July flax opened unchanged at $1.19, declined to $1.18¾ and rallied by the close to $1.19¼, a gain of ¼c over yesterday. October flax was inactive and closed unchanged from yesterday at $1.19¼.

Rye was marked up ½c higher and the other coarse grains closed unchanged.

Following were the closing prices:

Wheat—No. 1 hard on track, 84⅝c. To arrive: No. 1 northern, 83⅝c; No. 2 northern, 82¼c. On track: No. 1 northern, 83⅝c; No. 2 northern, 82¼c; May, 83½c; July, 84⅝c; September, 84¼c; May durum, No. 1, 71¾c; No. 2, 68¾c; July durum, No. 1, 71⅝c; No. 2, 68¾c; durum on track, No. 1, 71¾c; No. 2, 68¾c. Flax to arrive, $1.17⅛; flax on track, $1.17⅛; May, $1.17⅛; July, $1.19¼; October, $1.19¼. Oats on track, 41c; April oats, 41c; rye, 61½c; barley, 50-62c.

THE CHICAGO MARKET.

Wheat Opens Easy With a Moderate Amount of Trading.

Chicago, April 23.—The wheat market opened easy today with a moderate amount of trade. The depressing factors were lower cables and reports of rain in the Southwest. Later the market became firm on covering by shorts. July wheat opened a shade to ¼@⅜c lower at 80¾ to 80½c and sold at 80⅝c. Minneapolis, Duluth and Chicago reported receipts of 729 cars against 655 cars last week and 246 cars one year ago.

The market gained in strength on reports of damage to the crop in Illinois, Ohio and Michigan. The high point for July was 81⅝@⅞c. The close was strong with July, up ⅝c at 81⅛@⅛c.

Trading was dull in the corn pit and prices were fairly steady. Lower cables were a depressing factor. July corn opened unchanged to a shade lower at 48½@⅝c, sold at 48¼c and then advanced to 48⅝c. Local receipts were 297 cars with 16 of contract grade.

After selling at 48@⅛ the price of the July option advanced to 48⅝c. The close was strong with July up ⅞c at 48⅝c.

The oats market opened easy because of improved weather for the crop. Trading was very light. July oats opened ¾ to ⅞c lower at 40½c to 40⅝c and for a time held within this range. Local receipts were 410 cars.

Prices in provisions were steady on a 5c advance in the price of live hogs. July pork opened a shade higher at $15.92½. Lard was up a shade at $8.80. Ribs were 2½c higher at 8.70.

Close: Wheat, May, 78¾c; July, 81⅛@¼c. Corn, May, 48¼c; July, 48⅝c. Oats, May, 43⅜c; July, 41c. Pork, May, $15.75; July, $15. Lard, May, $8.70; July, $8.82½. Ribs, May, $8.55@8.57½; July, $8.72½@8.75. Rye, cash, 70@71c. Barley, cash, 65@75c. Flax, clover and timothy, nothing doing. Cash, wheat, No. 2 red, 79½@⅝c; No. 3 red, 77@79c; No. 2 hard, 77½@80c; No. 3 hard, 70@78c; No. 1 northern, 83@85c; No. 2 northern, 82@84½c; No. 3 spring, 77½@84c. Corn, No. 2, nothing doing; No. 3, 46@47c. Oats, No. 2, 41½c; No. 3, 40¼c.

Duluth Car Inspection.

Wheat—No. 1 hard, 23; No. 1 northern, 115; No. 2 northern, 108; No. 3 spring, 31; No. 4 spring, 2; rejected, 1; no grade, 5. Durum No. 1, 31; durum No. 2, 67; durum No. 3, 19; rejected and No. 4 durum, 5. Total of durum, 122; mixed, 10. Total of wheat, 417, last year, 102.

Flax—No. 1 northwestern, 52; No. 1, 48; No. 2, 3; no grade, 1; total of flax, 104, last year, 105.

Corn, 1; oats, 20; rye, 5; barley, 42.

Liverpool Grain.

Liverpool, April 23.—Wheat—Spot, steady; No. 2 red, Western winter, 6s 2¾d; No. 1 California, 6s 3¾d; futures, quiet; May, 5s 5¼d; July, 6s 3¼d. Corn—Spot, steady; American mixed, new, 4s 7d; same, old, 5s ½d; futures, quiet; May, 4s 6¼d; July, 4s 7d; September, 4s 6¾d.

Minneapolis Wheat.

Minneapolis, April 23.—Close: Wheat—May, 86⅝c; July, 83¼c; No. 1 hard, 84⅛@84¾c; No. 1 northern, 83¼@83¾c; No. 2 northern, 81⅛@81⅝c; No. 3 northern, 78@79c.

New York Grain.

New York, April 23.—Close: Wheat—May, 87¼c; July, 88¼c; September, 89⅝c. Corn—May, 55⅞c; July, 56¼c; September, 56¼c.

Minneapolis Flour.

Minneapolis, April 23.—Millers report the flour demand as unchanged. Few sales were made late Monday after the weakness in wheat gave the market a heavy look. On the stronger tone this morning there was more disposition to show but the demand continues limited. Shipments, 40,894 barrels. First patents, $4.30@4.40; second patents, $4.15@4.25; first clears, $3.20@3.50; second clears, $2.40@2.50.

The Cotton Market.

New York April 23.—The cotton market opened steady at a decline of 3 to 6 points in response to lower cables. There was some scattering liquidation, but selling for short account was checked by reports that May longs were hanging on to their contracts and would take up all the cotton tendered, and prices ruled pretty steady on the old crop months while sagging off to a net loss of about 6 to 7 points on the later positions, which may have been influenced by the rains reported in the South and the fact that temperatures were hardly as low as some had expected in Texas. Trading was not more than moderately active and the tone of the market was about steady at a net decline of 6 to 7 points during the middle of the morning.

Spot closed quiet; middling uplands, 11.15; middling gulf, 11.40; sales, 971 bales. Futures closed steady. Closing bids: April, 9.71; May, 9.77; June, 9.72; July, 9.77; August, 9.76; September, 9.80; October, 10.00; November, 10.04; December, 10.07; January, 10.23; February, 10.28; March, 10.36.

New York Money.

New York, April 23.—Close: Money on call easy, 2@2½ per cent; ruling rate, 2½; closing bid, 2; offered at 2½. Time loans easy; sixty days, 3¼@3½, nominal, and ninety days, 4½@4½ per cent; six months, 4¾ per cent; prime mercantile paper, 5¾@6 per cent. Sterling exchange strong, with actual business in bankers' bills at $4.86.40@4.86.45 for demand and at $4.83.35@4.83.40 for sixty-day bills; posted rates, $4.83½@4.84 and $4.86½@4.87; commercial bills, $4.81. Bar silver, 65⅛; Mexican dollars, 50¾c. Government bonds steady; railroad bonds irregular.

St. Paul Live Stock.

St. Paul, April 23.—Cattle—Receipts, 1,050; market steady and unchanged. Hogs—Receipts, 3,500; market 10c higher; range, $6.30@6.42½; bulk of sales, $6.40. Sheep—Receipts, 2,250; market slow; lambs, strong; quotations unchanged.

REMARKS.

Showers fell during the past twenty-four hours over the lower Ohio, lower Missouri and Missippi valley districts. Moderate temperature prevailed.

H. W. RICHARDSON,
Local Forecaster.

T indicates inappreciable rainfall. • For yesterday. •• For twenty-four ending at 8 a. m., 75th meridian time.

NOTE—The average maximum and minimum temperatures and the average rainfall are made up at each center from the actual number of reports received. The state of weather is that prevailing at time of observation.

THE POLICE COURT GRIST

Bethel Clerk Reproved for Using "Billy" on Lumberjacks.

First Cuban on Police Record Brought Into Court.

Thomas McCarthy and his chum Logan were arraigned in municipal court this morning charged with disorderly conduct, on the complaint of the night clerk at the Branch Bethel on the Bowery.

The clerk said that the two men came into the Bethel about 2 o'clock this morning and attempted to create a disturbance. He tried to put them out and admitted using a "billy" to assist him in the trick as he "was not a very strong man" and needed the assistance of the little club.

The lumberjacks when put on the stand told a straight-forward story in which the use of the billy played a prominent part and Logan displayed a cut on his head where the clerk had used the weapon to good effect. An ignorance of the house rules, for which the clerk had a rather exalted respect, was the principal cause of the "disturbance."

"Your honor, I move to dismiss this case," said Assistant City Attorney J. McKeon when the testimony was all in, "I don't believe in this billy business and if a man were to try and use a billy on me, I'd try to knock his block off myself. I don't believe these men did anything more than they were justified in doing. Now you want to cut out the 'billy' after this. You can handle the lumberjacks a lot better without."

"The case will be dismissed," said Judge Cutting.

* * *

The first Cuban who has ever featured in the records of the Duluth police court was up with the grist this morning, and he was a full blooded typical specimen of the West Indian.

"Sure, ah guess ah was a little drunk, yer honah," said the son of the Pearl of the Antilles, "ah went to bed and som-un hit me behind the eah and kicked me in the ribs and took $25 away from me and when ah woke up ah was in jail heah. That's de Lawd's truth I am a-telling ye jedge."

"Oh get out," interrupted Capt. Rasche, "he has not a mark where he got hit, your honor."

And the judge gave him three days.

DEAD MAN WAS PATRICK NUNAN

Body Found in Shack Identified as Old Farmer.

The old man found dead in a shack on the Rice Lake road yesterday was Patrick Nunan, who had been running a little 10-acre farm near the Rice Lake road.

An autopsy by Coroner McCuno last evening revealed a bad case of fatty degeneration of the heart and hardening of the arteries. Nunan has lived on the outskirts of Duluth for many years, and a number of years ago was an inmate of the county poor farm. He had evidently been dead some days when found by Mr. Fernandez.

RECOVERY OF STOCKS

From the Early Decline and the Closing Was Firm.

Union Pacific Made Best Showing, Advancing Over Monday.

New York, April 23.—Very narrow price changes resulted from the opening dealings in stocks and the movement was irregular. Business was on a small scale. Illinois Central sold at an advance of 1¾ and People's Gas and Cotton Oil large fractions. New York Central, American Smelting and National Lead declied large fractions.

Large operations in the well-known stocks gave the market an animated appearance, but when the buying suddenly ceased the speculation came almost to a standstill. Union Pacific made the best showing, but its rise of a point, and that of a large fraction in other favorites was surrendered when the market began to recede.

Prices began to recede before moderate selling, the most pronounced pressure centering on American Smelting. That stock lost 2⅜, Northwestern 2¼, Northern Pacific 2, Delaware & Hudson 1½ and St. Paul, Union Pacific, Atchison, Great Northern preferred, Reading, New York Central, Cleveland, C. C. & St. Louis, United States Steel, Amalgamated Copper and Anaconda 1 or more. Bonds were irregular.

Sensational recoveries exhausted the buying orders in the market and speculation became stagnant. Canadian Pacific and Westinghouse Electric yielded a point.

Stocks were without decisive movement during the greater part of the afternoon, but ruled at about the lowest. Southern Pacific and Pacific Mail declined 1.

The market closed firm. Quite a brisk rally late in the day nearly or quite wiped out the decline and established Union Pacific at the highest price of the day, 1¾ over yesterday. St. Louis Southwestern preferred gained 2½ and Minneapolis & St. Louis 1. Brooklyn Rapid Transit lost 1⅝, Chicago Terminal preferred 1½, and Chicago Union Traction preferred 2¼.

Quotations furnished by Wisconsin Grain & Stock company, 109 Manhattan building:

Stocks—	High	Low	Close

ANTI-PASS MEASURE

Recommended for Passage by the Conference Committee.

Committee on Tax Commission Also Agrees on Bill.

(From a Staff Correspondent.)

St. Paul, April 23.—(Special to The Herald.)—The joint legislative committee on free passes, this afternoon, agreed to recommend a bill that all free privileges on railroads, telegraph and telephone lines be prohibited after Dec. 31, 1907.

The conference committee on tax commission agreed on a bill retaining the state board of equalization until Jan. 1, 1909. The senate thereupon repassed the bill 45 to 8.

STILLMAN H. BINGHAM.

PENNANT IS PRESENTED

High School Junior Class Gets Basketball Trophy.

The high school was the scene of much hilarity this morning when Norman McLeod, secretary of the boys' department of the Y. M. C. A., presented the junior basketball team of the school with a beautiful pennant, for the championship of the high school league.

Mr. McLeod said that the league has been a complete success in every sense of the word and that those who have won have done it fairly, while those who have lost, have been graceful losers, as is shown by the banquet which was tendered to the winners by the other teams.

He concluded by presenting the pennant to Sargeant McGonagle, the captain of the winning team, who replied with a brief speech of acceptance, thanking the donors for the gift and assuring them that it would be greatly prized by its owners.

Principal Smith spoke briefly, congratulating the winning team, and he also spoke a good word for clean athletics, saying that this is the kind that the Duluth school believes in and practices.

Black and Blue.

"Fitwell" black and blue suits at $15 are world beaters. Tailors get $30 for the same goods.
112 West Superior street.

ITALIANS SENTENCED

To Terms in Jail for Carrying Concealed Weapons.

New York, April 23.—The intention of the courts of this city to impose severe penalties upon offenders convicted of carrying concealed dirks, stillettes and slungshots was demonstrated today when two Italians were sentenced by Judge O'Sullivan, one to one year and the other to three and a half years in the state prison. In the latter case the offender, Pasquale Jacobeli, an Italian, was at first accused of sending blackmailing letters threatening the vengeance of the "Black Hand."

STRIKE TROUBLES IN PARIS.

Paris, April 23.—A fierce encounter between striking waiters and bakers and a body of police took place today on the Rue du Louvre, outside of an annex of the labor exchange. Many arrests were made and the strikers attempted to rescue the prisoners, whereupon a detachment of Cuirassiers charged and dispersed the rioters.

Certificate of Incorporation —OF THE— HOLLINSHEAD REALTY COMPANY.

We, the undersigned, hereby associate ourselves together, agree upon, and adopt the following certificate of incorporation, under the provisions of chapter fifty-eight (58) of the revised laws of the State of Minnesota for the year 1905, and the amendments thereto.

ARTICLE 1.

The name of this corporation shall be "Hollinshead Realty Company." The principal place of transacting its business shall be in Duluth, Minnesota. The ness shall be in Duluth, Minnesota. The general nature of its business shall be buying, selling, leasing and dealing in real estate and improved lands, tenements and hereditaments; buying and selling mining leases and options for the same, and leasing or letting of buildings, structures, docks, warehouses and elevators; borrowing or loaning money on security, or otherwise; and buying, selling, exchanging and dealing in all kinds of real and personal property; mining, smelting, quarrying and other like business.

ARTICLE 2.

The period of its duration shall be thirty (30) years.

ARTICLE 3.

The names and places of residence of the incorporators are as follows: Edwin A. Hollinshead, Duluth, Minn.; Lillian A. Hollinshead, Duluth, Minn., and Marion Douglas, Duluth, Minn.

ARTICLE 4.

The management of this corporation shall be vested in a board of directors, consisting of three members. The names and addresses of those composing the board of directors until the first election, and until their successors are elected, are as follows: Edwin A. Hollinshead, Duluth, Minn.; Lillian A. Hollinshead, Duluth, Minn., and Marion Douglas, Duluth Minn.; and the general officers of said corporation shall be as follows, until otherwise provided: Edwin A. Hollinshead shall act as President and Treasurer; Marion Douglas, Vice President, and Lillian A. Hollinshead, Secretary. The office of Treasurer may be held by any member of the board of directors.

The annual meeting of the stockholders of this corporation for election of directors, and transacting of other business, shall be held the first Tuesday in May in each year, and at such place within the State of Minnesota as the board of directors may from time to time determine by by-law or resolution. The first annual meeting shall be held on the first Tuesday in May, 1907, at 10 o'clock A. M., in room 312, First National Bank Building, Duluth, Minn., without notice.

ARTICLE 5.

The amount of capital stock of this Company shall be fifty thousand Dollars ($50,000.00), divided into five hundred (500) shares of the par value of one hundred Dollars ($100.00) each, to be paid in as the board of directors may determine, and shall be sold only at par, for cash, or for property, or things

STREET CARS.
NOTICE TO THE PUBLIC.

This company operates a street railway line in the city of Duluth between Third avenue east and the end of Rice's Point, and another street railway line in the city of Superior between Twenty-first street and the end of Connor's Point. These lines are separated by the waters of St. Louis Bay, and are operated as two distinct and separate lines.

The fare for a continuous ride in one direction between any two points on either one of these lines is 5c.

The public is hereby notified that this company does not, by undertaking to carry any passenger, or by accepting fare for such carriage, assume any responsibility beyond that of carrying such passenger safely between points on the above mentioned lines.

This company is not responsible for close connections, nor safe transportation, between the above mentioned lines by any ferryboat or other means of transportation. While the employes of this company have been instructed to keep themselves posted and give upon request all the information they can as to the probability of connections being made with other transportation lines, the company has no better means of foreseeing unexpected interruptions in the service of such lines nor of telling how long such interruptions will continue, than the public has, and therefore cannot be responsible for notice of such interruptions.

TESTIMONY DAMAGING

Witnesses for Ellis Walsh Testify Wife Was Unfaithful.

Little Son of Couple Weeps While on the Stand.

The defense was begun in the divorce suit of Minine Walsh of Virginia, against Ellis Walsh, this morning, after two of their children had been called to testify in their mother's behalf, and Mrs. Walsh had been on the stand a few minutes to correct some of her testimony given yesterday.

Mrs. Walsh bases her claim for a divorce on alleged cruel treatment by her husband. Yesterday afternoon, Eva, their 12-year-old daughter, testified against her father, claiming that her father struck her mother; that Mr. Walsh burned some of his wife's clothing, and gave Frank, the youngest child, some liquor to drink.

This morning Robert, the 10-year-old son, also testified against his father, claiming that Mr. Walsh abused Mrs. Walsh.

Frank, the 8-year-old son was called as a witness, but he was overcome by the surroundings and cried so hard that he was excused as a witness. The two older children have been in the custody of their mother since the proceedings were instituted, and the youngest has been taken care of by relatives of Mr. Walsh.

In his answer to the complaint, Mr. Walsh has interposed a counter-claim of adultery, and this morning he began introducing testimony in support of his claim.

He accuses his wife of being unfaithful, and charges her with having received the attentions of Ole Berg, a clerk at Virginia, and William J. McKillincan, a railroad man, who formerly roomed in the Rossom block at Virginia.

Edward Hambly, a railroad man, who had the room adjoining Killincan's, claimed that one evening during March, 1904, as he was about to retire, he heard persons whispering in Killincan's room. He testified that he stood on his bed and looked into the next room through a stovepipe hole in the partition and saw Killincan and Mrs. Walsh in the room.

Hambly was positive that he could not be mistaken in the identity of Mrs. Walsh. He said that he immediately called the attention of Lester Findt, a locomotive engineer, who had a room adjoining his, to the occurrence.

C. E. Adams, attorney for Mrs. Walsh deferred his cross-examination of Mr. Hambly until some time in the trial.

Lester Findt testified that on the night referred to by Hambly, the latter called his attention to the fact that Killincan had a woman in his room. The witness said he heard whispering and talk in low tones between Killincan and some woman, but he could not tell what they were talking about. He also testified that he did not attempt to look into the room, and did not see the woman.

William Portell, who is employed by the Oliver Iron Mining company, testified that he roomed with Killincan for a time and that on a Sunday afternoon in the spring of 1904, he went to the room to change his clothes and found the door locked. The witness said that he rapped, that there was a rustling sound for a few moments, when Killican opened the door and he, Portell, went in. He claimed that Killican was sitting on the bed, which seemed to have the appearance of use, that a woman was sitting in a chair behind the door, whom Killincan introduced to the witness as a Miss McKinley from Biwabik.

Mr. Portell testified that he saw the woman on several other occasions on the street, and that the Miss McKinley he met in Killincan's room and Mrs. Minnie Walsh were the same person.

Cross-examination failed to shake Portell's testimony as to the identification.

It was expected that a number of other witnesses would be called by Mr. Walsh this afternoon who would testify either to alleged specific acts, showing Mrs. Walsh to have been unfaithful, or to acts which might be construed to place her in a very compromising position as a married woman.

A SUICIDE AT EVELETH

Miner, Despondent Over Family Troubles, Hangs Himself.

Eveleth, Minn., April 23.—(Special to The Herald.)—Despondent over family troubles, Frank Brazke, a Belgian miner of about 35 or 40 years of age, hanged himself at about 11 o'clock last evening in Shaft House No. 1 at the Fayal mine here. He used a wire fastened to a beam for the purpose. Men were working in the mine at the time and Brazke was found, dead, within ten minutes after he committed the deed.

Brazke had trouble with his wife some time ago and she returned to Belgium. For the past three days he has been despondent and it is thought that he received some news from the old country which caused him to become discouraged. Mr. and Mrs. Brazke were only married about a year ago.

A wrestling match is to be held here this evening between Jack Welch of Ironwood, a well known mat artist all throught the ranges, and the "Cuban Wonder" of Cleveland.

SUIT AGAINST LAWSON ET AL.

Brought by Copper Range Consolidated Mining Company.

Boston, April 23.—The suit of the Copper Range Consolidated Mining company against Albert C. Burrage, Thomas W. Lawson and others, in which damages aggregating $3,000,000 are asked, was opened today in the Massachusetts supreme court before Judge Loring. The restoration by the defendants of 70,000 shares of stock of the company is named as an alternative of the damages claimed. The case will be heard on its merits.

It is alleged by the plaintiffs to the suit that Albert C. Burrage, in violation of a contract with Paine, Webber & Co., Boston brokers, and the Copper Range Consolidated Mining company, wrongfully sold 70,000 shares of the company stock, the contract having been made in connection with the acquisition in 1904 of the Trimountain Mining company by the Copper Range company, Burrage, being a stockholder in the Trimountain company.

Thomas W. Lawson and C. D. Burrage are alleged by the plaintiffs to have caused Albert C. Burrage to violate the contract he had with Paine, Webber & Co. This they deny. Albert C. Burrage denies any breach of contract, and claims he was induced to enter it by misrepresentations and that Paine, Webber & Co. waived their right requiring their consent to the disposal of the shares.

Thomas W. Lawson is at present in Europe but it is understood that his deposition has been taken for use at the trial.

MINNESOTA HISTORICAL SOCIETY

LEGISLATURE ADJOURNS AFTER MOST IMPORTANT SESSION IN MANY YEARS

Strange Inconsistency Discovered in the Anti-Pass Law.

Samuel Lord, O. M. Hall and Prof. McVey on Tax Commission.

Bill Increasing Salaries of St. Louis County Officers Dies.

(From a Staff Correspondent.)

St. Paul, April 24.—(Special to The Herald.)—The legislature adjourned sine die shortly before 1 o'clock today, concluding the busiest and most important session in years. The adjournment was attended by the usual complimentary resolutions and presentations. Lieut. Governor Eberhart received a fine silver service, and Speaker Johnson was given a handsome watch. The desk force in both houses were remembered, and resolutions were passed thanking the presiding officers, the employes and the newspaper men for courtesies and fair treatment. In acknowledging the receipt of his present Speaker Johnson briefly reviewed the results of the season, and said that it was the most active session in his experience. The anti-pass law, the 2-cent fare bill, the commodity rate bill, and the tax commission he reckoned among the most important measures passed and adopted.

* * *

There is a flaw in the anti-pass bill after all. In amending it, the con-

SAMUEL LORD,
Of Kasson, Appointed on State Tax Commission.

STATE TAX COMMISSION

Provided For and the Board of Equalization Retained.

Anti-Pass Bill Effective at End of This Year.

(From a Staff Correspondent.)

St. Paul, April 24.—(Special to The Herald.)—The Minnesota tax commission, which history is likely to record as the greatest achievement of the thirty-fifth session of the legislature, is now an accomplished fact, or will be as soon as the governor signs the bill.

The conference committees appointed to consider the differences between the senate and house came to an agreement yesterday afternoon, and both houses adopted the report and repassed the bill.

The compromise over the chief point of difference, the retention of the state board of equalization, was that the board should be retained until Jan. 31, 1909. Then the next legislature will be in session, and if the tax commission has not made good, the legislature may continue the board of equalization, or abolish the commission. This compromise was satisfactory to both houses, and the bill went through with little debate in either house. The senate passed the bill 45 to 8, and the house 81 to 12.

The salaries of the commissioners were raised to $4,500 a year, and while it exists the board of equalization is given the right to review the acts of the tax com-

FIRE BROKE OUT IN FIVE PLACES

Indications Point to Incendiarism at the Toulon Arsenal.

Toulon, France, April 24.—The fire at the arsenal had been completely extinguished this morning when work was resumed in the building which had not suffered.

The injuiry into the case of the fire resulted in establishing the fact that flames broke out simultaneously in five places. The area of the conflagration is surrounded by sentinels and will so continue while the investigation is progressing. All telegraphic and telephone communication within the walls have been completely destroyed. There was a semi-panic about the arsenal this morning owing to the explosion of some chemicals, but there were no casualties and the alarm soon subsided.

CONDITION OF HEALTH

In Canal Zone As Good as It Ever Will Be.

Washington, April 24.—Health conditions on the canal zone are about as good now as they ever will be, according to a report from Col. Gergas, chief sanitary officer, for the month of March just received at the offices of the Isthmian canal commission. Since August last the number of sick among the employes has steadily declined, until it is now 19.40 men per 1,000 as against 33.72 in August. This, in the opinion of Col. Gorgas, is an excellent sick rate. Among 4,600 Americans (white) employed, there were only two deaths from disease during the month of March, a rate of 5.17 per thousand. Among 1,200 American women and children living in canal commission quarters there were no deaths and very little sickness of any kind, as has been the rule in the past. The negro employes show the highest mortality and the American whites the smallest. The morality from all causes for March was: Negroes, 48.50; white employes, 15.63; American whites, 10.34 per thousand.

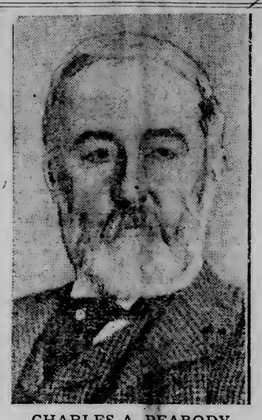
A PLOT IS SUSPECTED

To Defraud Trust Company Out of Immense Sums.

Believe Prominent Man Was Interested With Douglass.

New York, April 24.—William O. Douglass, assistant loan clerk of the Trust Company of America, who is charged with stealing bonds valued at many thousands of dollars, and Oliver M. Dennett, a broker, who, it is alleged, received the stolen securities; will have a hearing today in the West side police court. The officials of the trust company, not content with the arrest of these two men, are continuing their detective work. They say that they are convinced that there was a plot and that there was somebody behind Douglass in the scheme to defraud the company out of many hundreds of thousands of dollars. The identity of the third man in the alleged plot was not revealed, but the statement is made that he is more prominent than either of the prisoners and that the prisoners were probably his dupes.

The trust company has succeeded in getting back all of the bonds which were found to have disappeared when Douglass' books were checked up last Saturday. The amount paid out for their recovery was $140,000. In explanation of this, it was said that all of the bonds stolen from the office of the trust company, except those which had been found in Dennett's bed at the



(Continued on page 4, first column.)

BRIGAND IS CAPTURED

Notorious Stanislaus Lis in the Hands of Russian Police.

Warsaw, Russian Poland, April 24.—A notorious brigand, Stanislaus Lis, the author of many crimes, has been captured at Lublin, ninety-five miles from here, mortally wounded, after the house in which he had sought refuge had been blown to pieces by artillery fire. Lis, when he saw that a detachment of police was advancing on the house, barricaded himself within and opened fire on the police, killing several of them. Troops were summoned to the assistance of the police, but they were unable to dislodge the bandit. Finally several quick field pieces were brought up and trained on the house. Eight shells hit the building, which was demolished, after which the infantry stormed the ruins and found Lis, desperately wounded, trying to reload his revolver which he had emptied at the attacking party.

DECKHAND IS ARRESTED CHARGED WITH MURDER OF LITTLE MARVIN BOY

CHARLES A. PEABODY,
Re-elected President of the Mutual Life Insurance Company, by the Administration Trustees.

Action Taken on Statement of a Fellow Workman

Who Helped Suspect Load a Lot of Bags.

Thinks That Boy's Body Was in One of Them.

Dover, Del., April 24.—Frank H. Butler, employed as a deck-hand on the steamer John P. Wilson, was taken into custody today, charged with the murder of Horace N. Marvin, the 4-year-old son of Dr. Marvin, whose disappearance on March 4 aroused the entire country.

The arrest of Butler was made principally upon a statement given the detectives by a man named Caldwell, who was working with Butler the day the child disappeared. Butler, he says, was ordered to go to the barn and load up wheat screenings in bags. This he did, and when Caldwell later entered the barn he found that Butler had loaded three bags on the wagon and a fourth was lying on the floor of the barn. Caldwell says he lifted this bag into the wagon himself and found it heavy, although Butler had said it was filled with corks, such as are used by fishermen for nets. This bag, Caldwell says, disappeared. Acting on the theory that this bag contained the body of the child, the detectives decided to charge Butler with murder.

BEQUEATHED A MILLION

Banker's Estate Proved Much Greater Than He Knew.

Thought He Was Leaving About $175,000 for Charity.

Pittsburg, April 24.—Dying in the belief that he had bequeathed about $175,000 to charities, John Porterfield, the Allegheny banker really left about $1,000,000 for philanthropic purposes. How much more than $1,000,000 will not be known until the estate is finally settled.

When Mr. Porterfield made his will in 1904 he estimated his estate at $400,000. After his death a few months ago, his executor discovered that the boom in stocks, bonds and real estate had increased the value of the estate to at least $1,000,000. This fact was brought out when the Woods Run Industrial house of Allegheny petitioned the orphans' court to have the executor of Mr. Porterfield's will, the Fidelity Title Trust company, turn over a be-

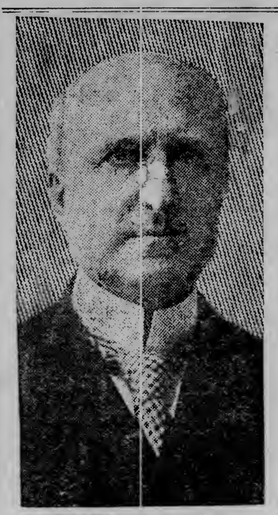
STEPHENSON RAISES PAY OF HIS EMPLOYES.



Milwaukee, April 24.—A Journal special from Marinette, Wis., says: All of the 200 employes of the N. Ludington company (the I. Stephenson company), were surprised last evening when getting their pay envelopes to find their wages had been raised 10 per cent. The increase was made without any request by the men, or any public announcement, and was a complete surprise.

It is said the step is in accord with Mr. Stephenson's custom of profit-sharing with his men who have been with him from five to twenty years, although all of the men are included in the raise.

JAY GOULD WINS.

London, April 24.—In the international amateur court tennis championship contest, which began at the Queens club today, Jay Gould of New York, played R. K. Cross and won the first set 6-0 and the second 6-1.

ALLEGED GRAFTERS ON PENNSYLVANIA CAPITOL TO BE ARRESTED SOON

CHAUNCEY DEPEW,
Senator of New York, Who Celebrated His Seventy-third Birthday by Visiting the Women's Republican Association.

Criminal Proceedings to be Begun Against Prominent Men

For Crooked Work in Connection With Furnishings.

Committee of Investigation About Ready to Report.

Harrisburg, Pa., April 24.—As a result of the investigation of the commission to inquire into the expenditure of $9,000,000 for furnishings and decorations for the new state capitol, it is probable that criminal proceedings will be instituted by the state against certain persons who have prominently figured in the investigation. Both Governor Stewart and Senator Fisher, chairman of the investigation commission, have declared their belief that enough evidence has been brought out to warrant such action. The governor, it is said, will lay the matter before the attorney general as soon as the commission has made its final report.

The commission has been investigating the charges of extravagance, overcharges, duplication in payments of bills, and fraud, for nearly two months, and has yet to take the testimony of many important persons who have knowledge of the subject under investigation. Among those to be examined is Former Governor Pennypacker.

The investigating commission has been assisted by a large force of auditors in the employe of a New York Audit company. The report of these auditors will be made shortly to the commission, and will cover much ground that the commission was unable to touch through the calling of the witnesses.

PALLIUM FOR BLENK

Archbishop Invested With High Insignia of the Church.

Impressive Ceremonies at St. Louis Cathedral, New Orleans.

New Orleans, April 24.—Before a distinguished representation of the Roman Catholic hierarchy of the United States, including Cardinal Gibbons, two archbishops and sixteen bishops, Archbishop Blenk of New Orleans was today invested with the pallium. This insignia is the official recognition by the church of the archbishop's succession to the functions and authority of the late Archbishop Chappelle, whose archiepiscopal province comprised Louisiana, Mississippi, Alabama, Arkansas, Texas and Oklahoma, and who died during the yellow fever epidemic here two years ago.

The ceremony took place in the old St. Louis cathedral, where various events in Archbishop Blenk's life have transpired since he lived in this city as a boy. The structure was decked in the papal colors, yellow and

(Continued on page 4, first column.)

HELD HAND OF RIVAL'S GIRL

Innocent Act Brought on Free Fight at a Revival.

Ashland, Ky., April 24.—At Sutton, near Grayson, a free-for-all fight between the Patrick, Sexton and Haney boys broke up a revival service last night. The affair was caused by Patrick, who held the hands of Albert Haney's sweetheart. Haney struck Jim Patrick and their friends took sides, starting a battle that literally cleaned out the church.

Jim Patrick's skull was crushed and he cannot survive. The girl who was the innocent cause of the trouble was struck with a pair of brass knuckles and rendered unconscious. Two other combatants were injured. The principals are under arrest.

PATENTS ISSUED TO DULUTH MEN.

Washington, April 24.—(Special to The Herald.)—Patents have been issued to the following: Frank E. Abbott, Buffalo, dough mixing and kneeding machine; Hutchinson Bevier and J. J. Durange, Duluth, explosive power generator; Thomas Brennan, St. Louis Park, disk drill; Frank A. Nelson, Duluth, automobile; Carl F. Swanson, Eagle Bend, egg lifter.

FIFTH WISCONSIN BALLOT UNAVAILING.

Madison, Wis., April 24.—The fifth joint ballot for United States senator resulted in no choice. There was no material change from yesterday's ballot. The leading Republican candidates received the following vote: Esch, 20; Stephenson, 20; Cooper, 18; Lenroot, 17; Hatten, 16.

PRESENT NEW AGREEMENT

Frisco Street Car Men Want Less Hours and More Wages.

San Francisco, April 24.—The street car men presented their new agreement today to the United Railroads, and asked for an early reply from the company. The union would have preferred to wait until the labor council passed upon the terms of the agreement, but it anticipated the approval of the council, upon the recommendation of the executive board. Whether the union will call a strike at once, in case the United Railroads refuse to accept the new agreement, or will permit its members to continue working while negotiations are pending, so as not to subject the community to needlesss hardship, will be determined at a special meeting, to be held later. The time and place for that meeting will be determined by the managing committee of the union on Saturday night; as will the manner of voting upon a strike, whether by secret ballot or by viva voce vote.

The principal features in the new agreement are a flat rate of $3 a day and eight hours' work; all overtime to be paid at one and one-half of the regular rate; full recognition of the union, and its authorized agent; employes to be discharged for cause only, and when a discharged employe feels aggrieved at having been discharged unjustly, or without cause, that the union shall intercede in his behalf, and shall be granted a hearing by the company.

STEAMER AND CARGO BURN

The Pioneer Completely Destroyed at Her Dock in New York.

New York, April 24.—The harbor firemen had a hard fight today with a fire which destroyed the freight steamer Pioneer, causing a loss of $75,000. The Pioneer was owned by the Stephens & Condit Transportation & Forwarding company. She arrived here last night from Newark, N. J., with a miscellaneous cargo of cotton jute red lead, cylinders of oil, carboys of acid and cylinders of carbonic acid gas for trans-shipment. The fire started while the steamer was lying at her pier in North river, and swept through her so quickly that when the fireboats arrived she was almost entirely enveloped in flames. The noxious fumes and dense black smoke which rolled up from the burning steamer made it extremely difficult for the firemen to approach the blaze. The flames were prevented from spreading to the pier and other adjoining property, but the Pioneer and her cargo were destroyed.

A MOVEMENT TO "GET TOGETHER"

Has Been Organized by Lumbermen for Railroad Business.

Minneapolis, April 24.—(Special to The Herald.)—What promises to be the biggest "get together" movement in the history of transportation has just been organized by Secretary W. G. Hollis of the Northwestern Lumbermen's association. The plan provides for a car service department of the association. All the members agree to submit to it all claims and complaints against the railroads. The department will investigate and pass on to the railroad at interest only such claims as it deems meritorious. For their part, the railroads agree that these cases shall be accepted in good faith as the basis of such action as shall seem appropriate. There are 2,900 members in the Lumbermen's association, covering Minnesota, Iowa, North and South Dakota, and that part of Nebraska tributary to Northern markets. The plan has been thoroughly canvassed by the head traffic officials of all the twenty-two roads serving the association's territory, and is heartily approved.

FATALLY BURNED.

Granite Falls, Minn., April 24.—J. D. Dodsworth, an old and honored citizen, was so badly burned in a prairie fire at his home Monday afternoon that he died last night. He was fighting the fire to keep it away from his buildings when his clothing caught fire. He was the first cashier of the Granite Falls bank.

PRICES ARE EXCESSIVE

Government Opens Chicago Office to Avoid Western Hold-Ups.

Chicago, April 24.—For the purpose of obtaining and furnishing supplies necessary in the work of reclaiming the arid regions of the West, the United States reclamation service yesterday opened a new purchasing and transportation office in Chicago.

Heretofore all of this business was left in the hands of the various engineers in charge of the work, who got their supplies from the nearest dealers. It was found that the prices in the West were so excessive that the government would save money by buying direct from the wholesalers at Chicago and shipping the goods to the various points where reclamation work is in progress.

At present the work is being carried on in twenty-nine different projects. An expenditure of $46,000,000 will be made and when completed more than 2,000,000 acres of arid land will have been reclaimed. The freight bills alone last month amounted to $38,000. The new office is expected to result in a total saving to the service of at least 20 per cent.

The work is being carried on in the arid regions of thirteen Western states and territories, from the western part of Kansas to the Pacific coast and in Oklahoma, Nevada, North and South Dakota.

RECEIVERS FOR NINE BREWERS

Appointed by Kansas Supreme Court---Properties Will be Sold.

Topeka, Kas., April 24.—The state supreme court today appointed Judges Hallen, G. H. Whitcomb and Judge T. F. Garver, all of Topeka, receivers for the property in Kansas, said to be worth $250,000, of nine foreign brewing companies. Six of the companies are Kansas City, Mo., concerns and three are Milwaukee firms. They follow:

Pabst Brewing company, Val Blatz Brewing company, Joseph Schlitz Brewing company, Helms Real Estate company, Fred Heim Brewing company, Kansas City Brewing company, Rochester Brewing company, Imperial Brewing company, Heim Brewing company. The Helms concerns are different incorporations of the same firm.

The receiverships were appointed upon the petition of Attorney Jackson, who recently secured an order from the court restraining the concerns named from doing business in Kansas. The property involved includes liquors, bar fixtures, wagons, animals and warehouses and is located principally in Topeka, Kansas City, Wichita, Leavenworth, Atchison, Saline, Iola, Galena, Pittsburg and Columbus, Kas.

Since the restraining order was issued some of the companies removed part of their property, situated near the state line, into Missouri and Oklahoma. Attorney Gen. Jackson says what remains will be sold and the proceeds used to defray the cost of the present suits. The companies that removed their property will be cited for contempt.

When you need a pill, take a pill, and be sure it's an Early Riser. DeWitt's Little Early Risers are safe, sure, satisfactory pills. They do not gripe or sicken. Sold here by all druggists.

WILL OF PROF. BORDEN IS DECLARED INVALID.

Jeffersonville, Ind., April 24.—Judge H. C. Montgomery yesterday declared the will of Prof. W. W. Borden to be invalid. It was held that in the will Prof. Borden did not make his meaning clear. The widow becomes the sole beneficiary of an estate valued at about $1,000,000.

Prof. Borden bequeathed to the people of Indiana his museum containing specimens gathered from all parts of the world. Another beneficiary was the Indiana university.

A chance to save some money on There is no want ad. printed in The Herald to-day which does not strongly interest at least ten people—and there are some that will strongly interest thousands.

BIG EDITION THURSDAY

Herald's Ninety Page Industrial Paper is Now Ready.

Subscribers Should Secure Extra Copies to Send Away.

Tomorrow evening The Herald will issue its Industrial Edition, a great ninety-page paper, devoted to Duluth, its beauties, industries and interests. This big edition has been in the process of making for several months, and will be the finest exposition of the advantages of Duluth and its prospects which has ever appeared.

It will be on sale at all the news stands, and will be delivered to all The Herald's regular subscribers at the regular rate of 2 cents per copy, and it will be one of the most effective advertising agencies to be sent broadcast through the country by boosters of Duluth that has ever been issued.

Duluth's industries, past, present and future, her wonderful shipping, her park facilities, her inimitable climate the boundless resources of the ranges, the meaning of the coming of the great steel plant, and in short every advantage, industrially, geographically and socially, which will tend to make Duluth the greatest city of the Northwest, are set forth and detailed in a most able manner.

The big edition will be sent by the thousands all over the land, and many big orders have already been received for purposes of distribution throughout the United States and Canada, by public spirited Duluthians. The Commercial club has taken an active interest in this work, and will superintend a distribution of copies of the edition wherever they will do the most good.

The effect which such a paper can have on the growth of the city is remarkable, the standing of a newspaper with an acknowledged influence, making it many times as effective as the most carefully worded circular. Every Duluthian ought to send copies of the Industrial Edition of Duluth to his friends outside the city, and if he does not feel that he can do this, he should at least read it and appreciate the possibilities of the city in which he lives.

HIS CEMETERY PORCH.

"I want no 'Sacred to the Memory' to a whole lot of dead people I don't know staring at me in the face every time enter the house, over the front porch."

This remark, says a Norristown correspondent of the Philadelphia Record, was made by Henry Deetz, a wealthy resident of Souderton, defending himself in a suit for not paying a balance of $500 to Contractor Nathaniel Wampole, who has just built a mansion for Mr. Deetz.

Deetz produced evidence showing that the contractor got a lot of old tombstones from an abandoned cemetery, at bargain rates, which he incorporated on the pillars and other parts of the stonework of the porch. In his anxiety to complete the contract the builder did not take time to remove the inscriptions.

The jury, however, failed to regard any sentiment and brought in a verdict of $404.25, some allowance being made for several of Mr. Deeetz's minor contentions.

VIPER KILLERS ON STRIKE.

Chicago Chronicle: Odd as the London music hall may seem there is an even odder one in Switzerland, in the canton of Geneva. Some parts of the canton are infested with vipers, so much so that viper killing is a regular calling and is followed by a considerable number of persons. A reward of 1 franc for every viper killed used to be given by the department of justice and police, which had these reptiles in charge, but lately the department lowered the reward to 50 centimes. But the viper killers objected, as they truly said that their calling had got no less dangerous and so they went out on strike. As long as the dispute lasts, people are advised not to walk in the woods near Geneva.

STILL FAR FROM MARK

Y. W. C. A. Fund Needs Many Subscriptions to Complete Total.

Workers Determined to Bring Campaign to Grand Climax.

Are the people of Duluth going to allow the Y. W. C. A. building fund campaign to fail, or fall short of entire success, when that success is almost within reach?

That is the question which many of those interested are asking.

The women set out to raise $130,000 by May 1, and at 3 o'clock this afternoon they were still $50,000 short of the desired sum. Something more than $5 subscriptions are needed, but the members of the committees are anxious that nobody refrain from contributing to the work through a feeling of not being able to give a sum large enough to count. The contribution of everyone is desired, and although the subscriptions of those who are able to write a check for $5,000 or more will be welcomed, subscriptions from every interested person of the community is hoped for, and they are desired at once.

Although the pledge cards state that the sum pledged may be paid in four installments, there are still many who think that the contribution must be paid immediately. A $5 pledge could be given by almost anyone, for in four installments the gift would not be burdensome.

"There are so many Duluth people who will not contribute toward our fund," said one of the board of directors today, "because they feel that their contribution is not large enough. If everyone who can would send us a pedge card for $5, who will otherwise probably not give anything, we would at least be $10,000 nearer the mark. We greatly need these smaller offerings and hope within the next two days to get many of them."

It is expected that at the Y. W. C. A. bazar, which will be held this evening at the Gidding store, several hundred dollars will be realized. A concert program of musical numbers and readings has been arranged and an admission of ten cents will be charged which will go toward the fund as well as the entire receipts of the evening. Many attractive features have been planned and the women of the board of directors and members of the association assisted by the Gidding salespeople will assist. A large attendance is expected and the affair will be delightful socially as well as a help to the building fund.

Only five more active days of work remain for the committees and the energies of every individual actively interested in the campaign are being redoubled and these are days of intense excitement at the association rooms, where the air is fairly charged with the electricity of strained effort.

The latest bulletin of the building fund for the Young Women's Christian association at 3 o'clock this afternoon, read as follows:

Red—Charlotte Robinson, ...	$1,848.66
Yellow—Alice Drew	1,467.41
Blue—Carrie Russell	1,465.66
Lavender—L. L. Garvin	1,426.00
Pink—Elsie Look	1,201.41
Green—Augusta Ehling	591.95
Women's Committees	8,064.90
Men's Committees	63,900.00
Total	$79,898.99

WASHINGTON'S ODDITIES.

Queer Type of All Kinds Found About Nation's Capital.

New York Sun: Living in Washington is a man 99 years old who has passed nearly eighty years there and and has never set foot inside the capitol.

At the Virginia end of the Aqueduct bridge, across the Upper Potomac, is a woman past 80, who, living within half a mile of Washington all her life, has never been in Washington.

The old Washingtonian, who is hale and intelligent, said when questioned that he'd never cared to go inside the capitol. There was no business calling him there. He'd always been perfectly willing to let the folks inside the capitol go their ways if they'd only let him alone.

The old woman at the other end of the Aqueduct bridge observed, in response to an interviewer's inquiries, that she'd never crossed over to Washington because she'd never cared to. She 'd always had enough work to do without gadding about.

These two old persons fairly represent the lack of inquisitiveness which is, perhaps, the strongest characteristic of the people who live in and around Washington. Washingtonians are probably the least curious people on earth.

On New Year's day, when the president received the general public, the double line of people eager to grasp his hand curved in two directions out of the White House grounds and upon the streets till 4 or 5 o'clock in the afternoon, though the reception began at noon. Of the thousands in those two patient lines hardly any were Washingtonians.

Washingtonians don't attend public receptions at the White House. The lines were made up of visitors who came especially for the purpose, and of folks residing there transiently. If, by dropping a cent in the slot, the average Washingtonian could be instantly whisked to the White House, there to receive the double nutt from the president, a "Dee-lighted!" or two, and a little narrative about a bull moose, or the art of hitting a timber wolf or a fawn in the left shoulder with an express bullet, it isn't the least likely that the average Washingtonian would be attracted by the investment.

This feature of Washington's characteristic indifference is a growth of comparatively recent years. Washingtonians did go to Mr. McKinley's public receptions in quite considerable numbers. They attended the public levees of Mr. Harrison and Mr. Cleveland, too, and they fairly swarmed through the east room when Mr. Arthur was president. But they have entirely remained away from these affairs at the White House in recent years.

Washington folks don't flock to the capitol at all. The big people don't appear to interest them. Washingtonians are pretty close to the wires of government, and this may account for the lack of interest in the wire manipulators.

A representative in congress is an almost pitifully inconsequential figure in Washington A senator isn't so much here, either.

Every day the vice president of the United States walks down Pennsylvania avenue from the capitol, accompanied by some senator or other. The vice president is a very tall person—so tall as to make him an unusual figure, on account of his stature and the silk hat atop of the stature, almost anywhere. But never a Washingtonian wheels around to gaze after the vice president.

A bit more attention is given to the supreme court justices as they swing down the avenue, generally in pairs or trios, late in the afternoon. Washington rather likes the supreme court.

The visitors' galleries of both the house and the senate are filled from day to day almost exclusively by visitors of the Washington excursionist type.

The visitors at the capitol, as a rule, make that wearisome climb to the dome of the capitol. If a Washingtonian were to make that journey to the top of the capitol his friends might be expected to have a lunacy commission sit on his case.

Washington is, in proportion to its size, the leading rubberneck wagon town of the world. There seems to be a rubberneck wagon on every block of the town during all of the daylight hours. But there wouldn't be one if the proprietors depended upon Washingtonians for patronage.

It would probably be within the strictest boundaries of truthfulness to say that not one quarter of the white folks of Washington have yet been within the library of congress, which unbiassed travelers call the most beautiful building in the world. Yet that building is crowded at all hours, up to 10 o'clock at night, with visitors from other places.

Mount Vernon, the home of Washington and his burial place, is visited by thousands of tourists every year, but Washingtonians don't go there. You hear Washington folks nedeavoring to flag their visiting relatives and friends from other places from the trip to Mount Vernon. Most folks who visit Washington want to see Mount Vernon. They suggest the trip to their Washington entertainers as soon as they get here.

"What's the use?" says the Washingtonians. "Nothing to see. Malarious old dump. Mean ride down there on trolley cattle cars. Fifteen miles of the ornery est scenery on earth. Better forget that Mount Vernon thing. Just imagine that you've been there and let it go at that. We've been imagining we've been there all these years, and see how healthy we look and how contented we feel."

PE-RU-NA A SPRING TONIC COLDS AND INDIGESTION.

MAJOR GENERAL JOHN HAMMOND

John Hammond, Maj. Gen'l Commanding Div. of Potomac, Div. P. U. Vet. Union, 302 Maryland Ave. N. E., Washington, D. C., writes:

"I really feel that I owe it to you to tell you of having been cured of indigestion and catarrh by Peruna. I improved while taking the first bottle. We keep it in the house and use it as a tonic as well as for colds.

"I would not be without Peruna, as it was my salvation."

Pe-ru-na Restores Appetite.

MR. SAMUEL D. RHOADS, a prominent insurance man of Landsdowne, Pa., writes as follows:

"I heartily and unreservedly wish to give endorsement to Peruna as a catarrh cure that is not approached by any other medicine, at least in my observation and experience, and noting what it has done for members of my family.

"The crowning virtue, after it has cured the catarrh, is as a tonic and restorative of appetite, strength and good spirits."

Stomach Trouble Fourteen Years.

Mr. Albert Christian, R. F. D. 2, Box 62, Lindley, N. Y., writes:

"I was sick for fourteen years with my stomach and back. Half of the time I could scarcely work, and I would have vomiting spells for weeks at a time. I have paid out hundreds of dollars for medicine and doctors, yet I was running down until June, 1901, when I got a bottle of Peruna and took that, and since that time I have been well, and can work and eat. I know that Peruna is what saved my life. I recommend Peruna to all my friends."

A Saving to the People.

The patent medicine industry is a tremendous saving for the people. It enables the householder to purchase a useful remedy, together with directions and other medical advice, at a cost far below the average price of a doctor's visit. Like the shoe factory, the wagon factory, and the clothing factory, it lowers the price at the same time it perfects the product.

The patent medicine business enables families far removed from doctors, to avail themselves of the medical advice of specialists, and to profit by their favorite prescriptions. All this is brought to the home for a small fraction of the amount it would otherwise cost the people.

ANSWER BY SATURDAY

City Officials Expect Reply From Wisconsin Central This Week.

Condemnation Proceedings Require Early Acceptance of Ordinance.

It is expected by the city officials that the Wisconsin Central Railway company will file with the city clerk a notice of what action it expects to take in connection with the ordinance passed by the council some time ago, permitting it to use certain streets and highways for its tracks and yards, before next Saturday. The reason for this is that the matter of the vacation of Seventh and Eighth avenues west between Michigan and Superior streets is to come up before the court at that time and the city attorney has been instructed to oppose purposes unless he is assured of the acceptance of the ordinance. The vacation the vacation of the avenues for railroad of the avenues is a necessity for the carrying out of the plans of the railroad company, and as there has been no intimation that the hearing will be postponed at the railroad company's request it is assumed that they will be on hand with their acceptance by that time.

This means that work must be begun here by the railroad company within thirty days, as, by the provisions of the ordinance in question, they have sixty days to signify their acceptance of the provisions of the ordinance and must begin work within thirty days after signifying their acceptance. The ordinance was passed April 1 and approved April 3, so that no action is necessary on their part until the end of May. They are, however, anxious to commence work as early as possible, so it is more than likely that the official acceptance will be filed in time to forestall any opposition on the part of the city in regard to the Seventh and Eighth avenue condemnation proceedings.

No one seems to be at all doubtful as to the answer which the company will file, in spite of the fact that there has been no intimation, formal or informal, as to what they would do. Nevertheless it will give a substantial aspect to the situation to have the official acceptance in the hands of clerk.

The men who have been closest to the progress of affairs from the start are certain that the defeat of the Miller road assessment bill will have no effect on the railroad people and say that its passage was at no time taken into consideration during the negotiations by either side.

Women have decided that in case they cannot vote, they will cut out the "Stork" proposition. Perfectly proper. Take Hollister's Rocky Mountain Tea, it is good for most everything. 35 cents, Tea or Tablets. Ask your druggist.

"ALLWIN FOLDING" GO-CARTS

The "Allwin" is the lightest and strongest folding Go-Cart on the market as well as the most compact. The "Allwin" can be folded and set up with one hand at one motion. No other cart can do this. When you step off the car the "Allwin" can be put in position instantly. The prices are:

$5.75, $7.50, $8.50, $10, $12.50 and $17.50.

Be sure you get the right cart. "ALLWIN" Is the name.

MARINE NEWS

FISHING TUG LOST

The Searchlight of Harbor Beach Believed to Have Foundered.

Fails to Return to Port---Had A Crew of Six.

Harbor Beach, Mich., April 24.—The fishing tug Searchlight of this port is missing, and is believed to have sunk in Lake Huron last night with her crew of six men.

A heavy sea prevailed on Lake Huron yesterday and last night. The Searchlight went out to her nets, as usual, yesterday, and was last sighted out in the lake headed for port, from the life-saving station, about 6 o'clock p. m. The tug did not arrive, however, and when finally anxiety began to be felt for her safety, the harbor tug Johnston and the life-saving crew went out into the lake and spent the night in searching for some trace of the missing tug. A number of fish boxes which are supposed to have belonged to the Searchlight were discovered floating, and this is taken as a certain indication that the tug has foundered. The crew of the Searchlight, all of whom are believed to be lost with their boat, are as follows:

Capt. Walter Brown of Harbor Beach; Mate Harry Brown, son of the captain, of Harbor Beach; Engineer Edward Coveau of Bay City; Fireman Merton Perkins of Harbor Beach; Angus Murray, deck hand, of Detroit; John Lester, deck hand, of Harbor Beach.

CLEAR FOR DULUTH.

Big Fleet Which Wintered at Chicago is Breaking Up.

Chicago, April 24.—Although the straits of Mackinac have been opened nearly three weeks, the grand march of lake fleets really began today. The four big steamers of the United States Steel corporation which wintered at South Chicago sailed late last night for Duluth. The grain-laden steamers of the St. Lawrence line got away from Duluth at noon for the St. Lawrence river. In fact, all except a few of the smaller wooden ships which owners are in no hurry to send out, have steamed up and will go before night falls.

In general, instructions to masters were that they were not to buck ice, but wait until the—way was clear in the Soo river. That of the entire great inland waterway is the only spot where ice now blocks the way. Lake Erie has at last cleared up, and Lake Superior from the tip at Duluth to the locks at Sault Ste. Marie offers no obstruction to the free movement of the fleets.

The opening this year is considerably later than for several seasons past and the movement of iron ore in April will cut small figures in the totals. Owing to the larger number of vessels going to coal docks on Lake Superior, the delays will be a serious item in the totals for May. From present indications it is going to be a season when every item counts if the grand aggregate of iron ore demanded by the steel mills is to be anywhere near reached.

MATES GET INCREASE.

New Wage Scale Granted by Lake Carriers Announced.

President Livingstone has announced that the Lake Carriers' association has voluntarily raised the wages of first and second mates. Under the new wage scale issued by the association first mates on first-class steel steamers will receive $125 a month, and second mates $80 a month, an increase of $10 and $6 respectively.

On second class steel vessels first mates will receive $108 a month, and second mates $75 a month, an increase of $8 and $5 a month respectively. The wages of mates on third-class steel vessels remain the same as last year, $90 for first mates and $60 for second mates.

The mates on first-class wooden steamers will receive an increase of $8 and $5 respectively, making the wages of first mates $108 a month, and the wages of second mates $75 a month. The wages of first and second mates on second-class wooden steamers remain the same as last year, $90 and $60 a month respectively.

This increase is made voluntarily by the Lake Carriers' association and is in keeping with the general advance in wages this season.

Tells of Ice Fields.

The keeper of the lighthouse at Eagle Harbor on Keweenaw point in a letter to Capt. Swenson of the local hydrographic office says that there are large ice fields passing with the wind off the point but that the ice in the harbor had disappeared. Captains are advised to be on the lookout for the large ice fields.

Captain Fields Here.

Capt. J. M. Fields of Cleveland, was in the city yesterday. Capt. Fields is the official compass adjuster of the Pittsburg Steamship company and was in Duluth to test the compasses of the steamer Mataafa. He was aboard the boat when she took her trip out in the lake yesterday and he reports that her compasses are now in good shape and perfectly adjusted. Capt. Fields said that until last week there had hardly been a night during April where the temperature had not been below the freezing point.

Will Run on Portage Lake.

The steamer Plowboy which was sunk in Bayfield harbor a few days ago, will probably be raised within a few weeks and taken to Portage Lake where she will be used in the excursion business on the canal. A couple of seasons ago this little steamer was operated on this run but last year she went to Sandusky, where a big summer resort business was done during the summer.

May Cut Off Waukegan.

Waukegan, April 24.—The Hill Steamboat company threatens to take off its two boats which have run daily between Chicago, Racine and Kenosha, because the city insists on the payment of $675 for rent due for use of the city warehouse.

Graves Among the Lost.

Cleveland, April 24.—Capt. Carlton Graves of this city, was mate of the steamer Arcadia, lost on Lake Michigan. Capt. Graves was 76 years old and was secretary of the local lodge of the Shipmasters' association.

Ocean Steamships.

Antwerp — Arrived: Vaderland, New York.

New York—Arrived: Pannonia, Naples.

Copenhagen—Arrived: Hellig Olav, New York.

Hamburg — Arrived: Bluecher, New York.

PITTSBURG BOATS OUT

All But the Van Hise Have Left the Harbor.

Passage is Being Forced Through St. Mary's River.

All of the boats of the Pittsburg fleet cleared the harbor this morning with the exception of the steamer Van Hise, which is still at the drydock at Superior but not quite ready to load. The news that the Sault will probably be opened within two days encouraged the vessel owners and orders were sent to the masters to clear for the lower lakes.

Of the steel trust fleet the steamers Mataafa, Martana, Mariposa, Matoa, O. M Poe and Small Wolvin cleared the harbor in a bunch during the forenoon. They were all loaded with ore for the lower lake ports. The steamers John Sharpless and John Lambert, loaded with grain for Buffalo, were also in the departing fleet this morning. The steamer W. W. Brown came down from the ore docks this afternoon and steamed out of the harbor shortly after 1 o'clock. The Stackhouse and Samuel Mathers cleared from Superior.

Local vesselmen are predicting today that if the tug Algomah and the whaleback steamers, the Cort and Neilson, which have been ordered by the Lake Carriers' association to force a passage in St. Mary's river from Detour, begin work today they should be able to open a channel in two days. The ice is not more than twelve to fifteen inches in thickness and local tugmen say that the tug Record could be forced through it easily.

The expense of the forcible opening of navigation will be paid by the Lake Carriers and then assessed against the vessels that will be benefitted. The Algomah will receive $400 a day but the whalebacks will get nothing unless they are damaged in breaking ice. They have been proved to be great ice breakers when their long bows are lifted out of the water by heavy loads in the stern. They run up on the solid ice and break it by their weight.

Capt. W. W. Smith, marine superintendent of the United States Steel corporation's fleet will be in charge of the work for the Lake Carriers. The first boats to pass through the channel will be the upbound fleet, down bound steamers being held at the Sault until the way is clear.

GOPHER IS OUT.

Training Ship Has Been Moved From Winter Quarters.

The United States training ship Gopher has been moved from her winter quarters in the Lake avenue slip for the first time this season. She first went over to the Hanna coal dock at Superior to take on fuel and then returned to the Duluth side of the bay and went into the Northern Pacific slip at the foot of Seventh avenue west.

Workmen are at present engaged in making repairs upon the Gopher in order that she can put up a presentable appearance this spring. She will be painted throughout and will be refitted thoroughly before being placed in commission for the season.

Until the training ship Dorothea is secured by the Minnesota naval reserves from Chicago the Gopher will be kept at Duluth. The Dorothea will not be brought here until the Chicago reserves get their new boat which will probably be some time in July. It is expected that the new boat will be at Duluth, however, before the maneuvers takes place in August.

Passed Detroit.

Detroit, April 24.—(Special to The Herald.)—Up: Kongo, 11:20 Tuesday night; Gilchrist, 12:30 Wednesday morning; A. D. Davidson, 2; Mullen, 3; Ball, Luzon, Viking, 4:40; Laughlin, 5:10; James Davidson, Onoko, 7; Duluth, 7; Heffelfinger, 7:30; Jones, 8. Down: Douglas, 9 Tuesday night; E. L. Wallace (arrived), Wednesday morning; Livingston, 5:40; E. L. Wallace (cleared), 6:50.

Up yesterday: Starrucca, 12:15 p. m.; Hoyt, 12:40; Williams, 12:50; Hebard, 1:15; Wilkesbarre, with Tuscarora, 2; Osborne, Tempest, 3:40; tug Birchhead, Three Brothers, 4; D. M. Whitney, 5:20; Weeks, Schoolcraft and barges, 6:50; McWilliams, Wyoming, M. C. Neff, 7; D. R. Hanna, 8:30. Down: Rutland, 1:50; Ericsson, 3:30; Devereux, 5; Bielman, McLachlan, 6:30; Cornell, 6:50.

America Again Clears.

The steamer America of the Booth line cleared the harbor for north shore points and Isle Royale this morning. Another big list of passengers was aboard the boat and it is expected that when she returns she will bring as big a crowd to Duluth as she did Monday night. Between seventy-five and 100 people took passage on her this morning. The America will stop at Two Harbors, Beaver Bay, Grand Marais and will then make for Isle Royale, where she will put in at Washington Harbor and also at Rock Harbor.

Channels at Lime Kilns.

Cleveland, April 24.—President Livingstone of the Lake Carriers has arranged with government officials to occupy only one-half of the easterly channel at Lime Kilns Crossing at the mouth of the Detroit river which is 150 feet. The remaining 150 feet will be used exclusively by upbound boats. The easterly channel will be staked in a few days. Down bound boats will use the westerly channel which is 800 feet wide. At a meeting of vessel men here yesterday masters of steamers reported that it was not safe for boats to pass in the westerly 300 feet. Dredges will work on only half of the easterly channel at a time, leaving the other half free for vessels.

Craving for Drink Destroyed

The best aid to temperance is something that will strengthen the drunkard's wrecked nervous system and cure his unnatural craving for drink. We believe that any man who really desires to be cured of the liquor habit can cure himself by using Orrine. This remarkable discovery has made so many cures among our customers that we are glad to sell it under an absolute guarantee to refund the money if it does not cure.

It is in two forms: No. 1 that can be given secretly, and No. 2 for those who wish to be cured. It is not only the most reliable treatment known, but it is also the most economical as it costs only $1 a box and there is no detention from the usual duties, while if cure is not effected, there is no expense whatever. Mail orders filled. The Orrine company, Washington, D. C., or F. W. Kugler Drug company, 108 West Superior street, Duluth.

SINCLAIR TO DULUTH

Big Ice Breaking Tug Will be Brought Here Soon.

Excelsior, Buffalo and Crosby Go to Other Ports.

The big ice crushing tug James R. Sinclair will be brought from Chicago by the Great Lakes Towing company and operated in the Duluth-Superior harbor during the coming season. As soon as the Sault passage is open Capt. Vroman, local manager of the company, will send a crew to Chicago to take charge of the Sinclair and bring her to Duluth.

The report comes from the lower lakes that the Great Lakes company will build another ice crushing tug to be stationed at Buffalo. This tug will be a duplicate of the Sinclair and will be 78 feet in length. She will be built by the American Shipbuilding company at the Buffalo yard.

The tug Excelsior will be transferred from Duluth to Detroit, where she will be operated this season, and the Buffalo and Crosby will be stationed at Marquette and Ashland respectively. The tug Zenith has been chartered for the season by the United States engineer for the Duluth district.

Ball Brothers in First.

Sault Ste. Marie, April 24.—The first of the downward bound fleet arrived here at 6:30 last night. The leader was the Ball Brothers, closely followed by the Hoyt and Mason. They locked through the American lock but will wait here until the river is opened up. Their captains report a good passage with no ice on Lake Superior to speak of.

Big Coal Fleet.

Fifty-eight vessels with coal cargoes have been reported for the docks at Duluth and Superior on the first trip. Some of them are of the larger carrier type and nearly all of them are waiting at Detour for the opening of the Sault. Much time has already been lost and the coal docks at Duluth are nearly bare of fuel as a result. The big steamers W. A. Rogers and Charles Weston have been out over three weeks and other vessels of the icebound fleet have been held for the last ten days.

New Transportation Company.

The Wyoming Transportation company has been recently organized at Buffalo and the steamer Wyoming has been purchased by the concern. Capt. Andrew Kelley is master and manager; John O'Marra, chief engineer; and C. S. Mahoney, secretary of the company. The Wyoming left Buffalo Sunday for Chicago with a cargo of coal.

Passed Mackinaw.

Mackinaw City, April 24.—(Special to The Herald.)—Up: Bethlehem, 9:20 Tuesday night; Schlesinger, 12:10 Wednesday morning; Muney, 4:30; Steinbrenner, 7:15; Neptune, 7:50; Brower, 9:50. Down: Curtis and consort, 9 Tuesday night; Blac, 1:30 Wednesday morning; Vulcan, Codorus, 4:40; Smith, 5; Whitaker, 5:40; Castalia, 6:30; Bartow, 7:50; Mary Boyce, 8:15; Fletcher, 9; William Palmer, 9:50. Wind northwest, light; clear.

Another Isle Royale Resort.

W. H. Faucett of Calumet, and Charles Vaulin left this morning on the steamer America for Isle Royale, where they have purchased a tract of land near Rock Harbor. It is said that they will build a number of cottages at that point and convert it into a summer resort of the same kind as that at Washington Harbor.

Vessel Movements.

South Chicago—Cleared, grain: R. P. Fitzgerald, Rend, Buffalo. Light: Sill Buffalo.

Buffalo—Arrived: Mauch Chunk, Chemung, Fryer. Cleared, coal: Orion, Chicago; Howe, Duluth. Merchandise: Superior, Duluth; Binghamton, Chicago.

Chicago—Arrived: Wright. Cleared, light: C. W. Elphicke, Olympia, Buffalo; Fryer, Mowatt, Duluth.

Milwaukee—Cleared: Pollock, Albright, Watt, Shaughnessy, Superior; Pathfinder, Harper, Escanaba, Penobscot, grain, Buffalo.

Cleveland—Cleared, coal: Arizona, Scotia, Racine; Centurion, Taylor, Fanay, Clint, Duluth; Lackawanna, Fort William; Keefe, Detour; Strathcona, Soo. Light: Cort, Angeline, Duluth.

Huron—Cleared, coal: Grammer, Manitowoc; Laughlin, Duluth.

Sandusky—Cleared: Luzon, coal, Waukegan.

Lorain—Cleared, coal: Widlar, Manitowoc; Onoko, Duluth.

Ashtabula—Arrived: Holden. Cleared, coal: Riddle, Heffelfinger, Duluth.

Manitowoc—Arrived: Towle. Departed: Monroe Smith, Lake Superior; Raleigh, Tokio, Escanaba.

Toledo—Cleared, coal: Volunteer, Milwaukee; Thomas Davidson, Baltic, Sheboygan.

Escanaba—Arrived: Peck, Dunham, Case, Robbins, Roman. Departed: America, Castalia, Italia, Lake Erie; Meaford, Soo, Ont.

Port Colborne—Up: Ogdensburg, Cleveland; City of Ottawa, Detroit; Omaha, Buffalo. Down: Whitney, Mercur, Samuel Marshall.

Green Bay—Arrived: Wilkinson, Rust.

Waukegan—Cleared: W. L. Brown, Duluth.

CZAR CRITICISES GOLOVIN'S WORK

Talks Very Plainly to the President of the Duma.

St. Petersburg, April 24.—The confidents of M. Golovin, president of the lower house of parliament are very reticent regarding the details of the audience which he had with Emperor Nicholas yesterday, but it is learned that the discussion was frank and unreserved. The emperor spoke his mind freely and showed himself to be surprisingly well posted on the transactions in parliment, which is explained by the fact that he reads all the reports on the subject every night. The emperor criticised M. Golovin's actions, questioning his impartiality in allowing much more freedom to the Radicals than to the Conservatives, mentioning particularly several speeches of M. Alexiensky, Social Democrat, which, his majesty said, should not have been permitted.

M. Golovin, in his defense, pleaded his difficult position as head of a Radical parliament at the present time.

KIRK'S JAP ROSE toilet and bath soap—it is TRANSPARENT—so clear you can read through it. All druggists and grocers sell it.

BANKER DENNETT IS HELD IN $1,000 BAIL.

New York, April 24.—Over M. Dennett, the banker and broker, who was yesterday arrested was today held in $30,000 bail for trial in police court on the charge of receiving stolen property. Dennett was arrested in connection with the theft from the Trust Company of America of bonds of the Chicago, Rock Island & Pacific railroad, valued at $50,000, by W. O. Douglass, assistant loan clerk. Douglass is also in custody.

U. S. RAILROADS HAVE MANY CANADIAN CARS.

Moncton, N. B., April 24.—An investigation by the traffic manager of the Intercolonial railroad into the shortage of freight cars has disclosed the fact that several thousand cars of the government road are on United States lines. The government has sent out tracers, and is endeavoring to have the cars returned.

More New Suits—

Welcome Suit News this. Plaid, checkt and striped Etons and Prince Chaps. Every suit is the essence of refinement and good taste—regular price $25.00— **$19.50.**

Many of the higher priced suits have joined the ranks of the $25.00 grades this past week. A necessary sacrifice of which you get the benefit. The best values of the season greet you here tomorrow, at **$25.00.**

Every-day Waists—

Just unpackt a little shipment of popular priced Lingerie Waists. So different and pretty—you will want one. Early in the season you would pay $5.00—tomorrow— **$2.75.**

"Hangwell" Skirts—

In black, blue and brown voile—full plaited, trimmed with taffeta bands and tuckt—regular $12.50 skirt— **$9.75.**

Hats—

An event of unusual importance in the Hat Store tomorrow is the showing of $6.00 Hats. They are very unusual values and needless to say unmatcht in this city— **$6.00.**

WANTS ONLY HEART BURIED.

Connecticut Young Woman Leaves Strange Request in Her Will.

Winsted, Conn., April 24.—By her will, Miss Minnie E. Martin Schroeder, a waitress, who died in New Britain Saturday, directs that her remains, with the exception of her heart, be cremated. The vital organ she wants cut out of her body and buried between her parents, both of whom are dead. Her wishes will be partly complied with, but the administrator of her estate, Max Schweitzer of Bridgeport, has not yet determined whether to bury the heart as directed or not.

BAKERIES ATTACKED.

Paris, April 24.—The strikers attacked several bakeries today in attempts to intimidate the bakers who were at work. Many windows were broken with stones. Some men stormed a bakery in the Rue de Ramey and maltreated the workers, whereupon bystanders joined in the fight and routed the strikers. Twenty arrests were made.

DOCTOR'S ALL AGREE THIS TIME.

The most eminent writers on *Materia Medica*, whose works are consulted as authorities and guides in prescribing by physicians of all the different schools of practice, extol, in the most positive terms, the curative virtues of each and every ingredient entering into Dr. Pierce's Golden Medical Discovery. In fact it is the only medicine, put up for sale through druggists for the cure of all diseases of the mucous surfaces, as nasal catarrh, throat, laryngeal, and bronchial affections attended by lingering, or hang-on-coughs that has any such *professional* endorsement—worth more than any amount of lay or *non*-professional testimonials.

Do not expect too much from the use of Dr. Pierce's Golden Medical Discovery. It will not work miracles. It will not cure consumption in its advanced stages. No medicine will. Nor is the "Discovery" so good for a sudden attack of acute cough, but for the lingering, obstinate, hang-on-coughs, accompanying catarrhal, throat, laryngeal and bronchial affections, it is a most efficacious remedy. In cases accompained with wasting of flesh, night-sweats, weak stomach and poor digestion with faulty assimilation, and which, if neglected or badly treated are apt to lead to consumption, the "Discovery" has proven wonderfully successful in effecting cures.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes of catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well-while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

If you have bitter or bad taste in the morning, poor or variable appetite, coated tongue, foul breath, constipated or irregular bowels, feel weak, easily tired, despondent, frequent headaches, pain or distress in "small of back," gnawing or distressed feeling in stomach, perhaps nausea, bitter or sour "risings" in throat after eating, and kindred symptoms of weak stomach and torpid liver, no medicine will relieve you more promptly or cure you more permanently than Doctor Pierce's Golden Medical Discovery. Perhaps only a part of the above symptoms will be present at one time and yet point to torpid liver or biliousness and weak stomach. Avoid all hot bread and biscuits, griddle cakes and other indigestible food and take the "Golden Medical Discovery" regularly and stick to its use until you are vigorous and strong.

Foul, impure blood can be made pure by the use of Dr. Pierce's Golden Medical Discovery. It enriches and purifies the blood thereby curing, pimples, blotches, eruptions and other cutaneous affections, as eczema, tetter, or salt-rheum, hives and other manifestations of impure blood.

In the cure of scrofulous swellings, enlarged glands, open eating ulcers, or old sores, the "Golden Medical Discovery" has performed the most marvelous cures. In cases of old sores, or open eating ulcers, it is well to apply to the open sores Dr. Pierce's All-Healing Salve, which possesses wonderful healing potency when used as an application to the sores in conjunction with the use of "Golden Medical Discovery" as a blood cleansing constitutional treatment. If your druggist don't happen to have the "All-Healing Salve" in stock, you can easily procure it by enclosing fifty-four cents in postage stamps to Dr. R. V. Pierce, 663 Main St., Buffalo, N. Y., and it will come to you by return post. Most druggists keep it as well as the "Golden Medical Discovery."

Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, torpid liver or biliousness and all catarrhal diseases wherever located, have printed upon it, *in plain English*, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, of all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the *strongest possible terms*, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native, medicinal roots of great value.

Some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed, long years ago, by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Weed." Our knowledge of the uses of not a few of our most valuable native, medicinal plants was gained from the Indians.

As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for healing ulcerations, regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, overcoming painful periods, toning up the nerves and bringing about a perfect state of health. Sold by all dealers in medicines.

It's an insult to your intelligence for a dealer to endeavor to palm off upon you some nostrum of *unknown composition* in place of Dr. Pierce's world-famed medicines which are OF KNOWN COMPOSITION. Most dealers recommend Dr. Pierce's medicines because they know what they are made of and that the ingredients employed are among the most valuable that a medicine for like purposes can be made of. The same is true of leading physicians who do not hesitate to recommend these medicines, since they know exactly what they contain and that their ingredients are the very best known to medical science for the cure of the several diseases for which they are recommended.

With tricky dealers it is different.

Something else that pays them a little greater profit will be urged upon you as "just as good," or even better. You can hardly afford to accept a substitute *of unknown composition* and without any particular record of cures in place of Dr. Pierce's medicines which are OF KNOWN COMPOSITION and have a record of *forty years of cures* behind them. You know what you want and it is the dealer's business to supply that want. *Insist upon it.*

Spring Humors

Impure or effete matters accumulated in the blood during the winter cause in the spring such disfiguring and painful troubles as boils, pimples, and other eruptions, also weakness, loss of appetite, that tired feeling.

The best medicine to take is Hood's Sarsaparilla, which thoroughly cleanses the blood, and effects permanent cures by giving healthy functional activity to the stomach, liver, kidneys, bowels and skin.

Mrs. L. Bickford. Gossville, N. H., says: "Every spring I was completely prostrated, run down, from dyspepsia and that tired feeling. But I have found Hood's Sarsaparilla helps me from the first dose, completely restores good health and strength."

Sarsatabs are Hood's Sarsaparilla in chocolated tablet form. They have identically the same curative properties as the liquid form, besides accuracy of dose, convenience, economy, no loss by evaporation, breakage, or leakage. $1, of druggists or promptly of us by mail. C. I. Hood Co., Lowell, Mass.

GUARANTEED under the Food and Drugs Act, June 30, 1906. No. 324.

BEQUEATHED A MILLION

(Continued from page 1.)

quest of $10,000 left to the Allegheny Association for the Improvement of the Poor. This bequest already amounts to $23,628.94, with the estate only partially distributed.

When Mr. Porterfield died he had no near relatives other than his sister and he provided for her by leaving $150,000 in trust. At her death $100,000 was to be paid to the Allegheny General hospital and $50,000 to the medical and surgical department of the Western Pennsylvania hospital. He further provided that if his estate did not reach his estimate, the charities were to be reduced in like proportion as the estate fell off, and if it was more than he estimated, they were to receive the benefit. Hardly had the will been drawn until his estate increased by leaps and bounds, until, at his death, the executor finds it will amount to considerable over $1,000,000.

PALLIUM FOR BLENK

(Continued from page 1.)

white, interspersed with the American colors and the archbishop's purple. About 10 o'clock a solemn procession of 150 of the clergy wended its way to the thronged cathedral, where, following a celebration of high mass, the pallium was placed upon the altar.

It is a band of white wool, with two pendants of the same material, and bears four black crosses. It was brought here from Rome, and its sacred import is described as follows by Archbishop Glennon of St. Louis, who delivered the sermon:

"Before its being brought to St. Peter's tomb, there was the simple history of the making of this pallium at the hands of the daughters of St. Agnes, from the wool of the lambs which were dedicated to St. Anges, the virgin and martyr, the snowdrop of the springtime in the Christian Rome in the days of old. So, woven and surmounted with the cross of her martyrdom, the pallium was carried to the tomb of the apostle, guarded there on his feast day, blessed by the sovereign pontiff, and forwarded from that shrine here."

With the pallium were three jewels, an amethyst, a topaz and a ruby, each set in a pin for fastening the insignia upon the archbishop's garments. Contrary to custom, these jewels were not sent from Rome, but were, with the pope's permission, gifts of an old New Orleans family, friends of Archbishop Blenk of many years' standing. The jewels were heirlooms.

After the mass, Archbishop Blenk renewed his oath of allegiance and fidelity to the Holy See, and then Cardinal Gibbons placed the pallium upon the most reverend prelate's shoulders.

In addition to Cardinal Gibbons and Archbishops Glennon and Blenk, the following were present: Archbishop Moeller of Cincinnati, and Bishops Estrada of Havana, Cuba; Seanneli of Omaha, Neb.; Fennessy of Wichita, Kan.; Janseen of Belleville, Ill.; O'Reilly (auxiliary) of Peoria, Ill.; Morris (coadjutor) of Little Rock, Ark.; Byrne of Nashville, Tenn.; Carrigan of Sioux City, Iowa; Kenny of St. Augustine, Fla.; Verdauger of Brownsville, Tex.; Dunne of Dellas, Tex.; Gallagher of Galveston, Tex.; Meerschaert of Guthrie, Okla.; Heslin of Natchez, Miss.; Allen of Mobile, Ala.; and Van de Ven of Nachitochs, La.

A PLOT IS SUSPECTED

(Continued from page 1.)

Manhattan club, had been placed with various brokers about Wall street, innocent parties to the transactions, by way of margin for stock transactions. To recover the original bonds, it was necessary to get orders from Dennett and Douglass to call back the collateral and to reimburse the brokers holding such bonds for the loss entailed to them by such action. The total amount of this reimbursement was $140,000. It is apparent that the total amount of the thefts from the trust company was in excess of $200,000.

The warrant against Dennett cited that Dennett had received certain of the bonds "between April 19, 1906, and April 19, 1907," indicating that thefts had been going on for a year at least.

Banking men, in explaining how Douglass had escaped detection so long, said it would be a matter of comparative simplicity for a loan clerk temporarily to abstract securities put up collateral in outside operations through a confederate and then, by substitution of new securities for them from time to time as the original ones were required in the discharge of the loans with the bank, continue the process indefinitely or until he wound up as Douglass wound up.

BREAKING OF CABLE INJURES SEVERAL MEN.

Trempeleau, Wis., April 24.—By the breaking of the cable at the government quarries, a short distance across the river from here yesterday, seven men were seriously injured, two persons fatally. The injured are: Supt. Jameson, La Crosse, leg broken; Foreman Frank Frohawk, La Crosse, right arm shattered; Engineer George Schaeffer, Winona, left eye out; George Hyde, Trempeleau, leg broken and jaw shattered; Don Huttenhow, Trempeleau, wrist broken; L. Shuttle of La Crosse and J. Johnson, legs broken.

Many others were hurled twenty feet in the air, but, alighting in a bunch, were not seriously injured.

"My child was burned terribly about the face, neck and chest. I applied Dr. Thomas' Eclectric Oil. The pain ceased and the child sank into a restful sleep." —Mrs. Nancy M. Hanson, Hamburg, N. Y.

LEGISLATURE ADJOURNS

(Continued from page 1.)

ference committee left a strange inconsistency on the date when it is to be effective, and it is possible that this may render the act ineffective, though some attorneys say it will not. The law provides that after Jan. 1, 1908, there shall be no more passes, but the enabling clause of the bill says that it shall be effective Dec. 31, 1908. Which direction will be taken, if the law is upheld, remains to be seen.

* * *

Governor Johnson this morning appointed the tax commission. It consists of Samuel Lord of Kasson, ex-senator and lawyer; O. M. Hall of Red Wing, ex-congressman, and Franklin L. McVey, professor of economics at the State university. The senate confirmed the appointments, and the house informally endorsed them by an unanimous vote.

* * *

The house and senate received a report from the committee on the International Harvester company, to the effect that it is a trust and has killed competition.

* * *

Nearly all of the St. Louis county measures were cleaned up, the only ones to die at the close being Representative Saari's bill putting the inspector of mines under the appointment of the governor instead of under the county commissioners, and the bill increasing the salaries of St. Louis county officers. This bill Senator Laybourn was able to squelch. Last night he got through the senate the bill giving the juvenile court a clerk, the bills allowing Duluth and St. Louis county to build the Wrenshall and Fond du Lac bridges over the St. Louis river, and the bill permitting herring fishing in Lake Superior all the year around, providing no nets are set nearer than half a mile from the shore.

SMOKESTACK KILLS THREE

Crashes Through Roof and Hits Three Young Women.

Millville, N. J. April 24.—Three young women employed at T. C. Wheaton & Co.'s glass factory in this city were killed today by the collapse of a smoke stack which crashed through a room in which they were working. The dead are Lena Doughty, Lydia Thurston and Sylvia Gallagher. The accident occurred during a wind storm which lasted but a few seconds. The velocity of the wind was estimated at sixty miles an hour. The stack crashed through the roof of the plant and into the grinding room occupied by several men and three young women. All were buried under the debris. The crash was heard for several blocks and workmen from other parts of the plant went to the rescue. Among the rescuers was George Doughty, whose daughter was in the ruins. Her body was quickly uncovered, but life was extinct. Miss Thurston was taken out alive, but died shortly afterwards. Miss Gallagher was dead when her body was found.

The other employes escaped injury. Every department of the plant was shut down, the workmen being unnerved by the accident.

SUBURBAN HANDICAP IS WON BY VOLOCITY.

London, April 24.—The city and suburban handicap, at Epsom today, was won by Velocity. Larino was second and Succor was third. Thirteen horses started.

Dean Swift, the winner of the city and suburban last year, was the favorite, but was not placed. Velocity won by two lengths.

"Danny" Maher, the American jockey, rode Slavetrader, C. S. Newton's entry.

The city and suburban handicap is of 2,000 sovereigns for 2-year-olds and upwards, about one mile and a quarter.

NEW HIGH SCHOOL

Proposed at Bemidji to Solve Problem of More Room.

Bemidji, Minn., April 24.—(Special to The Herald.)—The Bemidji schools are growing at such a rapid pace that the board of education has decided the best way to solve the problem of more room in the building of a new high school building and in accordance therewith a special election is called for Tuesday, April 30, to vote on the question of issuing bonds for the sum of $35,000. The proposed new site is three blocks north of the present central school building and in five years will be the center of population of the city.

WEST DULUTH

MORE LAND PURCHASED

Wessinger Company Adds to Its Property at West Duluth.

Rumors of Big Foundry Are Denied by Officials.

Another tract of land adjoining that upon which the present plant is located has been purchased by the Wessinger Manufacturing company and rumors were afloat this morning in West Duluth that the plant would be considerably enlarged and a big steel foundry established. The new tract of land was purchased from the Lowry interests and is situated south of the present holdings of the Wessinger company.

When asked about the matter this morning J. A. Wessinger denied that the plant was either going to be enlarged or that a steel foundry was going to be put in.

The additional acreage has been purchased for the purpose of protecting the present plant and for trackage and warehouse room and the rumors that the plant will be enlarged are untrue.

ROYAL LEAGUE MEETS.

H. H. Stone Reports on Meeting of Supreme Council.

Members of the West Duluth Council, No. 255 of the Royal League, held an important business meeting last evening at the club rooms over the Western State bank. The attendance was good and the meeting was lively and interesting.

Charles O. Applehagen, who has been archon of the lodge since its organization, handed in his resignation with the excuse that business affairs demanded all of his time. Prizes for securing new members for the order were awarded a number of the candidates and the matter of readjusting the rates was taken up.

H. H. Stone, state organizer, was present at the meeting and spoke on the proposed change in the rates and a report of the bulsiness transacted at the last annual meeting of the supreme council in Chicago the first of the month was read.

It was announced by the orator that if the new furniture is received by the middle of May a social and card party will be given on the second meeting night of next month.

Meeting of Woodmen.

The regular meeting of the Old Hickory camp M. W. A. will he held this evening at Great Eastern hall and a class of seven candidates will be initiated into the order by the degree team. This will be the last meeting of the lodge at Great Eastern hall and new quarters will probably be decided upon this evening, therefore a large attendance of members is desired. After the business of the meeting is completed a lunch will be served and the members will enjoy a smoke social.

West Duluth Briefs.

C. L. Goodell of Barnum was in West Duluth last night, having just returned from an eight weeks' trip through Wisconsin and the Dakotas as the representative of the Austin & Weston company.

T. M. Bronson sprained his back quite badly yesterday while getting out of a buggy, and will be laid up at the Duluth hospital for several weeks as a result.

Mrs. Fred Rainy returned yesterday from Little Falls, where she has been visiting for the past two weeks.

Miss Mandy Wilkins is reported as being quite seriously ill at her home, Fifty-sixth avenue west and Raleigh street.

Herbert Rickley is confined to his home at 23 North Fifty-fourth avenue west with tonsilities.

C. M. Brooks went to Barnum this morning to spend the day transacting business.

O. P. Wick has started the erection of his new feed store on Grand avenue.

Richard Fitzgerald, who has been residing at Bovey, returned to West Duluth yesterday. He will soon move his family to this city.

Christ Murphy of Grand Marais was in West Duluth yesterday. He left last evening for St. Paul on a business trip.

Get in the habit of going to Nygren's drug store for what you want.

Mr. and Mrs. Edward Swenson of New Duluth spent the day in West Duluth and Duluth.

The young people of the Emanuel Lutheran church will give a social next Saturday evening at Wasa hall, Fifty-second avenue and Ramsey street.

Edwin S. Olson, who has been visiting relatives at Cannon Falls, Minn., for several days, returned yesterday to his home in West Duluth.

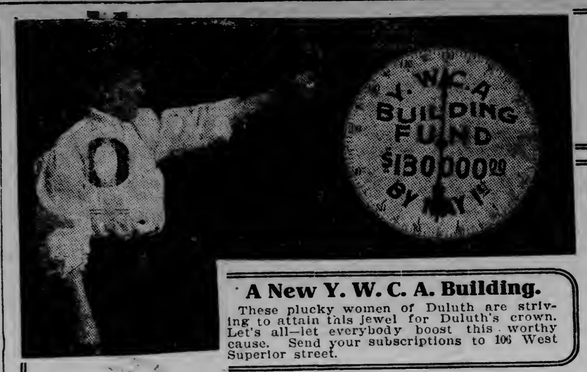
This afternoon at 2:30 the funeral of Ole Jacobson was held from Filiatrault's morgue, Rev. J. Bjerke of the Norwegian Lutheran church officiating. The remains were buried at Oneota cemetery.

Watch and jewelry repairing. Hurst.

LOG DRIVER DROWNED.

Aitkin, Minn., April 24.—Theodore Carlson, a driver employed on the Eddy and McKinney Willow river drive, was drowned Monday by the overturning of a rowboat in which he and a companion were crossing the river.

THREE HORSES BURNED.



Winnebago, Minn., April 24.—The livery barn and buggy shed of Mrs. Sarah Schemerhorn was destroyed by fire. Three horses were burned. The loss was $2,000, with $1,300 insurance.

MAIL CLERK ARRESTED.

Trusted Employe Charged With Theft After Months of Watching.

New York, April 24.—After being constantly watched for four months by Inspectors Jacobs and Meyer, David Stedman, one of the oldest and most trusted clerks in the registry division of the general postoffice, was arrested charged with robbing the mails.

Commissioner Shields held him in $2,000 bail to await the action of the federal grand jury. It is said the prisoner had signed a confession made to Chief Inspector Meyer.

The Bargain Counter's Offer is Women's and Children's 25c Hosiery at.... 12½c

We told you the simple, honest facts last night—namely, that the stockings represented two special purchases from two of America's leading stocking makers; that there were very slight imperfections in the goods, which have no effect upon the practical value of the stockings; that they are regular 25c qualities, but for the stated reasons are offered at 12½c a pair. Today's sales were the best evidence of your confidence in our offerings.

There are women's fine mercerized black lisle and fine ribbed cotton; also children's fine ribbed black lisle and ribbed cotton stockings, sizes 5 to 10, all worth 25c pair.

A Dress Goods Snap at 75c Yard

Half a hundred pieces laid out for a quick selling. Almost every known weave represented—Shepherd checks, broken checks, plaids, mohairs, (plain and fancy), plaid batistes, checked voiles, French batiste and nun's veiling—all the wanted colors included.

In fact, it's a representative showing of what we can give you in stylish, up-to-date materials at a very small price.

Come and see and compare with any store's offered values—anywhere.

Choice for 75c a Yard

LATE DOINGS IN UPPER MICHIGAN

Many Lake Trout Fry Planted Near Partridge Island.

Marquette—J. Smith, of the government fish hatchery at Duluth, went out with Capt. John Parker in the latter's tug, the Theora, Sunday, and planted 700,000 lake trout fry in the neighborhood of Partridge island. All of the fry were from spawn gathered out from this port in October and November of last year. The fish, which were about an inch in length, had been out of the egg three weeks. They filled 140 cans and were in excellent condition. The government employes who visited this locality last fall to gather spawn secured about 7,000,000 eggs, though it was their intent, if possible, to secure 12,000,000. Some seasons the amount has run as high as 14,000,000. Most of the trout eggs for the Duluth hatchery come from this locality and the whitefish spawn is mainly secured in the St. Clair river.

Daniel S. Donovan will retain the office of city recorder. The recount of the Second and Fourth wards by the council as a canvassing board upon the petition of Edward McCarthy, enforced by an order of the court, resulted in increasing Mr. Donovon's majority from three to twenty-three votes.

Calumet—In the competitive shoot between the Calumet and the Houghton troops in the Michigan National Guard Sunday the engineers of this city broke the winning streak of the visitors and won handily. The total score at the end of the shoot was 521 to 509 and the results were received with much pleasure in Calumet. The next two shoots between the Calumet and Houghton companies will be on outdoor ranges. Here neither company has the advantage of having the meet on its home grounds. The rivalry between the two companies has become strong and the contests will be of interest.

Hancock—Early Monday morning Miss Margaret Dunn of Ripley passed away at her home after an illness of but a week's duration and her demise came as a great shock to a large number of friends who were not aware that the young lady was critically ill.

Escanaba—Crazed with pain and despondent because of prolonged illness, Charles Doran of Foster City attempted to commit suicide at the Sherman house here by taking a dose of laudanum. The attempt at self destruction was regretted as soon as made, and by vigorous methods his life was saved. As soon as the physician arrived, he set to work on the repentant would-be suicide with a stomach pump and after using this heroic remedy in a vigorous manner for some time, he succeeded in extracting the deadly drug from the system of the patient. He then administered stimulants and finally succeeded in getting the victim out of danger. Father Julfus, who had been summoned when death seemed near, gave Doran some wholesome advice and he promised not to repeat the attempt. "I was crazy with pain at the time," said Doran.

Ishpeming—James Champion, a resident of Ishpeming and the Winthrop for the past thirty years, died Sunday at his boarding place, 703 North Pine street. He had been ill only twenty days, having been taken sick the day following the municipal election. He was 56 years of age. His mother, Mrs. J. H. Hill, resides at the Winthrop, and he has two sisters, Mrs. William Delarge, living in this city, and Mrs. M. E. Harris of the Winthrop, and one brother, Richard Champion, also of the Winthrop.

W. H. Anderson, head chemist at the Oliver Iron Mining company's laboratory here, and family, have gone to Montana, to spend a few weeks visiting relatives.

Charles Johnson and son Walter, former residents, are here from Minnesota visiting relatives.

Dr. J. L. McD. Gibson, the famous hockey player, who recently closed out his dental business in Houghton, was in the city yesterday. He intends to locate at Republic.

Mrs. Robert Haynes left Monday night for Minneapolis to join her husband, who was recently promoted to the position of district manager of the Nelson Morris company's houses in Minnesota, Michigan, Wisconsin and the Dakotas.

BOY OF EIGHT PROVES A HERO

Defies Death From Flames in Attempt to Save Sister.

Knoxville, Iowa, April 14.—Battling heroically to save the life of his little 6-year-old sister from flames, which had enveloped her clothing, Ray Moon, 8 years old, subdued the fire only to find that she had been fatally burned.

The children had been burning dead grass in a meadow on their father's farm near here, and a sudden shift in the wind sent the little girl's dress into the blaze. It ignited quickly and the screaming child started to run. The boy caught her, and with his bare hands attempted to tear off the burning garments and beat out the flames. The cries of the children attracted the attention of their father, at work in an adjacent field, and he hurried to the scene. He found the little girl clinging desperately to her brother, who was fighting the flames with all his might and had extinguished them. The father picked the little one in his arms and hurried her to the house, but she died before reaching it.

The boy was himself badly burned and will bear the marks of his struggle to the grave.

BONUS IN CUBAN DEAL?

Charge in Havana That American Officials Profited by Church Purchase.

Havana, April 24.—The attacks on Governor Magoon for buying certain church property for government purposes at prices contracted for by Gen. Leonard Wood three years ago, have degenerated into published charges that the American officials are to receive $400,000 bonus.

This is the amount certain persons tried to force the church to pay to get the appropriation recommended by President Palma through the last Cuban congress, where it failed. Coupled with these charges is the demand that the matter be left for the next Cuban congress.

Governor Magoon, rather than continue to pay rent on the buildings, which are indispensable for the customs house and other public purposes, considers the government fortunate to be able to buy at a price fixed before property increased in value. The deed, therefore, will be signed as soon as the fiscal of the supreme court decides which church dignitary has authority to convey the title.

FELL DEAD.

Parkers Prairie, Minn., April 24.—Frank Zeman, a well-known young farmer of Todd county, fell dead in a saloon at Browerville, after drinking heavily all day. His wife died shortly after they were married two years ago, and since that time he seemingly tried to drown his sorrows in the "flowing bowl."

Mandy—Hives and other blotches are supposed to be caused by an acid stomach. A simple remedy, and one that is very effective, is Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. Ask your druggist.

SPECIAL SOUVENIR SALE OF

Madame Yale's Beauty Preparations

ALL THIS WEEK.

SKIN FOOD FREE.

It is unnecessary to state that Madame Yale's toilet requisities are the standard, having stood the test of time and experiment. They are now in universal use by all lovers of high grade toilet specialties throughout the world. It is safe to say that millions of pretty girls and beautiful women in this country owe the beauty of their complexions and the luxuriance of their hair to Mme. Yale's preparations.

FREE BEAUTY CONSULTATION.

Ladies who are desirous of trying these preparations and who would like to ask questions concerning them (the proper ones to select) etc., can obtain all the information they desire from the young ladies in our Toilet Department.

SPECIAL FOR THIS WEEK.

With every purchase of any of Madame Yale's preparations to the amount of 79c, or over, we are authorized to give FREE OF CHARGE a large souvenir jar of Madame Yale's celebrated skin food.

MAIL ORDERS FILLED.

Ladies unable to call may order by mail. The skin food souvenirs and beauy books will be included with each order.

MUCH STREET WORK IS IN SIGHT THIS SPRING

List of Improvements Under Way or Being Planned.

New Work Takes Place of Contracts Which Are Abandoned.

While a number of street improvements which were planned early this year have been dropped, practically as many new ones have sprung up to take their places and a busy year for the board of public works and the city engineer is in prospect.

During the last three weeks the board of public works has levied over $50,000 in advance assessments for this year's street work and it is expected that a number of other assessments will be levied in the near future. The advance assessmens on the Jefferson street job amounted to $30,000, and it is thought that within the next few days enough money will have been paid in on this assessment to enable the board to consider an asphalt bid should this be submitted for consideration.

The $50,000 in assessments already levied include the assessments for Jefferson street paving, for a sewer in Fourth street from Twenty-seventh avenue east to Thirty-first avenue east. The assessment for the improvement on Sixteenth avenue east will be confirmed by the board next Monday.

It is expected that there will be enough money in the fund so that bids for the work on Sixteenth avenue east can be advertised for and a contract let without waiting for the payment of the assessment as levied.

No news has been received from the promoters of the Ramsey street petition for some time, and what success they have been meeting is unknown to the board of public works. The paving of Twenty-ninth avenue east has been tied up by the fact that the original petition failed to provide for the construction of a storm sewer and the engineers have said that it would be very inadvisable to pave the alley avenue without such a sewer being constructed. A second petition is now under way.

The circulators of the petition for repaving East Fourth street report very good progress but it is said that no effort will be made to push this improvement and it will in all probability go over until next spring before any work is done on it.

Work Will Go Over.

In addition to the Fourth street paving, the East Second street job and the Garfield avenue work will go over until next year, in all probability, but the board has been ordered to circulate a petition for the paving of St. Croix avenue, from Sutphin street to the railroad tracks, with sandstone blocks, and a number of other possibilities which are looming up on the horizon will more than take the place of the jobs which have been dropped.

In the central part of town, the petition for Fourth avenue west, from the railroad right-of-way to Second street, is in, but has not yet been submitted to the council. It has the required percentage of signers, however, and the street will probably be paved with sandstone blocks, as soon as the formalities of letting the contract can be disposed of.

The petition for paving Lake avenue, from the viaduct to Second street, will be submitted to the council next Monday night by the board. When this improvement was originally planned it was to have included the portion of the avenue between Second and Fourth streets, but the large portion of non-assessable property, churches, schools, etc., along this part of the avenue, made the opposition of one of the big property owners enough to block the petition. In all probability this paving will be of sandstone blocks also.

The contract for paving Lake avenue, from Sutphin to the south end of the viaduct with sandstone blocks, was ordered let by the city council last evening to P. McDonnell, and work will be started there in the near future.

Sewers in Prospect.

Two big sewer systems are to be constructed this year. The Minnesota avenue sewer, on Park Point, is being revived after the sewer ejector invented by the local engineers has been given a year's test on Lower Lake avenue, and a new petition is being circulated for this work, providing for the installation of ten of the ejectors along the line of the sewer, and to cost about $20,000. The petition is meeting with perfect success, and the construction of this system is now assured.

Alderman Getchell's motion, directing the city attorney to proceed to condemn property belonging to the West Duluth Land company and the Northern Railway company, for the purpose of effecting an outlet for the West Duluth sewer system, known as the Forty-ninth avenue sewer, removes practically the last block in connection with that system, and work will probably be under way there in the near future.

The second petition for Commerce street has not yet been handed in, but it is said to be meeting with no opposition, and it will doubtless be in shape for submission by next Monday night.

This will insure the early completion of the work so much desired by the wholesalers.

Twenty-fourth Avenue East.

Contractor McDonnell has taken about two-thirds of the rock out of the Twenty-fourth avenue east cut already and is making rapid progress. The curbing is already strewn along the line of the improvement from Superior to Sixth streets and the street car company has the necessary "Y's" on Fourth street already installed, so that the matter of street car connections will be but a matter of a few days after the cut is completed.

The appeal from the assessment on this point which was made by several of the owners, is still pending and may come up next Saturday. The owners above the cut claim that they ought not to be made to pay for improvements abutting upon some one else's property and object to the board's method of assesment which divides the cost of cutting through the rock at Superior and First streets among all the owners from Superior to Sixth streets.

Estimate on Helm Street.

The city engineer last evening submitted an estimate on the cost of improving Helm avenue from the western terminal of Michigan street to the Jenswold street subway, last evening, and it is more than likely that the council will take some action on this in the near future, with a view to getting the work completed during the present season.

The Ramsey street city dock, and the West end police station are among other improvements and the council is expected to order the paving of Tioga street from the Occidental boulevard to Fifty-first avenue east, a distance of about three blocks, and of East Fifth street from Twenty-fifth to Twenty-seventh avenues east, with telford, crushed, rock or tar macadam, next Monday evening.

TAFT TALKS OF THE CANAL

Washington, April 23.—Secretary Taft today attended his first cabinet meeting for several weeks and as he started for the White House paused for a moment to talk to some newspaper men relative to the situation on the isthmus as he left it. An invitation to express himself touching the Ohio political situation and his own intentions in that direction met with a prompt declination from the secretary to discuss this subject in any phase. He was, however, willing to talk about the canal work, with which he expressed the liveliest satisfaction.

He said that Col. Goethals, who is now in charge on the isthmus, was particularly anxious that the secretary should understand the kindness and consideration which had been shown toward him by Mr. Stevens, the retiring engineer in charge of the canal work. The work of excavation and, indeed, all phases of the canal work, said the secretary, were progressing under Col. Goethals' management quite as rapidly as they had under the direction of Mr. Stevens.

As some question had been raised as to the accuracy of the figures furnished by the engineers to indicate the amount of excavation per month the secretary said that he had looked carefully into that subject and had satisfied himself that these figures were not inflated. Beginning the 15th of each month the engineers were taking careful cross-section measurements of the work accomplished in excavation and by the 2nd of the following month they were in a position to state precisely, not the amount of loose dirt carried off in cars, but the amount of solid earth excavated from the canal prism per month. There was no accumulation of "spoil" as reported, but all of the earth excavated was being carried off and deposited in the place where it was finally to rest. Altogether the outlook was very satisfactory.

Touching the applications that had been made to him by the steam shovel men and other mechanics employed on the isthmus for increased pay and other concessions, the secretary, referring to the statement made by him last night to the effect that he already had reported on that subject to the president, added that he had just informed himself that the president had so far not acted upon the recommendations made by him in this matter.

YOUNG WOMAN IS HIT BY DUELIST'S BULLET.

Birmingham, Ala., April 23.—J. B. Marshall and William Reeves, deputy sheriffs, engaged in a pistol duel today in which half a dozen shots were exchanged. Neither of the combatants was hurt, but Miss Lucille Cayle, who was passing on the sidewalk, was shot and severely wounded. The duelists were arrested. They had quarreled over a lawsuit.

Watch Your Thirty Feet of Bowels!

YOU have thirty feet of intestines! What makes food travel through them?

A set of Muscles that line the walls of these Intestines or Bowels.

When a piece of Food rubs the walls of the Intestines these Muscles tighten behind it, and thus it starts a Muscle-wave which drives it through the whole length of the Bowels.

It should take about 12 hours to do this properly, so that nutritious parts of the food may have time to be digested and absorbed.

* * *

But,—if it takes twice or three times that period the food spoils in passing, and becomes as poisonous as if it had decayed before being eaten.

Now, the cause of delay (Constipation) is simply Weakness, or Laziness of the Bowel-Muscles.

Want of Exercise, Indoor Employment, weakens these Bowel-Muscles, just as it weakens Arm and Leg Muscles.

* * *

"Physic" like Salts, Calomel, Jalap, Phosphate of Soda, Mineral Waters, simply flush-out the Bowels for the one occasion only.

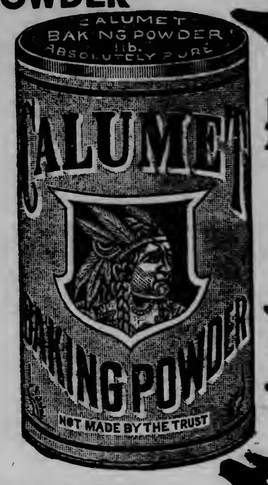
They do not remove the Cause of Constipation.

But this is different with Cascarets.

Cascarets act on the Muscles of the Bowels and Intestines. They act just as Cold Water, or Exercise act on a Lazy man.

They act like exercise.

A Cascaret produces the same sort of Natural result that a Six Mile walk in the country would produce.



The Vest Pocket Box is sold by all Druggists, at Ten Cents.

Be very careful to get the genuine, made only by the Sterling Remedy Co., and never sold in bulk. Every tablet stamped "CCC." 747

CALUMET BAKING POWDER

HUNDREDS OF NEW CARS

Are Coming to the Ore Roads of This State.

Missabe Road Has Recieved 500 so Far This Season.

During the past few weeks the Duluth, Missabe & Northern has received something like 500 steel ore cars from the Standard works at Butler, Pa., and 100 will be delivered to the road here before the Standard company's contract will have been fulfilled.

New ore cars for the Missabe road are on the way from the Pressed Steel Car company's plant at Pittsburg. From this company, the Missabe has 1,100 or more new ones coming, all of them delivered during this season.

The Pressed Steel Car company has also begun the shipment of new cars to the Duluth & Iron Range, which has already received sixty of them. Five hundred or more are coming.

These figures show that the Minnesota ore roads intend to haud some ore during the shipping season of 1907. All of the new cars will be placed in service as soon as they are received. Some of the old wooden cars will be retired by their advent, but not all of them, as the roads expect to find use for all their steel cars and their serviceable wooden ones as well.

Shipping from the mines to the Missabe docks in the West end has not started in earnest yet, and will not until boats can get through the Sault. Receipts have been very light so far, the officials of the road not caring to accumulate ore at the docks when there is no outlet.

BONANZA BELT COPPER MINE

To be Developed—Rich Sulphide Ore Vein Encountered.

The Bonanza Belt Copper company, 20 Broad street, New York, with properties comprising about 140 acres, located in Cochise county, Arizona, whose board of directors and officers are mainly composed of bank officers and men of successful mining experience, has recently encountered a sulphide ore vein, varying in width from six to twelve feet, and yielding 9 per cent copper and about four ounces of silver to the ton. The mine's record to date in having produced $1,000,000 in carbonate ore, has created a desire among certain mining men to obtain a controlling interest in the company, and since the "strike" of this rich sulphide vein their interest has been intensified, and a direct and flattering offer for the property has been made. President R. Allyn Lewis states that this offer has been flatly refused, and that no offers will be considered. The present owners realize the great present and prospective value of this property, and will develop the same to its fullest.

Arrangements are being made for the production of 200 tons a day, which will mean at the present price of copper net earnings of $1,200,000 yearly, or about 35 per cent of the present capitalization. An issue of stock of this proposed increase of production will probably be made and the present stockholders will have the first opportunity to subscribe thereto; it could not be ascertained, however, whether any portion of this issue would be offered to the public.

Bonanza Belt is situated in the famous Bisbee copper ore district of Arizona, and the prediction which had confidently been made by experts of just such a rich sulphide strike has been realized, paralleling that of the Copper Queen and other famous mines in this great Southwestern copper district.

A spur is being constructed from the Southern Pacific railroad to the Arizona & Michigan company's mines in which it is understood some of the officers of the Southern Pacific company are interested. Bonanza Belt adjoins the above property. This will provide all rail shipping facilities to the smelters and effect a saving of $2 per ton in handling the ore.

WONDERFUL GAS ENGINE

With Which Knabenshue Hopes to Navigate Airship Successfully.

Toledo Ohio. April 24.—After an entire winter's work A. Roy Knabenshue has at last succeeded in his efforts to build the most wonderful gas engine ever constructed. It is the engine which Knabenshue is using in his new airship, built to carry two or more people.

The engine is built entirely upon new and original lines, and is particularly wonderful because it weighs only fifty-four pounds, and generates, by actual test, from twelve to fourteen horse power.

Naturally enough Knabenshue is jealous of his proud achievement, and many of the details of its construction he refuses to give out. However, he has sanctioned the details of a few general facts concerning the engine.

The engine is of a two-cycle pattern, and runs nicely at 100 revolutions a minute. The engine is valveless, and starts absolutely without any carburetor. One of the features of the engine is the spark coil, which is also a freak. The coil, instead of containing, as most coils do, two windings of wire, a primary and secondary, contains six windings, the last five of which are looped in series with a battery of condensers.

The carburetor throttle and spark time are also inventions of Knabenshue's. The oil lubricator is different from most others in that it sends the lubricant into the machine with the gas mixture.

So powerful is the engine that it requires a great deal of experimenting to so fasten it to the frame of the ship that it would not tear itself away. The difficulty was finally overcome by supporting it with angle irons, braced and counterbraced, to the wooden frame of the airship, which is reinforced with steel pipe, seven feet either way from the engine.

AN ATTEMPT TO OUST A PASTOR

Causes Battle in Church and Deacons Have Blackened Eyes.

Portsmouth, Ohio, April 24.—Grave church trustees and deacons, with blackened eyes and bruised up heads, fainting women, crying children and two preachers with their clerical dignity much ruffled, constituted the scene that greeted the police when they responded to a hurry call from the local Free Baptist church at the hour for worship Sunday morning.

A sanguinary fist battle had been the latest development in the two-year warfare by a majority of the church board to oust Rev. Freeman W. Chase from the pastorate. Capt. A. J. Finney, an anti-Chase layman, was struck in the face by Joseph Monroe, a member who was recently made a deacon by the pastor. Then, because Monroe had asaulted an older man, Deacon L. L. Ferguson, one of Finney's friends, set upon Monroe and gave him a good beating.

All the while there was a pushing and jostling between the peacemakers. Women and children screamed, chairs and stands were overturned, and above the din the voices of the preachers were heard begging for a cessation of hostilities.

Finally a truce was declared and the anti-Chase people withdrew from the church. There seemed no danger of a renewal of the trouble, so the police made no arrests.

Over a year ago, eleven out of the fourteen board members decided that Rev. Chase should give up the pastorate. Before the election, however, enough new members were taken in to carry the day for the doughty pastor, and, as the church has a constitutional form of government, he refused to leave after such a showing. The church board filed charges with the conference, and it has revoked Rev. Chase's license. Thereupon the preacher and his following withdrew from the church. Some litigation which followed this move resulted in a compromise whereby the old board did not give up possession of the church property.

The church conference two weeks ago anounced that a new pastor, Rev. George W. Vace of Galford, Pike county, would assume the pastorate Sunday. He appeared on time with the old board, but the Chase following still held the fort, and this trouble was the outcome.

The courts will now be resorted to.

Rev. Chase attained some notoriety a year ago, when after he had been locked out by the trustees, he secured a ladder and climbed into the belfry. Finding its doors locked, he smashed a rear window with a brick and, once inside, broke open the doors and held his prayer meeting.

Of the principals in Sunday's affray Capt. Finney is a well known citizen, who just completed a term as county clerk. His friend, Ferguson, is a bookkeeper in an installment house. Deacon Monroe now lives at Clinton Furnace, eighteen miles away, but drove here to attend the service. The congregation has a fine new church in one of the growing parts of the city.

"TALKS TOO MUCH."

Senator Perkins Tells Banqueters What Ails the President.

San Francisco, April 24.—United States Senator Perkins created a sensation at the annual banquet of the Oakland Merchants' exchange by declaring that President Roosevelt talks too much.

"It is the history of the human race," he said, "that some people talk too much and this is the fault of our president. He wanted to naturalize the Japanese, and on this point, as you all know, he talked too much, but the people forgive him because he is earnest and his heart is for the right."

"—gain the timely Inn,"

says Shakespeare, and we think the

Hotel Belmont

NEW YORK

deserves this title

"Timely" it is—at the very doors of the Grand Central Station — with surface and elevated lines right at hand and a private passage to subway station for both express and local trains.

And "timely" it is—in that it furnishes the wealth of conveniences—the completeness of service —the satisfying environment which modern hotelcraft aims to attain.

STATISTICS

Cost of Hotel Belmont, $10,000,000.
Four years in building.
Highest type of fireproof construction.
Twenty-seven stories.
More than a thousand rooms.
Foundation of hotel on solid rock.
Nearly ten thousand tons of steel used.
System of ventilation by filtered air.
Automatic heat regulators.
Nine elevators.
All rooms equipped with private and long distance telephones.

The latest addition to the great hotels of the world. Opened May 8th, 1906.

RATES

Rooms without bath, $2.50 and upward
Rooms with bath, $3.50 and upward
Parlor, bedroom and bath, $10 and upward
We would welcome you here and try to make you look upon this hotel as your New York home

SWEPT OVER THE FALLS

St. Paul Man and Three Others Drowned in North Carolina.

Raleigh, N. C., April 24.—Swept over the falls, four men were drowned in Cape Fear river yesterday at Buckhorn Falls, Chatham county, thirty miles from Raleigh.

The dead:

HANS THORNSON of St. Paul, Minn., general foreman of a construction company erecting a power plant.

E. B. BRADY, assistant foreman, and two negro laborers.

The men were coming from the river in a naphtha launch, which was caught in the current and carried over the falls. The bodies have not yet been recovered. Thornson was to have been married here Sunday, and his fiancee, Miss Thelma Lindgren, was to have left St. Paul yesterday to join him in Raleigh.

PROGRAM ANNOUNCED.

Rev. Harry Knowles Will Preside at Odd Fellows' Service.

Rev. Harry Knowles has been selected to preside at the exercises commemorating the eighty-eighth anniversary of the founding of the Independent Order of Odd Fellows in Duluth, next Sunday. T. W. Hugo had been asked to preside, but was called to Kingston, Ont., by the probable fatal illness of his mother.

After the members of the order assemble at the hall on Lake avenue north, at 2 p. m., they will form in marching order and proceed on First street to Eighth avenue west, thence on Mesaba avenue to Superior street, on Superior to First avenue west, on First avenue west to Third street, and thence to the Methodist church. The marchers will be headed by the Marine band, and will arrive at the church about 3 o'clock.

Rev. E. C. Clemans, the presiding elder of this district, will deliver the oration, and music will be furnished by A. F. M. Custance, and it will include singing by a double quartet. Rev. M. S. Rice will be in charge of the opening and closing of the service. The seating at the church will be under the direction of T. H. Martin.

Delegations of Odd Fellows from Two Harbors, Superior, Cloquet and Carlton are expected to be in the city and attend the service Sunday.

Doing Business Again.

"When my friends thought I was about to take leave of this world, on account of indigestion, nervousness and general debility," writes A. A. Chisholm, Treadwell, N. Y., "and when it looked as if there was no hope left, I was persuaded to use Electric Bitters, and I rejoice to say that they are curing me. I am now doing business again as of old, and am still gaining daily." Best tonic medicine on earth. Guaranteed by all druggists. 50c.

BENEFIT TO PRODUCERS

Legislative Committee Reports on Inquiry Into Grain Exchanges.

Finds That Without Them, Grain Prices Would be Lower.

(From a Staff Correspondent.)

St. Paul, April 24.—(Special to The Herald.)—The special joint committee which was appointed to investigate the Duluth board of trade and the Minneapolis chamber of commerce made its report yesterday afternoon to the legislature, and it was adopted in both branches.

The committee does not find that the grain exchanges of the state are to be classed as octopi, but it does find that they are a positive benefit to the producer of grain, and that without them prices would be lower and the marketing of grain infinitely more expensive than it now is.

The full report of the committee is as follows:

Your committee beg to report that pursuant to resolution adopted by the house of representatives and senate, providing that a committee of fifteen be appointed, that said committee of fifteen delegated to the undersigned committee the work of investigating the rules, practices, etc., of the grain exchange as described above.

And your committee report that, pursuant to such resolution, this undersigned sub-committee held various sessions and called before them various witnesses from different parts of the state of Minnesota and have listened to all the evidence offered on the part of these witnesses, all of which is herewith submitted.

Your committee report that among the witnesses so giving testimony before this committee were the secretaries of these two exchanges, country elevator dealers, country elevator owners, commission merchants, bankers, millers, members of the Farmers' Exchange, etc.

And your committee reports that these witnesses were subjected to examination and cross-examination under oath and that, as a result of such testimony, it appears that these grain exchanges have been organized for the purpose of facilitating trade, for the settlement of disputes, of providing rules under which business shall be transacted, etc.; and that neither of these grain exchanges is engaged in any way in the purchase or sale of grain or any commodity, the object of their work being simply that of furnishing facilities to their various members and surrounding these members with various safe methods and to establish rules governing business transactions. It has systematized its business so that business people can market volumes of grain readily and convert it into money with a less amount of friction and expense than ever before.

Your committee feel that the development of the grain business has been materially helped by the organization of these exchanges and that they have been one of the causes that has greatly developed the whole Northwest. These exchanges provide a place where grain can be bought and sold; it gathers together at these places the buyers and sellers, and among these buyers and sellers are those whose scope of prices extend beyond the confines of this country; among the facilities offered by each of these exchanges is the information openly given to all members, of the conditions of the various markets of the world at all times. The competition in these exchanges is open and keen. The membership of each of the exchanges includes millers, elevator owners, grain commission merchants, linseed oil manufacturers, bankers, cereal manufacturers, etc.; many of the members of each of these exchanges residing at other points than at the terminal markets; the competition in the purchase and sale of grain in each of these exchanges is so open, the interests represented in the exchange itself are so varied, the rules making the transactions so certain and the high standard of business integrity maintained by each of these exchanges, that it seems to this committee that the result of the existence and work of these exchanges has a very small possibility of being hostile to the best interests of the producers of grain in this state.

Your committee report that there are 550 memberships in the chamber of commerce of Minneapolis, and that there are 200 memberships in the board of trade of Duluth and that all these memberships are issued. That in order to obtain admission to either of these exchanges, a membership certificate must first be bought and an application be made to the exchange for membership, which application is finally passed upon by the board of directors, it requiring a majority (not less than seven affirmative votes) to entitle the applicant to admission.

It appears clearly to your committee that while among some of our citizens there is a prevalent contention that the grain market is, in a sense, controlled by these two exchanges, yet it is evident that the reason for such opinion is based upon the fact that these exchanges gather together the buyers and sellers of all grains and that therefore anyone having grain to sell, naturally goes to these exchanges, simply because, if for no other reason, that all the buyers and sellers of grain are in the market. It is a matter of convenience as well as expedition for either buyers or sellers to be members of either of these exchanges. Each exchange provides a definite rate of commission to be charged, which is 1 cent on wheat and barley and one-half cent on oats, etc., and also provides that members can do business for other members at one-half the regular rate, but it is also apparent that unless transactions are very large, the interest on an investment of a membership being considered and the various costs and expense attendant upon the conducting of the business is considered, that there is a very slight difference as to the costs between being a member or a non-member. It also appears that by virtue of the high standard of business integrity maintained by these exchanges, that the farmer and country shipper can, to a very great degree of safety, rely upon the honesty of such commission merchant, with whom he does business.

It also appears to your committee from the evidence, that the movement of the grain crop of the Northwest requires very large sums of money and it also appears that the commission merchants of these exchanges not only act as grain receivers, that is, as the trusted agents of shippers in receiving their grain and selling the same, but that they also to a very large degree advance the money to these shippers in advance of shipments. It appearing that at certain times of the year an amount of money as great as $10,000,000 or $12,000,000 is loaned by these commission merchants of the two exchanges to the grain dealers at country points throughout the Northwest and at a reasonable rate of interest. It being impossible for these country grain dealers to get the necessary financial assistance from their own country banks because of the fact that no country bank, and in fact no bank, can loan to any one concern, only a certain fraction of its capital. The commission merchants are therefore to a large degree sustaining grain dealers at country points, in a financial way, and it is apparent that the commission merchants, who are likewise borrowers of large sums of money themselves, are enabled to get this money which they loan in this way, from the banks of the larger cities, because of the fact that they are members of these exchanges and that these exchanges themselves act as strong forces in building up proper business methods and principles and thus in a very large degree, aid their members in their standing with the lending world. The testimony of the bankers offered before this committee clearly shows this phase of the work of these exchanges. It also shows that it enables dealers of grain to so hedge their deals that at no time are they speculating on the market or affected by the fluctuation of the markets and they are thus enabled to show to the large bankers that they are at all times secure and at no time are they running risk of being bankrupted on account of the sudden change in value.

It appears that the chamber of commerce of Minneapolis expends between $30,000 and $40,000 every year in information which is disseminated among its members advising them of the various facts and situations of the markets throughout the world, thus enabling the producer of grain to keep thoroughly posted as to the market conditions of the entire globe.

It appears that the grain trade of the chamber of commerce of Minneapolis has grown from 17,000,000 bushels in 1881 to 30,000,000 bushels of grain in 1906, and the board of trade of Duluth has seen its grain business grow from 3,500,000 in 1881 to 80,000,000 in 1906. Thus it can readily be seen that since the organization of these grain exchanges the grain trade has developed greatly in the Northwest.

Your committee feels, that while perhaps they have not had the time to minutely investigate all the phases and charges that have been made against these different exchanges, yet they feel sufficiently well informed on the subject now under investigation to add the following as the deduction of the evidence by the different parties who have been summoned to testify before this committee.

Your committee, however, although being satisfied that these grain exchanges have been in their operation, and are now, productive of great benefits, yet your committee is inclined to believe, in respect to the matter of admission to membership of applicants, that the methods of election of such applicant should be broadened and so enlarged that it should be dependent upon a vote of a larger proportion of the members of the exchange than at the present time, so that the question of refusing or receiving an applicant for membership would be passed upon by a larger number of the members than is now required by the rules of the exchange.

Your committee is also of the opinion that it might be wise and desirable for these exchanges to so enlarge their authorized membership so that they could be more readily purchased by any possible applicant.

STILLMAN H. BINGHAM.

STATE TAX COMMISSION.

(Continued from page 1.)

mission relating to valuations of property.

There was practically no debate in the senate over the bill, and little in the house except on the roll call on the repassage of the bill. Representative Rockne, who was a member of the conference committee, said that if the commission showed its worth, the board of equalization would quietly slide out of existence, but if the tax commission showed itself to be representing the interests, the next legislature could and doubtless would retain the board of equalization, and possibly abolish the tax commission.

Representative Thayer opposed the bill, because he thought it meant the end of the board of equalization. Even if the house wanted to retain it two years hence, the same senate would be here, and it would be opposed to retaining it.

Those voting against the bill in the house were Representatives Thayer, H. O. Hanson, Howard, Knox, J. C. Johnson, Lobeck, Melby, Mork, Holten, Schrooten, Wood and Nagel.

• • •

The Anti-Pass Bill.

The anti-pass bill was also pulled out of the scrapheap at the close of the session, and made a law.

The conference committee agreed on a compromise that was satisfactory to both houses, or at least was in such shape as to get enough votes to pass.

The senate receded from its position that the bill should be effective at once, and the house receded from its position that the bill should not be effective until the end of the house terms. The result was that it will be effective at the end of this year when the annuals now held by members will expire.

The house also receded from its position that the bill should apply only to railroad passes, and agreed to let it apply to telegraph, telephone, express and street car privileges according to the provisions of the senate bill.

Incidentally, it was agreed that the members of the railroad and warehouse commission and their employes should be allowed to have free transportation, though a number of members of both houses were very much opposed to this exception, on the ground that these officials are dealing with the railroads all the time.

The senate accepted the house bill, even in its final form, with many a wry face. Senator Farrington said: "I vote aye on this bill, but God have mercy on my soul." Senator Canfield said he would be criticised if he voted for the bill, but still more if he voted against it. Senator Calhoun said it was like the man who had a row with his wife over whether they were to paint the house green, as he wanted it, or white, as she wanted it, and who afterwards reported that he had compromised—the house was to be painted white.

Senator Laybourn's motion to reject the bill and have a new conference was lost, 11 for and 52 against, every senator voting for the first time this season, and the bill was repassed, 60 to 3, Senators Cooke, Hardy and Laybourn voting against it.

• • •

Vetoed By the Governor.

Governor Johnson vetoed the bill pensioning all of those who took part in the Indian outbreak of 1862, including everybody who was captured by the Indians, regardless of whether they were injured or not. He pointed out in his veto message that this would be in addition to the present law, pensioning those who were actually injured, which costs the state $40,000 a year, and that the proposed bill would bring the expenses over $150,000 a year. He showed also that the bill would practically pension everybody in the state who had any part in the Indian outbreak, and that it left the decision as to who should be pensioned entirely with the adjutant general, who could pension pretty nearly anybody he wanted to under the bill. This feature, in the opinion of the attorney general, made the bill unconstitutional.

An attempt to pass the bill over the governor's veto, requiring 80 votes, was made in the house, with the result that it got 35 votes to 61 against.

• • •

The proposal to charge every resident of the state $1 to hunt, even in his own county, was lost. The bill passed the house that way, but on motion of Representative Wells of Breckenridge it was recalled from the senate, and the provision stricken out. It still provides that residents of the state must pay fees if they hunt outside the boundaries of their own counties.

• • •

Insurance Legislation.

Insurance Commissioner O'Brien has issued a statement regarding the insurance legislation passed by the legislature this winter, in which he shows that thirteen out of the seventeen bills proposed by the committee on uniform legislation appointed at a convention of governors and insurance commissioners got through. "These bills," he says, "have particular reference to level premium life insurance companies, and they provide, generally, a system which will tend to produce fair and open competition, the fullest possible publicity and economical management, while at the same time giving each company the fullest opportunity for the exercise of its own individuality, if that term may be used."

"Too much praise," he adds, "cannot be given for the work done in this behalf by the respective insurance committees of the house and senate. Necessarily the great burden of this work fell upon the chairmen of those committees, Senator Laybourn and Mr. Timberlake, and it is believed that when these laws are properly arranged and all the insurance laws of the state published together, the excellence of their work will be apparent."

• • •

After increasing the maximum tax levy for state purposes for the next two years from 1.5 mills to 1.7 mills, because of the increase in appropriations made by the legislature, and because of the reductions in freight rates which are likely to reduce the gross earnings taxes, the legislature last night passed the Wells bill providing for the tax levy for the ensuing two years.

• • •

The house yesterday afternoon passed the following senate bills:

By Senator Glotzbach—Requiring the attendance of deaf, dumb and blind children at institutions for their education.

By Senator Seward—Imposing upon foreign insurance companies the same restrictions which their states or countries impose upon Minnesota insurance companies.

By Senators Works and Alderman—Extending the Torrens system of registering titles all over the state at the option of county boards.

• • •

No Gravity Test.

The house yesterday afternoon, after the fashion that has been set in recent legislative sessions, killed the bill proposing a gravity test for petroleum products. Only the flash test, which has nothing to do with the quality of the oil, is now imposed in this state. Some of the members objected because it provided a large amount of fees and many employes, and claimed that this would mean a Democratic machine. The legislature, curiously enough, has never been lacking in an excuse for refusing to impose the gravity test upon the products of the Standard Oil company.

• • •

The house also killed the Johnston senate bill requiring railroads to move cattle trains at least fifteen miles an hour in this state. First, however, it was amended by Representative Spooner to make the minimum speed ten miles an hour. Even this was not satisfactory, and the bill was killed.

• • •

The house yesterday afternoon passed the bill allowing the city of Duluth and the county of St. Louis to build a bridge over the St. Louis river to connect with the Wrenchall road.

• • •

The senate changed a number of items in the omnibus appropriation bill yesterday afternoon, the net result being a considerable increase, and the house later adopted the amendments and repassed the bill, 89 to 20. The senate reinstated the appropriation of $25,000 for a lighting and power plant on the state fair grounds, and added the following items, besides others amounting to about $15,000: For consolidated rural schools, $5,000; for summer training schools, $10,000; for the public examiner's office, $13,800.

Another attempt to beat the appropriation of $150,000 for enlarging the capital grounds was lost in the senate.

• • •

To Pay For Investigation.

The house last night decided to pay the bill of the Peterson committee that investigated the Minnesota Shippers' and Receivers' association, after scaling it down from $335 to $250. The bill was saved by Representative L. W. Bills of Park Rapids, who has developed a happy faculty of clearing a bad situation by administering a dose of sound common sense. He said that this investigation, like many others, was doubtless brought about to kill time, and he thought that if anything had happened to think of it there would have been a committee to investigate the Ten Commandments. But the house had ordered the investigation, and after it was finished it should not refuse to pay expenses incurred.

After the show of opposition that was made, the attempt to have the house adopt the report of the committee was abandoned, but it stands in the journal of the house as a criticism of the methods of the association in putting candidates on record and opposing them if they refuse to record themselves.

• • •

The house last night passed the Sundberg senate bill providing for a state insurance fund for hail sufferers, the money to be raised by an acreage tax. The bill simply provides a constitutional amendment, upon which the people will vote a year from next fall.

• • •

The Sullivan bill, creating a legislative reference and information bureau after the one in Wisconsin, passed the house last night, but it had a close shave. The bureau is to be under the state public library commission, instead of under the law library, as first proposed. STILLMAN H. BINGHAM.

Strong and Vigorous at 81 Years of Age.

Mr. Mark W. Pierce of Glenn, N. H., who lived in Saco Valley for 57 years, has filled every office in the gift of his townsmen; was a stage driver in the White Mountains before the railroad was built. He is now in his 81st year, is a remarkably well-preserved man, and tells many interesting stories of his early career and of how Duffy's Pure Malt Whiskey has pulled him through many a tight place and kept him vigorous and strong, although he has passed the four-score mark.

MR. MARK W. PIERCE.

In a recent interview Mr. Pierce said:

"I have used Duffy's Pure Malt Whiskey as a medicine for something like six years.

"Several years ago I had a slight shock. My doctor prescribed Duffy's Pure Malt Whiskey and told me to take it regularly, which I have done, and I can truthfully say that it certainly has been a great benefit to me.

"I am now 81 years of age and have used stimulants all my life, so ought to know what a good article is. I have been a resident of Saco Valley for 57 years, have filled all the offices in the gift of my townsmen, was a stage driver through the White Mountains before the railroads were built, have attended nearly every term of court in our county for the past forty years, and have had considerable to do with politics; so you can understand I have had quite a strenuous life, yet I feel as strong and vigorous as I did twenty years ago." Nov. 22, 1906.

Duffy's Pure Malt Whiskey

If you wish to keep strong and vigorous and have on your cheeks the glow of perfect health, take Duffy's Pure Malt Whiskey regularly, according to directions, and take no other medicine. It is dangerous to fill yourself with drugs; they poison the blood, while Duffy's Pure Malt Whiskey tones and strengthens the heart action and purifies the entire system. It is recognized as a family medicine everywhere. This is a guarantee. Duffy's Pure Malt Whiskey has stood severe tests by skilled chemists during the past fifty years and has always been found absolutely pure and to contain great medicinal properties.

CAUTION.—When you ask your druggist, grocer or dealer for Duffy's Pure Malt whiskey, be sure you get the genuine. It's the only absolutely pure medicinal malt whiskey and is sold only in sealed bottles—never in bulk. Look for the trade-mark, the "Old Chemist," on the label, and make sure the seal over the cork is unbroken. Price, $1.00. Illustrated medical booklet and doctor's advice free. Duffy Malt Whiskey Co., Rochester, N. Y.

BRIEF TELEGRAMS.

Dr. John Watson (Ian MacLaren), who arrived at Mount Pleasant, Iowa, to address the students of Iowa Wesleyan university, was taken seriously ill with tonsolitis and was removed to a hospital. All his engagements have been cancelled.

Three negroes are dead and another is dying at Danville, Va., as the result of being poisoned in a mysterious way. Their bodies were discovered in the servants' room at the home of a minister there.

Unless demands for an 8-hour day and a minimum wage scale of $3.75 a day are granted by the first of May a strike of all iron molders along the Pacific coast is expected. About 2,500 men are affected.

A severe rainstorm passed over Marietta, Ohio, Tuesday afternoon. The ferryboat New Matamoras was caught in the gale and sunk. Eight persons aboard were saved by life savers who were on the boat. The craft was a small gasoline affair running between New Matamoras and Friendly, W. Va.

J. C. O. Morse, the receiver of the Uncle Sam Oil company, took charge of the affairs of the company's general offices in Kansas City, Kan., Tuesday. After making an investigation of the details of the business there, which probably will require several days, Mr. Morse will inspect the company's property in Southern Kansas and Indian Territory.

The will of the late James A. Kirk, the Chicago millionaire soap manufacturer, was admitted to probate by Judge Griswold in the county court at Waukesha, Wis., Tuesday morning. The schedule accompanying the will places the value of personal property at $500,000 and real estate in this county at $150,000. The latter is the handsome summer home on Pine lake known as Kirkwood.

JACK LONDON STARTS ON A CRUISE AROUND WORLD.

San Francisco, April 24.—Jack London's sailboat, the Snark, started yesterday for Honolulu, the first port to be touched on a six-years' cruise around the world. The vessel is 45 feet long, ketch rigged, and its occupants, beside London and his wife, are Herbert S. Stolts, a Stanford graduate and athlete; Roscoe E. Ames, captain; Martin Johnson, the cook, and Hileshisa Tochigi, cabin boy.

WOMEN TEACHERS

Of Minneapolis Insist on Having Same Pay as Men.

Minneapolis, April 24.—The women teachers of the Minneapolis high school demand salaries as high as those paid the men, in a petition signed by every woman teacher in the high schools.

The petition was handed in at a special meeting of the board of education yesterday and in the absence of the chairman of the committee on salaries, no official notice has been taken of the document and no statement could be obtained as to what will be done.

CEMENT PLANT ALSO ASSURED.

By no means the least interesting matter connected with the recent visit of the officials and experts of the United States Steel corporation to the city, where will soon spring up an enormous steel plant on which $7,000,000 or more will be expended, was the announcement of E. M. Hagar that, in addition to the varied branches of industry directly connected with such an enterprise, there would be a cement plant of the most extensive kind.

This cement plant, Mr. Hagar announced, would add at least $500,000 to the amount set aside for the construction and equipment of the main steel works. It will employ 250 men who, with their families, will form a nice little additional colony of about 1,000 new citizens. It will give an industry that will enlarge materially Duluth's industrial resources, in that it will produce 1,500 barrels of high-grade cement such as is in demand at all times.

The visit of the officials and experts added still more to the cheerful optimism of the people of Duluth. It showed beyond peradventure that "no grass would be allowed to grow under the feet" of the plans to push the construction of the vast plant with the utmost rapidity. The energy and aggressiveness of the great corporation in handling the project assures the completion and putting into operation of the vast enterprise in the shortest space of time consistent with thorough work.

This is the usual manner of doing business of this corporation, and Duluth may well congratulate itself that it has won such high favor in its eyes. The two weeks before which a report may be expected from the committee will soon pass. It is probable that the new committee, of which Vice President Dickson spoke, will be sent here to supplement, and not to alter or amend materially, the decision of the first committee. Duluth may confidently expect the speedy announcement of the settlement of the site and the initiation of the work that will give it the unquestioned industrial supremacy of the Northwest.

BOARD OF TRADE VINDICATED.

Vindication, endorsement and approval, full and ample, of the Duluth Board of Trade are contained in the report of the joint legislative committee which made a prolonged and searching investigation of the various charges, that had been bandied about for months against the methods and business ways of that great business organization and had emanated from and been stirred up by envious interests of Superior, Wis.

Not only is the board of trade completely exonerated of the charge that it acts as a monopoly, fixing arbitrarily the prices of grain and forcing all of its members to accept those prices to the destruction of all competition but, on the exact contrary, the investigators declare: "The competition in the exchange is open and keen. The membership includes millers, elevator owners, grain commission merchants, linseed oil manufacturers, bankers, cereal manufacturers, etc. The competition is so open, the interests represented so varied, rules making transactions so certain and so high a standard of business integrity maintained that it seems to this committee that the result of the existence and work has a very small possibility of being hostile to the best interests of the grain producers in this state."

All of this has been well known to every one familiar with the methods and high character of the members of the Duluth Board of Trade. It nevertheless, is highly gratifying to those members to thus have the charges, made without just reason by jealous interests across the state line, declared baseless by a committee that contained several members of the farming class which the original complaints were intended to excite. The fact that the members of the Minnesota exchanges often have out loans of $10,000,000 or $12,000,000 to producers shows the great benefits of the organizations, while the celerity with which grain shipments are handled means more than can be estimated to farmers.

That the organizations have aided most materially in the development of the whole Northwest is undoubted and the report of the committee gives extra emphasis to this fact. The charges thus proved false are certain to prove a boomerang to their originators.

PLANNING ROOSEVELT'S FUTURE.

In the absence of any great public matter of absorbing interest, a number of newspapers in various sections of the country have been entertaining their readers by inviting from them expressions of opinion as to what should be done with President Roosevelt after his more or less seriously anticipated retirement from the chief magistracy of the nation March 4, 1909.

And, with just as much seriousness as if their opinions would settle the future of Roosevelt beyond all peradventure, thousands of people have sent in suggestions which have been published with apparent gravity, even though the editors know full well that the president himself would be about as likely to give heed to these proposals as a runaway horse with the bit in its mouth would be to obey the tugging at the reins of a small child.

One or two of the suggestions, such as the one that he be chosen president of Harvard university and the other that he be invited by New York state to fill one of its two seats in the United States senate, are sane and sensible but neither, especially the one as to Harvard, possesses the merit of originality. If President Eliot of Harvard, who is now three years over the Psalmist's alloted span of life, should die or retire, Roosevelt probably would like nothing better than to be his successor. Failing the Harvard presidency, he would be willing enough to become senator but, as to this, the Republican machine will have something to say.

The suggestions that he retire to a farm like Cincinnatus of ancient renown and live the simple life and that he take a four years' trip around the world may not have been made by Rockefeller or Harriman or Rogers or some other trust or railroad magnate, but there is no doubt that one or the other of these plans would meet with their heartiest approval. But who could seriously imagine even for one instant that a man of Rockefeller's strenuous and aggressive disposition would retire to a farm—even one with hundreds of bucking bronchos on it—and lead the simple life? As for a four years' trip around the world, one in sixty days, that would keep him hustling, would be more like him.

The proposals of life positions as prime minister and as United States senator for life savor too much of the European aristocracy idea ever to be adopted by a republic. The ancient republics of Greece and Rome tried this life tenure idea to their cost. Besides, as to the prime minister suggestion, what self-respecting president, especially one of opposing political faith, would receive counsel or advice hostile to his own views? If this be so, of what value would Roosevelt be as prime minister?

As a matter of fact, all of this speculation is a mere idle day amusement and a space-filler in the papers. When Roosevelt shall retire, he will map out his own future to suit himself and, if it shall involve a series of red-hot fights against "the system," the trusts or the "machine," he will be the more delighted.

SENTENCES TO BANK ACCOUNTS.

Judge Cleland of the municipal court of Chicago, whose fertile and original brain invented the sentence to good meals as a cure or corrective for moderate intemperance, has added another decidedly novel penalty to his list—this time a plan to cure shiftlessness and lack of thrift and their consequent evils, deleterious alike to the victim himself and to his family if he has one.

The judge, in a few selected cases, has given the men arraigned before him who seem to be of more than average intelligence, savings bank books with a credit in each of $5 contributed by himself from his own pocket, with the condition that each man who is placed under parole shall deposit $2 each month for a year in the bank and shall not during that time withdraw even one cent of the amount.

The judge has planned his latest original system of punishment on the theory that all men inclined to disregard of the law are extravagant by nature and that lack of restraint on this trait has caused such as have become petty criminals to fall. Hence, he has invented the savings bank scheme to teach them how to save a little each month and thus inculcate in them habits of thrift. He reasons that, if even part of the money squandered in excesses be placed in bank beyond their reach, and they be taught the necessity of adding to it regularly in order to avoid terms in the Bridewell, they will, before the end of a year, feel a pride in their bank accounts and some at least will continue the new habit indefinitely.

The judge's system of sentencing moderate inebriates to short terms of good, substantial, well-cooked food prepared by their wives or mothers has proved a marked success, not one in ten of those so sentenced having returned to court for punishment for repetitions of their first offences. He has kept a kind of paternal watch on the men and he declares that he has solved this vexatious problem at least in part and that he will continue the plan so long as he shall be on the bench.

If even one in ten of those sentenced to the savings bank deposit habit shall persevere for a full year, the judge will consider his latest experiment a success and will adopt it also as a regular part of his corrective system.

THE PASSING SHOW.

Lynch law is in vogue in Russia. Is this a sign that it is advancing in civilization a la America?

* * *

Homesteads for 1,500 more families will be opened in Northern Minnesota July 1. It is dollars to doughnuts that not an acre will go begging.

* * *

Chicago and Kansas City have set their cleaning up days. Duluth's turn will come as soon as spring shall decide to quit flirting.

* * *

Mankato has a woman city treasurer and has absolutely no fear that there will be anything even remotely resembling a shortage during her term.

* * *

Mayor Busse of Chicago has "lifted the lid" on boxing matches which he enjoys and ordered it put down hard on gambling in which he never indulges.

* * *

"Minnesota Steel company" is an excellent name for the great new plant. But it will be known more generally among the people by the name of Duluth.

* * *

Mississippi river carp and dogfish are being sold in the East as canned salmon. So long as it tastes all right and has no ptomaines in it, what is the difference?

* * *

Texas reports a hailstorm during which the ice balls pierced the roofs of houses. To most people, this seems like a spring tale but in Texas all things are possible.

* * *

The Y. W. C. A. still needs considerable money to make up its desired total. Let every one help to close up the gap. Money could not possibly be put to better use.

* * *

President Roosevelt has barred newspaper men from the White House grounds after night. Does he class them with dangerous reds or with plutocratic conspirators?

* * *

Cuba has decided not to celebrate its independence day, May 20, this year. With Taft and about 7,000 soldiers sitting on its lid, it considers that there is no independence left to celebrate.

* * *

It is pretty safe to figure that the United States census bureau officer looking up divorce statistics in Duluth will not find that this city is in the class of Chicago, Denver or Sioux Falls in this regard.

* * *

A New York woman is reported to have changed her dress in a subway car in full sight of a crowd of passengers. No wonder New York has frequent "brain storms" and similar afflictions.

* * *

After the liveliest kind of a session that threatened more than once a hair-pulling revolution of their own, the Daughters of the American Revolution wound up by giving their president a handsome loving cup.

* * *

Secretary Taft is in Washington again after viewing the canal, patting the Porto Ricans on the back and talking paternally to the Cubans. All of these tasks were, however, mere sport compared with what he faces in Ohio where Foraker in battle array is waiting for him.

HOTEL GOSSIP.

Paul Gilmore, the actor, who appeared at the Lyceum last evening in a play called "At Yale," and who will accomplish the same thing this evening, has no fear of rah-rah boys, lemons, decayed vegetables, or other sometime thorns in the road of the drama.

It is not because he has been saving heroines from polished villians and bringing about a triumph of virtue on the stage for so many of his comparatively young years, nor yet is it because he happens to be playing the part of a rah-rah boy this season, that he harbors such feelings of bravery. He is just fearless, that's all.

As an example of his disregard of danger, Mr. Gilmore will take his play, "At Yale," to the home of that famous educational institution without expurgating the piece in the slightest. This is not meant to imply that Mr. Gilmore has a very bad play but judging from the reception "Brown of Harvard,"—a perfectly good college play—got in Boston from the Harvard students, it appears to be a risky thing to present a college play in the same town where the scenes are supposed to be laid.

It will be remembered that some time ago Henry Woodruff, a well known star in the Shubert firmament, appeared as "Brown of Harvard" in the Hub and almost precipitated a riot. The gay young students from Cambridge jeered and hooted right lustily. They hurled several pecks of lemons and other fruit at the actors. One of them playing the role of a penniless student whose way through school was being paid, was rewarded with shower of pennies and nickels.

But Mr. Gilmore is confident that his play will not receive that kind of a reception when he presents it at New Haven.

"We are not afraid to play 'At Yale' in New Haven," said Mr. Gilmore, this morning, with the air of an Arctic explorer, whose disregard for the dangers of the frozen North had been questioned. "I think the piece is true to college life, reflects with credit to Yale university, and should be given a royal welcome. That is what the members of the company and myself are hoping for, at any rate.

"Before my season opened, I spent two weeks at Yale, absorbing college local color and when I left New Haven, a near-sighted person could not tell me from a real student.

"At other college towns throughout the country, my play has been very favorably received. We have not received a lemon over the footlights since our tour began. And I don't think any will be thrown at New Haven. If there are, we will play behind a net on the next evening."

Reflections of a Bachelor.

New York Press: Nobody is smart enough to be able to prove it to his own boy when he is in college.

A woman hates to tell her husband how much her dress costs, and her friends how little.

There would be some fun in being a farmer if it weren't for the almanacs he has to read.

A man thinks he's a martyr when he lends his wife $10 he owes her on her allowance.

A girl falling in love with a married man is almost as romantic as being engaged to two other men at the same time.

Wants Peace or a Fight.

New York Herald: Judge George Gray of Delaware, said at last night's session of the peace congress that the nations of the world were in the same position as the cowboys of the Western plains—armed to the affront by boring holes in each other.

He said there would always be room for armies and navies to keep the peace, for he added:

"We propose to keep international peace, even if we have to fight for it."

THE WEATHER.

Clouds covered the sky this morning and the day was chilly and rather raw, with considerable humidity. This may or may not result in rain or possibly even snow. It begins to look very much as if April will pass this year without being April of the usual spring type, but the people of this city and section may draw consolation from the fact that other portions of the country much further south have had little warmer weather this month. Luckily the wind was light this morning, so that the damp chilliness was not felt so much as it would have been had there been a keen breeze. The fear of rain or snow keeps many shoppers at home, and the streets were far less busy looking than during the past few bright days. Last night's lowest temperature was 26 degs. and yesterday's highest was 46 degs. The weather man says that there will be rain or snow tonight and tomorrow, with brisk northeast to north winds, and the temperature at or below the freezing point.

The sun set at 7:08 o'clock this afternoon and will rise at 5:02 o'clock tomorrow morning. Today gains only one minute each, morning and afternoon, of daylight.

A year ago today was a perfect spring day, with just enough chilliness in the atmosphere to keep it from being of the summer variety. At midday it was fairly hot, but morning and evening it was cool.

Says Mr. Richardson of conditions: "Barometric depressions central off the New England coast and over Eastern Nebraska are causing rains in the Atlantic states and Central valleys and rain or snow in the Northwest, and higher temperature from Kansas and Missouri southward. Rising pressures from the lake region southward to the Gulf states and from Idaho and Wyoming northward to Western Canada are attended by colder weather in all those districts."

Fillowing were last night's lowest temperatures, as recorded by the weather bureau:

Abilene	58	Medicine Hat	22

Department of Agriculture, Weather Bureau, Duluth, April 24.—Local forecast for twenty-four hours ending at 7 p. m. Thursday: Duluth, Superior and vicinity, including the Mesaba and Vermilion iron ranges—Rain or snow tonight and Thursday with temperature about freezing point or slightly below. Brisk and possibly high northeast to north winds. H. W. RICHARDSON, Local Forecaster.

Chicago, April 24.—Forecasts until 7 p. m. Thursday: Wisconsin—Rain tonight and probably Thursday; warmer in east portion and colder in west tonight; much cooler Thursday.

Minnesota—Threatening with rain or snow in east and south portions tonight and in east portion Thursday; colder.

North and South Dakota—Rain or snow and colder tonight; Thursday fair with slowly rising temperature.

Upper lakes—Increasing east to southeast winds on Michigan and Huron and northeast on Superior, becoming brisk and high and shifting to northerly; probably northwest by Thursday night; rain except possibly snow on Superior.

DULUTH AND DULUTHIANS.

Red River Review: C. B. Miller of Duluth appears to be recognized as the most accomplished and orator in the present legislature, and some are of the opinion that he could give Governor Johnson, himself, some pointers in that line.

Little Falls Transcript: Duluth is just overburdened with reasons for growth and prosperity this year.

Floodwood Broadaxe: Duluth is our twin. Duluth has the steel plant and Floodwood will supply her with dairy and food products.

Biwabik Times: Now that Duluth has captured the steel plant it would hardly be so measly as to covet the county seat.

St. Hilaire Spectator: Duluth is happy over the promise of a $10,000,000 steel plant. Here's hoping she won't forget her country friends when her prosperity comes.

Mesaba Ore: Young Mr. Miller of Duluth has won the admiration of the whole state of Minnesota. His speech in the house against the pernicious Jefferson-Bjorke tonnage tax on iron ore was a masterful effort, and it is only a question of time until Mr. Miller may have the pick of the political good things in the state.

Stillwater Gazette: Duluth's ball players have all reported, wearing fur coats, caps turned down over their ears and overshoes covering the feet that are encased in $5 shoes. Some of them who had been there before, brought their fur mittens.

Anoka County Union: It's nothing but steel in Duluth just now.

Border Budget: Duluth is promised a $5,000,000 steel plant. Good for Duluth! It means a period of unprecedented prosperity and development for Northern Minnesota. Every city, town, hamlet and township in the north country will share in the profits. St. Louis county should now be admitted into the state.

Rochester Bulletin: No wonder Duluth people are jubilant. With a $6,000,000 manufacturing plant located in its midst the Zenith City, in point of business and population, will in a few years rival the greatest cities of the West.

Little Falls Transcript: Duluth is large enough to begin an agitation to have all wires put underground. By the time the big steel mill starts there will be plans for a subway.

Pointed Paragraphs.

Chicago News: A wise man shuts up before he runs out of talk.

It is easier for some people to be poor than honest.

A pretty girl's cheek goes for more than its face value.

Silence is golden, but very few of us are burdened with gold.

Most women are proud of their ability to humble a man's pride.

A fruit tree in the back yard is worth two family trees in a glass case.

It goes without saying that a talking machine does not say without going.

One of the things a man can't understand is why his enemies have any friends.

Talk is cheap—except when a man's wife begins to explain why she needs the money.

More "Pipes of Peace."

Philadelphia Record: Japan joins in the general movement for the abolition of war by launching a battleship which will carry four 12-inch, twelve 10-inch and twelve 4.7-inch guns. This argument for peace can only be overcome by some other piece of steel logic concluding with twelve 12-inch and four 10-inch guns.

"After all, there is nothing like DR. PRICE'S CREAM BAKING POWDER I have used it with satisfaction for nearly forty years. No alum for me."

MINNESOTA OPINIONS.

Moorhead Citizen: It is understood that Washington statesmen are going to taboo all dinners hereafter, except those given at the Alibi club.

Perham Bulletin: The most spineless legislator will vote for a 2-cent rate, but brandishes there a lawmaker sufficiently lion-hearted to draft a bill reducing the Pullman porter tip from 25 cents to a flat rate of 23 cents.

Sherburne County Star-News: The legislature has declared in a loud tone of voice that it is in favor of a third term for President Roosevelt. For the time being the candidacy of Governor Johnson appears to have been overlooked. The governor's cabinet was doubtless caught napping by the suddenness of the movement or it would have been headed off.

Crookston Times: Topeka and Kansas City both reported snow with freezing weather on April 16. At Topeka it developed into a "blinding" snow. Aren't you glad that you live in good old Northern Minnesota, where it does snow at times, of course, but where spring holds off until it is good and ready to come and stay?

Red Wing Republican: Bulletins denying that he will run for a third term should be published by the president from now until the national convention meets at least once a month.

Hubbard County Clipper: Brainerd is soon to follow Hinckley's example and manufacture turpentine from pine stumps. Why cannot the same thing be done here? There are plenty of stumps in Hubbard county and a turpentine plant would make the clearing of farms of these stumps profitable work in itself.

Morris Sun: St. Paul and Minneapolis will undoubtedly make a determined effort to land the national Democratic convention in 1908, and an effort is already being made to work up sentiment along this line. The holding of this convention in Minneota would mean much toward finding a place on the national ticket for Governor Johnson, and this will cause the Democrats to work hard for the convention.

Martin County Sentinel: A La Crosse sensational preacher says hell is filled with peek-a-boo waists. Hist! brother. Keep it to yourself. Why thus tempt men to go to the bad?

Barnum Star-Gazette: Northern Montana is reported to be flooded and many persons are drowned. Come to Northern Minnesota. We have no floods, blizzards, cyclones, drouths or other destroying conditions that are fatal to most other parts of the country.

Monticello Times: "What has Bryan done?" asks the Boston Herald. Well, for one thing, he started a weekly paper, and has managed to keep it going for several years. That is enough to entitle him to a hero medal.

A Sigh for Spring.

I wish that spring would come along,
An' not be foolin' so;
I want to be where rivers sing
An' honeysuckles grow;
To see, a mile or two from town,
The cork a-bobbin' up an' down.

The weary winters worry me;
I'm not a growlin' one,
But still I'm groapin' in the gloom,
An' wishin' for the sun!
I want to hear a bird sing sweet,
An' see the violets at Love's feet!
—F. L. STANTON in Atlanta Constitution.

Shaw Also Lunch Counter Eater.

New York Sun: If Leslie M. Shaw ate the same luncheon in Washington that he has ordinarily eaten since coming to this town, George B. Cortelyou isn't the only secretary of the treasury to take a frugal and awesome midday repast. Although repeatedly invited to luncheon at leading clubs by bankers who welcomed him here, Mr. Shaw has in most cases declined. Instead, he has eaten at a quick-lunch place he got to know on his trips here from Washington. In four cases out of five the new president of the Carnegie Trust company orders country sausage, buckwheat cakes and sweet cider—a combination that compares favorably with Mr. Cortelyou's favorite salmon sandwich, mince pie and 'alf and 'alf.

"There must be something in the job of secretary of the treasury to give a man a strong stomach," said a banker who had discovered the reason for Mr. Shaw's lunch-time aloofness.

Locating Himself.

Denver Post: The telephone girl in a Denver hotel answered a queer call over the house exchange yesterday morning about 11 o'clock. When she "plugged in" a man's voice said:

"Hello! Is this the So and So hotel?"

"I should say not," said the girl. "This is the Such and Such Hotel."

"Oh, all right; much obliged;" said the voice. "Just woke up an' didn't know where I was. Send me up a bromo seltzer, please."

Dwindled to Babies.

Rush City Post: State development, the great battle cry in the last campaign, has dwindled down to passing laws to prohibit babies from nursing a bottle. Good roads are side-tracked.

MIRTHFUL REMARKS.

Chicago Tribune: Photographer—Now, ma'am, as soon as the baby looks pleasant again I'll snap the camera.

The Mother—(to baby's father)—George step back where the little dear can't see you!

Chicago Record-Herald: Reginald—Did I understand you to say that your family had been rich for several generations?

Geraldine—Yes. My grandmother was a chorus girl.

Harper's Weekly: "Sold your automobile, eh?" exclaimed Wyss. "What was the trouble?"

"Couldn't control it," explained Acher. "When I ran fast it took me to the police court, and when I ran slowly it didn't take me anywhere."

Washington Herald: Lawyer—Did you say that the defendant kissed you on his own initiative?

Prosecuting Witness—No sir. I didn't say no such a thing! He kissed me smack on my lips.

Baltimore American: "I hear your husband is an inventor, Mrs. Hardup. What are his principal works in that direction?"

"Excuses for not working."

Washington Star: "Your name will probably go down in history as one of the great men of your time."

"No," answered Senator Sorghum; "I have no especial aspirations in the way of history. History doesn't influence any votes."

Philadelphia Press: "He doesn't know much about horses. I thought he was a veterinary surgeon."

"So he is, but since the auto has displaced the horse he has turned his attention to dogs and other animals."

"Literally, then, his business has gone to the dogs, hasn't it?"

Chicago Post: Miss Peachey—I had a delightful conversation with that young Prof. McSparkler last evening.

Miss Tarum—Yes, he was telling me about it this morning. He says you are one of the most entertaining talkers he ever listened to.

AMUSEMENTS.

LYCEUM—TONIGHT

Paul Gilmore in "AT YALE"

Prices, 25c to $1.50.

Thursday, "THE EYE WITNESS," 25c to 50c.

Friday and Saturday, Mat. Saturday,

ROSE COGHLAN

And New York associates in the much discussed problem play,

MRS. WARREN'S PROFESSION

BY BERNARD SHAW.

St. Paul Dispatch: It is the best of the Shaw plays seen here.

Prices 50c to $1.50. Mat. 50c to $1.

Both Phones—Old, 1919; New, 1555-D

BIJOU

J. S. MAITLAND, Mgr.

MATINEE TOMORROW, 10c.

THIS WEEK—Gavin Platt and Peaches in "The Stolen Kid;" Harry Braham, Maud Isabel Entwistle and company; Lorrene Marchel, Reeves and Kenney, Isadore Silver, Moving Pictures, "The Curfew Shall Not Ring Tonight," a curious dream. Matinee daily, 2:45. Evenings at 8 and 9:30. Order seats by both 'phones.

METROPOLITAN

FUN—MUSIC—VAUDEVILLE.

TONIGHT AND ALL THIS WEEK,

IMPERIAL BURLESQUERS

MY BUT THEY'RE TERRIBLE FLIRTS!

Night Prices, 15c, 25c, 35c, 50c and 75c.

Matinees, 20c, 30c and 50c.

LADIES' MATINEE THURSDAY.

Next Week—American Burlesquers.

TWENTY YEARS AGO.

Taken From the Columns of The Herald of This Date, 1887.

***The following real estate transfers have been recorded:

F. E. Kennedy to R. H. Hartley, lots 113 and 115, block 4, Third division, $14,000.

A. W. Ringland to J. T. Wyman, lot 35, East Second street, First division, $6,200.

Morris Thomas to James McCahill, lots 17, 26 and 28, block 114, Third division, $5,500.

F. A. Day to Robert Cromble, lots 9-14, block 8, Highland Park, $3,200.

Andrew Swordling to J. W. Weeks, lot 324, block 37, Second division, $11,000.

West Duluth Land company to W. S. Finley, 14 lots in West Duluth, $6,100.

J. H. Lee to F. H. Frisbee, lot 16, block 37, Endion, $2,200.

Western Land association to E. G. Swanstrom, lot 352, block 110, Second division, $1,000.

***The channel is open between Rice's and Connor's points.

***Joseph Schweiger, formerly with T. B. Perry, has gone out of the boot and shoe business and is traveling for a Kentucky tobacco house, having his headquarters in Duluth.

***The Commercial house at West Superior, formerly the property of M. Mehan, was sold yesterday to Duluth parties for $7,200.

***Capt. Sellwood of the Colby mine at Bessemer on the Gogebic range, passed through the city yesterday on his way to the Vermilion range, where he has large interests which he thinks of developing.

***George B. Weatherby and wife left yesterday for Cedar Springs, Mich., where they will make their future home.

***Just to make life at the Head of the Lakes spicy, a snowstorm of perceptible dimensions came along yesterday.

***Col. Cullyford will begin work on the addition to the Hotel St. Louis next week. It will be eighty feet in front and six stories high, two more than the present building. The cost will be about $125,000 and $12,000 to $15,000 for the furniture.

***It is rumored that the Manitoba railroad is going to put on a magnificent line of steamers between Duluth and Buffalo.

***Andrew Carnegie was married yesterday to Miss Whitefield of New York.

***The president has appointed Edward F. Bingham of Ohio as successor to the late Chief Justice Carter. His appointment was recommended by Allen G. Thurman.

***At a meeting of the directors of the Duluth, Red Wing & Southern railroad, it was decided to make a preliminary survey to Rochester and Austin and to begin securing right of way in Southern Minnesota immediately.

TAKE ICE FROM THE RESEVOIRS

Plans for Forcing Cut in Ice Prices Next Year.

The numerous complaints which have been registered of late years by Duluth citizens is regard to the prices of ice charged by the local ice companies have, from current reports, set some of the aforesaid kickers to thinking of a method to remedy these evils and some of them have evolved a scheme by which they hope to break the alleged local monopoly before the beginning of another season.

The plan which has been worked out by the trust busters involves the old idea of using the ice from the city's reservoirs to supply the market. The result would be prfectly pure ice of the finest quality and the reformers figure on furnishing a much superior article at lower prices.

The establishment of the West Duluth reservoir lends this scheme a practicability which it has never had before, as the boosters claim that with this source of supply for the western end of the city, they can supply every portion of the city very cheaply. Several harvests a winter could be taken from the reservoirs and a supply of ice practically equal to the city's demands could be gleaned from them, according to the hopes of the promoters of the "Reservoir Trust Busting Ice company."

Some of the city officials have interested themselves in the scheme and are said to be ready to back it to the limit when the proper time comes, both as a benefit to the city in breaking any ice monopoly which may exist, and as a financial investment for the promoters. Whether the proposition would work out as well in practice as in theory remains to be seen, but the men who have figured it out say that it is all right.

SHOT ON SIGHT.

Former Judge Takes Quick Vengeance on Assaulter of Daughter.

Lynchburg, Va., April 24.—Former Judge F. W. Loving, who late Monday shot and killed Theodore Estes, at Oak Ridge, was yesterday admitted to bail in the sum of $5,000.

Charging Estes with drugging his daughter, Elizabeth, aged 19, and assaulting her while in a druggged condition, after learning of the alleged incident from the lips of his daughter, Judge Loving drove some eight or ten miles before locating the young man, and he shot him down without waiting for the victim to explain himself. Judge Loving said:

"When I heard the awful story from the lips of my dear one, I was insane. I wanted to learn all the facts and then nothing in God's or man's power could have stopped me from taking his life. I did it after careful consideration."

Miss Loving is reported to be in a very serious condition.

ONE MILLION TO EDUCATE NEGROES

Gift Made by Miss Jeanes, a Philadelphia Quakeress.

Philadelphia, April 24.—A gift of $1,000,000 for the establishment of a fund for rudimentary schools for Southern negroes was announced here last night. The donor is Miss Anna T. Jeanes, a Quakeress of this city. Booker T. Washington, head of the Tuskegee institute, and Hollis Burke Frissell, president of the Sam Houston normal and industrial institute, are named as trustees of the fund, but neither of the institutions they represent will share in the gift. The income of the $1,000,000 is to be used for the sole purpose of assisting in the "Southern United States community, country and rural schools for the great class of negroes to whom the small rural and community schools are alone available." The deed of gift was executed Monday and in it Mr. Washington and Mr. Frissell are empowered to appoint a board of trustees in connection with the fund. The Pennsylvania company for insurance on lives and granting annuities of this city, will act as fiscal agent for the trustees.

Miss Jeanes, the donor, is about 80 years old and comes from an old and wealthy family that has been prominent for more than a century in the Society of Friends. She has long been interested in the welfare of the negro and has been a contributor to institutions for their education. She has known Mr. Washington for a decade.

MARRIAGE LAW SHOCKS.

Austrian Official Asks Fort Dodge to be Merciful.

Fort Dodge, Iowa, April 24.—Letters bearing on the Fort Dodge ordinance which aims to enforce marriage, continue to reach this city, addressed to the mayor. The latest is one from an official in Austria who deplores the effect it will have upon the country at large. He writes:

To His Worship the Mayor of Fort Dodge, Iowa, U. S. A.—My Lord: The Almighty God Jehovah did not give you the power to destroy the liberty of a noble people. Many may get married if you provide land, farm, real estate, house to live in and thus be able to bring up children. Have mercy upon the poor in your narrow place.

Faithfully,
FRANZ MAYRHOFER OYLESBURY.

DIED FROM INJURIES.

Marine Mills, Minn., April 24.—Charles Johnson, a farmer residing four miles west of here at Maple Island, and who about a week ago fell from a load of straw and dislocated two vertebrae in his neck, died yesterday. He was 70 years of age and leaves a wife and two children.

TESTIMONY FINISHED

Second Trial of Fred Argyle Draws to a Close.

Defense Shuts Out Testimony by State's Expert Witness.

At 4:30 o'clock yesterday afternoon all the testimony in the Argyle trial was in, and it was expected that County Attorney Norton, for the state, and W. E. Culkin, for the defense, would make their arguments to the jury this morning. Each attorney expected to take about an hour and one-half for his argument. The case will probably reach the jury during the latter part of the afternoon.

The state called two insanity experts in rebuttal, yesterday, Drs. S. H. Boyer and H. E. Webster, both of whom claimed that, based on the hypothetical question put to them by the state, a person performing the acts alleged must have been sane.

With reference to the letters found on Argyle at police headquarters the morning following the shooting affray, and the defendant's claim that he did not remember writing them, Dr. Webster, under cross-examination, admitted that the circumstance was rather extraordinary and that it indicated a mental disturbance. He refused to say, however, that it was indicative of insanity. It was also admitted by the witness that alleged incoherent talk on the part of the defendant at specified times previous to the shooting might tend to show insanity, but that it would be a circumstance making part of the whole.

Dr. J. W. Weston was also called by the state, but was not permitted to testify for the reason that he sat in the courtroom during the examination of Dr. Webster, the other expert witness. Mr. Culkin objected to any testimony by Dr. Weston and was sustained by the court who remarked that Mr. Culkin had offered to relax the rule of excluding witnesses, when the expert testimony began, but that County Attorney Norton had not seen fit to accept the offer.

The state rested at this point and two witnesses were called by the defense in sur-rebuttal, Mrs. Herman Welling and Fred Argyle. The latter claimed that he never applied insulting epithets to his wife, as testified to by Mrs. Argyle and her sister, Miss Lavalle.

Many people seem to have the mistaken impression that Argyle is being tried on an indictment other than the one on which he was first tried, when the jury disagreed. This trial was based on the same indictment, that charging him with assaulting his wife with intent to kill her. There still remain two indictments against him, both charging assault in the first degree, on Miss Bessie Eutchart and on Mrs. Argyle.

DEPEW IS 73 YEARS OLD.

Celebrates Birthday by Lunching With Women's Republican Association.

New York, April 24.—Senator Chauncey M. Depew celebrated his 73rd birthday yesterday by lunching with the Women's Republican association of the state of New York, which he helped to organize, nine years ago.

Mr. Depew congratulated the women Republicans on being part and parcel of a campaign which had begun so excitingly fifteen months before the presidential convention.

"The chief event of that campaign so far," he said, "has been the organization of the Society of Ananias and Saphira, with a constantly increasing membership of influential people. But the Republican party is not a party of Ananias and Saphira. As a party we tell the truth, and live up to the truth.

RHODE ISLANDERS FAIL TO ELECT A SENATOR.

Providence, R. I., April 24.—Until January next, Rhode Island will have but one United States senator, as the result of the failure of the Republicans in the legislature to agree upon a candidate. The joint assembly adjourned last night, at the end of the eighty-first ballot, which showed that the deadlock was as complete as before. The final ballot stood as follows: Col. R. H. I. Goddard, Providence, (Dem.), 40; Col. Samuel Pomeroy Colt, Bristol, (Rep.), 39; George Peabody Wetmore, Newport, (Rep.), 30.

Twenty-five ballots were taken at yesterday's session, none showing any particular change in the line-up.

HAPPENINGS IN THE DAKOTAS

Bismarck Boy's Narrow Escape From Being Killed by Stallion.

NORTH DAKOTA.

Bismarck—Roy Logan was seriously injured and had a narrow escape from being killed by a vicious stallion which attacked him while he was feeding it. As the boy entered the box stall the stallion lashed out at him with its feet, knocking him down.

It then proceeded to bite and trample upon the prostrate young man, who undoubtedly would have been killed had not his cries attracted the attention of Henry Jacobson, who entered the stall, beat off the stallion and dragged Logan out. Logan's leg was lacerated and his ankle broken.

Grand Forks—Reports from points west along the main line of the Great Northern railway and south to Fargo indicate that seeding will be general this week, if the weather continues favorable. The land in the Red River valley is in the finest condition for years, there being but little water anywhere. Rugby, Kenmare and other points in the western part of the state report that seeding has commenced. Harrowing is general in the western counties. Banker Thomas O. Hougon, who was in Grand Forks yesterday from Williston, stated that seeding was general in that section. The weather has been very favorable for work there. Frosty nights and cold winds are the only adverse conditions prevailing. In the northeastern section of the state seeding will be delayed badly as there is still much snow.

A. H. Nichols, who has been head clerk of the Dakota division of the Great Northern railway, has resigned, and his sucessor is C. A. Nickey of Melrose, Minn.

Valley City—Prof. Arland D. Weeks of the English department of the Valley City normal, who was thought to be slated for the presidency of the Mayville normal, has accepted a professorship in the agricultural college in the department of English. Louis P. Linn, secretary to President McFarland of the Valley City normal, has accepted the superintendency of the schools at Drayton, N. D.

SOUTH DAKOTA.

Scotland—The affairs of the failed First National bank of Scotland, the president of which, C. C. King, was arrested in Chicago yesterday, are in exceedingly bad condition. Of the $100,000 of paper held by the bank, it is claimed that only about $20,000 is good. The stockholders in the institution have been assessed 100 per cent but this will only net about $6,000. King is alleged to have lost the funds in speculation. He was considered a plunger.

Castlewood — James A. Meadows, chairman of the board of county commissioners, died from heart trouble. He was prominent in political circles, was 52 years old and came to this county from Canada in 1882.

Flandreau—The body of Jake Taylor of Egan was found in a creek near that place Monday. A coroner's inquest was held but no marks of violence were found on the body nor any suspicious circumstances. Of late he has been acting in a strange manner. He was the oldest member of the Taylor family.

Elk Point—Jack Gleason, a single man, who four or five years ago figured as a prize fighter, eloped on Sunday with Mrs. Roderique Cyr. Mr. and Mrs. Cyr had been married about two years, had one child and were members of well-to-do French families. Mrs. Cyr ostensibly went to Sioux City to visit her brother, who is soon to remove to the Black Hills. Her husband drove her into town, but instead of taking the train she left her babe with a family in town, met Gleason and together they drove to Sioux City and put up at the Oxford hotel. Their actions were noticed and Sheriff Sherman was at once dispatched to Sioux City, where he placed them under arrest.

"I Can Cure Any Drunkard."

My Golden Remedy for the Whiskey Curse Will Save Your Husband, Son, Brother or Father From a Drunkard's Grave.

I Will Mail Free To All Who Write a Trial Package In Plain Wrapper.

I am saving thousands of drunkards every year and restoring them to their loving wives and families. I will save many more as a result of this advertisement. To all who write me, I will send

Worships His False God, Whiskey—Wife in Tears—Children Neglected—Home Forgotten—Life a Lingering Death—And Drink Did It All.

The Drunkard Cannot Save Himself—You Women Must Do It For Him.

free by mail, in plain wrapper, so that no one can know what it contains, a trial package of Golden Remedy for the Liquor Habit. Though absolutely harmless, it never fails to cure the worst cases of drunkenness, no matter of how long standing. It can be administered without the knowledge of the subject in coffee, tea, soup, milk, etc., and he will be cured in a few days and cured so he will never drink again.

Golden Remedy contains no dangerous drugs or minerals. It does not ruin the digestion or destroy the tissues of the vital organs and endanger life and health. It counteracts and expels from the system all alcoholic poisons and puts an end to all craving or appetite for liquor.

Under its influence the subject regains his health, will-power and self-respect. His eye becomes bright, his brain clear, his step elastic, his vigor returns, and he once more feels and looks like a man.

If you have a beloved husband, son, brother or father who is afflicted, send your name and address to me at once in the coupon below:

FREE PACKAGE COUPON

If you fill out the blank lines below with your name and address, cut out coupon and send it to me, I will send you absolutely free, by mail, in plain wrapper, a trial package of my Golden Remedy. You will be thankful as long as you live that you did it. Address, Dr. J. W. Haines, 9810 Glenn Bldg., Cincinnati, Ohio.

TOWN AFTER INDUSTRY

Brick-Making Expert is Investigating Clay Beds in Meadowlands.

Tests of Sample Bricks Have Proved Very Successful

The prospects are bright for the establishment of an important industry in the town of Meadowlands, St. Louis county, on the Bovey line of the Duluth, Missabe & Northern branch road from Alborn and about thirty-five miles from Duluth.

The industry in question is a large brick-making plant and a number of people who have been closely following up the matter are quite confident that the plant will be an assured thing.

Joseph Wild of Morton, Minn., a brick-making expert connected with the Morton Brick company, was in the city yesterday and left today for Meadowlands, where he will investigate the brick clay beds found in that township and from which several very successful tests have been made in the way of the manufacture of sample bricks.

Sample bricks have been made and burned from two or three different clay beds in the town of Meadowlands, in each of which the clay was of a different quality. In two out of three of the tests the results were so successful that the brick companies, where the test bricks were made, have sent experts here to investigate the quality and extent of the beds, the proximity to the railroads and markets and the facilities for getting wood necessary for the brick kilns.

That good clay beds exist in several localities in the town of Meadowlands has been a matter of common knowledge among many of the farmers residing in that part of the county, but, until recently, they had no thought of turning such beds to advantage.

Several weeks ago L. B. Arnold, assistant land commissioner of the Duluth & Iron Range road, who is developing a fine experimental farm in the town of Meadowlands, became interested in the clay beds that were situated quite near one corner of his tract of land. He secured a quantity of the clay and sent it to some of the brick manufacturing plants for a test and with the request that they make some sample bricks out of the material. When the sample bricks were returned Mr. Arnold received letters of inquiry from the brick-making concerns as to the locality where the clay was found and later correspondence resulted in the Morton company sending its expert out here to make a personal investigation.

It is claimed that the clay bed is a large one and ample to support a brick-making plant for years to come if the quality holds out as well as in the sample, and it is believed that it will.

The soil in the town of Meadowlands is generally a rich loam with a clay subsoil, but the clay beds crop out in one or two localities and the farmers there are much pleased over the prospects of getting a substantial industry in addition to the constantly increasing number of people who are buying and developing the wild land in that town. If the brick plant prospect turns out to be all that is anticipated for it, it is claimed that a ready market will be found for pretty nearly all its product right here at the Head of the Lakes.

Bitten by a Spider.

Through blood poisoning caused by a spider bite, John Washington of Rosqueville, Tex., would have lost his leg, which became a mass of running sores, had he not been persuaded to try Bucklen's Arnica Salve. He writes: "The first application relieved, and four boxes healed all the sores." Heals every sore. 25c at all druggists.

FOUND DEAD IN ROAD.

Fourth Member of Wisconsin Family Dies of Heart Disease.

Winona, Minn., April 24.—While Mr. and Mrs. Carl Franke of Centerville, Wis., were returning to their home yesterday, they discovered the body of their daughter, Clara, in the road near Bluff Siding, Wis. The child had been stricken with heart disease. Clara is the fourth member of the family to meet death by heart disease within a year, one having died in the pasture, one while running into the house during a thunderstorm and the third having fallen dead in the house.

WEDDING DAY IN CHISHOLM.

Eight Couples Joined in Wedlock at the Catholic Church.

Chisholm, Minn., April 24.—(Special to The Herald.)—Monday was evidently wedding day in Chisholm, when eight wedding ceremonies were read in the Catholic church. Father Tshall was perhaps the busiest and the luckiest man in town; at least he was so regarded by all except the eight bridegrooms, and perhaps the opinion of a number of these in six months will coincide with that of the majority today, for married life has its disappointments as well as its joys. The names of the contracting parties are John Turk and Rosa Bincy, Anton Hern and Miss Fanny First, Barney Ramalia and Jornia Martinella, John Kojer and Rosa Klawher, Jacob Klosmath and Mary Mohar, John Laurish and Franska Kanans, Tony Mehelick and Ogneza Garnick, Philip Percieth and Annie Suly.

FATHER, MOTHER AND SON ARE PREACHERS.

Windfall, Ind., April 24.—The Rev. W. C. Belcher and wife, Mrs. Emma Belcher, and their son, the Rev. Joseph Belcher, all ministers in the Missionary Baptist church, and actively engaged in pastoral work, have closed a revival in this city which added twenty-three members to the church. The Rev. Joseph Belcher, who is but 20 years old, is the regular pastor of the Windfall church. His parents reside at Winamac, and the father is pastor of a church in Fulton county, while the mother ministers to one near Winamac.

D. E. H., April 24, 1907.

Live in the present—the Day is here, the time is NOW.
—Fra Elbertus.

The "Best Ever" $5.00 Special for Boys.

For a number of seasons we've tried to secure a $5.00 School Suit for Boys, 8 to 17 years of age, which would beat any other $5.00 suit sold by any Duluth store. We were not satisfied with our experiments until we found a maker who fell in with our idea and produced "something different," guaranteeing at the same time every garment that leaves the factory.

"The Best Ever"

Is a Boys' Suit, both rain and moth-proof, with double seat and knees, reenforced taped seams, lined front, patent elastic waist band, wire-sewed buttons—made in every way to stand the hardest wear a live youngster is apt to give it. The materials are Serges, Cheviots and Fancy Cassimeres. Either straight or knickerbocker trousers, as you desire.

Uniform price $5 and absolutely the best five dollar suit ever sold in Duluth.

COLUMBIA CLOTHING CO.

FOOT NOTE: Good shoes for bad boys.

ZIMMERMAN BROS., 333 West First Street

NEW CASES ARE FILED

Several More Personal Injury Suits Noticed for Trial.

Plaintiffs Ask From $1,600 to $30,000 in Damages.

Several new damage cases were filed with the clerk of the district court yesterday afternoon in order to get the trials noticed for the new term beginning May 1.

The largest amount is asked by Albert Luukkonen who seeks to recover $30,382.20 from the Oliver Iron Mining company for personal injuries received in an accident in the Spruce mine last August. He claims to have fallen about forty or fifty feet to the bottom of a chute in the drift, breaking his back and received other injuries.

Frank Victor Nurmel has sued the Oliver Iron Mining company for $16,124 for the loss of a foot under the cars at the Higgins mine, near Virginia, Jan. 31, last. He claims that he was making repairs under a car when the train started up and dragged him for some distance.

Albert Neimi has sued the Oliver Mining company for $15,375 for injury to his ribs, back and foot, by reason of being caught between an engine and a chute at the Adams mine, near Eveleth.

W. G. Bonham, guardian ad litem for Allan McGinnis, has started a suit against the Northwestern Steam Boiler & Manufacturing company to recover $15,000 for injuries alleged to have been received by McGinnis while employed by the company in carrying steel aboard the steamer Sahara, at Superior, Nov. 5, last. It is claimed that McGinnis fell through an open hatch to the bottom of the boat, a distance of about thirty feet, injuring his arms, wrists and spine.

John Jarvi asks $5,300 from the Duluth & Iron Range Railway company for injuries received in jumping to the bottom of a coal dock at the Fayal mine last November. He claims that an engine and some cars ran onto the dock at a high speed and he was compelled to save himself by jumping. Jarvi claims to have sprained his ankle and injured his back.

Andrew Peterson demands $3,500 from the Pittsburg Coal Dock company for injuries to his arm while he was on a boat that was being unloaded by clam-shell buckets. He claims that the gearing broke and a crank revolving with great velocity struck him on the arm.

Patrick Burke has sued J. C. Mullery and William O'Brien for $1,630 damages for injuries received while hauling lumber from the defendants' mill yard in the West end. Burke claims his sleigh struck a depression in the road causing the load to spread and tip over, one of the runners striking him on the hand.

Use Kennedy's Laxative Cough Syrup. Children like its pleasant taste, and mothers give it hearty endorsement. Made in strict conformity to Pure Food and Drugs Law. Sold by all druggists.

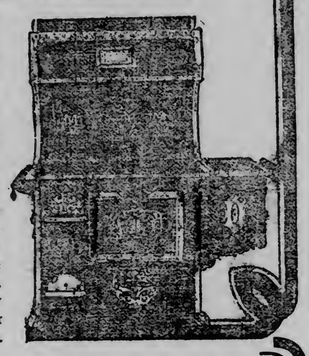
It is Easy to Cook with Small Vessels



When you have one of Moore's Ranges in your kitchen, because of that handy aid to cooking!

Moore's Simmering Lid

You know there are many times when it is much more convenient to use little stew pans in the preparation of small portions of food, but this is not possible when you have only the ordinary size stove lids. MOORE'S SIMMERING LID is especially desirable when making sauce for puddings or icing for cakes.

Better Buy Moore's Range

You don't want to spend all your time in the kitchen. If one of Moore's Ranges are at your command, you'll have more time to yourself for the innumerable special features enable you to secure perfect results without watching your food during the cooking period. You can answer the front door bell without worrying as to the condition of the food you left in the oven. Moore's Range is the cheapest when quality and service is considered. A third less fuel is consumed which means that a Moore's Range pays for itself the third year. This point alone is worth careful consideration. If you will come in we can show other reasons why it is to your interest to buy Moore's Range.

We want to sell 150 Moore's Ranges in the next sixty days. We need your help to do this. If you prefer

$1.00 DOWN and $100 PER WEEK.

Come and see us. We'll take your old stove in part payment. We are showing over 100 new rugs at popular prices. Just received a fine new line of brass and iron beds at prices to suit all.

ARGUE CASE TO THE JURY

Attorneys in the Argyle Case Make Eloquent Pleas.

Main Fight is Over Question of His Sanity.

County Attorney Norton finished his argument to the jury in the Argyle case at 11 o'clock this morning, and W. E. Culkin, for the defense, had covered about half of his argument when the court ordered the noon recess.

Mr. Norton made a determined plea for a conviction in this, the second trial, basing his argument on the testimony which, he claimed, proved conclusively that Argyle was not insane when he did the shooting at Lakeside, and that the only reason he did not kill his wife, Lillie Argyle, was because of his bad marksmanship. Mr. Norton claimed that the evidence showed plenty of intent on the part of Argyle to kill his wife.

Mr. Culkin made an eloquent plea for the acquittal of Argyle, on the grounds that he was insane, or suffering from delusions at the time the shooting took place, also at the time he wrote the letters found on his person at police headquarters the day after the shooting. Mr. Culkin pointed out many things in the evidence which he claimed went to show that Argyle had been very much aggravated, and because of which he suffered from his delusions. He argued that there was not the least evidence showing intent to kill; that it would have been impossible for Argyle to have shot at his wife with the revolver held in the position Mrs. Argyle and other witnesses testified, without hitting her with the bullet. He claimed that Argyle, in his mental and physical state was not responsible for any statements that he might have made to the police the morning following the shooting.

The courtroom was well filled with spectators, who listened with close interest to the arguments of the attorneys.

Argyle's case was to have been submitted to the jury late this afternoon.

English Tailored Hats

A splendid showing of smart designs by the most renowned makers ----- **$5.00**

$5.75, $6.50, $7.50, $8.50 and $10.00

Charming Spring Millinery

ALBENBERG'S

WANTED IN FLOUR CITY

Colored Man Arrested in Connection With Murder Case.

Was Hauled From Under Bed in Boarding House.

In response to a letter from Chief of Police Corriston of Minneapolis, Capt. F. E. Reshe, Lieut. Terry and Sergt. Fritz this morning effected the arrest of Dave O'Banion, a very dapper young colored gentleman, in his room on St. Croix avenue and he was locked up as a fugitive from justice.

According to the letter from the Minneapolis police, O'Banion was mixed up in a shooting affair in the Jessamine Colored club in Minneapolis about 2 o'clock yesterday morning. O'Banion and a friend of his, named John Sterrett, went up to the club and after going inside met an old enemy of Sterret's, called "Brocky." According to O'Banion's story "Brocky" first jumped at him with his revolver and clouted him back of the ear with it, inflicting a nasty scar. O'Banion ran at once, he says, and heard a shot as he was rushing headlong down the stairs.

"Brocky" shot Sterrett in the abdomen from the results of which the wounded man has since died. "Brocky" himself was wounded in the chest, and the police are inclined to think that O'Banion was in the midst of the fracas when he received the wound back of the ear.

When the officers attempted to make the arrest this morning, Lieut. Terry was sent around to the rear of the building in order to block escape by that means and Capt. Resche and Sergt. Fritz went to the front door. The colored woman who was in the house saw the officers coming and hastened to open the back door, only to be confronted by the smiling countenance of Mr. Terry. She then went to the front door and denied the presence of any man answering O'Banion's description in her house. Capt. Resche pushed into the room and, dropping on his knees, spotted the prostrate form of the colored man under the bed. He came out and went unresistingly to the station.

O'Banion has a record here, having received sixty days in the county jail for contempt of court several years ago when he was subpoenaed as a witness in a vicious cutting scrape on St. Croix avenue. He was also up for assault here once before this year.

THE GIDDING SALE

Offers Remarkable Values in High Class Tailored Suits.

The Gidding sale of high class tailored suits is attracting wide attention. Every suit is taken from the firm's regular lines, the styles including Etons, Pony Etons, Tuxedo Etons, Prince Chaps, tight fitting hip lengths, tight fitting cutaway styles and various other new and fashionable models. The price reductions are remarkable. When the exceptional Gidding quality and style are taken into consideration. The sale commenced this morning and will continue until every one of the 300 suits are disposed of. Early comers naturally have the choice of the widest range of styles.

NEW PRESIDENT FOR RUSSIAN PARLIAMENT.

St. Petersburg, April 24.—Senator Akymoff has been appointed president of the council of the empire (upper house of parliament) in succession to Baron Frisch, who died April 13.

M. Akymoff was for a time minister of justice. He is a brother-in-law of ex-Minister of the Interior Durnovo.

PRINTERS WILL MEET TONIGHT

Meeting Called to Discuss City's Action Regarding High Bids.

The action taken by the city council last Monday in regard to the bids of local printers is evidently worrying the fraternity of the type and ink, and one of the members stated this morning that a special meeting had been called for this evening to talk over the new phase of the question opened up by the council's threat to let contracts for the city printing outside the city.

According to the motion of the council the local typists were to have another chance to lower their bids 20 per cent from their present figures. If, by the last day of this month, bids at this reduced figure could not be secured, the clerk was authorized to secure the work done outside, providing that he could get it done at 10 per cent less than the price required of the Duluth printers, or 28 per cent less than their present bids.

The city officials are confident that the work will not go outside the city, although they are assured that there would be no trouble whatever in placing it at the 28 per cent reduction from the present bids of the printers here.

HUSBAND MAKES STRONG CHARGES

Burton A. Parker Asks for Divorce From His Wife.

Based on charges as to his wife's present place of residence and her occupation for a living, Burton A. Parker of this city has filed a petition in the district court for a divorce from Maud Parker. The papers were filed today by S. F. White, who represents Mr. Parker.

The complaint alleges that Mr. Parker is 33 and his wife is 31 years of age, and that they were married in Superior, Aug. 22, 1904.

Mr. Parker claims that his wife deserted him and took up her residence in a place in this city which he believes is a house of ill-fame, and which is alleged to be run by Mary Lefiohlc. He claims that as an inmate of such alleged resort Mrs. Parker has committed a statutory offense with divers men.

Pearl Freestone has sued Ulysses Freestone for a divorce, on the grounds of intoxication, extreme cruelty and general abuse.

In her complaint Mrs. Freestone says they were married in Hudson, Wis., Sept. 23, 1903, that she is 25 and her husband is 39 years of age, and that one child resulted from the marriage.

She claims also that she has a child by a former marriage, who resides with her, and which has, with herself, been the object of the alleged cruel treatment by Freestone. It is alleged that the couple lived in Blackduck, Bemidji, Grand Rapids and Scanlon; that Freestone not only squandered his own property, but also that of his wife and of her mother.

Mrs. Freestone asks for a divorce, the custody of the children and alimony. She is represented by Miller & Clapp.

Ella Jacobs has sued Frank Jacobs for a divorce. The complaint has not yet been filed.

COTTON MEN IN SESSION.

Boston, April 24.—The eighty-second anual meeting of the National Association of Cotton Manufacturers opened in Huntington hall, Masaschusetts institute of technology today for a two-days' convention. Many important papers on the cotton industry were read. For the chief social event of the gathering, a banquet has been arranged for this evening at the New Brunswick hotel.

RAILWAYS' EARNINGS

Are Larger and Other Business Shows a Steady Increase.

Prevailing Conditions Prove That the Country is Prosperous.

New York, April 24.—Every part of the country comes forward this week with gratifying information as to continued good times and excellent prospects for the future. The endeavors of interested parties to pose as injured innocents in railway circles are in vain in view of railway earnings.

Thirty-eight railways located in all parts of the United States show increased gross earnings of 12 per cent for the first week of April, 1907, as compared with the same period of 1906. The month of March, 1907, showed a good increase in the gross earnings of the railways of the United States over the gross earnings of 1906.

Railway business is not so good in Wall street, but it is excellent throughout the country.

It will continue to show gains in gross earnings and receipts in the months and years to come. The increased earnings of the masses of the people will supply the impetus, the vim, the vigor to business of all kinds through the country and furnish the railway systems the same excess of traffic during this year that was given to them the past three years. Nothing save some great natural and widespread disaster can prevent the business of the United States, and of all the other nations of the world, from steadily increasing in value and volume for many years to come. We have had since last October a plain demonstration of financial strength and of the great, solid basis existing as to financial resources throughout the world.

Advanced prices for all materials, for all articles manufactured and, naturally, for labor, for securities—activity hitherto unknown in all the markets and exchanges of the world—an elevation of the standard of values of everything but money and a depreciation in the purchasing power of gold throughout the world necessitated a readjustment of the disturbed and disrupted relations of currency to business affairs.

The sudden, yet continued rise in prices and values, called for additional sums of money, and England, France, Germany and the United States, as centers of disturbance by activities of the world, found it prudent to "mark time" until the entire financial line caught the proper step. The halt is now over and the line will move onward with confidence, force and strength.

In such a crisis in the centuries past, or, to put it more forcibly in the centuries last past there would have been a sweeping panic throughout the world, but when Argentine, South Africa, England, the United States and Germany needed money for the last six months they only halted; they did not recede in business affairs, they did not retrograde, they gave up no solid advantage, they suffered no national industrial stagnation, and, during the halt of six or eight months, the mines of the world have poured forth streams of new money, of gold, and millions of additional dollars have been added to the currency of the United States, millions of new sovereigns are doing duty in England and her colonies and other millions of new gold have gone into the banks of France and of Germany.

One hundred and fifty million of dollars' worth of new gold has been added to the world's supply of available currency since last October, and now the readjustment being established for the time being, the business of the world moves upward and onward to a higher range of values and to a much greater volume than in any period of the distant or the recent past.

The pressure of new currency supplies is now being felt in all money centers. The banks in India reduced the rate of interest this week. The Bank of England reports increased reserves on Thursday last of £660,000. The bank of France reports increased reserves. The German banks are in better condition, and throughout the United States money has grown easy.

England's cotton spinners are buying freely of cotton, and the demand for spot cotton is so great that substantial advances have been made in prices at New Orleans, Liverpool and Galveston.

The steel trust reports unfilled orders on its books for 8,000,000 tons, and it is already booking orders to be delivered in 1908.

It is quite probable that expenditure for increased equipment and facilities, while it aids general trade, may reduce dividends for the time being on railway stocks. So may the increases granted in the pay of employes affect for a brief period the net earnings of the roads, but all these increased expenditures will bring greater business to the roads, give better service to the patrons and eventually produce increased net earnings to the investors.

In prior letters I have alluded to the great movement of people to the Southwestern portion of the United States. Recent reports from the lines of the Southern Pacific railway show that during the month of March more than 24,000 colonists were carried by these lines to Arizona and Southern California. This is an average of nearly 800 persons per day for every day in the month. These were not all immigrants from foreign countries, but represented a shifting of inhabitants from other states of the union. There is a shortage of labor in every city, state and territory of this country and of Mexico, and an immense demand for help from the unskilled branches up to the finest types or classes of workers.

Our people are all busy and the rate of wage is so high that it attracts the inhabitants of all other countries. With more than 1,000,000 of immigrants arriving in this country in 1906 there came no lessening of demand for help, no surplus of unemployed on farm, in shop, factory railway or home.

These newcomers are disturbed throughout all portions of the country, are given employment, become producers, become earners, then consumers, and within six months of their arrival are adding their mites or their dollars to the general business of the country —the American laborer, the American workman, the American citizen.

The American earns more on an average than the inhabitants of any other country; he lives better, spends more, and thus creates greater activity in the business of his country than individuals do in other countries. The foreigner, settling here, speedily becomes an American in the manner and methods of American life, and the country rapidly feels the increased growth of business caused by the 1,000,000 of new people who have come to our shores each year.

All of our Eastern ports are witnessing the arrival of the spring floods of immigrants, but New York has broken all her records this year as to the number of arrivals, and 1907 will exceed the record of 1906 for arrivals, and more than another 1,000,000 of active workers from foreign lands will be added to our population during this present year.

The products of their labors and the expenditures of their earnings will all go to swell the business of the country, and the 1,000,000 will, with the other millions, need to be housed, clothed and fed in the comfortable fashion that our own people are provided for. This in itself means an increase of fully 5 per cent in the general business of the country.

This year will reveal to the merchants, the manufacturers, the bankers and the transportation companies, also to the owners and builders of dwelling houses, to the local farmers and to the thousand and one tradesmen of the country the full importance of the general increase of wages by transportation lines and manufacturing establishments.

Prior years witnessed local advances in wages, or increase in special branches of business, but 1907 begins with widespread increases in nearly every branch of employed labor, and its effects will be most powerful in causing increases of business in every direction.

This present month inaugurates the higher scale of pay for all the men engaged in the commerce of the Great Lakes, and more than 20,000 families will have their purchasing power directly increased by about 10 per cent, as compared with former years.

The political party which would institute a policy that would check expansion and inflation of the currency of this country would have short shift with voters whose wages would be decreased, and with producers, whose property values would be depreciated.

The people of the United States are in love with good times and easy money.

LECTURE

Rev. A. F. Elmquist of Minneapolis will speak at the Bethany Lutheran church, Twenty-third avenue west and Third street, Thursday evening, April 25. Subject, "A Heroic Example." A good musical program will also be rendered by the choir.

EMINENT SCIENTISTS

Will Study the Volcanic Conditions of the Aleutian Islands.

Seattle, Wash., April 24.—T. A. Jagger, Jr., professor of geology at the Massachusetts Institute of Technology, is in this city en route to Alaska where he will head a party of eminent scientist who will study seismic and volcanic conditions in the Aleutian islands. Their studies will have as an underlying purpose the discovery of a means whereby the present trouble experienced in engineering where seismic disturbances are numerous will be obviated.

The party will take with them a number of powerful apparatus and a large camera. In the Aleutian islands fifty-nine volcanos have been reported, and one of them near Dutch harbor, was reported active last March. Among those in the party are Prof. H. V. Gimmore of the University of California and Dr. Van Dyke of San F rancisco. They are taking water proof silk tents with bamboo poles for use in the mountains.

CLAIM CRAIG BACKED OUT

Little & Nolte Sue for Commission on a Realty Deal.

Little & Nolte, a well known local real estate firm, have started a suit in the district court against John F. Craig, to recover judgment for $268.75 which is alleged to be due them as a commission on a sale of some of Mr. Craig's realty, alleged to have been arranged through the office of the firm.

The complaint, which was filed this morning by Crassweller & Crassweller, states that Mr. Craig is the owner of lots 9 and 10, block 17, Harrison's division, and that he entered into an agreement with Little & Nolte, by the terms of which the firm was to have sixty days from Feb. 2, last, in which to find a purchaser for the property at $5,750, one-third of which amount was to be cash and the balance in one and two years at 6 per cent interest.

Little & Noltee claim that they found a purchaser for the property under the conditions mentioned, and that he put up $300 earnest money. It is claimed that when a demand was made on Mr. Craig by the real estate firm to execute the deed, he neglected and refused to do so, also that he has refused to pay the agreed commission of $268.75, which the firm was to have received for making the sale.

PRESIDENT MITCHELL OF MINE WORKERS IS ILL.

Chicago, April 24.—John Mitchell, president of the United Mine Workers of America, is ill of a severe cold at the home of Frank Schell, a friend in this city. The labor leader came to Chicago three days ago enroute to Washington. The cold is said to have affected Mr. Mitchell's kidneys, and although he is said to have been in considerable pain alst night, his illness is not at present regarded as serious.

SPORTING NEWS OF THE DAY

ARE TRYING OUT HORSES

Owners of Speeders Take Advantage of Fine Weather.

Sport Will Certainly be Revived Here This Summer.

The owners of speedy horses are beginning to take notice of things, particularly the weather. It is just such weather as that which has been prevailing for the past few days, which sends the blood coursing more quickly through the veins of the lover of a fast horse and every day this week a number of horse owners have been out on London road putting their steeds through their paces. There are a number of good horses owned in Duluth now and to realize the fact, one has only to go out on London road any afternoon when the weather is fair. Of course, some of the horse owners do not have the opportunity to get out when they would like, but there is certain to be an array of equine beauty and speed, which will bring one to believe that, if horse racing is revived in Duluth this year, there will be some fast work on the track.

And the game is almost certain to be revived. It is in the blood of horse-lovers and it must come out. Already some of those, who have given up the game as dead here, and have disposed of their holdings in the way of horse-flesh, are beginning to cast about with a view to acquiring some animals, which will be able to hold their own with the fast ones already owned in the city and before the first race meet comes off, there will undoubtedly be some surprises sprung on the prospective winners of the money.

Lon Matthews, the Fergus Falls trainer, and a portion of the Elliott-Rundquist string of horses, will arrive in Duluth some day this week. He will stable the animals at the West End Driving park, which is now being repaired and remodeled. Just what horses Mr. Matthews will bring with him is still unknown, but he will bring some speeders with records and some others, which have yet to make their mark, but which have shown promise. Under Mr. Matthews' hand, some good racers are expected to be turned out of the stables at the local park, for he has a reputation throughout Minnesota as a trainer and driver.

There is a possibility that another trainer, with a state reputation, will be brought to Duluth to take charge of some of the horses owned here. For the present, the horse owners are content with trying out their own steeds and awaiting definite announcement as to the plans of Messrs. Elliott and Rundquist, the lesees of the park.

ENDION TENNIS CLUB WILL MEET

The Annual Gathering Will be Held Thursday Evening

W. H. Kilchil, secretary of the Endion Tennis club, has issued the call for the annual meeting, which will be held in Room 312 of the Lyceum building, tomorrow evening, at 8 o'clock. Officers will be elected, several applications for membership acted upon, and other business transacted.

The organization of the new tennis club in the normal school district will cut into the ranks of the Endion club somewhat, but there will be no trouble experienced in filling the vacancies. A number of applications are already on hand, and this evening the club will elect a sufficient number of members from them to fill the ranks to the membership limit, which will be maintained at fifty.

The members of the club practically decided to use the same grounds as formerly, and the same number of courts will be used. If the weather continues favorable for tennis, the work of putting the courts in shape will be begun, and the club members will begin play in the very near future.

LAST GAME TO LINCOLN PARK

Superior Roller Polo Players Are Badly Defeated.

The last roller polo game of the season was played at the Lincoln Park rink last night, when the rink team defeated an all-star team from Superior by a score of 15 to 0. The Lincoln Park boys had everything their own way, walking all over the players from across the bay. The game last night brought a short, but very successful, roller polo season to an end. The Northern Hardware and Lincoln Park clubs were the principal contenders for honors and the Northern Hardware, remaining undefeated, has an undisputed claim on the championship.

Last night, the teams lined up as follows:

Superior.	Positions.	Lincoln P.
Finnegan	goal	Delourie
Hagan	cover point	Mitchell
Miller	center	Robitaille
Baker	right rush	Hart
Hansen	left rush	Swanstrom

"Pneumonia's Deadly Work

Had so seriously affected my right lung," writes Mrs. Fannie Connor, of Rural Route 1, Georgetown, Tenn., "that I coughed continuously night and day and the neighbors' prediction—consumption—seemed inevitable, until my husband brought home a bottle of Dr. King's New Discovery, which in my case proved to be the only real cough cure and restorer of weak, sore lungs." When all other remedies utterly fail, you may still win in the battle against lung and throat troubles with New Discovery, the real cure. Guaranteed by all druggists, 50c and $1.00. Trial bottle free.

A CORNER IN SPORTS

Just twenty-nine men will compose the boat club squad when the shells are launched for the first time Saturday afternoon. Never before has the club been able to gather more than six or eight men together before the opening of the season and the outlook is, indeed, a hopeful one.

The only senior oarsmen who are back this year are Church, Skelton, Haroldson and Alworth. They will probably compose a senior four-oared crew, with Church stroking. Puck and H. H. Peyton, of last year's senior four, are rowing for exercise only this year, and will not attempt to stay with the crew. They are aiding in the coaching, however.

The other old men who are back are as follows: Mac McGregor, 160; Warren, 178; Rockwell, 176; Deighton, 144; Dennis, 153; Telford, 129; Talboys, 146; and Higgins, 150.

The new men and their weights are as follows: Crawford, 170; Noalfund, 175; Pierce, 166; Anderson, 167; Forgette, 165; Fahey, 215; Mac Dowell, 156; Dinham, 156; Totman, 155; Volge, 155; Nelson, 154; Walker, 154; Horak, 145; Tischer, 149; Scraghs, 147; Beach, 134, and Win, 112.

The lighter men will be tried out for the 140-pound crew, and it is believed that a regular junior eight of men weighing from 150 or 155 to 175 pounds, can be secured. The junior eight is expected to average about 170 pounds in weight.

The men are all in good condition now, and even the new men have the stroke thoroughly learned, so that the crews will begin work on the water fully one month in advance of the condition in which they began last year.

The outlook for a winning crew this year is certainly rosy, and all it needs is plenty of hard work from now on.

CURLERS WILL BUILD RINK

Reorganization of Superior Club Proposed at Annual Meeting.

The annual banquet and business meeting of the Superior Curling club was held at the Commercial club in Superior last evening and it was a merry gathering. About fifty members of the club gathered around the festive board. After the spread had been disposed of, songs, recitations, stories and toasts furnished entertainment for the guests. At the business meeting, the following officers were elected: President, P. G. Stratton; vice president, W. E. Maddock; directors, Thomas Simons, F. R. Crumpton and J. S. Gates. A secretary and treasurer will be chosen later.

The principal development of the meeting was the discussion of the erection of a new rink. Two plans were proposed—the erection of a one story building to be devoted exclusively to the uses of the curling club, and the building of a two story structure, the upper floor to be fitted out for an armory and the lower floor to be used for curling in winter and for large gatherings and conventions in summer. Both plans had their advocates, but no definite settlement was reached. It is practically certain that a new rink will be erected before next winter, however. If the curling rink alone is erected, the curling club will finance the project alone, but if the armory idea is incorporated in it, the aid of the state will be solicited.

Kodol for Dyspepsia cleans the stomach and makes the breath sweet as a rose. Sold by all druggists on a guarantee relief plan. Conforms to the National Pure Food and drugs Law. All druggists.

SEVEN SCHOOLS REPRESENTED

Another Meeting to Plan Field Meet Will be Held.

The initial meeting of the interscholastic field meet committee was held at the boys' department yesterday to discuss plans for the meet to be held in May. On account of the fact that there were but seven schools represented, the more important business was postponed until Friday afternoon. Another meeting will be held at 5 o'clock on that day, and the boys hope to have every school represented. At this meeting, Friday, the date will be set, officers chosen and other preliminaries arranged. The schools represented yesterday were the Jefferson, Washington, Jackson, Emerson, Adams, Lincoln, Longfellow.

This afternoon the following games are scheduled in the Interscholastic Baseball league: Longfellow vs. Lincoln, on Lincoln field; Washington vs. Endion, on Endion field; Emerson vs. Jefferson, on Emerson field. The games are scheduled for 4:30 o'clock, and Asher Taylor, William Eklund and Harvard Rockwell have been appointed umpires.

All members of teams in the interscholastic league will be entertained at the boys' department, Friday evening, at 8 o'clock, at an informal reception, given to enable the boys to become acquainted with each other. There will be a few short speeches, and refreshments will be served.

Day after day The Herald want columns show a procession of opportunities—opportunities to buy, to sell, to lease, to hire, to find people to work for you, to find people to work for, to find boarders, lodgers, tenants, or partners. These want ad. opportunities touch almost all phases of life and living in this city.

BASEBALL

American League.

	Played.	Won.	Lost.	Pct.
New York	7	5	2	.714
Chicago	9	6	3	.667
Cleveland	6	4	2	.667
Philadelphia	8	5	3	.625
Detroit	9	5	4	.556
Boston	8	3	5	.375
Washington	7	2	5	.286
St. Louis	10	2	8	.200

DETROIT, 7; ST. LOUIS, 4.

Detroit, Mich., April 24.—Detroit found it easy to hit Morgan and won the game in the first three innings. Score:

	R	H	E
Detroit	2 1 3 0 0 0 1 0 x	7	11	2
St. Louis	1 0 1 0 0 0 0 0 2	4	8	5

Batteries—Mullin and Schmidt; Morgan and Buelow. Umpire—O'Loughlin.

GAMES POSTPONED.

Boston-New York, Washington-Philadelphia and Chicago-Cleveland games postponed; wet grounds.

National League.

	Played.	Won.	Lost.	Pct.
Chicago	8	7	1	.875
Philadelphia	7	6	1	.857
New York	9	7	2	.778
Pittsburg	7	4	3	.571
Cincinnati	9	6	3	.333
Boston	9	3	6	.333
St. Louis	10	3	7	.300
Brooklyn	7	1	6	.143

NEW YORK, 4; BOSTON, 2.

Boston, April 24.—Both pitchers weakened toward the close of yesterday's game, but New York's hits were more timely and the visitors won their fourth consecutive victory over the locals. Score:

	R	H	E
Boston	0 0 0 0 0 0 0 1 1	2	11	0
New York	0 0 0 0 0 1 1 2 0	4	11	0

Batteries—Young and Orndorff; Ferguson and Bresnahan. Umpire—Emslie.

CHICAGO, 4; CINCINNATI, 3.

Chicago, April 24.—All the runs scored and all the hitting was done in the first three innings yesterday, both Mason and Frazer being batted freely. Mason settled down in the fourth and was hitless as was Lundgren, who relieved Fraser in the same inning. Score:

	R	H	E
Chicago	1 3 0 0 0 0 0 0 x	4	6	1
Cincinnati	1 1 1 0 0 0 0 0 0	3	6	2

Batteries—Fraser, Lundgren and Kling; Mason and McLean. Umpires—Carpenter and Johnstone.

PITTSBURG, 7; ST. LOUIS, 5.

St. Louis, April 24.—The St. Louis Nationals lost again yesterday to Pittsburg, the score being 7 to 5. Pittsburg won in the eighth inning when Abbattichio got a three base hit and the visitors were assisted by Beebe who made a balk and also let Sheehan have first base on balls. Score:

	R	H	E
St. Louis	0 0 1 0 1 1 0 0 2	5	10	1
Pittsburg	1 3 0 0 0 0 0 4 0	7	10	4

Batteries—Beebe and Marshall; Lynch and Phelps. Umpire—O'Day.

POSTPONED AT BROOKLYN.

New York, April 24.—Brooklyn-Philadelphia game postponed yesterday, wet grounds.

American Association.

	Played.	Won.	Lost.	Pct.
Columbus	5	5	0	1000
Louisville	5	4	1	.800
Indianapolis	5	4	1	.800

St. Paul	6	2	4	.300
Milwaukee	6	2	4	.333
Kansas City	3	1	2	.333
Minneapolis	6	1	5	.167

MILWAUKEE, 4; TOLEDO, 3.

Toledo, Ohio, April 24.—Armbruster's muff of McChesney's easy fly in the tenth permitted Milwaukee to score its winning run yesterday. McChesney got his second home run in two days. Both pitchers were effective. Score:

	R.	H.	E.
Toledo	1 1 0 0 0 0 1 0 1 0	3	6	3
Milwaukee	0 1 0 0 0 1 0 1 0 1	4	7	2

Batteries—Gillen and Abbott and Land; Schneiberg and Roth. Umpire—Kane.

GAMES POSTPONED.

Columbus—St. Paul, Indianapolis—Kansas City and Louisville—Minneapolis games postponed; rain.

MIKE "TWIN" GAINS VICTORY

Sullivan Wins From Honey Mellody in Fast Fight.

Los Angeles, April 24.—Mike (Twin) Sullivan was given the decision over Honey Mellody at the end of twenty fast rounds last night. At all stages Sullivan showed unmistakable superiority and outgeneraled Mellody at infighting. Mellody's tactics were confined to rushes, generally ending in clinches, where Sullivan used a right uppercut and short hard jabs to the face with telling effect.

Mellody took a world of punishment and although at several stages of the fight seemed staggered by stiff rights to the face, came back fighting.

WRESTLING AT THE MET.

Dick Johnson and George Grunsted Will Meet on the Mat.

Following the regular performance at the Metropolitan opera house Friday night, the regular weekly wrestling match will be held. The men selected this week are Dick Johnson and George Grunsted, both local men, weighing about 150 pounds. Johnson lost his match last Friday night to W. H. Beaulieu, but he is considered something of a wrestler and his friends pick him to win next Friday night and later to defeat his recent conqueror.

WINTHROP IN OFFICE.

Former Governor of Porto Rico Now Assistant Secretary of Treasury.

Washington, April 24.—Beekman Winthrop, during the last three years governor of Porto Rico, yesterday took the oath of office as assistant secretary of the treasury. He will have charge of matters connected with the collection of the internal revenue, the revenue cutter service, the selection of sites and the awarding of contracts for public buildings, the public health and marine hospital service, etc. He succeeds John H. Edwards, who also as assistant secretary, will have charge of the financial divisions of the treasury department, the bureau of the mint and the bureau of engraving and printing.

Can't look well, eat well or feel well with impure blood feeding your body. Keep the blood pure with Burdock Blood Bitters. Eat simply, take exercise, keep clean and you will have long life.

JOE GANS AS A MANAGER

Lightweight Champ Has Heavyweight Under His Wing.

Wants to Put Up "Doc" Krone Against Jeffries.

Now that Joe Gans has a pretty clear title to the lightweight championship, he wants to branch out as a manager, and "Doc" Krone, the Chicago referee, is to be the subject of his managerial activities. Gans thinks Krone is of heavyweight championship caliber, and he is anxious to bet $5,000 that Krone can deliver an anaesthetic to any of the present claimants to the heavyweight championship, not barring Jeffries or Squires. Here's a letter Gans issues, giving the challenge to the pugilistic lights:

"The general impression seems to be that I am flat broke, and that for this reason, even if the match with Harry Lewis goes through, I will ultimately have to surrender to the terms demanded by Battling Nelson. Not quite, and not yet a while.

"I will admit that I have spent quite a bunch of money unwisely and that I haven't taken care of my income as I should. It is quite true that crapshooting and policy have made dents in my receipts, but those receipts have been pretty satisfactory. As the result, I can safely say that while I am pretty badly bent, I am far from broke.

"Just as a way of showing that I still have some money, and also as a means of increasing my wad, if anyone will gamble with me, here's a proposition: I will match Dr. John Krone, the Chicago referee, who yearns to be a heavyweight, against any of the men now in the game, and will risk anything from $5,000 to $10,000 on his chances. That will show what I can do in the way of producing ready money, and will also show that I believe there's a new heavyweight coming who can make good.

"If I didn't think the big physician could deliver the goods, I wouldn't make any offers on him, for two reasons: I wouldn't want to lose my money, and Doc is too good a fellow to have walloped by anyone. I have worked with him, given him points and boxing practice and seen him perform in private, and he surely looks good to me.

"Life isn't any small proposition, but is a much bigger man than Burns or Schreck—about the size of John L. Sullivan when John was in his prime. He knows a lot about the game, and is a cool, good-humored fellow who wouldn't get rattled in the ring. I'd like to stack him up against Jeffries, just to see how he looks in action. It's my impression that he'd make a hit, and I've the money ready to risk on the proposition."

* * *

There's a boxing card up at the Auditorium in Indianapolis tonight under the auspices of the Indianapolis Athletic club, which will attract more than ordinary attention from the pugilistic world. The principal bout on the card is between Indian Joe Gregg of Spokane, Wash., and Willie Fitzgerald of Brooklyn. The boys will go ten rounds. The match is a queer proposition, in a way. Gregg must win in order to hold the reputation he has won since leaving his Washington home, while Fitzgerald hasn't much of a reputation to lose. Gregg has been training conscientiously and he is picked as a winner. If he does happen to lose, it will be back to the Puget sound country for the red-skinned boy.

* * *

Jim McQuillon, the sporting man of Boston, who took Al Delmont and Sam Langford to England, where they met Owen Moran and Tiger Smith Monday night in twenty-round bouts, in a letter to a friend in Boston says that Johnny Summers, the English fighter, who chased Battling Nelson out of London, is a wonder. McQuillon says he saw Summers fight at the National Sporting club, and that he can beat a lot of Americans.

HIGH SCHOOL TEAM IS OUT

Twenty Candidates Are Working for Places on the Nine.

With about twenty candidates chasing flies and grounders over the high school campus, under the watchful eye of Capt. Ed Cole, high schol baseball practice commenced yesterday afternoon. Work was confined to batting up flies and a little warming up, as this is about all the size of the corner lot to the northeast of the school which is graced with the name of campus, will permit.

From present indications the team will be hampered but very little by the eligibility rules this season, as only one or two candidates are said to be behind in their studies. With Earl Cummings officiating in the box, Elmer McDevitt doing stunts behind the bat, McKlKnley, Crawford, Peterson and several other good men with big reaches fighting it out for first base, Capt. Cole and Ralph Caulkins in two of the other infield positions, and a bunch of good, fast candidates for every other position, prospects for a good team are of the best. There is, according to this program, a little shortage in pitching material, and while Cummings is all that could be desired, an accident might put him out of the game and leave the team stranded. McDevitt can put them over some, however, when he has to, and Capt. Cole is hoping that some more good pitching material may develop before the games commence.

Schedule matters are still rather up in the air, but the agreement which was reached with Blaine in regard to the track meet, to be held May 25, would indicate that if it is desired, the two schools could get together on the baseball proposition. There is some talk of a permanent athletic agreement as to eligibility rules, playing rules, etc., between Blaine and the Duluth school so as to do away with all wrangling and disputes, which have preceeded almost every athletic meet between the two schools for years past. Such an agreement could be drawn up for a three or five-year term, with an optional renewal, and would be welcomed by both schools and all lovers of good sport.

A REPLY BY PRESIDENT

To Those Who Criticised His Remarks About Haywood.

Gives Them in Plain Language His Views of Their Action.

Washington, April 24.—In a letter addressed to Honore Jaxon, chairman of the "Cook County Moyer-Haywood conference," made public yesterday, President Roosevelt replied to the criticisms of his recent letter in which he referred to Moyer and Haywood, officials of the Western Federation of Miners, charged with implication in the murder of Former Governor Stuenenberg of Idaho, as "undesirable citizens." The president says he regrets any body of men should so far forget their duty to the country as to, by formation of societies and in other ways, endeavor to influence justice and he condemns what he calls their flagrant impropriety in the matter. He says that he indicated no opinion as to their guilt of the Stuenenberg murder, but that it was a simple absurdity to suppose that because a man is on trial for a given offense he is therefore to be freed from all criticisms upon his general conduct and manner of life. In my letter to which you object, I referred to a certain prominent financier, Mr. Harriman, on the one hand, and to Messrs. Moyer, Haywood and Debs on the other, as being equally undesirable citizens. It is as foolish to assert that this was designed to influence the trial of Moyer and Haywood as to assert that it was designed to influence the suits that have been brought against Mr. Harriman. I neither expressed nor indicated any opinion as to whether Messrs. Moyer and Haywood were guilty of the murder of Govern Steunenberg. If they are guilty, they certainly ought to be punished. If they are not guilty, they certainly ought not to be punished.

"But no possible outcome either of the trial or of the suits can affect my judgment as to the undesirability of the type of citizenship whom I mentioned. Messrs. Moyer, Haywood and Debs stand as representatives of those men who have done as much to discredit the labor movement as the worst speculative financiers or most unscrupulous employers of labor and debauchers of legislatures have done to discredit honest capitalists and fair dealing business men.

"They stand as the representatives of these men who, by their public utterances and manifestos, by the utterances of the papers they control or inspire, and by the words and deeds of those associated with or subordinated to them, habitually appear as guilty of incitement to or apology for bloodshed and violence.

"If this does not constitute undesirable citizenship then there can never be any undesirable citizens. The men whom I denounce represent the men who have abandoned that legitimate movement for the uplifting of labor, with which I have the most hearty sympathy; they have adopted practices which cut them off from those who lead this legitimate movement. In every way I shall support the law abiding and upright representatives of labor and in no way can I better support them then by drawing the sharpest possible line between them on the one hand and on the other hand those as representatives of those who habitually appear as guilty of incitement to or apology for bloodshed and violence. He added that he was profoundly indifferent to the condemnation of him for his criticisms of the undesirable types of citizens, regardless of the power of either labor or capital.

The letter follows:

"April 22, 1907.

"Dear Sir: I have received your letter of the 19th inst., in which you enclose the draft of the formal letter which is to follow. I have been notified that several delegations bearing similar requests are on their way hither. In your letter you, on behalf of the Cook County Moyer-Haywood conference, protest against certain language I used in a recent letter which you assert to be designed to influence the courts of justice, in the case of the trial for murder of Messrs. Moyer and Haywood. I entirely agree with you that it is improper to endeavor to influence the courts of justice, whether by threats or in any similar manner. For this reason I have regretted most deeply the action of such organizations as your own in undertaking to accept this very result in the very case of which you speak. For instance, your letter is headed Cook County Moyer-Haywood-Pettibone Conference,' with the headlines, 'Death cannot, will not, and shall not claim our brothers.' This shows that you and your associates are not demanding a fair trial, or working for a fair trial, but are announcing in advance that the verdict shall only be one way, and that you will not tolerate any other verdict. Such action is flagrant in its impropriety and I join heartily in condemning it.

"But is is a simple absurdity to suppose that because any man is on trial for a given offense he is therefore to be freed from all criticisms upon his general conduct and manner of life. In my letter to which you object, I referred to a certain prominent financier, Mr. Harriman, on the one hand, and to Messrs. Moyer, Haywood and Debs on the other, as being equally undesirable citizens. It is as foolish to assert that this was designed to influence the trial of Moyer and Haywood as to assert that it was designed to influence the suits that have been brought against Mr. Harriman. "They stand as the representatives of these men who, by their public utterances and manifestos, by the utterances of the papers they control or inspire, and by the words and deeds of those associated with or subordinated to them, habitually appear as guilty of incitement to or apology for bloodshed and violence.

"If this does not constitute undesirable citizenship then there can never be any undesirable citizens. The men whom I denounce represent the men who have abandoned that legitimate movement for the uplifting of labor, with which I have the most hearty sympathy; they have adopted practices which cut them off from those who lead this legitimate movement. In every way I shall support the law abiding and upright representatives of labor and in no way can I better support them then by drawing the sharpest possible line between them on the one hand and on the other hand those as representatives of those who habitually appear as guilty of incitement to or apology for bloodshed and violence.

"Let me repeat my deep regret that any body of men should so far forget their duty to their country as to endeavor by the formulation of societies and in other ways to influence the course of justice in this matter. I have received many such letters as yours. Accompanying them were newspaper clippings announcing demonstrations, parades and mass meetings designed to show that the representatives of labor, without regard to the facts demand the acquittal of Messrs. Haywood and Moyer. Such meetings can, of course, be designed only to coerce court or jury in rendering a verdict, and they therefore deserve all the condemnation which you in your letter say should be awarded to those who endeavor improperly to influence the course of justice.

"You would, of course, be entirely within your rights if you merely announced that you thought Messrs. Moyer and Haywood were 'desirable citizens,' though in such case I should say that, wholly without regard to whether or not they are guilty of the crime for which they are now being tried, they represent as thoroughly an undesirable type of citizenship as can be found in this country; a type which, in the letter to which you so unreasonably take exceptions, I showed not to be confined to any one class, but to exist among some representatives of great capitalists as well as among some representatives of wage workers.

"In that letter I condemned both types. Certain representatives of the great capitalists condemned me for including Mr. Harriman in my condemnation of Messrs. Moyer and Haywood. Certain of the representatives of labor in their turn condemned me because I included Messrs. Moyer and Haywood as undesirable citizens together with Mr. Harriman. I am as profoundly indifferent to the condemnation in one case as in the other. I challenge as a right the support of all good Americans, whether wage earners or capitalists, whatever portion of the country they live, when I condemn both of the types of bad citizenship which I have held up to reprobation. It seems to me a mark of utter insincerity to fail thus to condemn both and apologize, for either robs the man thus apologizing of all right to condemn any wrongdoing in any man, rich or poor, in public or in private life.

"You say you ask for a 'square deal' for Messrs. Moyer and Haywood. So do I. When I say 'square deal' I mean a square deal to everyone; it is equally a violation of the policy of the square deal for a capitalist to protest against denunciation of a capitalist who is guilty of wrongdoing as for a labor leader to protest against the denunciation of a labor leader who has been guilty of wrongdoing. I stand for equal justice to both, and so far as in my power lies I shall uphold justice whether the man accused of guilt has behind him the wealthiest corporations, the greatest aggregations of riches in the country, or whether he has behind him the most influential labor organization in the country.

"Very truly yours,

"THEODORE ROOSEVELT,

"Honore Jaxon, Chairman, 667 West Lake street, Chicago, Ill."

INVENTOR HAMMOND SENT TO AN ASYLUM.

New York, April 24.—James Bartlett Hammond, inventor of the typewriter bearing his name, and president of the Hammond Typewriter company, was committed to the psychopathic ward at Bellevue for observation yesterday, on complaint of his brother, Thomas F. Hammond. The hearing preliminary to the issuance of the committment papers was held in the street in front of the West Side court building in the presence of a wondering crowd of onlookers. Hammond was driven to the court in a cab. Word was sent to Magistrate Walsh that it would be impossible to get Hammond out of the carriage and into the court room, and the magistrate, accompanied by the court clerk and the stenographer and several court officers, repaired to the sidewalk, where the magistrate heard the testimony of Dr. Carlos F. McDonald and Dr. Coley, alienists, the brother, Thomas F. Hammond, and Manager Bryce. All the witnesses testified that Hammond was mentally irresponsible from the effects of drugs and liquors and Magistrate Walsh at once made out the papers committing him to Bellevue.

Mr. Hammond was born in Boston, sixty eight years ago.

THE DROUGHT CONTINUES.

Havana, April 24.—The drought continues and there is no cessation in the hardships endured. Everywhere in the island serious conditions are faced because of abnormal meteorical conditions. From Santiago comes a report that the source of supply of the waterworks has dried up, and that there is much suffering in consequence.

INHERITED BLOOD TROUBLES

A THOROUGH CLEANSING OF THE BLOOD THE ONLY CURE.

Pure, rich blood, free from all inherited taints or disease, contains everything necessary for the proper growth and development of the body, and for nourishing and sustaining the system with healthy vigor and strength to keep it free from disorder and disease.

"The blood is the life," and no richer heritage can be handed down to posterity than a pure blood supply. As good blood is a blessing, so in like proportion is impure or diseased blood a handicap and a misfortune, for not only is life's struggle harder, but existence becomes a burden when some inherited blood taint is continually cropping out.

Through the blood disease germs are carried from one generation to another, parents transmit them to their children, and so it goes on down the family line, spreading disease and suffering until the taint is removed from the blood. Scrofulous affections are the most usual form in which inherited blood troubles are manifested. The blood, being tainted with scrofulous and tuberculous matter, cannot supply the needed nourishment and strength to the body, and we see the effects shown in various ways. Such persons are usually pale and anaemic, their bodies frail and frequently not fully developed, and they are often afflicted with skin diseases, weak eyes, catarrhal affections, sores and ulcers, etc., and where the blood is especially vitiated the bones are affected and white swelling or hip disease makes life a lingering misery.

"Like begets like" is just as true of the physical kingdom as it is of the vegetable world, and so sure as any blood disease exists with the parent, it will be handed down to the child. This is as true of Catarrh, Rheumatism and other blood disorders as it is of Scrofula. What is commonly known as "growing pains" with children is usually the inherited taint of Rheumatism, and the little innocents are allowed to suffer because the parents do not realize that the seeds of this powerful disease are being manifested in childhood, and will in later life become a serious and dangerous trouble.

Inherited blood troubles do not always manifest themselves in childhood because of the care and attention with which the little ones are guarded in the interest of health; but when middle life is reached or passed, and the machinery of life has begun to wear out, the trouble can no longer be held in check, and declining years are made miserable because of disease.

There is but one cure for inherited blood troubles, and that is a thorough cleansing of the blood, and no medicine equals S. S. S. for this purpose. It goes down to the very root of the trouble and removes every trace of impurity or pollution, and cures blood diseases of every character. S. S. S. not only cleanses and purifies the blood, but supplies it with the rich, healthful properties it needs, and by its fine tonic effects builds up the entire system. S. S. S. is the only blood medicine on the market that does not contain a mineral ingredient in some form. It is made entirely of healing, cleansing roots, herbs and barks, and is the one medicine that can be given to children or persons of any age with absolute safety. Those who have inherited blood taints can rely on S. S. S. as a cure, and so thoroughly does it remove the cause that no signs are ever seen of it in later life. Whether your inherited trouble be Scrofulous, Rheumatic, Catarrhal or some other form of disease S. S. S. is the right remedy because it is a perfect blood purifier and tonic. Book on the blood and any medical advice desired furnished free to all who write.

J.S.LANE'S EDITORIAL

Clothes made to order by me don't plead for favor.

They don't have to.

They do not even argue.

My customers have me make their clothes for reasons beyond argument.

They know that for $30, $35 or $40 I make identically the same suits the tailors up the street soak the unsophisticated $40, $45 or $50 for.

They know the workmanship, fit and style cannot be excelled.

And they know that, unlike hand-me-down "guess fits," they are made to wear and keep their shape.

With every suit ordered I give my warrant of absolute "Satisfaction or No Pay."

Yours truly,

J. S. LANE,

217 West Superior Street.

$2450 Finely built 8-room modern home—could not be built for $3,500. Barn, chicken house; lot 50 by 100. Will pay you to look this up.

ZENITH REALTY CO.

200 TORREY BUILDING.

SHOOTING WAS PREMEDITATED

Says Assistant District Attorney in Opening de Massey Case.

New York, April 24.—In the trial of Anissia de Massey, a young French woman, charged with having shot and killed Gustav Simon, her one time employer, Assistant District Attorney Ely in opening the case of the prosecution today, said he would show that the killing of Simon was a deliberate, premeditated act. He said he would present evidence to show that there had been a quarrel between Simon and Mrs. de Massey only a few minutes before the fatal shot was fired.

Mrs. de Massey, who frequently since her arrest, has referred to herself as a baroness, had been employed by Simon in his shirt waist factory as a designer. She had left his employ a few days before, and on the day of the shooting went to Simon's office to collect $30 which was due her. Her call was made early in the afternoon and Simon told her that the money due could not be paid at that time, but would be paid at 5 o'clock when the other employes in the factory were given their wages. Angry words followed and then Mrs. de Massey left the office. The prosecution claims that she returned a few moments later and shot Simon.

DR. JOHN FULTON DEAD.

Philadelphia, April 24.—Rev. John Fulton, D. D., LL. D., editor of the Church Standard and professor of canon law at the Philadelphia Divinity school, died here today from heart disease. Dr. Fulton was 72 years old and was born in Scotland.

Top Coats.

This is the time of the year when a Top Coat is a necessity.

We have them in all lengths, at from

$12.50 to $25.

Floan, Leveroos & Co.

THE STOCKS ARE WEAKER

Coppers Somewhat Lower at Close of a Dull Session.

Both Listed and Unlisted Shares Go Off During Day.

The listed copper stocks were dull and closed a little weaker today, while the unlisted shares were fairly active. They too went off a little during the day.

North Butte opened at $86, went as high as $86.25, declined to $85.75 and closed weaker at $85.50 bid and $85.87½ asked. Amalgamated opened at $96.87½, advanced to $97, declined to $95.87½ and closed at $96 bid.

Anaconda opened at $62.50, advanced to $62.87½, declined to $62.37½ and closed at $62.75 bid. Butte Coalition opened at $26.37½, advanced to $26.75, fell off to $26 and closed at $25.75 bid and $26 12½ asked. Calumet & Arizona opened at $166 and closed at $165 bid and $166 asked, after a session of quiet.

Greene-Cananea sold higher at the opening at $16.75, declined to $16.25 and closed at $16.50 bid and $16.62½ asked.

Superior & Pittsburg sold at $18.12½, advanced to $18.50 and closed at $18 bid and $18.25 asked. Globe Consolidated sold at $14, declined to $13.50, rallied to $13.87½ and closed at $13.75 bid and $14 asked. Denn-Arizona sold at $10.25, went off to $9.75 and closed at $9.75 bid and $10 asked.

Carman sold at $3.75 and closed at $3.50 bid and $3.75 asked. Butte & Superior sold at $3.25 and closed at $3.25 bid and $3.75 asked and Copper Queen of Idaho sold at $1.50 and closed at $1.50 bid and $1.62½ asked.

Keweenaw was inactive and closed at $10 bid and $10.25 asked, Hancock at $8.75 bid and $9 asked, Warren at $7.75 bid and $8.12½ asked, Calumet & Sonora at $22 asked, Calumet & Montana at $1.12½ asked and Cliff at $3.75 bid and $4 asked. National sold at 68 cents and closed at 65 cents bid and 70 cents asked. Black Mountain sold at $5.87½ and $6 and closed at $5.87½ bid and $6 asked.

* * *

E. S. Collis has resigned his position with Holman Bros. & Co. and has taken a similar position with Walter W. Carr, who is planning to enlarge the scope of his business. A new wire to Eveleth, Virginia and Hibbing has just been installed. Mr. Carr's offices in the Manhattan building will be enlarged and remodeled in the near future.

* * *

A Boston News Bureau dispatch to Paine, Webber & Company says: "An excessive flow of water from the Thomas lode in the original cross-cut in the Davis-Daly property has interfered somewhat with cross-cutting. According to last advices the cross-cut was 25 feet in the Thomas lode ore body with no hanging wall in sight, and assays should average values in copper and silver of $15 per ton."

* * *

A Salt Lake City dispatch to Paine, Webber & Co. says: "The bottom of the Zack shaft of the Ely Consolidated is in a very fine grade of copper ore, and if developments continue to prove as favorable as depth is attained the Ely Consolidated is all right."

IOWA INSURANCE AGENT MURDERED.

Fort Dodge, Iowa, April 24.—O. H. McCaffery, general agent of the American Independent Life Insurance company, was found dead in an alley in the center of the city today. The body was lying face downward with the head half buried in a pile of ashes. McCaffery's head had a dozen abrasions and the skull was fractured. There was no money in the dead man's pockets and it is surmised that robbery was the motive. He was last seen alive about 8 o'clock last night.

CHILDHOOD'S WORST TERROR.

Dundee Advertiser: An examination of 1,500 children recently made in the West of America shows that thunder storms are by far the worst terror of childhood. Afterward, in the order set down, come snakes, strangers, darkness, fire, death, disease, wild animals, policemen, water, insects and ghosts. In the fear of rats and mice girls exceed boys in the ratio of seventy-five to sixteen. In boys fear begins to diminish after the fifteenth year, in girls after the eighteenth.

Once in a year you may find a good tenant by chance—through "happenstance." But a Herald want ad. will find him for you at the time you want him.

CITY BRIEFS

Cheap Rate.

We can save you money on shipping your goods to Western points. Call or write. Duluth Van & Storage company.

Struck By Car.

John Paulson of Cadillac, Mich., 27 years of age, and a woodsman, was knocked down by a street car at Fifth avenue west and Superior street about 8:30 o'clock last night. He was tossed to one side by the fender and escaped with bruises and scratches on his head and shoulder, and while he was taken at once to St. Mary's hospital it is thought that he will be about again in a few days.

Stole Bed Spreads.

Charged with having stolen two white bed spreads from the boarding house of Mrs. Helen Kumm, Frank Seymour was yesterday arraigned in municipal court and found guilty of petty larceny. A fine of $25 and costs was imposed with a thirty-day alternative. Seymour's arrest was made on a warrant sworn out by Mrs. Kumm.

Peddlers Jailed.

The peddlers have struck the city in force with the coming of warm weather, and two of them, Louis Cone and Leo Crystal were gathered in by the police yesterday when they were unable to exhibit a license to the questioning officers. They pleaded guilty to the charge of peddling without a license and are spending fifteen days in the county jail as a result of their negligence.

"White City" Meeting.

Duluth's amusement park, the "White City," on Park Point, will open this season some time between June 20 and 30. It will depend largely upon the weather. This was decided at a meeting of the directors held last evening at the offices of O. C. Hartman in the Exchange building. James R. Sommes, the new manager, was present at the session. B. Silberstein, of the directors, will look after some of the details of the management during the coming summer. The directors will hold another meeting in the near future.

"Tommy" Getz Here.

T. E. Getz, the well known theatrical man, is in the city after a busy season putting on shows for lodges of Elks all over the country. He will have charge of the annual entertainment of Duluth lodge, No. 133, and will go ahead with the preliminary work at once. For the past two days he has been very busy greeting his many friends in Duluth.

Court Releases Cook.

Pending the appeal of Moses Cook to the supreme court from the order of the district court discharging his writ of habeas corpus, Judge Cant has signed an order releasing Cook from the custody of the sheriff. The action of the court is based on a satisfactory bond in appeal filed by Mr. Cook.

Asks Large Damages.

Claiming that the foreman employed by the Geebie Steam Boiler Works of this city gave him a flogging hammer that was defective and that the sight of one eye has been destroyed by reason of a piece of steel that flew off the hammer while he was at the work of expanding some boiler flues near Bovey last January, Roscoe Bryan has instituted an action against the company for $50,000 damages. Bryan claims that he was inexperienced at the work and that he did not know the danger attending the use of a defective tool.

Butcher Wants Damages.

Herman Tetzlaff, a meat dealer at Buhl, Minn., has started a suit against the Great Northern Railway company for $400 damages. He claims that his delivery rig was run down by a train on the railway company's right of way, the horse being injured so that it had to be killed and the wagon demolished. Mr. Tetzlaff claims that the company is responsible because of the alleged neglect in providing cattle guards to keep horses and other animals off the right of way.

Petition in Bankruptcy.

A voluntary petition in bankruptcy was filed in the United States circuit court yesterday by Annie Fontak, owner of a boarding house and saloon in Bovey, Itasca county. The liabilities are given as totalling $7,387.21, of which $5,992.38 is in secured claims, $1,212.83 in unsecure claims and $182 in taxes on real estate. The assets total $8,738.75, of which $8,400 is claimed exempt. The largest creditor is the Fitger Brewing company, with a claim of $4,500 secured by a mortgage on property of the petitioner in Bovey. The unsecured claims are all in small amounts.

Claims Timber Trespass.

Gustaf Ruhanen has sued Daniel Haley for $12,060 damages for alleged timber trespass on lands alleged to be owned in fee by the plaintiff. The amount represents treble the alleged value of the timber claimed to have been taken.

Former Pastor Coming.

Rev. A. F. Elmquist, formerly pastor of the Bethany Lutheran church, now of Minneapolis, will be in the city tomorrow and tomorrow evening, he will preach at the church, of which he was formerly pastor. His subject will be "An Heroic Example."

PERSONALS

Mr. and Mrs. W. D. Bailey have returned from Asheville, N. C., where they were the guests of Mr. and Mrs. J. L. Washburn. Mr. Washburn is now in excellent health and will return to Duluth about May 15.

W. A. Epperson, son and daughter, of Brookston, Minn., are visiting friends in the city.

Mrs. E. M. England of Bemidji is in Duluth for a short visit.

Mr. and Mrs. David Lawnnie and son of Two Harbors, are visiting friends here for a few days.

Mrs. C. W. More and Miss Ellen Ericson of Eveleth are visiting friends in Duluth today.

Mr. and Mrs. H. H. Dermer of Eveleth are in the city today.

Mr. and Mrs. P. E. Dowling of Eveleth are in Duluth today.

Mr. and Mrs. W. H. Blake of Two Harbors are in the city today.

Mr. and Mrs. W. M. Carlin of Floodwood, Minn., are in Duluth today.

D. McMahon of Aitkin is in the city on business today.

N. B. Shank of Biwabik is in Duluth for a few days.

Mrs. F. S. Colvin and Mrs. William Carmichael of Biwabik are visiting friends in Duluth for a few days.

Carl H. Ehle of Hancock, Mich., arrived in Duluth today to spend about a week with friends.

Mr. and Mrs. L. J. Hopkins and children have returned from Florida, where they spent the winter. They will leave in a few days for Chicago, where they expect to make their home.

C. O. Flynn left today for Massena, N. Y.

Mrs. C. W. More of Eveleth is at the Spalding.

PURE FICTION, SAYS CANNON

Concerning Story Sent Out About Illinois Politics.

Washington, April 24.—Speaker Cannon, who arrived in Washington today from the West, was very much surprised to hear of the report that he had made an agreement to deliver the Illinois delegation to the Republican national convention to Vice President Fairbanks. He said:

"The first I knew of such a meeting was on my journey to Washington this morning when I received the Washington papers. I do not know what enterprising correspondent wrote and sent that dispatch. I believe, however, that some one had orders during this dull season to furnish something for the papers. No such conference was had or thought of at any time. Our people in Illinois are exceedingly busy attending to the ordinary affairs of life.

Some time during the latter part of next winter or spring, no doubt the Republicans of Illinois will select a delegation to the Republican national convention, but no attention so far as I am informed, and believe, is being paid to the matter at this time. We are not in the habit of crossing a stream before we get to it, almost twelve months off. It would be a bold man who would agree to deliver the Illinois delegation to anybody, and anyone in public life will be not only a bold man who would so agree, but would draw a prize, if one was offered, for being a foolish man.

"I might add further that on my way East to attend the Jamestown exposition I was detained at Indianapolis for a few hours, and, as has been my habit for many years, I called upon the vice president. It has been his habit for many years when in Danville to call upon me. If I should be in Indianapolis in the future and could possibly spare the time, I expect to call upon him again. I may go further and say I always call upon the president when I come to Washington, and upon many other men in public life. In conclusion, I did not intend to say a word touching the production of the enterprising correspondent who sent that dispatch. I would not have done so had not this fiction been accepted as sober truth and had not the Associated Press called and asked me to say a word touching upon the same."

LIKE OLD RIVER DAYS.

Caleb Mix Sees Ghost of Veteran Join in Game.

"I seen a thing t'other night," said Caleb Mix, the veteran bartender on the Mississippi river packet City of Natches, 'that sure made me think I was 20 year old again. 'Peared like they must 'a' be'n ghosts 't was playin' poker that night, they was such dead ringers f'r the players o' th' old times.

"First off, there was four on 'em got playin' a dollar limit game in the saloon, 'long about a bour or so a'ter supper. 'Tain't most gen'ly 't poker's played at all in the saloon nowadays, an' I wouldn't 'a' be'n none surprised 'f the old man had stopped it, but he didn't. He just come an' looked on f'r a few minutes, bein' as he al'ays keeps tabs tol-able clost on any doin's they is on the boat, but he seen't three o' the four 't was playin' was sporty chaps f'm New Orleans 't was well able to take care o' themselves, besides bein' tol'able well to do, so he wa'nt no ways troubled about them bein' did up, 'special as t'other player was a cross roads gambler f'm Arkansas 't had a heap more lack o' principle nor he had skill. If there was anybody liable to suffer in that game it was Hank Joslin, the same bein' the gambler. The other three was two planters, name o' Gorman an' Davis, an' a cotton factor, Perkins.

"Bein' 'twas a quiet night, an' the old man had be'n up all the night afore, I reckon he turned in; anyways, he didn't show up in the saloon again f'r a matter o some two or three hours.

"I brung 'em a couple o' rounds o' drinks early in the game, an' I looked on f'r a few minutes, like the old man'd be'n doin', an' I didn't see nothin' interestin', no more'n he did. They was just a-peggin' along, nobody doin' nothin' much, so I come back to the bar an' laid out I was goin' to have a quiet night.

"Mebbe they'd be'n playin' a hour or more when my nigger come into the bar an' says, 'Marse Mix, d' you know Sim Pettigrew was abo'd de boat?' 'No,' I says, wakin' up sudden, f'r Sim Pettigrew's likely the best short card player on the river today. 'How'd you know he's abo'd?'

"The nigger grinned, an' he says, 'I just seen him comin' outen his stateroom.' I reckon hemust 'a' got abo'd at Vicksburg an' went to sleep. Nobody hain't seen him since, but he's out in de saloon now, sho' nuff.'

"Then I think o' that little dollar limit game goin' on into the saloon, an' I takes a walk, just nachally cur'ous. Sho' nuff, there stands Sim Pettigrew lookin' on at the game an' not sayin' nothin'. It was then when I seen him 't I thinks o' the ghosts.

"He looked 'xactly like them nice gamblers 't was plenty in the old days, bein' tall an' thin featured an' dark, with his hair long enough to touch his coat collar, 'n' shoulders 't looked a yard wide. He wore a long tailed black broadcloth frock coat an' a broad-brimmed felt hat an' patent leather shoes, an' his collar was a wide turndown, an' tied with a black silk han'kercher, with a blazin' big diamond in his shirt front.

"'Peared like the hull business were a dream, an' I kind o' looked for to wake up an' laugh at my own self. Here was a truly poker game goin' on in the saloon, with one p'fessional settin' in a-ready an' another lookin' on an' 'xpectin' evident for to take a hand. An' the three spo'ts was the same sort o' men 't used for to keep the p'fessionals in spendin' money.

"Well, Joslin, he looked up a'ter a spell; like he'd just took notice o' Pettigrew bein' there, an' he says kind o' careless, 'This yere four handed game's kind o' slow, don't you reckon? Mebbe the gentleman 'd like to take a hand?'

"O' course, that wa'nt what was to be looked for usual 'thouten Joslin an' Pettigrew was pals, f'r no dog 't's got three or four bones to gnaw on his own self's goin' to ask another dog to set in an' gnaw with him, not willin', he ain't. I didn't reckon Pettigrew was no pal o' Joslin's, bein' as they wa'n't in the same class, so there wa'n't on'y two ways to look at it. Either Joslin was comin' to see 't he'd bit off more'n he c'd chew an' felt he'd got to have help or else he was wishin' for to get in with Pettigrew.

"Well, you'd 'a' thought Pettigrew was some sort of a king to see the pompous way he looked at them four. 'If the gentlemen are entirely agreeable,' he said, as polite as you please, 't would certainly give me pleasure to join yo' party.'

"It looked to me 't Gorman an' his friends seen right away 't Pettigrew was a p'fessional, but they knowed Joslin was one, too, an' they didn't 'pear to be none skeered. Gorman says 'A five handed game sure is a heap better'n four handed, an' I reckon we'd all be pleased to have the gentleman set in.'

"So Pettigrew, he thanked 'em, with a bow like a dancin' master, an' took his seat. He flashed a hundred bill an' ast me f'r chips. I was just goin' to bring 'em when Gorman says, 'I reckon you mought bring me some more, 'an they all coughed up more money, seein' they hadn't nobody bought more'n fifty afore that.

"The game is table stakes, I p'sume,' says Pettigrew, very ceremonious, an' Perkins spoke up, quick. 'We've be'n playin' dollar limit,' he says, 'but I reckon we're all of us tired o' that.' Then Pettigrew says, 'Don't let me interfere with your game,' an' they all said tables stakes was what they was lookin' for. Somehow, the way Pettigrew spoke, they all 'peared to think he'd get up an' leave the table contemptuous like, if they stuck to the limit, an' anyway, I reckon they was all warmed up enough to want somepin' more lively 'n what they'd had.

"They was in for a hundred apiece, an' the game started up again with Davis dealin', an' a fifty cent ante on the board. Pettigrew had first say, Perkins havin' the age, an' he throwed down his cards, but Gorman an' Joslin came in, Davis dropped an' Perkins raised it a dollar. Gorman trailed an' Joslin made it five more. O' course, that were the first play o' that size 't had been made, an' they looked serious, but Perkins seen the raise.

"Gorman hadn't peared to be none too confident when he seen Perkins's first raise, an' the second one was too much for him, so he dropped an' Davis picked up the deck. Perkins called for two cards an' Joslin stood pat, so 'twa'nt none so s'prisin' 't Perkins laid down when Joslin bet ten dollars. It mought 'a' been a bluff, but if 'twas it'd been worked up tol'able well.

"Pettigrew didn't say nothin', but when Perkins begin to deal he anted a dollar, call two. It were rushin' the gUame, but there wa'nt no 'jections. 'Peared like there was some hands out, too, f'r everybody stayed, an' when it cUome to Pettigrew again he h'isted it five, an' even at that they all stayed but Davis, on'y there wa'nt no second raise.

"On the draw Pettigrew stood pat, Gorman took one, Joslin two an' Perkins one. 'Peared like there was chances o' Pettigrew bein' dld up, but he set like a brass dog.

"Gorman bet ten dollars, like he'd filled his hand, an' Joslin come in, not raisin', but 'pearin' to be willin' to do anythin' Pettigrew mought have need o' bein' did. It made he tol'able clear in my own mind 't him an' Pettigrew was standin' in, but o' course I didn't know whether they'd framed it up aforehand or whether they'd signalled to one another when Pettigrew come 'round.

"Perkins trailed an' Pettigrew made it twenty more. Then Gorman looked at his cards again, very careful, an' 'peared to be about to h'ist it again, but thinkin' better o' that he just trailed. That give Joslin his chanst, an' he h'isted it ten, o' course givin' Pettigrew another play if he wanted it.

"'Peared Perkins must 'a' filled somepin' on his one card draw, f'r he trailed, even after the second raise, an' Pettigrew shoved his hull stack up.

"Gorman 'peared to think he'd have to call, an how, an' he did, but o' course Joslin couldn't do no more good, so he droped, an' Perkins throwed his hand in the discard. On the show down Gorman flashed a ten full, but Pettigrew had four sevens.

"O' course, bein' it was Perkins 't dealt 'em to him there wa'n't nothin' suspicious about that, but it sure did look queer f'r a p'fessional to hold the mcards that early even if he hadn't had no chanst o' handlin' the deck. They looked at one another sort o' queer an' Pettigrew seen it, but he didn't give no sign. He just laugher, kind o' careless, an' says 'Looks like my luck was comin' too early in the game for to be just healthy.'

"Pettigrew dealt an' played as deliberate an' accurate as if he was measurin' tape, an' they couldn't find nothin' out o' the way f'r a full hour. O' course, him an' Joslin was winnin' an' the others was losin' till they'd all bought four or five times an' there was a consid'able heap o' money on the table, but nobody hadn't found fault, bein' as they couldn't.

"Bimeby there come a tol'able big jackpot an' Pettigrew dealt. He had a new deck, f'r they'd called f'r fresh cards a dozen times, an' I'd carried the old ones away every time. Davis opened for the size of the pot, an' Perkins an' Pettigrew an' Joslin stayed, Gorman foldin'.

"On the draw Joslin took one card, Davis stood pat, Perkins took three an' Pettigrew one. Then Davis bet a white chip an' Perkins trailed. Pettigrew bet fifty an' Joslin made it a hundred. Davis didn't say nothin' but he shoved his stack in, an' I seen his lips tighten. O' course they couldn't raise him no further, an' when Perkins dropped Pettigrew just made good on Joslin's raise, makin' a trifle o' side money if Davis should lose.

"Then Davis showed down a king high flush, an' Pettigrew a ace full. Joslin's was a busted flush, showin' crooked play or a big bluff. But just as Pettigrew was reachin' for the pot I saw Davis give Perkins a nudge with his left eloow while he was pullin' a knife. Perkins was quick as a flash, an' while Davis's knife was goin' through Pettigrew's cards, nailin' 'em to the table, Perkins's gun was out, with the muzzle in Pettigrew's face.

"Then Davis says, cool as a cucumber, 'Gorman, just count the rest of the deck, will you?' So Gorman gathered up all the cards what wasn't nailed down with Davis' bowie, an' he finds forty-eight of 'em. Then he looks through an' finds two aces, one bein' a club like one o' Pettigrew's three.

"Then Davis says to me, 'Cale, fetch us the last deck we had o' this pattrun,' an' I goes to the bar to get it. All this time Pettigrew set still, sayin' nothin', an' Joslin, arter makin' one start like he was goin' to draw, set still too.

"Just nachully I send my nigger to call the old man, an' I takes my time gettin' the cards. An' when I do get 'em I don't get the last deck as was used, bein' as there's on'y fifty-one cards in it, but I get one they had half an hour afore. So when I gets back the old man is just comin' into the saloon, an' when they finds there ain't no evidence o' that extry ace havin' come f'm another deck, Pettigrew speaks up for the first time.

"He says, 'I take it you don't intend for to murder me on account of a foul deck. O' course that deal goes f'r nothin', but I ain't to blame f'r there bein' five aces in a deck I never seen afore.' An' Davis was obliged to own up 't he wa'n't, an' Perkins put away his gun.

"Then Pettigrew stood up, bold an magnificent, an' he says, 'I take it, o' course, 't you're willin' to give me satisfaction.' An' Davis says he can't refuse, so they'd a' had it out right there, on'y f'r the old man. He told 'em they wouldn't do no fightin' on his boat, so they made it up to go ashore at Vicksburg.

"They all four got off there next mornin', but I hain't heer'd what they did there."

PRINCE WINS NOVEL WAGER.

London Mail: Gambling has always been a favorite occupation of the sons of royal houses, but none of them probably has ever exhibited so much wit and ingenuity in his betting as a foreign prince did at his stay in Paris.

He laid a heavy wager with a member of the Imperial club of the French capital that within two hours he would be arrested by the police without committing any offense or provoking the officers of the law in any fashion. Accordingly, having clothed himself in rags of the most disreputable appearance, he walked into one of the most aristocratic restaurants in the city and ordered a cup of chocolate. The waiter refused to serve him unless he showed evidence that he could pay. The prince at once drew a roll of bank notes from his pocket and offered one of large denomination to the astonished attendant. The latter took the bill and carried it at once to the proprietor, who sent for the police, in the meantime allowing his strange guest to be served.

As soon as the authorities arrived they arrested the incognito scion of royalty and took him to the nearest station, where, of course, he was released after he had disclosed the facts of the affair.

OUT TOMORROW

HERALD INDUSTRIAL EDITION

The story of Duluth's Wonderful Progress Fully Illustrated.

Will be on Sale at all Newsstands and at The Herald Office.

TWO CENTS PER COPY

"Odd Things Not Found Elsewhere."

Gifts for the Bride!

No matter how little or how much you want to spend you will find suitable articles here in the lines of Jewelry, Silverware, Glassware, Etc.

French & Bassett DULUTH, MINN.

SPECIAL SALE OF DRAPERIES

We want you to visit our linen and drapery departments whenever you want the best for the least money. Without exception you will find these departments most complete—the newest, the nicest, the best and at prices that will save you money—lace centerpieces, doilies, table cloths, napkins, towels, etc, are marked at from 10 to 20 per cent less than you are asked in other stores.

Our assortment in every line is larger and more complete than you will find in other stores—to prove this we ask you to visit our drapery and linen departments

We will gladly take measures and give you the very lowest estimate on first-class shade work. We use only high grade material and the best Hartshorn Shade Rollers. Our estimates are free.

WE DO ONLY THE BEST WORK.

For the balance of this week we have arranged some big special values in our drapery department. Every housekeeper knows the artistic value of proper draperies and handsome curtains—they make the room. A home does not seem complete or finished without pretty curtains, artistic door draperies, nice table linen, etc.

Don't miss the values we have prepared for you—you can easily afford it as our gradual payment plan is here for you to use.

100 Pairs Sash Curtains.

A splendid brand new lot of Sash Curtains—very handsome patterns, extra quality—1½ yards long, of hand-made Cluny and Battenberg lace—two styles and qualities—at—per pair..... ***50c, 75c***

Portieres and Door Draperies

These are in one pair lots only, but they are splendid values—very attractive patterns and good heavy quality. They sell regularly at eight, ten and twelve dollars a pair. To close the one-pair lots out, we put them on—at..... ***Half Price***

Couch Covers

A splendid new line of Couch Covers, in exclusive art loom patterns that have all the style and beauty of very expensive covers, but do not cost so much. There are extra wide covers—three yards long and go on sale at these prices, ***$1.50, $2.50, $3.50, up to $12.***

Ruffled Net Curtains

A large shipment of new Ruffled Net Curtains, wide, fluffy ruffles and exceptional values—extra width curtains. A splendid curtain for bed rooms or dining rooms. Other stores ask you $1.25 for a similar curtain. Our price—per pair—is only..... ***45c***

WE ARE BETTER PREPARED than ever to execute your special drapery work. We have an expert drapery man of 18 years' experience. Nothing leaves our work rooms unless it is right. We will gladly furnish you with estimates on any special work.

EVERYTHING HERE UP TO DATE.

In selecting our goods we exercise the greatest care to buy only those fabrics which will give good wearing value. Those are made up in the latest styles (and fit guaranteed), at almost the same price you would pay for an inferior piece of goods in a ready-to-wear suit.

FERRY FOR TEAMS!

Makes round trips hourly, 7 a. m. to 6 p. m. from foot of Garfield Ave. to Tower Bay slip. Daily except Sunday.

JEFFERY BROS., PROPRIETORS.

Do You Want Your Carpets and Rugs Cleaned Properly?

We clean them on the floor, if so desired. A specialty of cleaning Oriental Rugs. Have just completed the Wolvin building.

CONCERNING WOMEN

"I would like to see some plain, linen tailored shirtwaists," said a woman a few weeks ago. "Perfectly plain, you know, with only a few tucks and pleated frill down the front."

"This," said the obliging young saleswoman, "is a very nice model, and it's only $8. Three of these little waists would keep you supplied for the mornings."

"Eight dollars is quite a lot," said the shopper, "and anyway I never can buy anything ready made that fits me in the neck."

"Why, I'm sure—" began the saleswoman.

"Oh, I know the waist is all right," said she on the outside of the counter, "and that the fault lies wholly with my neck, but I've been massaging for the last six years, and I can't make it fit a waist that costs $3 just to wear in the morning. I guess I won't bother getting any today," and she wandered off.

Presently she hied herself to a dressmaker's. "How do you do," she chirped, and when the response was told in detail, she continued, "I want some shirtwaists made. Just perfectly simple ones, you know, kind of tailored effect. I think I'll get linen, and I want about three made first."

"Yes, indeed," said the dressmaker. "Let's choose the style," and they devoted three hours to that pleasant pastime. The model was chosen and the amount of cloth necessary was decided upon. Just as she was departing the woman in search of shirtwaists said, "And now, when may I have them?"

"Well," said the dressmaker, in a ruminating way, "I'll try hard and let you have them for the Fourth of July. You'll probably want to go to a picnic, or something, and I'll try to let you have them by that time."

"The Fourth of July shrieked the victim, "Why, I haven't a thing to wear—not a single, solitary thing. I can't wait that long.

"Oh, very well," said the dressmaker, briskly. "I'll not save the time for you then."

"The tragic import of this true narrative has been reached. This woman who will not learn by experience, cogitated thusly: "Now, it's perfectly ridiculous for me to pay a big price for waists, and I can't wait so long. I'll make them myself. I shall buy a pattern and the cloth, and I wouldn't be surprised if they didn't cost more than $2 or so, which is a great saving, and then, besides, they are only white waists."

Alas!

She bought the pattern, and then the goods, and with a business-like air, and a pair of scissors, she went cutting out the first waist. The directions were exceedingly explicit.

"Lay the pattern, with the double perforations, on a crosswise fold of the goods (there doesn't seem to be any crosswise to this goods, and the pieces with the single notches, so that in sewing the single perforations may come on a line with the lengthwise fold along which has been laid the pattern with the triple perforations. Baste up the shoulder seems and try on. Make any needed alterations. Face the side front with a lengthwise piece of the goods, and finish with stitching." Thus said the pattern.

The woman held her head for a minute. "Now, it's perfectly ridiculous not to understand those simple directions," said she. "I'm sure it's exceedingly simple when you once get the hang of it. Lay the pattern with the double perforations—there are so manny of those pesky perforations and here are some with three on one side and two sets of two on the other. It's very confusing," and she dug both hands deep into the marcel wave of her hair. She took them out presently and went at it again, and in the course of events, got so far as basting up the shoulder seams. Then she tried it on. A friend happened in.

"What are you trying to do?" asked the friend.

"Make a shirtwaist," said the woman with dignity.

"I hope you're not planning to wear it any place where people know you," said the friend. "It looks kind of queer."

"Oh," cried the woman who was trying to be model to herself and pin up the back where it needed it. "Don't sit there and talk. Tell me what's the matter with the awful thing. I laid the pattern with the single notches on a lengthwise fold of the goods, and I basted the side front to the piece with the triple perforation and I——"

"Well, never mind. Put on your best hat and some powder on your nose and let's go to the matinee. You can stop on your way down town and order a couple of ready made waists, they have some beauties, just got in, and it's really more reasonable in the end and later on you can have a woman in for a day or two and finish up these waists. Hurry or we'll be late."

"But I don't see," sobbed the discouraged one, "why it didn't come out all right for I laid the pattern with the double perforations——"

"Oh, forget those awful perforations," begged the friend.

"On a crosswise fold of the goo——"

"Nobody knows anything about paper patterns but a person who understands geometry and calculus thoroughly, and anybody that knows that, you know, has no use for anything so domestic as a paper pattern. Put your hat a little more to the side and don't look so woe begone, and do hurry."

"But I can't understand why, for I put the pattern with the triple perforations——"

"I know what I'd say if I were a man," said the friend. "It signifies an awful hot place and the shock of hearing it said would probably induce you to change the subject."

"t least," suggested she of the pattern episode, with dignity, "don't be vulgar."

Dancing Party.

The Elks will be hosts at a dancing party Friday evening of this week, the affair to be given at their hall. Thursday evening about fifty of the local members will form a theater party to attend the Elk Minstrel show at Superior. They will leave on the 7:30 train from this city.

Meet Tonight.

The Evening Art History class of which Mrs. Robert Morris Seymour is leader will hold the last meeting of the year at 7:30 o'clock this evening at the club room of the library.

Birthday Party.

Mrs. W. J. Ferguson entertained at a delightful children's party last evening from 5 to 8 o'clock in honor of the tenth birthday anniversary of her little son, Bernard, at their home, 807 East First street. The affair was enjoyed by the following little guests:

Misses—
Helen Zuger, Helen Dryer,
Mary Kennedy, Ethel Harding,
Margaret Hough, Eleanor Kraft.
Masters—
Walden Hough, Robert Zuger,
Forest Harding, Stephen Willcox,
Hunter Towne, Clinton Johnson.
Howard Zukforth,

Honor duLhut.

The regular meeting of the Greysolon duLhut chapter of the Daughters of the American Revolution in commemoration of Greysolon duLhut, the founder of the city, was held yesterday afternoon at the home of Mrs. W. W. McMillan of 1016 East First street. In response to roll the names of pioneer Duluthians were spoken. The history of the opening of the Duluth canal was given by Mrs. J. H. Darling, and a portion of the famous Proctor Knott speech was read by Mrs. Julia Barnes.

The members of the society voted $50 for the Y. W. C. A. fund and after the regular meeting an informal social hour was enjoyed.

Personal Mention.

Mr. and Mrs. B. Murray Peyton will leave tomorrow for a two weeks' visit in Virginia.

* * *

Mrs. A. W. Ryan is visiting friends at Berlin, Wis.

* * *

Mrs. William Norton is visiting friends at Chicago.

What Retail Markets Offer.

Canned pineapples, 30 cents a can.
Green onions, 3 bunches for 10 cents.
Ben Davis apples, 60 cents a peck.
Head lettuce, 15 cents a head.
New carrots, 10 cents a bunch.
Potterhouse steak, 25 cents a lb.
Hamburger steak, 12 cents a lb.
There are no green apples in the market.

Fond as you may be of that exquisite combination of delight, a green apple pie, you can not enjoy it for some weeks to come. The green apples, in that vivid, lucious, first green of spring are not even suggested by anything that is in sight and the market man kind of hesitates and drawls out that "They'll be along bye and bye." He doesn't know when and nobody can be found who remembers what time it was last year when the green apples came to the market to bring joy unbounded to the hearts of those fortunates who ecstatically lived for some days on green apple pie, in anticipation, consumption, and retrospection.

It will not be yet, but those who are tired of the market in its present variety will hope that it will be soon.

How to Reduce Hips *and* Acquire Smart Figure

By MARGARET MIXTER.

The continuance of empire fashions make it necessary for women to get their figures into condition to wear these models, and as the long, clinging lines of these gowns do not set well over large hips, persons who have superfluous flesh or flabby muscles should effect a change by a systematic course of exercises.

Some excellent movements for the reduction and the strengthening of sinews may be taken by placing the heels together, turning the feet well out at as great an angle as possible, keeping the body erect and the chest expanded, with the head up. Then by slow degrees bend the knees, spreading them as far as possible as the body sinks to a sitting position, and in doing this the heels must be raised, the whole weight of the body coming onto the toes. Of course, a heavy figure would find a difficulty in this at first, but everything comes by practice, and these are excellent manoeuvres to establish a balance and give elasticity of movement to those who have passed their first youth. Then, still balanced on the toes, rise erect and lower the heels flat to the ground; repeat this over and over again, say a dozen times.

To make a change, raise the arms and wave them over the head as the body sinks, allowing them to drop at the sides as it rises. As the exercise becomes easier by practice, repeat it a great many times, and, even if the muscles seem tender afterward, a cold bath and ample self massage will soon do away with the soreness. More difficult is the second exercise. Stand facing a wall, the arms stretched out straight in front, and the feet extended as much as you can to retain the balance, the arms horizontal. Keep the hands ten inches apart, and let the elbows droop as the body is tilted forward, the palms against the wall, fingers up. When the chest and ribs rest again the wall between the hands the heels should be kept flat; indeed the more the figure rests against the wall the more efficacious is the exercise likely to be, stretching the muscles of the hips and dispersing the fat, which yields to such active exercise. Pressing the hands against the wall the while, the figure is raised to an upright position, and then the exercise is repeated, being careful not to become over tired.

It is good for the reduction of size to keep the knees stiff. The figure is bent forward till the tips of the fingers touch the floor. In time the size of the hips must yield to such exercise. To produce a slender figure it is a capital plan to bend in the same way sideways. It makes the figure supple as well as slender. All this should be done for half an hour every morning, and when the size of the hips sensibly diminishes, the pursuance of the exercise keeps the body in good condition; but over-fatigue must be avoided.

Some of the new corsets, of course, aid in adapting the figure to dimensions demanded by fashion. The newest are very long, as though corsetieres thought all women were too large and needed to be held in. Many lace in both back and front, and some models fasten at either side of the front, and are without lacings in back. These are for very stout women.

The curious extreme of princess and Empire have made two different models of corsets popular, and it is for that reason both extremely long and extremely short varieties are to be seen. But, even for Empire, a stout woman will need a long corset and reduction exercises.

Blakey's Telephone

By Roscoe Gilmore Stott.

(Copyright, 1907, by Joseph B. Bowles.)

It was just a year ago that the Pipeville Telephone company put in a "party-line" out through Union township, and though it came after repeated petitions, it proved a more surprising benefit than any of us dared hope or dream.

Indeed, it never got so far as my own farm, but almost every day I happen up to Blakey's for my mail, and as we sit around we learn lots about "party-lines," and Owen Peters, the farmhand over at Pendleton's, says he never did have so blamed much fun. It takes just nine quick rings to get old Blakey himself to answer, for he turns in pride to a red-covered directory, which announces in bold type:

"Blakey, J. S., general merchandise—9 rings on 41."

But any less number will arouse one of us—there is a certain fascination in not being expected as an audience.

But this brief story has only to do with young Sibert, who comes to preach in Union church every Sunday, and the fateful code of "3 on 41." And now, if you happen into Blakey's and ask for a genial story round his big, unbacked stove, no doubt one of us would rehearse once more the telephonic episode in the courtship of "Preacher" Sibert.

One day, after Ed Smiley had generously passed around his plug, our eager ears heard three rings, and we were at once attention. Owen Peters stepped to the telephone, and it is my honest conviction that some six or eight in Union did likewise.

"It's Preacher Sibert," whispered Peters, and we hurriedly gathered around the 'phone, for Blakey's is the best on the line.

"You looked like a blushing rose—indeed you did!" we heard a ministerial voice grandly assert.

"I always like to look pretty for you, Brother Sibert," came a soft feminine voice.

"Mush!" whispered "Doc" Farley, and we strained our ears the more as Peters held the receiver in midair.

"Next Sunday I have chosen 'Love' for my theme."

"Oh, how nice!" again the feminine response. "Do plan to stay to dinner with us. Do you know, all of us just love your sermons!"

"Bessie Baker never went to church twice together in her life," whispered Ed Smiley. Ed was in a position to know—he generally drove her over in a very narrow buggy.

"You are good to tell me that I please you, Miss Bessie—er—um—er rather my sermons do." The masculine voice had become markedly more tender, and we scarcely could hear.

"I am so glad you think I am a rose, Brother Sibert—er—er—I mean like a—a—rr——rose—Sunday!" She finished in much confusion; so much, in fact, that big, rough "Doc" Farley failed to control himself, and broke into a roar of laughter, in which we could but join.

"Click, click!" came over the line. And we took it to mean that two angry lovers had just discovered they were overheard.

For three days most of us surrendered cheerfully any idea of work, and hopefully spent the hours in happy anticipation of another "party-line comedy," as the more literary Blakey called it. Jake Green, who keeps the feedstore at Hank's Crossing, said it was better than Smiley's phonograph.

It was late in the afternoon of the third day when the coveted three rings sounded along the line. I jumped nervously to the telephone, and cautiously took down the receiver.

"Hello! old Fiddlesticks!" came the self-same feminine voice.

We looked aghast at each other.

"I called up to ask the price of wheat."

Yes, it was surely the same preacher and the same Bessie Baker, but this was all so unlike the blushing rose and lovely sermon conversation.

"Wheat is even higher than yesterday, Mr. Fiddlesticks—about 88 cents a bushel."

"And is the sky blue over Union today?" asked the masculine voice, gently.

"It was a little cloudy, but the sky is truly clearing up wonderfully now."

"I came through a drizzling rain to Blakey's an hour ago," savagely declared Ed Smiley.

"And will you expect to darn again tomorrow?" sweetly questioned the country parson.

This was the last straw calculated to break any camel's back; the preacher urging darning on Sunday afternoon! Today was certainly Saturday by Blakey's never-failing calendar.

"You bring your knitting," she responded, hospitably, "and we will do some new patterns."

"It is a code!" whispered Owen Peters, triumphantly, as if awakening from a dream.

We put the receiver on its hook and began to figure it out.

"I see through it like a book," continued Owen, when we were seated. "The 'price of wheat' meant, I reckon, 'how much do you love me?'"

We nodded with enthusiasm.

"Well, '88 cents must o' meant a darn lot," put in Jake.

We laughed.

"Blue sky' sounds to me like 'are you happy, pet?' and I calculate the knittin' part meant something about linkin' hearts."

We gave a rousing cheer, which pleased him mightily.

In a day we had plans perfected, and came once more to Blakey's. I had been chosen to impersonate the Rev. Mr. Sibert, and we called for "3 on 41."

"Is it you, Fiddlesticks?" questioned Miss Baker.

"Yes," I answered gravely, amid a shower of winks. "I call—up to ask how much rope to give the old cow."

This at once perplexed her. Surely they had never planned anything concerning cows!

"Eighty-eight feet?" she murmured, questioningly.

The boys suppressed laughter with bandanna handkerchiefs.

"And will Mike Mather's blind horse live until morning?"

We heard her gasp.

"It is partly cloudy, but getting clearer." This time a sob of anxiety came also along the line.

"Well, just remember, little Pepperbox, that old Fiddlesticks is tired out with this. Next Sunday he is going to preach on 'Future Punishment,' and afterwards we will sew on buttons. Want to?"

She broke full-tilt into a mighty sobbing.

"You are not dear old Fiddlesticks—you are not! He never talked like that!" And bang went the receiver on its hook.

It was next Monday, when "Doc" Farley came galloping up to Blakey's, and we gathered quickly on the little front porch.

"We had our fun, boys," he declared, with a jovial grin, "but blamed if the preacher didn't beat us—him and Bess' Baker are usin' the same telephone now—they were married this mornin' in Pipeville!"

But it was a romance for two months afterward at Blakey's.

Correct Forms to Follow in Sending Visiting Cards

By ROSANNA SCHUYLER.

Visiting cards may be made to serve so many different purposes than indicating a call that a woman would do well to understand the points governing their use. One sometimes is saved writing a note, substituting a card instead.

It is not my purpose in this article to go into the number of cards to be left when paying a call, but in passing it is worth mentioning that at large teas or receptions at which the guests' names are announced to the hostess cards should still be left. Usually a place is provided for them in the hall, and the pasteboards are put down on entering, if in paying a call the hostess herself happens to open the door, cards should still be left as unobtrusively as possible.

In sending a gift a visiting card may accompany it, and if the gift is from a woman and her husband the card may be one of "Mr. and Mrs." This is the only time at present that "Mr. and Mrs." cards are used after the first year of marriage. One must not acknowledge a gift by a card, though. A note is imperative.

A stranger in town wishing her friends to know of her presence sends cards, either by post or hand. Nothing is written on them except the address, but it is a distinct invitation to call.

The proper manner in which to acknowledge the hospitality of a man is puzzling sometimes. If one has been on his yacht or dined at his apartment, in fact has accepted his hospitality, it is customary to write a few words of thanks afterward on a card or else have a servant leave a card at his home.

A bachelor should always send a card for the mother when calling upon the daughter, but it is not expected that the parent will be present throughout the call.

Invitations merely to a wedding ceremony at a church require no acknowledgment, but if one is invited to the reception and is unable to be present a card should be sent to be received during the hours specified. If the bridegroom's friends do not know the bride's mother they are still expected to leave cards for her as thanks for the courtesy of her invitation to the wedding.

The etiquette of cards of condolence is strictly laid down and, if followed, will save awkwardness and prevent any omission or intrusion.

Upon the announcement of a death in a family cards should at once be left for the other members. The best manners prefer nothing written at such a time. Messages of condolence should come later after the funeral, and may be of the briefest. These are written upon a visiting card, and left at the house, like the others, without asking to see any one. It is expected at the mourner's convenience that such messages shall be acknowledged. If there have been many, that is to say in cases of large visiting lists, a regular card is engraved that reads:

Mrs. (or Mr.) Jones
and her (or his) family gratefully
acknowledge .....'s
kind expression of sympathy.
Address.

The name, of course, is filled in the blank space, as is done in wedding invitations. Sometimes the name line varies to read "your," which saves any writing.

When this is not done "Thanks" or "Sincere appreciation of your sympathy" may be written upon one's visiting card. It is never expected that the mourner will write a note.

Immediately after hearing of an engagement, or a happy event such as a birth, a visiting card is left at once with the word "Congratulations" written upon it. This should be done immediately. In case of illness "To inquire" should be written upon a visiting card and left at the door. Such cards should never be posted.

Should a young girl wish to send books or flowers to a young man, as may be in illness or under extraordinary conditions, her mother's card should always accompany hers. The same rule prevails when a girl announces her presence in a strange city to young men of her acquaintance. It is perfectly good form for her to let them know she is in town, but the presence also of her mother or other chaperon must be indicated by an accompanying card.

MALONEY RELEASED

At Grand Rapids on Condition That He Leave County.

Grand Rapids, Minn., April 24.—Dan Mahoney, who was arrested here on a charge of having robbed Ollila's gambling house at Holman of $400, has been released from custody with the understanding that he will leave the county. Charley Ollila saw Mahoney in the jail here and it is understood a satisfactory settlement was made, Ollila agreeing to drop the charge.

Operations Avoided

Hospitals in our great cities are sad places to visit.
Three-fourths of the patients lying on those snow white beds are women and girls.
Why should this be the case? Because they have neglected themselves.

Every one of these patients had plenty of warning in those dragging sensations, pain at the left or right of side, nervous exhaustion, pain in the small of the back; all of which are indications of an unhealthy condition.

Do not drag along at home or in your place of employment until you are obliged to go to the hospital and submit to an examination and possible operation. Build up the feminine system, remove the derangements which have signified themselves by danger signals, and remember that **Lydia E. Pinkham's Vegetable Compound,** made from native roots and herbs, has saved many women from the hospital. Read the letters here published with the full consent of the writers, and see how they escaped operations by a faithful reliance on Mrs. Pinkham's advice and consistent treatment with

Lydia E. Pinkham's Vegetable Compound.

Mrs. Perry Byers, of Mt. Pleasant, Iowa, writes:

Dear Mrs. Pinkham:—"I was told by my physician that I had a fibroid tumor and that I would have to be operated upon. I wrote to you for advice, which I followed carefully and took Lydia E. Pinkham's Vegetable Compound. I am not only cured of the tumor but other female troubles, and can do all my own work after eight years of suffering."

Miss Rose Moore, 307 W. 26th St., New York, writes:

Dear Mrs. Pinkham:—"Lydia E. Pinkham's Vegetable Compound has cured me of the very worst form of female trouble and I wish to express to you my deepest gratitude. I suffered intensely for two years so that I was unable to attend to my duties and was a burden to my family. I doctored and doctored with only temporary relief and constantly objecting to an operation which I was advised to undergo. I decided to try Lydia E. Pinkham's Vegetable Compound; it cured me of the terrible trouble and I am now in better health than I have been for many years."

This and other such cases should encourage every woman to try Lydia E. Pinkham's Vegetable Compound before she submits to an operation.

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located, and helpful advice sent absolutely free.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND, made from Native Roots and Herbs, complies with all conditions of the new Pure Food and Drugs Law, and is so guaranteed.

Clothes Worth Coming After At Prices That Are Just Right

are the only sort we keep in stock. We don't say that here you can get better value, better style and a better fit for your money than elsewhere we leave that to be proven by the clothes themselves—you to be the judge.

Every garment we show is cut in the most advanced style, every fabric especially selected and of tested quality; the tailoring and finish at every price, you will find is of the highest grade. As one example of our many extraordinary clothing values, come see our

STUDENT STOPS RUNAWAY.

High School Lad, Almost Blind, Effects Heroic Rescue at Tracy.

Tracy, Minn., April 24.—Earl Anselm, a high school student, succeeded in stopping a runaway team, dashing toward the railroad tracks.

Misses Jennie Carlow and Marie Rogers, who were driving, lost control of the horses and had a narrow escape from being overturned several times. Anselm, who is blind in one eye, was the only one of a dozen who succeeded in stopping the team before it reached the railroad tracks, where several trains were switching.

ENGINEER AND FIREMAN KILLED IN A COLLISION.

Bloomington, Ill., April 24.—In a collision between a freight train and a light engine on the Chicago & Alton road at Dwight early today Engineer Bruce Goodman of Dwight and Fireman C. F. Taylor of Bloomington were killed and Fireman Brown of Dwight fatally injured. Engineer Charles Tyner of Bloomington was seriously hurt.

RAILROADS

FARES WILL BE HIGHER

No Commutation Tickets to Deerwood Offered This Year.

Rates to Most Camping Resorts Will be Increased.

Duluth people who, in former years, have made week-end trips to the numerous resorts in the vicinity of the city, will find their fares a heavier item of expense this year, on account of the new 2-cent fare law, enacted at the session of the Minnesota state legislature this year. In accepting the provisions of the law, most of the railroads announced that they would withdraw special rates and commutation tickets, heretofore in effect, and that all fares would be calculated on the basis of 2 cents a mile. The withdrawal of special one-trip and commutation ticket rates to summer resorts from sale will affect many Duluth people. People wishing to make trips, formerly made easy and inexpensive by the special rates, will be compelled to pay more money, or stay at home.

Deerwood, one of the favorite resorts for camping and outing parties, will not be so easy of access this year, as far as expense is concerned. The commutation book circular, issued by the Northern Pacific railroad, and received at the local office of the company, does not list Deerwood among the points to which commutation tickets will be sold from Duluth, and the inference is the commutation ticket privileges to that point will be withdrawn entirely. In former years family books were sold at a rate of $1 each way, or $2 for the round trip. As Deerwood is 101 miles from Duluth, the rate was less than 1 cent a mile. If the commutation books are not placed on sale this year, the man wishing to take his family to Deerwood for a few days will be compelled to put up about double the amount he did formerly.

No definite information has yet been received by the local agents of the Northern Pacific on the single trip rates to Deerwood and return. In former years the rate was $3.40 for the round trip. If charged for on the 2-cent rate, the tickets will come to $4 this year. It is expected that the inauguration of the increased rates will mean a diminution of the travel to Deerwood, as many who took advantage of the commutation ticket rates will not care to pay the increased fares, but will make some nearer point their camping place.

The commutation circular lists Fond du Lac, New Duluth and other nearby points, to which commutation tickets have been sold formerly, but the total cost of the tickets has been increased from $1 to $1.50. The single trip fares will also probably be increased slightly.

It is not believed that the new law will affect the rates to Solon Springs, another popular camping place. At the Omaha office the agents have been notified to place on sale commutation tickets to Solon Springs at the same rates this summer as in former years. The tickets will be on sale from May 18 to Sept. 30, inclusive. No definite information has been received as to the single trip rates. It is believed, however, that they will be the same. Solon Springs is thirty-seven miles from Duluth, and the round trip rate in former years was $1.35. At 2 cents a mile the rate would only be $1.48, so it is believed that the former rate will again prevail.

BLOCK TICKETS

Can No Longer be Sold by Minneapolis & St. Louis Road.

Minneapolis, April 24.—The interstate commerce commission has imperatively stopped the issuance of cheap tickets to Chicago by the "block system," on the part of the Minneapolis & St. Louis railroad. All of the cheap tickets that have been issued will be withdrawn and if the rate war continues, it will be by another tack. The St. Louis road has accepted the situation and the larger roads for the time being have won. The ruling of the commission will have a far reaching effect on the passenger rate situation.

Vice President Day today said that he did not know how many of the tickets had been issued but it is reported that some $50,000 worth of the block tickets, which would give a $6 rate to Chicago, have been sold, presumably to department stores. Mr. Day denied that the tickets had been placed in the hands of scalpers.

RAILROAD CLUB

Will Hold Its Regular Meeting Nex Friday Evening.

The Northern Railway club will hold a regular meeting in the Commercial club rooms next Friday evening at 8:15 and a very interesting program has been announced. Special trains from Proctor and Two Harbors will be run for the benefit of the railroaders of those two towns and a big attendance is expected.

The feature of the evening's program will be a paper on "The Creosote and Other Processes of Treating Railway Ties and Structural Timber" by James R. Stack of the Great Northern road. The paper will treat the subject on all sides and will bring out an idea advanced some time ago by D. M. Philbin, that Duluth is a location especially suited for this kind of work.

Charles Cotter of the Duluth and Iron Range road will read a paper on "The Care and Management of Locomotives" and F. B. Farmer of the Westinghouse company will talk on "Adequate Air Supplies for Locomotives." A musical program will follow the business and educational meeting.

Gray-Tallant Co

Home Beautiful

TALK NO. 1.

ONE of the Art Looms of France has just sent to America something very rich in portieres.

The fabric is a homespun weave improved by the skill found only in a two-century old factory, descending from father to son and with workers who inherit their skill.

As the light strikes the fabrics, there is a sheen and irridescence which makes them very rich indeed.

The effect is further enhanced by the application of a tapestry border.

Only a few have as yet been imported—the home demand is such that few will come to America.

The first of these to come to Duluth are now ready in our new Rug and Drapery department.

If you would like to see them take the elevator to our remodeled third floor and we'll gladly show them and many other exclusive things.

No obligation to buy—we want you to see if we were not right in thinking that there was a real need for a rug and drapery department, such as we have opened on our third floor.

Gray-Tallant Co

GOVERNMENT OWNERSHIP

Of Railroads is Final Solution, Says John Barnes.

Chicago, April 24.—A dispatch to the Record Herald from Milwaukee, Wis., says: "That the final analysis of the railway rate problem will be governmental ownership is the belief of John Barnes, president of the Wisconsin railway commission. Mr. Barnes in an address yesterday before the Merchants and Manufacturers' association said he did not favor governmental ownership, as under this condition the roads would not be operated either as well or as economically as under private hands, but he feared that it might come to that in the end.

There were, he said, two other methods; first, to permit the roads to run their business as they please, and, second, to have the rates controlled by the government. The second he believed to be the best for the country and it ought to be given a fair trial before the proposition of governmental ownership was considered seriously.

Railroads, he said, were wholy monopolistic in their tendencies and were strengthening themselves constantly, and it was time for the government to step in and fix rates if this should not succeed in restoring fairness in rates, then there would be nothing left but governmental ownership, even though it had serious disadvantages.

BAD RAILS

Are Responsible for Many Disastrous Railroad Wrecks.

Chicago, April 24.—Bad steel rails are causing many of the disastrous wrecks on American railways, according to a statement made today by some of the most prominent operating officials in the United States who are in Chicago attending the spring meeting of the American Railway association. Aided by chemical experts and metallurgists, a committee composed of operating officials have been making an investigation of this matter and have come to the conclusion that an exceedingly dangerous percentage of the steel rails manufactured today have the latest flaw which causes them to snap and break under the impact of a fast train.

Among the reports which have been prepared for presentation to the general meeting of the association tomorrow is one by the committee on "standard rail and wheel sections." This report will recommend that a committee be appointed to take up the question of better steel rails with the American manufacturers in an effort to improve the quality of material.

FARMER IS SUED

For $10,000 for Alienating Affections of Merchant's Wife.

Le Mars, Iowa, April 24.—A. F. Carpenter, a general merchant of Petosia, this county, has sued Oliver King, a retired farmer, for $10,000 for alienating the affections of the plaintiff's wife.

The Carpenters were married in Sioux City in 1893 and have two children. The defendant has a wife and grown family. The principals in the suit are highly respected families of the county.

WILL NOT MARRY

Protestant and Catholic Unless the Former Takes Instructions.

Chippewa Falls, Wis., April 24.—Rev. Father Dunne has decided he will hereafter perform no marriage uniting a Catholic and non-Catholic unless the person who is not a member of the church takes instructions.

In explaining his attitude, Father Dunne says that usually such marriages prove unhappy. By taking instructions the non-Catholics would have explained to them certain things they would otherwise not understand and which might lead them to make disagreeable criticism regarding the Catholic church. Taking instructions, however, does not mean that the person must necessarily become a Catholic.

An "Auto" Campaign

You "Ought to" Give Your Share to the Y. W. C. A.

"Lest you forget"—we say it again—remember the Y. W. C. A.—think of the immeasurable good it will do—and think of the good it will do you to become a public benefactor in helping the Y. W. C. A.

A NEGRO DIES AT THE REMARKABLE AGE OF 150.

New York, April 24.—A dispatch from Santiago, Cuba, says the death occurred there of A. Infante, a negro, at the age of 150 years. Despite his great age, the greatest recorded in modern times, the man is said to have retained all his faculties unimpaired to the end.

Infnate is said to have been born in 1757, nineteen years before the beginning of the American Revolution.

"Good for everything a salve is used for and especially recommended for Piles." That is what we say about DeWitt's Carbolized Witch Hazel Salve. Get the original. All druggists.

WAGES ARE INCREASED

On Rhode Island Street Railways Without Any Request.

Providence, R. I., April 24.—Announcement of a 10 per cent increase in wages on a basis of a ten-hour day, to go into effect on Sunday next, was made today by the management of the Rhode Island company, the corporation that operates practically all of the street railway lines in the state. This increase will be shared by 615 motormen and 598 conductors. In explaining the increase, General Manager A. E. Potter said:

"The raise is granted the men without any request having been made by them and would indicate that the railway management is able to deal more liberally with its employes where no union exists, for the reason that it is not obliged to hold back something at all times as a matter of trade."

DEAR LITTLE TOADS ARE SOCIETY'S LATEST PET.

London, April 24.—Fashions in reptiles as pets have changed again. This time the society women favor toads, and hundreds of these reptiles have been sold during the past week.

More of them are to be brought from abroad directly after the hibernating period is over. They are extremely clean and the ladies place them on tables as ornaments. Giant toads may be trained to recognize familiar persons. The varieties mostly demanded come from Italy and are the Dalmatian and the green toad, the latter a pretty, bright green reptile.

FOR HOUSEKEEPERS

How to Get Rid of Cockroaches With Stearns' Electric Paste.

Nothing is more troublesome to the good housekeeper than cockroaches, and she will welcome a sure exterminator like Stearns' Electric Rat and Roach Paste.

Placed in sinks and on the shelves at night, you can sweep up a panful of dead roaches in the morning. Much better than powders, as it does not blow away.

Stearns' Paste is also guaranteed to kill off rats, mice and other vermin.

Stearns' Electric Paste is sold by druggists or sent prepaid on receipt of price. 2 oz. box 25c., 16 oz box $1.00. Stearns' Electric Paste Co., Buffalo, N. Y., (formerly Chicago, Ill.)

On the "Training Table"

Some one has asked: "Why is Shredded Wheat on the 'training table' of every university and college?"

The reason is easy to give.

Shredded Wheat

contains the greatest amount of muscle-building material in smallest bulk and in most digestible form. The favorite food of athletes as well as children.

For breakfast heat the Biscuit in oven to restore crispness, pour hot milk over it, add a little cream and a little salt; or, sweeten to taste. Shredded Wheat is also delicious and wholesome for any meal in combination with fresh or preserved fruits. At your grocers.

NICKNAMES OF SENATORS.

Washington Post: In his now celebrated vaudeville sketch, which was stricken from the Congressional Record, but published in all the newspapers, Senator Tillman applied nicknames to certain distinguished senators, greatly to the horror and consternation of that dignified body. However, the truth is that nearly every man who has served in the senate for any length of time has a nickname given him by his colleagues. Not to have one is considered a rather doubtful compliment, as it implies that the senator in question is not considered of sufficient importance to merit the distinction of a nom de plume.

Mr. Platt of New York is called the "Easy Boss," although he has not attempted to do much bossing in the senate. The name was acquired before he came to the senate, and it has stuck. "Our Chauncey" is the designation of the junior New York senator.

Mr. Clapp of Minnesota is known as the "Black Eagle," because of his resemblance to Gen. John A. Logan, who bore that title. He has the same deep bass voice that was characteristic of the late Illinois senator. Mr. Nelson, the senior Minnesota senator, is called "Cute," a play upon his name of Knute, and a delicate acknowledgement of his native shrewdness.

Mr. Daniel of Virginia is styled "The Silver-Tongued Orator." Mr. Tillman described him as "the man lost in admiration of his own rhetoric." No one in the senate exceeds Mr. Daniel in the length and symmetry of his sentences.

Mr. Spooner of Wisconsin is "The Little Giant." Mr. Tillman mentioned him in his sketch as "a man who used to know a little law before he got elected to the senate."

The Republican steering committee has not found a name for Mr. La Follette. Mr. Spooner's colleague, as yet, but the Democratic Senators have dubbed him "Ajax," on account of his propensity for defying senatorial precedent lightning.

Mr. Foraker has two names, "Fire Alarm" and "Fighting Joe." The latter designation is the one most frequently used since the Brownsville debate and a recent dinner incident, in which the president and the senior Ohio senator figured. Mr. Dick, Mr. Foraker's colleague, is spoken of as "Slick Dick." He moves about noiselessly, but generally seems to accomplish what he is after.

Mr. Stone of Missouri is "Gum-shoe Bill," a name he acquired before he reached the senate. Mr. Tillman spoke of Mr. Carmack of Tennessee as the "Boss Detective." Since then several facetious senators have addressed him as "Sherlock Holmes." In the campaign he made against Taylor in Tennessee last fall, Mr. Carmack was referred to as the "Knight of the Rose." Taylor, who defeated Carmack, has a name waiting for him as soon as he reaches the senate. It is "Fiddling Bob." He is an expert with the fiddle. According to members of the Tennessee delegation, the new senator-elect from that state owes most of his success in politics to his skill in manipulating the fiddle.

Mr. Lodge of Massachusetts used to be spoken of as "The Scholar," but since the telephone incident at the last session, certain irreverent senators have named him "Central." Mr. Crane, Lodge's colleague, is "Slender William," and Knox of the Keystone state, with whom he is on very intimate terms, is called "Little Phil." Mr. Knox and Mr. Crane are about the same size, and although their seats are far apart, they are almost inseparable companions. Probably after March 4 they will arrange to secure adjoining seats. Neither one weighs much over 100 pounds.

Mr. Cullom of Illinois is "Uncle Abe," because of his alleged resemblance to Mr. Lincoln. Mr. Gallinger of New Hampshire is called "Mayor" on account of his position as chairman of the district committee. Some senators also address him as "Doc," as he is a medical graduate.

Mr. Beveridge of Indiana figures as the "Boy Orator" and "The Wasp of the Wabash." Mr. Allison is known as "Soft Pedal."

Mr. Carter of Montana is known as "Uncle Sam" by reason of his whiskers. Mr. Clark, his colleague, as "The Copper King" and "Croesus." He is said to be the richest man in the senate. Mr. Money of Mississippi, who said the other day that he was probably the poorest member of the senate, is referred to as "The Discoverer." His middle name is De Soto.

Mr. Pettus, the oldest member of the senate, is "Old Confucius." Many senators believe that he is even wiser than the Chinese philosopher of that name.

Smoot of Utah is "The Apostle;" Blackburn, Kentucky, "Thunder Joe;" Patternson, Colorado, "Smiling Tom;" Heyburn of Idaho, "Mr. Pickwick," many senators having remarked his likeness to Dickens' famous character; Aldrich, Rhode Island, "Big Chief;" Dolliver, Iowa, "The Lion;" Burrows, Michigan, "Columbian Orator;" Clay, Georgia, "Pompadour;" Hale, Maine, "The Censor;" Frye, his colleague, "Grandpa," although he is still the junior senator from the Pine Tree state, having entered the senate a few months after Mr. Hale.

We Will Cure You

The Northwest's Most Reliable SPECIALIST In the Diseases of Men.

We want all afflicted people to feel that they can come to our office freely for examination and explanation of their condition without being bound by any obligation to take treatment unless they so desire. We will make a thorough and scientific EXAMINATION of your ailments FREE OF CHARGE—an examination that will disclose your true physical condition, without a knowledge of which you are groping in the dark. If you have taken treatment elsewhere without success, we will show you why it failed. Every person should take advantage of this opportunity to learn their true condition, as we will advise them how to best regain their health and strength, and preserve them unto ripe old age. WE MAKE NO MISLEADING STATEMENTS or deceptive propositions to the afflicted, neither do we promise to cure them IN A FEW DAYS in order to secure their patronage (an honest doctor of recognized ability does not resort to such methods). We guarantee A SAFE AND LASTING CURE IN THE QUICKEST POSSIBLE TIME without leaving injurious after effects in the system, and at the lowest cost possible for HONEST, SKILLFUL AND SUCCESSFUL TREATMENT. We cure KIDNEY AND URINARY DISEASES, SMALL, WEAK ORGANS, SEMINAL EMISSIONS, STRICTURE, DISCHARGES, VARICOCELE, NERVO-SEXUAL DEBILITY, CONTAGIOUS BLOOD POISON and all diseases and weaknesses due to habits, dissipation, or the result of special diseases. Write for symptom blank if you cannot call. CONSULTATION FREE AND CONFIDENTIAL. Office hours 8 a. m. to 8 p. m. Sundays 10 a. m. to 1 p. m.

WITNESS IS ATTACKED

Mrs. Walsh Seeks to Discredit Testimony by Hambley.

Divorce Action is Bitterly Contested on Every Point.

Owing to the large attendance at the Walsh divorce case trial before Judge Dibell, court was held in district court No. 2 this morning. Nearly all those in attendance were either relatives, friends or witnesses for the parties to the action.

Ellis Walsh, the defendant in the action, continued introducing testimony yesterday afternoon and this morning to support his claim that his wife, Minnie Walsh, was unfaithful to him and that she sought the company of two other men in preference to her husband.

Seven witnesses from Virginia testified during yesterday afternoon's session that they had seen Mrs. Walsh on the streets, more or less frequently, with a man by the name of Ole Berg.

Ed Hambley, the railroad man who testified yesterday morning that he saw Mrs. Walsh and a man named Killincan in a very compromising position in the latter's room in the Rossom block in Virginia, was recalled for cross-examination by C. E. Adam, for Mrs. Walsh, this morning. Mr. Adams sought to discredit the testimony of the witness by asking him questions concerning his own, Hambly's, marriage, whether or not he did not frequent places with a bad reputation, and finally marry a woman who had acquired notoriety by running a certain resort. Hambley denied any knowledge on the subject. It is understood that Mrs. Walsh served a subpoena on Hambley's wife to appear this afternoon, with a view of being questioned concerning certain facts which the council for the plaintiff expects to show of her past history.

Amos Sy, a locomotive engineer employed by one of the mining companies, testified this morning that he had seen Mrs. Walsh and Killincan together on numerous occasions. He said he had seen them on the streets at Virginia, in a tent at Walsh's camp, at a dance hall, and, on one occasion, saw Mrs. Walsh enter the rear door of a Chinese restaurant at Virginia, while Killincan went around and entered by the front door.

The trial is one of the most bitterly contested actions of the kind that has been heard in the district court for a long time.

You are not experimenting when you try Hunt's Perfect Baking Powder. Its quality is proven—more in use today than ever.

MAY AFFECT COMPROMISE

More Hopeful View of the Situation in Central America.

Washington, April 24.—A more hopeful view was taken today of the situation in Central America, advices received by the government lending to the belief that a compromise yet will be effected in the negotiations now going on between Nicaragua, Honduras and Salvador. Yesterday during the conference at the state department, matters looked impossible of adjustment except by arbitration, but the announcement was made that within twenty-four hours some development might be expected. This has materialized in the shape of a dispatch from Phillip Brown, American charge of the legation at Honduras, stating that everything now seems to indicate an agreement in principle. Senor Corea, the Nicaraguan minister, who had a lengthy conference with Assistant Secretary Bacon today, expressed the belief that the stumbling blocks to a complete agreement will soon be swept away and peace will be re-established in the near future.

Hives, eczema, itch or salt rheum sets you crazy. Can't bear the touch of your clothing. Doan's Ointment cures the most obstinate cases. Why suffer. All druggists sell it.

THOSE WHO HAVE PASSED BEYOND

Americus, Ga., April 24.—Mrs. Charles F. Crisp, widow of Speaker Crisp of the national house of representatives, died at her home here yesterday, aged 59.

Lincoln, Neb., April 24.—Mrs. Larson Sheldon, mother of Governor George L. Sheldon, died at her home at Nehawka last evening, aged 73 years. She had been ill with pneumonia for three weeks.

AUTO BILL KILLED.

Madison, Wis., April 24.—The state assembly today killed all bills to further restrict automobile driving.

Ignorance may be bliss, but it's not prosperity. To prosper you must read Herald ads.—and then you are no longer ignorant.

THE POLICE COURT GRIST

John Cameron Arraigned on Charge of Non-Support.

Ghastly Postal Card is Received by Chief Troyer.

John A. Cameron, charged with non-support by his wife, was arraigned in municipal court this morning.

Mrs. Cameron was called to the stand and said that she had received no money from her recreant spouse since Jan. 28, 1906, and told how she had done washing to support their five children since that time. She was more indignant than hurt, and asserted that she couldn't be expected to do this all her life when her husband was making good money cruising.

Mr. Cameron put up a pretty stiff defense, and stated that he did not know where his family were since they broke up at Marquette, five years ago. He explained a letter which he wrote his wife after leaving her, disclaiming her and referring to her as "no wife of mine," as having been written after seeing in a Houghton paper an account of how she had been arrested on a statutory charge in Marquette.

"Huh!" ejaculated Mrs. Cameron. "Look at these here rent receipts. Didn't I always pay my bills. There's one that's ten years old."

"What has this to do with the case?" asked the judge.

"Well, it's more than he can show," said Mrs. Cameron.

"What do you want to do about this, Cameron?" asked Judge Windom.

"Well, I have been thinking of getting a divorce and taking the children—"

"You get a divorce? You take the children—" interrupted his wife. "Say, do you think you could get them children to live with you? You don't fool me any more, no, never no more."

Cameron volunteered to go under bonds to furnish his wife $35 a month for her support, and the court dismissed the case on this understanding.

• • •

A rather ghastly postal card was received by Chief Troyer, this morning bearing the picture on its back of a dead man lying in his coffin, dressed for burial. It came from Watertown, Wis., from the police department there, and stated that the man died there, and that it had been learned that he hailed from Duluth. The picture is not a very clear one, but shows a man who had probably been employed as a laborer before his death. No details were given.

• • •

Peter Ward, 13-year-old boy, is being held on suspicion in the children's ward at the police station, facing a possible larceny charge. The boy was spotted carrying three huge broadaxes, wired together at the handles, and with one of the handles broken. He said that he had had another, which he gave to a friend. He has told three different stories so far as to how he came by them, and the police are expecting a report of stolen property answering the description of the axes this afternoon.

Lyceum, May 5th, 8. p. m. Tickets at Lundberg & Stones.

KEOKUK PREACHER IS ATTACKED BY LIONESS.

Keokuk, Iowa, April 24.—Rev. R. C. McIlwain had a narrow escape from being killed by a lion while reading the marriage ceremony for a wedding which took place in the lion's cage at a local theater.

George L. Smythe and Elsie Louise Vernon of Burlington were the daring pair who had decided to have the marital knot tied in the lion's den. With the minister, who is pastor of a leading Presbyterian church here, the couple entered the cage and joined hands.

The reading of the ceremony had not progressed far when Sappho, a big lioness, who had been in a bad temper all week, gave a roar and lunged toward the minister. One of the animal trainers who stood by shoved the preacher out of harm's way just in the nick of time.

When, with whips and hot irons, the trainers had cowed the lioness into submission, the ceremony proceeded without further interruption.

LODGE NOTES

Knights of Khorassan.

Preliminary arrangements for the organization of an auxiliary branch of the Dramatic Order Knights of Khorassan were made last evening when delegates from several surrounding towns visited the meeting of the Knights of Pythias. Thursday afternoon a meeting will be held in the office of J. L. Cromwell and permanent officers of the order will be announced. These offices are being selected by a committee appointed last evening.

Card Social and Dance.

A regular meeting of Imperial camp, No. 2206, M. W. A., was held last evening at the hall on West First street and a large attendance was reported. Members of the Royal Neighbors auxiliary were present and after the business of the meeting was completed a card social and dance was enjoyed by the members. Music was furnished by Westgaard's orchestra and dainty refreshments were served.

MILLINERY OPENING.

Forerunner of Many Other Interesting Events at Glass Block.

The near future is laden with many features of most intense interest to the buying public of Duluth, according to the statement of one of the management of the Glass Block store today.

The millinery opening and display of exquisite French and American headgear, which occurs today, and which, by the way, is perhaps the most attractive millinery display Duluth has ever known, is but a forerunner of other things to come. Thursday of this week begins their great semi-annaul sale of notions and dressmaker's findings.

Friday morning, a remarkable clearance sale of furniture will be inaugurated on their fourth floor. Following this a new department will be installed in the space provided in the reduction of the furniture stock.

Next week an immense sale of housefurnishings at little prices will delight those who have just gone through the pleasant (?) task of moving and getting settled with the discovered need of a "thousand and one things" in or about the house.

Only a short time off will also occur the opening of the new and enlarged boys' clothing department; the new French underwear rooms; the new infants' wear department; the new department for ladies' shirtwaists, and others at a little later date.

Altogether Duluthians are to be made the recipients of a number of treats, such as will serve to make Duluth's metropolitan store an institution to be still more popularly admired.

OUSTER SUIT CONTINUED.

Jefferson City, Mo., April 24.—The ouster suit instituted by Attorney General Hadley against the Standard, Waters-Pierce and Republic Oil companies, on docket for hearing before the supreme court en banc today, was continued because Special Commissioner Anthony, before whom testimony was taken, has not yet filed his report. It is expected his report will be made by May 1, and the case will again be set for hearing.

TO PREACH ON "BECAUSE".

W. A. Dunnett Pleases Congregations at the Baptist Church.

At the Firt Baptist church last night, W. A. Dunnett preached on "What Shall a Man Give in Exchange for His Soul." C. M. Giddings sang. Tonight, Mr. Dunnett's subject will be "Because," and Mrs. Cavan will sing. Mr. Dunnett is pleasing large congregations every evening. He will conduct meetings each evening for the remainder of the week.

SALE OF LIQUOR

Prohibited Within One and One-Eight Miles of Reservation.

Springfield, Ill., April 24.—The Illinois senate today passed the house bill forbidding the sale of liquors within one and one-eighth miles of a military or naval reservation.

This is the measure designed to abolish the saloons of Highwood, which adjoins Fort Sheridan military reservation.

POPE RECEIVES O'GORMAN.

Rome, April 24.—The pope today received in private audience Bishop O'Gorman of Sioux Falls, S. D.

FREMSTAD TO SING IN PARIS.

New York, April 24.—Announcement was made today that Mme. Olive Fremstad, on the urgent solicitation of Jean de Reszke, has accepted an offer to sing her role of Salome in Paris on May 17, 21 and 24. She is to receive 5,000 francs for each performance.

PRESIDENT DISCUSSES

His Attitude in Moyer-Hayward Case With Labor Leaders.

Washington, April 24.—The president today talked with two of his visitors about his attitude toward labor organizations. These persons were S. B. Hammer, chief conductor of West Virginia, of the Order of Railway Conductors, and A. H. Graham, an attorney representing the West Virginia conductors. After the presentation of the visitors by Senator Scott, the president asked the two men to remain a few moments until some other business was disposed of and then gave them a talk about the Haywood and Moyer cases, taking the same position in the matter as he did in the letter made public yesterday. The two men left the White House expressing their satisfaction with the position the president had taken in the Moyer-Haywood controversy.

PULP MILL AT CANADIAN SOO DESTROYED BY FIRE.

Sault Ste. Marie, Mich., April 24.—The pulp mill of the Lake Superior corporation, located in the Canadian Soo, across the river from this city, was burned today. The loss will be about $100,000.

THE **UNION**

CLOTHING & SHOE HOUSE

700 Suits and Top Coats, Bocherach & Co. entire surplus stock will be placed on sale here Saturday at 407 West Superior Street.

WATCH AND WAIT FOR THE LOW PRICES.

WHEAT HAS AN ADVANCE

Strong Foreign Market and Bearish Southwestern News Help Prices.

Flax Advances During Quiet Session in Duluth Market.

Duluth Board of Trade, April 24.—Wheat advanced in all of the American markets today, on reports of unfavorable weather for the crops in Kansas and other states in the winter wheat belt and higher prices in the foreign markets. The great strength was shown in Minneapolis and New York, at the close. Liverpool closed ⅜d to ¾d higher, Berlin ½c higher and Budapest unchanged.

The May option closed ¼c higher in Duluth, Chicago, Kansas City and Winnipeg, ½-⅝c in Minneapolis, ¾c in New York and ⅛-¼c in St. Louis. The July option closed ⅜c higher in Duluth, St. Louis and Kansas City, ½c in Chicago, ⅝c in Minneapolis and New York and ¼c in Winnipeg.

May corn closed ½-⅝c higher in Chicago and was ⅜d to ½d higher in Liverpool. May oats closed unchanged in Chicago.

Car receipts at Duluth were 250, against 47 last year, and at Minneapolis 298, against 124 last year, making a total for the Northwest of 548, against 171 last year. Chicago received 47, against 2 last year.

Primary receipts of wheat were 733,000 bus, last year, 272,000 bus. Shipments, 378,00 bus, last year, 352,000 bus. Clearances of wheat and flour aggregated 131,355 bus.

Primary receipts of corn were 486,000 bus, last year, 396,000 bus. Shipments, 616,000 bus, last year, 584,000 bus. Clearances of corn were 340,780 bus.

Wheat was active during the latter part of the session in the Duluth market. May wheat opened ⅛c higher at 83¼c, advanced to 83⅝c by 9:54, fell off to 83⅛c by 11:45, rallied to 83¼c by 12:30 and closed at 83⅜c, a gain of ¼c over yesterday. July wheat opened ¼c higher at 84⅝c, advanced to 85¼c, declined to 84⅝c, rallied to 85⅛c and closed at 84¾c, a gain of ⅜c over yesterday. September wheat sold as high as 85¼c and closed at 85⅛c, a gain of ⅜c over yesterday.

Durum wheat closed ⅝c higher and cash spring wheat was selling on a basis of ½c over May for No. 1 northern.

Flax was quiet throughout the session. May flax opened ⅛c higher at $1.17¾, advanced to $1.17⅞ and closed at that price, a gain of ⅜c over yesterday. July flax opened unchanged at $1.19¼, advanced to $1.19⅜ and closed at that price, a gain of ⅛c over yesterday. October flax opened unchanged at $1.16⅛, advanced to $1.20, declined to $1.19¾ and closed at $1.19⅞, a gain of ⅝c over yesterday.

Rye closed ½c higher and the other coarse grains were unchanged.

Following were the closing prices:

No. 1 hard on track, 84⅝c. To arrive: No. 1 northern, 83⅞c; No. 2 northern, 82¾c. On track: No. 1 northern, 83⅞c; No. 2 northern, 82¾c; May, 83⅜c; July, 84⅝c; September, 85⅛c. May durum, No. 1, 72c; No. 2, 69c; July durum, No. 1, 72c; No. 2, 69c; durum on track, No. 1, 72c; No. 2, 69c. Flax to arrive, $1.17½; flax on track, $1.17½; May, $1.17½; July, $1.19¼; October, $1.19⅝. Oats to arrive, 41c; April oats, 47c; rye, 62c; barley, 60-62c.

Cars inspected: Wheat, 250; last year, 47; oats, 8; rye, 5; barley, 48; flax, 62; last year, 42.

Receipts: Wheat, 243,656; corn, 1,009; oats, 33,562; barley, 41,990; rye, 1,750; flax, 71,262.

Shipments: Wheat, 211,000; barley, 1,375; rye, 1,327.

THE CHICAGO MARKET.

Wheat Opens Firm With General Trading Showing Activity.

Chicago, April 24.—The wheat market opened firm with trading active, July being up ¼@⅝c to ½@¾c at 81⅝c to 81¾c. The cause lay in an advance at Liverpool and the continued absence of rain in Kansas. Later July touched 81⅜c on profit taking. Minneapolis, Duluth and Chicago reported receipts of 555 cars against 393 last week and 177 a year ago.

The market turned strong and held strong to the end. Crop damage reports were numerous, and a good export business was reported. After selling at 81⅛@¼c, July advanced to 81⅞c. The market closed strong with July up ½c at 81⅜@⅝c.

Corn began the session active and strong on wet weather and in sympathy with wheat, July being ⅛@¼c to ¼c higher at 48¾@⅞c to 48⅞c. Local receipts were 111 cars, with 11 of contract grade.

There was a good demand from shippers and this held the market firm. The high point for July was 49¼@¾c and the close was strong, July ½c higher at 49⅝c.

The oats market was quiet but firm under the influence of other grains. July opened ½c to ¼@¼c up at 41⅛@ c. Local receipts were 221 cars.

Provisions opened dull and easier on a decline in hogs. July pork opened 5c to 10c lower at $15.50 to $15.55. July lard 5c down at $8.77½ and July ribs 2½@5c depressed at $8.70.

Close: Wheat, May 79c; July 81⅝@¾c. Corn, May, 48¾@⅞c; July, 49¼c. Oats, May, 43¾c; July, 41⅜@¼c. Pork, May, $15.65; July, $15.50. Lard, May, $8.50; July, $8.65. Ribs, May, $8.70; July, $8.65. Rye, cash, 69@71c. Barley, cash, 68@73c. Clover, timothy and flax, nothing doing. Cash wheat, No. 2 red, 73¾@79¼c; No. 3, red 76@78¾c; No. 2 hard, 77¾@80c; No. 3 hard, 69@77c; No. 1 northern, 83@85c; No. 2 northern, 82@84½c; No. 3 spring, 71@84c. Corn, No. 3, 47¼@48c; No. 2, nothing doing; oats, No. 2, nothing doing; No. 3, 40½c.

New York Grain.

New York, April 24.—Wheat—May, 88⅝c; July, 88⅞c; September, 90¼c. Corn—May, 57¼c; July, 57c.

Duluth Car Inspection.

Wheat—No. 1 hard, 9; No. 1 northern, 63; No. 2 northern, 42; No. 3 spring, 13; No. 4 spring, 3; no grade, 3; No. 1 durum, 37; No. 2 durum, 29; No. 3 durum, 39; No. 4 durum, 5; total of durum, 110; mixed, 7; total of wheat, 250; last year, 47.

Flax—No. 1 northwestern, 23; No. 1, 36; No. 2, 3; total of flax, 62; last year, 42.

Oats, 8; rye, 5; barley, 48.

Total of all cars, 373. Cars on track today, 400.

Liverpool Grain.

Liverpool, April 24.—Close: Wheat—Spot No. 2 red western winter, steady, 6s 2¾d; No. 1 California quiet, 6s 4¾d; futures firm; May, 6s 5⅝d; July, 6s 4⅝d. Corn—Spot firm; American mixed new, 4s 7d; American old, 5s 7½d; futures firm; May, 4s 6¼d; July, 4s 7¼d; September, 4s 7½d.

Minneapolis Wheat.

Minneapolis, April 24.—Close: Wheat—No. 1 hard, 84⅜@85c; No. 1 northern, 83⅜@84c; No. 2 northern, 81¾@82c; No. 3 northern, 79@80c.

Minneapolis Flour.

Minneapolis, April 24.—The flour market is firm. Five to ten cents were in the market early, based on the stronger tone in the wheat market and fairly good sales were made. It is a day to day market, however, and the demand is limited. Shipping directions are free, but there is still a complicated transportation situation. Shipments, 53,767 barrels. First patents, $4.30@4.40; second patents, $4.15@4.25; first clears, $3.20@3.50; second clears, $2.40@2.50.

Grain Gossip.

Broomhall, Liverpool, on wheat, April 24 — Firm at the opening with values ¼d higher, being influenced by the firmness in America yesterday. During the morning trading was on a rather larger scale and with offerings light and shorts anxious to cover, prices further gained ¼d to ⅜d. Importers were good buyers and offerings of La Plata wheat were smaller. Sellers were few which resulted in good general support to the market and at mid-day the advance had been held with the undertone firm.

• • •

Weather forecast for grain belt:

Illinois—Probably showers tonight and Thursday, warmer in east tonight, colder Thursday, increasing southerly shifting to northwest winds Thursday.

Indiana and Lower Michigan—Showers tonight and Thursday, warmer tonight, colder Thursday afternoon or night, high southerly winds shifting to northwest Thursday.

Missouri — Increasing cloudiness with showers in north tonight or Thursday, colder Thursday and in west tonight.

Upper Michigan—Rrain or snow tonight and Thursday, increasing easterly shifting to northwest winds Thursday.

Wisconsin—Rain tonight and probably Thursday warmer in east and colder in west tonight, colder Thursday, high easterly shifting to northwest winds.

Minnesota—Threatening with rain or srow in east and south tonight and in east portion Thursday, colder, increasing northeast shifting to northwest winds.

Iowa—Rain tonight possibly turning to snow flurries Thursday, colder winds shifting to high northwest.

North Dakota, Montana—Fair tonight and Thursday, colder tonight, warmer Thursday.

South Dakota—Snow and colder tonight, Thursday fair with rising temperature.

Nebraska—Rain turning to snow and colder tonight Thursday fair, brisk to high northwest winds.

Kansas—Partly cloudy and colder tonight and Thursday.

• • •

Logan & Bryan, Chicago to Paine, Webber & Co.: The local crowd took advantage of our strong opening to secure profits. One o fthe significant features was a little further widening of the spread between May and distant months. Damage reports were again plentiful, damage from new sections and in every particular as bad as anything we have had. The Southwest kept the wires busy with reports of high winds and blowing bugs in every direction. The foreign demand calls attention to the uncertain crop conditions of the old country and something that may be reckoned with later. The situation in the Northwest is causing much concern and there is no denying that serious apprehension is felt.

REMARKS.

Rain or snow fell over portions of all districts. Temperatures were moderate, but fell below freezing in North Dakota last night.

H. W. RICHARDSON,
Local Forecaster.

T indicates inappreciable rainfall. * For yesterday. ** For twenty-four ending at 8 a. m., 75th meridian time.

NOTE—The average maximum and minimum temperatures and the average rainfall are made up at each center from the actual number of reports received. The state of weather is that prevailing at time of observation.

The Cotton Market.

New York, April 24.—The cotton market opened steady at a decline of 1 to 4 points and increased the loss to a matter of 3 to 5 points on the active months right after the opening, under liquidation and bear pressure. Selling was encouraged by rather disappointing cables and better weather in the South, but with the early forecast calling for showers and colder weather in the Southwest and the Houston estimate very actual, the market steadied up during the middle of the morning and recovered all but a point or two of the early loss. May was relatively steady and held a point or two over July, with offerings checked by expectations that the bull party would take up all notices issued on Friday.

Cotton—Spot closed steady; middling uplands, 11.25; middling gulf, 11.50; sales, 300 bales. Futures closed steady. Closing bids: April, 9.80; May, 9.85; June, 9.81; July, 9.86; August, 9.83; September, 9.85; October, 10.06; November, 10.08; December, 10.12; January, 10.28; February, 10.33; March, 10.41.

New York Money.

New York, April 24.—Close: Money on call easy at 2@2½ per cent; ruling rate, 2; closing bid, 2; offered at 2½. Time loans, firm and easy; sixty days, 3½@4 per cent; ninety days, 4¼@4½ per cent; six months, 4¾@5 per cent. Prime mercantile paper, 5½@6 per cent. Sterling exchange, easier with actual business in bankers' bills at $4.86.15@4.86.20 for demand and at $4.83.45@4.83.50 for sixty-day bills; posted rates, $4.83½@4.84 and $4.88½@4.87; commercial bills, $4.83@4.83¼. Bar silver, 63¾c. Mexican dollars, 50¾c. Government bonds steady. Railroad bonds, firm.

Chicago Live Stock.

Chicago, April 24.—Cattle—Receipts, about 27,000; market, steady to 10c lower; beeves, $4.25@6.60; cows, $1.80@4.90; heifers, $2.75@5.40; calves, $3.50@6.50; good to prime steers, $5.35@6.60; poor to medium, $4.30@5.30; stockers and feeders, $2.90@5.15. Hogs—Receipts, about 34,000; market, 5c to 10c lower; light, $6.40@6.65; mixed, $6.40@6.62½; heavy, $6.25@6.60; rough, $6.25@6.35; pigs, $6.10@6.60; good to choice heavy, $6.50@6.60; bulk of sales, $6.55@6.62½. Sheep—Receipts, about 20,000; market, 10c lower; natives, $4.50@6.90; Western, $4.50@6.90; yearlings, $7.00@7.70; lambs, $6.50@8.55; Western, $6.50@8.70.

St. Paul Live Stock.

St. Paul, April 24.—Cattle—Receipts, 625; steady and unchanged. Hogs—Receipts, 2,800; steady to five cents lower; range, $6.25@6.42½; bulk $6.37½. Sheep—Receipts none; steady, unchanged.

SPECIAL NOTICE.
We are pleased to announce that we now have a first-class wire direct to Boston, New York, Chicago and Pittsburg, connecting with Miller & Co., 29 Broadway, New York, who are members of the New York Stock Exchange, New York Produce Exchange, Chicago Board of Trade, Boston Exchanges and New Orleans Cotton Exchange. The high standing of our Eastern connection is in itself a guarantee that our service and facilities for handling Boston coppers, New York coppers and industrials are as good, if not better, than any at the Head of the Lakes. Through our connections we expect to broaden the Duluth curb market so as to give it a better outside support than it has received in the past. We have faith in Duluth curb stocks. We believe they possess more real merit than any other flotations in the country, and while we solicit New York trade, we will continue to give special attention to the Duluth curb stocks.

DECLINES IN STOCKS

Extremely Dull, With Exception of Union Pacific and Reading.

Prices Turned Abruptly Downward During the Final Hour.

New York, April 24.—Prices of stocks moved irregularly in the opening dealings, but the majority of important issues showed declines. The changes were widest in the stocks that have been prominent in all the recent markets. Missouri Pacific and Reading lost a point and Northern Pacific, Atchison, Amalgamated Copper and American Smelting large fractions. The volume of business was very meagre.

A renewal of selling orders drove the market to a lower level than at the outset, after a rally which lifted prices quite generally to a good fraction beyond yesterday's closing. The most determined pressure centered against Union Pacific, Reading and Amalgamated Copper. Losses ran from 1 to 1⅝ in these stocks and also in Atchison, Northern Pacific and Great Northern preferred.

The tone became firmer, but dealings were small and fluctuations hesitating and shifting. Northwestern preferred sold at an advance of 7 and the common fell 2¼. Bonds were firm.

Reading achieved some prominence when it rose to a point beyond yesterday's closing, touching 112½. The rest of the list, while better, continued to be largely neglected.

Smelting and Union Pacific were bought freely after the demand for Reading waned. Smelting was bid up to a point over last night, and Union Pacific got back to 143¾, its high price of the morning. Otherwise the list was featureless. Lackawanna sagged 4½.

The market closed weak at the lowest. Prices turned abruptly downward in the final hour and fell back to below last night. Brooklyn Rapid Transit lost 2⅝ on reports of the success of a bill to enforce a 5-cent fare to Coney Island. Northern Pacific fell 1⅜, Atchison and Union Pacific 1⅝ and Southern Pacific, St. Paul, Baltimore & Ohio, Reading, Pennsylvania, Smelting, Colorado Fuel, General Electric and Pacific Mail 1 to 1¼.

Quotations furnished by Wisconsin Grain & Stock company, 109 Manhattan building:

The total sales were 745,400 shares.

Stock Gossip.

New York, Logan & Bryan, to Paine, Webber & Co.: It looks as though the professionals are again in control of the market. The volume of trade was small, but those in power showed a tendency to sell stocks. It is evident that the large interests are either keeping out of the market or are holding their trades under cover. The market seems to be developing into a traders' affair, but we believe there are many of the high class stocks that will do to purchase on moderate setbacks.

• • •

Boston to Gay & Sturgis: The market was extremely dull all day, with the exception of Union Pacific and Reading, which were strong up to the last hour, when fresh liquidation set in and carried the whole market down. The market is confined to the professional traders, and in absence of any other interest is moved back and forth very easily. There was absolutely no interest taken in the Boston market. It looks as though there would be little interest taken until something new turns up to change sentiment.

Treasury Balances.

Washington, April 24.—Today's statement of the treasury balances in the general fund exclusive of the $150,000,000 gold reserve in the division of redemption shows: Available cash balance, $247,666,468; gold coin and bullion, $105,174,529; gold certificates, $39,503,670.

Copper Gossip.

Boston to Gay & Sturgis: Leading interests in the North Butte company say that criticism of the North Butte report is based upon the lack of knowledge of that company's operations the past year; that, as a matter of fact, North Butte's mining costs last year were 6 cents per pound, but that the company added very materially to its acreage the past year, and installed almost a complete new plant, and the entire investment was charged against the cost of the copper, which materially increased the costs and reduced net earnings to $9.40 per share. March earnings of the company were $457,000, which is at the rate of $13.70 per annum, and April earnings will probably exceed the $500,000 mark.

• • •

Boston to Paine, Webbber & Co. say: Market was dull and uninteresting with the exception of Arcadian, which was strong and active on more favorable reports from the property. New York was strong until the close, when realizing sales were met and market sold off easily to about the lowest prices of the day. Bull tips were frequently distributed all morning to buy Union Pacific, but it appears that the traders who have been manipulating the New York holdings on any favorable opportunity. For the present would advise buying only on sharp reactions from this level.

ORDER LIMITING TIME TO FILE CLAIMS, AND FOR HEARING THEREON.

Estate of Eliza F. Phelps.
State of Minnesota, County of St. Louis. In Probate Court.
In the Matter of the Estate of Eliza F. Phelps, Decedent.
Letters testamentary this day having been granted to Edward A. Gilbert and Jessie I. Phelps,
It Is Ordered, That the time within which all creditors of the above named decedent may present claims against her estate in this court, be, and the same hereby is, limited to six months from and after the date hereof; and that Monday, the 21st day of October, 1907, at ten o'clock A. M., in the Probate Court Rooms at the Court House at Duluth, in said County, be, and the same hereby is, fixed and appointed as the time and place for hearing upon the examination, adjustment and allowance of such claims as shall be presented within the time aforesaid.
Let notice hereof be given by the publication of this order in Duluth Evening Herald, a newspaper printed and published in Duluth, in said County, as provided by law.
Dated at Duluth, Minn., April 15th, 1907.

J. B. MIDDLECOFF,
Judge of Probate.

(Seal, Probate Court, St. Louis Co., Minn.)

ORDER TO HEAR PETITION FOR LICENSE TO SELL LAND OF MINOR.

State of Minnesota, County of St. Louis.—ss.
In Probate Court, Special Term, April 15th, 1907.
In the matter of the guardianship of Savi Elmer Hanson, also known as Seavey Elmer Hanson, Minor.
On reading and filing the Petition of Sora Nicolia Hanson, guardian of said minor, representing, among other things, that the said Ward, is seized of certain real estate in the County of St. Louis, Minnesota, and that for the benefit of said Ward the same should be sold, and praying for license to sell the same; and it appearing to the satisfaction of the Court, from said Petition, that for the benefit of said Ward said real estate should be sold.
IT IS ORDERED, That all persons interested in said estate, appear before this Court, on Monday the 13th day of May, A. D. 1907, at ten o'clock A. M., at the Court House in Duluth, in said County, then and there to show cause (if any there be), why license should not be granted for the sale of said real estate, according to the prayer of said Petition.
AND IT IS FURTHER ORDERED, That this Order shall be published once in each week for three successive weeks prior to said day of hearing, in The Duluth Evening Herald, a daily newspaper printed and published at Duluth, in said County.
Dated at Duluth, Minn., the 15th day of April, A. D. 1907.

By the Court,
J. B. MIDDLECOFF,
Judge of Probate.

THE LIGNITE INDUSTRY

In North Dakota About to Experience a Speedy Revival.

Would Convert Lignite Into Coke at Duluth Steel Plant.

Minneapolis, April 24.—The speedy revival of the lignite industry in North Dakota and Montana is certain to be one of the immediate results that will follow the establishment of the proposed big steel plant at Duluth, or at least Harvey M. Simonson of Chicago thinks so.

Mr. Simonson passed through Minneapolis last night on his way East, after an extensive trip throughout the Dakotas and Montana. When seen at the Nicollet hotel he was strong in his belief that the lignite industry in the Northwest, which for the past year or two has been in a moribund condition, is due to be speedily galvanized into new life, and all because of the determination of the Steel corporation to esablish its mammoth plant at the head of Lake Superior.

"They are getting ready for a big revival in the lignite industry out in the Dakotas and Montana," said Mr. Simonson. "I understand that there was a time a few years ago when the industry was a leading one, but for some reason or other it has suffered an almost total eclipse during the past two years or so. I was out in that section trying to work up sentiment for a certain line of hardware, but during the past few weeks the intention of starting up the old lignite industry has been so marked that I am on my way back to Chicago to get my house to consider the advisability of handling the machinery that is used for mining lignite.

"I found this sudden revival of interest in lignite to be so general and so sudden that I proceeded 'to sit up and take notice,' so to speak, and you may imagine my surprise at learning that the cause was the announcement that the Steel corporation is to build its big steel plant at Duluth.

"The people out West there figure it out in this way: The Steel corporation will need immense quantities of coke in the operation of its big plant, and coke is made out of soft coal. Now lignite is a form of soft coal, and if treated by the right process there is no reason—so argue the lignite men—why their own 'Dakota mud,' as they call it, will not be converted into just as good coke as is made from the varieties of soft coal found in Ohio and Pennsylvania.

"Their dream of coke made from lignite all hinges on the discovery of the 'right process,' but there seems to be a general feeling among the lignite men to the effect that the Steel corporation is in possession of just such a process. In fact, many of them believe that agents of the steel trust are even now buying up lignite properties in the West with the intention of opening up mines when the Duluth plant is ready to begin operations, and from more than one man have I heard the statement that the present activity in lignite is due largely to the sudden, albeit clandestine, interest that the Steel corporation is showing in the lignite resources of several of the Western states."

THEY ARE GOING FAST THOSE

Hazelwood Park Lots

No dirt, no smoke, city water and gas. Title guaranteed by the state of Minnesota. Apply for maps of about forty lots that may be had from $90 to $250, without interest, at from $25 to $50 cash down, balance to suit. If you have not the $50 now, come in and talk it over. We may suggest some plan that will help you out. The new shipyard, the Wisconsin Central docks are only a few blocks away.

GRAND AVENUE LOTS.

Jepson, Griswold hotel waiter ..... William Wilson
Dick Seeley, Yale '05, stroke of the crew ..... Paul Gilmore

There is something about a college play, whatever its merit as a play may be, that catches at American audience. "The College Widow," "Brown of Harvard," and "Strongheart" have been three of the prime favorites with theater patrons during the last two or three seasons.

"At Yale" is a little different from any of them, in that it features a boat race instead of a football game. The play has just a tinge of the melodramatic about it, and from the standpoint of a dramatist some flaws could be picked in the manner in which the details of the plot are worked out, but the object of a play of this type is to interest and amuse the audience, and in this "At Yale" and Paul Gilmore are eminently successful. To catch the true college spirit is a difficult matter for any theatrical company, and the bungling attempts of the "Brown of Harvard" company in Boston recently, brought down upon their heads the wrath and incidentally the decayed vegetables, of the Harvard students.

Mr. Gilmore has surrounded himself with college men, who look the part of careless undergraduates, and they seem to be at home in the parts, instead of looking like a crowd of "muckers" imitating "college students."

But the boat race is the feature of the Gilmore show. It is even more cleverly staged than the chariot race in Ben Hur, and is a very exciting and interesting climax to the plot. By the aid of revolving scenery, and some ingenious lighting effects, the two crews are seen on the river straining every nerve to gain the advantage. The Yale crew is seen to gradually creep into the lead as the finish line is crossed. It is all very realistic and brought many encores from the large audience last evening.

Mr. Gilmore makes of Dick Seeley, a very likeable chap. He appears to thoroughly enjoy the role and to be perfectly at home in it.

His support is excellent. The men in the show are all clean cut, well built fellows, and it is not hard to imagine them as members of a college crew. The girl in the case, Miss Jane Stuart, is a pretty and attractive young woman, and Master Edward Merrighan as Jimsey, the messenger boy, deserves special mention.

There is almost a full musical comedy score in connection with the play, the numbers being delightfully sung by the male chorus.

Another performance will be given this evening and it is well worth seeing.

PORTABLE DRESSING ROOM.

Not to be outdone by other actresses, Miss Coghlan has caused to be constructed a portable dressing room for her own special use while on tour in "Mrs. Warren's Profession." It is a most elaborate affair, having all the usual appointments of the star's room, as found in the theaters today, with the addition of many little comforts and conveniences that the local management fails to furnish. The floor of Miss Coghlan's dressing room is covered with a beautiful smyrna rug, while the furniture decoration consists of a cozy corner and two or three restful chairs. The walls are hung with photographs of friends and associates of the star.

"THE EYE WITNESS."

"The Eye Witness," Lincoln J. Carter's latest and most thrilling melodrama, will be the attraction at the Lyceum Thursday evening.

"THE STOLEN KID" A HIT.

Gavin Platt and Peaches in "The Stolen Kid" an amusing vaudeville sketch, are making a big hit with the patrons of the Bijou this week.

BURLESQUE BALLAD.

Pauline Moran, the charming comedienne and vocalist whose singing and talking act is one of the features of the ollo given at the Metropolitan this week by the Imperial Burlesquers, is singing a new song that has made a big hit with Duluthians. It is a burlesque ballad, called "Won't You Come Over to Philly, Willie." The words are very clever and the air is catchy. Miss Moran's has two other pleasing songs on her list. There will be a ladies' matinee at the Metropolitan tomorrow.

CRUDE PETROLEUM GOES UP.

Pittsburg, April 24.—The Standard Oil company today advanced the price of the Ragland grade of crude petroleum 8 cents, making the quotation 70. There was no change in the other grades.

OVER 500,000 POUNDS OF LARD MAKE SPECTACULAR FIRE AT ALLEGHENY, PA.

All Efforts to Extinguish the Flames Unavailing.

Interior of Big Building Becomes Seething Furnace.

Disastrous Blaze Destroys a Big Packing Plant.

Pittsburg, April 25.—One of the most remarkable and spectacular fires seen in this vicinity started last night in the William Zoeller Packing company plant, Spring Garden avenue, Allegheny, opposite this city.

Early today when the fire was thought to be under control, a large fireproof warehouse, in which were stored 500,000 pounds of lard, suddenly burst into flames. All efforts to extinguish the fire in this department were futile and the firemen finally fastened the iron doors of the building, shutting in the burning lard.

The interior of the building soon became a seething furnace. Spurting from crevices, doors and windows, streams of hot grease ran into a sort of trench hurriedly prepared in an endeavor to prevent the hot fluid from spreading over surrounding territory.

Danger was encountered at every turn by the firemen who stood by in case the walls of the warehouse should collapse and prevent the blazing lard from reaching the adjoining property.

Shortly after the fire was discovered last night, and while thousands of spectators were gathered in the vicinity, a dozen large ammonia tanks exploded with terrific force. There was a

(Continued on page 3, second column.)

GEN. LOUIS BOTHA, Premier of the Transvaal, Who Has Formed a Close Friendship for Premier Laurier, at the Meeting of the Colonial Premiers at London.

SUMMER RESORT BURNS.

Lake Pleasant, Mass. Is Visited by Disastrous Blaze.

Millers Falls, Mass., April 25.—About 100 summer cottages and a summer hotel at Lake Pleasant, two miles from here, were destroyed by fire today. The loss is estimated at $50,000. The cause of the fire is not known.

The settlement is controlled by the Spiritualist Camp Meeting association and is divided into two sections, the Uplands and the Lowlands. Practically every building in the Lowlands was destroyed, only the railroad station and five or six cottages remaining.

LAMPLIGHTERS ON A STRIKE

People in New York Suburbs Are Left in Darkness.

New York, April 25.—Although the public suffered inconvenience last night, owing to the queerest strike this city has seen for many a day, that of the lamplighters, the brunt of the trouble was borne by the police.

Good sized sections of the five boroughs, especially the Bronx, the upper part of Manhattan and the outlying parts of Queens, were in darkness until late, save for the light cast by a three-quarters moon. Early in the night, when the more remote populace suddenly became aware that the customary illumination was not forthcoming, complaints began to pour in upon police headquarters, and so Commissioner Bingham ordered that the police render all the assistance possible.

Much discomforture resulted. Some of the patrolmen climbed the lamp posts and used matches—a process which required numerous matches as the night was rather breezy. Others who had more forethought took long poles and tapers after the most approved lamplighter style. But unfamiliarity with the work resulted in the ruination of numerous mantles. To cap the climax strikers put out some of the lights laboriously lit and from Queens, where some of the police beats are four and five miles long, came word by telephone to police headquarters that unless help was vouchsafed it would be daylight before all the lamps had been attended to. This necessitated calling out police reserves to help light up.

Polo di Cicco, who said that he was a lamplighter, was arrested on the charge of having extinguished a street lamp lit previously by a policeman.

The strikers' union numbers about four hundred men. These men are employes of the Welsbach Lighting company, which has a contract to light streets where there are no electric lights. They are mainly Italians. They are striking for recognition of the union.

PROTEST PLANNED

Against the President Through Parade of Union Bodies.

New York Agitators Condemn Roosevelt's Remarks.

New York, April 25.—Labor leaders are discussing a plan to hold a parade here on Saturday, May 4, as a protest against the action of President Roosevelt, in reiterating his declaration that Moyer and Haywood, the miners awaiting trial in Idaho on a charge of murder, are "undesirable citizens." The Moyer and Haywood protest committee has taken the initiative and has invited the Central Federated union to parade. The project together with President Roosevelt's recent letter on the subject, will come up for action at a meeting of the union Sunday. A number of labor leaders, in interviews, severely criticise the president for his stand in the matter.

Chicago, April 25.—President Roosevelt's phrase "Undesirable citizens," with which he branded Moyer and Haywood in his letter to Honoro J. Jaxon, was voluntarily assumed last night by ninety-five delegates who attended a meeting of the Moyer-Haywood defense conference. The "stigma" was declared to be a "badge of honor."

Incidentally, plans were laid for a

(Continued on page 3, second column.)

TO BEGIN A NEW CRUSADE

Against Railroads is President's Plan in Memorial Day Speech.

Chicago, April 25.—A dispatch to the Tribune from Washington says: "Memorial day at Indianopolis will mark the beginning of a new railroad crusade on the part of President Roosevelt. His speech at that time will be devoted to the future and not to the past. He will then explain for the first time in public his idea in regard to overcapitalization of railroads. This will be connected inevitably with a proposition for supervision of corporations doing interstate business and their regulation by the federal government as railroads are regulated today.

Every development of late shows that most of the big lines of railroads in the United States are vastly overcapitalized, some of them having funded debt and capital stock issues amounting to from two to ten times their actual cost. It is the purpose of the president to get at the facts rather than to suggest a remedy, but it is the facts themselves which the railroad men are most anxious to conceal. They were not half so much afraid of the rate law as they are of the results of an honestly conducted government commission to inquire into the cash value of the railroads and to fix the responsibility for a vast amount of watered stock which has been unloaded upon the public.

SUCCESSES AND FAILURES OF RECENT LEGISLATURE CONCISELY SUMMARIZED

Creating a Tax Commission Most Important Law Passed.

Reducing of Passenger Rates on Railroads Close Second.

Abolishing of Free Passes and Privileges Consistent Third.

(From a Staff Correspondent.)

St. Paul, April 25.—(Special to The Herald.)—The thirty-fifth session of the Minnesota legislature has slipped away into history, leaving behind it, that he who runs may read, the record of its endeavors, of its successes, and of its failures.

That its failures should outnumber its successes was inevitable. In the early days of the session it was evident that pretty nearly everything that should be considered, and a lot of things that it was rather absurd to take up, were to be made the subjects of legislation, or at least of bills. Bills poured into the hopper at an incredible rate, and if all of them had passed, conditions would have been revolutionized in the state, if it had not taken the officers of the state so much time to read up the laws that they would have none left to enforce them.

In short, the legislature attempted a larger task than it could handle,

Failure of Initiative and Referendum Disappointment to Many.

PRETTY GIRL TO DIG FOR GOLD

New York Maid Claims Title to an Oregon Mine.

Baker City, Or., April 25.—Provided with a grub stake and all the implements of a miner, Miss Althea Norwood, a pretty New York maiden, has left here to take possession of a half interest in a group of claims near the old Virtune mine. Miss Norwood has proved her ownership of the properties to her own satisfaction and intends to superintend their operation. Before leaving Baker City she fitted herself with a complete mining costume and will herself take a hand in delving for the precious metal.

The claims were discovered several years ago by Miss Norwood's father and a miner named Crawford. Norwood died and his property was claimed by his second wife. Althea is the daughter of a first wife in New York, whose existence was not known here. Crawford still retains his interest in the property. After arriving here Miss Norwood secured the services of a lawyer and made out a formal statement of her right to the holdings.

SHONTS TO GIVE SCHOLARSHIPS

Former Chief Engineer to Enter Ranks of Philanthropists.

Chicago, April 25.—A dispatch to the Tribune from Des Moines, Iowa, says: Theodore P. Shonts has decided to give some of his wealth to Drake university, which was founded by his father-in-law, Former Governor Francis M. Drake of Iowa. President H. M. Bell of the institution announced last night that Mr. Shonts will give the university fifty service scholarships to be effective at the beginning of the 1907 school year. He will turn over to the school each year $5,000—equal to the income from a $75,000 endowment.

AMAZING STORY PROMISED SOON

Concerning the Raid on the Securities of Trust Company.

New York, April 25.—The Herald today says that the identity of the man who engineered the raid on the securities of the Trust Company of America, for which two men, W. O. Douglass, the company's assistant bond clerk, and Oliver M. Dennett, a broker, are under arrest, has been disclosed and that his arrest is expected shortly. He is stated to be a Boston man, well known in financial and political circles. A statement from Douglass is looked for soon and the Herald says he will furnish the evidence on which the Boston man will be arrested.

When the man is arrested, it is declared, there will be told the most amazing story that the financial district has heard in years.

THE WORLD: "MR. DULUTH, I TAKE MY HAT OFF TO YOU."

DASTARDLY ATTEMPT TO BURN A RAILROAD BRIDGE ON THE SOUTHERN ROAD

Frustrated by the Town Marshal and Posse of English, Ind.

Official Shot Twice While Attempting to Arrest Miscreants.

One Man Taken But the Others Get Away.

Evansville, Ind., April 25.—Several attempts of train wreckers to set fire to a bridge on the Southern railroad near Temple, Ind., were frustrated last night by the town marshal of English, Ind., who was shot twice by two men believed to be the guilty parties.

About midnight, the night operator at Temple, saw a fire in the middle of the bridge near his station. Upon investigation he found a bunch of waste burning and extinguished it.

After he returned, three freight trains passed the station in the regular block spacing. When they had passed he again saw flames at the bridge and upon investigating found the bridge had been set on fire the second time.

Immediately he notified the train despatcher at Princeton, Ind., who telephoned the marshal of English

THEODORE P. SHONTS, Who Enters the Ranks of Philanthropists by Giving Fifty Scholarships to Drake University.

EXPOSITION NOT READY

But Opening Will Occur at Jamestown on Friday.

Expect to Have Everything Completed by May 15.

Norfolk, Va., April 25.—The day before the opening of the Jamestown ter-centennial exposition on Hampton Roads finds the management of the big enterprise straining every energy to put the grounds and buildings in presentable shape for the inaugural ceremonies. Several thousand laborers were engaged today clearing the streets which are to be traversed tomorrow by the president and his party and by the military organizations which will participate in the land parade. Notwithstanding the rush of work today, the exposition will be far from completion tomorrow. Temporary railroad tracks, debris of all sorts and unfinished sidewalks are the rule throughout the grounds, while almost every building is marred by an enclosure of scaffolding. Many of the buildings will not be open tomorrow, the management having determined that progress can only

(Continued on page 3, first column.)

A FAR-REACHING UNDERSTANDING

Perfected Between Britain and Spain for Peace or War.

Madrid, April 25.—The meeting of King Alfonso and King Edward at Carthegena, according to the Correspondencia de la Espana which says it has diplomatic authority for the story, is the perfection of a far-reaching understanding for the purpose of war and peace.

Everything concerning Morocco was ratified, everything in reference to the general European situation was discussed and the basis was formulated of an agreement which is now in the hands of diplomatists.

The outcome, according to the Correspondencia, is the result of the competition between Germany and Great Britain for an understanding with Spain and Great Britain has scored all along.

The correspondencia represents Great Britain as agreeing in effect that if Spain would allow Spanish naval ports to be used by Britain's fleet the latter would help Spain in the conversion of her existing debt, British squadrons would guarantee the security of the Spanish coasts, the Spanish land forces would, if necessary, be allies of the British and the British forces would be at the disposal of Spain should the latter need them.

Spain's obligation, under the agreement, would be to put her arsenals in order and to fortify her ports.

BRITTON JURY FAILS TO REACH AGREEMENT.

Lexington, Ky., April 25.—After twenty hours deliberation the jury in the case of Bill Britton, charged with the assassination of Town Marshal James A. Cockrill at Jackson, Breathitt county, reported a hopeless disagreement and were discharged today. The jury stood eight for acquittal and four for conviction. The trial lasted more than two weeks. This was one of the Breathitt county feud cases in which Senator Hargis, his brother, Judge Hargis, and others, were charged with participating.

"PEDLER" PALMER HELD ON CHARGE OF MURDER.

London, April 25.—"Pedler" Palmer, the English pugilist, who with another man was arrested yesterday on suspicion of having caused the death of an unknown man whose body was found in a railroad car, was charged at the Croydon police court today with murder. After a passenger on the train had testified that he saw Palmer strike the deceased several blows because he refused to stop singing, the prisoner was remanded.

THREATENED UPRISING IS NIPPED IN THE BUD.

Tokio, April 25.—Another threatened rising in Korea is believed to have been nipped in the bud by the prompt action of the Japanese administrator. The plans for the proposed outbreak are supposed to have been of comprehensive character, but owing to the timely discovery of the conspiracy, enabling the authorities to arrest the ringleaders and take steps to over awe their followers, all danger is believed to have been averted.

BUILDING FALLS INTO THE STREET

Gave No Warning and Chicago Cabmen Have a Narrow Escape.

Chicago, April 25.—The front of the eight-story building at 346 and 348 Wabash avenue collapsed today. It tumbled into the street and carried several of the floors with it.

The crash was preceded by no warning and several cabmen on the nearby stands had narrow escapes.

The building is fifteen years old and was acquired a year ago by Jacob L. Kesner, who had it remodeled. Recently the Kline Furniture company rented and occupied the three lower floors. The upper floors were unoccupied.

The debris generally fell upon or close to the sidewalk in Wabash avenue, but some fell on the elevated loop's structure. Several timbers, falling across the third rail, were ignited, but the fire department had been summoned, and when the engines arrived the blazes were put out.

The judgment of the firemen was that the collapse was the result of a weakening of the binders and supports of the building occasioned during the recent reconstruction of the building. The loss to structure and contents is estimated at from $30,000 to $40,000.

Disastrous Blaze Destroys a Big Packing Plant.

GEN. LOUIS BOTHA, Premier of the Transvaal, Who Has Formed a Close Friendship for Premier Laurier, at the Meeting of the Colonial Premiers at London.

Pittsburg, April 25.—One of the most remarkable and spectacular fires seen in this vicinity started last night in the William Zoeller Packing company plant, Spring Garden avenue, Allegheny, opposite this city.

Early today when the fire was thought to be under control, a large fireproof warehouse, in which were stored 500,000 pounds of lard, suddenly burst into flames. All efforts to extinguish the fire in this department were futile and the firemen finally fastened the iron doors of the building, shutting in the burning lard.

The interior of the building soon became a seething furnace. Spurting from crevices, doors and windows, streams of hot grease ran into a sort of trench hurriedly prepared in an endeavor to prevent the hot fluid from spreading over surrounding territory.

Danger was encountered at every turn by the firemen who stood by in case the walls of the warehouse should collapse and prevent the blazing lard from reaching the adjoining property.

Shortly after the fire was discovered last night, and while thousands of spectators were gathered in the vicinity, a dozen large ammonia tanks exploded with terrific force. There was a

SUMMER RESORT BURNS.

Lake Pleasant, Mass. Is Visited by Disastrous Blaze.

Millers Falls, Mass., April 25.—About 100 summer cottages and a summer hotel at Lake Pleasant, two miles from here, were destroyed by fire today. The loss is estimated at $50,000. The cause of the fire is not known.

The settlement is controlled by the Spiritualist Camp Meeting association and is divided into two sections, the Uplands and the Lowlands. Practically every building in the Lowlands was destroyed, only the railroad station and five or six cottages remaining.

LAMPLIGHTERS ON A STRIKE

People in New York Suburbs Are Left in Darkness.

New York, April 25.—Although the public suffered inconvenience last night, owing to the queerest strike this city has seen for many a day, that of the lamplighters, the brunt of the trouble was borne by the police.

Good sized sections of the five boroughs, especially the Bronx, the upper part of Manhattan and the outlying parts of Queens, were in darkness until late, save for the light cast by a three-quarters moon. Early in the night, when the more remote populace suddenly became aware that the customary illumination was not forthcoming, complaints began to pour in upon police headquarters, and so Commissioner Bingham ordered that the police render all the assistance possible.

Much discomforture resulted. Some of the patrolmen climbed the lamp posts and used matches—a process which required numerous matches as the night was rather breezy. Others who had more forethought took long poles and tapers after the most approved lamplighter style. But unfamiliarity with the work resulted in the ruination of numerous mantles. To cap the climax strikers put out some of the lights laboriously lit and from Queens, where some of the police beats are four and five miles long, came word by telephone to police headquarters that unless help was vouchsafed it would be daylight before all the lamps had been attended to. This necessitated calling out police reserves to help light up.

Polo di Cicco, who said that he was a lamplighter, was arrested on the charge of having extinguished a street lamp lit previously by a policeman.

The strikers' union numbers about four hundred men. These men are employes of the Welsbach Lighting company, which has a contract to light streets where there are no electric lights. They are mainly Italians. They are striking for recognition of the union.

PROTEST PLANNED

Against the President Through Parade of Union Bodies.

New York Agitators Condemn Roosevelt's Remarks.

New York, April 25.—Labor leaders are discussing a plan to hold a parade here on Saturday, May 4, as a protest against the action of President Roosevelt, in reiterating his declaration that Moyer and Haywood, the miners awaiting trial in Idaho on a charge of murder, are "undesirable citizens." The Moyer and Haywood protest committee has taken the initiative and has invited the Central Federated union to parade. The project together with President Roosevelt's recent letter on the subject, will come up for action at a meeting of the union Sunday. A number of labor leaders, in interviews, severely criticise the president for his stand in the matter.

Chicago, April 25.—President Roosevelt's phrase "Undesirable citizens," with which he branded Moyer and Haywood in his letter to Honore J. Jaxon, was voluntarily assumed last night by ninety-five delegates who attended a meeting of the Moyer-Haywood defense conference. The "stigma" was declared to be a "badge of honor."

Incidentally, plans were laid for a

(Continued on page 3, second column.)

TO BEGIN A NEW CRUSADE

Against Railroads is President's Plan in Memorial Day Speech.

Chicago, April 25.—A dispatch to the Tribune from Washington says: "Memorial day at Indianopolis will mark the beginning of a new railroad crusade on the part of President Roosevelt. His speech at that time will be devoted to the future and not to the past. He will then explain for the first time in public his idea in regard to overcapitalization of railroads. This will be connected inevitably with a proposition for supervision of corporations doing interstate business and their regulation by the federal government as railroads are regulated today.

Every development of late shows that most of the big lines of railroads in the United States are vastly overcapitalized, some of them having funded debt and capital stock issues amounting to from two to ten times their actual cost. It is the purpose of the president to get at the facts rather than to suggest a remedy, but it is the facts themselves which the railroad men are most anxious to conceal. They were not half so much afraid of the rate law as they are of the results of an honestly conducted government commission to inquire into the cash value of the railroads and to fix the responsibility for a vast amount of watered stock which has been unloaded upon the public.

SUCCESSES AND FAILURES OF RECENT LEGISLATURE CONCISELY SUMMARIZED

Creating a Tax Commission Most Important Law Passed.

Reducing of Passenger Rates on Railroads Close Second.

Abolishing of Free Passes and Privileges Consistent Third.

CLARENCE B. MILLER, New Member From St. Louis County, Who Was Conspicuously Successful.

(From a Staff Correspondent.)

St. Paul, April 25.—(Special to The Herald.)—The thirty-fifth session of the Minnesota legislature has slipped away into history, leaving behind it, that he who runs may read, the record of its endeavors, of its successes, and of its failures.

That its failures should outnumber its successes was inevitable. In the early days of the session it was evident that pretty nearly everything that should be considered, and a lot of things that it was rather absurd to take up, were to be made the subjects of legislation, or at least of bills. Bills poured into the hopper at an incredible rate, and if all of them had passed, conditions would have been revolutionized in the state, if it had not taken the officers of the state so much time to read up the laws that they would have none left to enforce them.

In short, the legislature attempted a larger task than it could handle,

Failure of Reapportionment Bill Was a Severe Blow.

As Was Also Neglect to Extend Primary Election System.

Failure of Initiative and Referendum Disappointment to Many.

PRETTY GIRL TO DIG FOR GOLD

New York Maid Claims Title to an Oregon Mine.

Baker City, Or., April 25.—Provided with a grub stake and all the implements of a miner, Miss Althea Norwood, a pretty New York maiden, has left here to take possession of a half interest in a group of claims near the old Virtune mine. Miss Norwood has proved her ownership of the properties to her own satisfaction and intends to superintend their operation. Before leaving Baker City she fitted herself with a complete mining costume and will herself take a hand in delving for the precious metal.

The claims were discovered several years ago by Miss Norwood's father and a miner named Crawford. Norwood died and his property was claimed by his second wife. Althea is the daughter of a first wife in New York, whose existence was not known here. Crawford still retains his interest in the property. After arriving here Miss Norwood secured the services of a lawyer and made out a formal statement of her right to the holdings.

SHONTS TO GIVE SCHOLARSHIPS

Former Chief Engineer to Enter Ranks of Philanthropists.

Chicago, April 25.—A dispatch to the Tribune from Des Moines, Iowa, says: Theodore P. Shonts has decided to give some of his wealth to Drake university, which was founded by his father-in-law, Former Governor Francis M. Drake of Iowa. President H. M. Bell of the institution announced last night that Mr. Shonts will give the university fifty service scholarships to be effective at the beginning of the 1907 school year. He will turn over to the school each year $5,000—equal to the income from a $75,000 endowment.

AMAZING STORY PROMISED SOON

Concerning the Raid on the Securities of Trust Company.

New York, April 25.—The Herald today says that the identity of the man who engineered the raid on the securities of the Trust Company of America, for which two men, W. O. Douglass, the company's assistant bond clerk, and Oliver M. Dennett, a broker, are under arrest, has been disclosed and that his arrest is expected shortly. He is stated to be a Boston man, well known in financial and political circles. A statement from Douglass is looked for soon and the Herald says he will furnish the evidence on which the Boston man will be arrested.

When the man is arrested, it is declared, there will be told the most amazing story that the financial district has heard in years.

THE WORLD: "MR. DULUTH, I TAKE MY HAT OFF TO YOU."

DASTARDLY ATTEMPT TO BURN A RAILROAD BRIDGE ON THE SOUTHERN ROAD

Frustrated by the Town Marshal and Posse of English, Ind.

Official Shot Twice While Attempting to Arrest Miscreants.

One Man Taken But the Others Get Away.

THEODORE P. SHONTS, Who Enters the Ranks of Philanthropists by Giving Fifty Scholarships to Drake University.

Evansville, Ind., April 25.—Several attempts of train wreckers to set fire to a bridge on the Southern railroad near Temple, Ind., were frustrated last night by the town marshal of English, Ind., who was shot twice by two men believed to be the guilty parties.

About midnight, the night operator at Temple, saw a fire in the middle of the bridge near his station. Upon investigation he found a bunch of waste burning and extinguished it.

After he returned, three freight trains passed the station in the regular block spacing. When they had passed he again saw flames at the bridge and upon investigating found the bridge had been set on fire the second time.

Immediatey he notified the train despatcher at Princeton, Ind., who telephoned the marshal of English

(Continued on page 3, second column.)

EXPOSITION NOT READY

But Opening Will Occur at Jamestown on Friday.

Expect to Have Everything Completed by May 15.

Norfolk, Va., April 25.—The day before the opening of the Jamestown ter-centennial exposition on Hampton Roads finds the management of the big enterprise straining every energy to put the grounds and buildings in presentable shape for the inaugural ceremonies. Several thousand laborers were engaged today clearing the streets which are to be traversed tomorrow by the president and his party and by the military organizations which will participate in the land parade. Notwithstanding the rush of work today, the exposition will be far from completion tomorrow. Temporary railroad tracks, debris of all sorts and unfinished sidewalks are the rule throughout the grounds, while almost every building is marred by an enclosure of scaffolding. Many of the buildings will not be open tomorrow, the management having determined that progress can only

(Continued on page 3, first column.)

A FAR-REACHING UNDERSTANDING

Perfected Between Britain and Spain for Peace or War.

Madrid, April 25.—The meeting of King Alfonso and King Edward at Carthegena, according to the Correspondencia de la Espana which says it has diplomatic authority for the story, is the perfection of a far-reaching understanding for the purpose of war and peace.

Everything concerning Morocco was ratified, everything in reference to the general European situation was discussed and the basis was formulated of an agreement which is now in the hands of diplomatists.

The outcome, according to the Correspondencia, is the result of the competition between Germany and Great Britain for an understanding with Spain and Great Britain has scored all along.

The correspondencia represents Great Britain as agreeing in effect that if Spain would allow Spanish naval ports to be used by Britain's fleet the latter would help Spain in the conversion of her existing debt, British squadrons would guarantee the security of the Spanish coasts, the Spanish land forces would, if necessary, be allies of the British and the British forces would be at the disposal of Spain should the latter need them.

Spain's obligation, under the agreement, would be to put her arsenals in order and to fortify her ports.

BRITTON JURY FAILS TO REACH AGREEMENT.

Lexington, Ky., April 25.—After twenty hours deliberation the jury in the case of Bill Britton, charged with the assassination of Town Marshal James A. Cockrill at Jackson, Breathitt county, reported a hopeless disagreement and were discharged today. The jury stood eight for acquittal and four for conviction. The trial lasted more than two weeks. This was one of the Breathitt county feud cases in which Senator Hargis, his brother, Judge Hargis, and others, were charged with participating.

"PEDLER" PALMER HELD ON CHARGE OF MURDER.

London, April 25.—"Pedler" Palmer, the English pugilist, who with another man was arrested yesterday on suspicion of having caused the death of an unknown man whose body was found in a railroad car, was charged at the Croydon police court today with murder. After a passenger on the train had testified that he saw Palmer strike the deceased several blows because he refused to stop singing, the prisoner was remanded.

THREATENED UPRISING IS NIPPED IN THE BUD.

Tokio, April 25.—Another threatened rising in Korea is believed to have been nipped in the bud by the prompt action of the Japanese administrator. The plans for the proposed outbreak are supposed to have been of comprehensive character, but owing to the timely discovery of the conspiracy, enabling the authorities to arrest the ringleaders and take steps to over awe their followers, all danger is believed to have been averted.

BUILDING FALLS INTO THE STREET

Gave No Warning and Chicago Cabmen Have a Narrow Escape.

Chicago, April 25.—The front of the eight-story building at 346 and 348 Wabash avenue collapsed today. It tumbled into the street and carried several of the floors with it.

The crash was preceded by no warning and several cabmen on the nearby stands had narrow escapes.

The building is fifteen years old and was acquired a year ago by Jacob L. Kesner, who had it remodeled. Recently the Kline Furniture company rented and occupied the three lower floors. The upper floors were unoccupied.

The debris generally fell upon or close to the sidewalk in Wabash avenue, but some fell on the elevated loop's structure. Several timbers, falling across the third rail, were ignited, but the fire department had been summoned, and when the engines arrived the blazes were put out.

The judgment of the firemen was that the collapse was the result of a weakening of the binders and supports of the building occasioned during the recent reconstruction of the building. The loss to structure and contents is estimated at from $30,000 to $40,000.

INTENTIONAL DUPLICATE EXPOSURE

DEFECTIVE PAGE

WEATHER FORECAST—Partly cloudy and warmer tonight and Friday; lowest temperature tonight about 20 degs.

Oak Hall Clothing Co.

331-333-335 W. Superior St.

$15.00---The big dollar mark fitly illustrates the value we give in the suits we sell for fifteen dollars.

We make value the supreme test—but value, with us, includes style, fit, smartness as well as quality in fabrics, trimmings and workmanship.

Furthermore, we show about double the variety you'll find in any other store in Duluth, and fit men of almost every proportion while pleasing men of almost every taste.

A. M. LOCKER WILL SPEAK

To Sunday School Workers at First Presbyterian Church.

A Sunday school workers' conference will be held in the First Presbyterian church at 4 p. m., Sunday. General Secretary A. M. Locker of St. Paul and Miss Longfellow of Minneapolis, superintendent of elementary grades, representatives of the State Sunday School association, will direct the conference.

EMPEROR'S SON,

Prince Eitel Frederick, Falls From Horse During Cavalry Drill.

Berlin, April 25.—Prince Eitel Frederick, Emperor William's second son, fell from his horse during a cavalry drill yesterday afternoon on the Doebritze grounds, near Potsdam. Alarming reports were spread here this morning regarding his condition. It was alleged that the prince was suffering from concussion of the brain and that he had also been kicked in the face by his horse. Later, however, a telephone message from Potsdam said that the first reports of the accident were exaggerated and that there was no cause for fear of serious result.

Mail a Copy

Of tonight's industrial isssue of The Herald, ninety-two pages, price 2 cents. It will require 6 cents in postage stamps to mail this number of The Herald.

RESISTED HANGING.

Necessary to Overcome Prisoner by the Use of Ammonia.

Guntersville, Ala., April 25.—Bob Watts, a young white man, was hanged in the jail yard here today under tragic circumstances. He had become possessed of a knife and resisted to the end. Amonia was thrown into his cell and he was thus overcome and dragged to the scaffold by force, moaning pitiously. Watts was hanged for the murder of Fred Winkles, an old Confederate soldier, in the fall of 1904.

RATE UNCHANGED.

Grain Charters Are Made at Rate of Two Cents.

Some grain charters were made today in Duluth at the rate of 2 cents to Buffalo.

The rate is rather weak at this figure, and there will not be much activity in grain chartering until the fleet of vessels held up at the Sault arrives in Duluth.

WOULD REDUCE DUTY ON CORN.

Stockholm, Sweden, April 25. — The parliamentary committee appointed to discuss the duty on corn, has reported in favor of a reduction o fthe tax from about 92 cents to about 38 cents per 100 kilograms. It is expected that this action will greatly increase the importation of American corn.

DECKHAND RELEASED.

Dover, Del., April 25.—Frank H. Butler, the steamboat deckhand, who was arrested yesterday on the charge of murdering 4-year-old Horace Marvin, who disappeared March 4, was released from custody today because of insufficient evidence.

ANARCHISTS ARRESTED.

Brussels, April 25.—Four anarchists suspected of having planned to assassinate Prince Albert of Belgium, were arrested today in and about a church which the prince intended to visit.

READ ABOUT THAW TRIAL

Eva Walsh, 12-Year-Old Girl, Followed Case Closely.

Many Witnesses Testify Against Character of Mrs. Walsh.

That Eva, the 12-year-old daughter of Mr. and Mrs. Walsh, is a precocious child, along the line of reading, was shown by her testimony in her parents' divorce case, when she was called as a witness for her father this morning. Little Miss Walsh had been called previously as a witness for her mother and testified to various acts of illtreatment which she claimed to have seen her father perform. Her testimony this morning was not particularly strengthening to her father's side of the case.

The child testified that she followed quite closely The Herald accounts of the Thaw trial. She recalled readily the names of all the principal characters concerned in the trial, said she knew they "tried to make Thaw out insane," and recollected perfectly that the jury disagreed. She said that she had often read the accounts of the trial to her mother and the Callahans at whose home Mrs. Walsh and her children have been staying for some time.

Eva also testified that she has read Cooper's works, part of Hawthorne's, that she has read Longfellow's and Whittier's poems, in fact about everything that she could get to read at her home. She said that she was encouraged in her reading by her parents.

Having tested the child along the line of her power of observation and her general knowledge of current events, Mr. Baldwin, representing Mrs. Walsh, asked Eva if she ever saw a picture of her mother, taken with Ole Berg, the Virginia grocery clerk. The child denied that she had ever seen or heard of the picture or that she had ever talked to her aunts about such a picture. She denied that she ever told her aunts that her mother was "just as good as anybody else, even if she had Ole Berg," or that she ever said she had written letters to Ole Berg for her mother.

The defense sought later in the morning to impeach the child's testimony, but the court sustained the objection of Mr. Adams, for the plaintiff, on the ground that Mr. Baldwin could not impeach the testimony of his own witnesses.

Robert Walsh, the 10-year-old son of the litigants, also denied that he ever saw or heard of the alleged picture of Berg and Mrs. Walsh.

Miss Mary Walsh, a sister of the defendant, testified that on one occasion when she was visiting at the home of Ellis Walsh, in Virginia, she looked through the crack in the door and saw Berg hugging and kissing Mrs. Walsh and holding her on his lap. The witness said she never told her sister-in-law what she had seen, nor her brother Ellis. Miss Walsh testified to another occasion when Mrs. Minnie Walsh visited Camp No. 6, where one of the Walsh brothers was very sick, and telephoned Berg, at Virginia, that as her husband, Ellis Walsh, was coming to the camp in a special train, she, Mrs. Walsh would go back to Virginia with him.

The witness testified that the physician tried to induce Mrs. Walsh to remain at the camp, as she was much needed there, but that she insisted on going back to Virginia that night on the special train.

Ten witnesses were called by Mr. Walsh yesterday afternoon. In the main these testified to occasions when they had seen Mrs. Walsh with Ole Berg or with McKillincan. One witness claimed he saw Mrs. Walsh and Berg out walking when Berg had his arm around Mrs. Walsh's waist. Other witnesses testified about seeing Mrs. Walsh either out riding or walking with Berg or Killincan, and some testified that when they approached the Walsh home one evening they saw a man run away from the building, but did not recognize him.

Miss Walsh claimed that she attempted at one time to get Mrs. Walsh to "quit her foolishness" and go back to live with her husband. The witness said Mrs. Walsh cried and promised that she would do better.

During Miss Walsh's testimony Mrs. Walsh sat smiling and at times laughed quite heartily at some of the statements by the witness.

THE PRINTERS SURRENDER

Clerk Cheadle Places Portion of Printing at Reduced Rate.

While no details of the meeting of the Duluth printers, which was called for last evening, are available, its proceedings having been kept dark by the printers who were present, City Clerk Cheadle said this morning that in making his rounds he noticed a much more agreeable spirit on the part of most of the printers and that he had succeeded in placing several good sized lots of the city's printing at the 20 per cent reduction demanded by the council.

"I have no doubt whatever," said Mr. Cheadle, "that I will have it all placed with Duluth printers before the date arrives after which I am to advertise for outside bids."

The placing of a portion of the work practically amounts to a surrender on the part of the printers, and the work will probably be divided evenly among the various shops in the city before the end of the week. The council's "trust busting campaign" has evidently succeeded.

MITCHELL IS BETTER.

Chicago, April 25.—The condition of John Mitchell, president of the United Mine Workers of America, who is ill in Chicago, was somewhat improved today after a fairly restful night.

Peculiar to Itself

In effectiveness, usefulness and economy, curing the widest range of diseases, and doing the most good for the money, is

Hood's Sarsaparilla

Liquid or tablets, 100 Doses One Dollar.

CITY BRIEFS

Temple Emanuel Services.

At Temple Emanuel, Second street and Seventh avenue east, services will be held Friday evening at 8 o'clock. The subject of tomorrow night's sermon will be "Justice and Honor." The services at Temple Emanuel are open to members of all denominations.

The Herald's Industrial Edition.

Tonight consists of ninety-two pages. Get it complete. The price is 2 cents per copy, or $2 per 100. They may be had wrapped ready for mailing at The Herald counting room or at the news stands for 3 cents per copy. It will require 6 cents in postage stamps to mail this issue of The Herald.

Assessors Get Blanks.

The corps of county assessors appointed by County Auditor Halden to begin May 1 the canvass of the county, outside the city of Duluth, for the purpose of placing a valuation on the personal property, visited the auditor's office today to get their blanks and instructions. About sixty or seventy assessors will be employed.

Mrs. Fay Is Ill.

Mrs. Elize Fay, mother of Mrs. John Flynn of 619 East Third street, is critically ill.

Dies of Pneumonia.

Miss Lucy E. Thiel died at the home of her mother, Mrs. M. Laughren, 326 West Third street, yesterday afternoon after a short illness of pneumonia. She was 23 years of age and was well known among the young people of the city. Besides her mother, she is survived by a sister, Mrs. J. August Anderson of the West end. The funeral will be held Saturday afternoon with services at the late home of the deceased at 2:30 o'clock, Rev. Thomas Rice of Asbury Methodist church officiating. Interment will be in Forest Hill cemetery.

Sweet Pea Seed

In bulk. Varied varieties, 5c per oz. Just half usual prices. Seekins.

Allegations Denied.

The reply in the case of William H. Murphy, Elisha H. Flinn and Selwin Eddy, as executors and trustees under the will of Simon J. Murphy, deceased, George O. Robinson and Temple E. Dorr vs. William H Shea, Mary Shea and Elwood L. Raal was filed in the United States court today. The allegations of the defendants in their answer to the company are denied by the plaintiffs.

Petition in Bankruptcy.

A voluntary petition in bankruptcy was filed in the United States circuit court today by John D. Boufford, a carpenter, whose residence is in Duluth. His liabilities consist of $723.85, all in unsecured claims, and his assets are given as household goods, personal effects, and tools to the value of $225, all claimed exempt.

Mrs. Taylor Dies.

Mrs. Lottie Taylor died yesterday at St. Mary's hospital. Her sister arrived this morning from Newton, Iowa, and the remains were shipped there for burial. She was twenty-eight years of age.

Wants Damages From Railroad.

The original complaint and summons in the case of Diana Kelly vs. The Northern Pacific Railway company, transferred from the state court to the United States circuit court, was filed with the clerk of the federal court today. The case is a personal damage suit for $10,000, brought by the complainant to recover for injuries sustained by being thrown to the floor of a passenger coach, attached to a freight train while riding from Wahpeton, N. D., to Staples, Minn., October 22, 1906. M. E. Ryan of Brainerd, is acting for the plaintiff.

G. G. Barnum Returns.

NEW POSTMASTER FOR FAIRBANKS

Washington, April 25.—(Special to The Herald.)—Katie Huber has been appointed postmaster at Fairbanks, St. Louis county, vice Helena Riess, resigned.

SUICIDE IDENTIFIED.

Chicago, April 25.—A man who committed suicide here yesterday by throwing himself in front of a switch engine was today identified as Carl Lewan of Des Moines, Iowa. Lewan was a tailor, and his inability to find work is believed to have led to his act. He leaves a widow and children in Des Moines.

SESSION IS QUIET ONE

Copper Shares Are Inactive, But the Close is Firm.

Chief Trading During Day Was in Cheaper Shares.

Copper stocks were rather quiet today and closed a little stronger than yesterday. There was considerable trading during the day, however, in some of the unlisted stocks, notably the cheaper ones. The Boston list was dull.

North Butte opened at $85.75, advanced to $86.25 and closed at $86 bid and $86.25 asked. Amalgamated opened ex-dividend at $94, advanced to $94.37½, declined to $93.62½ and closed at $94.12½ bid and $94.25 asked. Anaconda opened at $62.50, declined to $62, rallied to $62.37½ and closed at $62.50 bid. Butte Coalition opened at $25.75 bid and $26.12½ asked, sold at $26, advanced to $26.50 and closed at $26 bid and $26.25 asked. Calumet & Arizona opened at $166, declined to $165 and closed at $165 bid and $165.50 asked.

Greene-Cananea sold at $16.25, advanced to $16.62½, declined to $16.25 and closed at $16.25 bid and $16.50 asked.

Superior & Pittsburg sold at $18, advanced to $18.37½, declined to $18 and closed at $18 bid and $18.25 asked. Globe Consolidated sold at $13.75, went off to $13.50 and closed at $13.50 bid and $13.75 asked.

Warren sold at $8 and $7.75, and closed at $7.75 bid and $8 asked. Denn-Arizona advanced from $9.50 to $9.87½ and closed at $9.62½ bid and $9.87½ asked. Butte & Superior sold at $3.25 and closed at $3.25 bid and $3.75 asked; Copper Queen of Idaho at $1.50 and closed at $1.50 bid and $1.62½ asked; and Calumet & Montana at $1 and closed at $1 bid.

Keweenaw was inactive and closed at $10.12½ bid and $10.37½ asked. Hancock at $8.50 bid and $9 asked, Carman at $3.75 and $4 asked, Calumet & Sonora at $20 bid and $22 asked and Cliff at $3.75 bid and $4 asked.

Black Mountain sold at $5.87½ and closed at $5.87½ bid.

* * *

A dispatch from Houghton, Mich., to Paine, Webber & company, says:

"T. F. Cole was in Calumet yesterday on Superior & Pittsburg business. New certificates are being issued and other steps being taken preliminary to an application for listing on the Boston stock exchange. Mr. Cole stated that the metal is in good shape and will take care of itself. He said that all the properties in which he is interested are in better condition than ever before from a physicial standpoint.

* * *

Dwight E. Woodbridge is back in Duluth for a day or two, after a long absence in Mexico, whither he went to look after some mining propositions. He spent most of his time in the Western part of the republic, where the weather is very warm most of the time and where the siesta in just the proper caper during the middle of the day.

Mr. Woodbridge looks bronzed and healthy. He reached Duluth yesterday afternoon and is already making preparations for returning to Mexico. He will probably start tomorrow. He was in Bisbee over night on his way up but did not get around the camp any.

When he leaves Duluth this next time, he does not expect to see the aerial bridge or Hunter's Park again until the middle of the summer.

LOEB MAY HEAD A BIG COMPANY

Rumors That He Will Retire as President's Secretary.

Washington, April 25.—According to a rumor which has been in circulation for some time, and was more defined today, William Loeb, Jr., secretary to the president, is to become head of the Washington Railway & Electric company of this city. This corporation is owned largely by Philadelphia, New Jersey and New York capitalists, whom it is stated desire Mr. Loeb to represent their interests. The change is not expected to occur until January next, when, according to the general understanding which has existed here for some time, reorganization of the company will occur. Owing to Mr. Loeb's departure today aboard the Mayflower with the president for the Jamestown exposition, no confirmation could be had from him of the rumor. The present president of the roads is Representative McDermott of New Jersey.

MISS BARRYMORE'S BON MOT.

New York Morning Telegraph: Ethel Barrymore is credited with a bon mot which is quoted in all the society papers as being quite the latest witticism of one or another of several distinguished people.

It seems that a Boston chappie had quite forced a photograph of his doubtful beauty upon the star of "Capt. Jinks," and that the foolish son of Harvard had followed his presentation with fervid inquiries as to how Miss Barrymore liked the portrait.

Of course, being a well-bred girl, our Ethel declared herself delighted with the picture.

"But do you think it quite does me justice?" persisted the youth. Miss Barrymore bent one of those quelling glances upon him.

"O, yes; justice tempered with mercy," she replied frigidly.

Whether buyers come to your store by ones and twos or by tens and dozens depends upon how convincing your store advertising is in The Herald.

WILL THEY SUCCEED?

Y. W. C. A. Campaign Committees Have Only Four Days More.

"Subscribe and Do It Now" is the Call.

Just four days more!

Not counting Sunday, on which no work will be done, the women who are boosting for the new Y. W. C. A. building have just four days left in which to secure the $130,000 which they set out to raise.

Will they get it?

The call has again gone out from the headquarters that the pledge cards now out be forwarded to the rooms as soon as possoble.

The latest bulletin is as follows:

Red—Charlotte Robinson	$1,922 93
Blue—Carrie Russell	1,662 66
Yellow—Alice Drew	1,552 01
Green—Augusta Ehling	886 95
Pink—Elsie Look	1,235 16
Lavender—L. L. Garvin	1,482 00
Women's committees	8,479 00
Men's committees	64,850 00
Total	$82,069 81

MEET DOWAGER EMPRESS.

Paris, April 25.—President Falleries and Foreign Minister Pinchon went to Bourget, near Chambery, today, to meet the dowager empress of Russia, who is passing through France from Biarritz on her way to Russia. Cordial greetings were exchanged, and the harmonious relations existing between Russia and France were dwelt upon at length.

BOTH STRAIGHT FLUSHES.

Remarkable Outcome of Poker Game In Town of Wisconsin.

Washington Star: "There was a poker game out in my town that might have forced a good many of us to smoke corncob pipes till next Fourth of July if it hadn't turned out the way it did," remarked a member of the common council of a Wisconsin town. "A pretty fair-sized percentage of the whole downtown population of the place was more or less mixed up in the outcome of the showdown, and the number of men who stood a tap on the thing was extraordinary.

"The game started between a quartet of newspaper men, night workers. They'd been in the habit of starting a small game every night, after the bulk of their work was done, in the room set aside in the city hall for newspaper reporters. They didn't hurt each other much in these games, although once in a while one of them, when the limit had been recklessly raised around payday to as high as two bits, succeeded in annexing most of the wages of the other three. There wasn't more than $10 among the four of them on this night, though, and the game drifted along without anything unusual for an hour or so. Then Jim Hopewell—which is close enough to the reporter's name—opened a jackpot for 10 cents, and the only man in the bunch who stayed was Ed Hazlitt—which is, again, not exactly Ed's final name.

"Hopewell's hand shook some when he scanned his cards, for he never was a good poker player, being unable to control his facial expression and general conduct at critical points of the game. And Hazlitt, who in a game of poker generally exhibited the countenance of a cigar store Indian, looked over his cards. The two players who had dropped out looked at the other two with curiosity.

"Both stood pat, and then, by 10-cent bounds—a dime being the limit that night—they both bet all the money they had. Then they each borrowed all of the money that the pair of dead ones—the two who had dropped out—possessed, each man getting half, share and share alike. They bet that. When it came time for a show-down, Hopewell said to Hazlitt:

"'Ed, I've got papers here that are worth more than the little coin we are betting tonight. Is that the way you look upon your tickets?'

"'It sure is,' replied Hazlitt.

"'Well, said Hopewell, 'what's the matter with our sealing our hands up in envelopes and leaving them here, in the custody of these fellows, while we go out and connect with some more dough? I don't mind telling you that I've got you walloped to a standstill, but you are acting in such a sassy way in coming back at me that I don't feel much like going light on you, you see.'

"'Don't you let a little thing like that worry you,' replied Hazlitt. 'I've been digging around trying to hit your trail for a proper killing for some time past, and now that I've got you in the trench I'm sure a-going to toss the clods on top of you.'

"So the two hands were duly sealed up and Hopewell and Hazlitt went their respective ways to get money. Each got $50, and they came back and bet that on their hands without re-opening the envelopes.

"'D'ye want to make it a call?' Hazlitt asked him, 'or do you want to impoverish your family by waiting until morning and getting another bundle on that mess of yours, with the limit taken off?'

"'That's just what I was about to suggest,' replied Hopewell.

"So they abandoned the game for that night, each man depositing his hand, with the envelope, with the self-sealed up in its envelope, with the police captain on duty, the name of each man on the envelope containing his hand.

"Now, all of this happened without anybody knowing anything about it, except the four players who were in the game. But the next day the whole city hall was next. Hopewell came to me and told me, after asking me to pass my word that I wouldn't give away what his hand contained, all about it, and suggested that if I wanted to make a little side bet on his hand there was a book running on the showdown at one of the cafes patronized by the city officials. I went there, and, sure enough, there was a regular betting game going on as to the relative merits of Hopewell's and Hazlitt's hands. Hazlitt had put his friends next to what he had in his hand, after exacting from them the promise that they wouldn't give it away, and the Hazlitt party looked every bit as confident as the Hopewell outfit. Now, the dent as the Hopewell hand was all but unbeatable, and I took that end of it to a much larger extent than I'd care to have my wife know about. I just played Hopewell for a world-beater on that hand of his, and got even money from the Hazlitt people who took the Hazlitt end of it.

"That's the way betting went—even money and take your pick—and every man to whom Hopewell and Hazlitt had revealed his hand kept his word and held on to the secret of the hand that he knew about. During the day the word about those two poker hands all sealed up got all around town among sporting men, politicians and all sorts of people, and I'd be afraid to say just how much money was put up on the showdown. Both Hopewell and Hazlitt had dug up between $200 and $400 apiece to bet on their respective hands, and the sealed hands were to be opened publicly in the cafe where the betting was going on that night. Every man interested in the opening of the two envelopes was on hand when the result was to be made known. At the appointed time Hopewell and Hazlitt stepped to the table whereon the two sealed envelopes rested, and Hopewell, producing a $5 note, laid it down and said:

"'Five more.'

"Hazlitt produced his five and said:

"'I call you.'

"All of us Hopewellites were on Hopewell's side of the table, and we weren't particularly excited when the Hopewell envelope was opened, for we knew that Hopewell's hand was a straight flush of hearts, from nine to king. But the Hazlitt gang on the other side of the table set up a yell as the cards were put down, one after another.

"At first their shouting was so great that we thought we were beat by a royal flush, but when we heard the yell, 'It's a standoff,' we knew that he had a sequence flush of diamonds, from nine to king. Of course, the usual number of croakers, who always maintain that one suit in a case like that beats another, tried to get in their work, but it didn't go. All of the money was split and the game was declared no contest. That was probably the biggest poker game, in point of the number of men engaged in it, ever played in this country, and it wasn't any small thing in point of the amount of money, all told, bet on the hands, either."

WHISKERS, HATS AND CANES.

New York Sun: An honest history of the beard would lay open an undercurrent of petty vanity in many of the world's greatest figures. Henry VIII, for instance, shaved until he learned that Francis I of France of France wore a beard, and then he laid aside his razors and strops forever. Even the gentle Sir Thomas Moore had a beard which was his joy and his pride. When he was on the scaffold and the headsman was about to lift the fatal axe Sir Thomas halted him, saying: "Wait till I put aside my beard, for that has committed no treason."

Again, there was the celebrated bishop of Clermont, who was appointed to that office shortly after the Council of Trent, and who precipitately fled his bishopric one Easter Sunday morning rather than suffer the loss of his beard. What faults of feature in the good bishop, a retreating jaw, a fat neck, blubber lips or what not, might have been revealed through the agency of the scissors and razor we know not, says the American Tailor and Cutter, but that the concealment of such facial flaws has always been to a greater or less degree the motive for the growth of beards is certain.

In Mexico and other Spanish countries the hat has for centuries been the object of man's vanity. The custom found its origin in the days when the Hapsburg power was supreme. One of the most cherished privileges that the old grandees enjoyed was that of wearing their hats in the presence of royalty. The absolute power of their monarch left them little else to do but enter into rivalry with one another in regard to the splendor of their head coverings. The gay conceit spread rapidly throughout the Spanish domains, and even today characteristic sugar-loaf hats may be found in Mexico for sale at the astonishing price of from $50 to $1,000 for a single hat. When our soldiers invaded Cuba and Porto Rico in 1898 the Spanish style struck their fancy, and most of those who did not come back to the States in hospital ships returned with their sedate campaign hats transformed into contraptions with high pointed crowns, after the Spanish fashion.

From the time when man wandered through the pathless forests bearing on his shoulder a murderous bludgeon with which to strike down his enemies, the cane has never entirely gone out of fashion. The modern fop would feel as much at sea without it as "Beau Nash," as the beau of whom Steele's "Tatler" spoke in 1709, when it said that the cane had "become as indispensable as any other of his limbs," and that, with "the knocking off of his shoe, leaning one leg upon it or whistling upon it with his mouth, he does not know how he should be good company without it." It may be flattering to the vanity of such a one to know that the grotesque knobs and arabesque heads that he delights in displaying on his walking stick are lineal descendants of the carved baton that the fools and jesters of the Middle Ages wielded.

ROYALTY AND OLD AGE.

London Globe: When the Princess Clementine of Saxe-Coburg, mother of Prince Ferdinand of Bulgaria, died a couple of weeks ago, she was generally spoken of as being the oldest living member of any royal family in Europe. This was an error. She was only the second oldest, although she would have completed her ninetieth year had she lived to Jun 3.

The oldest is the Princess Charlotte-Amalie of Schwartzburg-Sonderhausen, who was born on Sept. 7, 1816, at Arnstadt, and is therefore 91 years old. She was married at Glockenthal in 1856 to Jean Henri, Baron de Jud, and she has been a widow since 1834. Sh lives in Berne, Switzerland.

Royalty seems to be conducive to long life. Including the Princess Charlotte-Amalie, there are eleven members of royal families who have reached 80 years and upward. The second oldest at present is the Prince Regent Luitpold of Bavaria, who was 86 years old on March 12.

Next comes the Dowager Grand Duchess of Mecklenburg-Strelitz, who will be 85 on July 9. The duchess of Adelgunde of Modena, sister of Luitpold, is the fourth, having been born on March 9, 1823.

There is no survivor in the "Almanach de Gotha" from 1824; but Prince Johannzu Holstein-Glucksburg represents 1825; his birthday is Dec. 17. He is the last surviving brother of King Christian IX of Denmark.

George, duke of Saxe-Meiningen, will be 81 on April 26, and next in order comes Eugenie, once empress of the French, who first saw light on May 5, 1826, and who now divides her time between her house in Hampshire, Eng., and her villa at Cap Martin, in the South of France.

The Grand Duke Friedrich of Baden is a sturdy man nearly 81 years old. He was born on Sept. 9, 1826. Ernest, duke of Sachsen-Altenburg, is seven days younger, and the Princess Mathilde of Schwartzburg, mother of the reigning prince of Schwartzburg-Ludolstadt, was born on Nov. 18, 1826. Finally, the Archduke Rainer of Austria was born on Jan. 11, 1827.

There are at least fifty members of royal houses whose ages range from 70 to 80 years.

TOO LATE TO CLASSIFY

Harper Method Shampooing and care of the Scalp and Hair, at Miss Horrigan's.

THE SPALDING TOILET PARLORS. Manicuring, massage, shampooing Room and 'phone 19.

FURNISHED ROOM WITH BATH AND use of 'phone. Old 'phone 1144-R. 319 East Superior street.

The Sale of Over 300

High-class

Tailored Suits

continues uninterruptedly and each day buyers become more and more enthusiastic over the very splendid values!

—if it were not the end of the season they would be considered "cheap," but here we are at the very opening of the season offering these sterling values—values that should appeal to every frugal woman who cares about the kind or character of clothes she wears—

Divided into four selling lines and placed on special racks for rapid and decisive selling—it shouldn't take long to dispose of them, and especially when women begin to find out how good these bargains really are.

$29.50 to $32.50 Suits— **$18.50**

$35.00 to $39.50 Suits— **$25.00**

$42.50 to $49.50 Suits— **$32.50**

$52.50 to $59.50 Suits— **$32.50**

Friday would be a splendid day to come and avoid the usual Saturday throngs of buyers!

Alterations on these sale garments are charged for at cost—

Absolutely None on Approval. Regular Charge Accounts can have present purchases put on their May account and bill rendered June 1st.

Giddings

D. E. H., April 25, '07.

We've found another maker.

We told you recently that the Belfast Linen Mesh people, whose underwear was sold by this store for the last seven years, went bankrupt, and that we had to look for another maker. We've found one. Not without looking over every make in the country and selecting what we are convinced is far the best. No one who has worn linen mesh but praises it, however, the uniform plaint is that while it's good, it is too expensive for the ordinary man, because nearly all linen mesh underwear lacks in wearing qualities.

Kneipp Linen Mesh Underwear

is the kind we finally selected, because it's differently constructed, is composed of pure Irish Linen throughout, and also guaranteed to give satisfaction in wear. Most of the earlier makes, however comfortable and hygienically valuable, did not wear well, partly because the manufacturers were without experience and partly because everybody was prejudiced in favor of the pure white bleached article.

Kneipp Linen Mesh is free from all these earlier defects. It is made from the finest Irish linen yarns only. The fabric is of double construction (thus doubling the wearing capacity), and the material is now so treated and finished that it retains its shape under all ordinary conditions of wear. In order to reassure the public the makers will replace, free of charge, any unbleached Kneipp linen mesh underwear that fails to give reasonable satisfaction in wear.

Our first shipment of Kneipp linen mesh underwear is now on hand, both bleached and unbleached, and union suits as well as shirts and drawers, in regular and in stout sizes. Price $3.25 a garment. Union Suits $6.00.

COLUMBIA CLOTHING CO.

Guaranteed Everwear Hosiery.

EXPOSITION NOT READY

(Continued from page 1.)

be made by excluding the public during the time the workmen are still engaged in their labors.

The feature of the opening day, which nothing but bad weather can mar in the slightest degree, will be the naval pageant in Hampton Roads. President Roosevelt, on board the yacht Mayflower, will review the ships of the nations now at anchorage and the spectacle will be witnessed by thousands from the shores of the exposition grounds. Pleasure craft and excursion steamers by the score will frame the anchorage grounds of the fleet and the water show is expected to surpass anything ever seen in this country.

The management, as announced officially last night, expects to have the exposition completed by May 15 in all essential details and this optimistic prediction is quite generally concurred in by the citizens of Norfolk. The suggestion has been made that the grounds might be closed during the interim, but the directors decided against this course unanimously.

The foreign ships, which all along have been looked forward to as forming one of the notable aspects of the Jamestown fair, will be in the roads for several weeks and will prove an interesting attraction to the thousands of visitors now en route to Norfolk.

Washington, April 25.—Three official parties bound for the Jamestown exposition will sail down the Potomac today, embracing representatives of the executive and legislative branches of the United States government and the diplomatic representatives of foreign governments who will be present tomorrow at the opening ceremonies of the ter-centennial exposition.

President and Mrs. Roosevelt, Miss Ethel, Archie and Quentin, will sail on the Mayflower late this afternoon.

The congressional party, comprising a joint committee of senators and members of the house of representatives, their families, and a number of employes of each house, sailed on the new daylight steamer Jamestown at 8 o'clock this morning.

The diplomatic corps, the members of which are the guests of the Jamestown ter-centennial commission, will sail at 5:45 o'clock this afternoon on the steamer Newport News.

The steamers party and the diplomatic party will make the run down during the night and will return Friday night. The congressional party is to be quartered at Old Point Comfort and will start for Washington Sunday morning.

The fleet of steamers bearing these parties has been provisioned and equipped with all necessaries for comfort. Congress appropriated $7,000 to defray the expenses of the joint committee on this occasion; the government commission has an ample fund for the entertainment of its guests, and the supplies of the Mayflower are always adequate.

The arrival of the president at Hampton Roads tomorrow morning will be the occasion of a salute from the aggregation of warships anchored in spectacular review and representing the principal navies of the world. The president is to play the leading role in formally opening the exposition, and the exercises are to begin as soon as he arrives on the ground. The features of the day are to be a speech by the president, a parade of detachments of the army and navy, concluding in the evening with a grand reception to the president.

Copies of the Industrial Edition

Of The Herald may be had at The Herald counting room or any of the city newstands for 2 cents per copy, or wrapped and ready for mailing at 3 cents per copy. Six cents in postage will be required for mailing the same.

Gray-Tallant Co

Home Beautiful

TALK NO. 2.

Some exquisite Fillet Lace Curtains are made by hand in Germany.

They cost from $260.00 to $500.00 per pair when imported to this country.

An Eastern lace mill imported a few of these curtains recently and copied them with improved American machines on the finest cable net ever made in America.

We have some of the first output of them.

They are very pretty and have the charm of novelty—yet our prices are very reasonable.

Let us show them to you on a new drapery display rail, which enables you to compare them with other kinds.

By the way—the Gray-Tallant Co. are probably the first retail house in the country to adopt this new idea for displaying draperies!

In every way our new Rug and Drapery department is as up-to-date as can be—visitors are welcome—take elevator to 3rd floor.

Gray-Tallant Co

FIRE AT ALLEGHENY

(Continued from page 1.)

panic among the spectators, but no one was injured. That no loss of life attended the fire is considered marvelous.

Fire was first discovered in the killing department of the plant and is supposed to have been caused by crossed electric wires. Owing to the inflammable nature of the grease-laden woodwork, this building was soon beyond control of the firemen.

At 8 o'clock this morning the fire had practically burned itself out and it was said that $300,000 would be a conservative estimate of the losss.

PROTEST PLANNED

(Continued from page 1.)

demonstration on the lake front on May 19. Chairman Barney Berlyn announced that only "undesirable citizens" would be invited to participate.

The Chicago Federation of Labor is unwilling to shoulder the responsibility incurred by the Roosevelt reply to Jaxon. At a meeting of the executive board yesterday it was determined to sidestep the "boomerang" which descended on Jaxon.

"We haven't a word to say," declared Secretary Nockles. "Jaxon does not represent organized labor, and therefore he will have to face his own troubles alone. Labor cannot be held to account in any way for Jaxon's protest to the president, nor for what followed."

The policy of the federation, it is said, will be to await an answer from the president to the resolutions adopted by the Central Labor body last Sunday, and which were forwarded to Washington the following day. It is thought the president had not yet received the resolutions when he wrote the letter to Jaxon.

SEASON OF MOVING ON

Many People Are Changing Residences This Spring.

Large Percentage of Them Moving Into Own Homes.

The general aceptance of May 1 as the one and only original moving day is only true to a certain extent in Duluth, judging by the developments this spring. There will be plenty of work for the moving companies about May 1, but it is equally true that they have about all they can handle right now, have had for about two weeks past, and expect to have for another month. The chronic movers, those who change their place of residence every spring or so and who have come to deal with the problems of moving more intelligently, through experience, have come to realize that there are other days in the year when the moving can be done just as well, if not better, than on May 1. Time was, when the van companies were overcrowded for about one week on the first of May. It was necessary to put on extra teams and extra men and there was nothing but a rush, crush, and bustle for a few days.

Now it is different, for the moving is distributed through a longer space of time. Some people move about the first of April, others put it off till the first of May, others to the first of June and myriads come in between. The most general class of movers are those who lease a house for a year or two and move at the expiration of their lease. Those people were accustomed to having their leases read from May 1 to May 1, but now in a good many cases, the date is June 1, or even later. They have better weather then, and this offsets the disadvantage of not being settled in the new residence in the spring.

The moving companies report that the volume of business is just as great this spring as in former years, if not greater, and they are kept busy. The distribution of the moving, however, allows them to use only their regular force and in this way one disadvantage of the ordinary spring rush, the employment of extra forces is eliminated. The employers are thankful for that and the movers will also find it to their advantage. Inexperienced men will not get a chance to handle the furniture, and with experienced men only on the jobs, the goods will be delivered in better shape than if chances were taken with men not accustomed to handling furniture.

Houses are none too plentiful in Duluth this spring and there are any number of householders whose leases expire and who wish to move, but are prevented from doing so on account of the inability to secure another house. Those who have been fortunate enough to secure houses leave room for others and the vacant houses are snapped up quickly.

One feature of this year's moving, which has been noticed by van company officials is the excess of people coming into the city over those going out. In the spring, the moving and baggage transfer companies can always count on a number of people coming into Duluth and also an exodus of small proportions. This year, the outgoing number is smaller than ever, while Duluth evidently looks good to people leaving other cities. The prospects of Duluth are directly responsible for the condition. With the expected arrival of new industries and the increased activity in every line of business, people in other cities are looking toward Duluth and the city is evidently in line for a healthy growth this summer.

Another prominent feature of the residence changing this year, is the number of people moving into new homes of their own. The number of this class exceeds all previous records, according to those who are moving the furniture from their rented residences. During this winter, many houses were erected in Duluth and they are now nearing completion, so that on the expiration of their leases, the owners may take up their residence in their own homes.

DASTARDLY ATTEMPT

(Continued from page 1.)

to go to the bridge on a train that was coming into that station, and to pick up all suspicious men along the track. After leaving English the marshal met two men and demanded that they give an account of themselves. One of the men opened fire on the marshal, shooting him twice. The posse of the marshal succeeded in arresting one of the men, but the other got away.

All trains on the Southern Railway are being searched for suspicious characters and a posse is being organized at English, to go in pursuit of the man who escaped. Bloodhounds have been ordered from Louisville to assist in the case. It is not known whether the miscreants attempted to wreck the train for vengeance or for the purpose of robbery. The section men on the Southern road have been ordered to patrol the tracks in the vicinity. Later information indicates that there were four men in the gang. They have been located in a wood near English and a posse will be sent to try to capture them.

Supt. Sheridan left Princeton, Ind., this morning and will take charge of the search for the train wreckers.

Feeling is very high at English over the shooting, and it is feared that the arrested man will fare badly. He refuses to talk.

A posse of men started out of Decker, Ind., today to try to trace the gang with bloodhounds. The dogs took the trail near the bridge, where the miscreants started the fire, turning directly into the woods at the side of the tracks.

Marshal N. E. Cummins, who was shot by the would-be train wreckers, is not fatally wounded.

LODGE NOTES

HELP THE G. A. R.

An Auxiliary Organization May be Formed in Duluth.

Local members of the G. A. R. and several citizens interested held a meeting at the Commercial club yesterday afternoon to discuss the matter of organizing a citizens' staff auxiliary of the G. A. R. in Duluth, as has been done in St. Paul, Minneapolis and other cities, to work in harmony with the G. A. R., and continue the work of the Grand Army after it has ceased to be. In the end it is believed the movement will develop into a national organization to perpetuate the work of the G. A. R.

W. I. Prince acted as chairman, and was authorized to name a committee to further consider the next step to be taken, and the ways and means of organizing the local staff. Short, but stirring talks relative to the subject in hand were made by Rev. J. W. Powell, R. E. Denfeld, Capt. M. W. Bates, Judge Page Morris, Mayor Cullum, Dr. Bowden, S. W. Clark, commander of Culver post, and C. S. Mitchell. Others present were Capt. W. H. Smallwood, Capt. T. H. Pressnell, Dr. C. M. Wilson, Rev. N. Upham, J. H. Barnard, H. C. Helm, John LaVaque and Edmund G. Chapman of the G. A. R. and Messrs. H. G. Gearhart and C. E. Lovett.

DULUTH MEN HONORED.

Royal Arcanum Grand Council Elects Two as Officers.

M. J. Mullin of Duluth was elected grand chaplain at the seventeenth annual session of the Minnesota grand council of the Royal Arcanum, in St. Paul, and George T. Hughes of Duluth, was elected grand secretary. Following is the result of the election: Grand regent, Charles T. Boener of Minneapolis; grand vice regent, George H. Grant of Stillwater; grand orator, Frank L. Gregory of St. Paul; past grand regent, William H. Barber of Minneapolis; grand secretary, George T. Hughes of Duluth; grand treasurer, Robert D. Cone of Minneapolis; grand chaplain, M. J. Mullin of Duluth; grand guide, Julius E. Fitch of Albert Lea; grand warden, Daniel W. Drake of Dover; grand sentry, J. C. McSteen of St. James; representatives to the supreme council, Robert A. Walker of St. Paul, and Frank L. Palmer of Minneapolis; alternates, James Craig of Merriam Park, and Edward J. Davenport of Minneapolis.

B. Frank Pay was re-elected a grand trustee for a term of three years. J. W. Nattrass of St. Paul was elected to fill the one-year term of C. T. Boener, made grand regent, and B. F. Smith of Minneapolis will fill out the two-year term of M. J. Mullin, elected grand chaplain.

The Duluth delegates returned from St. Paul last evening.

DECLARED A DRAW.

Sparring Match at Eveleth Between Ulrich and Sizloff.

Eveleth, Minn., April 25.—(Special to The Herald.)—A ten-round sparring match was pulled off here last night, between "Curly" Ullrich of Superior and Otto Sieloff of Chicago, the referee calling the bout a draw, after it had gone the limit. The match was clean and fast from start to finish and most of the enthusiastic crowd present were well satisfied with the referee's decision, as the men were evenly matched.

A preliminary bout was put on by Kid Martin and Mike ——, both of Superior, which was a one-sided affair, Martin easily outclassing his opponent.

In a wrestling match held here Tuesday night, Jack Welch won two out of three falls from the "Cuban Wonder" of Cleveland. The "Cuban Wonder" won the first in 3:40, and Welch took the last two in 3:20 and 1:40, respectively. John Berg of Duluth immediately challenged the winner for a bout next Tuesday night, on a bet of $100.

IN A SHADOW.

Inveterate Tea Drinker Feared Paralysis.

Steady use of either tea or coffee often produces alarming symptoms as the poison (caffeine) contained in these beverages acts with more potency in some persons than in others.

"I was never a coffee drinker," writes an Ill. woman, "but a tea drinker. I was very nervous, had frequent spells of sick headache and heart trouble, and was subject at times to severe attacks of bilious colic.

"No end of sleepless nights—would have spells at night when my right side would get numb and tingle like a thousand needles were pricking my flesh. At times I could hardly put my tongue out of my mouth and my right eye and ear were affected.

"The doctors told me I was liable to become paralyzed at any time, so I was in consant dread. I took medicine of various doctors and no end of patent medicine—all to no good.

"The doctors told me to quit using tea, but I thought I could not live without it—that it was my only stay, I had been a tea drinker for twenty-five years; was under the doctor's care for fifteen.

"About six months ago I finally quit tea and commenced to drink Postum.

"I have never had one spell of sick-headache since, and only one light attack of bilious colic. Have quit having those numb spells at night, sleep well and my heart is getting stronger all the time. Name given by Postum Co., Battle Creek, Mich. Read the little book, "The Road to Wellville," in pkgs. "There's a Reason."

LATE DOINGS IN UPPER MICHIGAN

Julius Loewenstein Struck and Killed by Train at Menominee.

Menominee, Mich., April 25.—(Special to The Herald.)—The southbound Chicago & Northwestern train No. 2, due here at 11:07 last night, struck and killed Julius Loewenstein, carrying the body for several blocks on the pilot of the engine and mutilating it beyond recognition. The deceased was unmarried and about 42 years of age. He has several brothers and a sister in this city.

Milton Greenman, son of James Greenman, was accidentally drowned Tuesday evening while fishing with a number of companions near the docks of the Spies Lumber company. The boy lost his balance and fell into the water, his companions being unable to rescue him. The body was recovered by the police. The boy was 12 years of age.

After being blind since childhood, sight has been restored by a series of successful operations by local physicians to Anna Komogovic, an Austrian girl 23 years old. The young woman, being poor and homeless, was treated gratis by the oculists, while being cared for by the Franciscan sisters.

While engaged in breaking a rollway of logs in the yards of the N. Ludington company, William O'Connor was seriously injured about his hips and legs Tuesday afternoon. He is expected to recover.

Houghton—Peter Frazer, a brakeman on the Copper Range rock train between the Adventure mine and the Adventure mill in Ontonagon county, was instantly killed in a horrible manner Tuesday morning about 10 o'clock. Frazer was rear brakeman and was near the end of the train. In some manner he fell between two cars while the train was going at high speed. Two wood choppers near the track saw the accident, and they succeeded in attracting the attention of the engineer, who stopped the train. Frazer's body, in two parts, was lying on the track. His death, mercifully, was instantaneous. He was a man well on in years, and aside from his wife he leaves seven children. The man had been a resident of Houghton county for many years. He leaves three brothers—Fred, George and Joseph Frazer, who live at Trimountain.

Andrew Kauth, Nicholas Evert and Richard Rourke, three of the oldest liquor dealers in Hancock, announce that they will go out of the business May 1.

Miss Edith Russell of Marquette, for the past year assistant in the kindergarten of the Houghton Central school, has resigned that position, to take effect in June.

J. H. Lawton of the Grand theater, Calumet, is in Ishpeming with a view of locating a theater there. He expects to establish a chain of 10-cent theaters throughout the upper peninsula.

H. W. Hart, former agent for the Duluth, South Shore & Atlantic at Houghton, later bookkeeper with Minnear & Co. in Calumet, has returned to Houghton to take a position in the brokerage office of Gay & Sturgis.

Joseph Shields, for twenty years a locomotive engineer on the Mineral Range train between Hancock and Lake Linden, has retired from active service. Nicholas Schiefer, a veteran of only a few years less service, succeeds him.

Ishpeming—Mrs. Louise Larson, an old resident of this city, died after an illness of some months' duration. She was aged 77, and is survived by four daughters, three of whom live at the Winthrop and one in Ishpeming. The funeral will be held Sunday afternoon from the Swedish Lutheran church.

Manistique—Rev. Albert Torbet, pastor of the Presbyterian church, has left for Rome as a delegate to the world's Sunday School convention, called to convene at Italy's metropolis May 18 and to close the following Friday.

Escanaba—The contract for the construction of the new Methodist church has been awarded to John S. Lindsay. The approximate cost of the edifice will be $19,000.

Marquette.—William Woodbridge, No. 914 North Lee street, aged 45 years had an arm caught between the bumpers of two freight cars while making a coupling in the upper yards of the South Shore railroad Tuesday morning about 9 o'clock. The man had been a railroader for a number of years and just how the accident happened is himself unable to explain. Fortunately a second jolt of the cars enabled him to release himself, though the jar threw him forward against one of the cars and bruised him badly about the face. Dr. Jones says that the man's injuries are not in any way serious, though he will be incapacitated for work for some time.

David, 7-year-old son of Mr. and Mrs. Alex R. Maclan, 375 Alger street, fell from a junk wagon on Fourth street between Hewett avenue and Ohio, at 6:15 o'clock Tuesday afternoon and broke his right leg at the ankle. The boy was taken to St. Luke's hospital where he is now under medical treatment. The fracture was a bad one and he will be confined several weeks.

ANGST ISSUES REPORT

Chief Engineer of Duluth & Iron Range Gives Figures.

Robert Angst, chief engineer of the Duluth & Iron Range road, has issued his anual record of the ore docks on Lake Superior, corrected to May 1. The principal change is in the Duluth, Missabe & Northern's figures, brought about by the elimination of dock No. 1, which has been torn down.

Following is the storage capacity of the ore docks on the American side of Lake Superior, together with the roads which own them:

	Tons.
Chicago & Northwestern	256,143
Duluth & Iron Range	488,410
Duluth, Missabe & Northern	360,634
Great Northern	209,500
D., S. S. & A.	105,000
Lake Superior & Ishpeming	36,000
Wisconsin Central	48,256
C. M. & St. Paul	113,900
Total	1,226,343

WASHING DONE BY CLERIC.

Massachusetts Minister Makes Odd Plea in Litigation With Wife.

New Bedford, Mass., April 25.—Claiming that for the last six months he had not only washed the dishes, but had also done the family washing and ironing, except, perhaps, his wife's shirtwaists, Rev. James N. Enman of the Broadway Congregational church, this city, fought against the petition of his wife in the probate court at Fall River for the custody of their two small children.

After hearing the evidence, Judge Fuller decreed that the children should be kept in the custody of the father, as they are now, but gave the mother absolute freedom in visiting them.

All this took place pending the hearing of a separate maintenance suit which has been instituted by Mrs. Enman against her husband.

Tubular Shoe Laces—40 inches long— 10c dozen.

English Pins— 3c for 5c papers.

DREAM CITY FAILS.

Investors in Co-Operative Colony Want Their Cash Back.

New York, April 25.—Another co-operative colony has gone by the board. In its demise hundreds of poor people of the east side who had dreamed of it as an Altruria, with tabernacles, parks, fountains and neat cottages where everybody would have plenty to eat, good clothes to wear, and no worries or poverty any more, are weeping for their shattered "Wolikoftown," and the hard-earned money they have put into it.

Morris Becker and Max H. Thuna, two of the trusteees of the Jewish colony of Wolikoftown, have brought suit in the Kings county supreme court to compel Jacob H. Wolikof, founder of the colony, to return to the 400 would-be colonists the $3,500 they had paid toward the purchase of the 640 building lots at Elmont, L. I.

Only last January 400 devoted Wolikoftowners, led by Wolikof, his pretty daughters, a band and a brand new flag, made pilgrimage to the scene of their proposed Mecca and cheered when Wolikof, in glowing words, told them how, in the midst of 10 acres he was going to put up a great synagogue for worship; around it would, he said, sweep broad parks, with green trees and bright flowers and fountains, and the cottages of the happy colonists would cluster about the perks. Wolikof said it would be as near Jerusalem as any city ever could be out of Judea.

WHAT WOMAN SHOULD SPEND

The Wife of Ambassador Creel of Mexico Decries Extravagance.

New York, April 25.—When Mme. Creel, the wife of the Mexican ambassador, and one of the world's richest women, peered out of the door in the Waldorf-Astoria yesterday it was evident she was reluctant to say a word about the status of women in Mexico.

"What do I think about American women and what they should spend on their dress, their entourage?" she echoed. "I really do not know. They say I am very rich. I do not know about that. I have 600,000 good beeves. I have 280,000 acres of very good land. Just so. At my table every day there sit 400 of my good friends, always welcome. My income is probably $5,000,000 a year. You ask me what I think a woman should spend on herself. She should spend anything she likes, but she should not be extravagant. I will give you the list."

Mme. Creel enumerated the following:

Three dresses at $140 apiece.

Two hats at $375 apiece.

Fourteen shoes or boots at $18 apiece.

Two embroidered bags for confectionery, $350.

Silk stockings at $5.

Two handkerchiefs; two alternate handkerchiefs.

Four opera cloaks.

Three purses, leather and silk.

"I do not believe," continued Mme. Creel, "that any woman should spend $200,000 a year on her dress as your Mlle. Morisini says. When my father had 400,000 cattle on the plains of Chihuahua I did not have a dollar a week spending money. I wore cotton gowns and danced in them, too. I never again had such a lovely time in my life."

PRETTY WIDOW ANSWERS QUESTIONS FOR BOTH.

Muncie, Ind., April 25.—But for the assistance of his bride-elect, Daniel Simon, a Roumanian, would be still unmarried. Simon cannot understand English, nor speak it, but thinks he can do both. Accompanied by Mrs. Josephine Crane, a young and pretty widow, he went to the county clerk's office to obtain a marriage license, and was put through the customary cross-examination by the county clerk. Unable to understand what it was all about, Simon was ready to give it up in disgust, when his intended wife came to his rescue and answered all the questions for him.

"I can't understand him very well myself, but I think I'll soon be able to make him understand me," she said, as she went to a telephone and summoned a justice of the peace. The bride is 24 years old and the bridegroom 21.

NEW GRADE SCHOOL

To be Erected by Eveleth Board of Education This Summer.

Eveleth, Minn., April 25.—(Special to The Herald.)—The board of education has decided to build a new grade school building this summer, which will cost about $25,000. The board has also had a mechanical arts building under consideration, but it is probable that the construction of this will be deferred another year.

The proposed grade building will be of brick construction and will accommodate about 300 pupils. The site of the building has not yet been definitely decided upon, but it is probable that it will be located on the north edge of the city, possibly in Mesaba Mountain township, near the town hall.

Several architects have been in the city recently, submitting plans for the structure, but none have as yet been accepted. This will make the fourth new school building for Eveleth within as many years.

WOMAN CURSES JUDGE.

Utters Threats When Her Friend, a Burglar, Gets Long Sentence.

New York, April 25.—A dramatic scene followed the arraignment of Clifford M. Smith, son of a policeman, who was sentenced to thirty-four years and four months in Sing Sing by Judge Rosalsky in general sessions.

On an assault charge, Smith was sentenced to four years and four months, while on a burglary complaint he was sentenced to thirty years.

After Smith had been sentenced, Judge Rosalsky learned that a young woman in the corridor, said, with an oath:

"That —— —— judge will get what's coming to him from me." Then she uttered curses.

Judge Rosalsky immediately ordered her arrest. When arraigned before him she said her name was Tillie Hedwig.

THOUSANDS HAVE KIDNEY TROUBLE AND DON'T KNOW IT

Weak and unhealthy kidneys are responsible for more sickness and suffering than any other disease, therefore, when through neglect or other causes, kidney trouble is permitted to continue, fatal results are sure to follow.

Your other organs may need attention—but your kidneys most, because they do most and should have attention first.

If you are sick or "feel badly," begin taking Dr. Kilmer's Swamp-Root, the great kidney, liver and bladder remedy, because as soon as your kidneys begin to get better they will help all the other organs to health. A trial will convince anyone.

The mild and immediate effect of Swamp-Root the great kidney and bladder remedy is soon realized. It stands the highest because its remarkable curative power has been proven in thousands of the most distressing cases. If you need a medicine, you should have the best.

Wilson, Conn., Feb. 18th, 1906.

Dear Sirs:

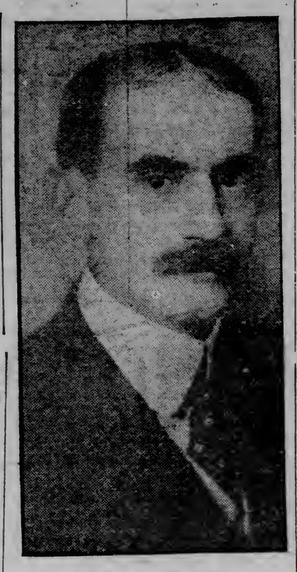
"A man could not be in any worse condition than I was with kidney and bladder troubles. I doctored with several good doctors and one physician told me I had Bright's Disease and that I would not live over six months. Another told me it was gall stones. I had severe pains in my kidneys all the while, could not stoop over, would be dizzy, could not lie down without someone helped me up; my back was weak and pained me; urine was as thick as cream and it would scald me sometimes dreadful. I had to get up many times in the night to urinate.

I took Swamp-Root and today I am a well man and never felt better. All of my troubles have gone and show no signs of returning. I take my oath that Swamp-Root put me where I am today and I can prove it by acquaintances."

Very truly yours,
E. H. RAND.

Swamp-Root is not recommended for everything but it promptly overcomes kidney, liver and bladder troubles, the symptoms of which are—obliged to pass your water frequently night and day, smarting or irritation in passing, brickdust or sediment in the urine, headache, backache, lame back, dizziness, poor digestion, sleeplessness, nervousness, heart disturbance due to bad kidney trouble, skin eruptions from bad blood, neuralgia, rheumatism, diabetes, bloating, irritability, wornout feeling, lack of ambition, may be loss of flesh, sallow complexion, or Bright's disease.

If your water, when allowed to remain undisturbed in a glass or bottle for twenty-four hours, forms a sediment or settling or has a cloudy appearance, it is also evidence that your kidneys and bladder need immediate attention.



Swamp-Root is pleasant to take and is for sale at drug stores the world over in bottles of two sizes and two prices—fifty cents and one dollar. Remember the name—Swamp-Root—Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

EDITORIAL NOTE.—In order to prove the wonderful merits of Swamp-Root you may have a sample bottle and a book of valuable information, both sent absolutely free by mail. The book contains many of the thousands upon thousands of testimonial letters received from men and women who have found Swamp-Root to be just the remedy they needed. The value and success of Swamp-Root are so well known that our readers are advised to send for a sample bottle. In sending your address to Dr. Kilmer & Co., Binghamton, N. Y., be sure to say you read this generous offer in The Duluth Herald. The genuineness of this offer is guaranteed.

CONJUCTURE RIFE AS TO STEEL PLANT SITE

WILLIAM B. DICKSON,
Second Vice President of United States Steel Corporation.

T. W. ROBINSON,
Vice President of Illinois Steel Company.

Upon W. B. Dickson, second vice president of the United States Steel corporation, and T. W. Robinson, vice president of the Illinois Steel company, largely rests the responsibility of choosing the site for Duluth's steel plant. These two men were members of the committee of experts, which visited Duluth recently, Mr. Dickson acting as chairman and spokesman. It is not unlikely that another visit will have to be made to Duluth before a site is finally selected.

Speculation on the choice of a site is still rife among real estate men, and two possible locations are most prominently mentioned. One includes the old Ironton steel plant, while the other is a little farther up the river, on the shore of Spirit Lake.

SUCCESSES AND FAILURES OF RECENT LEGISLATURE

(Continued from page 1.)

and perhaps a larger task than it should have handled. The failure of the greater part of the bills to pass has not harmed the state. In fact there are very few of the measures that fell by the wayside that the state cannot await with patience and fortitude, for if they are really possessed of virtue, they will come up again and again, until they are enacted.

* * *

Important Measures Enacted.

Below are some of the most important measures enacted at the recent sesssion:

Creating a tax commission.

Reducing passenger rates from 3 cents to 2 cents per mile.

Abolishing passes and other free privileges.

Reducing commodity freight rates about 10 per cent.

Creating a reciprocal demurrage system.

Adopting the life insurance reform program.

Creating a state board of immigration, and appropriating money for its uses.

Appropriating $100,000 a year for drainage of state lands.

Appropriating $200,000 a year for road building.

Providing a separate girls' training school.

Adopting the provisions of the Mueller law of Illinois, providing for the acquirement of public utilities by municipalities.

Providing a registry tax on mortgages.

Abolishing private banks.

Increasing the pay of lawmakers to $1,000 a session, raising the governor's salary to $7,000, and increasing the supreme and district court judges $700 a year.

Authorizing the manufacture of harvesting machinery at the state prison, and authorizing the sale of prison binding twine outside the state.

Creating a hospital farm for inebriates, to be supported by a 2 per cent tax on liquor license fees.

Resubmitting wide-open tax amendment to the constitution.

Providing for extension of state university grounds, giving the university $700,000 in the next four years.

Providing for enlargement of the state capitol grounds.

Abolishing fraternities in high schools.

Creating a legislative reference bureau.

Prohibiting Standard Oil trust from crushing competition by unfair methods.

* * *

Serious Failures.

From the viewpoint of Northern Minnesota, perhaps the worst failure on the part of the legislature was in relation to reapportionment. Committees spent some time upon it, and a rather ineffective scheme of reapportionment was prepared in the house, but the senate did not want its terms cut in two, so nothing was done.

Another serious failure was the extension of the primary election system to state officers and United states senators. The legislature left the primary election system untouched, after several attempts had been made to amend it.

Most of the temperance measures failed, and both houses rejected women's suffrage amendments to the constitution.

The initiative and referendum was rejected in the senate, and was not considered in the house. The vote was close in the senate, but none the less decisive, and that was the main reason that no action was taken by the house.

Representative Clarence B. Miller was the author of the house initiative and referendum bill, and he made a strong effort to have it considered. He found, however, that the house had been carefully canvassed, and that sentiment had been directed against the measure with determination. Nevertheless, he tried to have the bill made a special order, that the members might go on record upon it, but the opponents of the bill were strong enough to prevent suspension of the rules for that purpose, which would have taken eighty votes.

The house rejected the Rockne bill, giving the railroad and warehouse commission authority to supervise the issuance of railroad stocks and bonds.

The proposed semi-centennial exposition for next year was sat upon, and so was St. Paul's pretty scheme to have the state guarantee its bonds for the construction of capitol approaches.

The distance tariff scheme was rejected by the senate.

The senate killed the bill by Clarence B. Miller of Duluth, increasing the railroad gross earnings tax from 4 to 5 per cent, and requiring the railroads to pay local assessments. It might be stated that criticism in Duluth of the action of the Duluth senators in not attempting to rescue this bill in the face of opposition that could not be overborne, is due to a lack of understanding of the conditions surounding matters of vital importance to this section of the state.

* * *

Taxing the Iron Mines.

From a Duluth standpoint, the most important part of the legislativo work was that which centered in the attempts to make the iron mines pay a special tax for the benefit of the rest of the state.

That that attempt was defeated was due to he facts that the Duluth delegation played splendid ball, that the steel plant was given to Minnesota by the United States Steel corporation, that a legislative committee made a careful investigation of conditions and reported against the proposed tonnage tax, and that therefore the legislature became better informed about the merits and demerits of the proposed schemes of taxation than those who have since criticised its failure to adopt the tonnage tax bills.

The attack upon the iron interests, and upon the section of the state in which they exist, came from only two or three individuals, and it was only because they were persistent that it lasted during most of the session. While it looked good to many members of the house to have a remote section of the state compelled to contribute most of the expense of running the state, they were generally open to reason, and reason prevailed.

Even many of those who voted for the tonnage tax because they feared their constituents would resent their failure to do so admitted that the tonnage tax bill was offered that would stand the test of the courts, but it was far better to defeat them by fair argument and reason than to be compelled to fight them in the courts, thereby making it appear that the iron interests were attempting to evade taxation.

One thing that was made clear to all these members was that the iron industry is willing to pay its just share of taxes, and that because it did not want to pay more than that it must not be considered that the iron miners are tax dodgers. It was repeatedly stated that if the mines are not now assessed as they should be, their valuation should be increased. It was this evidence of fairness and of willingness to pay the same share of taxation that other interests pay that went a long way toward defeating the absurd attempt to make the iron interests pay an enormous special tax, simply because a large portion of them are held by a great corporation.

This section came out of the fray with flying colors, unscathed, unscarred, and with a new steel plant and the satisfaction of knowing that St. Louis county is still a part of Minnesota, and that it is safe for her to continue to be a part of the commonwealth.

* * *

The Duluth delegation did noble work in combatting these attempts. Conspicuous for ability and for his high standing in the legislature was Clarence B. Miller of the Fifty-first district, who though a new member made a record that is a magnificent testimonial to himself and a vast credit to the district that sent him to St. Paul. He had the confidence of the members from all parts of the state, radicals as well as conservatives, and he gained that confidence not by servile toadying, but by gaining a reputation for ability, sound judgment, and above all for absolute integrity. The redoubtable J. F. Jacobson of Lac Qui Parle in a visit to the legislature, spoke in the highest terms of Mr. Miller, and predicted a notable career for him.

Mr. Jacobson, by the way, in the same conversation gave his opinion that the straight 5-cent tonnage tax was unworkable, unfair and unjust, and admitted that the bill he introduced to the same effect in 1902 was rightfully and justly defeated.

The other members of the delegation, both in senate and house, did credit to themselves and to their districts. Every man, in his own way and according to his own liabilities, did his share in bringing about the splendid result.

* * *

St. Louis County Measures.

Practically all of the St. Louis county and Duluth measures went through, only two of interest failing in the last days. Representative Saari's bill, putting the inspector of mines under the appointment of the governor, got hung up on general orders in the senate, and couldn't be torn loose.

The bill increasing the salaries of county officers, which passed the house unanimously, found its grave in Senator Laybourn's pocket, from the recesses of which it did not emerge.

The courthouse commission and the new courthouse were the subjects of several bills, authorizing the issuance of certificates of indebtedness, allowing the commission to audit its bills, giving it a more effective organization, and allowing the installation of the law library in the new building.

The county commissioners and the county attorney and his assistant received raises in salaries, and so did the clerk of the Duluth municipal court and the special judge of the same court.

An inspector of the accounts of cities, towns, villages and school districts at $2,500 a year was created, and if properly filled, this position should be most valuable to the taxpayers.

The Pugh bill, providing that school elections in Duluth shall be held between 6 a. m. and 7 p. m., instead of between 10 a. m. and 4 p. m., was passed, so the working men will have a chance to take part if they desire.

The West Duluth justice court was given jurisdiction over criminal cases of a petty nature, and Clarence B. Miller got a bill through allowing counties to issue bonds for road purposes.

Duluth had an interest in the passage of the Mueller law relating to public utilities, and when it went through, the bill allowing Duluth to issue bonds for the construction of an electric lighting plant, introduced early in the session, was dropped.

* * *

Why the Dispatch Was Sore.

Speaking of the Duluth delegation, the St. Paul Dispatch, in the last two weeks of the session, made some rather nasty remarks about Senator Laybourn and Representative Clarence Miller that require some explanation.

The motives of the Dispatch in assuming this attitude of hostility need only to be told to be understood.

It all arose out of certain bills relating to the publication of the annual statements of insurance companies. In line with the demand for publicity of the affairs of insurance companies, the Minnesota law requires that such annual statements shall be published in daily papers.

Originally the law required publication in each of the two principal cities, and said nothing whatever about rates. Last year the St. Paul papers quietly put the charges for these publications, which the law compelled the companies to make, up to an altitude that made the companies squirm. There was no way out of it, however, and they had to submit for the time being.

This year, however, a law was put through providing that the publications should be made in the three large cities, so as to get a wide circulation, and this law carefully fixed the rates to be charged at a reasonable level.

This law was introduced in the senate, and was reported out and defended in the senate by Senator Laybburn, chairman of the insuracne committee. That is why the Dispatch is making remarks about Senator Laybourn.

When the bill came to the house, it was supported there by Repersentative Miller, and that is why the Dispatch is saying things about Mr. Miller.

* * *

Many Investigations.

One new feature of the session was the tremendous number of investigations. The principal effect of these investigations was to consume time and money, and to keep members of the investigating committees away from their other duties. Some information of value came out, but no legislation of moment.

Perhaps the most valuable result was the finding of a joint committee that the Duluth board of trade and the Minneapolis chamber of commerce, far from being injurious to the producers of grain, are of positive and great benefit, and that they are conducted upon a high standard of integrity.

The committee to investigate coal and lumber combines was unable to get hold of valuable evidence, but it reported that in its opinion such combinations exist, and that the attorney general should look into them.

The Sundberg committee to investigate railroad values spent much time, and accumulated much evidence, but its findings are of doubtful value.

The Robertson committee to investigate express rates helped to bring about a reduction in express charges in this state

* * *

The legislature was very fortunate in its presiding officers. Lieutenant Governor A. O. Eberhart of Mankato made an excellent president of the senate. His grasp of parliamentary law was complete, his committee appointments good, and his rulings were fair to all interests.

Lawrence H. Johnson of Minneapolis presided over the house with great credit to himself. The house is an unruly body at best, but he handled it with a firm, but gloved hand, and relations between the speaker and the house membership were cordial and pleasant throughout. Matters of vast importance went through the house under Mr. Johnson's direction, and his stand toward them was uniformly fair and just, without a trace of leaning toward one side or the other.

* * *

Confidence in Governor.

The relations between Governor Johnson and the legislature were, as in the last session, notably pleasant and harmonious. What the legislature thought of him is shown by the fact that, though he is a Democrat, the Republican majority tendered him a handsome raise in salary. The confidence felt in him by the legislature was shown in many ways throughout, but nowhere more conclusively or clearly than when the plan of having two other state officers join him in selecting the members of the tax commission was rejected, and the appointment put solely in his charge. His recommendations were heard with respect, and generally heeded by the legislature. He had to veto only two bills, and in his action on these bills the legislature readily concurred.

STILLMAN H. BINGHAM.

THOUSANDS CURED OF ECZEMA

Records of Patients at Lyceum Pharmacy Attract Attention.

The Lyceum Pharmacy, Duluth, Minn., has secured the letters and records of hundreds of persons who formerly suffered of eczema and psoriasis, and have now been cured by simple treatment. They also have pictures of a number of patients, men, women and children, showing the skin—cracked, bleeding and polluted—while cleansed a few months later.

Here, for instance, is one of the letters:

"I have used the bottle of medicine you sent me, and the result is that I can say with solemn truth that I am a well man," says W. J. Dalton of Wilderness, Mo. "Please accept my heartfelt thanks. Your remedy cannot be praised too much. I trust that every sufferer will learn to seek your cure and let all other treatments alone, so they can get well and live, as my doctor said I would never get well."

Every sufferer from eczema or psoriasis, ringworm, poison ivy, etc., will be interested in the above mentioned records. A complete pamphlet on the cause and cure of skin diseases, method of treatment, diet, and exercise, may be had free at the drug store named above. Better post yourself on the cause of your own ailment.

Hunyadi János

The Best Natural Laxative Water. Clears the system. Quickly relieves biliousness and stomach troubles. Acts gently and easily. Take half a glass on arising for

CONSTIPATION

CITY COUNCIL AT EVELETH

Listens to Engineer on Paving, Curbing and Sewerage.

Eveleth, Minn., April 25.—(Special to The Herald.)—The Eveleth city council at their adjourned regular meeting last night were addressed by J. E. Carroll, a Crookston engineer, who discussed the proposed paving, curbing and sewerage improvements on Grant avenue, the main street of the city. Mr. Carroll is the engineer who established the grade of the city's streets. He stated that the present water main should be replaced, and that the street should be curbed before it was paved. He advised that the walks be made thirteen feet wide, leaving forty feet for the width of the roadway. On the question of putting in a storm sewer system, Mr. Carroll said that he was not prepared to express an opinion until he had made a more thorough study of the conditions.

It was expected that the traction ordinance would come up for its second reading, but after a brief discussion the subject was dropped without any action being taken.

Ordinance No. 80 establishing a sewer district coincident with that available to mains, and prohibiting cess pools within that district, was given its third reading and passed up to the mayor for his signature. Bids were received for cleaning up the garbage in the alleys, hauling away the garbage during the summer and for the city coal for one year from May 1, but none were acted upon.

Copies of the Industrial Edition

Of The Herald may be had at The Herald counting room or any of the city newstands for 2 cents per copy, or wrapped and ready for mailing at 3 cents per copy. Six cents in postage will be required for mailing the same.

TAWNEY GETS POSTOFFICE.

Winona, Minn., April 25.—Announcement of the appointment of George P. Tawney as postmaster of Winona has been made public. Mr. Tawney has been deputy postmaster for the past sixteen years. He will take hold the 1st of May. Otto H. Bollman will be deputy postmaster under Mr. Tawney.

To Whom It May Concern.

Contractors and others, take notice: That Dock and Ship Carpenters' scale of wages will be thirty-five cents per hour, and double time for Sunday, and time and one-half for overtime, on and after May 1st, 1907. John E. Nolan, recording secretary.

Tomorrow We Continue the Grand Formal

Millinery Opening

Second Floor

Never has Duluth so cordially welcomed a Millinery Opening. In fact, never has there been such a splendid display of exquisite millinery to delight Duluth's ladies. The expressions of admiration have been unrestrained—exuberant. The Hats are worthy the most unstinted praise.

Particularly beautiful are the plume-laden creations of Mme. Georgette—one of the cleverest of Parisian milliners.

But French Hats are but a part of the exhibition. Many women—some able critics—have gazed and said, "But which is which? Which hats are imported, and which are Panton & White's?" For many

Glass Block Adaptations and Copies

of French patterns are on show—picturesque to a degree—stylish to a degree.

It is an opening of Hats, which, as has over and over been said, were never before so beautiful, nor so graciously becoming.

You are very welcome to see them and enjoy them in your own good way.

Tomorrow Will Be the Second Day of

The Semi-Annual Notion Sale

The record for the first day is broken—sales 'way above a year ago's first day.

And the first day is only a starter. Second day's are best—for the oft-repeated story of the bargains, told by first-day shoppers, serve to better advertise the sale and increase the crowds.

Here are a few hints of the remarkably little prices. Yesterday's Herald and today's News Tribune will give you the full list—and prices. Clip the "ad,"—bring it with you.

Darning Cottons

"Dorcas" darning cotton, black and colors, 6 for 5c.
Dexter's fast black darning cotton, 4 for 5c.
5c Dexter's knitting cotton, per ball, 4c.

Threads

PANTON & WHITE COMPANY
THE BIG GLASS BLOCK STORE — WHERE QUALITY IS PARAMOUNT

Furniture Delivered to All Parts of the City and to Superior

Friday Morning, April 26th, Begins a

GREAT FURNITURE SALE

OWING to the enormous increase in our rug, carpet and drapery business, we have found it necessary to separate these as one department from the furniture department and place each under a separate management. Mr. P. G. Brown, who has heretofore had charge of both departments will now devote his entire time and attention to the Rug, Carpet and Drapery Department.

The Furniture Department is now under the management of our Mr. Edward Butler, who has for the past fifteen months had charge of our contract department, and will now manage both departments.

We make this explanation, as it is our intention to revolutionize our methods of handling furniture, and in the future will go more into specialty furniture than the general line. Consequently,

We Have Decided to Close Out $15,000 Worth of Furniture!

Kinds that, in the future we will not handle. As we want to accomplish this in the shortest possible time, we have put prices on the different pieces that ought to effect a very rapid clearance. Prices that will give you furniture bargains, the like of which have never been known in Duluth.

This sale will commence Friday and continue until every piece is sold. None of these prices extend the privilege of installment payment. They are cash prices. Or, if you have an account in the house, you may have thirty days' credit. But none of the pieces offered during this sale will be sold "on time."

This is an opportunity you seldom have. These goods are our regular stock samples—hundreds of pieces having but recently been received for spring trade.

But, to be candid with you, we have just decided to vacate a portion of our fourth floor, in order that we may devote the space to some other department—probably dressmaking.

But as our plans are not complete at this time, we do not wish to make this as a positive announcement. We will first clear the floor—then we can fully determine which of our many needs can be best suited to the space we shall have acquired.

NOTE WELL! The articles in this sale are, in most instances, "one-of-a-kind"—hence the necessity of being early to get first pick. Read the list carefully and bring it with you. Sale Begins at 8:00 o'clock.

PANTON & WHITE COMPANY
THE BIG GLASS BLOCK STORE — WHERE QUALITY IS PARAMOUNT

What Have You Done For Y. W. C. A.?

Can you estimate the good the Y. W. C. A. will be to the young womanhood of Duluth? Do you realize how much they want—and need—a new home?

Only 5 More Days!

Don't lose a minute. Send a subscription to the fund at 106 West Superior St.—and "do it now."

CONCERNING WOMEN

The most popular work of the Women's Council of this city, the summer cooking school, will be continued this year and already the committee in charge of this department of the work for the summer of 1907 is making its preparations. The school has been maintained for two years and has provided almost invaluable instruction to the hundred young girls who each year profit by the eight weeks of instruction.

The teacher of the school has been Mrs. Emily F. McCurdy of Chicago and the committee in charge of the school again hopes to have this efficient woman installed as chief of the school. Mrs. McCurdy was greatly interested in the work, and it is hoped that she will return for the summer.

The school is maintained during July and August. The board of education granted the use of a basement room in the Adams school at the West end, and the equipment for a class of twenty was provided. Last summer 150 young girls, between the ages of 10 and 16 years, received instruction at two lessons each week and they were most enthusiastic over the course.

Last year advanced work was planned for the girls who returned for the second year's work, and such provision will probably be made this year. It is hoped eventually by the members o fthe council that the board of education will see fit to establish this department in the city schools. When such a time arrives, the equipment at the Adams school will be presented to the school board of the city.

Mrs. William White is chairman of this committee for the summer of 1907, and she will have as her assistants, Mrs. A. M. Marshall, Mrs. F. A. Brewer, Mrs. F. E. House and Mrs. A. H. Comstock.

Y. W. C. A. Bazar.

The Y. W. C. A. bazar, which was held last evening at the Gidding store was a delightful success and $160 was realized, the entire sum will go to the building fund, being divided between the six business women's committees.

The affair was managed by the saleswomen of the store, many of whom are enthusiastic members of the association, and members of the board assisted during the evening. The regular stock was set aside and the contributed articles were attractively set forth, and flowers and fancy work and delicious candies and cakes, and jellies and other cookery were sold. A delightful musical program was given, and during the evening, a large number of interested friends of the association called.

The bazar was one of the most successful and delightful affairs planned in connection with the campaign for funds.

* * *

The musical program which was presented was listened to with pleasure by the guests. There were solos by Charles Applehagen, Walter Smith, John Crudilsky and Misses Dora Swan and Jane Everington, and the selections were well presented. A reading by Miss Eva Casmir was enjoyed, and a piano solo was given by Miss Josephine Sanders, who also played a duet with Miss Edna Harris.

There were more than 300 guests present.

Pretty Wedding.

The wedding of Miss Pearl Howard and John Alfred Garlick took place last evening at the home of Mrs. Sarah Potter of 1623 South street. The service was read at 8 o'clock by Rev. John Waker Powell of the Endion Methodist church. The bride had as her matron of honor, Mrs. T. J. McKeon, and the groomsman was J. H. Davis. The bride wore a gown of pearl grey and carried a bouquet of bride's roses. Mr. and Mrs. Garlick will be at home after May 1, at 1623 South street.

Mission Circle to Meet.

The Home Mission Reading Circle of the First Methodist church will meet tomorrow afternoon at 3 o'clock at the church parlors, and two new books on the immigration question will be reviewed. Mrs. R. Murchison will present a resume of "Aliens or Americans," and Mrs. G. T. Knight will review "On the Trail of the Immigrant."

To Study Bible.

The last meeting of the year of the Evening Art History class with Mrs. Robert Morris Seymour as leader was held last evening at the club room of the library. The last half of the year's study in both the morning and evening classes has been a preparation for the appreciation of the Jamestown exhibit, which many of the class are planning to attend.

The work of the Art History classes for next year will be a study of the Bible as history and literature.

Events of Interest.

The members of the Eastern Star will entertain at a basket social Friday evening of this week at the banquet hall of the Masonic temple.

* * *

"Don Quixotism" will be the subject of a lecture by Rev. M. S. Rice tomorrow at the church parlors of the First Methodist church. The lecture has been arranged by the Ladies' Aid society of the church.

Personal Mention.

Mr. and Mrs. H. F. Williamson are attending grand opera at St. Paul.

* * *

Mr. and Mrs. J. L. Dorsey of 410 West Fourth street have as their guest, M. Joseph Metter of Winnipeg.

H. M. Gerson,
LADIES' TAILOR.
1522 JEFFERSON STREET.
OldPhone 1721-L. DULUTH, MINN.

What Retail Markets Offer.

Artichokes, 10 cents each.
Wax beans, 20 cents a quart.
Hot house tomatoes, 25 cents a lb.
Cabbage, 6 cents a lb.
Corned beef, 10 and 12 cents a lb.
Sweet-breads, 60 cents a lb.

The cabbage that is now in the market is tender and new and rather expensive and even after all that has been said, it is only cabbage. Corn beef and cabbage in combination may be good. If the vegetable be cooked only until it is done and is then lifted out tender and still a good color and the beef is very delicate and it is not served oftener than once every two years, maybe corn beef and cabbage is all right. But everybody who is liable to be greeted with this at dinner tomorrow evening, is entitled to a reasonable doubt on that subject.

The artichokes are in the market, the first of the season and the berries are better each day.

A HOSPITABLE INCIDENT

By Mary Roberts Rinehart.

(Copyright, 1907, by Joseph B. Bowles.)

Willie Madden picked up the bowl of brown sugar, and giving the oilcloth-covered table a wipe with the sleeve of his jacket, hobbled into the pantry.

The pantry was empty. Miss Arthurs, the nurse, was busy back in the ward, turning down small beds for smaller occupants, hunting out "nighties" for the babies, changing hot pillows for cool ones, and providing that final drink of water which is forever associated with bedtime, and which helps to postpone, if only for a moment, the inevitable turning down of the light.

Willie Madden loitered for a moment in the pantry, finishing a bowl of bread and milk which he found there, and filling his pockets with lumps from the sugar bowl. Then he limped back again. The ward was growing quiet now. Over in a corner behind a screen, the "Hunkie" baby was getting its bran bath, while on the red-covered center table three nursing bottles reposed in a basin of hot water, substitute mothers for as many waiting infants.

Willie Madden, autocrat of the ward, sat down on the side of his small bed and leaned his crutch against a chair, his broken leg extended stiffly before him.

Willie Madden was not sleepy. "Nice hour to go to bed," he grumbled to a boy on the other side. "Six o'clock ain't no bedtime. Last edition's just out."

"It ain't so bad when you can walk around and get tired," said the next boy, who wore a plaster cast around his small body, and whose legs and arms tossed restlessly. "I guess I won't never be tired again. I'm goin' to sit up next week, though."

Willie Madden debated for a moment. Then he reached for his trousers and fumbled in his pockets.

"Here," he said, carelessly tossing over a lump of sugar, "take that to make you feel better."

The boy in the plaster jacket took it eagerly, holding it in his thin fingers and nibbling at it to make it last. Miss Arthurs gave the last dose of medicine, and locking the cupboard went wearily out, her keys jingling in her hand. A moment later the night nurse stopped at the door, her rubber-heeled shoes making no sound, and smiled a good-night to the children.

Willie propped himself on his elbow and conversed in a low tone with the boy in the plaster jacket.

"Say," he said, "that night nurse looks like a lady in the Sund'y supplement. I don't know her name, but I was readin' about her to the kid. She's got two kids of her own, and they both has ponies."

"Gee!" said the other boy appreciatively. "Who's the kid?"

"Listen," said Willie Madden. Down in the street below a thin voice was calling the 6 o'clock edition. Sometimes it was drowned under the roar and clang of passing cars, to rise triumphant the next minute in a lull.

"That's the kid. Aw, he's a baby. Never does anything 'nless I'm around. 'Frald of his shadder. When I get better I'm goin' to work fer myself. What's the use o' taggin' a kid brother around?"

The query received no answer. The boy in the plaster jacket had dropped into the sudden sleep of childhood. After a long wait the gong in the engine house near by struck nine. Willie Madden sat up and looked around. The ward was perfectly quiet. Sarah Ann Johnson had rolled into the middle of her bed, obliterating the black doll, and the "Hunkie" baby still held the empty bottle.

The boy cautiously crept out of bed and reached for his crutches. It was evident that some dark conspiracy was on foot, for he limped noiselessly to the corridor and looked carefully up and down. There was no one in sight, and save for a strong odor of turpentine in the air and an occasional stifled cough from the next ward, there was no evidence of life.

Willie Madden's next motions were mysterious. He crept over to the pantry, with its rows of locked cupboard and refrigerator doors. Some one came quickly down the hall, and the boy slipped behind a door and stood quiet, his heart thumping in his ears. The steps passed on and again everything was quiet. Willie Madden emerged from his hiding place, and stooping with difficulty, his splintered leg out before him, he groped under the long red table-cover which reached almost to the floor.

When he straightened again he held in his hand three large, thick slices of bread plentifully sprinkled with brown sugar, which he proceeded to button inside his jacket. Still with the same caution he went back to the ward. There was no hesitation in his movements. An observer, had there been one, would have seen established routine in his actions, for without a spare gesture he picked from the nurses' table the little wicker basket which carried empty bottles to the pharmacy to be refilled, and carried it to his bed.

His next proceeding was curious. From under his mattress he produced an orange, somewhat flattened from its place of concealment, and a ball of cord, much knotted and of every shade and thickness. In a moment he had fastened the string to the handle of the basket, and dumped in the sugared bread and the orange, and was ready for the last act in the drama.

The night nurse came along the corridor and stopped at the door. "What's wrong, William?" she called softly.

"Gettin' a drink," he answered mendaciously.

He watched her out of sight, then slipped to the window and unhooked the screen. "Hist!" he called into the darkness.

"Hst!" came sibilantly from below.

The basket disappeared over the window ledge. It swung slowly down into the void, its progress marked by the various hues of the cord, until at a knot of lavender and green the conspirator stopped. The cord perked for a moment—the nibbling of a hungry fish at the bait. Then the basket swung clear and was hauled up swiftly. Rather to the surprise of the boy above, it was not empty. At the bottom was a soft, sticky gumdrop, once lemon-yellow, now a darkish brown. Willie Madden drew the screen shut, snapped the catch and popped the gumdrop into his mouth with what seemed a single comprehensive gesture. Then, the basket in his hand he turned around. In the middle of the ward stood one of the doctors and the night nurse. Both were frowning ferociously, both were looking at the basket.

"Well?" said Willie Madden defiantly, when the silence became oppressive.

"Well," said the doctor, "this looks uncommonly like stealing, my friend. What was in that basket?"

"Bread and butter—and sugar," he said honestly. He had heard somewhere that there are times when the truth is a good thing. Anyhow, what use to say that he was merely amusing himself, when they had only to look out to see the kid eating his supper just below the window?

"Is that all?" asked the nurse searchingly.

"An orange," he admitted.

The nurse turned to the doctor. "The Fruit and Flower Mission sent oranges today. It was probably his own."

"Who's waiting below there?" The doctor's voice was even more savage than before. It was too dark to see his eyes.

"The kid—my brother."

The doctor spoke a word or two to the nurse, turned on his heel and went out. Willie Madden watched him shrinkingly.

"What'll he do to him?" he asked tremulously. "He ain't done nothin' I did the pinchin'!"

The nurse was still severe. "Wait and see," she said, holding tight to the boy's shoulder. "It's a serious thing to pass bread and butter—and sugar out of a hospital window at night."

There was not a sound in the ward except the heavy breathing of the sleeping children. Once Sarah Ann Johnson moaned restlessly and Willie Madden started in terror, white and choking. He thought it was the "kid" crying, and his heart nearly stopped beating from fright and uncertainty. Then he steeled himself, and bracing his crutch against the bed he stood erect and said defiantly:

"Well, if it's a reform school they'll have to send the kid, for he ain't got nobody to look out for him but me! Say how would you feel to know that your kid was hungry when you was just stuffed with good things? You couldn't eat much yourself, could you? It 'ud kinda choke you, wouldn't it? Well, that's the way I feel every time I take a bite, for I know the kid is half starved because I'm not there to look after him."

The nurse moved a little nearer to Willie Madden, but she remained silent. He almost hated her, she seemed so cold and hard and relentless. He was glad that he wasn't her kid, and that the other kid wasn't hers. Well, nothing mattered much now unless they would let him go with the kid.

There was sound of steps out in the corridor. There was more than one person, and the boy braced himself again to meet the shock. Probably it was a policeman, maybe two of them, but where was the kid all this time?

The room spun around for a second, and Willie Madden was obliged to cling to the little white bed for support. He had never felt this way before. Somehow he had always been able to laugh at any situation, especially if it only affected him, but this was different, for now the kid was involved, his little kid who depended upon him for any emergency, and whom he had never failed.

A few seconds later the doctor came in, pushing before him a small, badly frightened boy, who displayed much resistance and who still held in his hand a piece of bread and butter. The doctor felt around in his coat pocket, and pulled out with difficulty a similar piece.

"Here," he said gravely, presenting it, "you were leaving this behind."

Willie Madden was puzzled. He slid from the nurse's restraining hand and hobbled over to the disconsolate newcomer.

"Don't you be scared," he said impressively. "You ain't done nothin'!"

"The order book, please," said the doctor soberly. He wrote for a moment, then passed it to the nurse, who read it aloud to the astonished boys.

"New patient, otherwise the Kid. Bath and bed, with liberal diet. The Brothers Madden will go to the Fresh Air Home tomorrow."

Willie Madden drew a breath of relief, then turned away. He tip-tapped over to the bed next his, where lay the boy who had helped to undress him, and wakened him ruthlessly.

"Here," he said, "you crawl into the bed over there next to Sarah Ann. This here bed's for me little brother."

Cream Dressing *and* Saratoga Chips

By EMMA PADDOCK TELFORD.

Cream Dressing.

Dear Mrs. Telford—I have taken many of your very excellent recipes from this evening paper that have helped me most wonderfully in my housekeeping. I am an old lady, 65 years of age. Until trouble with my eyes obliged me to give up my outside employment, I always boarded. With economy I can get along. Four young ladies make their home with me and I am desirous of giving them the best I can afford for their money. They tell me, I am happy to say, that they are delighted and more than pleased, and your advice and suggestions have helped me.

Now will you kindly give, at your leisure, the recipe for the cooked salad dressing? MRS. D.

There are several ways of making the cream dressing to which you refer, for instance:

Mix together one teaspoonful mustard (dry), two teaspoonfuls salt, two tablespoonfuls sugar and a pinch of cayenne. Add to these dry ingredients three eggs or the yolks of seven, mixing with a spoon, not beating. Then pour into the saucepan, little by little, one-half cup hot vinegar and one cupful cream, or, if you prefer, milk instead of cream, adding two tablespoonfuls butter. Cook over hot water, stirring constantly like a boiled custard. Do not overcook, or it will curdle, the same as a custard. The moment it thickens take from the fire. If it should curdle take an egg beater to it, which will reduce almost to smoothness.

Boiled Salad Dressing No. 2.

Not so expensive is this dressing, and it will keep for a long time in a cold place. Beat the yolks of two eggs until creamy, then add to them one-half teaspoonful dry mustard and salt. Next beat in slowly four tablespoonfuls melted butter and six tablespoonfuls hot vinegar. Cook in a double kettle until it thickens. When cold and just before serving, a cupful of cream, sweet or sour, may be folded in. Either of these dressings is excellent where one does not care for oil.

Saratoga Chips.

Peel, wash and slice crosswise some raw potatoes, having the slices as thin as wafers. This can be done with a sharp knife, although it is easier to use a slicer that can be purchased at any of the housefurnishing stores. Lay in cold water for an hour, then wipe dry in two clothes, spreading the potatoes upon one and pressing the other upon them. Have ready a kettle of smoking hot fat, hot enough to brown a bit of bread while county sixty. Drop in the potatoes a few at a time, and fry. Take out at once with a perforated skimmer, put into a collander and shake for an instant, sprinkle with salt and turn into a pan.

Tomato Sauce.

Dear Miss Telford:

Will you please give me a sharp, thick tomato sauce that I can use to lay meat that has been left over?

MRS. J. C.

Put a can of tomatoes into a porcelain saucepan, together with a small, white onion grated. Stir gently. Put into a cup one teaspoonful of cornstarch, two of brown sugar, and a half teaspoonful each salt and paprika, blending all into a paste with white wine vinegar. Add enough to fill the cup. When smooth stir into the hot tomato, taking care to avoid lumping. Stir and cook until thickened, then serve hot, as a piquant sauce for cold meat or fish, chill and serve.

Buttermilk Jelly.

I have never heard of making buttermilk mush with Indian meal, but fancy you could substitute the Indian meal for rice flour in this recipe that comes from the South. Boil one quart of fresh buttermilk in a granite kettle, stirring occasionally to avoid curdling in lumps. Mix in enough rice flour, previously moistened, to make a soft mush. Cook in a double boiler for an hour, then beat in the yoke of one egg with two tablespoonfuls sugar. Take at once from the fire and pour into moulds. Serve cold with cream. Another way is to add a half cup chopped nuts, instead of the egg, and flavor with lemon.

Home Made Candy.

Dear Mrs. Telford:

Being very much interested in good cooking, and appreciating your recipes published in this paper, I take the liberty of requesting you to favor me by publishing the way to make the following articles — "Marshmallow candy" and "Saratoga chips."

MRS. G. P. D.

Years ago marshmallows were made from the mucilaginous root of the wild marshmallows, but nowadays they are made entirely from gum arabic. It must, however, be pure. Put three ounces of gum arabic in a bowl and cover with one cup cold water. Let this soak over night, or until thoroughly dissolved. If you are in a hurry you can finish the dissolving process by heating gradually over hot water. Next add half a pound sugar to the melted gum arabic and stir over the fire until soft and pasty. Test by dropping a little in cold water. If it can be rolled into a soft ball between thumb and forefinger it is ready for the second cooking. While boiling the syrup, the greatest care must be taken that it does not "catch" on the bottom. Unless you are an expert cook it may be safer for you to do all the cooking of the syrup in a double boiler. When the syrup has reached this "ball" stage, whip in the stiffly beaten white of a fresh egg. Cook five or six minutes longer, stirring all the time. Then take from the fire, add a teaspoonful of vanilla and beat rapidly for two minutes. Dust a square tin with cornstarch and turn in the plate, which should be about three-quarters of an inch in thickness. Set on the ice or snow to chill. Dredge a little more cornstarch over the paste and when cold cut into squares with a knife, dipped in cornstarch. Roll each square lightly in cornstarch and pack away in tin boxes.

MARRIAGE LAWS ABROAD.

Many Hard Terms and Annoying Provisions in Europe's Systems.

Brooklyn Eagle: The hapless Americans who fall in love while traveling abroad find themselves in a very difficult and exasperating situation when their romance reaches the point of marriage under foreign laws. Some of them find it impossible to contract a marriage that will be legal, and nearly all such mixed marriages are hedged about with hard conditions.

The marriage laws are different in all foreign countries. It is hard for the average American to tolerate the many annoying provisions that are intended to safeguard the marriage covenant abroad. Men who are used to laws that permit a young fellow to run away and get married to his best girl without any to-do whatsoever, are amazed when they try to get married in an European country.

In order to make these mixed marriages even reasonably safe, the American should make a careful study of the marriage law of the country in which he intends to marry.

In England the law requires not only a full compliance with the laws of Great Britain, but requires also that a foreigner shall comply fully with the laws of his own country in marrying an English girl.

The chief of all foreign requirements are (1) that they shall publish in their country the notices of such intending marriages as required by law, and (2) that they shall obtain the consent of their parents to the marriage if they are under a certain age—which varies from 21 to 30.

In Austria, after the intending bridegroom or bride is 24 years of age no parental consent is necessary. But if the man is in any way still connected with the military service he must have the consent of the military authorities.

In Belgium the law allows a Belgian to marry a foreigner abroad according to the laws of that foreign country, but the marriage will not be valid in Belgium if he is under 21 and has not obtained the consent of his parents. If between the ages of 21 and 25, he must make a respectful and formal request for his parents' advice ("acte respectueux et formal," as the code has it), and if the parents object, they may apply to a court of justice and state their grounds for refusal, and such refusal may be upheld. But if the son—or daughter—be 25 years of age, no consent is required.

In Denmark, any person contracting a marriage, whether there or abroad, requires the parental consent when under the age of 25, and a widower must not contract a second marriage within three months of the death of his wife. The usual publication must be made.

By the law of France, no man may contract a marriage under the age of 25 without the consents of his parents. From that age until he is 30, he will be required, as in Belgium ,to perform the "acte respecteux," and this act differs from the Belgian in that he has to perform it three times over at monthly intervals, and it is not until a month has elapsed from the third formal request that he will be allowed to contract a valid marriage. Orphans must not marry without the consent of that Continental monstrosity, the family council. In all cases of a Frenchman marrying a foreigner abroad, the usual notifications must be posted at the mairie of the commune in which he had his last usual abode.

In Germany, consent of the father is required until the son is 25 and the daughter 24 years of age, and if either is an orphan, the consent of the legal guardian is needed. The publication of an intended marriage of a person abroad must be made in the place where he last dwelt in Germany two weeks before the marriage, and it must also be made by advertisement in the domicile of a foreigner, though in this case a declaration from foreign authorities that no impediment exists is accepted as an alternative. Any person wishing to marry a second time must show that a legal settlement has been made on the children, if any, of the first marriage.

By Italian law, an Italian who marries a foreigner abroad in compliance with the laws of the foreign country is legally married, but here, again, it is conditional on him also complying with the requirements of the Italian law. To marry without parental consent, a man must exceed 25 and a woman 21 years of age. And they must publish the usual notices of the marriage in the commune in Italy where the Italian party was last domiciled.

In the Netherlands, persons under 21 must not marry without the consent of the parents, and between 21 and 25 they must perform the "act respectueux." Over 25 years of age, neither consent nor "act respectueux" is required.

In Spain, for civil marriage, consent is required until the man is 23 and the woman 25; in Sweden and Norway, consent is not necessary after 21, but widowers must not remarry until six months after the death of their wives, and if a man seduces a woman under promise of marriage she is held to be his legal wife. In Russian law, the marriage if between a male Russian and a female foreigner, must be celebrated in a Russian church or by a Russian pirest, and an undertaking must be given that the children will be brought up in the Russo-Greek faith. In Greece the law is also unfriendly to marriages with foreigners.

This, briefly, sums up the preliminaries which the Continental nations deliberate before recognizing a mixed marriage. There are in adition, important considerations affecting the re-marriage of divorced persons, widowers and widows, and there are many minor points which would need attention. So far as France and Belgium are concerned there is an arrangement with England that the French ambassador and Belgian minister will, on application ascertain in the case of an intended marriage with a person of French or Belgian nationality, if the legal requirements of their country have been complied with, and, if so, will give a certificate to that effect.

WEATHER AFFECTS WATCHES.

New York Press: "There has been a corking week for trade," said the manager of the watch repairing bureau of an uptown department store yesterday. "Business boomed so that, although I had extra men on hand, we had to toil nights in order to keep up. The cause of the rush was the marked rise in temperature. The sudden jump from low to high theremometer record put mainsprings out of commission. The delicate mechanism of these fine coils is so sensitive to atmospheric fluctuations that a radical change is likely to result in snapping the wire."

HIS RECOMPENSE.

We can't expect this life to go
Without attendant ills;
I like the Easter bells—but oh!
I dread the Easter bills!
Yet—Molly looked so sweet that day,
I won't have nothing much to say!

It just renewed my youth to see
Her deer lips smile that day
Just as at first they smiled on me
In the sweet far-away!
So, let the bills like hailstorms fall—
That smile o' hers is worth them all!
—F. L. STANTON in Atlanta Constitution.

MRS. SARAH TYSON RORER

Of the "Ladies' Home Journal" Insures Successful Baking with MOORE'S RANGE

Every woman knows that Mrs. Rorer is America's standard authority on cooking. For years she has conducted the most valuable column in the "Ladies' Home Journal," and her suggestions have been an aid to every housekeeper. In order to assure perfect baking to every woman who buys a Moore's Range, we want to direct her attention to

Mrs. Rorer's Thermometer Guide

which she has arranged solely for Moore's Range in connection with Moore's Oven Thermometer. This guide is a schedule which gives the length of time required and the heat necessary for baking all kinds of food. Especially is this guide a great help for the young housewife. It takes off worry and insures results.

Moore's Ranges

are worth your careful inspection. If you will call we will be glad to show you why it is the safest kitchen investment.

Please remember that "We trust the people."

$1.00 Down and $1.00 a Week.

If you so desire. In fact, we have everything to furnish your home with. Come and see us.

KORN-KINKS MALTED CORN FLAKES
Ready to Serve Hot or Cold

5¢

"Oh here is a bunch of ma jocular jinks,
Just read 'em and laugh," said Kornelia Kinks,
"When you paste dem all down you done mus'nt forget,
To send me four stamps for anudder swell set."

When you see them you will say that the Kornelia Kinks post cards are the funniest and at the same time the most artistic cards you ever saw. Printed in colors without any advertising on them. They are free—just send us four cents in stamps to cover postage, and two pictures of the man and boy cut from the "Korn-Kinks" boxes, and we will send you a set of six post cards.

The "Korn-Kinks" will delight you—a delicious, nutritious, easily-digested food with a new flavor. You will be glad you tried it. 5 cents at your Grocer's.

SPANKED WIFE ON HIS KNEE.

Woman Says Husband Paddled Her as He Would a Child.

Detroit, Mich., April 25.—An amusing charge made in a contested suit, being heard by Judge Donovan, is that of Mrs. Matilda Schnepper, who says her husband, Otto Schnepper, frequently turned her over on his knee and spanked her as he would a child.

Mrs. Schnepper is defendant in the suit. Her husband charges her with a bad temper, which made life miserable for him. Witnesses stated that Mrs. Schnepper is the victim of a nervous trouble, which had its inception with the performance of an operation some years ago. For years, a physician testified, she has been subject to hysteria and other forms of nervous disorder.

MAY BUILD CREAMERY

Members of Commercial Club Wish to Further Dairy Industry.

Project Will be Discussed at Regular Club Meeting.

In order to further the building up of the dairy industry in the vicinity of Duluth, members of the West Duluth Commercial club are considering the project of establishing a creamery at this end of the city and the matter will probably be brought up at the meeting of the club tomorrw evening.

It is well known that the farmers near West Duluth are very anxious that a creamery should be established at this point and at other towns and villages in Carlton and St. Louis counties and they can be depended upon to do their share toward forming a company. The country surrounding Duluth is especially adapted for dairing purposes and if creameries are established the farmers will be encouraged to purchase more and better stock and go into the industry more extensively.

At the meeting tomorrow evening the report of the committee on the proposed street car line to Proctor will be heard and the matter again discussed. The members of the committee went over the proposed route last Sunday afternoon in company with Supt. Warren of the street railway company and found the steepest grade to be about 8 per cent and this is no worse than the steepest on the Fifty-seventh avenue line.

The hall committee will also report on the matter of whether or not the club shall engage the hall over the Western State bank for another year and will also make a report regarding the furniture which is to be purchased by the club. The committee appointed to investigate the matter of repairing the bridge near Farimont park will report.

THREE LODGES MEET.

Regular Session of Woodmen, Workmen and Foresters Are Held.

The members of Old Hickory camp, No. 1555, M. W. A., held a regular meeting last evening at Great Eastern hall, and there was a good attendance, nearly 100 being present. During the meeting the degree team initiated seven candidates into the order. After the business was concluded a social session and smoker was enjoyed by the members. State Deputy Organizer Martin of Minneapolis was present and spoke to the members on "Fraternalism."

A regular meeting of West Duluth lodge, No. 145, A. O. U. W., was also held last evening at Wade's hall, and two new members were initiated. After the business of the meeting was over, Pastmaster William Stevens of lodge No. 10, Duluth, and Pastmaster A. Farrington of lodge No. 80, Duluth, spoke on th egood of the order.

On Tuesday evening the members of St. James court, No. 614, C. O. F., met at Gilley's hall and transacted regular business. The side rank degree team conferred degrees on several new members. The side rank is planning to hold a social entertainment after the next meeting of the order.

FUND FOR Y. W. C. A.

West Duluthians Are Helping to Round Out Total Amount.

The West Duluth committee, appointed to look after the raising of funds at this end of the city for the Y. W. C. A. building, reports that fairly good success is being met with, and that the West Duluth business men and merchants seem willing to do their share.

For the last two weeks the committee has been actively engaged in getting subscriptions, and money is coming in at a satisfactory rate. L. A. Barnes is chairman of the committee.

West Duluthians are in hopes that the Duluth Y. M. C. A. will establish a building at West Duluth, as a branch institution, this summer, according to the promise said to have been made a year or so ago.

Bishop Pronounced Blessing.

Rev. and Mrs. R. J. Mooney entertained Bishop J. D. Morrison and his wife at the new rectory of the Holy Apostles' church, last evening, and as is the custom, the bishop pronounced the blessing on the new residence. The rectory is situated at 634 North Fifty-eighth avenue west.

Street In Good Shape.

Street Commissioner Connolley has about completed the cleaning up of Central avenue and the street is now in better shape than it has been for many months. The Northern Pacific road has filled up the entrance to its yards with cinders so that it will be much easier to keep the mud from being carried in by teams and wagons. Streets were sprinkled for the first time this season in West Duluth today.

West Duluth Briefs.

David Sang returned yesterday from Rochester Minn. where Mrs. Sang is receiving medical treatment.

L. A. Barnes is moving his household goods today from the Kreidler block to the residence at Central avenue and Albion street, known as the H. P. Smith house.

Con Winters and his son, Edward, left this morning for a trip up the Cloquet river where they will fish for trout.

John Klinch and Peg Anderson were among the crew of the steamer L. C. Smith which left for the lower lakes yesterday.

The Young Ladies' Guild of the Holy Apostles church will hold a business meeting this evening at the church.

A party of West Duluthians went to Thompson this morning to look over the new power station of the Great Northern Power company. Among the number were James Mulligan, James Foubister, Christ Hugh and Thomas Ulticon.

John King is reported as being quite ill and was unable to attend to his duties as millwright at the Alger-Smith mill today.

Watch and jewelry repairing. Hurst.

Miss Maud Donovan of Superior spent yesterday visiting at the home of Mrs. Joseph Bellmeur, 218 Central avenue.

The ladies of St. James church will give a card social at Gilley's hall this evening. A musical program will be given.

It has been announced that the twelfth annual banquet of the Irving School Alumni association will be held at Wade's hall on Friday, May 31.

Mr. and Mrs. Nathan D. Rall are the parents of a son born yesterday at Mrs. Olson's hospital.

H. L. Paulson is making a business trip over the range this week.

L. R. Clark, cashier of the Western State bank, was able to be out again yesterday after having been confined to his home, 5709 Huntington street, by sickness for several days.

Emil Zauft has purchased through the office of L. A. Barnes two lots and a building between Fifty-sixth and Fifty-seventh avenues west and Grand avenue from Byron W. Tabor for $2,000. The seller was represented by Julius B. Howard.

A meeting of the West Duluth Baptist church Sunday school teachers will be held this evening at 6 o'clock at the church parlors. Luncheon will be served.

Mrs. Gene Smith of Duluth visited at the home of Miss Belle Bellmeur, 5714 Grand avenue yesterday.

Murray Bros. are well equipped with some new machinery and are better prepared than ever to handle the ice cream trade.

MASQUERADE BALL
Given by the Ladies' Auxiliary of the Switchmen's union, Sloan hall, Friday evening, April 26. LaBrosse's orchestra. Tickets, 25c. Prizes given.

FROSTS AND SNOWSTORMS

Prevail in Many Sections of the Southwest.

Denver, Colo., April 25.—Freezing weather with a light snow prevailed in Eastern Colorado last night. In Denver and throughout the northeastern portion of the state the temperature fell to 22 degs. At Grand Junction, in the western part of the state, the lowest temperature was 46. It is said that fruit in that district has not been damaged over 20 per cent by the late frosts.

Kansas City, April 25.—Snow in Northern Kansas and Northern Missouri and freezing weather extending from the Nebraska-Iowa state lines south into the Panhandle of Texas, was reported this morning by the local weather bureau, with predictions of colder weather by night. There was a fall of between two and three inches of snow at Dresden, in the northeastern corner of Kansas; a light fall at Concordia, Kas., 150 miles northeast of Kansas City, and half an inch at Maryville, in Northwestern Missouri. The temperature at Kansas City this morning reached 39 degs.

St. Joseph, Mo., April 25.—Snow fell here for several hours this morning, the latest precipitation in many years.

Colorado Spring, Colo., April 25. — Colorado Springs and vicinity was visited by light snow and freezing weather again last night. A circular letter received by the commission houses in this city, and signed by the Delta County Fruit Growers' association, announces that with the exception of small shipments of late apples, there will be no fruit for sale this year.

Cured of Rheumatism.
Mr. Wm. Henry of Chattanooga, Tenn., had rheumatism in his left arm. "The strength seemed to have gone out of the muscles so that it was useless for work," he says. "I applied Chamberlain's Pain Balm and wrapped the arm in flannel at night, and to my relief I found that the pain gradually left me and the strength returned. In three weeks the rheumatism had disappeared and has not since returned." If troubled with rheumatism try a few applications of Pain Balm. You are certain to be pleased with the relief which it affords. For sale by all druggists.

ROYALTY AT PALERMO.

Palermo, April 25.—King Edward and Queen Alexandra arrived here yesterday on the royal yacht Victoria and Albert. The sovereigns visited the cathedral, the Church of St. John and the Orleans palace.

SHOE TROUBLES
trouble people less who are wise enough to trouble us with their
Shoe Repairing
We are helping thousands. What can we do for you?
Gopher Shoe Works
10 First Ave. West and 12 Fourth Ave. West.

PENROSE IS SILENT

Refuses to Discuss His Visit to the President.

Senator Bourne of Oregon Equally Uncommunicative.

Washington, April 25.—Senator Penrose of Pennsylvania, whose name has been freely mentioned in connection with the giving away at a dinner of the details of an alleged conspiracy against President Roosevelt, was one of the early visitors at the White House today, reaching there before 10 o'clock. This is Senator Penrose's first visit to the White House since the publication of the story, which he denied a day or two afterward.

The senator remained at the White House for an hour, but a good portion of this time he spent in conversation with Secretary Loeb.

When the senator came out he was surrounded by a group of newspaper men. The senator was not at all communicative, and declared again and again he had nothing to say of any consequence. The dialogue between the senator and the reporters was substantially as follows:

"What was the object of your visit, senator?"

"It was purely social. I had a very nice visit. It is very nice of you gentlemen to walk along with me, but I have nothing to say."

"Nothing to add to or take from the talk about the so-called conspiracy?"

"No, no."

"Did you explain to the president why the Pennsylvania legislature refused to endorse him for a third term?"

"I did not."

"Don't you think that needed explanation?"

"I do not."

"What do you think of the third term proposition?"

"Don't think."

With this remark the senator moved on down Pennsylvania avenue.

While Senator Penrose was at the executive office Senator Jonathan Bourne of Oregon came in. He went direct to Loeb's office. Senator Bourne, it has been commonly reported, was the host at the dinner at which the details of the so-called conspiracy against the president were said to have been given out. Senator Bourne saw the president after Mr. Penrose had left. He declared, however, that there had not been any conference between the president, Senator Penrose and himself and that he had not seen Mr. Penrose during his visit to the White House.

No information was given out at the White House regarding the senator's call except that the visit had been a very pleasant one.

Secretary Loeb said that he was not present during the senator's talk with the president, but that, in the subsequent conversation Mr. Penrose had with the secretary, the so-called conspiracy was not referred to.

MURDERESS LEFT A WILL

Showing That She Contemplated Tragedy at Oil City.

Oil City, Pa., April 25.—That Miss Belle Stroup, the Bradford, Pa., dressmaker, who shot and killed Thaddeus S. Ross in the office of a physician here, yesterday, contemplated the deed, was shown by the fact that she left a will bequeathing all her property, including oil lands, to her sisters, Mrs. Fred Ehret, and Mrs. J. F. Aiken. She also left a statement, claiming that Ross had promised to marry her in June next, and the first intimation she had that he did not intend to do so was a newspaper notice of the issuance of a marriage license to Ross and Miss Sampsell of Oil City.

The will and statement were found in her bosom, together with a photograph of Ross. She brought the revolver from Bradford, carrying it in a cigar box. She arose from a sick bed to come here and kill her lover.

M'CREA ON LONG TRAMP.

Pennsylvania Road's President Will Spend Month's Vacation Walking.

Philadelphia, April 25.—Discarding private cars and automobiles as modes of conveyance which do not afford enough exercise, James McCrea, president of the Pennsylvania railroad, is going to spend a vacation on foot. In less than a week he will be somewhere in the British Isles with his two sons, James K. and Archibald M., tramping from one place of interest to another, on an energetic and healthful sightseeing tour.

Mr. McCrea and his sons sailed from New York on the Hamburg-American line steamer Kaiserin Augusta Victoria. The ocean voyage will take about six days, and then the walking will begin.

England, Scotland, Ireland and Wales will be toured. It is Mr. McCrea's aim to be back in his office in Broad street station by the middle of next month, but he may stay away longer.

Whooping Cough.
I have used Chamberlain's Cough Remedy in my family in cases of whooping cough, and want to tell you that it is the best medicine I have ever used.—W. F. Gaston, Posco, Ga. This remedy is safe and sure. For sale by all druggists.

We take this Friday and Saturday to make a complete clearance of broken lots of Go-Carts, Carriages and Cabs that are now in stock as we are unloading a big new lot that will go on sale Monday.

$3.00 FOLDING GO-CARTS $1.45.

These little carts are made of all steel with perforated seat and back, foot rest in front, has 10-inch rubber-tired wheels front and rear, a good strong seviceable Go-Cart, sells about the city at from $2.50 to $3, special here..... **$1.45**

$12.00 RECLINING GO-CART $6.75

These Go-Carts are made of the finest rattan, cane seat, Warner backs and dashboards—fitted with springs—all steel running gear and handle bars—a good, honest value at $12.00—special this lot only..... **$6.75**

"ALLWIN" FOLDING GO-CARTS

PRICES $5.75 UP TO $17.50.

We are exclusive Duluth agents for these famous Folding Go-Carts, the lightest and strongest and best folding cart on the market.

RAILROADS

EXTRA GANG MEN NEEDED

Three Hundred Shipped From Duluth in Two Days.

Spring Railroad Work Calling for Hundreds of Men.

This is extra gang season with the railroads. Every line entering Duluth is now in the market for men to work in extra gangs, and laborers are being sent out at the rate of more than 100 a day. In the last two days Duluth employment agents have filled orders for 300 extra men, and they still have orders on the books for several hundred more. One hundred will be sent to Fargo this evening, most of them through the agency of the National Employment company, in addition to those that will be shipped out in other directions.

The men being sent to North Dakota are for double track and steam shovel work. The Northern Pacific is doing a good deal of this class of work, and the Great Northern also has much of the same kind under contract. Much of the new construction work near the boundary is delayed by the fact that the snow has not yet left the ground there. It was unusually deep last winter, and the backward spring has done much to keep it in evidence.

With the approach of warm weather every year the railroads are compelled to put on hundreds of extra men to put the tracks in good repair after having been frozen up all winter, and to look after various kinds of improvement work. The number needed this year is unusually large, because of the fact that an extraordinary amount of this improvement work, outside the regular extensions that have been projected, is to be done. The wages offered in some instances are considerably lower than was expected would be the case. The men being sent to the Fargo country, for example, are to be paid $1.75 a day, with board at $3.50 a week. This is about as low a scale as has been paid at any time during the last two years.

The Duluth, Rainy Lake & Winnipeg road, on the other hand, which is pushing work on its border extension with all possible speed, is paying its men at the rate of $2.25 a day, and this week seventy-five men have been sent out of Duluth on this work. When the road is completed such of the workmen as desire will be given places in the logging camps of the Virginia Lumber company, controlled by the same people as are behind the railroad, and who carry on logging operations both winter and summer.

The Minnesota & International has not been taking so many men out of Duluth lately, but this is because the road already has crews that are about as large as desired. Some men are being shipped to this work, however. The International is also paying very good wages, and the working conditions are satisfactory. One attractive feature about extra gang work is that it calls for free fare.

REMEDY THE EVIL.

American Railway Association Takes Steps to Stop Car Shortage.

Chicago, April 25.—Decisive action was taken here yesterday by the American Railway association to remedy the car shortage, which for several months has been causing so much worry among shippers throughout the country, so far as the trouble has been due to the lack of proper and equitable interchange arrangements.

The failure of some roads to furnish sufficient equipment for their own traffic and the failure to provide and enforce proper rules for the return of foreign cars were declared responsible for the shortage.

To remedy the evil the association adopted a rule, to be confirmed by letter ballot of all the roads, providing that any railroad which shall hereafter not promptly return to its owner after unloading all cars consigned to it, shall be penalized $5 for each car so misused, to be paid to the owner of the car. This penalty is in addition to the per diem charge of 50 cents which, after July 1, each road must pay for each car not its own which may be on its lines.

In order to make the new rule more effective, the principle of publicity is to be invoked through the car clearing house recently established in Chicago. Up to now this organization has confined its work to gathering confidential statistics. By the adoption of the new rule the chairman is now authorized to send to each of the members a statement comprising the information already collected as to the car location, percentage of equipment on line, of total owned and unfilled car orders. This, the association believes, will enable each road to know exactly what lines are delinquent in the matter of furnishing adequate cars or failing to return cars to their home lines.

The report of the committee on standard rail sections was adopted unanimously, and the steel rail manufacturers will be told that the present rails are not up to specifications, and that a better and safer rail must be provided.

After the re-election of President W. C. Brown of the New York Central, and Second Vice President W. A. Gardner, vice president of the Chicago & Northwestern railroad, the convention adjourned to meet at Norfolk, Va., in October.

HAS JURISDICTION.

Interstate Commerce Commission Has Power to Regulate Railroad Practices.

Columbus, Ohio, April 25.—That the interstate commerce commission has jurisdiction in cases involving the practices of railroads as well as powers to regulate rates was the important ruling made by E. O. Clark of Iowa, member of the commission, who began yesterday the hearing of the charges of discrimination filed by the Ohio railway commission against the Wheeling & Lake Erie and the Hocking Valley Railways.

The cases involve the use of private or leased cars. The Ohio railway commission ruled that such cars should be taken into account in the distribution of cars to coal companies which did not have private or leased cars.

Proceedings were then brought in the federal court at Cincinnati enjoining the Ohio commission from enforcing its ruling. The attorneys for the railroads argued before the interstate commerce commission today that the Ohio commission was, in fact, if not technically, in contempt in endeavoring to enforce its ruling through the interstate commerce commission.

Commissioner Clark held that under the decision in the Druy case the commission has jurisdiction in cases of practice as well as rate making and that the proceedings in the federal court should have been brought before the commission. He stated that if the case went to the supreme court that body would simply declare the proceedings one which should have been brought before the interstate commission. The Ohio commission, was not, therefore, in contempt.

Commissioner Clark ordered the hearing to proceed and the taking of testimony which was not completed yesterday will be continued today.

COMMENDS 'EGGING' ACTORS

Judge Sees No Harm in Irishmen Showing Disapproval of Caricature.

New York, April 25.—The hearing in the case of the ten Irishmen who were arrested for creating a disturbance in the Orpheum theater, in Brooklyn, on the night of Jan. 31, at the performance of the sketch, "The Irish Servant Girls," by the Russell brothers, was concluded in the court of general sessions, and one by one the defendants were discharged.

The demonstration against the sketch was definitely and deliberately planned, and the police arrested more than a score of Irishmen, who, as alleged, had hurled aged eggs and other objects at the stage and showed their indignation at the performance in other ways. Only ten of the prisoners were held for trial in the court of special sessions. Justice Fleming, who presided, characterized the sketch as "indecent, vulgar and shocking in the extreme," and when the last defendant was discharged, he said: "No man, especially an Irishman, would sit still and witness a performance that ridiculed his mother and sister."

GIRL THE STAKE AT EUCHRE GAME

Barnosky, Who is Good Loser, to be Best Man.

New York, April 25.—Miss Lillian Naruckl's hand and her heart, presumably, was the stake for which Nicholas Cheblowski and William Barnosky played at Rutherford, N. J. Miss Lillian, 18 years old, and Cheblowski, 19, were schoolmates in the old country and the course of their true love was untroubled here until Barnosky went to Rutherford from Scranton, Pa. He is good-looking, his father has money and many girls looked on him favorably. He devoted himself only to Miss Lillian, a fair-haired beauty.

She could not choose between her two suitors. Being sensible young fellows, Cheblowski and Barnoski did not shoot or slash each other. Each prides himself on his skill at euchre, and they agreed that the supreme test of that skill would be to play for a wife, now Miss Lillian. They met at her home, five friends of each were present, like seconds at a more sanguinary duello, to make certain that the play was honorable and above board.

The principals determined that the winner of two out of three games, ten points each, should be Miss Lillian's accepted fiance, and that the loser should withdraw all pretensions to her hand. Miss Lillian watched the play, now leaning over one rapt player, now over the other. Naturally she was intensely interested, but she was calm, for, lucky girl, she felt she could be equally happy with Nicholas or William.

Each won a game; in the third the score was 9 to 8 in Barnosky's favor when Cheblowsky dealt. The queen of hearts, happy omen, turned up as trump. Barnosky's frown was as black as his hand. He passed, his rival took up the heart and made two points.

"I am sorry for you, Will," said Miss Lillian, giving her hand to Cheblowski; "but it seems the spirit which dwells in the cards, as they say, knew my heart better than I did."

Barnosky is a "good loser," as the gamblers' says. He readily agreed to be Cheblowski's best man at the wedding, which will be celebrated soon.

The Highest Tower in U. S.

The Metropolitan tower now being built in New York city will be the highest structure in this country and only exceeded by one other in the entire world, the Eiffel Tower in Paris. In building this new tower 8,500 tons of steel will be used, this amount being necessary for proper wind bracing. When the system is run down and in a weakened condition you require a medicine that is capable of building up and renewing the entire system. In Hostetter's Stomach Bitters you will positively find such a medicine, and when you remember that it is backed by a 53 years' record of cures you ought not hesitate another minute in trying a bottle. It cures poor appetite, belching, costiveness, heartburn, billiousness, indigestion, dyspepsia, kidney troubles, female ills or malaria, fever and ague. It is strictly pure.

LARGEST CIRCULATION IN DULUTH

TO SUBSCRIBERS:

It is important when desiring the address of your paper changed to give both old and new addresses.

THE INDUSTRIAL EDITION.

With Duluth today on the very threshold of a manufacturing and commercial era that means for it the unquestionable supremacy of the Northwest, and with all Northern Minnesota destined to share in the abundance showered on the city from Fortune's apparently inexhaustible cornucopia, so fast do new enterprises develop from day to day, The Herald presents to its readers and to all of the people of the Northwest an industrial edition setting forth fully and accurately all matters of moment connected with this grand new era.

In the preparation of this industrial edition, the sole aim has been to lay before all readers the facts on which Duluth's title to supremacy is based, as well as to give an outline of the assured future of the agricultural portions of Northern Minnesota. Conciseness as consonant as may be with completeness has been the purpose and, contrary to the usual rule with such special editions, everything superfluous and unnecessary has been carefully weeded out.

Yet, so great is the field that is covered by this edition from the details of the colossal steel works, Great Northern Power plant and dry dock and ship yard, the foundation stones of the new and greater Duluth, through the varied industries now here, including the wonderful record of this port, to the setting forth of the agricultural certainties of Northern Minnesota, that it has been found imperative to give to the people about ninety pages of most valuable reading matter.

That every citizen of Duluth and of the great Northwest, to whom this edition shall go will enjoy the reading and will then put it to the best possible use in aiding to enlighten friends elsewhere as to the great present and greater future of city and section, goes without question.

The Herald is proud of its industrial edition which it presents to the people and it is sure that the people themselves will be equally proud of it and also exceedingly glad that they are vital parts of Duluth and the most favored portion of America.

THE TAX COMMISSION.

One of the most important results of the legislative session just ended was the creation of a tax commission, which was accomplished in the closing days. The need of such a body was made evident by the almost complete failure of the legislature to do anything worth while in the way of tax reform, even though it was working under a tax amendment that gave it large powers.

Much depends, of course, upon the make-up of the commission, and results have shown that the legislature acted wisely in leaving the appointments wholly to Governor Johnson, instead of dividing the responsibility among three state officers, as was proposed at first. Incidentally, the confidence shown by the Republican legislature in the Democratic governor was a fine commentary upon the present chief executive of the state.

The commission as appointed by Governor Johnson looks good. As an expert and student of economics, Frank L. McVey of the state university promises well. As a lawyer, with considerable experience in tax matters, Samuel Lord of Kasson is well and most favorably known throughout the state. O. M. Hall of Red Wing is a strong, level-headed, conservative citizen, and his appointment shows good judgment on the part of the governor.

In short, the commission is strong, and promises much. The abilities of its members should go a long way toward justifying the faith put in the governor by the legislature, and toward making good for the tax commission idea the claims of its supporters.

RHODE ISLAND'S MISCHANCE.

The failure of the Rhode Island legislature to elect a successor to United States Senator Wetmore after two full months of balloting is to be attributed partly to party obstinacy but, as was the case in Delaware for years, more largely to the combined deleterious influence of bossism and the corrupting power of the money poured out by unscrupulous rich men anxious to achieve political fame.

In the contest just closed without result, leaving Rhode Island with only one representative in the upper house of congress for at least a year, three multi-millionaires, Senator George P. Wetmore, Col. Samuel P. Colt and Col. R. H. L. Goddard, were the opposing candidates while "Blind Boss" Brayton, for years the most notorious political dictator in New England, was the malign power behind the legislature. Col. Goddard represented the better element in the state but, as is usual in political conflicts of this kind, the better element was far from the control.

At least two of the candidates poured out money lavishly and secured binding pledges at what are believed to have been high figures, though so far all efforts to ferret out the details of the undoubted corruption have failed. Repeated attempts were made by Governor Higgins, who is a representative of popular rule in politics, to dislodge "Boss" Brayton from the office in the capitol that he had held for years in defiance of all right and law but, so strongly entrenched is he, that these attempts were virtual failures.

It is not a little peculiar that both of the states that have had senatorial deadlocks recently have been the two smallest in the Union where the populations are condensed and where it would naturally be supposed that the wishes of the people themselves would be of especial force and would be the most respected. That the citizens of Delaware and Rhode Island have permitted such conditions certainly does not speak well for their interest in public affairs in which they might be supposed to have the most vital concern.

This Rhode Island failure, while temporarily unfortunate, may result in much ultimate good, if it shall convince the people that, so long as congress refuses to permit the enactment of a constitutional amendment providing for popular elections of senators, the plan in vogue in many of the state of selecting at the primaries the candidate preferred by the voters is the wisest one possible. Other states also that still cling to the old system may also take warning. Thus the senate may ultimately be made more nearly a body representative of the people and not of the "interests" and the ambitious multi-millionaires.

THE LEGISLATURE.

The thirty-fifth session of the Minnesota legislature has ended, and its successes and its failures are now before the people for their praise or criticism. Generally speaking, a legislature gets more blame than praise. It is damned if it does and damned if it doesn't. There are many men of many minds, and differing opinions upon the merits of matters considered by the legislature make it certain that whatever is done will be unsatisfactory to somebody.

The recent session was the most expensive in the history of the state, and it has produced a tax levy that is greater than the state has borne in a number of years. There are excuses for both of these results, though whether they are strong enough to make the people content remains to be seen. In part the great expense of conducting the legislature is due to the fact that it tried to do more than any recent session, and if it did not accomplish much more, it was largely because it attempted the impossible in many cases. The increased appropriations are due to increased needs, and even with a budget as large as it is now many public institutions failed to get half their demands.

The 2-cent fare bill, which the people demanded, has come about. The anti-pass bill, which the people also demanded, has come part way at least. The reciprocal demurrage bill is a law. A bill was passed reducing commodity freight rates. A tax commission was created, and if it does all that is hoped from it, future legislatures will not have to grope blindly and without understanding in the mazes of complex tax legislation.

Duluth and St. Louis county have no complaint to make of the legislature. The unjust and iniquitous measures aimed at this section all died the death they deserved. They were not easily downed, but this section has reason to be vastly grateful that a legislature, largely made up of representatives of districts whose interests are absolutely distinct from ours, treated us with such fairness and consideration.

Northern Minnesota did not get all it asked, but it got a reduced appropriation for immigration, $100,000 a year for state drainage and some money for good roads.

It did not get reapportionment, and the prospects of getting it are not good. The senate stood in the way, and though it could not help admitting the justice of the demand, the danger of losing a part of their terms induced the senators to stand immovably in the way of progress.

Taking it all in all, the session was very much like other sessions, except that it tried to do a vast amount of work more than others, and therefore, naturally, accomplished a little more.

PLANT A TREE TOMORROW.

People in all parts of Minnesota, who like to have beautiful surroundings and who want to help make their homes more attractive, no matter whether these homes be on farms or in villages, towns or cities, should carry out tomorrow in letter and in spirit Governor Johnson's proclamation and plant at least one tree. Certainly, there will be no objection if half a dozen, or even a dozen, be set out to grow to future glory.

Nothing improves the appearance of the residence sections of a city or town so much as well-kept lawns and spreading trees. To achieve this latter ornamentation requires the growth of years but, unless the young trees be set out liberally, there will never be the desired improvement. No better time to initiate the work of making all places more attractive can possibly be found than the present. The delay of even a year means that much delay in the development of the perfect tree. This is a matter that should especially interest the children who will rejoice in seeing their trees keep pace with themselves in growth and development.

People who have been too much engrossed in business to pay attention to the aesthetic, will be surprised to be told that an attractive place is becoming more and more the one to which persons seeking new homes turn and, other things being nearly equal, the one with handsome trees will be the one to be preferred in ninety-nine out of every hundred cases. Yet this is a fact beyond all dispute.

The people of many of the towns of the state have made elaborate preparations for carrying out the governor's wise proclamation which President Roosevelt so well supplemented by his appeal to the children of America. Duluth, which is entering on a new era of prosperity unexampled in the history of America, must not be behind its younger sisters. It cannot possibly have too many trees and it is to be hoped that Arbor day will be made the occasion by every house owner for the planting of at least one tree or, if this be inconvenient tomorrow, for making arrangements for such planting at the earliest day possible.

THE PASSING SHOW.

The legislature has come and gone, leaving more good than bad behind it, when all things are considered.

* * *

The new anti-pass law seems to let every one ride on passes, if they can be secured, except editors and state officers and, possibly, future solons.

* * *

The legislators fixed the anti-pass law so that it would not affect themselves—unless some of them should happen to be reelected to the next legislature.

* * *

Secretary Taft does not relish a fight with Foraker for Ohio and he will skillfully sidestep it on the plea of previous business engagements unless strenuous Roosevelt shall make him toe the mark.

* * *

The Duluth Street Railroad company is already making ready to keep well up with the industrial progress of the city. New lines are to be constructed into the new steel plant section as rapidly as possible.

* * *

The legislative investigators told the people nothing new when they reported that there was a combine among wholesale dealers in coal. What the people wanted was a valid suggestion as to how to get rid of the combine and this they did not get.

* * *

To the Iron Trade Review, The Herald is indebted for the excellent and comprehensive table, giving in succinct form the facts about last year's output and shipments, that appears in its summing up of that great industry in the industrial edition.

HOTEL GOSSIP.

"Down at Columbus, Ohio, there is the material for the working up of a good magazine story by some clever writer," said W. J. Mace of Cleveland, at the Lenox. "I don't know whether the particular phase of the story I refer to has reached the newspapers yet or not, but it has been told by them how a huge graft has been unearthed, and how the principals in it are very apt to be sent to prison for a considerable time.

"There is nothing new about the graft part of it. Some official or other got away with about $100,000 of the city's money, and now they are after him good and hard. Others were implicated, but the one witness needed to rivet the facts down good and hard, so the offenders cannot possibly escape, has left town. He is a young fellow who was acting in the capacity of a go-between, and who did not realize just how serious the offense of the men involved was. He readily confessed his part in the affair, but before the case got along far enough for him to testify against the big fellows, he left town, and has not been seen since. The understanding is that he was paid about $40,000 or $50,000 to get out of the way, promising not to return until notified that he could.

"Well, after he had gone, leaving no word with either friends or relatives concerning his probable destination, the authorities woke up and began to try and locate him. They, or some one authorized by them, secured the services of the older brother of the young man, to try and locate him. The older brother, acting in the capacity of detective, is now scouring the country, all expenses paid, and with an unlimited amount of capital at his command.

"It is argued that he will be better able to convince his brother that he should return and testify than to run away, and run all sorts of risks. If he is not found and brought back, a reward is to be offered for his return, and if captured it will go hard with him, for his offense itself was sufficient to land him in state's prison, although he was to have been allowed to go free if he testified against the fellows higher up.

"The friendly detective is visiting all the big Atlantic seaports, in the hope that he will be able of find his brother sailing for distant lands, or at least find some trace of him. If he discovers that the fellow already has sailed, he will take the next boat and follow, and bring him back to the United State if he possibly can. It is a true case of brotherly love, for the detective realizes, as well as anybody, that it is very liable to go pretty hard with his brother if he follows out his present plan of escaping from justice I should think that, with the proper trimmings, a fellow could work up a pretty good story out of such a situation as that."

* * *

The busy season is beginning unusually early with the Duluth hotels this year. They have been enjoying an exceptionally large patronage all through the winter and spring, but just now thois business is as large as it ordinarily is two or three months later on, when the tourist travel is in full swing.

All the leading hotels were filled to capacity last night, and some of them had to turn away people who were in search of hotel accommodations. There have been nights this spring when all four of the leading hotels were jammed to the gables, and when would-be guests have had to seek accommodations at cheaper houses, or at private boarding places.

And all this despite the fact that three of the hotels have more rooms now than they ever had before. All are carrying on extensive improvements, which are completed only in the case of the McKay. The Lenox, Spalding and St. Louis are still carrying on the work of improving and enlarging their quarters, and will have this work finished before the summer season opens up.

* * *

"Mexicans are used to a large extent on railroad construction in the Southwest," said R. E. Marshall of Los Angeles, Cal., at the Spalding. "They are the most satisfactory labor the railroad men down there have found. The Mexican is inclined to drink and fight a little, but he is no worse in this respect than the average laborer of the railroad construction class. He will do more work, and he is inclined to stick to his job pretty well.

"The ordinary Mexican will stay at it about six months if he can hold his job that long. Then he wants to take a trip back home. He will give his foreman notice perhaps a month before hand that he wants leave for a month with the folks. He is given a pass, and away he goes. As soon as he is broke he sends out word that he wants to go to work again, and if there is anything for him to do, the railroad will haul him back.

"One thing that recommends a Mexican to the powers that be is that he wants to bring his family with him. This tends to make him steadier. Men who bring their families are given positions with permanent stationary gangs."

Carmichael, Biwabik, Minn.; E. R. Waggoner, Oshkosh, Wis.

THE WEATHER.

Old Winter, unwilling to allow fair April even a week for her own, returned last night on the wings of a chilling high north wind and when people awoke this morning they found it decidedly cold—as cold almost as an average March day. Those who were on the streets early had their heavy outer wraps closely buttoned and hurried along as fast as they could so as to keep warm. The only redeeming features were the absence of the predicted snow or rain and the rising of the sun in an unclouded sky. The orb of day shone full and strong and was genial in sheltered places but it had hard work generally combatting the coldness of the atmosphere and there was really little warmth all day long. Last night's lowest temperature was 16 degs. and yesterday's highest was 42 degs. The weather man says that it will be partly cloudy and warmer tonight and tomorrow, with tonight's lowest temperature about 20 degs.

The sun set at 7:10 o'clock this afternoon and will rise at exactly 5 o'clock tomorrow morning. Today again gained two full minutes of sunlight at each end.

A year ago today a northeast wind caused slightly more coolness than had prevailed for several preceding days, but the predicted showers did not come and the sun shone warmly most of the time. The lowest temperature of the night was 40 degs. and the highest of the day was 50 degs.

Says Mr. Richardson of conditions: "The storm central Wednesday morning over Eastern Nebraska moved rapidly to the eastern lake region. It caused light rain or snow during Wednesday or last night in the Missouri and Upper Mississippi valleys and lake region, moderately high northerly winds in the latter district and higher temperatures in the eastern lake region, Ohio valley and gulf states. The Western Canada high pressure now covers the Red river, Upper Mississippi and Missouri valleys. Eastern slopes and western lake region attended by somewhat colder weather in those districts. Freezing temperatures are the rule as far south as Iowa, Kansas and Colorado. Generally fair weather and milder temperatures are indicated."

Following were last night's lowest temperatures, as recorded by the weather bureau:

Abilene	60	Medicine Hat	22
Asheville	38	Memphis	56
Atlanta	58	Miles City	26
Battleford	18	Milwaukee	34
Bismarck	14	Minnedosa	12
Boston	40	Modena	38
Buffalo	38	Montgomery	56
Cairo	54	Moorhead	18
Calgary	22	New Orleans	64
Charleston	54	New York	46
Chicago	38	Norfolk	50
Cincinnati	54	Northfield	26
Concordia	32	North Platte	26
Davenport	38	Oklahoma	44
Denver	22	Omaha	32
Detroit	44	Phoenix	56
Devils Lake	16	Pierre	28
Dodge	32	Pittsburg	50
Duluth	16	Port Arthur	14
Edmonton	16	Portland, Or	44
El Paso	54	Qu 'Appelle	12
Escanaba	28	Rapid City	24
Galveston	68	St. Louis	48
Grand Haven	36	St. Paul	26
Green Bay	30	San Antonio	66
Havre	22	San Francisco	50
Helena	24	Santa Fe	32
Houghton	24	S. Ste. Marie	30
Huron	28	Shreveport	66
Jacksonville	60	Spokane	34
Kamloops	42	Swift Current	20
Kansas City	38	Washington	50
Knoxville	44	Wichita	38
La Crosse	30	Williston	14
Lander	14	Winnemucca	34
Little Rock	54	Winnipeg	14
Marquette	26	Yellowstone	8

Department of Agriculture, Weather Bureau, Duluth, April 25.—Local forecast for twenty-four hours ending at 7 p. m., Friday: Duluth, Superior and vicinity, including the Mesaba and Vermilion Iron ranges: Partly cloudy and warmer tonight and Friday; lowest temperature tonight about 20 degs. Fresh winds mostly northerly.

H. W. RICHARDSON,
Local Forecaster.

Chicago, April 25.—Forecasts until 7 p. m., Friday: Wisconsin: Fair tonight and Friday; rising temperature Friday.

Minnesota: Fair tonight and Friday; warmer Friday and in north portion tonight.

North and South Dakota: Fair tonight and Friday; slowly rising temperature.

Upper Lakes: Brisk northerly winds becoming variable on Superior tonight and on Michigan and Huron by Friday morning. Threatening, followed by fair weather. Warnings lowered 10 a. m.

MERRIMENT MAKERS.

Chicago Record-Herald: "His father, I believe, was a man who won high honors."

"He was. There were six automobiles in his funeral procession."

Baltimore American: "Don't you agree with the president on being down on this molly-coddling business?"

"Well, that depends.

"Depends on what?"

"On Molly."

Chicago Tribune: "I've nothing to say against this Hague business," remarked Uncle Allen Sparks; "but big battleships speak a good deal louder than peace congresses."

Cleveland Leader: "And I went to her window and poked my face in."

"And she?"

"She did the same."

"She did the same?"

"Yes—poked my face in."

Washington Star: "I suppose you have a great many friends?"

"I don't know," answered the man who seems popular. "I have never yet tried to get a note endorsed."

Baltimore American: "Do you believe old Millyuns' young widow is really grieved over his death?"

"I know she is. Black is awfuly unbecoming to her complexion."

Cleveland Plain Dealer: "How does that fashionable physician manage to get on as he does?"

"Oh, he's such a jollier."

"Is he?"

"He went to the length of telling Cholly Softed that he was sure Cholly had something on his mind."

New York Sun: The hero had just taken up the gauntlet for the fair lady.

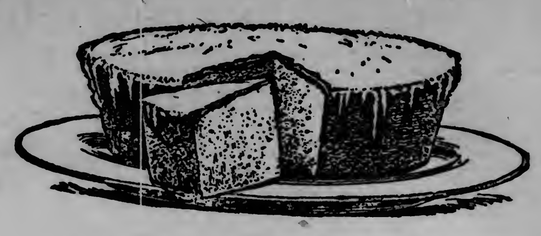
"Just wait," murmured the benedict; "in another year he'll be taking up the carpet."

Thus does real life break in on sweet romance.

Judge: "If a man had an arm long enough to touch the sun and burn his fingers," said the professor, "he would not feel the pain for 5,692 years."

"And for how many thousands of years could he be heard swearing about it, professor?" asked the anxious student in the second row.

Her Chief Assistant.



When lovely woman stoops to folly
And makes the watchful gossips yelp,
You'll always find, on looking closely,
That there's a man around to help.
—Chicago Record-Herald.

Press On!

We waste our time in wishin'
We were in the happy state,
But you're never lucky fishin'
With a hook without the bait!

Too soon the night is comin'
When the shadders will be shed;
You've got to rise up early
When the long road is ahead!

You linger in the summer,
In many a rosy dawn,
But the weather soon'll vanish,
An' the snow is comin' on!
—F. L. STANTON in Atlanta Constitution.

ROYAL Baking Powder is indispensable to the preparation of the finest cake, hot-breads, rolls and muffins.

Housekeepers are sometimes importuned to buy other powders because they are "cheap."
Housekeepers should stop and think. If such powders are lower priced, are they inferior?
Is it economy to spoil your digestion?

The "Royal Baker and Pastry Cook"—containing over 800 most practical and valuable cooking receipts—free to every patron. Send postal card with your full address.

Alum is used in some baking powders and in most of the so-called phosphate powders, because it is cheap, and makes a cheaper powder. But alum is a corrosive which, taken in food, acts injuriously upon the stomach, liver and kidneys.

ROYAL BAKING POWDER CO., NEW YORK.

MINNESOTA OPINIONS.

Princeton Union: Minnesota's attorney general says that the decision of the supreme court in the Great Northern injunction case was an unfortunate one for the state. He should have substituted the word "Young" for "state."

Le Sueur County Leader: The railroads want the president to say something about them. The railroads ought to give him some provocation.

Big Fork Compass: The chief trouble with Northern Minnesota is that opportunity keeps up such a din of knocking at the door that a fellow cannot sleep.

Norman County Index: Dairying is the surest road to success for farmers. It is a nice thing to get a creamery check every month ranging from $50 to $150 or more. Many Red River farmers are enjoying that experience.

Ortonville Herald-Star: This legislature has not pointed the way to the chair of the chief executive of the state two years hence.

McIntosh Times: Revenge is sweet when you take it on the other fellow, but it loses most of its sweetness when the other fellow takes it on you.

Redwood Reveille: There is a question in the minds of a good many people as to which shaking damaged San Francisco the most—the earthquake or the grafters.

Red Lake Courier: The people are learning that a lot of political orators soon develop into legislative fog horns after the election.

Mankato Free Press: St. Paul wants the Republican national convention in 1908. The saint has a new auditorium in which to house the convention.

Crookston Times: One of the gratifying things noticeable in the reports of returns on city elections over the state is the frequent occurrence of the statement, "Party lines were not regarded in the election."

Bemidji Sentinel: Attorney General Edward Thompson Young ripped and tore, pawed the air with both feet, and held up developments of the Great Northern for six solid weeks. Then Chief Justice Start told Mr. Hill to go ahead and do business.

Anoka Herald: Lots of Anoka people are buying automobiles this spring. That is good. It speaks well for the men who have made the spare pile of dollars needed to buy machines and it speaks well for the town that its business men, who have made their money here, have met with such success.

The Silver Lining.

Don't growl at the world and the weather,
The seasons of heartache and gloom.
Some day the old world will be better,
And some day the roses will bloom.
It's all in the way that you take it,
If skies be o'ercloaded or fair.
When trouble holds fast to you shake it
And laugh in the face of despair.
—Birmingham Age-Herald.

Were Superstitious, Too.

New York Press: A woman who takes her superstitions seriously started to enter a big department store one morning last week when she noticed a porter on a tall stepladder that stretched directly across the doorway. In spite of the fact that there were five women behind her eager to pass into the shop, she came to a sudden halt, looked up at the ladder, and cried out, "Oh, I'll never walk under that," saying which she turned and strode away.

Before she had gone far her sense of humor rose superior to her fear of ladders, and she looked to see if her remark had had any effect on those who had been within sound of her voice. Walking directly behind her were the five women who had heard her exclamation.

Reflections of a Bachelor.

New York Press: A woman calls it news if she tells it and scandal if anybody else does.

The best way to get excused for not being able to earn your living is to be a poet.

A nice thing about sending telegrams is you can shift the blame for the bad spelling.

If a woman could talk in three languages she would have to be able to do it all at the same time to believe that she was having a good time.

When a man sneaks away from his office to go to the races he pretends he doesn't know what horse won so his family will think he went to the funeral of a relative.

A Pension That Lasted Long.

Westminster Gazette: Miss Robb, who has died in Edinburgh at the age of 94, has been a naval pensioner for ninety-three years! She was the posthumous child of Capt. Robb of the royal navy, and was put on the state pension roll at birth. The most notable event of her long life was meeting with the great novelist Sir Walter Scott. When Miss Robb was a girl at an Edinburgh boarding school she was taken to a concert. Noticing an old gentleman with a limp standing, unable to find a seat, the polite little pupil at once offered him hers. She was cordially thanked and afterward was informed that he was Sir Walter Scott.

Gambler's Chance.

Bookmakers now are giving odds,
On those who'd take a flyer,
And try to pick out the next man
Roosevelt will call a liar.
—Houston Post.

A Song of Money.

Money ain't all,
But it's half o' the battle—
Listen, good folks,
How the bright dollars rattle!
Without 'em go yonder
An' graze with the cattle—
This is the world's way forever!
—Atlanta Constitution.

DULUTH AND DULUTHIANS.

Carlton County Vidette: Carlton does not expect to get the steel plant, but it does expect to get its share of the prosperity that is coming toward Duluth.

Red Wing Republican: Duluth will soon be turning out bigger crops of millionaires than Pittsburg.

Mesaba Ore: The Duluth school board has made an increase of $10 a year to the salaries of its teachers. Duluth's liberality is enough to eat the heart out of a trust bank account.

Windom Reporter: Duluth is wonderfully elated over the coming of that steel plant. It is to be hoped they will not have an attack of "brain storm."

Chisholm Tribune: The Zenith City has been promised a $6,000,000 steel plant. Good for the Zenith City. It certainly means prosperity—an unprecedented period of it—and much to the development of Northern Minnesota. Every town and hamlet will share in the profits.

Princeton Union: Duluth will hold a May festival, but Duluth did not ask the legislature to make an appropriation therefor.

Redwood Reveille: Laybourn in the senate and Miller in the house is the whole show so far as Duluth is concerned. They are for the city by the unsalted sea first, last and all the time, and then some.

Worthington Herald: Duluth is destined to become the metropolis of the Northwest. It is gaining fast on Minneapolis and St. Paul in both population and commerce. It is predicted by some that it will some day become one of the most important cities in the United States. Duluth is a good live city, and being ideally situated for commerce at the head of the Great Lakes, it is bound to become a great center of business activity.

Karlstad Advocate: While we congratulate Duluth in securing the steel plant, we sincerely hope that the Zenith City will not get "stuck up" over it, for the whole north part of this great state will have the same privilege to feel that way, for it will be equally benefited.

Roseau County Times: The Zenith City is fast coming to the front, and before many years will be numbered among the largest cities.

Pointed Paragraphs.

Chicago News: Wise men are always in haste, but never in a hurry.

It's the last word that usually brings on the first blow.

You can't blame a physician for trying to "heel" himself.

With some artists painting is more of a habit than an art.

A good workman and a poor boss never trot in double harness long.

It takes a skillful artist to make a speaking likeness of a dumb person.

The tongue of a flatterer either has a fool back of it or one in front of it.

How much easier it is to buy things on the installment plan than it is to pay for them that way!

ARBOR AND BIRD DAY, FRIDAY, APRIL 26

Governor's Proclamation.

When, following the law and custom of our state, I hereby proclaim Friday, April 26, as Arbor and Bird day, for 1907; private pleasure collaborates with official duty.

The place and purpose of the tree in history, its dignity and worth, are they not set forth in the chronicles of Christendom, that all the world may read, from its first book, unto the last revelation of the world unseen, where, "In the midst of the street of it * * * was there the tree of life * * * and the leaves of the tree were for the healing of the nations."

Throughout all time, man has been the tree's most sincere worshiper. In his boyhood he sought its green heights; in his youth he walked beneath its whispering branches; in his age he sat content in its sympathetic shade; "after life's fitful fever he sleeps well" at the foot of it. The influence of this life long companionship is deep, lasting, and visible. Quite apart from its indirect force in the mass, as a factor of climate, we have daily testimony of its power to mold in the character of the Norsemen, austere, independent, strong as his native pine; the Briton, rugged, honest, outspreading as his much-sung oak; the German, true forester and forest lover that he is, full of sentiment as his linden, musical as his fir, sturdy as his beeches. Out of a state peopled by such races, what may we not hope for? Surely the rights of the forests will be reverenced—surely, the forests will make royal return.

Let the day of this proclamation be observed far and wide among us, in deed and in spirit, in school, home and mart. Let the highways be embellished, make crooked paths straight, rough places smooth. Let consecration of aim unite with concentration of effort, toward making of Minnesota one vast landscape garden, where the workings of nature are cunningly aided, not held in thrall by man; where song sparrow may sing in the lidgerowas, while meadow lark and bobolink trill their sweetness from the topmost boughs, and none shall make them afraid.

JOHN A. JOHNSON.

President's Proclamation.

To the School Children of the United States:

Arbor day, which means simply "Tree day," is now observed in every state in our Union, and mainly in the schools. At various times, from January to December, but chiefly in this month of April, you give a day, or part of a day, to special exercises, and perhaps to actual tree planting, in recognition of the importance of trees to us as a nation, and what they yield in adornment, comfort and useful products, to the communities in which you live.

It is well that you should celebrate your Arbor day thoughtfully, for within your lifetime the nation's need of trees will become serious. We of an older generation can get along with what we have, though with growing hardship; but in your full manhood and womanhood you will want what nature once so bountifully supplied, and man so thoughtlessly destroyed, and because of that need you will reproach us—not for what we have used, but for what we have wasted.

For the nation, as for the man or woman, and the boy or girl, the road to success is the right use of what we have and the improvement of present opportunity. If you neglect to prepare yourselves now for the duties and responsibilities which will fall upon you later; if you do not learn the things which you will need to know when your schooldays are over, you will suffer the consequences. So, any nation, which in its youth lives only for the day, reaps without sowing, and consumes without husbanding, must expect the penalty of the prodigal, whose labor could with difficulty find him the bare means of life.

A people without children would face a hopeless future; a country without trees is almost as hopeless; forests which are so used that they cannot renew themselves, will soon vanish, and with them all their benefits. A true forest is not merely a storehouse full of wood, but, as it were, a factory of wood, and at the same time a reservoir of water. When you help to preserve our forests or to plant new ones, you are acting the part of good citizens. The value of forestry deserves, therefore, to be taught in the schools, which aim to make good citizens of you. If your Arbor day exercises help you to realize what benefits each one of you receives from the forests and how, by your assistance, these benefits may continue, they will serve a good end.

THEODORE ROOSEVELT.

BEMIDIJI LATH MILL

Running to Its Full Capacity to Meet the Demand.

Bemidji, Minn., April 25.—(Special to The Herald.)—The lath mill which was started in this city during the past winter by the Douglass Lumber company, is now running to its fullest capacity.

The mill is proving a boom to the "jack-pin farmers" in the vicinity of Bemidji, affording them an opportunity to dispose of their small timber to good advantage, as the mill uses, making the lath, Norway, white and jack pine, and balsam, in fact, most any kind of timber, except poplar and the hard woods. The capacity of the mill is 65,000 completed lath in every run of ten hours.

BRAKEMAN KILLED.

George Gisness of Ashland Run Over by Freight Train.

Ashland, Wis., April 25.—George Gisness, a well known young man of Ashland, was instantly killed yesterday at Trego, five miles north of Spooner, by being run over by a freight train on which he was a brakeman. The last seen of him he was standing on top of a box car and he must have slipped and fallen in between the cars. His body was badly mangled and death must have occured instantly. He was 25 years of age and has resided at Ashland nearly all his life. Until about a month ago he was employed as clerk in the Gisness & Bernard store here.

He leaves his parents, who reside at Cumberland, and five brothers and two sisters to mourn his loss. Until recently the entire family were residents of Ashland.

Lyceum, May 5th, 8. p. m. Tickets at Lundberg & Stones.

JAIL STILL HOLDS HERO

Who Stood Off Mutineers From Entering Powder Magazine.

Leavenworth, Kan., April 25.—In prison at Lansing is Jerry Carpenter—Jerry Carpenter, who in March, 1901, was in charge of the powder magazine in the mines, 720 feet below. When the mutineers tried to storm his little chamber, Jerry stood them off from Monday morning until Wednesday night, threatening to blow up the whole mine—and he had the powder to do it—if they tried to enter the magazine.

He was a prisoner for life—murder. Gov. Stanley said he would pardon Jerry but he didn't. He forgot him. Gov. Bailey commuted his sentence to 25 years, and the warden and every deputy and guard petitioning for Jerry's pardon!

"How long have you to serve, Jerry?" a visitor inquired.

"Well," he replied, "if I live and don't have no trouble and I get 'good time' I'll get out in eight years."

And that man saved the mines!

GIVES ALL FOR LOVE

Young Wife Leaves Her Husband and Spends $350,000.

Admits George P. Bowler Squandered Most of Her Fortune.

New York, April 25.—Edith Stevens Reynolds, young, rich, and pretty, once a favorite in Boston society, and well known in New York, revealed in Boston the amazing story back of the arrest, in this city of George Pendleton Bowler, a Harvard man, indicted for forgery in Boston. Bowler is a nephew of the late Senator George H. Pendleton of Ohio.

Her narrative reveals for the second time the mystery that surrounded the young prisoner, of evident refinement and culture, who, while in the Tombs, would talk to none but her. He is now shown as one of the most colossal spendthrifts of the last decade.

Bowler has just been extradited and is now in the Charles street jail, Boston. At a prominent hotel, but a few blocks away, is the woman who has been constantly with him while a fugitive from justice, having sacrificed husband, friends, and a high social position. A few blocks farther away, in a pretty little apartment, at 44 Batavia street, is the wife, Mrs. Helen L. Bowler, who was married to the former Harvard student the year after he graduated. With her is her 6-year-old daughter.

Edith Stevens Reynolds, known also as Mrs. George R. Reynolds around the exclusive Boston Country club, admits that her friendship for Bowler has already cost her $350,000, the greater part of a fortune left by her father, E. R. Stevens, once a prominent business man of Boston.

Despite these facts and her knowledge of the man's past, her loyalty is undying. She asserts that she will give away her last jewel if it be necessary to get Bowler out of the toils of the law. The last remnant of her fortune, about $50,000, is available for this purpose, she says.

From her apartments in the fashionable Bellevue hotel on Beacon street, Boston, she had visited Bowler every day while he was under arrest. When Bowler was in the Tombs here, she also saw him six times a week. These visits attracted much attention from the keepers and prison attendants on account of the smart gowns and pretty face of the visitor. She came every day in an automobile with a liveried chauffeur. None, even among those who saw her daily, was able to learn her identity. The big automobile would whisk her away in a different direction after each visit.

"I will go to the end of the earth for this man," she said. "It is true that he has squandered $350,000 of my money, but we spent some of it together, and I am satisfied. In addition to what he has obtained from me, he has borrowed large sums from other sources, which he will never be able to pay."

"Did you not hesitate about coming back to your old Boston home, where so many of your friends reside?" she was asked.

"Yes, I did hesitate at first, or I would have been in Boston on the first train after the extradition papers had been served in New York.

"If Mr. Bowler must stay in jail, I will be willing to sacrifice personal feeling and pride in order to be near him," she continued in a quiet, even manner, that was sufficient evidence of her determination. "I felt sure that he wanted me near him, even though his own wife lives in Boston. I simply could not remain so far away.

"I will give up even these trinkets," she added, indicating a number of costly rings on her fingers and a cluster of diamonds pinned loosly at her throat.

Bowler was arrested here on Oct. 8, at the Hotel Normandie, by Detective Sergeants Chandler and Kerr, at the request of the Boston police. Copies of eight indictments were sent here, charging him with forging the endorsement of Robert Pendleton Bowler, his brother, to as many promissory notes, which aggregated $16,000, and giving them to Bernard Bennett, the Harvard money lender, in return for money advanced. The notes were dated Jan. 5, 1903, and fell due in periods from six to thirteen months.

Bowler had become acquainted with Bennett, better known to the students as "Poco" the old clothes man, while at Harvard. He was a member of the class of 1899.

Great secrecy attended the arrest and commitment of Bowler here. He fought extradition, hoping to avoid the necessity of going back to Boston, where he was so well known, but failed. The pretty visitor, now identified as Mrs. Reynolds, was his only solace during the two weeks spent in the Tombs. Under cover of the excitement due to the Thaw trial, the two hoped to escape publicity. Last Monday Chief Inspector Watts of the Boston police, came to New York and took the prisoner away. He had been a fugitive from justice for about eighteen months.

Bennett, the money lender, after being told by John P. Bowler, who lives at 15 East Forty-eighth street, New York, that his signature on the notes was a forgery, held them for a long time before making a complaint.

According to Chief Watts, the notes were discounted by the money lender at a Boston bank, where the forgeries were first discovered.

George P. Bowler is a member of one of the most prominent families in Cincinnati. His friends say he has been wild and willful since a mere youth. He is not yet 30. At Harvard he was one of the most popular men of his class, but his escapades, which followed quickly one upon the other, resulted in many embarrassing situations for both the faculty and his fellow students.

On account of these inclinations, Bowler was left with a very small sum of money by his father when the latter died some years ago. But, after much litigation, a trust fund was provided by the brother, John P. Bowler, who, since that settlement, has declined absolutely to have anything to do with his brother's affairs.

The income amounted to about $3,-000 a year, which proved entirely inadequate for the wants of the young man, who declined to change his mode of living.

Boston's exclusive social circles were given food for gossip in April, 1903, when it became known that Edith Stevens Reynolds and George P. Bowler had both left Boston. Bowler had deserted his wife and little daughter. Mrs. Reynolds had abandoned a husband, George R. Reynolds, at that time a prominent member of the Athletic and Country clubs. Both families were members of the Commonwealth avenue set, and so careful were the facts guarded that the story did not get into print.

Mrs. Helen L. Bowler, the wife, who is devoting her life to the health and care of her little daughter, received a reporter yesterday. Strange as it may appear, there is no bitterness in her heart against the wayward husband or the woman who had shattered the romance of her girlhood, which resulted in her marriage to Bowler in 1900. She, too, visits the Charles street prison daily, taking fresh linen and delicacies such as the officials will permit her husband to have.

"Mr. Bowler has but little to say when I go to his cell," she said. "But I am going to be kind to him. It is all that I can do. I have only a maintenance, which is not sufficient to allow me to help him in any but a small way.

"Yes, I know Edith Stevens Reynolds. I have only sympathy for her. Her husband was Mr. Bowler's friend in years gone by. It was he that introduced him to Mrs. Reynolds, about two years after we were married. Six months later they both went away about the same time. I believe they traveled in the West extensively until the indictment for forgery was obtained. Since then he has been in hiding."

In a separate maintenance suit brought against Richard W. Hale of Boston, trustee of the fund from which Bowler has received the $3,000 income, Mrs. Bowler testified, last fall, that when her husband abandoned her he took $8,000 worth of jewelry which had been given her as presents. She also said he mortgaged their furniture. At this time depositions were also introduced, showing that Bowler was indebted to a Mr. Depew of New York for $6,000, and numerous others for smaller amounts.

Bowler bears a striking resemblance to Harry K. Thaw. On the street here it was said that he was mistaken for the slayer of Stanford White. The same situation prevailed at the Tombs while he was imprisoned there. He is very nervous, but of athletic build.

His friends say that it is impossible to estimate the fortune represented by the amount of money Bowler has spent in speculation, gambling and high living during the last three years alone. Although he gave his address as the Hotel Normandie when arrested, he was not stopping there. In every hotel in the Tenderloin district, however, he was a familiar figure. He kept horses and several automobiles, which were constantly on the go in his ceaseless search for all pleasures that money could procure.

Edith Stevens Reynolds is known at the Hotel Flanders, in West Forty-seventh street, where she lived for some time. She and Bowler were familiar figures in the uptown restaurants and late-dining places.

PRISON CHIEF MURDERED.

Odessa, April 25.—The chief of the political prison here was killed yesterday by four Terrorists, whose indignation he had provoked by alleged atrocities upon prisoners. One of the Terrorists committed suicide, another was captured, and two managed to escape.

CONSTIPATION EASILY CURED

In the Privacy of Your Own Home Without Medicine.

NOT GUILTY OF INTENT

Jury Finds Argyle Insane When He Fired Shots.

Defendant Wins Out In Second Trial of Assault Case.

A verdict of "not guilty because of insanity," was returned last evening in the case of Frederick M. Argyle, who was indicted for assault in the second degree. He was charged with shooting at his wife, at Lester Park, March 5, last, with the intent to kill her.

The case was given to the jury yesterday afternoon and the verdict was returned after about three hours spent in deliberating over the evidence.

This was the second trial of Argyle on the same indictment, and it was even harder fought than was the first case, when the jury disagreed. The second trial lasted eight days and the main fight was made on the question of Argyle's mental condition at the time he fired the shots at Lester Park.

County Attorney J. H. Norton left no stone unturned to secure a conviction and produced many non-expert witness and two expert witnesses who claimed that Fred Argyle was sane at the time of the shooting.

For the defense, W. E. Culkin, who is entitled to much credit for the able manner in which he has handled a case so apparently hopeless for Argyle at the beginning, introduced expert testimony and much non-expert testimony to the effect that the defendant was suffering from delusions at the time of the shooting and that, because of his state of mind, he was not responsible for his acts. This view of the case seems to have impressed the jury the most and Argyle will not have to pay a penalty for his deed, in connection with the alleged shooting at his wife.

In his charge to the jury, Judge Ensign submitted four forms of verdicts; one for "guilty," a second for "not guilty, a third for "not guilty because of insanity," and a fourth for "guilty of assault in the second degree."

The jury agreed on the third form of verdict.

Immediately after the verdict was rendered, Argyle was remanded to the custody of the sheriff, in the county jail, to await his trial on one of the two remaining indictments charging him with asault in the first degree on his wife and on Miss Bessie Butchart. It is not definitely known when the next trial will begin, but as the May term of district court opens next Wednesday and County Attorney Norton will have a considerable amount of criminal work to attend to in connection with the grand jury investigation that begins on that date, it is pretty certain that Argyle's next trial will not be started for some days.

Seventy-five men were examined for qualifications to sit as jurors before the last jury was selected and, because of the widespread publicity of the two trials, it is possible that some difficulty may be encountered in getting twelve men who have not already formed an opinion as to the guilt or innocence of the defendant.

What effect the verdict just returned may have on the next trial must necessarily be speculative, but it is conjectured that it may have its influence on many who might be called as jurors.

MANEUVERING FOR POSITION

Consumers of Foundry Iron Are Flirting With the Furnaces.

New York, April 25.—The Iron Age says: While Pittsburg reports further large transactions in Bessemer pig at the figure recently established, the volume of business in steel making iron in other sections of the country is on a very small scale. Large consumers in the foundry trade seem to be chiefly engaged in maneuvering for position. Outside of one interest in the New York district which has purchased an aggregate of about 20,000 tons during the last three weeks, large inquiries are still pending either in whole or in part and a good deal of mystery is maintained. One feature in the situation is the advance abroad for No. 3 Middlesborough warrants and the report emanates from excellent sources that purchases for American account of warrants to the extent of 50,000 tons have been made. On the basis of warrant prices ruling today Middlesborough iron cannot be laid down at less than $20.25 duty paid. It remains to be seen whether the iron will be actually shipped. Even then foreign iron is selling considerably below domestic for early deliveries and the foreign metal can penetrate pretty far inland.

The Pennsylvania inquiry for rails for 1908 aggregates 153,000 tons against about 170,000 tons for 1907 with the usual option of taking a certain percentage above or below the quantity named.

As yet no advices have been received concerning 1908 sales from the West where the movement is expected to develop first.

A constant flow of new business is coming to the structural mills. A Pittsburg fabricator has secured 5,000 tons for the extensions of the Pittsburg Steel company and an additional 1,000 tons was placed for San Francisco. Chicago reports that there are pending 9,000 tons of bridge work, 25,000 tons for building at Indianapolis, while in the east the New Haven road needs further tonnage for the Harlem extension.

The bar trade is active although thus far only a moderate part of the season requirements of the implement makers has been placed. They are still holding off in the hopes of securing special concessions.

Large orders for the second half are being placed with the tin plate mills.

The cast iron pipe foundries are doing a very fair business. Among the contracts pending are 6,100 tons for St. Louis, 2,500 tons for Cincinnati and 2,500 tons for Los Angeles.

POOR, BLIND AND PROUD.

Aged Man, Once Wealthy, Fights Against the Poor House.

Owosso, Mich, April 25.—Clark M. Harris, aged 70, blind, but once in very comfortable circumstances, objects to going to the county house. For two years he has fought the poor commission's efforts to take him where he can get good care. He is feeble, but proud, and insists that he can care for himself. This he cannot do and will have to give in to the plans of the commission.

FIRE RUINS BUILDING IN PORTSMOUTH NAVY YARD.

Kittery, Me., April 25.—A three story brick building about 100 feet long and forty feet in width, occupied as a pattern shop and storehouse at the navy yard here, was ruined by fire last night. At times the flames threatened the building occupied by the Russian and Japanese peace conferees.

A large number of costly patterns, valuable brass fittings and other stores were either destroyed or badly damaged. Unofficially the loss is estimated at $150,000.

State of Ohio, City of Toledo, Lucas County.—ss.

Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for each and every case of Catarrh that cannot be cured by the use of Hall's Catarrh cure. FRANK J. CHENEY.

Sworn to before me and subscribed in my presence, this 6th day of December, A. D. 1886. A. W. GLEASON, (Seal.) Notary Public.

LECTURE

Rev. A. F. Elmquist of Minneapolis will speak at the Bethany Lutheran church, Twenty-third avenue west and Third street, Thursday evening, April 25. Subject, "A Heroic Example." A good musical program will also be rendered by the choir.

FIFTEEN FAMILIES QUIT CHURCH AT SAME TIME.

Muskegon, Mich., April 25.—Muskegon's latest church row again assumed serious proportions when fifteen families resigned from the Third Christian Reformed church. As a session two weeks ago thirty families quit because the church consistory wanted them to abide by the rule of the synod that both parents must be full members of the church before their children could be baptized.

MAN'S NOSE SHAVED OFF BY FALLING STOVEPIPE.

Elwood, Ind., April 25.—A peculiar accident happened at the plant of the American Sheet & Tinplate company to Edward Alley, who is employed in the sorting room. He had finished his task and was sitting by a stove, when suddenly the stove pipe fell, and his nose was shaved off as neatly as if done with a knife. A local surgeon sewed it back and it is believed it will grow in place again. The officials say that never in the history of the plant was such an accident chronicled before.

ARMED UMPIRE DECIDES CUBAN BASEBALL TITLE.

Havana, April 25.—The Cuban baseball fans got the New York habit at the close of yesterday's game. The Almendares club had been playing for the championship of the island, and was ahead, 4 to 2. The opposing team had a show in the ninth inning. A close decision against a man at first, however, precluded their chances and ended the game. The umpire, who is not five feet tall, saw trouble brewing, and, drawing his revolver, darted behind a line of police. The mob charged and attempted to break the line and assault Umpire Borrato. The crowd numbered 20,000, and the victorious team divided $5,000.

A Woman Tells How to Relieve Rheumatic Pains.

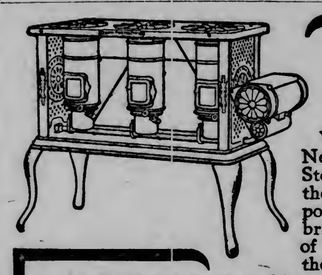
I have been a very great sufferer from the dreadful disease, rheumatism, for a number of years. I have tried many medicines but never got much relief from any of them until two years ago, when I bought a bottle of Chamberlain's Pain Balm. I found relief before I had used all of one bottle, but kept on applying it and soon felt like a different woman. Through my advice many of my friends have tried and can tell you how wonderfully it has worked.—Mrs. Sarah A. Cole, 140 S. New St., Dover, Del. Chamberlain's Pain Balm is a liniment. The relief from pain which it affords is alone worth many times its cost. It makes rest and sleep possible. For sale by all druggists.

WORKMAN GETS FORTUNE.

Taliyman at Lumber Mill in Washington, Inherits About $3,000,000.

Tacoma, Wash., April 25.—Fred Perry, for the last four years tallyman at the mills of the E. K. Wood Lumber company, in Bellingham, has recently come into a fortune estimated at from $2,000,000 to $3,000,000 by the death of his father, who had long been rated one of the wealthiest men of Los Angeles. Fred was inclined to be reckless, and as a result of his shortcomings his father ordered him away from home about four years ago. Shortly after the old man seemed to repent his action, and sent for his son to return home and enter his employ. A second row followed, and Perry was again banished and ordered to return no more. The older Perry began to fail in health last fall, and again sent for his son. It seems that their difficulties were not entirely patched up, for Perry returned to Bellingham to his work. A short time ago the old man became ill and his death followed. The estate left by him is rated between $6,000,000 and $8,000,000, to be divided among three children.

FIRST CASE OF ITS KIND.



King Edward Sued by Woman for Train Injuries.

Boston, Mass., April 25.—Sued by an American woman, his majesty, Edward VII, King of Great Britain and Ireland and emperor of India, has been made the defendant in equity proceedings for personal injuries to Annie Mason of Boston. In order to consider international questions which are involved, Judge Fessenden of the superior court has taken the case under advisement.

Last summer, while visiting relatives in Canada, the plaintiff alleges that she was seriously injured while boarding a train of the Intercolonial railway. On returning to Boston she brought suit in the superior court of Suffolk county, naming the Boston & Maine railroad and Robert W. Chipman of the Canada Atlantic Plant Steamship company as trustees. Through its counsel, Arthur H. Russell, the Intercolonial railroad moved the court to dismiss the action on the ground that the Intercolonial railway is owned by his majesty, King Edward, and that international law forbids suit by any citizen of the United States against a friendly sovereign.

The contention of the plaintiff, through Nathan Wolfman, her counsel, is that the sovereign of England conducts the undertaking in his private capacity, and therefore should be held liable, as is any private corporation, for the negligence of his servants. It was also pointed out that if the suit was dismissed the plaintiff would be without remedy, for, in the Canadian courts, no action could be brought.

The case is the first one of its kind to be brought in the United States and is arousing much interest among the legal profession.

Clean Cooking

Wherever there's a New Perfection Oil Stove in the kitchen, there you will find the pots and pans clean and bright. The blue flame of the New Perfection is the cleanest flame produced by any stove, and is entirely free from smoke and soot. Another advantage of the

NEW PERFECTION

Wick Blue Flame Oil Cook-Stove

is that the heat is highly concentrated by enameled chimneys. This means quick results. The New Perfection is *different* from other oil stoves. Made in three sizes, with one, two and three burners. Every stove warranted. If not at your dealer's, write to our nearest agency for descriptive circular.

The **Rayo Lamp** is the best lamp for all-round household use. Equipped with the latest improved burner. Gives a bright, steady light at lowest cost. Made of brass throughout and beautifully nickeled. Suitable for any room, whether library, dining-room, parlor or bedroom. Safe and satisfactory. Every lamp warranted. Write to our nearest agency if not at your dealer's.

STANDARD OIL COMPANY
(INCORPORATED)

DO IT NOW.

Now is the time to take something to clean and build up the blood, ridding the system of the poisonous waste matter and acids which cause Rheumatism, Blood disorders, Nervous Debility, Backache and other miserable weaknesses.

Here is one of the simplest though safest and most certain mixtures, which can readily be prepared at home at nominal cost:

Fluid Extract Dandelion one-half ounce, Compound Kargon one ounce, Compound Syrup Sarsaparilla three ounces. Get these ingredients from any reliable pharmacy and mix by shaking them well in a bottle. The dose is one teaspoonful after meals and at bedtime. Also drink plenty of water.

This home-made mixture, writes a noted authority, will overcome most forms of Kidney and Bladder troubles and at the same time force the Kidneys to filter and strain all impurities and acids from the blood, restoring the full blood count of 95 per cent red blood corpuscles, which means good, sound health and vigorous vitality, to say nothing of the clear, rosy skin and complexion which must result.

TO IMPROVE WHITE CITY

Managers of Park Will Have New Features This Year.

The board of directors of the White City are preparing for the coming summer season and forming plans for increasing the popularity of the park among the people. Saturday afternoon the members of the board will go to the White City and look over the ground, with a view to planning improvements which may come to them. The members of the board have decided to leave the management of the park this coming season in the hands of President Silberstein and J. R. Somes, and they are to be given a free hand in arranging features for the entertainment of the public.

An effort will be made this year to remove the sand difficulty, which has been an unpleasant feature of the park. The heavy beach sand does not form an ideal walking surface, and the managers of the park will do everything in their power to remedy it.

Arrangements have been made whereby the transportation facilities between the city and the park will be better this year than formerly. Large cars are promised for the Lake avenue run, and every effort will be made to provide for the comfort of the patrons of the resort. Good music will be secured, and other new features will be announced later.

BOUND TO HAVE A ROMANCE.

Iowa Couple Eloped, Although No One Objected to Marriage.

La Porte, Iowa, April 25.—An elopement a la Romeo and Juliet occurred here Tuesday night when Howard Edsit, a restaurant keeper, placed a ladder to a window in the rear of the Hotel Terry and assisted Dorothy Pane, a handsome blonde of Cedar Rapids, to descend to the ground.

The pair then took a midnight train and went to Cedar Rapids, where it is believed they were married. It is not known why an elopement was necessary, as there appeared to be no objection to the match.

The American people are as fond of good beer as any other nation. It's the logical all-the-year-'round beverage for all classes.

MUSIC AND THE DRAMA

TONIGHT'S ATTRACTIONS.

METROPOLITAN—Burlesque.
BIJOU—Vaudeville.

HOW ROSE COGHLAN KEEPS WELL.

In answer to an inquiry as to how she managed to enjoy the perfect health which her appearance denotes, Miss Coghlan replied, "Moderation in diet, cold tubs in the morning, plenty of exercise in the open air and abstemiousness as regards liquids. I never drink anything but 'aqua purafortis,' and this method of passing my waking hours insures me perfect repose in my sleeping ones, and this blessing I prize most of all. This is the secret, if secret there be of what people are pleased to call vivacity."

Miss Coghlan will be seen in Duluth Friday and Saturday in George Bernard Shaw's great drama, "Mrs. Warren's Profession."

GOOD MUSICAL NUMBERS.

The Imperial Burlesquers introduce some pretty musical numbers in the two skits which they are offering at the Metropolitan this week in addition to an olio of splendid vaudeville acts. Among the hits which are heard are "Gay Paree," "Convivial Girl," "When the Gentle Breezes Blow," "Lena," "Twinkle, Twinkle, Little Star," "Dear Old Dad," and "The Captain of the Guard." The Imperials will give a bargain matinee Saturday.

HAVE ORIGINAL SKETCH.

Maud Isabel Entwistle and company in their original vaudeville sketch, are one of the bright features of a very attractive vaudeville bill at the Bijou this week.

LIKE OLD FRIENDS.

The Longer You Know Them the Better You Like Them.

Doan's Kidney Pills never fail you.
Duluth people know this.
Read this Duluth case.
Read how Doan's stood the test
For many years.
It's local testimony and can be investigated:

Edward J. Hoppman, mineralogist, living at 422 First St. W., Duluth, Minn., says: "The best proof of the merits of Doan's Kidney Pills that I can give is that since using this remedy for a bad attack of kidney trouble, some six years ago, I have not found it necessary to use any medicine at all for my kidneys. At the time when I began using them I suffered from sharp, aching pains in the back and loins. The kidney secretions were disordered and the trouble told on my general health. Doan's Kidney Pills brought prompt relief and a final cure, and the permanence of the results thoroughly proves that this remedy can be depended upon in such cases."

For sale by all dealers. Price, 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

HAPPENINGS IN THE DAKOTAS

Supt. Bryan Held Blameless for Wreck Near Lakota.

NORTH DAKOTA.

Lakota—The jury's verdict in the coroner's inquest on the bodies of two unknown men killed in the Great Northern wreck near here on Monday, April 15, was that the wreck was the result of unknown causes. All the evidence and the verdict exonerated R. W. Bryan general superintendent, of Minot, from responsibility and refutes the charges made in the newspapers that he was to blame for the accident.

Grand Forks—After being in a strawstack five months a hog belonging to Thomas May, residing near Larimore, was found yesterday to be alive, but a mere skeleton. It is being fed on milk and will live, it is believed.

W. J. Murphy failed to appear in justice court yesterday and the case against Father Murphy of Larimore, accused of assault and battery, was dismissed.

Friendless and suffering from a complication of delirium tremens and diphtheria, Anton Laatas, formerly of Stoughton, Wis., and recently of McIntosh, Minn., died yesterday at the detention hospital. His body is being held to await orders of relatives.

Fargo—The final effort to raise funds for the completion of the Y. M. C. A. building will be made this week. The superstructure has been completed and the money now required is to complete the interior work so the structure can be occupied.

The electric line between Fargo and Detroit lake is again under discussion. It is fifty-one miles, and it is estimated that $500,000 wil construct and equip the line. It can be used also for freight service to connect with the Soo at Detroit.

Secretary Orchard of the North Dakota Sunday School association has started for the world's convention at Rome. He will sail with the other American delegates from Boston Saturday.

Minnewaukan.—Glanders has made its appearance in the vicinity of Brinsmade, and is so prevalent that it is feared it may become epidemic. The state veterinarian shot four horses belonging to one man and Archie McArthur lost his entire herd.

August Bolinski, William Monaghan and Cliff Valliers, all pioneer residents of Oberon, left last week for Cheyenne Wells, Col., where all expect to file on land and make their homes.

Miss Emma Sturgeon and Dr. E. W. Crary, both of Leeds, were married at the home of the bride's parents.

SOUTH DAKOTA.

Deadwood.—Robert Yellow Boy, a Sioux Indian, to judge from the testimony offered by the government at his preliminary examination yesterday before United States Commissioner Neil McDonough, stands a good chance of ending his life on the gallows. Yellow Boy is charged with murder and is held without bail for appearance before the next federal grand jury. Until the alleged commission of the crime, he was a member of the Indian police force at Pine Ridge agency. His alleged victim, Pugh Brave Heart, also was a member of the force.

Aberdeen.—Despondent over business troubles, Patrick H. Tracy, one of the best-known men of this section, committed suicide yesterday in a shed in the rear of his home in this city by shooting himself in the left breast and forehead. He had been acting strangely for some weeks and today went to his back door and fired two shots try the weapon. He then went into the shed and killed himself. He was proprietor of an express and baggage line and had lived here twenty-five years. He leaves a wife and five children.

Yankton—Word is received here of the death of Hon. Austin Cole at Iowa City, Iowa, quite recently, aged 83 years. Mr. Cole settled in what is now Union county in this state, in 1859, before the territory was organized. He was elected to the first territorial council in 1861, and the county now called Union was first called Cole, in his honor. He later represented Bon Homme county in the house, resided a year at Yankton and went to Iowa early in the '70s.

Brookings—Mrs. Edward Fleming, wife of a farmer living fourteen miles north of town, was fatally burned by the explosion of a lamp Tuesday evening. Her husband and son went to her assistance, but she received severe burns about the body and head, and lived but a few hours. Mrs. Fleming was about 45, and had been a resident o fthis county twenty-seven years. She is survived by eight children. It is feared one of the daughters will go insane because of grief.

Arlington—The marriage of Mrs. John Florea to Chris Christenson, a wealthy land owner, turned to gloom, owing to the discovery that husband No. 1 of the blushing bride is alive, instead of having been killed in a railway accident, as was reported last winter. Florea disappeared, leaving no trace, and Mrs. Florea instituted divorce proceedings, but hearing that he was dead, and having been comforted through the attentions of Mr. Christenson, she dropped proceedings and consented to share her lot with him. They were married last Saturday, but no sooner had the wedding party dispersed to their homes than word came that Florea was alive, and only waited his release from a Montana jail to return to his spouse.

The horseless farm is the latest thing. Sully county claims to have the only one in this state. The Groseclose brothers, who have several thousand acres, do all their plowing, harrowing seeding, harvesting, threshing and hauling of grain to market by the use of motors. Even the errands about the farm and to town are run with automobiles. Bad weather does not deter work on the farm, and the results are tremendous. It is strictly a grain ranch and no cow, horse or other animal is to be seen on the premises.

UNIFORM LAWS FOR INSURANCE

Urged in Recommendations by American Bar Committee.

Philadelphia, April 25.—The insurance law committee of the American Bar association, which has been in session here devising a system of uniform laws for the government of insurance business in this country has adopted a series of recommendations which will be presented to the association as embodying its ideas of what such laws should contain.

Following is a list of the recommendations, the elaboration of which will constitute the report:

"1. The appointment of state insurance commissioners for fitness and expert qualifications for the position, rather than as a reward for political services.

"2. That all companies created outside of the United States make deposits in at least one state. The chief motive for this recommendation was the action of certain German companies after the San Francisco fire, which repudiated their policies.

"3. The repeal of the retaliatory tax laws.

"4. The repeal of the valued policy laws.

"5. The creation in each state of the office of fire marshal. This exists at present in only about one-third of the states.

"6. The announcement of a federal statute prohibiting the use of the mails by wild cat insurance companies and by any company not authorized by the law of the state of its origin.

"7. The apportionment and contingent distribution of deferred dividends surplus on policies now in force, as a precedent to the right to do business outside of the state in which the company is created."

The American Bar association will meet in Portland, Maine, next August to discuss the suggestions.

Mandy—Hives and other blotches are supposed to be caused by an acid stomach. A simple remedy, and one that is very effective, is Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. Ask your druggist.

PENNSYLVANIA HOUSE

Defeated Indorsement of Roosevelt in Legislature Without Any Debate.

Harrisburg, Pa., April 25.—Without debate the house voted down a resolution indorsing Roosevelt for a third term. Politicians look upon the affair as part of a scheme to weaken the president, while the author of the resolution insisted that it was offered in absolute sincerity. Penrose's hand was shown. The whole affair means that the determination of the Pennsylvania and Philadelphia leaders to force the endorsement of United States Senator Knox for the presidency has not been changed and that the resentment against the president in high quarters is still active.

Friends of the president are not at all pleased with the outcome of the move. Mr. Bluestone of Pittsburg, who introduced the resolution, is identified with the active and influential Republicans of Allegheny county, who have been co-operating with the leaders of Senator Penrose in state affairs.

DOG MAKES A WILL.

Foxhound Disposes of Small Fortune Among Children and Dies.

Hattiesburg, Miss., April 25.— The record of a dog making his own will and having it offered for probate is reported at New Augusta. The instrument, duly signed and witnessed, bears the mark of a dog. Fifteeen years ago Doc McAllister died, leaving a valuable foxhound. In his will he set aside $250 to be used in caring for the hound until his death. Desiring to preserve the bequest for the benefit of the pups, a son of Mr. McAllister drew up a will in proper form, which two citizens witnessed, and, placing a pen between the claws of the aged dog, made his mark. A few days later the old hound was dead.

PLAYED WITH FIRE

And as a Result the Little Girl is Dead.

Royalton, Minn., April 25.—The 8-year-old daughter of Victor Sawdy is dead as the result of burns. The hild and a companion started a fire in an old tin pail. The girl's mother bade her extinguish it, but in so doing the child's clothing took fire. She started to run to the house, the wind fanning the flames into a fierce blaze. Her mother wrapped a blanket about her and finally extinguished the fire; but the little one was so badly burned that she survived only a few hours.

WOMAN FOUND DEAD.

Body of Wisconsin Farmer's Wife Found In Bushes.

Grand Rapids, Wis., April 25.—The body of Mrs. Frank Chichy, wife of Frank Chichy, a prosperous farmer near this city, was found dead near a clump of bushes in the woods between Mosinee and the Gardner mill. Mrs. Chichy was for several years last past an inmate of the Marathon county asylum for the insane at Wausau, and she has been missing from that institution since the fifteenth day of August last. The spot where the body was found is about eighty rods from the traveled road, and in a lonely and unfrequented place. A young mill hand discovered the body while he was exploring that section of the woods.

ACCIDENTALLY KILLED.

Man Dies as He Pictured End in Letter to Sweetheart.

Des Moines, April 25.—To meet death in the same horrible manner in which his vivid imagination had pictured a sad end for himself in order to arouse the sympathy of his sweetheart, was the strange experience of Harry L. Collins of Troop E, Eleventh United Stats cavalry, at Camp Columbia, last week.

Collins' people live in Chicago. Collins had a sweetheart in Des Moines who jilted him. He disguised his hand, April 7, and wrote a letter to her, which he signed, "A Friend." In this letter he stated that Harry Collins had been thrown from his horse, struck on his head and lay dying in the army hospital, where he continued to talk of her.

Exactly one week later, on April 14, Collins was thrown from his horse and wounded as he had described in his letter. He lived but a few hours.

When Collins left Des Moines, several weeks ago, he was on the best of terms with his sweetheart. She wrote to him breaking off their relations. In his letter describing his accident, he attempted to make up with her. His remains will be taken to Chicago for interment.

CHILD LOST IN WOODS.

Searchers Find Her After a Hunt Lasting Fifteen Hours.

Rochester, Minn., April 25.—From 4 o'clock Monday afternoon until 7 o'clock Tuesday morning, the 7-year-old child of Mr. and Mrs. A. R. Bay was lost in the woods, just a mile out of this city. The little girl wandered away during the day and shortly after her parents noticed her absence and started a search for her, but she was nowhere to be found. The alarm was given, and the police force and half a hundred people began to hunt for the wanderer. All night through the drizzling rain the party hunted, the anxious father going the farther and never ceasing the search.

At 4 o'clock Tuesday morning the search was renewed, and this brought the first clew, for little footprints were discovered in the mud near the Zumbro river, about a mile from town. The party was spread out to cover the vicinity where the tracks were found, and soon a shout of joy from the father showed that his child had been found. The girl had slept all night in the woods. Her feet were blistered, and she was as near prostration, but in triumph the party, which had hunted the night through, returned to the city and gave the mother her little wanderer.

MURDER SUSPECTED.

Fort Dodge, Ia., April 25.—The body of C. H. McCaffrey of this city, a representative of the American Life Insurance company of Des Moines, was found yesterday under a platform. A half dozen scalp wounds point to murder.

CIVIL SERVICE EXAMS.

Tests for Applicants for Government Positions Announced.

The United States civil service commission will conduct an examination on May 15-16 to secure eligibles to fill at least thirteen vacancies in the position of aid in the coast and geodetic survey, at salaries of from $720 to $900 per annum, which will occur on or before July 1, 1907, and similar vacancies as they may occur. Applicants may apply to the commission at Washington, or the secretary of the local examining board.

The commission also announces an examination to fill vacancies in the position of assistant physiologist in the bureau of plant industry, department of agriculture, at $1,600 per annum, and one to fill vacancies in the position of plant pathologist, department of agriculture. The applicants for those two latter positions will not assemble for examination.

MISSING GIRL FOUND.

Mind Clouded, She Goes From Michigan to Montana.

Helena, Mont., April 25.—Miss Lora Bryant, whose disappearance from the Ypsilanti state college in the Michigan city ten days ago created such a sensation, has been located in this city, where she found a haven of refuge with the Salvation Army.

Miss Bryant is made to assign any reason for leaving the institution save that she was seized with a mania for travel, and that her destination was Dickinson, N. D. Arriving at that place she found that her friends were living some distance in the country, and she purchased a ticket for Helena, arriving here last Friday. Some person on the tram directed her to the Salvation Army barracks, where she was made a member of the family of Adjt. L. H. Larder, her story of overstudy having appealed to them.

After her rest she has fully recovered her reason, and now expresses a willingness to return to Ypsilanti. An official from that institution is expected here shortly. She is about 20 years old and apparently has been subjected to great worry or mental strain, but is perfectly rational.

SAVED BY CHANCE.

Captain Reached Drowning Girl's Side in Dark Cave Providentially.

Bermuda, April 25.—Thrown from a leaky boat into a bottomless lake in an unexplored cavern was the experience of Miss Alice Brownell of Providence, R. I. She was rescued by Capt. Connor of the Royal artillery, who reached her side by the merest luck.

Miss Brownell and Capt. Connor had joined a party who went to explore a new cave. They embarked in a boat with a negro boy to row. The boy soon discovered that the boat was leaking. He jumped into the water and upset the boat. The torch fell into the water and was extinguished.

Miss Brownell could not swim, though Capt. Connor could, and the cave was dark and the water icy cold. Somehow he managed to find her and with marvelous luck swam to a shelf rock, whereon lay safety.

INNOCENT GIRL LOCKED IN CELL AT EAU CLAIRE.

Eau Claire, Wis., April 25.—Miss Clara Fritz of Rusk was brought to this city late Tuesday evening and placed in the county jail. She had left her home to go eight miles in the country on a bicycle and visit a married sister. She lost her way when about six miles from home, and after traveling twenty-five miles on her bicycle a tire exploded and left her adrift about four miles west of Eau Claire in the town of Union.

A farmer brought her to this city, and, instead of being taken to a hotel, she was turned over to the authorities, who placed her in the jail while they made inquiries. Her parents were finally located by telephone.

There was much excitement in Rusk over the disappearance of the girl, and for a time foul play was feared. Just as a searching party was about to start out, word came from Eau Claire that she was in safe keeping.

HEARST PLANNING WAY TO GET NOMINATION.

Chicago, April 25.—People who thought that William Randolph Hearst, when he was defeated for governor of New York last fall, has quit his desire to be president of the United States will have a chance to revise their opinions. Mr. Hearst has not abandoned his ambition. He has simply changed his plans for attaining it.

The Hearst program, as outlined in the last few days in New York and Chicago, is extremely simple. It is a repetition of the one he worked so successfully in New York last year when he forced the democratic party organization of that state to make him its candidate for governor. He will break away from the national Democratic party and have himself nominated for president by a National Independence league. Then it will be up to the Democratic national convention. It can indorse Mr. Hearst, with a chance of winning, or name a candidate of its own with a certainty of defeat.

ORATORICAL CONTEST.

Eight Schools Entered for Orations and Declamation at Washburn.

Washburn, Wis., April 25.—A great deal of interest is being taken in the final oratorical contest to be held in this city on the evening of May 3, between the winners of the contests held in the eastern and western divisions of the North Wisconsin oratorical district composed of the schools in the towns of Ashland, Bayfield, Washburn, Iron River, Mellen, Spooner, Hayward, Ironwood, Hurley and two schools in Superior. At this final contest students will be chosen to represent the North Wisconsin district in the state contest to be held at Madison some time the early part of the summer.

The following is a list of the schools that will be represented in the final contest here and the topics:

Orations—
Spooner—"Sparticus and the Gladiators."
Ironwood—"Rome and Carthage."
Superior (Dewey)—"Patrick Henry's Last Speech."
Ashland—"The Death Disk."
Declamations—
Superior (Blaine)—"Sahrab and Rastum."
Ironwood—"The Keeper of the Lighthouse."
Washburn—"Bobbie Shaftoe."
Mellen—"The Battle of Waterloo."

The judges who have been chosen to decide upon the winners in this contest are Prof. Collins, Rhinelander; Principal Rice, Tomahawk, and Superintendent Miss Smith of this city.

MIND STILL CLOUDED.

Judge Lovely's Friends Somewhat Discouraged by His Slow Recovery.

Albert Lea, Minn., April 25.—Judge John A. Lovely, who was stricken with paralysis about four weeks ago, is making progress toward recovery, but the improvement is slow and his friends are becoming discouraged. He is able to be about and takes long walks and drives, visits his office and meets friends, but his mind is still somewhat clouded.

TOWNE ON NOMINEE LIST.

Former Minnesotan Mentioned at White House as Presidential Timber.

Washington, April 25.—Representative Maynard of Virginia, who has just returned from New York, was at the White House yesterday, and discussed possible Democratic presidential nominees. Among those he mentioned were Charles A. Towne, formerly of Minnesota, and W. G. Conrad, the Montana millionaire.

SCHOOL GIRL DROPS DEAD.

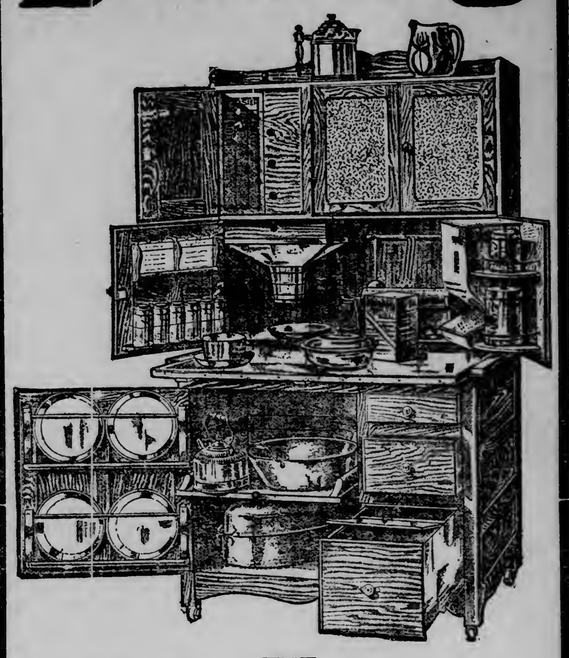
Winona, Minn., April 25.—Rose Franke, daughter of Carl F. Franke, aged 14 years, residing at Bluff Siding, across the river, dropped dead on the ferry road while returning home from school here Tuesday afternoon. She is the fourth child in this family to have dropped dead in this manner. There are three still left.

Moose Brand Bottled Beer.

Public taste as regards the use of Beer has undergone a change in the past decade. The family cask, so common a few years ago, is rapidly becoming a thing of the past, the bottled product having almost entirely replaced it.

At the same time the alcoholic strength of **Moose Brand Beer** has been reduced by about one-half, to satisfy the public requirement for a light drink. Our modern brewing methods have made it possible to thus reduce the alcohol in the Beer, it no longer being needed as a preservative.

Have us send you around a case of **Moose Brand Beer?**



Duluth Brewing & Malting Co.,

Either 'Phone No. 241.

COMPLETE HOUSEFURNISHERS

BAYHA & CO

Second Ave. W. and First St.

THE HOOSIER Kitchen Cabinet

A Pantry, Cupboard and Work-Table Combined

One of the many exclusive features that makes the Hoosier Kitchen Cabinet superior to all others is the sanitary flour-bin.

The flour is put in at the top and every bit comes out through the sifter at the bottom of the bin. The flour is kept fresh and clean and each supply is all used up.

The dust and insect-proof sugar bin works on exactly the same principle.

Besides these, there are the metal bread and cake boxes, air-tight spice cans, the Hoosier system of filing recipes, the housekeepers' perpetual reminder, large cupboards and drawers—everything at your fingers' ends without taking a step—grouped most conveniently around the roomy, aluminoid extension work table.

As there is a place for everything—this table top is free for work, and like high grade utensils can be washed bright and clean—ready for bread or cake making.

MADE OF SOLID OAK

Hoosier Cabinets are made of solid oak—(handsomely finished) the only wood that will not split or warp in the heat of the kitchen.

They are sold at a low price because they are made in large quantities at a small margin of profit. We guarantee satisfaction so you take no risk in buying a Hoosier.

We are sole agents for Hoosier Cabinets in Duluth. We can show you a complete line—all sold at very low prices.

Come into our store and let us show you how you can do your kitchen work so much more easily and quickly—how you can always have a neat, orderly kitchen with very little work.

Don't Fail To See The Hoosier Cabinets.

Many people buy the Hoosier after seeing the other kinds—few people buy other cabinets—after seeing the Hoosier.

THE HOOSIER KITCHEN CABINET

Your Hair At Home?

Or has your comb run away with it? Better look out for what's left of it, and keep it at home on your head, not in the comb. Ayer's Hair Vigor will act as "keeper." If you have a particle of doubt about using this splendid preparation, let your doctor decide for you.

We publish the formulas of all our preparations.

J. C. Ayer Co., Lowell, Mass.

MARINE NEWS

FREIGHTER IS AGROUND

Big Steamer Thomas Cranage Runs on Sand Bar.

Tugs Cannot Move Her Until Cargo is Lightered.

While steaming out of the Superior canal entrance last evening at about 8:30, the steamer Thomas Cranage, loaded with grain and bound for Buffalo, went on a sand bar at the mouth of the Nemadji river. Tugs were working upon her this morning, but have so far been unable to get her off, and it will be necessary to lighter a part of the cargo.

When she went on the bar the steamer was within the channel, all right, but the river, as usual in the spring, had washed down such a quantity of sand, ice and refuse that the boat ran some distance out of the water. This afternoon she is out about 30 inches forward and 12 inches aft.

The Cranage is one of the Tomlinson boats and was loaded with grain. She was one of the few boats which still remained in the harbor last evening, and was about to start on the trip down the lakes to Buffalo. Capt. Montgomery is in command of the vessel.

This morning the tugs Excelsior and Superior of the Union Towing company were at work trying to pull the big steamer off the bar, but were unable to do so. The Tomlinson company had not decided this afternoon what company would be engaged to do the lightering, but the work will be begun as soon as possible. It will either be necessary to lighter the grain on to a scow until the Cranage can be floated or it will be transferred to some other vessel.

The big boat is lying just abreast of the Nemadji river, and is just inside the harbor, so that if a storm should come up before she is gotten off the bar she will be in no danger from the wind. It is not thought that the boat will be much damaged, and the only expense resulting from the accident will be that attached to getting her off and lightering.

This is the first marine accident to amount to anything that has taken place at the Head of the Lakes this season.

WAIT COURT'S DECISION.

Eight-Hour Law Will Cut Figure in Government Work.

In the construction of a second channel in lower Detroit river the enforcement of the eight-hour work day law on government contracts is expected to cut a big figure.

After he had completed his specifications for the big improvement and forwarded them to Washington Col. Davis, United States district engineer at Detroit, received them back some days ago approved by the war department but with the suggestion that advertisements for bids be delayed, pending a decision of the United States supreme court on the validity of the law.

The dredge operators of the Great Lakes, about all of whom are affected by the law, carried the matter to the supreme court and it is hoped that a decision will be soon handed down. It is reported at Detroit that arguments will be heard late this week.

PRICES OF FOODS HIGH.

Extraordinary Stories Come From Fleet of Steamers at Detour.

The prices of foods in Detour, where the big fleet of steamers has been held for three weeks by the ice in St. Mary's river, have advanced to almost prohibitive figures lately and if the many stories which are being circulated are true the dealers there will be rich when the big fleet finally leaves their town.

A report which was circulated the first of the week stated that the price of eggs had been boosted to 40 cents a dozen and some claim that they are now as high as 60 and 70 cents a dozen. This may seem ridiculous but when the number of vessels waiting there and the number of men carried on each is considered, the extraordinary prices charged can be easily understood.

Another story is told by the sailors to the effect that some of the crews of the waiting boats do not wait for the farmers to bring in the supplies but go out in the country after them.

Light Will Be Changed.

Today the characteristic of the light at the Detroit river light station will be changed. This light, which is located in twenty-two feet of water at the mouth of the Detroit river, has been flashing white every five seconds but the change will make it show a fixed white light for thirty seconds, followed by six consecutive white flashes, with an interval between the flashes of five seconds.

Sold at Marshal's Sale.

The steamer Tempest No. 1 has been ordered sold at marshal's sale by Judge Swan of the United States district court. The sale will probably take place at Port Huron on May 7. The boat was recently seized on a number of claims and is now at Marine City.

ARE NEARLY COMPLETED

Workmen Have Nearly Finished Repairs on Steamer Ireland.

Big Boat Will be Released Probably in Two Weeks.

The repairs on the steamer Ireland, one of the boats of the Gilchrist fleet, which was badly damaged by being blown ashore and stranding on Gull Island reef in a storm last December, are nearly completed and the big vessel will probably be released from the drydock at Superior within a couple of weeks and take on her first cargo of the season.

The Ireland was first damaged by stranding on Gull Island reef, but the second misfortune happened several days after she had been taken off the reef and when she was being towed from Bayfield to Duluth. Unable to proceed under her own steam the Ireland was being towed by the tug Manistique when, in a heavy sea, the tow line parted. It was necessary to beach the Ireland on Sand Island, where she remained for several days before she was finally brought to Duluth for repairs.

Her bottom was found to be in bad shape and before she was taken to the drydock about the first of January it was necessary to force the big boat through from eight to ten inches of ice which had been formed and in this operation further damages were sustained.

The big boat has been in drydock since the middle of January and workmen have been engaged upon her steadily since that time. The work has been nearly completed, however, and the Ireland will be out during the early part of May.

FLEET GETS UNDER WAY

Steamers Held at Detour, Finally Sail Up the River.

Boats Are Fast in the Ice Off Whitefish Point.

Sault Ste. Marie, Mich., April 25.—The vanguard of the fleet which has been ice bound in the lower river arrived here last night. The first boat to arrive was the steamer Paine, which locked through at 7:40. She was followed by the Butler at 8:30 and the Kerr at 9. All will remain here until morning. It is feared that considerable trouble will be experienced in forcing a way through the ice in Whitefish bay before open water is reached on Lake Superior.

Led by the ice breaker Algomah, a fleet of 100 steamers, which had been held here by the ice blockade, proceeded up the Soo river in single file at noon. When last reported they were making slow progress in the vicinity of Lime island.

The following are among the vessels which proceeded up the river after the channel had been opened by the tugs Schenck and Boynton and the ice breaker Algomah late yesterday afternoon: H. B. Hawgood, H. A. Hawgood, Stearns, Butler, Dalton, Charles Weston, Bransford, Nye, Zimmerman, John W. Moore, Pioneer, Westmount, Midland Queen, Antrim, Woodruff, Fleetwood, Moravia, Oliver, Schuck, Tyrone, Tilden, Norris, Weeks, Meaford, Wexford, Midland Prince, Kearsarge, Kate Williams, Hines, Barth, Marvin, Ashland, Law, A. M. Peterson, McBryer, William Rogers, W. B. Kerr, Jenks, Niko, Robert Wallace, Eddy, Pennington, Montcalm, Polynesia, Hutchinson, Australia, Aspen, George Peavey, Clark, Amasa Stone, Andrews, Marshall, Carter, Hecker, Carnegie, Rhodes, Rosemount, Hamilton, Umbria, Nimick, Saturn, Frank Hart, Morrell, C. A. Hurlbut,

Grand Marais, April 25.—The fleet of downbound steamers from Duluth that reached Whitefish bay is now fast in the ice off Point Iroquois. The bay is filling with ice.

WERE IN FINE SHAPE.

Boats of Pittsburg Fleet Put Up Good Appearance.

As the steamers of the Pittsburg fleet steamed out of the canal entrance yesterday many of the watchers in the various office buildings remarked the good appearance which the boats put up on their first trip of the season.

The masters of this fleet make a special attempt to keep their boats looking well and in tip-top order and there is more or less rivalry between them. The captains all take considerable pride in what outside people think of their efforts along this line.

Of the fleet yesterday the Mataafa, Widener and O. M. Poe appeared to the best advantage according to vesselmen and others who watched them from the shore. The Mataafa has of course just come from the drydock and has had a better chance to be well fitted out. Capt. J. H. Regan is in command of her while the Widener is captained by John Lowe and the Poe by Capt. W. C. Iler.

Goes After Tug.

Capt. C. O. Flynn of the Duluth-Superior Dredge & Dock company left yesterday for Massena, N. Y., from which place he will bring up the tug Navagh which will be used by the company in the Duluth and Superior harbor during the coming season. The trip to Duluth from New York will be commenced as soon as Capt. Flynn arrives at Massena and pick out a crew for the Navagh.

Shortage of Coal.

Buffalo, April 25.—(Special to The Herald.)—The shortage of coal for lake shipment at this port continues, and loading has fallen off instead of increased. Only two charters were reported today, the barge Butman for Green Bay and the Sweetheart, for South Lake Linden.

ARE RACING TO DULUTH

Monster Fleet of Freighters Coming Up Lake Superior.

Those First in Harbor Will Have Choice of Docks.

With the whole expanse of Lake Superior as a race course, a big fleet of freighters is steaming nip and tuck up the lake from the Sault canal, bound for the Duluth and Superior harbor, each captain calling for the utmost speed capacity of his boat in the effort to be in first at the finish.

All of the boats of the fleet are about evenly matched as far as speed is concerned, and much will depend upon the sagacity and cleverness of the navigators in the race up the lakes. First place in the line means much to the vessel owners, who are watching at both ends of the line, and the rivalry between the captains is keen. For the boats which are first to reach the harbor will get the choice of docks, and another long delay will be avoided.

Most of the vessels are loaded with coal for the Head of the Lakes, and the coal docks will be in great demand when the boats begin to arrive tomorrow and Saturday. Some vessels will be obliged to lay at anchor in the bay, as all can not be accommodated. The speedy boats will have an advantage over the slower ones.

It is expected by marine men in Duluth that the vanguard of the big fleet will begin to arrive tomorrow morning, as it was reported last night that some of the boats had passed Whitefish Point, and the trip to Duluth should not consume more than thirty-six hours. Unless something unforeseen happens on the trip up the lake, the first boats should get in tomorrow morning, and the remainder will probably arrive during the day and Saturday.

The upbound fleet is probably the largest which has ever traversed the lakes in such a race as is being run today on Lake Superior. From 90 to 100 freighters were numbered at Detour before the channel through the Sault was forced yesterday. Many of these were downbound, however. The fleet is probably larger in numbers at least than any naval squadron that ever set out upon an expedition.

Some of the boats in the fleet have been blocked at Detour for the last three weeks, the steamers Roger and Weston having arrived there on April 2. Others have been held for ten days or more.

MORE BOATS LEAVE.

Harbor is Nearly Empty---First Package Freighters Depart.

The steamer Van Hise, the only remaining vessel of the Pittsburg fleet at the Head of the Lakes, was brought over to the ore docks this morning from the shipyard at Superior, and is taking on a cargo of ore. She will clear for the lower lakes as soon as she is loaded.

Last evening the Lyman C. Smith of the U. S. T. company cleared the harbor with a load of ore, and this morning the first package freight boats to leave Duluth steamed out of the canal entrance. They were the Northern Queen and the Reynolds of the Mutual line, and are bound down the lakes to Buffalo.

The steamers Loftus, Cuddy, Russel and Merida and the Craig cleared last evening from the Superior entry with ore for the lower lakes.

Channel Lights at Lime Kiln.

Cleveland, April 25.—The easterly channel over the Lime Kiln crossing at the mouth of the Detroit river was buoyed and available for upbound boats last night. At the west side of the channel at the lower entrance there is a white light over a red light, the next two stakes on the west side will have a white light light. The last stake at the upper end on the west side will have a white light over red. Range lights for navigating this channel consist of a white light placed on the bank abreast of the Texas dock and a green light 500 feet south abreast of the Old Michigan Central dock.

Congestion at Cleveland Docks.

Cleveland, April 25.—The steamer Saturn was placed yesterday to load wheat at 2 cents and oats at 1½ cents, Fort William to Buffalo. A small block of iron ore to run through the season was offered at the old rates. Coal is moving freely and there is no change in the market. Sixty coal carriers have reached Milwaukee since April 12. There is great congestion at receiving docks there and some of the boats will be held in port for two weeks.

To Carry Government Supplies.

The contract for carrying supplies and to tender the construction crew for the new lighthouse which will be built on Rock of Ages this summer has been awarded to Thompson & La Vaque, owners of the steamer M. C. Neff of Duluth. The contract is by the day and will run until Nov. 15. The barge Reliance, belonging to the Duluth-Superior Sand & Gravel company, has been awarded the contract to carry gravel and sand for Hugo & Timms, the local firm which will construct the United States shelter at Harbor Beach in Lake Huron. It is a big contract and two years will be needed to complete the job.

Five Boats Inspected.

Five boats were inspected in the Duluth harbor yesterday by Capt. John Managhan, United States steamboat inspector. They were: Steamer L. C. Hanna, steam ferries Ideal and Belle and the tugs Crosby and Fred B. Hall. All were found to be in good condition.

First Lumber Cargo.

Tonawanda, April 25.—The steamer Lizzie Madden arrived yesterday with the first lumber cargo of the season.

Little Chartering at Chicago.

Chicago, April 25.—Although charters have been made as low as 1 cent on corn to Buffalo, vesselmen will not accept that as the going rate and the little business there is done on the basis of 1¼ cents.

Steamer Nessen Raised.

Charlevoix, April 25.—The steamer N. J. Nessen, which was sunk by the ice in Pine lake two weeks ago, and raised today and now lies at a dock here.

Passed Detroit.

Detroit, April 25.—(Special to The Herald.)—Up: Wolf, Maine and consort, 9 Wednesday night; Howe, 10; Myron, Paige, Peshtigo, Davidson, Baltic, 10.40; Reed, Kerr, Keefe, 11:30; Leonard, 1:20 Thursday morning; Mohawk, Superior, Wisconsin, 5; Ream, 6; Siemens, 6:20; Perkins, 6:40; Binghamton, 7. Down: Buell and consort (cleared), Iron King, Iron Queen, 10 Wednesday night; America, 11:30; Nicholas, 2:40 Thursday morning; Codorus, 6:40.

Later: Up—Chamberlain, Murphy, 7:30; Flint, Arenac, Ellwood, 7:40; F. W. Gilchrist, 7:50; Empire City, Shaw, 8; Clemenson, 8:30; Taylor, 8:50; North Star, 9; Riddle, 9:15; Hill, 10; Sycken and barges, 10:30; Pringle, 10:50; Lehigh, Victoria, Constitution, 11. Down: Vulcan, 8:50; Castalia, 10:50.

Up yesterday: Sardiac, 11:15; Corey, 11:30; Harvey Brown, noon; Morse, 1:40 p. m.; Iroquois (Canadian), 3:30; Benton, 3:40; Volunteer, 4; Bradley, Woolson, Delaware, Brightie, 5; Republic, Cort, Gates, 6:20; Nellson, 6:30; Widlar, 7:15; Ogdensburg, 8:30. Down: Wawatam, 2:10 p. m.; Buell, Eleanor, arrived, 3; Sage, 5:20; Langell, Tempest, 5:40; Pellatt, 8.

The Sault Passages.

Sault Ste. Marie, April 25.—(Special to The Herald.)—Up: Weston, 11:20 Wednesday night; Wilbert Smith, midnight; Bransford, 12:30 Thursday morning; Monroe Smith, Christopher, 1:20; Sylvania, 2:40; Sellwood, 3:40; Carnegie, 5:40; M. A. Hanna, Oliver, 7; Bartow, 8; Sahara, Townsend, 11. Down: Henry Smith, 6 Thursday morning; William H. Mack, 7; Venus, 7:30; Augustus Wolvin, 9:30.

JAP ROSE bath soap lathers freely in all kinds of water. For use in HARD WATER its strongest point. KIRK'S—druggists, grocers.

FOR RENT!

Brick Store at 2110 and 2112 West Superior Street.

Stryker, Manley & Buck.

WOULD PERFECT TITLE TO MINE

Adriatic Mining Company in Court With Sweet Heirs.

The action of the Adriatic Mining company against Clymena Bell Sweet and others to perfect title to the west half of the northeast quarter of Section 30, 59-14, is being heard by Judge W. A. Cant.

The suit involves the property known as the Adriatic mine, which is being operated by the Pickands-Mather interests.

The Adriatic company bases its claim of title on an executor's sale in probate court, and Clymena Bell Sweet, one of the heirs, has contested the sale as illegal. A third interest in the property was at one time sold for $500. Afterward iron ore was discovered and the mine was sold for $250,000.

Davis & Hollister represent the Adriatic company, and Sullivan & Grant represent the defendants.

AUTHORITIES GET PRISONER

Minneapolis Men Take O'Banion Back This Morning.

The Minneapolis authorities arrived in the city last evening to get Dave O'Banion, the colored man wanted in the Flour City in connection with a murder in the Jessamine club there Wednesday morning, and left with the prisoner this morning. According to them, the story told by the colored man here was nearer straight than the police supposed, and the Duluth man will probably be held more as a witness than anything else, according to present indications.

A telegram received at The Herald office this morning gives the details of the affair. John Webster, the slayer, leaped at O'Banion and Sterrett, in whose company he was, and struck O'Banion a blow back of the ear. O'Banion ran at once and Webster wheeled and fired at Sterrett. The bullet just grazed the breast of another man and took effect in Sterrett's abdomen, penetrating to the liver. Sterrett was so weak that an operation could not be attempted and he died shortly after the affair. Webster is said to have had an old grudge against Sterrett.

He maintains, however, that the shooting was accidental and that he did not intend to kill Sterrett. All parties to the shooting are colored.

Pabst malt takes twice as long to make as other malts. This is why Pabst Blue Ribbon Beer is richer in food-values—more healthful, wholesome and delicious.

Golden oak rocker—solid seat—turned spindles in back and sides—shaped top — easy, comfortable rocker. A good value at the regular price of $6.50. Special sale price..... $4.50

SWINDLERS IN THE CITY

Rev. Dr. Ryan Complains of Methods of Picture Enlargers.

Were Using His Name as Guarantee of Their Work.

According to Dr. A. W. Ryan of St. Paul's Episcopal church there are a set of very neat swindlers in the picture enlargement line working in this city at present and Dr. Ryan this morning reported some of his findings to the police in a hope that they might be driven out of town.

He says that several days ago a man called at his home just as he was about to go out, and in the minute which the doctor gave him asked him if he would accept a picture if they sent it to him free of charge and would tell those who asked about it where it came from. Dr. Ryan said yes, hurriedly, and went out.

Next day he received a call from a lady of his acquaintance who asked him whether he was having some photographs of himself enlarged. He replied in an emphatic negative and she told him that she had just given her order to a picture enlarger on the strength of his statement that he was doing some similar work for Dr. Ryan. He had required a deposit and she had paid him a portion of the final charge for the picture. When he received a second call from another of his parishioners who informed him that she heard that he was having a photograph of himself enlarged Dr. Ryan thought it was about time something was done to stop the imposters and so reported to the police this morning.

Chief Troyer says that this is not the first complaint which has been received, as the pastor of one of the foreign churches in the city reported an occasion of a very similar piece of work some time ago. This case was even more aggravated, as after offering to furnish the pictures free of charge the picture enlarger received of the pastor with an expensively framed picture for which he wanted $7. The usual method of procedure in such cases is to hold both picture and photograph until the victim is forced to pay up, or lose the photograph, which is in most cases a valuable one.

No shop-made food will ever equal the delicious cake and biscuit you can make at home, using Hunt's Perfect Baking Powder.

THOSE WHO HAVE PASSED BEYOND

Dennis Kearney of Sand Lot Fame Dies at Alameda.

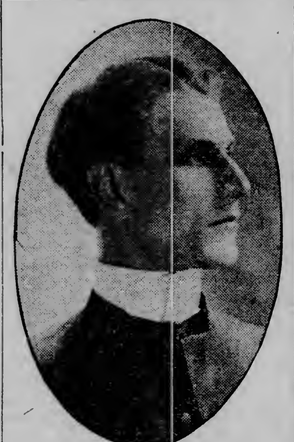
San Francisco, April 25.—Dennis Kearney, who, in the late '70s, headed the Sand Lot agitation against the Chinese in this state, died last night at his home in Alameda. Kearney at one time had a large following in this city, the political affairs of which he dominated for a period. Of late years he had not taken any active part in politics.

Los Angeles, April 25.—Mrs. Axel Chytraus of Chicago, wife of Judge Chytraus, died last night.

HUNT QUITS PARSONAGE.

Former Mrs. Bassett's Husband Declines to Tell Were He Moved.

New York, April 25.—Rev. E. Lawrence Hunt, former pastor of the Noble Street Presbyterian church, co-respondent in the celebrated Bassett divorce suit, now husband of Mrs. Bassett, was vacated the parsonage at 140 Noble street, and left the Greenpoint section of Brooklyn.



Mr. Hunt was asked to vacate the parsonage by a committee of his former parishioners, when they were informed of his marriage to Mrs. Bassett.

The newly wedded couple have rented an apartment in upper Manhattan. Mr. Hunt has refused to tell the address. He says he has as yet formulated no plans for the future, but expects to go on the lecture platform and hopes ultimately to re-enter the ministry.

Mrs. Hunt, the aged mother of the ex-minister, is to leave New York shortly for an extended tour. When she returns she will take up her residence with her son and his wife.

FORMER PASTOR HERE.

Rev. A. F. Elmquist of Minneapolis will speak at the Bethany Lutheran church, Twenty-third avenue west and Third street, this evening. His subject will be, "A Heroic Example." Rev. Elmquist is a former pastor of

REV. A. F. ELMQUIST.

Bethany church, and he is known to his former parishioners as an eloquent speaker. The choir has prepared a special musical program for the occasion.

WATER FROZE IN THE VALVES

Hydrants Prepared for Sprinkling Injured by Last Night's Frost.

The members of the board of public works think they have one on the kickers who raised such a howl last Monday because the street sprinking was not started in time. The dust of Sunday aggravated a goodly portion of the citizens of Duluth considerably and when they got a chance they proceeded to vent their spleen on the board of public works and to heap up charges of negligence and carelessness upon the board for not having let the sprinkling contracts in time.

Yesterday Hydrant Inspector Larson went over the hydrants of the city, installing the valves, in order that sprinkling might be started today, and last night nearly every one of them froze up and broke, necessitating repairs which will delay the comencing of the sprinkling several days longer. This is, of course, likely to happen any time the sprinkling is begun at so early a date and the board considers it an excellent reply to all charges of negligence.

SCALDED BY EXPLOSION.

Chippewa Falls, Wis., April 25.—Mrs. Sarah Wheeler was terribly scalded Tuesday by a pail of coffee, which was boiling upon the stove. She had neglected to remove the cover, and when the coffee began to boil an explosion followed. She was knocked to the floor by its force, and when found by her son was insensible.

THE VOTE IN MICHIGAN.

Lansing, Mich., April 25.—The official canvass of the votes cast at the state election shows Republican pluralities exceeding 109,000 except in the contests for regents of the university. Supereme Justice W. L. Carpenter led the ticket with a piurality of 111,991. By a large majority the electors voted to remove from the constitution the prohibition against the teaching of mechanical trades in state prisons.

CALENDER COMPLETED

May Term of District Court Begins Next Wednesday.

Long List of Cases Noted for Trial Before Jury.

The May calendar of the district court will contain 156 cases, so that the term is certain to be a very busy one.

The calendar, which was placed in the hands of the printer today, contains 100 cases for jury trial, 35 civil cases for trial by court and 21 divorce cases.

Of the total jury cases 70 are new and 30 are continued actions.

Of the court cases 20 are new and 15 were continued over from last term. Nineteen out of the 21 divorce cases are new actions.

The term just closing has been a very busy one, with a long calendar of jury and court cases. The last jurors in service this term were discharged last evening after the verdict was rendered in the Argyle case.

The May term will begin next Wednesday.

Miss Ingram

Will organize classes in dancing the first week in May, at Steinway hall.

SENATORIAL DEADLOCK

In Wisconsin Shows No Signs of Breaking at Present.

Madison, Wis., April 25.—The sensational deadlock still continues, the sixth joint ballot in the Wisconsin legislature today resulting in no choice and the vote practically the same as yesterday. The leading Republican candidates received votes as follows: Stephenson 20, Esch 19, Cooper 19, Lenroot 17, Hatten 16.

FRESCO ARTIST DIES SUDDENLY IN HOTEL.

St. Paul, April 25.—(Special to The Herald.)—Lawrence A. McIver, 738 East Twenty-fourth street, Minneapolis, a fresco artist, well known throughout the Northwest, died suddenly last night while reclining on a couch in the office of the Savoy hotel, 420, Minnesota street, of which W. H. Griffin is proprietor.

Dr. E. LeRoy Kannary, who was summoned hastily, and Coroner A. W. Miller, agreed that death was caused by heart failure.

KING CHULALONGKORN I TO VISIT UNITED STATES.

Naples, April 25.—King Chulalongkorn I of Siam arrived here today on the especially chartered steamer Sachsenk, from Singapore, April 2, on a tour of the world.

King Chulalongkorn is expected to visit the United States in May on his way back to Bangkok, his capital.

During the king's absence from Siam, the crown prince, Chowfa Maha Vajiravudh, is acting regent.

VOLCANO IN ERUPTION.

Lima, April 25.—The volcano of Villarica is in eruption. The outbreak has increased the panic among the inhabitants of the Valdelvia distriot of Chile, who were already in great terror because of the eruption of the volcanoa at Puyehue.

KILLED BY COMPANION.

Rhinelander, Wis., April 25.—The dead body of Bart Traigi, owner of a summer resort at Laona Junction, on the Boo line, was brought here Tuesday afternoon. The man had been accidentally shot by Perry McClinchy, the depot agent there. The men were hunting ducks on the lake, Traigi rowing the boat. A flock came toward them and McClintchy fired. Just as he shot Traigi stood up, and the charge of shot tore away the back of his head. The dead man had a wife and child and belonged to the I. O. O. F.

SPORTS OF THE DAY

PLAY AGAIN ON FRIDAY

White Sox Will Open Series With Madison Leaguers.

McCormick, Fagin and Tredway Have Not Yet Reported.

Tomorrow, the Duluth White Sox will go against the Madison Wisconsin State leaguers in the opening game of the second series of the training trip. The Duluth fans are hoping that their boys will make a better showing against Cassiboine's team than they did against the Freeporters and they will probably not be disappointed. Smith has had his men out every day this week on the field at Madison and they are rounding into good shape, according to reports, which have reached Duluth. The weather at Madison has moderated sufficiently to allow the boys to practice without wading through snow or shivering in cold blasts and under these conditions, better work is being done.

George Weaver, the little backstop, who worked in the Freeport series, has been let out. He was a willing worker and showed some form, but was not thought up to the standard, so he was dropped immediately. Another catcher will be signed in a few days, it is expected, and he will report at Madison. Leighty reported yesterday and his arrival at Madison will put the team in much better shape, as he can play second and Pinder will go to the outfield. Fagin and Tredway are still on their claims, but they will leave Saturday or Sunday to join the team. They will probably not appear in the Madison series, but will be with the team when it plays Fond du Lac next Wednesday and Thursday. McCormick will also join the team in a few days, he being detained at home at present.

The weeding out process taken up by Smith leaves but ten men now in Madison, so two pitchers will be played in the outfield in the series with Madison. The arrival of Fagin and Tredway will complete the team, Fagin going into left field and one of the pitchers taking care of the right garden. Krick will work in the opening game tomorrow, Cummings, Saturday, and Backus, Sunday. Haney will probably play right field in the three games, with Cummings in the left tomorrow, Krick Saturday and Cummings again Sunday. The remainder of the team will be made up as follows: Catcher Smith; first base, Tracey; second base, Leighty; third base, Odwell; shortstop, Summers; center field, Pinder.

CAPONI AND TOM McCUNE

Ted Murphy Wants a Match With Local Middleweight.

Ted Murphy, the "boy manager" of Chicago, wants to match Tony Caponi, the Windy City Italian, with Tom McCune, the local middleweight. He offers to bet $500 that McCune can't stay more than fifteen rounds with Caponi, and says that Battling Nelson will back Caponi to the extent of $1,000 against any middleweight in the country.

A few days ago Murphy wanted to secure a match with McCune, and Tom refused to have anything to do with his game, or that of any other Chicago manager. Murphy's new offer looks like a good one, and McCune may take it up. If he doesn't, Murphy wants to secure Jack Parres for the match, and Parres will undoubtedly jump at the chance to take on the Chicago man.

HUESTON WINS SECOND.

Pool Champion Defeated Clearwater Last Night.

Greensburg, Pa., April 25.—Champion Thomas Hueston of St. Louis showed fine form in last night's game of the championship pool match, outplaying W. H. Clearwater of this place by seventy-four balls and taking a lead of fifty-three balls to begin the last game tomorrow night. Hueston made the high run of forty-five on the last three frames, and stands to better it. Clearwater's best run was nineteen.

Last night's score was: Clearwater, 151; Hueston, 224; scratches—Clearwater, 6; Hueston, 5; safeties—Clearwater, 24; Hueston, 24; missess—Clearwater, 22; Hueston, 19; breaks Clearwater, 11; Heuston, 14; foul—Hueston.

ENDION CLUB MEETING.

Annual Gathering Will be Held This Evening.

The anual meeting of the Endion Tennis club will be held in Room 312 of the Lyceum building, this evening, at 8 o'clock. Officers will be elected, several membership applications acted upon and plans for the coming season discussed.

Pabst Blue Ribbon Beer is the Beer of Quality because it is made from Pabst Perfect 8-Day Malt under conditions insuring purity and wholesomeness.

A CORNER IN SPORTS

After making himself solid with American fight followers by his creditable showing against Abe Attell in a six-round bout at Philadelphia, Spike Robson has sailed for his home in England, saying that he cannot stand the heat in this country in summer. He says he will be willing to return in the fall and meet any man in the country at his weight for any number of rounds.

Robson's departure at this time may not be the best thing for the Englishman if he intends to return to the United States. The game is very much alive in this country now and the followers of the game are clamoring for a match between Attell and Robson. If Spike would remain in this country and go on with the Californian, he could pick up a nice bunch of money with little trouble, while the promoters may change their minds before fall and not stage him at any cost. But the Englishman prefers to rest on his laurels and the money he picked up at Philadelphia.

• • •

Great is the uncertainty of baseball. Yesterday in the National league, Cincinnati won from Chicago by 12 to 2, the Phillies put it all over New York and Boston and Brooklyn played an errorless thirteen inning game to a tie.

• • •

Howard Cassiboine's Madison team is an unknown quality, but if they put it over the Sox like Freeport did, the fans will begin to respect the Wisconsin State league, or do the opposite by the Sox. The Duluth boys have two weeks yet before they reach Duluth and another week of exhibition games here before the opening of the season, so they may be expected to show better form when the league season opens.

• • •

It appears to be up to Messrs. Fagin and Tredway to report to "Smiley" Smith. These two will probably need the exercises of the training trip just as badly as any of the others and if they do neglect it and not be in shape when the season opens the fans will have good reason for telling them a few things as to their abilities.

WILL COMPLETE ORGANIZATION

Final Meeting of Prairie League Will be Held Soon.

Bemidji, Minn., April 25.—(Special to The Herald.)—F. S. Lycan of this city, who is one of the most enthusiastic of the local baseball "fans," has received the following letter from W. J. Price of Fargo, relative to the final organization of the proposed "Prairie League:"

"On April 10, the writer in response to several towns throughout North Dakota and Minnesota, called a meeting at Grand Forks of representatives from Grand Forks, Devils Lake, Minot, Bismarck, Jamestown, Fargo, Crookston and Bemidji, with the object in view of organizing what might be called the Prairie League of baseball clubs. Represented at that meeting, either by proxy or in person, were Minot, Crookston, Grafton, Bemidji, Fargo, Grand Forks and Bismarck. Temporary organization was formed and it was decided to form a league if the same could be done with the following limitations: Salary limit not to exceed $600 per month; each team to guarantee $25 per game to the visiting team playing on the home grounds, also a rain guarantee of $25 per game, each team to deposit, in a designated treasury, the sum of $200 in cash, that they would go through the season. The prospective season would be from about May 30 to August 15. It was also decided at this meeting that unless Bismarck could induce Jamestown to enter the prospective league, it would not pay for this league to consider Bismarck. The same conclusion was arrived at concerning Minot and Devils Lake, as it is the intention to keep a compact circuit, with short mileage, if this league is formed. Now the writer does not care to give any more time to this matter, and is writing this letter to representatives of the above towns and will ask them to comply with the following: That you will agree in writing to send representatives to a meeting to be held at Grand Forks not later than April 27; that you will agree to enter the league under the conditions as named in the foregoing; and that you will agree in attending this meeting to be prepared to deposit the sum of $200, in some designated treasury, as a guarantee that you will go through the season and complete the organization; that you will agree to the $25 guarantee per game, also the $25 rain guarantee. If you will agree to this kindly advise the writer, either by wire, or letter by return mail, and the writer will personally agree to see to it that a meeting is called on a suitable date at which time we will endeavor to perfect an organization as above outlined. For your information the writer wishes to state that he is in no way a candidate for any office in the gift of the league."

Bemidji will send a representative to the meeting.

TO WORK OUT ON THE WATER

Crews of Duluth Boat Club to be Out Saturday.

Weather conditions permitting, the members of the Duluth Boat club will have their first work-out on the water next Saturday afternoon. For some time past the candidates for the crews have been working indoors, but now weather conditions are thought to be favorable for training on the water in the future. Next Saturday one crew will get out at 5 o'clock and another at 6:15. The candidates will report at the club, and it is expected that all will be on hand.

Ignorance may be bliss, but it's not prosperity. To prosper you must read Herald ads.—and then you are no longer ignorant.

BASEBALL

American League.

STANDING.

	Played.	Won.	Lost.	Pct.
Cleveland	7	5	2	.714
New York	8	5	3	.667
Philadelphia	9	6	3	.667
Chicago	10	6	4	.600
Detroit	10	6	4	.600
Washington	8	3	5	.375
Boston	9	3	6	.333
St. Louis	11	2	9	.182

WASHINGTON, 5; NEW YORK, 1.

New York, April 25.—Washington beat New York yesterday, 5 to 1, at American League park. Patten held the locals well in hand all through the game and with a two-base hit in the seventh won his own game by bringing in three runs. Score:

	R.	H.	E.
Washington	0 0 1 0 0 0 3 1 0	5	9	3
New York	1 0 0 0 0 0 0 0 0	1	3	2

Batteries—Patten and Warner; Doyle and Kleinow. Umpire—Hurst.

PHILADELPHIA, 6; BOSTON, 1.

Boston, April 25.—Heavy hitting at critical periods gave Philadelphia the game yesterday, 6 to 1. Davis, aided by a high wind, distinguished himself by driving the ball over the right field fence in the ninth inning, a feature never before accomplished by a visiting player. Score:

	R.	H.	E.
Philadelphia	0 0 0 0 2 1 0 0 3	6	7	1
Boston	0 0 0 1 0 0 0 0 0	1	5	2

Batteries—Coombs and Schreckengost; Young and Armbruster. Umpires—Connolly and Evans.

CLEVELAND, 2; CHICAGO, 1.

Cleveland, Ohio, April 25.—Cleveland opened its series with Chicago by defeating the world's champions, 2 to 1. Joss and Altrock pitched splendidly. Hinchman won the game for the locals with a three-bagger and saved it with a remarkable running catch. It was his first league game. Score:

	R.	H.	E.
Cleveland	0 0 0 0 2 0 0 0 x	2	7	0
Chicago	0 0 0 0 0 0 0 0 1	1	6	3

Batteries—Joss and Clark; Altrock and McFarland. Umpires—Sheridan and Stafford.

DETROIT, 3; ST. LOUIS, 0.

Detroit, April 25.—Two scratch infield singles by Jacobsen prevented Siever from getting a no hit game against St. Louis yesterday. The home team won, 3 to 0. Jacobsen pitched well, but the luck of the game broke against him in two of the scoring innings. Score:

	R.	H.	E.
Detroit	0 1 0 1 0 1 0 0 x	3	8	1

St. Louis	11	3	8	.273
Brooklyn	7	1	6	.143

PHILADELPHIA, 3; NEW YORK, 1.

Philadelphia, April 25.—Philadelphia won the first game of the series from New York here yesterday in a pitchers' battle. A base on balls followed by two doubles won the game for the home team in the first inning. Score:

	R	H	E
New York	0 0 0 0 0 1 0 0 0	1	4	1
Philadelphia	2 0 0 0 0 0 1 0 x	3	5	1

Batteries—Taylor, Ames and Bresnahan; Lush and Jacklitsch. Umpire—Rigler.

PITTSBURG, 3; ST. LOUIS, 0.

St. Louis, April 25.—Pittsburg won yesterday's game from the St. Louis Nationals 3 to 0, making four straight victories. An error by Baxter and a passed ball gave the visitors three runs in the fifth. Score:

	R	H	E
St. Louis	0 0 0 0 0 0 0 0 0	0	6	4
Pittsburg	0 0 0 0 3 0 0 0 0	3	6	2

Batteries—Karger and Marshall; Leifield and Gibson. Umpire—O'Day.

CINCINNATI, 12; CHICAGO, 2.

Chicago, April 25.—Cincinnati yesterday pounded Taylor hard in two of his six innings and followed it up by hitting Durbin nearly as hard in the last three. Chicago could do but little with Ewing. Score:

	R	H	E
Chicago	0 1 1 0 0 0 0 0 0	2	9	3
Cincinnati	4 0 0 0 0 6 0 0 2	12	14	2

Batteries—Taylor, Durbin and Kling and Kahoe; Ewing and McLean. Umpires—Johnstone and Carpenter.

BOSTON AND BROOKLYN TIE.

Brooklyn, April 25.—Boston and Brooklyn played a 13-inning tie game yesterday. Darkness ended the play with each side having one run. It was a pitchers' battle and neither side was charged with an eror. Score:

	R	H	E
Boston	1 0 0 0 0 0 0 0 0 0 0 0 0	1	8	0
Brooklyn	0 0 0 0 0 0 0 1 0 0 0 0 0	1	12	0

KANSAS CITY, 1; INDIANAPOLIS, 0.

Indianapolis, April 25.—In a pitcher's battle between Frantz and Cromley, Kansas City shut out the locals 1 to 0 here yesterday. Both men pitched great ball but Frantz was most fortunate. Burke's line drive to center, after Huelsman had reached third on his second hit, a three bagger to left center, won the game for the visitors. Hopke made a sensational one-handed catch in the first inning. Score:

	R	H	E
Kansas City	0 0 0 0 0 0 0 0 1	1	4	0
Indianapolis	0 0 0 0 0 0 0 0 0	0	1	4

Batteries—Frantz and Sullivan; Cromley and Livingstone. Umpires—Hayes and Sullivan.

WILL NEED MORE FUNDS

County Board Increase Court House Appropriation to $700,000.

Courthouse Commission Will be Named Soon by Chairman.

The board of county commissioners held a special meeting yesterday afternoon, and rescinded the resolution of Jan. 3, 1906, providing for an appropriation of $400,000 for the purposes of a new courthouse. The board then passed a resolution appropriating $700,000 for the purpose.

This action was deemed necessary after the decision of the supreme court invalidating the authority of the district court judges to appoint a courthouse commission, board of control, county poor board, etc.

The commissioners have for some time realized that the first appropriation of $400,000 would not be large enough to cover the cost of the new building and they deemed it best to make the appropriation larger at this time instead of waiting until some later date.

The resolution has been certified to Chairman E. M. Patterson of the county board, who will probably name the members of the courthouse commission today or tomorrow. It is generally expected that Chairman Patterson will re-appoint the former members of the commission with the exception of E. Morcom, who is not now a county commissioner.

P. J. Ryan of Hibbing is the county commissioner likely to be appointed on the courthouse commission to fill the vacancy.

The other former members of the commision were Neil McInnis, John Sundeen, John Miller and W. C. Agnew. There have been some rumors that Mr. Agnew would not accept a re-appointment, but nothing is definitely known about the matter.

GREGG-FITZGERALD DRAW.

Crowd Thought Fitzgerald Should Have Won the Fight.

Indianapolis, April 25.—Willie Fitzgerald of Philadelphia and Indian Joe Gregg of Seattle, Wash., went ten fast rounds to a draw here last night. The decision of the referee was not well received, Fitzgerald being favored by the audience.

"BUCK" FREEMAN RELEASED

Boston Player Goes to Joe Cantillion's Washington Team.

Boston, April 25.—The release of John (Buck) Freeman by the Boston American league baseball team to the Washington team was announced last night.

West Point Defeats Yale.

West Point, N. Y., April 25.—Through good hitting and excellent pitching the Army defeated Yale here yesterday, 5 to 4. Yale only got four men to second after the first two innings. A squeeze play by the Cadets in the ninth brought in the winning run. Score:

	R.	H.	E.
West Point	0 0 0 2 0 1 0 0 2	5	12	4
Yale	2 1 0 0 0 1 0 0 0	4	6	4

Batteries—Beavers and Mountford; Jones, Rotan and Cushing.

PLEA FOR THE BIRDS.

They Should be Protected---Bad Economy to Kill Them.

It is a mistake for boys to go about killing birds in a promiscuous way. No man or boy ought to kill a single bird unless he is absolutely sure that he knows precisely what species he is putting to death. Do you know the English sparrows and our native American sparrows apart? If you do not, then don't kill another bird of any kind until you have learned more about them.

Some boys were seen the other day near a swamp not far from town killing birds and when asked by a local bird lover what kind they were killing, they replied that they were killing sparrows. They thought, no doubt, the birds were the imported birds. But the English sparrows do not dwell about the swamps and in the lowlands. They live near buildings. The boys were, without doubt, killing song sparrows, which are among our sweetest singers and most useful birds. Every year they destroy uncounted numbers of injurious insects in our lowlands.

The English sparrows may be known in this way: The male is rather a bulky brownish gray bird, with a black choker or bib on his throat and chest; the female is slightly smaller, and her breast is soiled white or dirty gray, without any black markings. They stay about towns, country residences and large bridges. They are seldom found far from human residences. Therefore, the chances are that little brown birds in out of the way places are American sparrows, and ought to be spared.

Two of our native species of sparrows are often found in town—the song sparrows and the chipping sparrows. The song sparrow is slightly smaller and lither than the English sparrow, is more brownish in color, and has a pretty speckled breast, with a larger spot in the center. The chipping sparrow is a good deal smaller than his English cousin, and his breast is white, without any marks; his crown is chestnut brown.

Out in the upland fields may be found the vesper and grasshopper sparrows, and near the bushy borders of the woods the field sparrows. No need to kill birds in the fields, any way, unless they are very near farm buildings, for they are sure not to be English sparrows, but some of our useful and tuneful American species. If you must kill English sparrows, find them in town or near country homes, and then be sure you are not mistaken. Do you know the wrens? Little brown striped fellows they are. So useful and tuneful that only a cruel boy would kill one. They are found about houses, too.

The laws of the state of Minnesota protect the singing and insect eating birds by special statute. Any person killing such a bird is liable to arrest and a fine of $10 to $25 and costs, and $10 to $100 for destroying nests. It would not be very pleasant for any of our boys or men to be dealt with according to law, would it? But the birds must be protected if our fruit and grain are to be preserved.

LEANDER S. KEYSER.

READY BY NEXT FALL

Wreckers Making Good Progress on Interstate Bridge.

With approximately 72 per cent of the wrecking on the big structure complete and the tangled iron work of the towers and center almost entirely cleared away, the engineers in charge of the repair work on the Duluth-Superior bridge are becoming very confident in their statements that they will have the big draw ready for service before the ice forms over the bay again and even predict a possible completion by early fall. The only element of doubt in connection with the completion of the work is the proposed raising of the entire structure three feet higher than before the accident, in order that larger craft may pass beneath it without having to move the draw. This plan has rendered some of the construction details rather uncertain.

It is expected that the Superior arm of the draw will have been elevated sufficiently to be towed around into an open position on the pier within the next two weeks, and the Duluth arm can be swung around in much less time than has been required by the southern span. This will complete the work of the wrecking of the big bridge, and will complete the contract entered into by the Reed Wrecking company.

After they resign their department of the work the Great Northern engineers will take charge and will superintend the rest of the repairing, the raising of the fixed spens and the construction of the new approaches. The needed steel has been ordered, but the time of its arrival is still in doubt. The plans have already met with the approval of the United States war department.

SAYS STORIES ARE TRUE.

Harbor Inspector Bellinger Went Through Southern Cotton Mills.

H. C. Bellinger, United States harbor inspector, has returned from North Carolina, where he has been the guest of his brother for several weeks. While in the South, Mr. Bellinger went through a large cotton mill and he declares that the reports of the evil of child labor which come from there, via the monthly magazines, have not been exaggerated.

Most of the workers, says Mr. Bellinger, were frail women and little children, many of them with hacking coughs, caused by the irritation from the dust in the air.

BRIEF TELEGRAMS.

Walter Beverly, a horse trainer, of Mason City, Iowa, Wednesday was attacked by a vicious horse. His arm was mangled and his body was trampled so badly that he may die.

Ed Tate, a well-known safeblower, who was held in Peoria, Ill., on the charge of blowing the school board safe and destroying the N. C. Dougherty script, escaped Wednesday night from the St. Francis' hospital, where he had been for several days suffering from blood poisoning.

Cerebro spinal meningitis "spotted fever" is again prevalent in Pittsburg, Pa. Out of seventeen cases during March and April, eleven have resulted fatally, and no hope is entertained for the recovery of the other six.

John Lenchan, chief deputy clerk of the Chicago municipal court, was indicted Wednesday by the grand jury on charges of forgery and falsifying public records. Lenehan was arrested and later released on a bond of $2,500.

Five minutes after the sportsmen's show opened Wednesday night in the Duquesne gardens at Pittsburg, a huge tank containing 100,000 gallons of water broke, flooded a section of the garden and destroyed many of the decorations. Several hundred spectators rushed for the exits panic-stricken, but none was injured.

Richardson, Mason and Harle, the Americans who are under sentence of death at Chihuahua, Mex., for murder, to secure insurance money, were granted another lease on life Wednesday, when the federal court at Juarez, after refusing a writ of habeas corpus, granted an appeal to the supreme court of Mexico.

Buck High, a 20-year-old negro, who on March 26 assaulted 4-year-old Mary Donnell near McDonough, Ga., was convicted and sentenced to be hanged May 29.

The selection of William F. Willoughby as secretary of Porto Rico, to succeed Regis H. Post, who has been made governor, is practically insured. Mr. Willoughby is now treasurer of the island, and was recently elected president of the executive council. It is believed that the treasurership will then go to some one already in the service.

The British steamer Thornhill, Capt. Dickson, which left New York April 6 for Pernambuco and other South American ports, was burned at sea and sunk April 16. The crew came into the Barbadoes Wednesday in open boats.

WONDERS OF SOMNAMBULISM

Baltimore News: Prof. Pierre Janet of the Paris Sorbonne, in McCoy hall of the Johns Hopkins university, recently delivered a lecture on "Mind and Medicine," and dealt with hysteria, particularly that form of hysteria which evidences itself in somnambulism.

"I will ask you to consider one of the most typical and characteristic symptoms of hysteria, and that is somnambulism," he said. "To understand it well is, I believe, to understand all hysterical phases that are more or less constructed on the same model.

"What is somnambulism? Popularly a somnambulist is an individual who thinks and acts while he is asleep. That answer is not very clear, for we do not know very well what sleep is. You will find nowhere a more beautiful description of the popular idea of somnambulism than in Shakespeare's tragedy of 'Macbeth.' Modern examples are much less dramatic, but you will let me cite a few which have come under my observation:

"There is a young woman, 29 years old, whom I will call 'Glb.' She heard one day that her niece, who lived next door, had thrown herself out of the window in a fit of delirium. She rushed downstairs and was confronted with the sight of the body in the street. After the first shock she seemed to be but little moved, prepared the body for the funeral and was quiet and calm. But from that time on she grew more and more gloomy. Nearly every day now she enters into a strange trance. She seems as if asleep, and she speaks softly to her niece, calling her by name, Pauline. She tells her that she admires her courage, that her death was a beautiful one. She rises, goes to the window, opens it, and if her friends did not stop her, she would undoubtedly throw herself into the street.

"Another case, a woman 35 years old, who was frightened by a lioness at the zoo. She was thrown in a delirium, which lasted eight days, and since then she repeats these fits of delirium. She walks on all fours, rushes on people, tries to bite them, even seizes photographs of children and chews them up, and acts altogether as if she herself were a lioness.

"There is a man of 30, with both legs paralyzed, who has been an invalid for years. In the middle of the night he rises slowly from his bed, takes his pillow and hugs it close, walks out of the room, through a courtyard and climbs to the top of the house. His friends have difficulty in reaching him, for the moment he awakes his legs become paralyzed again. When awakened, he does not understand how he has reached the housetop, and why he, a man sick with palsy, should have been carried there.

"Again, there is a girl, made ill with despair at her mother's death. They lived in a garret, and for two months before the mother's death the girl was under great strain, tending her mother and earning her living at the sewing machine. After the old lady's death the girl tried to revive the body, lifting it to a sitting position, and appealing to it. She now has the singular habit of acting these scenes over again while in a somnambulistic state. No actress could rehearse these lugubrious scenes with such perfection."

DOPING WITH CHOCOLATE.

Kansas City Star: "It is surprising how many chocolate fiends there are in Kansas City," said a drug clerk. "I don't mean the school girls who are always nibbling sweets. The real chocolate fiend is usually a business man who is above the frivolity of bonbons. They buy these little cakes of bitter chocolate and eat them as religiously as they take their morning smoke. They say that the chocolate is a stimulant and relieves the weariness of the mid-afternoon in the office.

CAMILLE'S INFLAMMABLE ICE CREAM.

Harper's Weekly recalls an anecdote which used to be told by the late Joseph Jefferson, concerning the earlier days of the Walnut Street theater in Philadelphia. "Camille" was being played, and all was going with the requisite intensity. Then came a scene between Camille and Armand, in the course of which a servant was to enter with lights. "In those days," said Mr. Jefferson, "sea-island cotton was stage ice cream, just as molasses and water were stage wine, sherry or port, according to the proportion of molasses. Armand and Camille were seated at the table, where they had been enjoying such vlands as these. Then in came that maidservant with the wobbliest sort of a candelabrum. The scene was so engrossing that she was scarcely noticed, but when she set down her burden between the lovers, and one of the candles toppled out and put the ice cream in a blaze—well, the strain was broken. The entire audience burst into laughter, and the curtain had to be rung down."

Think of It!

We will sell you a Go-cart like cut with rubber tires for $1.69

Just received a big line of Rockers at $2.50 to $14.00—great values. You must see them to appreciate them.

A TRAGEDY AT OIL CITY

Young Woman Kills Former Sweetheart and Then Herself.

Victim Was to Have Been Married Wednesday Night.

Oil City, Pa., April 25.—Thaddeus S. Ross, 35 years old, a clerk in the postoffice here was shot and instantly killed yesterday by Miss Isabel Stroup, 28 years of age, a former sweetheart, who immediately shot herself through the heart. Both victims of the tragedy were of prominent families. The shooting occurred in the office of Dr. George M. Magee, whither Miss Stroup had called Ross by telephone. Dr. Magee was absent when the shooting occurred and knew nothing of the tragedy until he found the two bodies blocking the door.

Miss Stroup was employed in a hospital in Bradford, Pa., and arrived here at noon. She went directly to the physician's office from which place she called Ross.

Three shots were fired at Ross, two lodged in the forehead and one in the heart. Ross was to have been married last night to Miss Drusilla Sampsell of this place. Miss Sampsell is prostrated. Ross was a veteran of the Spanish-American war and served with the regular army in the Phillippines at the close.

Ross was dining at home when the telephone rang. His father answered the call and a woman's voice made inquiry for "Thad." Mr. Ross called his son, and the young man after answering informed the family he had to go to the doctor's office for a few minutes, but would return soon. This was the last time his parents saw him alive.

What took place there no one will ever know. When Dr. Magee returned from lunch he found the dead bodies. In a chair in a corner sat Ross, his head lying back and blood streaming from a bullet wound in his neck. His forehead was burned with powder where a bullet entered his brain. Another ball had pierced his heart. Miss Stroup was a few feet away, face downward, where her body partly blocked the office door. Blood was flowing from a wound in her left side. Ross had seated himself in a large chair and apparently while talking to the girl had placed both hands in his trouser's pockets. The girl wore long black kid gloves, but had slipped her hands from the gloves and they hung loose from her bloody wrists. It is thought she walked over to the chair in which Ross was seated and shielding the 32-calibre revolver with her dress fired the first shot at his heart. Apparently he never moved. Wishing to make sure of her work, the girl fired two more shots, one taking effect in the neck and the other entering the brain. Standing over her victim she then shot herself through her heart. The revolver dropped from her hands and was found near her body. Miss Stroup was born in this county twenty-eight years ago. Both her parents are dead and she is survived by one sister and two brothers who live at Coal Hill.

MAN DROPS DEAD FROM STARVATION

After Seeking Vainly for Food in Midst of Luxury.

Chicago, April 25.—Starving to death in the midst of thousands of people, when surrounded by wealth and cheer, Allen F. Martin, 60 years old, dropped dead in front of 500 Clybourn avenue.

Night after night he passed walking the streets because he had no place to rest. A month he passed without food, and for sixteen days he had not taken off either shoes or clothes. Death came when he was overtaken by weakness and starvation.

The case is one of the most pitiable that has been called to the attention of the authorities in years. An unmailed letter in the man's pockets tells an awful story of suffering and privation that Martin endured.

His body was taken to undertaking rooms at 175 Southport avenue. Nothing of any value was found in his pockets. The letter was addressed to Warren Martin of Waukesha, Wis. It is as follows:

"Dear Brother Warren: I am in poor shape to write. I will try as I well know you are getting anxious to hear from me. Oh, what a life we both lead! Just of our own fault.

"Carlton got so sore at me that he told Anderson not to let me sit in a chair and to not give me a room for less than 50 cents a week, so I had to pull out, and for four nights after the saloons closed at 1 o'clock in the morning I was forced to walk until some place was opened.

"Then I came over to the West side, thinking I might meet some one of the old travelers who would give me a bed. But I guess not, though; it was cold and I went to the Warren avenue police station and asked for a place to lay down so as to get off the street.

"After some red tape they gave me a chair and told me to go down in the engine room. And I did so. Since that time I have been sitting up in the Western avenue depot. It has been a good place.

"I tried to find comfort in sleep—but no sleep for me. Just think, brother, sixteen nights without taking your shoes off and resting your head and weary bones. O God, how can I stand it? Since the 16th day of March I have not had a substantial meal. All I have had is cheap lunch from saloon bars.

"One gets so tired of this kind of a life, that is an existence, and you have to change from saloon to saloon, so they won't think you are a bum and chase you out. And you never get a pleasant look at the places where you have spent piles of money years ago.

"Such is life. Brother, my clothes are gone and I have no others to wear. I got the promise of a job before I went to St. Charles for my clothes. I am not able to do heavy work. There is no show for one of your age. They all want young men and first-class reference. All our old friends that used to live here have moved to Galewood.

Another letter apparently written to the victim by his brother previous to March 10, was found in the dead man's clothing.

It was as follows:

"Dear Brother Allen: At present I am in a bad condition myself, but I believe, if you are in need of help, I may be able to do some for you. I wish I could send you something now—brother hold out as long as you can and let us both be hopeful. Well, brother, this will not cheer you up, so I will say good-night. Be brave, Allen, and have hope. Your brother,

"WARREN."

Martin fell dead on the sidewalk and the police were notified by persons living in the neighborhood.

DINING CAR SERVICE

ON THE

BURLINGTON

Is conducted on the popular and economical pay-only-for-what-you-order plan, the dollar-a-meal plan still in vogue on some western roads having been discarded by the Burlington some years ago.

Waiters who really "know how" serve your food neatly, quickly and with all those little extras that lend zest to the appetite, on tables decorated with cut flowers from our own greenhouses. You are invited to test Burlington dining car service next time you travel from Minneapolis or St. Paul to Chicago. Three trains every day leave Minneapolis 7:30 a.m., 7:50 p.m., 9:50 p.m. and St. Paul 8:20 a.m., 8:40 p.m. and 10:30 p.m.

Let me tell you all about our splendid service and quote you rates for your trip.

ST. LOUIS MILLIONAIRE

Hurries From Europe to Qualify as Member of Council.

St. Louis, April 25.—Though the steamship St. Louis reached dock in New York a day late, Albert Bond Lambert, the millionaire city councilman-elect, arrived in St. Louis in ample time to qualify for his seat in the new council.

Cutting shore his European trip, involving the study of ballooning in Paris, in order to reach St. Louis in time to qualify as city councilman, Mr. Lambert traversed 4,357 miles that he might claim the seat to which he was elected without solicitation while abroad.

"I like ballooning better than politics, and in a short time will return to Paris to complete my studies," said Mr. Lambert.

ROOSEVELT'S FOUR MAXIMS.

Jacob Riis Tells Young Women of President's Concentrated Wisdom.

Philadelphia, April 25. — Roosevelt's hitherto unpublished maxims were given to the pupils of Miss Hill's school by Jacob Riis in an address.

"The president has placed his policy in four hitherto unspoken maxims," said Mr. Riis, "which I will give as guides to you young women

"'First—Fit yourself for the work God has for you to do in this world and lose no time about it.

"'Second—Have all the fun that is coming to you.

"'Third—Go ahead, do something and be willing to take responsibility.

"'Fourth—Learn by your mistakes.'

"No one can drive the president. He is always right to himself, in his own judgment. He may be wrong, but I have yet to see him do wrong, and if he does he learns from his errors."

CASES OF INTEREST

DEGREE OF CARE REQUIRED IN OPERATING AUTOMOBILES — The increasing use of automobiles has brought before the courts the question of the degree of care required while driving on streets and highways. The St. Louis court of appeals in McFern vs. Gardner, 97 Southwestern Reporter, 972, holds that the chauffeur in charge is bound to exercise care commensurate with the risk of injury to other vehicles and pedestrians on the road, and expresses the opinion that this care is as great if not greater than that required of motormen operating electric street cars. Thme court says it is the duty of the chauffeur on a public highway in a populous city to keep vigilant watch ahead for vehicles and pedestrians, and on the first appearance of danger to take proper steps to avoid an accident.

ADMISSION OF ATTORNEYS—The question as to the power of the legislative branch of the government to establish qualifications and regulate the admission of attorneys is passed upon by the supreme court of North Carolina in the matter of applicants for license, 55 Southwestern Reporter, 635. The court, after reviewing numerous authorities, holds that a statute prescribing qualifications does not violate the constitutional provision that the legislative branch of the government shall have no power to deprive the judicial department of any power or jurisdiction which rightly pertains to it. In re Day, 181, Illinois, 73, 54 N. E. 646, is opposed to this holding. An effect of the North Carolina holding is that one presenting the certificate of two attorneys as to good moral character is entitled to admission without investigation by the court on this point, even though his character be attacked by formal charges.

USE OF STREETS BY BUILDING CONTRACTORS—A person sitting on a pile of building material placed in the street in front of a lot upon which a building was being constructed was injured by a splinter from a pile being driven in the foundation. In a suit for damages the contracting company insisted that it was liable only for gross negligence, as in the exercise of its lawful right to place in the street building materials, the street had temporarily ceased to be subject to use by the public, and that person on that part of the street occupied by the building materials were trespassers. The supreme court of Wisconsin states that the right of a lot owner to encumber an adjoining street does not transpose the street into private property. It is only one of the lawful uses of the space, and must be made in deference to the rights of others to also make all lawful use thereof. By way of illustration the courts says that the presence of a vehicle in the street, while entirely lawful, is not exclusive of the right of another party there, nor does the lawfulness of such use absolve the owner from the duty of due care towards others. The case is Sompty vs. Starke Dredge & Dock company, 109 Northwestern Reporter, 650.

RIGHT OF DOWER BARRED BY JUDICAL SALE—The supreme court of Iowa in Pierce vs. O'Neil, 109 Northwestern Reporter, 1082, holds that a sale in strict accordance with the terms of a trust deed in which the wife of the grantor had not joined was in effect a judicial sale, and that the dower rights of the grantor's wife were, therefore, barred. The court says that the sale is judicial one under the statutory provision that trust deeds may be foreclosed in accordance with their terms.

ILL HEALTH AS DEFENSE TO MARRIAGE CONTRACT—Whether a man is justified in breaking a marriage promise by the fact that the woman is suffering from tuberculosis is raised in the case of Grover vs. Zook, 87 Pacific Reporter, 638, and the supreme court of Washington comes to the conclusion that in view of laws enacted for preventing the spread of consumption, and on the ground of public policy, the breaking of a promise under such conditions is justifiable, even though he knew that the woman was infected with consumption at the time the engagement was made.

ESSENTIALS OF LARCENY — The necessity of showing a trespass in a prosecution for larceny is raised in Topolewski vs. state, 109 Northwestern Reporter, 1037. The accused, through a confederate, had arranged to obtain by criminal means the product of a packing company, but the plan was abandoned upon the confederate disclosing it to the company. Subsequently, however, a meeting was arranged at the request of the company between the confederate and the accused, and the latter proposed that the former should procure packages of meat to be placed on the packing company's loading platform, and that the accused would drive to the platform and remove the packages. This plan was carried out. The supreme court of Wisconsin holds that, under the facts, the accused was not guilty of larceny, as the element of trespass was wanting.

DISTINCTION BETWEEN FLATS AND APARTMENT HOUSES — In these days of the popularity of flat buildings a judicial construction of the distinction between a flat and an apartment will be of interest. The question was brought before the supreme court of New Jersey in the case of Lignot vs. Jackle, 65 Atlantic Reporter, 221. The court says that a flat or a flat-house is a building consisting of more than one story, in which there are one or more suites of rooms on each floor, equipped for private housekeeping purposes. An apartment house is either a building otherwise termed a "flat," or it is a building divided into separate suites of rooms intended for residence, but commonly without facilities for cooking. It was contended that the proper distinction depended upon the amount of rent which was paid. The court concedes the possibility of this, but holds that the payment of $40 a month rent will not convert a flat into an apartment.

POWERS OF RELIGIOUS SOCIETIES—The right of the Spiritualist organization to use its property as a summer resort and provide for the holding of camp meetings is upheld by the Massachusetts supreme court in Nye vs. Whittemore, 79 Northeastern Reporter, 253. The court holds that the act incorporating the association permitted it to hold personal and real property and specify that a wharf, hotel or other public buildings might be erected, and that such buildings should, for the purpose of taxation, be considered real estate. The holding of camp meetings upon the premises seems to be the objectionable point, but the court maintains that the legislature seemed to have in mind such meetings from the wording of the act of incorporation.

WHAT MAKES A STREAM NAVIGABLE—The Virginia supreme court of appeals in Hot Springs Lumber & Manufacturing company vs. Reverscomb, 55 Southeastern Reporter, 589, passes upon the question as to how large a stream must be in order to be a navigable or floatable one. The court says that if by reason of increased precipitation at seasons recurring periodically with reasonable certainty, the flow of water will be sufficient to be substantially useful to the public for transportation purposes, it is a navigable stream.

BREACH OF WARRANT IN INSURANCE POLICY—The efforts of insurance companies to show breaches of warranties often lead to unusual contentions, but the case of Scofield's administrator vs. Metropolitan Life Insurance company, 64 Atlantic Reporter, 1107, probably represents the limit. The company showed that a brother of the insured had received a letter from him mailed in Colorado, and as a result contended that they be permitted to argue to the jury that California and Colorado were resorts from consumptives, and on appeal contended that the court should take judicial notice that the fact that Colorado was the place to which consumptives resort. The supreme court of Vermont, however, refuses to sustain these contentions, and points out that the mere fact that a letter had been mailed in Colorado by the insured would have no tendency to prove that the insured even resided in Colorado, much less a tendency to prove that he had consumption. The court adds that it would hesitate to hold that a temporary or permanent residence in Colorado would have a tendency to prove that the insured was suffering from consumption.

PRACTICING MEDICINE WITHOUT LICENSE.—The defendant, who appeared to be one of those quacks who advertise to cure all manner of diseases, had, together with others, incorporated, and advertised that he was authorized by law to teach the science of healing, and engaged offices, where it was shown that people had consulted him, had been examined and given treatment, and had paid for the treatment and medicines. Defendant admitted that he had no certificate of medical education, but contended that he charged no fee for his advice, pay being taken only for medicine furnished and work done. This evidence before the supreme court of Rhode Island in State vs. Heffernan, 65 Atlantic Reporter, 284, is held to show that the defendant had practiced medicine in violation of law.

LABOR UNIONS.—The right of a labor union under its constitution and bylaws to procure the dismissal of a member from his employment upon his suspension from the union is brought before the supreme court of New Jersey in the case of Brennan vs. United Hatters of North America, 65 Atlantic Reporter, 165. The court questions whether any member of a union can make an agreement that on his proper conviction, or on charges submitted and tried in accordance with the union's rules, he shall lose his place of employment and his opportunity of gaining other employment within the union's district. The New Jersey Bill of Rights confers on every man the right to engage in such lawful business as he may choose. The right of one seeking employment to have every opportunity to gain it and retain it is as precious in the eye of the law as the right of the employer. The court holds that actions like the present one are analogous to actions for enticing away servants, and that a recovery may be had.

LIABILITY OF TELEGRAPH COMPANY FOR A MESSAGE FORGED BY AGENT.—The court of appeals of Missouri in Usher vs. Western Union Telegraph company, 98 Southwestern Reporter, 84, distinguishes between the liability of a telegraph company for the transmission of a forged or fraudulent telegram filed by a stranger and the liability for the transmission of such a telegram forged by its own agent. The court distinguishes the proposition by saying that in the first the obligation upon the company is that its agent would be careful and prudent. In the second there is an absolute assurance that the agent acting within the apparent scope of his authority has not forged the message.

Full reports of any case cited from the Reporters can be supplied by the West Publishing company, St. Paul, for 25 cents.

DANCING AND PLAYING WAY THROUGH SCHOOL.

Bloomington, Ind., April 25.—Indiana university claims the distinction of having the busiest student in the state. E. E. McFerren, whose home is in Hartford City, is earning more money than any other student here, and he is earning it in more ways than any other one in the institution. Besides carrying full work in the university, he is assistant in the students' co-operative store, owner of and teacher in a dancing school, manager of a dancing club, manager of the Vaudette, a 5-cent theater; agent for a piano firm, and is a professional baseball player.

SEEMED DEAD FOR HOURS.

Ben Caple Prepared for Burial, But Came to Life.

Louisville, Ky., April 25.—With his family believing that he was dead, for several hours Ben Caple, aged 21 years, lay in a cataleptic state at his home, and only revived after neighbors had been summoned to prepare the body for the undertaker.

Caple, who is employed as a gardener at the Douglas Park race track, was taken ill, went home and took to his bed. When his family summoned him the next morning he did not reply, and to all appearances was stiff in death.

Several hours later, when a friend went to the home, he found the supposed dead man slowly returning to consciousness, and beyond a feeling of dizziness he did not experience any unpleasant after-effects.

Caple cannot explain the phenomenon beyond stating that he was in a deep, dreamless sleep.

ORDER FOR HEARING ON PETITION FOR DETERMINATION OF DESCENT OF LAND.

State of Minnesota, County of St. Louis. In Probate Court.

In the Matter of the Estate of Dorathy Lloyd, Decedent.

The petition of Joseph Lloyd having been filed in this court, representing, among other things, that the above named decedent died more than five years prior to the filing of said petition, and that no will of decedent has been proved nor administration granted on her estate in this state, that said petitioner has, and claims to have, an interest in certain real estate of decedent lying and being in the County of St. Louis, State of Minnesota, described in said petition, and praying that the descent of said real estate be determined by this court, and the same assigned to the persons thereunto entitled.

It is Ordered, That said petition be heard before this court, at the Probate Court rooms in the Court House, in the City of Duluth, in said County, on Monday, the 6th day of May, 1907, at ten o'clock, A. M., and all persons interested in said hearing and in said matter are hereby cited and required at said time and place to show cause, if any there be, why said petition should not be granted.

Ordered Further, That this order be served by publication in The Duluth Evening Herald, according to law.

Dated at Duluth, Minn., April 10th, 1907. By the Court,

J. B. MIDDLECOFF,
Judge of Probate.

(Seal, Probate Court, St. Louis Co., Minn.)

Duluth Evening Herald, April 11-15-25, 1907.

RISING BREAST

And many other painful and serious ailments from which most mothers suffer, can be avoided by the use of "Mother's Friend." This great remedy is a godsend to women, carrying them through their most critical ordeal with safety and no pain. No woman who uses "Mother's Friend" need fear the suffering and danger incident to birth for it robs the ordeal of its horror and insures safety to life of mother and child, and leaves her in a condition more favorable to speedy recovery. The child is also healthy, strong and good natured. Our book, "Motherhood," is worth its weight in gold to every woman, and will be sent free in plain envelope by addressing application to

Bradfield Regulator Co., Atlanta, Ga.

MOTHER'S FRIEND

THE National Pure Food Law and U. S. Pure Food Inspectors were not necessary for whiskies like Sunny Brook. The distillers of this old Kentucky whiskey obeyed the Pure Food Law many years before it was ever thought of or enacted. Every drop of

Sunny Brook

The Pure Food

Whiskey

either Rye or Bourbon, is **"Bottled in Bond"** under the direct supervision of **U. S. Internal Revenue Officers,** who affix over the neck of every bottle of Sunny Brook the Government **"Green Stamp,"** guaranteeing **Age, Purity** and **Quantity.**

Of the hundreds of samples analyzed by the North Dakota Pure Food Department Chemists acknowledged to be the most rigid in the United States, Sunny Brook was the **only** whiskey found **Normal.** Aged, mellowed, and flavored by storage for many years in heavily charred oaken barrels. **Ask for it. Get it.**

SAPOLIO

The Northwest's Most Reliable SPECIALIST In the Diseases of Men.

MISTAKES

Many a bright and promising career has been blighted by injurious habits of folly before the age of knowledge and understanding, and many have been cut short by the unfortunate contracting of some poisonous special disease, which, through neglect or improper treatment, has completely undermined and shattered the physical strength and mental faculties. No greater mistake can be made than to consider lightly the first evidence of the introduction of any disease into your system or to neglect the first symptoms of weakened mind and approach of nervous debility caused by habits, dissipation, etc.

Such indifference and neglect of the first symptoms are responsible for thousands of human wrecks, failures in life and business, insanity, suicide, etc. Why take such desperate chances? The manifestations of the first symptoms of any disease or weakness should be a warning for you to take prompt steps to safeguard your future life and happiness. You should carefully avoid all experimental, dangerous or half way treatment, for upon the success of the first treatment depends whether you will be promptly restored to health again, with all the taint of the poisonous disease removed from your system, or whether it be allowed to become chronic and subject you to future recurrences of the disease, with the various resulting complications, etc. We cure **KIDNEY AND URINARY DISEASES, SMALL, WEAK ORGANS, SEMINAL EMISSIONS, STRICTURE, DISCHARGES, VARICOCELE, NERVO-SEXUAL DEBILITY, CONTAGIOUS BLOOD POISON and all diseases and weaknesses due to habits, dissipation, or the result of special disease.** Write for symptom blank if you cannot call. **CONSULTATION FREE AND CONFIDENTIAL.**

COOK REMEDY CO., 252 MASONIC TEMPLE, Chicago, Ill.

THE WHEAT IS EASIER

Declines at Close, on Predictions of Rain for Southwest.

Flax is Quiet Here and Closes Slightly Weaker.

Duluth Board of Trade, April 25.—After remaining firm throughout most of the session today, wheat eased off at the close, on predictions of rain for the winter wheat belt. The tone was rather quiet. Liverpool closed ⅝d to ½d higher.

The May option closed ⅛c lower in Duluth and Kansas City, a shade lower in Chicago and Minneapolis, ¾c higher in New York, ¼c lower in St. Louis and unchanged in Winnipeg. The July optio closed ¼c lower in Duluth, and Minneapolis, ¼-⅝c in Chicago, unchanged in New York and Kansas City, ¼-¼c in St. Louis and ¼c higher in Winnipeg.

May corn closed ic higher in Chicago and was ⅝d up in Liverpool. May oats closed ⅝c lower in Chicago.

Car receipts at Duluth were 306 against 33 last year, and at Minneapolis 287 against 221 last year, making a total for the Northwest of 593 against 254 last year. Chicago received 25 against 4 last year.

Primary receipts of wheat were 783,000 bus., last year 376,000 bus. Shipments 220,000 bus., last year 341,000 bus. Clearances of wheat and flour aggregated 136,-000 bus.

Primary receipts of corn were 331,000 bus., last year 295,000 bus. Shipments 553,000 bus., last year 482,000 bus. Clearances of corn were 460,000 bus.

Wheat was quiet during most of the session in the Duluth market. May wheat opened unchanged at 83¾c, declined to 83¼c by 9:38, rallied to 83¾c by 10:15, went off to 83⅜c by 11:05, rallied to 83⅝c by 12:25 and closed at 83¼c, a loss of ¼c from yesterday. July wheat opened unchanged at 83¾c, went off to 84½c, rallied to 85c, went off to 84½c, rallied to 84⅞c and closed at 84⅝c, a loss of ⅛c from yesterday. September wheat was inactive and closed ¼c lower at 84⅝c.

Durum wheat closed ⅛c lower and cash spring wheat was selling on a basis of ½c over May for No. 1 northern.

Flax was dull and prices were a little off at the close. May flax opened at $1.17½, declined to $1.17⅜, rallied to $1.17½, declined to $1.17¼, rallied to $1.17⅜ and closed at that price, a loss of ⅛c from yesterday.

July flax opened unchanged at $1.19½, declined to $1.19¼, rallied to $1.19½ and closed at $1.19⅜, a loss of ⅛c from yesterday. October flax opened ⅛c lower at $1.16¾, advanced to $1.17⅜ and closed at that price, unchaanged from yesterday.

The coarse grains were unchanged.

Following were the closing prices:

No. 1 hard, on track, 84¾c; to arrive, No. 1 northern, 83¾c; No. 2 northern, 81½c; on track, No. 1 northern, 83¼c; No. 2 northern, 82¼c; May, 83¼c; July, 84⅝c; September, 84⅝c. THE CHICAGO MARKET.

Wheat Opens Actively and a Trifle Easier on Bearish Reports.

Chicago, April 25.—The wheat market opened active and a trifle easier. July was a shade lower to a shade higher at 81⅝c to 81¾c, selling later to 81¾c. There was still no rain in Kansas, but a prediction of either rain or snow had a bearish effect. Minneapolis, Duluth and Chicago reported receipts of 618 cars against 518 cars last week and 258 cars a year ago.

July later touched 81⅝c, but reacted on profit-taking and the close was easy, ¾@⅞c under yesterday at 81¾c.

Corn was quiet but firm on unfavorable weather and steady cables. July corn opened unchanged to ¼c higher at 49⅜c to 49¾ and advanced to 49⅝@½c. Local receipts were 123 cars, with 9 of contract grade.

Corn ruled strong throughout the session and closed at the top, July ½c higher at 47¾c.

Oats were quiet but firm on cold weather. July oats opened a shade to ⅛@¼c higher at 41¼c to 41⅜c and sold at 41½c. Local receipts were 185 cars.

The provisions market was quiet but steady at yesterday's decline. July pork opened 2½c lower at $15.875. July lard was unchanged at $8.70. Ribs were unchanged at $8.65.

Close: Wheat—May, 78⅞c; July, 81¾c. Corn—May, 49¾c; July, 49¾c. Oat—May, 44½c; July, 41⅜@½c. Pork—May, $15.60; July, $15.85. Lard—May, $8.85; July, $8.70. Rib—May, $8.47½@8.50; July, $8.60. Rye—Cash, 60½@61c. Barley—Cash, 65@73c. Flax, clover and timothy—nothing doing. Cash wheat—No. 2 red, 79½@80c; No. 3 red 77@79c; No. 2 hard, 78@80c; No. 3 hard, 68@77c; No. 1 northern, 80@85c; No. 2 northern, 82@84½c; No. 3 spring, 77@84c; Corn—No. 2, nothing doing; No. 3, 47¾@48¼c. Oats—No. 2, 41½c; No. 3, nothing doing.

Minneapolis Flour.

Minneapolis, April 25.—The flour market is steady. Millers are holding prices firm and will advance prices on any further upturn in wheat. Buyers are not showing any great interest but are taking flour in a limited way from day to day. The car situation is showing some improvement and shipments are fair. Shipments, 40,887 barrels. First patents, $4.20@4.40; second patents, $4.15@4.25; first clears, $3.20@3.50; second clears, $2.40@2.50.

Duluth Car Inspection.

Wheat—No. 1 hard, 24; No. 1 northern, 79; No. 2 northern, 67; No. 3 spring, 2; No. 4 spring, 5; rejected, 1; no grade, 6; No. 1 durum, 19; No. 2 durum, 27; No. 3 durum, 38; No. 4 durum, 2; rejected and no grade durum, 5; total of durum, 91; mixed, 10; total of wheat, 306; last year, 33.

Flax—No. 1 northwestern, 28; No. 1, 32; No. 2, 1; no grade, 2; total of flax, 63; last year, 49.

Oats, 16; rye, 3; barley, 19.

Total of all cars, 406. Cars on track today, 265.

Liverpool Grain.

Liverpool, April 25.—Wheat, spot quiet; No. 2 red, Western winter, 6s 2¾d; No. 1 California, 6s 4¾d; futures steady; May, 6s 6¾d; July, 6s 4⅞d. Corn, spot firm; American mixed new 4s 7½d; American mixed old, 5s 1¢d; futures firm; May, 4s 7½d; July, 4s 8⅛d; September, 4s 8½d.

Grain Gossip.

Broomhall, on wheat: Liverpool, April 25.—"Was firm at the opening with values ¼d higher, fololwed later by an additional advance of ¼d. The strength in America yesterday and firmer offerings of La Plata wheat caused the advance. Prominent shorts covered freely and the general feeling in the market was one of bullishness."

* * *

Weather forecast for grain belt:

Illinois and Indiana—Partly cloudy and colder tonight with showers in south. Friday, fair with warmer in north and central.

Missouri—Partly cloudy tonight with showers and colder in east and south. Friday, fair with rising temperatures.

Lower Michigan—Partly cloudy tonight with colder in southeast. Friday, fair with slowly rising temperatures. Brisk northerly winds.

Upper Michigan—Fair tonight with colder in east. Friday, fair with rising temperature.

Iowa—Fair tonight and Friday. Rising temperatures Friday.

Minnesota—Fair tonight and Friday. Warmer Friday and in the north tonight.

North and South Dakota—Fair tonight and Friday. Slowly rising temperatures.

Nebraska—Partly cloudy tonight and Friday. Rising temperatures Friday and in west tonight.

Kansas—Possibly showers or snow flurries tonight or Friday. Rising temperature Friday.

* * *

Logan & Bryan, Chicago, to Paine, Webber & Co.: Wheat—From the standpoint of a bull today's market was distinctly disappointing. It is true there was a vast quantity of wheat poured into the pit which was taken in admirable manner, but the market throughout was narrow. There is no abatement in the damage reports received, but it would seem from the action of the market that something of the different character must be forthcoming, something in a definite way in shape of damage to offset fears of May liquidation and shake off bearish influence surrounding old crop. The situation is by no means cleanged. It is still as uncertain as ever and every day without moisture in Kansas must do irrepairable harm to the growing crop. The weather prediction for Kansas is for showers or snow flurries. This undoubtedly held buying in check somewhat and if not realized we are likely to have a resumption of bullish activity.

Corn—There is no getting away from the fact that sentiment is growing quite bullish. The market has considerable steam on. It is in good hands and acts as if it could be put higher.

Oats—Smpathized altogether with corn, ignoring backward feeling in wheat. The undertone is good and conditions still seem to warrant buying on reasonable reactions.

Provisions—Receipts of hogs were about 20,000 more at all points than last year. This, with continued liquidation of May holdings about offset bullish influences and prices closed practically same as yesterday.

Minneapolis Wheat.

Minneapolis, April 25.—Close: Wheat, May, 81½c; July, 83¾@83⅝c; No. 1 hard, 85⅛@85½c; No. 1 northern, 83⅞¾84½c; No. 2 northern, 81⅞¾82½c; No. 2 northern, 79@80c.

New York Grain.

New York, April 25.—Close: Wheat, May, 88⅝c; July, 88⅞c; September, 89⅞c. Corn, May, 58c; July, 57⅝c.

REMARKS.

Rain fell over portions of all districts. Low temperature occurred last night in the upper Missouri and upper Mississippi valleys.

H. W. RICHARDSON,
Local Forecaster.

T indicates inappreciable rainfall. * For yesterday. ** For twenty-four ending at 8 a. m., 75th meridian time.

NOTE—The average maximum and minimum temperatures and the average rainfall are made up at each center from the actual number of reports received. The state of weather is that prevailing at time of observation.

The Cotton Market.

New York, April 25.—The cotton market opened steady at an advance of 1 to 4 points, in response to firmer cables. A favorable interpretation of the early weather map caused some irregularity and imparted a relatively easier tone to the new crop months immediately following the call, but the market soon firmed up to a net advance of 4 to 6 points on covering by nearby shorts and prospects for colder weather tonight in the Southwest. Prices were within a point or two of the best, which made a new high level for the current movement on the old crop months, during the middle of the morning.

Spot closed steady; middling uplands, 11.30; middling gulf, 11.55. Sales 200 bales. Futures closed steady. The following bids: April, 9.83; May, 9.88; June, 9.85; July, 9.91; August, 9.87; September, 9.89; October, 10.09; November, 10.12; December, 10.16; January, 10.32; February, 10.37; March, 10.45.

Treasury Balances.

Washington, April 25.—Today's statement of the treasury balances in the general fund exclusive of the $150,000,000 gold reserve in the division of redemption shows: Available cash balance, $248,792,-159; gold coin and bullion, $104,459,691; gold certificates, $41,382,975.

CARRIED THEIR OWN BEDS.

Kansas City Star: An old man approached the Pullman office window.

"A lower to St. Louis," he said, displaying his transportation.

The little red slip was stamped and handed to him.

The old man stood at the window a moment looking at the clock.

"Twenty-five years ago," he said, "I bought a berth from Kansas City to California. My bed cost me 75 cents."

The clerk looked astonished.

"You're mistaken, I think," replied the ticket seller. "Berths are as cheap now as they have ever been."

"No," said the traveler, "they are not. They're costlier. And I'll tell you why. Travel nowadays is different. When I went to California then I paid 75 cents for a straw tick. I bought it on this street right opposite the depot. I don't remember what I paid for my place in the car. But in reality my bed cost me just 75 cents. There used to be a sign on one of those little buildings over there, which said:

"'Get your straw bed here—50 and 75 cents.'

"Twenty-five years ago that meant luxury traveling. There were simply curtains to pull down over your seat and you provided your own bedding You took your own sheets (if you wished them at all) and our own blankets. Kansas City was looked upon as the supplying point for all Western travelers. Those men who owned the straw and the ticks in that room across on the avenue did a flourishing business."

L. S. Banks, general ticket agent at the depot, said yesterday that probably 10,000 straw ticks were sold to travelers from that room on Union avenue. "Ticks were a sort of a luxury," he said, "twenty-five years ago. They were in demand, too. The majority of persons who traveled to California did not use the sleeping cars."

A chance to save some money on There is no want ad. printed in The Herald to-day which does not strongly interest at least ten people—and there are some that will strongly interest thousands.

SPECIAL NOTICE.
We are pleased to announce that we now have a first-class wire direct to Boston, New York, Chicago and Pittsburg, connecting with Miller & Co., 29 Broadway, New York, who are members of the New York Stock Exchange, New York Produce Exchange, Chicago Board of Trade, Boston Exchanges and New Orleans Cotton Exchange. The high standing of our Eastern connection is in itself a guarantee that our service and facilities for handling Boston coppers, New York coppers and industrials are as good, if not better, than any at the Head of the Lakes. Through our connections we expect to broaden the Duluth curb market so as to give it a better outside support than it has received in the past. We have faith in Duluth curb stocks. We believe they possess more real merit than any other flotations in the country, and while we solicit New York trade, we will confine to give special attention to the Duluth curb stocks.

DULLNESS IN STOCKS

Rally Coincident With Reaction in the Wheat Market.

Prices Drooped Again and Close Was Easy and Dull.

New York, April 25.—First transactions in stocks showed prices generally lower than last night. There were no important operations recorded. Northern Pacific fell a point, Great Northern preferred and American Smelting ¾ and Union Pacific after opening ⅛ higher reacted ¾.

Little interest was manifested in the market and aside from a rally in Union Pacific from 141 to 142 and an overnight rise of a point in Reading, quotations were much restricted. The movement turned upwards after the drift came downward again. International Mercantile Marine preferred, which has been listed on the exchange, sold at 23 and 23½ compared with 22½, the curb closing yesterday. Erie first preferred fell 2½, Northern Pacific 1½, American Smelting 1¼, and Illinois Central and Northwestern 1.

Prices vibrated but feebly and business was little more than normal. Prices hardened after getting slightly lower. Northern Pacific and Chicago Great Western preferred fell 2 and the Common and Westinghouse Electric 1. Bonds were heavy.

Higher prices prevailed after midday for the principal stocks, but the demand abated when the recovery became complete. Reading touched 111 again and Brooklyn Rapid Transit and Denver & Rio Grande improved a point. Some of the low-priced obscure stocks weakened further. Chicago Great Western losing 2 and the preferred "B" Erie second and Toledo, St. Louis & Western 1.

About the only significant movement of the afternoon developed in Union Pacific. That stock was pushed up a point despite the apathy of the general market. Consolidated Gas sagged 1.

The market closed easy and very dull. There was a rally in stocks coincident with a reaction in the wheat market. Transactions on the rise were in only moderate volume. Union Pacific gained 1¾ and Southern Pacific, Atchison, Great Northern preferred and Illinois Central 1. United States Express sold at an advance of 5, New Haven 2, and Sloss Sheffield Steel 1. Prices dropped below the best again.

Quotations furnished by Wisconsin Grain & Stock company, 109 Manhattan building:

Stocks—	High	Low	Close
Atchison	95½	94⅝	95¼

Stock Gossip.

New York—Logan & Bryan to Paine, Webber & Co: London was not much of a factor in our market today. Our trade up to the last hour was on a limited scale, and sentiment was decidedly mixed. After midday, however, Union Pacific was given good support as were other high class stocks and the list gradually advanced. The reduction in the Bank of England rate has no effect on our market. We still believe that the better class of stocks will do to purchase on sharp reductions.

* * *

New York to Gay & Sturgis: American stocks in London steady and fearless, about parity. Bank of England rate reduced to 4 per cent.

London market quiet, having anticipated reduction in bank rate. Generally considered acquisition of Boston and Maine a settled part of the New Haven policy.

International mercantile marine surplus for 1906, $5,195,637, against $2,890,-848 in 1905.

Rather lighter demand for stocks in loan crowd but considerable short interest still indicated.

Not considered probable that Steel common dividend will be changed. May disbursements for interest and dividends will exceed $75,000,000.

B. F. Yoakum of St. Louis & San Francisco says Rock Island system does not contemplate retrenchment in its construction work.

Wabash net for eight months increased $685,085.

Canadian Pacific earnings third week April increased $96,000.

St. Paul Live Stock.

St. Paul, April 25.—Cattle—Receipts 450; steady; steers, about 10c lower; others unchanged. Hogs—Receipts, 1,200; 5c lower; range, $6.20@6.30½; bulk, $6.32½. Sheep—Receipts, 500; strong; wooled and killing sheep and lambs, $4.50@7.00; yearlings, $4.50@7.25; lambs, $4.00@5.05.

Chicago Live Stock.

Chicago, April 25. — Cattle — Receipts, about 8,000; market weak; beeves, $4.25@6.55; cows, $1.80@4.90; heifers, $2.75@5.40; calves, $3.50@6.50; good to prime steers, $5.25@6.65; poor to medium, $4.30@6.30; stockers and feeders, $2.90@5.15. Hogs—Receipts, about 25,000; market a shade lower; light, $6.40@6.57½; mixed, $6.40@6.60; heavy, $6.20@6.57½; rough, $6.20@6.50; pigs, $5.50@6.65; good to choice, $6.65@6.67½; bulk of sales, $6.52½@6.57½. Sheep—Receipts, about 10,000; market steady; native, $4.50@6.90; western, $4.50@6.90; yearlings, $7@7.75; lambs, $6.50@8.60; western, $6.50@8.70.

New York Money.

New York, April 25.—Close: Money on call easy, 1¾@2¼ per cent; ruling rate 2, closing bid 2; offered at 2. Time loans easier and very dull; sixty days 3½ per cent; ninety days 4½ per cent; six months 4⅝ per cent. Prime, mercantile paper 5¾@6 per cent. Sterling exchange easier with actual business in bankers' bills at $4.86.05@4.86.10 for demand and at $4.83.35@4.83.40 for sixty day bills; posted rates, $4.83½@4.84 and $4.86½@4.87; commercial bills, $4.83¼. Bar silver, 65¾c; Mexican dollars 50¾c; Government bonds steady; railroad bonds heavy.

Copper Gossip.

Boston to Gay & Sturgis: The most striking feature in the situation is the growing ease in money. This ease is not confined to any one center, but is general the world over. It is certainly strange how money accumulates the moment the demand for any cause diminishes.

We are beginning to feel the result of the recent stock market liquidation, the natural workings of the Aldrich bill, and the disposition on the part of the great corporate interests to retract their plans of expansion.

We are at a period when more or less uncertainty surrounds crop prospects.

The season has been so backward that the opportunity has offered for the circulation of all manner of adverse crop reports.

It is very likely that business sentiment may become more conservative until the crop outlook is clearer, and yet the volume of general trade continues eual, if not greater, than a year ago, and in no direction is there any apprehension as to the future.

In the security market it is becoming evident that securities at their present yield are more valuable than money. This is the reason why the bearish forces fail in their efforts to depress prices.

The capital of the country is quick to see the drift of the tide. No one can read the tape without appreciating the sold-out condition of the market. The buying power may be from a different direction than it was, but it is really all the stronger because of that.

THE PRODUCE MARKET.

The following prices, with the exception of those on hay, feed and meats, are the official quotations of the Duluth Produce exchange and shippers can rely upon them as being correct. The list is corrected daily by the secretary, and it shows accurately the market conditions up to 12 o'clock on the date of issue. The weekly market letter, published on Fridays, is not an official statement of the exchange, but the information is gathered personally from the different dealers:

STREET CARS.
NOTICE TO THE PUBLIC.

This company operates a street railway line in the city of Duluth between Third avenue east and the end of Rice's Point, and another street railway line in the city of Superior between Twenty-first street and the end of Connor's Point. These lines are separated by the waters of St. Louis Bay, and are operated as two distinct and separate lines.

The fare for a continuous ride in one direction between any two points on either one of these lines is 5c.

The public is hereby notified that this company does not, by undertaking to carry any passenger, or by accepting fare for such carriage, assume any responsibility beyond that of carrying such passenger safely between points on the above mentioned lines.

This company is not responsible for close connections, nor safe transportation, between the above mentioned lines by any ferryboat or other means of transportation. While the employes of this company have been instructed to keep themselves posted and give upon request all the information they can as to the probability of connections being made with other transportation lines, the company has no better means of foreseeing unexpected interruptions in the service of such lines nor of telling how long such interruptions will continue, than the public has, and therefore cannot be responsible for notice of such interruptions.

CERTIFICATE OF INCORPORATION
—of—
VERMILLION DIAMOND DRILL COMPANY.

KNOW ALL MEN BY THESE PRESENTS, That we, the undersigned, all being persons of full age, have agreed to and do hereby associate ourselves together, under the Constitution and General Laws of the State of Minnesota, and more particularly under the provisions of Chapter 58 of the Revised Laws of said State, of the year of 1905, as a Corporation, and to that end do hereby adopt the following:

ARTICLES OF INCORPORATION.

ARTICLE I.

The name of this Corporation shall be Vermillion Diamond Drill Company.

ARTICLE II.

The general nature of the business of this corporation shall be: To drill for and conduct general exploration work for the finding and discovery of iron, copper and other minerals for itself and for others;

To acquire by lease, option, purchase, gift, devise, grant, conveyance, agreement or otherwise, and to own, hold, possess, enjoy, develop and work, and to sell, lease, convey, or otherwise dispose of real estate, mines, mineral rights and mineral lands in any part of the world, and especially lands containing or believed to contain deposits of iron, coal, copper or other minerals, and any right, title or interest therein; and to develop, operate and work mines upon, in or under such lands, for the purpose of mining and producing iron, copper and other ores and minerals;

Any and all of said business to be carried on in the State of Minnesota or elsewhere, and the principal place of transacting the business of said Corporation shall be in the City of Duluth, in the County of St. Louis and State of Minnesota, with such branch offices at such other points or places as may from time to time be determined by the Board of Directors of said Corporation.

ARTICLE III.

The time of the commencement of this Corporation shall be the 27th day of April, 1907, and the period of its existence shall be thirty (30) years.

ARTICLE IV.

The amount of the capital stock of this Corporation shall be Fifty Thousand Dollars ($50,000.00), and the same shall be sold only at par, either for cash or for property and things of value deemed by the Board of Directors to be equivalent thereto, such determination by the Board of Directors to be deemed final and binding upon all parties in interest.

Stock of this Corporation shall be paid for as called for by the Board of Directors, and no stock which has not been subscribed for and upon which the payments have not been made as required by the Board of Directors, shall be entitled to vote or representation in any of the proceedings of this Company.

ARTICLE V.

The highest amount of indebtedness to which this Corporation shall at any time be subjected is the sum of Twenty-five Thousand Dollars ($25,000.00).

ARTICLE VI.

The names and places of residence of the persons forming this Corporation are as follows: William T. McCarthy, Charles E. McIllhargey and M. H. McMahon, all of Duluth, Minnesota.

ARTICLE VII.

The government of this Corporation and the conduct and management of its affairs is hereby vested in a Board of three (3) Directors, who shall all be stockholders, and, except as herein provided, shall be elected by the stockholders at their annual meeting on the second Tuesday in January of each year, and who shall, within ten (10) days thereafter, elect from their own number the following officers, to-wit: President, Vice President, Secretary and Treasurer.

The first annual meeting of this Corporation shall be held on the 27th day of April, 1907, and until such time as such directors have been elected and qualified, the following persons shall be and constitute the Board of Directors of this Corporation: William T. McCarthy, Charles E. McIllhargey and M. H. McMahon, and until such annual meeting is held and the Directors thereat chosen, shall elect officers as hereinbefore provided, and until such officers shall have been duly elected and qualified, the general officers of this Corporation shall be as follows:

President, William T. McCarthy; Vice President, M. H. McMahon; Treasurer, Charles E. McIlhargey; Secretary, William T. McCarthy, all of Duluth, Minnesota.

The office of Treasurer may be held by any officer of this Corporation. The officers and directors of this Company, except those herein designated to act as such in the first instance, shall hold office for the period of one (1) year, or until their successors are elected and qualified, and in case any vacancy occurs in any of the offices or in the membership of the Board of Directors of this Corporation, the same shall be filled by the Board of Directors until the next annual meeting and until such vacancies shall be filled by election held in accordance with these Articles and such By-Laws as may be adopted providing for elections.

ARTICLE VIII.

The capital stock of this Corporation is divided into five thousand (5,000) shares of the par value of Ten Dollars ($10.00) each.

IN TESTIMONY WHEREOF, The parties hereto have hereunto set their hands and seals this 22nd day of April, 1907.

WILLIAM T. McCARTHY. (Seal)
CHARLES E. McILLHARGEY. (Seal)
M. H. McMAHON. (Seal)

Signed and Sealed in Presence of:
FRANK E. SKARP.
S. F. WHITE.

State of Minnesota, County of St. Louis —ss.

BE IT KNOWN, That on this 22nd day of April, A. D. 1907, personally appeared before me, the undersigned, a Notary Public in and for said County of St. Louis, William T. McCarthy, Charles E. McIllhargey and M. H. McMahon, to me well known to be the persons named in and who executed the foregoing Certificate of Incorporation, and they severally acknowledged that they executed, signed and adopted the same as their free act and deed respectively.

FRANK E. SKARP,
Notary Public,
St. Louis County, Minn.

(Notarial Seal)
My commission expires Jan. 11, 1911.

State of Minnesota, Department of State.

I hereby certify that the within instrument was filed for record in this office on the 23rd day of April, A. D. 1907, at 2 o'clock P. M., and was duly recorded in Book 63 of Incorporations, on page —.

JULIUS A. SCHMAHL,
Secretary of State.

OFFICE OF REGISTER OF DEEDS.
State of Minnesota, County of St. Louis —ss.

I hereby certify that the within instrument was filed in this office for record April 25, 1907, at 9:15 A. M., and was duly recorded in Book 4 of Misc., page 357.

M. C. PALMER,
Register of Deeds.
By THOS. CLARK,
Deputy.

Duluth Evening Herald—April 25-26, 1907.

PERSISTENT RUMORS

In Wall Street of Implication of Boston Man With Douglas.

New York, April 25.—That a prominent Boston man, well known as a lawyer and in financial circles, is to figure in further proceedings in connection with the arrest of W. O. Douglas and O. M. Dennett, charged with the theft of bonds from the Trust Company of America, was persistently reported in Wall street today. This man, it was alleged, was a friend of Dennett and was frequently consulted by both Dennett and Douglas. He is reported to have urged Douglas to take a very large amount of bonds, about $1,000,000, and to turn them over to Dennett. The Boston lawyer is now supposed to be in this city.

PRESIDENT IN NO HURRY.

Washington, April 25.—It can be said on authority that the president will not decide the South Dakota district attorneyship until after the spring term of the court. Acting District Attorney Porter will serve by designation until that time at least.

EACH ONE A SNAP!

$8000 Two new brick flats and cottage. East end. Annual rental, $1,020.
$6000 Eight-room house on fine East end corner. Stone foundation; furnace heat, hardwood floors, gas and electric light; open plumbing.

THE HEALTH OF THE CITY

Report of Department for First Quarter Shows Excellent Condition.

Death Rate May be Even Lower Than Last Year.

The health report for the first quarter of the present year has been completed by the local health department, and it shows that Duluth has been living up to her enviable health record in every way during the three months of January, February and March. The death rate for the quarter, after all deaths of children under 1 year, and deaths resulting from cases brought here for treatment from outside are deducted, figures out at 1.7 in every 1,000 of population, figured on an estimated population of 77,500. Should this rate be kept up during the remainder of the year the annual death rate for 1907 would be 6.7, still lower than the remarkably low mark for 1906, 7.4.

There were 217 deaths in Duluth during the time covered by the quarterly report. Forty-six of these were cases brought into the city for treatment, and forty were children under 1 year of age. Pneumonia and tuberculosis lead in the death lists, pneumonia carrying off thirty-one persons and tuberculosis twenty-three.

The number of births in the city during the past three months has been almost twice the total number of deaths during the same period, a total of 418 being entered on the records of the department. Of these 193 were females and 225 males. The birth rate increased steadily during the three months, January having 134, February 138 and March 146.

The situation in regard to contagious diseases during the time covered by the reports has been very favorable. There have been one or two little flurries in the diphtheria situation, but each outbreak was quickly and effectively suppressed, and all forms of disease are now well under control.

Mail a Copy

Of tonight's industrial isssue of The Herald, ninety-two pages, price 2 cents. It will require 6 cents in postage stamps to mail this number of The Herald.

PURE FOOD LAWS

Will be Administered by Special Board With Wiley at Head.

Washington, April 25.—Secretary Wilson created today by executive order, the board of food and drug inspection, whose duty it shall be to administer the national pure food law. The board consists of Dr. Harvey W. Wiley, chief of the bureau of chemistry, chairman; Dr. Frederick L. Dunlap, whose commission as associate chemist dates from today and George R. McCabe, solicitor of the department of agriculture.

Secretary Wilson has found it practically impossible to take the required time to go into all the necessary details imposed in the administration of the pure food law. President Roosevelt was consulted in the matter and at once gave hearty assent to the plan of placing the administration of the laws in the hands of a board.

Copies of the Industrial Edition

Of The Herald may be had at The Herald counting room or any of the city newstands for 2 cents per copy, or wrapped and ready for mailing at 3 cents per copy. Six cents in postage will be required for mailing the same.

NEW SEES PRESIDENT.

Chairman of Republican Committee Calls at White House.

Washington, April 25.—President Roosevelt today discussed national politics and some of the business of the Republican national committee with its acting chairman, Harry S. New, who remained with the president some time. With the newspapermen, however, Mr. New would not talk politics. He said however, that four cities are already in the field for the honor of holding the next national convention of the Republican party, invitations having been received from Chicago, St. Louis, Kansas City and Seattle. A selection will be made by the national committee at its meeting in December. Mr. New said he did not expect to be in the city again until that time.

PROMOTIONS IN THE CONSULAR SERVICE.

Washington, April 25.—The following transfers and promotions in the consular service were announced at the White House today:

Ethelbert Watts of Pennsylvania, consul general at St. Petersburg, transferred to Brussels, and Sorin Listo of Minnesota, consul general at Rotterdam, transferred to St. Petersburg.

These changes are made as the result of the death of George W. Roosevelt, a relative of the president, who was consul general at Brussels.

EUCLID LODGE, NO. 198, A. F. & A. M.—Regular meeting first and third Wednesday evenings of each month at 7:30 o'clock. Next meeting May 1. First degree. J. H. Opperman, W. M.; A. Dunleavy, secretary.

DULUTH CHAPTER, NO. 59, R. A. M., meets at West Duluth second and fourth Tuesdays of each month, at 7:30 p. m. Next meeting April 23. Work—Mark degree. E. G. Wallinder, H. P.; A. Dunleavy, secretary.

DULUTH LODGE, NO. 28, I. O. O. F.—Meets every Friday evening at Odd Fellows' hall, 16 Lake avenue north. Next meeting, April 26. First degree J. McDonald, noble grand; R. S. Forgy, recording secretary.

K. O. T. M.
DULUTH TENT, NO. 1, MEETS EVery Wednesday evening at 8 o'clock at Maccabee hall, 224 West First street. Visiting sir knights welcome. C. J. Hector, Com., J. B. Gelineau, record keeper. Office in hall. Hours, 10 a. m., to 1:30 p. m.

MODERN SAMARITANS.
ALPHA COUNCIL, NO. 1, meets at Elks' hall every Thursday evening at 8 o'clock Next meeting April 25. Samaritan degree. F. A. Noble, G. S.; Lucy Purdy, L. G. S.; Wallace Welbanks, scribe; T. A. Gall, financial scribe.

A. O. U. W.
FIDELITY LODGE NO. 105 Meets at new Maccabee hall, every Thursday evening at 8 o'clock. H. E. Simons, M. W.; W. W. Fensternacher, recorder; O. J. Murvold, financier, 217 East Fifth street.

I. O. F.
COURT COMMERCE, NO. 1283 Independent Order of Foresters, meets first and third Friday evenings at 8 o'clock at Rowley's hall, No. 112 West First street. Next regular meeting, May 3, 1907. F. A. Tupper, C. H.; W. W. Hoopes, R. S.

M. W. A.
IMPERIAL CAMP, NO. 2206, meets at Maccabee hall, 224 West First street, second and fourth Tuesday of each month. J. W. Wood, V. C.; William Tunnell, banker; C. P. Earl, clerk, Box 411.

NORTH STAR LODGE NO. 85, Knights of Pythias, meets at 8 o'clock sharp every Tuesday night, at Elks' hall, 118 West Superior street. Dance and social meeting April 30. J. A. Wharton, C. C.; H. McKenzie, K. R. and S.

CLAN STEWART, NO. 50, O. S. C. Meets first and third Wednesdays of each month at 8 p. m.; in Folz hall, West Superior street. John G. Ross, chief; Alex. G. McKnight, secretary; John Burnett, financial secretary, 413 First National Bank building. Next meeting Wednesday, May 1.

LOYAL GUARD.
Subordinate division, No. 132, meets first and third Wednesdays. H. B. McKinney, captain general; H. V. Holmes, paymaster; 415 Fifteenth avenue east; E. F. Heller, recorder, 17 East Third street.

MODERN MACCABEES.
ZENITH CITY TENT, NO. 1044, meets every first and third Friday of the month, Kalamazoo hall, B. Commander. Charles E. Norman, 1610 Minnesota avenue; record keeper and finance keeper, A. G. Case, residence, 412 West Fourth street.

U. O. F.
COURT EASTERN STAR NO. 83.—meets every first and third Tuesdays of each month, at Maccabee hall, 224 West First street. Next Meeting April 30. J. Wilde, secretary, 152 Mesaba avenue; J. B. Gelineau, C. R., 116 West Fourth street; Harry Milnes, treasurer. Office at hall.

WOODMEN OF THE WORLD.
ZENITH CITY CAMP, NO. 5, MEETS every second and fourth Monday at old Masonic Temple, fifth floor. H. H. Saxton, C. C.; J. H. Larkin, banker; 201 West Superior street; James Blackwood, clerk, 413 Lake avenue south.

INDUSTRIAL WORKERS OF THE WORLD— Lumber Loaders' local union, No. 391, meets every first and third Fridays of each month at Sloan hall, Twentieth avenue west and Superior street. G. R. Mercer, Smithville, secretary and treasurer.

ROYAL LEAGUE.
ZENITH COUNCIL, NO. 161, Royal League, meets in Elks' hall, first and third Monday evenings at 8 o'clock. James A. Wharton, archon, courthouse. Andrew Nelson, 411 First National Bank building.

MINNESOTA HISTORICAL SOCIETY.

SHORT EDITORIALS REVIEWING DULUTH'S SPECIAL INTERESTS

The Railroad Facilities.

That "all roads lead to Duluth," as A. H. Comstock, the energetic and progressive chairman of the industrial committee of the Commercial club, an organization that has done mighty work in bringing the city to its industrial supremacy, well says, is true beyond question for the nine systems that center here are either parts of or in close alliance with the systems that cover the entire country, while three more soon to enter the city will strengthen the claim if this be necessary.

The eight lines that now center here are the Great Northern, the Northern Pacific, the Duluth, South Shore & Atlantic, the Chicago & Northwestern, the Chicago, Milwaukee & St. Paul through connections, the Wisconsin Central that is fast completing its new line, the Duluth & Iron Range, the Duluth, Missabe & Northern, and the Duluth & Northern Minnesota.

The three new lines that are pushing to the city with the utmost speed are the great Soo Line, the Duluth, Rainy Lake & Winnipeg and the Minnesota & International roads.

Eight thousand miles of railroad directly center in Duluth and all have costly terminals and other interests valued at millions on millions. All also are preparing for most extensive enlargements, their present facilities being inadequate.

These roads give Duluth commercial and industrial command of the Northwest and materially aid in assuring to the city its supremacy as the business queen of that vast territory.

Duluth as Mining Center.

No city in America, not even excepting those in the mining regions themselves, has taken deeper interest in that great branch of industry than Duluth, and this interest has been deep and substantial, and has been devoted to the very best classes of mining enterprises.

It is especially worthy of note that citizens of Duluth are large, or the largest stockholders in, and many of them officers of copper and gold mining companies, with the colossal aggregate capital of $104,500,000. These companies have high-grade properties in Mexico, Arizona, Montana, Idaho, Colorado and other notable mining sections.

So intense has been the public interest in mining stocks in the past two years that in that time one of the greatest curb markets for copper and other stocks, listed and unlisted, has grown up here, and its movements are esteemed highly in all mining stock centers.

Duluth's Board of Trade.

By no means the least factor in Duluth's industrial and financial and commercial prosperity, are the immense grain interests centered here at the Head of the Lakes so as to take advantage of the incomparable lake transportation service.

These interests, which give employment to thousands of people and require no less than twenty-two great grain elevators and hundreds of huge vessels in the transportation service, are managed and controlled by the Duluth Board of Trade, an organization of businessmen of the very highest class.

Not only is Duluth one of the leading wheat centers of America, but it is also the largest flax market in the whole world. Some idea of the immense business done here is given by the following vast figures for last year, next to the largest in the city's history: Receipts, wheat, 41,558,151 bushels; flax, 21,784,625 bushels; corn, 163,122; oats, 7,983,389; barley, 8,705,792; rye, 589,412—a total of 81,784491 bushels; shipments, 33,623 bushels. In addition to this, the flour mills of the city used 4,233,822 bushels while the flour shipments from here aggregated last year 5,645,035 barrels.

The durum wheat movement, a new one, is at present attracting the greatest interest. In the last crop year, its receipts were 24.6 of all wheat. It is in demand, especially in Europe, and it serves to give Duluth added advertising in the Old World.

The Board of Trade itself holds a position in the grain world second to none in the country and it possesses the perfect confidence of the farmers because of its pre-eminently fair dealings with them.

The Banks of Duluth.

To attend to the financial needs of Duluth and its tributary territory, the city has four banks, all in ultra-prosperous condition. All are conducted with wise conservatism, and they and their officers are known in the world of money to be as solid and substantial as any in America.

The deposits of these four banks, as shown by the last statement, made last month, in conformity to the call of the United States treasury department, aggregated $19,000,000—within about $4,000,000 of the deposits of the six banks of St. Paul, and larger than any four of these. It is also worthy of note that the deposits of one of these institutions was larger than those of any of the banks of the capital city.

No city of Duluth's size or class possesses as good financial concerns, and the largeness of the deposits shows that, in the midst of unexampled prosperity, the people are remarkably thrifty and careful.

Realty and Buildings.

Duluth's real estate has more real solidity and sound value than has that of any city of the country, and today offers a field for profitable investment unequalled in America. Prices have been far below the level of similar property in most places considerably smaller. This has been due to the extreme conservatisism of the owners and the fact that nearly all of it has been held das investments.

With the advent of the steel plant, the opening of the Northern Power company that will bring all kinds of manufacturing and the construction of the new shipyard and drydock, all of which mean the doubling or tripling of the population in the next few years, and a consequent enormous increase in homes and great enlargement of all kinds of business, Duluth realty will certainly yield remarkable returns on all investments. We can only guess what will be the increase in values in the next few years, but it is certain that they will be enormous.

Not only has Duluth many blocks that would be a credit to the largest city in America, but it has millions in churches that are unsurpassed anywhere, tens of thousands in schools, far above those of any city of twice its size and thousands on thousands in other structures.

The building record for 1906 surpassed all previous marks by no less than 66 per cent, and this year will also make a record with a magnificent $1,000,000 courthouse of stone and brick, a new postoffice, the handsome Y. M. C. A. building and the Y. W. C. A. building in the lead.

Many of the business houses are preparing already to enlarge in anticipation of the vast assured increase in business, while the real estate market is showing a healthy, but not at all abnormal, active state of trade.

Duluth's Lumber Trade.

That Duluth leads the world in the production of white pine lumber is proved by an inspection of the great territory engrossed by this industry, and a study of the shipping records of the port. Last year the enormous total of 827,903,000 feet of white pine lumber was produced in the Duluth district and the great bulk of it was shipped from here on hundreds of lumber vessels.

The city has also sash door and interior finish factories that do a business aggregating millions of dollars each year. The mills are the best equipped of any in America and their products easily command a premium.

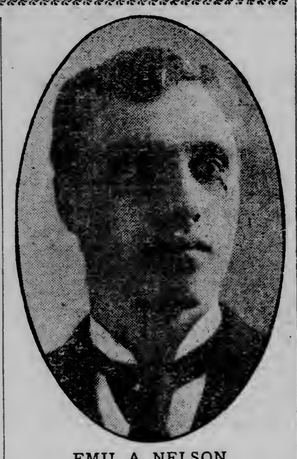
Fruit and Produce.

Three million dollars represents the annual business done by Duluth's wholesale fruit and produce dealers—a record unapproached by the like class of business men in any city in America. The trade is also increasing by "leaps and bounds" and will soon be doubled or tripled—It is especially worthy of note that Duluth was the first city in America to organize a produce and fruit exchange. Its example has been followed by practically all cities to the vast benefit of the trade and the incalculable good of milions of consumers.

The Iron Mining Industry

Duluth is today and has been for years the center of the greatest iron ore industry in the world—an industry the fame of which has spread around the entire globe. And yet it is nowhere near the climax of its development though it gives employment to tens of thousands of men and makes prosperous a dozen or more towns.

The output of the Mesaba and Vermillion ranges in St. Louis county alone of which Duluth is the center was last year the enormous aggregate of 25,585,257 tons. To bring this to shipping points of which Duluth is the largest requires thousands of ore cars, while a fleet of 105 great vessels bear it to the furnaces of the East.



With the advent of the $7,000,000 steel plant here much of this will be transformed into steel and its products in this city instead of being shipped away in its raw state and returned as finished material. Further, it is almost beyond question that the demands of the new plant added to the present calls from the East will result in increasing the annual output to at least 50,000,000 tons. This will mean a doubling of the number of men employed, and of trade and business and will make all of the range towns goodly cities.

One may speculate as one pleases as to the magnificent future of the iron and steel business of Duluth and the range towns and in the end it will be found that all speculation has fallen short of reality.

AUTOMOBILS AND ELECTRIC WORK

EDWARD J. FILIATRAULT.

EMIL A. NELSON.

IT is not necessary for Duluth people or those living in the towns in the vicinity of the Head of the Lakes to go to Chicago or the Twin Cities to find a first-class, up-to-date, garage and automobile agency.

Just as wide a choice of automobiles is offered in Duluth as is given in either the Twin Cities or Chicago, and the intending purchaser can find anything from a $500 runabout up to a $10,000 touring car at just as low prices as are offered in any of the larger western cities.

The person who travels farther afield looking for bargains in automobiles, simply spends that much additional money in railroad fare, and gains nothing by it.

Foremost among the automobile concerns in the city is the Mutual Electric company, which was organized in January, 1903, by Edward J. Filiatrault and Emil A. Nelson, to do a general electrical contracting business. The company opened up in business at 119 West First street, making a feature of the Rambler, Pope Toledo, Pope Waverly and Haynes automobiles.

Their business rapidly increased to such an extent, both in their electrical and automobile department that they were required to look for larger quarters.

Two years had proven to them that the quarters they had selected were entirely too small for their increased volume of business, but owing to the fact that it was impossible to obtain suitable quarters in January, 1906, they were compelled to remain in their old quarters until another year had passed, when in March, 1907, they obtained the building located at No. 112 West First street.

This new store and garage for the care of automobiles is 140 feet deep and contains two floors. The first floor is devoted entirely to the storing of automobiles, the second floor has the machine shop, fixture department and dynamo repair department. The entire building has been remodeled to suit their requirements and they have at the present time an electrical store and automobiles equal to some of the largest garages in Chicago and the Twin Cities. They carry, at all times, a complete stock of electrical and automobile supplies.

A force of automobile mechanics is employed in the automobile department and in the electrical construction and engineering department, only the best of electricians. A little inquiry into their methods of doing business will convince the most skeptical of the thoroughness of the work they do.

The majority of the largest residences in the city for the last three years have been electrically equipped by the Mutual Electric company. They also in connection with their large contracting business, make a specialty of private telephone installations. The old speaking tube system in private residences is a thing of the past, being superseded by the inter-communicating private telephone system.

Mr. Nelson was born in Duluth 34 years ago, and made a life study of the electrical business in its various branches.

Mr. Filiatrault was born in Faribault, Rice county, Minnesota, 30 years ago, having moved to Duluth in 1887, and has also made the electrical business a life study. Seven years ago in connection with his electrical study he took up the construction of automobiles and gas engines and later decided to go into the automobile business on a large scale in connection with the electrical work.

Barthe-Martin Co.

Groceries.

THIS CORPORATION of wholesale grocers occupies a prominent and unique position among Duluth's business houses, making a specialty of supplying goods direct to consumers in original packages and at wholesale prices. Since its establishment in 1904, the company has enjoyed a growing patronage in this city and throughout the territory tributary to the Head of the Lakes. Its location is at 102-104 West Michigan street, where it occupies a four-story building, 50x120 feet, adjacent to the railroad freight yards, which gives it excellent advantages for receiving and shipping goods. The Barthe-Martin company publishes a catalog which is distributed among housekeepers and consumers keeping them apprised of current prices on its immense stock of goods which comprises everything in the grocery line such as teas, coffees, spices, baking powder, flavoring extracts, dried and canned fruits, canned vegetables, canned fish, canned meats, condensed milk, jams, jellies and preserves, sugars, syrups, pickles, lard, dried and salt meats, flour, breakfast foods, crackers and bakery goods, soaps and many other articles classed as groceries besides numerous sundries, including brooms and brushes, stove and shoe blacking, matches, stock food, mixed paints, oils and varnishes and hundreds of other varieties of goods used in the home.

This company occupies much the same relation to the consumer that the jobbing house does to the small retal grocer and gives cash purchasers an opportunity to save much of the expense which is due to handling and retailing of goods and to small deliveries and collections. Orders amounting to $10 or more are delivered to customers in Duluth, while shipments are made by freight or express to out-of-town customers. The unique system of issuing profit-sharing certificates attracts many cash customers and large consumers who appreciate the advantage of purchasing goods in quantities and at wholesale rates.

The company's credit and responsibility are undisputed and the references offered to its prospective customers are first class. Its capitalization is $25,000 and its officers are: Arthur C. Barthe, president, and John L. Martin, secretary and treasurer.

M. S. Shore & Co.

Manufacturers of

Shirts, Pants, and Overalls.

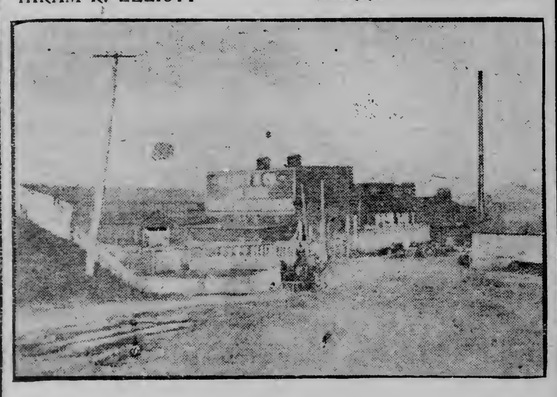
THE pioneers in the business of manufacturing shirts, pants and overalls at the Head of the Lakes, are M. S. Shore & Co.

This company was the first to enter the field in Duluth, and it has had a remarkable growth. The present factory is located at 27, 29 and 31 East Michigan street, where the company has a store building 75x140 feet in size. The company employs about fifty people, and all of the workmen are union laborers, no sweatshop labor being employed. The goods that are turned out are union made goods entirely, and they are all that the blue label guarantees them to be.

The business of manufacturing shirts and overalls is rapidly becoming an important industry in Duluth. A few years ago practically all of the trade in these staple articles was supplied by importations from outside cities. Owing to the large number of laboring men in Duluth and on the ranges, there is a wide market for such goods, but it was neglected until the M. S. Shore company entered the field. Since it was started the company has rapidly driven out the foreign goods, however, and it now has its fair share of the trade to which it is entitled. The goods turned out are union-made, Duluth made, and in price and quality fully the equal of any that can be purchased in Duluth. There is, therefore, no reason why the company should not prosper and receive the patronage of Duluth merchants, and every reason why it should. And it does, as the growth of business in the last two or three years shows.

The Pickands-Mather Mines

Among the Big Producers of the Mesaba Group—Shipping 2,707,244 Tons In 1906.



THIS GREAT iron mining company is one of the modest institutions which carries on an enormous business with the minimum of publicity and ostentation, one of the silent forces which accomplishes great and lasting results without courting the panegyrics or attention of the general public. Yet it is an organization most favorably known to those who realize the magnitude of its enterprise or who have come in contact with its manifold workings.

This company has been from the start a most potent factor in the mining operations on the Mesaba iron range, where it carries on a number of the largest and most conspicuous mines and employs an army of laborers. Among the mines which it owns are the Albany, Utica and Scranton at Hibbing; the Troy mine at Eveleth; the Minorca at Virginia; the Mal a mine at Sparta; the Bangor and Syracuse mines near Biwabik; the Mohawk at Aurora, and the Elba and Corsica mines at McKinley. The combined output of these mines in the year 1906 amounted to 2,707,244 tons. These properties are equipped with the most modern machinery and are conducted on the most systematic business principles, in fact they will compare with any of the mining properties in St. Louis county or elsewhere. The ramifications of the business extend to the shipping and marketing of its tremendous product as well as to extracting the ore from the earth and the organization is one of those best known among dealers in iron ore.

Pickands, Mather & Co. were among the very first organizations to realize the vast importance of the iron discoveries on the Minnesota ranges and were prominent pioneers in mine development in what has proved to be the most prolific field in the world. Having ample means with which to promote the enterprise, accompanied by the sagacity and experience of most capable men in connection with its management, this company was enabled to push the work of development and has been one of the most extensive shippers or ore for many years past Its enterprise has been conducted so quietly, however, that few people outside of those whom it employs or transacts business with, are aware of its importance in the business world or the extent of its operations. Those who are frequent or regular visitors to the range, however, and who have become familiar with the extent of the company's activities, know it as an aggressive institution and one to which great credit is due for the part it has taken in the remarkabe development of this great iron-bearing region.

The headquarters and main offices of Pickands, Mather & Co. are located at Cleveland, Ohio, one of the greatest concerns for transactions in iron ore. The Minnesota interests of the organization are under the general management of Mr. C. H. Munger, whose office is in Duluth. Mr. Munger is a gentleman of the highest business capacity, who acquired a fund of experience and information concerning the iron mining business during his connection with the Gogebic iron range, which extended over a period of years and he brought to the execution of his duties in his present responsible position all the qualifications for making the enterprise a success. His position is one which calls for the exercise of rare judgment and a peculiar executive ability displayed by few individuals.

Sketch of Patrick McDonnell, Contractor and Real Estate Owner

A Man of Wide Repute.

THERE is probably no citizen of Duluth, who is more widely known than Patrick McDonnell. His countenance is familiar to everyone in this city and, if there is anyone in the state of Minnesota who does not know him by sight, that is not true as regards his name and reputation, while his acquaintance extends far beyond the confines of this commonwealth. The contracting business in which he has been engaged for a score of years or such a matter has covered a wide range of territory extending from Chicago to the Rocky Mountains and his friends are numbered by legions in every community where his business has led him to make a temporary abode. His model physique and genial disposition are magnets which attract the fellowship of people wherever he may sojourn. The City of Duluth presents many evidences of Mr. McDonnell's handiwork as a contractor and many of its streets are monuments to the fidelity with which the trusts reposed in him have been uniformly executed. The brick paving which he laid in Superior street some years since has served as a model for the paving of a number of other cities, while the pavements which he has placed in other parts of this city are remarkable for their durability and the superior quality of the workmanship displayed in their construction.

Patrick McDonnell is a splendid specimen of the physical manhood which distinguishes the natives of County Mayo, Ireland, and embodies a number of the traits which are peculiar to the people of that part of the Emerald Isle. He was born in the little town of Westport in 1862, and, when but seven years of age, came with his parents to this country. The family settled on a farm near Reedsburg, Wis., where he acquired a common school education and developed the brawn and muscle which fitted him for the active career which he was destined to follow, at the same time cultivating the sterling integrity which is inherent in the natives of County Mayo. From boyhood he gave evidence of being a natural leader among his playmates and associates and it was entirely natural that one of his restive spirit should, upon reaching manhood, seek a wider field for the development of his activities than that of the rural community in which he had been reared. Like many of his countrymen, he seems to have had a peculiar aptitude for the construction of public works and soon turned his attention to that line of business.

PATRICK McDONNELL.

Successful Employer of Men.

Mr. McDonnell first came to Duluth in 1885, and one of his first occupations after his arrival was that of foreman on the construction of the Duluth & Iron Range railroad, where he demonstrated an ability for handling men and accomplishing an extraordinary amount of work in a given period of time which won the favorable attention of his employer. Mr. McDonnell is not only of an industrious disposition, but he combines this quality with an agility in execution which makes him at once an exemplar and a leader among men, in addition to which he possesses an intuitive knowledge and nicety of judgment which enables him to discern almost instantly the time and labor necessary for the accomplishment of any given piece of work. He permits no shirkers or "deadheads" to continue in his employ, and inspires by his own example an activity and enthusiasm which ensures the completion of his projects according to program. From the position of foreman he soon advanced to that of sub-contractor and some of the extensions to the Duluth & Iron Range railroad, and he afterwards filled contracts for construction work on the Canadian Pacific railway. These undertakings proving highly successful, he turned his attention after a time to taking contracts for street paving and other public works, in which his success has been quite phenomenal. He is known as one of the largest employers of labor in Duluth, and every man whom he hires is proud of his job and of his employer. Besides the numerous contracts which he has filled in this city, Mr. McDonnell has negotiated with many cities in this and adjacent states for putting in paving, sewers, waterworks and other public improvements, and his compacts have always been carried out with a faithfulness and promptitude which astonished and pleased the officials with whom he had to deal, and extended his enviable reputation far and wide.

Model Business Block.

A share of the profits derived from his extensive contracting business have been invested in Duluth real estate and buildings. Prominent among the latter is the McDonnell block on Superior street, one of the most substantial and ornamental structures in the heart of the business district. It was built under Mr. McDonnell's personal supervision and none but the best of material and workmanship was allowed to enter into its construction. The building is 25x115 feet and is 3-stories high on Superior street and 4-stories on Michigan street, and is an example to all future builders in point of durability and elegance. The front is of carved Lake Superior brownstone, while the floors are of tile and the wainscotings of marble, forming a strictly fireproof building. Mr. McDonnell's propensity for doing well whatever he undertakes is amply illustrated in this building as well as in his own home on East Third street, which at once supplies the requirements of culture and comfort.

One of Mr. McDonnell's early experiences was in connection with the Minnesota Iron company for which corporation he acted as messenger and confidential man for a time. The first mines of this company were opened at Tower before the completion of railroad connection between that place and Duluth and it was necessary to haul in most of the supplies for the camp by team. The monthly disbursements of the company sometimes amounted to $65,000 and it was necessary to send this large sum overland to the paymaster at Tower. Mr. McDonnell was the messenger selected for this important and dangerous trust which he filled with the utmost fidelity. He chose to go alone and on foot when discharging this important duty often traveling the entire distance of 75 miles without stopping to sleep until his precious load was safely delivered. While it was not generally known that he was filling this responsible duty, it is somewhat remarkable that he was never disturbed in the course of his long and arduous journeys through the wilderness.

Sergeant-at-Arms At St. Louis Convention.

Mr. McDonnell is an enthusiastic Democrat in political sentiment and, while he never seeks official position for himself, he is a powerful ally when enlisted in behalf of his friends, and his influence has more than once turned the scale of a local election. At the national Democratic convention in St. Louis in 1904, he served as assistant sergeant-at-arms and won many commendations for the thoughtful manner in which he provided for the comfort of the people from Minnesota, who attended that famous gathering.

A few years since Mr. McDonnell was sadly bereaved in the loss of his wife, a most estimable lady, whose demise occurred at Chippewa Falls, Wis. The only surviving member of his family, is a son, Joseph P. McDonnell, Jr., a precocious youth of 13 years, who is a student at the Brothers' college in Duluth, and gives evidence of having inherited his father's aptitude for leadership, being captain of a local football team and baseball club.

MASTER JOSEPH P. McDONNELL

Romantic Outing Resort

Though devoting his personal attention to his contracting business for the greater part of his time, Mr. McDonnell occasionally finds an opportunity to spend a few days in retirement at his farm on the Lester river, three miles above the park of that name. Here he is improving an ideal country estate of 200 acres, eighty acres of which is already under cultivation. This property lies on both sides of the river and affords the finest opportunities for trout fishing to be found anywhere. The natural scenic beauty of this location is unsurpassed by that of any of the famous country seats of Ireland or other European countries, and when Mr. McDonnell's plans for its artificial adornment have been completely carried out, it will stand unrivalled as a summer resort. In this Utopian retreat, Mr. McDonnell delights to entertain his friends when occasion permits him to throw off the cares of bufness; and happy are the devotees of the gun and rod who are fortunate enough to receive an invitation to visit this delightful spot and spend a few hours or days, as the case may be, amidst these rural surroundings and in close communication with the solitudes of nature. The tastes displayed by the owner in the selecton and improvement of these grounds never fail to elicit words of praise and admiration from the visitor at this charming resort which is taking on added attractions from year to year.

Dairy Products and Cold Storage

Pure and Vitalizing Dairy Products.

There is no line of business of such vital importance to the human family as that of pure dairy products, especially milk, cream and butter, and there is no food products that can be so easily contaminated with atmospheric impurities by improper handling or by storing in foul air, ill-ventilated cold storage vaults, while adulteration by the use of chemicals, or "lean" dairy products, so made by the water process. Duluth has one great wholesale and retail house, that of the Bridegman-Russell company, that has built up an immense business in dairy products, milk, cream, butter, cheese and eggs, on its guarantee that each and every sale made bears the "brand" of absolute purity, freshness and standard quality. The business of this company was incorporated in 1903, with a capital stock of $100,000, and has since grown to such proportions as to require $250,000 capital, and double the floor space, necessitating a new building of their own, which was built in 1905; size, 100x120, three stories, with basement, at Nos. 10, 12, 14 and 16 West First street, and equipped with the most modern machinery, such as aerotors, pasteurizers and sterilizers, making the whole establishment of the highest sanitary type. Bridgeman-Russell Co. have won a national reputation for their "Primus Brand" of butter, of which they manufactured over 1,000,000 pounds in 1906, while these figures will be increased to 1,500,000 this year. There is no dairy produce house in Chicago, St. Paul or Minneapolis that equals this house in size or equipment. The whole establishment is heated and operated by their own electric power plant. The milk and cream supply is shipped from their twelve branch creameries, besides from agents and independent shippers. The company is putting on a new article, "Velvet Brand," ice cream, which is frozen by the brine system and then stored in vaults having a temperature of 10 to 12 degs. The sale of the "Velvet Brand" should extend all over the territory tributary to Duluth's jobbing trade, as it is absolutely pure, rich and vitalizing in strength. The big feature of the business is the butter, eggs and cheese, the extent of which can be easily guessed when we state that the storage capacity of their vaults is 250,000 pounds of butter, 5,000 cases of eggs and 2,000 cheese. You that have weak stomachs that need encouraging as to appetite, should make a trip to this model dairy produce establishment, as it will convince you that it is as clean as the driven snow, and as sweet as new mown hay. The officers of the Bridgeman-Russel Co. are: Henry Bridgeman, president; Newell F. Russell, vice president and treasurer, and Mark Baldwin, secretary.

Deetz & Company

Metal Workers.

AN ENERGETIC and aggressive firm doing business at 309-311 East Superior street is that of Deetz & Co., manufacturers of sheet metal work, who fill orders for a great variety of work in their line. The factory is 50x75 feet and the office 16x65 feet, while the grounds owned by the firm, being 50x140 feet, afford room for future expansion of the buildings as demands may warrant. The enterprise has been a progressive one from its start in 1896 and now employs a force amounting to thirty-five men during the busy season, while the greater part of that number are kept busy all the year around. The firm has filled many contracts in this city, participating in the construction of a number of the most conspicuous business blocks and also makes extensive repairs in the way of roofing, smokestacks and other work. Besides its local contracts, the company fills large orders for work in the range towns and at more distant places, the annual business transacted reaching $60,000.

Mr. A. W. Deetz, the senior member and manager of the firm, is a native of Germany and has been a citizen of Duluth since 1890. During this inetrval, he has acquired a wide acquaintance among business men and has attracted a host of personal friends as well. His son, E. W. Deetz, the junior partner and office man, is an up-to-date business man, who takes great pride in the upbuilding of Duluth's manufacturing industries.

Logger of Note.

All of his life John McAlpine has been a logger.

At the present time he is one of the largest operators in Northern Minnesota, having numerous camps scattered through St. Louis, Lake and Cook counties. He has reached that position through absolute concentration on the business of lumbering. He has not dabbled in other lines of business, but has devoted all of his energies to lumbering and logging.

Mr. McAlpine was formerly one of the old band of Eau Claire lumbermen. The little Wisconsin city is not a very widely known business center, but it has probably harbored more big operators in timber than any city of ten times its size in the country.

Thirteen years ago Mr. McAlpine came to Duluth, and since that time he has made this city the headquarters for his extensive operations in St. Louis, Lake and Cook counties. Of late years he has branched out somewhat, and has added to his holdings large tracts of sugar pine in California.

Mr. McAlpine is a business man of the type that the lumber industry produces—big, broad-minded, shrewd and energetic.

Duluth Crockery Company.

The wholesale business conducted in Duluth reaches into many diverse lines and embraces thousands of articles used in the homes of the Northwest, as well as goods which are required in carrying on different lines of business in this city, besides the broad realm through which its commerce radiates. One of these expanding jobbing houses, located at Sixth avenue west and Railroad street, is the Duluth Crockery company, which imports and distributes a very extensive stock of goods, combined under the head of crockery, all kinds of glassware and lamps of every variety and design; each of these departments would constitute an important establishment in itself. The firm has extensive salesrooms for the attractive display of its goods and ample warehouses for storing the bulk of the stock. The house is very advantageously situated for receiving and shipping goods. The officers of the company are: F. C. Talboys, president; W. G. Bonham, vice president, and L. J. Trempe, secretary.

Duluth Trunk Company.

The only industry of its kind at the Head of the Lakes is that of the Duluth Trunk company, which was established nineteen years ago, and carries on the manufacture and sale of trunks, traveling bags and sample cases at 220 West Superior street, where every article included in this line of goods can be obtained ready for use or where orders for special articles are manufactured with accuracy and despatch Joseph Chrudinsky is the proprietor, and is a gentleman of ample experience and knowledge in every feature of the business which he conducts. This is one of many manufacturing industries which help to build up the commercial importance of Duluth and cement together its diverse elements of production and population into one united and harmonious whole. All these elements make for the evolution of the greater Duluth which all of its citizens are striving to contribute.

Barnett & Record Company.

THIS is one of the largest contracting companies in its line, in the United States and, for many years past, it has made a specialty of the construction of large buildings. It has erected a number of the principal grain elevators and docks on the Duluth-Superior harbor, its latest achievement being the construction of the mammoth Peavey Terminal elevator in this city, which replaces the elevator burned about a year ago. The new structure is strictly fire proof, being built entirely of tile and concrete, and is the largest grain elevator in the world, its capacity being 7,500,000 bushels. It is one of the most modern buildings ever constructed here or elsewhere and represents the climax of the Barnett & Record company's experience in the building of elevators and other enormous structures. Fully 1,000 grain elevators have been built by this company in different places, thirty or more of which had a capacity of over 100,000 bushels while a number of them would hold 1,000,000 bushels or more each. One of the most conspicuous of the company's previous contracts was the building of Canadian Northern grain elevators at Port Arthur, which was the largest elevator in the world at that time. Among other large elevators erected by this company may be mentioned the Superior Terminal and Belt Line elevators at Superior, the combined capacity of which is 5,000,000 bushels. Other notable structures on this harbor built by the Barnett & Record company include the Duluth, Missabe & Northern ore docks, Nos. 2, 3 and 4, and the M. A. Hanna company's gigantic new coal dock and the 1,200 foot extension to the Boston Coal Dock & Wharf company's plant. This company also built the ore docks Nos. 1 2, 3 and 5 at Two Harbors and has erected many notable buildings in other parts of the country, among which are the mammoth Mines and Mining building at the World's Columbian exposition in Chicago, the famous Eastman and Park hotels at Hot Springs, and the extensive stock yards and packing houses at the Twin Cities.

The resources of the Barnett & Record company for executing large contracts are almost unlimited, and it employs a small army of men in various trades and professions connected with its business. Officials of the company are as follows: L. C. Barnett, president; R. C. Hanna, secretary, and F. R. McQueen, treasurer and manager. The manager of the company's interest at the Head of the Lakes is J. E. Meyer.

Northern Dredge Company.

THE maintainance of the great harbors on Lake Superior requires an endless amount of work not the least of which is that of doing the dredging necessary to keep clear the various channels and slips and ensure a proper depth of water at all times to float the gigantic freighters which are required to fill the demands of modern commerce on the Great Lakes. Millions of dollars have been spent in the Duluth-Superior and other harbors in dredging out the channels, but as there is a constant natural tendency for these passages to fill up, the process of keeping them cleared is an almost perpetual one. The demands of this business supports a number of dredging enterprises and gives employment to thousands of men.

One of the prominent corporations engaged in improvement work in these harbors is the Northern Dredge company, which has filled a number of large contracts and maintains a fleet of dredges constituting a complete outfit of the most modern type for the systematic and expeditious disposition of this class of work. The office of the company is in the Providence building, and its officers are: Lucian Merritt, president; H. Merritt, secretary, and A. L. Merritt, treasurer. P. C. Hart is superintendent and a well qualified corps of engineers, dredge operators and other assistants completes the force of the enterprise.

The Marine Iron Company.

A PORT like Duluth at which thousands of vessels are arriving and departing every year and which is contiguous to many mines, saw mills, and other factories has many demands upon its resources for the prompt providing of material, equipment and repairs of the numerous varieties used in the conduct of these different enterprises and this is especially true as regards the machinery required in the operation of establishments in which delays of even a few days or hours entails an enforced idleness for many men and heavy financial losses to the parties whose capital is invested.

A company which is prepared to meet almost any demand arising from breakage, accident or casualty to machinery and equipment, is the Marine Iron company, whose works are located at the foot of Twelfth avenue west, where it has spacious docks, readily reached by either rail or water. The company conducts a general manufacturing and repair establishment and is prepared to furnish anything in the line of repair work for steamboats, lake freighters, mines, factories and saw mills. It makes heavy forgings and castings in iron as well as brass work and other metals, and executes orders for repairs or new equipments without unnecessary delay.

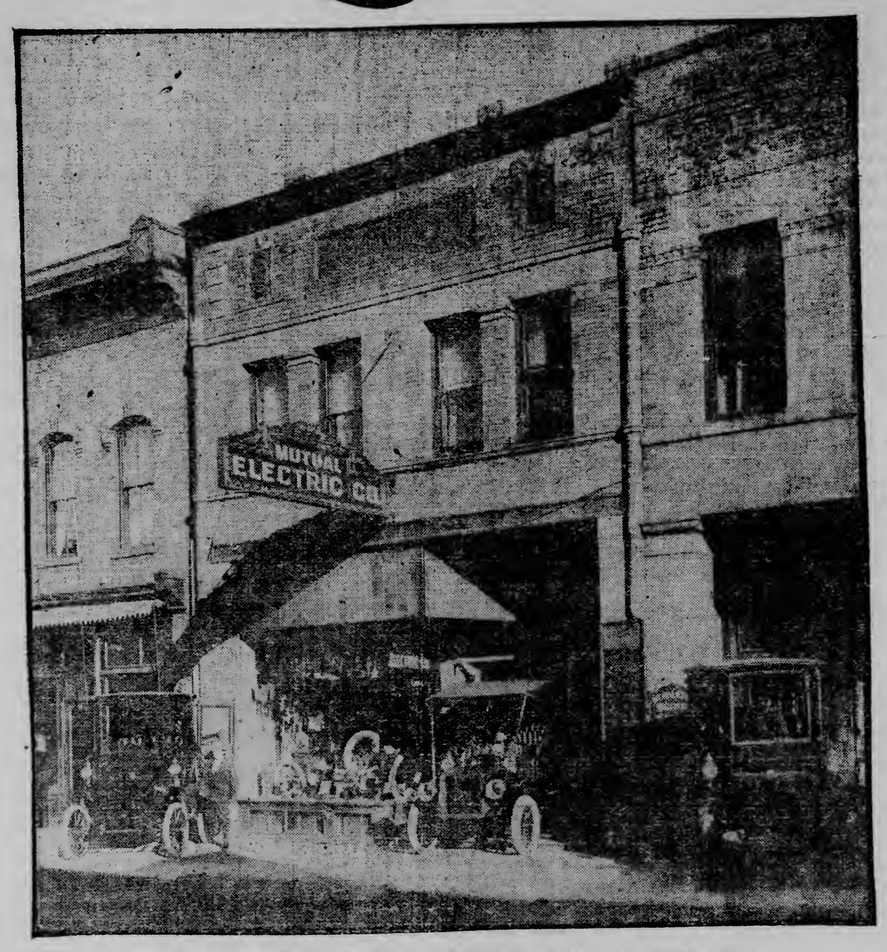
The company was incorporated in 1902, with a capital of $50,000. It employs twenty-five men, most of whom are required to be skilled artisans owing to the great variety of work called for from time to time, which demands the services of workmen in many different trades. The amount of business done annually reaches $75,000, and the industry is growing in importance from year to year. The president of the corporation is Peter Grignon, William J. McFadden is vice president, and G. A. Rosenow, secretary and treasurer.

THE RAMBLER

Model No. 21

Body—Detachable tonneau.
Passengers—Five.
Wheel Base—100 inches.
Frame—Pressed Steel.
Springs—Front, semi-elliptic; rear, full elliptic with scroll ends and double shackles.
Wheels—30 inches.
Tires — Hartford-Dunlop, options G. & J. or Goodrich.
Tire Sizes—4 inches.
Motor—Double opposed.
Power—20-22 horse power.
Gasoline capacity—12 gallons.
Cooling—Water, thermosyphon system.
Ignition—Jump spark.
Battery—Six volt, sixty ampere storage.
Transmission— Planetary, two forward speeds and reverse.
Clutch—Multiple disc.
Final Drive—Single chain.
Equipment — Gas headlights with separate generator, oil side and tail lights, pump, wrenches and tire kit.
Price—$1,350.

Model 24, 30 h. p., - - $2000



108-in. wheel base, complete with top, lamps, tools, etc.

THE RAMBLER

Model No. 27

Passengers—Two.
Wheel Base—90 inches.
Frame—Pressed Steel.
Springs—Front, semi-elliptic; rear, full elliptic with scroll ends and double shackles.
Wheels—30 inches.
Tires — Hartford-Dunlop, options G. & J. or Goodrich.
Tire Sizes—3½ inches.
Motor—Double opposed.
Power—14-16 horse power.
Gasoline capacity—9 gallons.
Cooling—Water, thermosyphon system.
Ignition—Jump spark.
Transmission— Planetary, two forward speeds and reverse.
Clutch—Multiple disc.
Final Drive—Single chain.
Equipment—Oil side lights, pump, wrenches, tire kit and dry batteries.
Price—$950—with gas headlights with separate generator and storage battery, $1,000.

Model 25, 40 h. p., - - $2500

Equal to any $4000 car and always reliable. Ask an owner.

You can take a Rambler just as it comes from the factory and drive on a thousand mile tour without the usual fears, which attach to new machinery.

Bear in mind Ramblers are not shipped by the Thomas B. Jeffery Company until they are ready for actual and arduous service. If there is any toning down to do the factory prefers to do it before we turn them over to our customers.

You cannot help but appreciate the charms of its luxurious features and realize fully why the Rambler Cars are so popular with the best classes of people in Duluth and elsewhere.

1906 BREAKS ALL PAST BUILDING RECORDS IN DULUTH, BEING 66 PER CENT INCREASE.

A SATISFACTORY SEASON.

THE accompanying table shown on this page tells a story which calls for little comment. It proves that more and better buildings were erected in Duluth during 1906 than in any previous year and indicates so plainly the uniform prosperity which prevails at the Head of the Lakes that there is not much to be added by way of reinforcement to the statements made therein. There was not only a remarkable increase over the previous year in the amount of money expended in buildings, but the statistics point to a vigorous demand for higher class structures. This was especially true as regards the building of homes, for which the great majority of the permits were issued, an interesting fact to every one who appreciates civic ornamentation and the beautifying of the residence districts. There has been a pronounced tendency for better, more sensible and more substantial houses and this does not apply alone to the mansions of the wealthy class of citizens, but is quite as noticeable, in degree, concerning the homes erected by laborers, mechanics and men of moderate means in general. There is a pleasing contrast between the homes built a decade or more since and those constructed in the last year or two as to stability as well as architectural symmetry. There is a great variety in the prevailing styles of architecture showing a diversity of tastes among architects and owners of buildings, many of the ideas being patterned after those which were in vogue at different periods among the ancients, but the old colonial style seems to be quite popular with its wide verandas, balconies, porte-cocheres and terraces, one or more of which features are noticeable in nearly every new residence. The Japanese and old mission styles are also drawn upon to some extent, while new features are frequently introduced, which add to the ornamentation or comfort of the modern home. The innovations made in recent years regarding the interior appointments of houses are quite as marked as those which concern the outward appearance, a commendable feature being the hardwood floors and stucco wall finish, which permit the abolition of the unsanitary carpets and draperies of former times.

BETTER CLASS OF BUILDINGS.

Not only is there a marked improvement of the character of the buildings recently erected, but there is a renewed pride and interest displayed regarding the ornamentation of grounds, streets and the entire surroundings of the homes of the people. Landscape gardening is an art which is being cultivated and encouraged, while cleanliness and the improvement of hygienic conditions are receiving more attention than ever before. Standards of living are seeking higher planes among all classes of people, betokening a general dissemination of culture and intelligence in addition to material prosperity.

The buildings constructed for commercial and business purposes in the last year have been of a substantial and durable type and afford striking evidences of the thrift and expansion which are everywhere apparent. Ornate structures of steel, pressed brick and cut stone from six to ten stories in height have been the rule for several years in the business portion of the city, and no city outranks us in the architectural beauty and substantial character of its wholesale and resident retail districts. The good work done by the building inspector's department is noticeable everywhere and the safety, comfort and durability of the new buildings have been carefully considered. Owners are becoming more than ever anxious to strengthen and protect from fire the buildings which they contemplate or have in course of construction. Another source of congratulation is the disappearance of some of the old, ramshackle, unsanitary buildings and their replacement by modern structures of imposing appearance and commercial import. Though Duluth never had a large number of the former class in the business district or elsewhere, it is gratifying to note this tendency toward general advancement and the cultivation of municipal pride.

BUILDINGS EQUAL TO FOUR AND A HALF MILES OF NEW STREET.

There were 968 building permits issued during the year 1906, and their estimated value as shown by the records in the office of the building inspector, was $2,761,322.92. This did not include the powerhouse of the Great Northern Power company, which is just beyond the city limits and properly belongs among the list of the city's improvements, as all the material and most of the labor for its construction was drawn from this city. Had this been included, the estimated cost of buildings would have been increased by $150,000. It is a well-known fact that the ultimate cost of buildings exceeds the original estimate by at least 20 per cent on an average.

By taking these circumstances into consideration, it will be readily seen that there was at least $3,500,000 spent upon buildings last season. The number of permits issued in 1906 showed an increase over the previous year of 18 per cent, while the average estimated cost of the buildings was 40 per cent greater than in 1905, but the total estimated cost shows an increase for last year of 66 per cent. Lots in most of the residence districts have a street frontage of 50 feet, allowing that distance for each of the 968 buildings for which permits were taken in 1906, the improvements made were equivalent to building up one continuous street on both sides for more than four and one-half miles.

Satisfactory as was the building record for last year, there is every reason to believe that it will be exceeded when the statistics for 1907 are compiled. There are more than ordinary reasons or mere conjecture for this supposition; new work is crowding the boards of every architect in the city, an almost certain indication of a pushing, prosperous year, while every contractor already has more work engaged than ever before at this time of the season. Among the conspicuous public buildings to be erected this year may be cited: the new coal docks of the Duluth, Missabe & Northern railroad; the freight house of the Great Northern railway; the passenger station of the Wisconsin Central railroad; the new building of the Y. W. C. A.

ST. LOUIS COUNTY MILLION DOLLAR COURTHOUSE

This building occupies a ground space of 148 by 224 feet, corner of First street and Fourth avenue west. A five-story and basement structure, built of granite, sandstone and marble, modern in all respects, of classic style of architecture with bold, noble outlines, making a very attractive building, fully up to the expectations of St. Louis county, and the pride of Duluth in the building line. The cost of the building, with furniture and the landscaping of the grounds, figures up to one million dollars. The plans for this superb building were drawn by Architect John J. Wangenstein, who has done much for the beautification of Duluth from an architectual standpoint. There is no county courthouse in the state that excels that of St. Louis.

DULUTH'S WONDERFUL INDUSTRIAL GROWTH — ADVANCES REAL ESTATE VALUES —

A Wave of Prosperity.

THE matchless opportunities offered to investors in Duluth real estate at the present time are realized by everyone who gives the subject a little consideration. The demand for building sites has been increasing simultaneously with the remarkable growth of population for several years past but, occurrences of great significance have recently taken place, which establish the fact beyond any question or doubt that the call for real estate property throughout this city and its suburbs will far transcend anything which has taken place in the past. It is not anticipated by those who are best informed that there will be an era of reckless speculation, such as characterized the early "boom" days of this and many other cities, when purchases were almost invariably made with a view to selling again in a short time at inflated prices, but the purchases made in the future, like those of the present day, will be made for the most part, with a view to improving the property and deriving an income from its use either by the owner or tenants, for whose accommodation there is already a demand far in excess of the supply. This applies alike to business places, offices and residence property.

The Population Will Double.

Next to the discovery and development of the iron deposits on the Mesaba range, the most portentous events in the history of Duluth are the development of the water power of the St. Louis river, at a cost of over $5,000,000 by the Great Northern Power company. This corporation is already generating 30,000 electrical horse-power for the purpose of driving the wheels of commerce, and will increase it to 200,000 horse-power at once. As the most advantageous terms are offered to manufacturers desiring to make use of this stupendous force, and as this location affords unparalleled facilities, on the one hand, for receiving raw material and, on the other hand, for distributing finished products to the great and growing markets of the West and Northwest, as well as many other advantages, it is not surprising that there is now a vigorous and growing inquiry for factory sites which will be steadily increasing as the knowledge of these circumstances becomes more generally disseminated among manufacturers who are contemplating the removal of their plants or the establishment of new ones.

A $7,000,000 Steel Plant.

One of the big plums that has fallen into the lap of Duluth is the United States Steel corporation announcement to establish, at once, a $7,000,000 steel plant, that will give employment to over 5,000 high-priced, skilled wage earners year in and year out, which means an increase to our population of 10,000 in another twelve months. This will mean another big boost in real estate values and the extending of the residence district to the crowning hill tops and back over the plateau. This would indicate that Duluth's tide of industrial growth, had not yet started, as the United States Steel corporation will doubtless add other plants and make this the Pittsburg industrial center of the North and West. Considering all these conditions, it is inevitable that the present population of 80,000 will be expanded to at least double that number within the next five years. Every branch of business will feel the stimulus of this growth in industry and population and real estate values cannot fail to be very perceptibly stiffened by these influences.

Four New Railroads.

Another circumstance which is bound to be of great advantage to the growth of this city is the numerous accessions which are being made to its transportation facilities. At least four new lines of railroad will be running trains into this city within the next few months, greatly augmenting the number of passengers brought to the city as well as supplying an immense expansion of the means for receiving and shipping freights. The Wisconsin Central will be the shortest railroad route from the Head of the Lakes to Milwaukee, Chicago and many connecting points. Its roadbed is being especially prepared for the transportation of heavy freights and it will become a great ore-carrying route, affording an outlet at all seasons of the year for the products of our iron mines, much of which will be taken by this route to the mammoth steel plant now in course of construction at Gary, Ind. The new line of the "Soo" railroad, which is being built from Duluth toward the southwest will connect with several other lines of that system and bring millions of bushels of grain to our elevators from localities whose products formery found a market elsewhere; in addition, much other produce will be brought to this market and an outlet furnished for vast quantities of the coal, manufactures and other freight distributed from this point. The Duluth, Virginia & Winnipeg railroad extends through a territory of great scope and expansive resources which are, for the most part, still undeveloped but the region is being rapidly occupied by settlers and new towns are springing up, which will provide an ever growing business in passengers and way freight, all of which is tributary to this city. This road will also afford a direct connection at International Falls with the Canadian Northern, thereby opening a short line between Duluth and Winnipeg and bringing to this city immense quantities of the grain and other produce of the boundless Canadian Northwest. The Minnesota & International railway will also complete its connection this year between Bemidji and International Falls and will begin pouring into this city by way of the Great Northern railway, an endless volume of commerce from a region which has only needed this opportunity to begin an era of development, which will be marvelous in its intensity.

Multiplying Demands.

The factories and jobbing houses of this city, together with its grain and copper markets, are bringing hither a steady procession of business men from points within a radius of several hundred miles, while the churches, schools and social advantages are a perpetual attraction and the parks, outing grounds and health resorts bring multitudes from all parts of the world during the summer season, besides which this is a Mecca for thousands of hunters and fishermen at certain seasons. Official figures show that there is an average daily arrival of 4,000 transient passengers in this city, and this number will be doubled upon the completion of the steel plant and these four new railroads, to say nothing of several other projected lines of railroad which are likely to be built within the next few years. The money spent by these transient visitors will average, at a conservative estimate, five dollars each or $20,000 per day, which tells one phase of the story of Duluth's progress and the accommodation of these guests demands constant additions to the hotels of the city.

The conditions cited above are only a part of the influences which are creating unwonted demands for building sites in every part of the city. The vacant buildings which are so often seen in many other cities are an unknown quantity here. With the expansion of business, the calls for "inside" property are ever on the increase and lots in the business district which could have been purchased in early days for a pair of boots, now command from $10,000 to $15,000 per foot of frontage and the investor of the present day is far more sure of lucrative returns for his outlay than would have been the purchaser upon the former basis of values, while the areas devoted to business are being steadily extended in nearly all directions.

Suburban Attractions.

It is doubtful if any city of its size can boast of as many attractive residence suburbs as are comprised in the environs of Duluth. The many lines of trolley and steam railroad bring even the most remote portions of the community into quick communications with the main part of the city and people whose homes are a number of miles from their places of business realize no inconvenience from that fact. On the contrary, the advantages arising from ample grounds, fresh, pure air, and the absence of dust and noise are coming to be more appreciated with each passing year. The prices of suburban property are still quite moderate as compared with those which prevail in other cities and the opportunities for investment in property of this character are unsurpassed anywhere. There is no other class of investment in which capital is as safe as in real estate, and no mistake can be made by the purchase of property in any part of this city at prevailing prices. In fact, it may be safely predicted that every dollar judiciously expended in this way during the next year will grow into five in a short time, while if the property is improved by buildings, a steady income may be derived during the interval. People already resident in this city have no occasion to look elsewhere for advantageous investments, while many parties who are located in places offering less advantages have been investing their surplus incomes or capital in Duluth real estate for years and the number of these investors is bound to be greatly increased during the coming year.

ESTABLISHED 1881.

STRYKER, MANLEY & BUCK

REAL ESTATE. FIRST MORTGAGE LOANS.

MUNICIPAL AND INDUSTRIAL BONDS.

There is no safer or better investment than well selected, improved real estate, or first mortgage loans on such real estate.

REAL ESTATE.

Duluth offers unusual advantages for such investments. Property is very low in price as compared with other cities of its size and with the establishment of new manufacturing industries, which the completing of the St. Louis River Water Power must inevitably bring; with the establishment of the steel industry as proposed and settled upon by the United States Steel corporation; with the large dry dock and ship yards already arranged for, increase in real estate values is sure.

We give personal attention to the real estate business in all its branches —renting, repairing, paying taxes, assessments, etc., manging property of non-residents with same care we do our own and keeping them posted as to values.

FIRST MORTGAGE LOANS.

We offer unquestioned security in first mortgage loans on improved city property. We see that titles are perfect, taxes paid, insurance kept in force and collect and remit principal and interest without expense to the loaner.

CORRESPONDENCE.

We invite investors to correspond with us, asking for such information as they may desire relative to any class of Duluth investments, either in the way of loans or in real estate, in which great bargains are to be had at this time.

We do a general Real Estate and Loan business, act as agents in purchase and care of properties and collection of rents. Special attention given to business for non-residents.

LOANS made on improved city property netting investor 5 to 6 per cent. No loan made without a careful personal inspection of property securing same.

The establishment of a Steel plant at Duluth by the United States Steel corporation is now assured. This means an initial outlay of over $6,000,000. The development of the water power of the St. Louis river is accomplished, and the future of Duluth as a great manufacturing center is now a certainty. A $2,000,000 ship yard and dry dock is also assured. Other industries will follow in rapid succession. This means a tremendous increase in population and development in every line. Now is the time to invest in Real Estate in Duluth. For information address

DEFECTIVE PAGE

T. W. WAHL HAS VALUABLE OPINIONS ON DULUTH'S WONDERFUL FUTURE.

T. W. WAHL, REAL ESTATE.

In the latter part of November, 1906. T. W. Wahl, in an interview, made the following remarks. At that time, there were many who disagreed with his predictions as to the wonderful future in store for Duluth, based, even then, on amply stable grounds to warrant even more optimistic prophecies. Mr. Wahl said:

(Clipping from News Tribune Special of Nov. 29.)

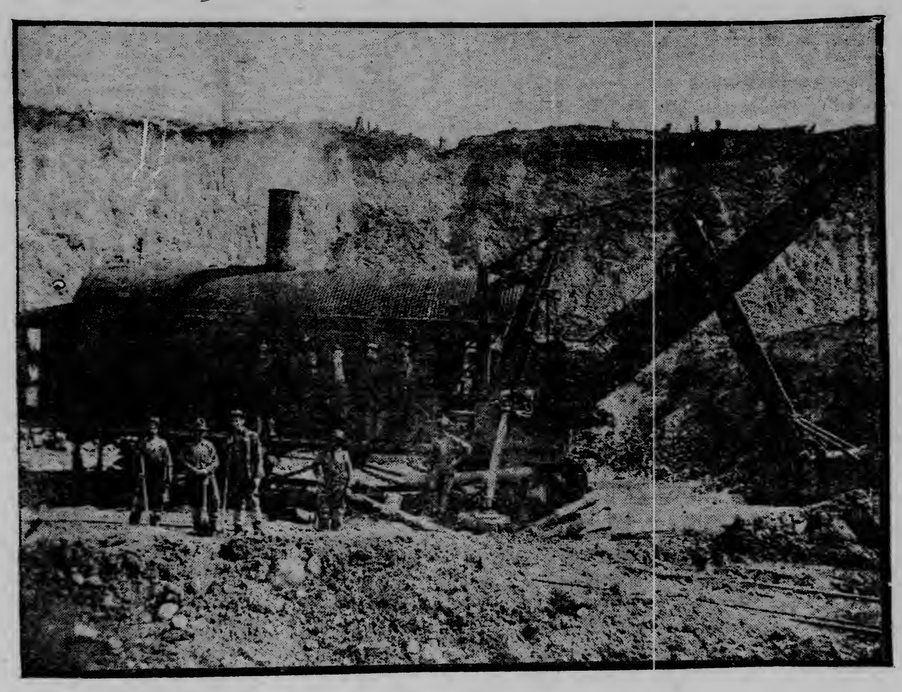
"One of the most neglected investments on earth has been Duluth real estate, and in the near future a great many others will agree with me. It will be only a few years when you will find on every street corner, gazing upwards at a skyscraper, self-condemned kickers, who will say 'I could have bought this and I could have bought that—but didn't.'

"People have seen Duluth real estate slandered, foreclosed and friendless, seen it sell right along at prices which would be low in country towns, while the city was annually adding thousands to its population

"This, however, is now at an end, and today you can hear expressions on every side about the solidity of Duluth, about its future greatness, what a wonderful city we are going to see at the Head of the Lakes and how valuable real estate is bound to be. This is bound to come with the development of the water power, with the new railroads that are now a certainty and the manufacturing and wholesale business growing as it is with the general development of the country surrounding Duluth; but how many are actually buying good real estate, the finest investment on earth, when bought in a growing city like Duluth that in a few years will surprise the most sanguine and optimistic of us all?

"Investors of today will not have to wait long before handsome profits can be taken. But centrally located property bought today wants to be laid aside for the buyer's old age and then his heirs. Looking backward only a period of twenty years we see an advance in values of central business property from $350 a lot to $30,000, from $10,000 a lot to $100,000, from $500 to $25,000, and there is no telling how much more valuable this property is going to be in the next twenty years, there being no question about its increasing in value every year.

"Shrewd outside buyers, men who travel and get around the country, have been quietly picking up some of our choicest centrally located property; for example, a Chicago man a comparatively short time ago sold $80,000 of his First National bank of Chicago stock and invested the proceeds in Duluth real estate. When asked why he did this he said Duluth property was just as safe and would bring much larger returns. This man has made a decided success in the business world, he knows what he is doing, and there are people owning stocks which will not rank with First National bank of Chicago stock, would be far better off in the future with the proceeds invested in good central Duluth property."



In a recent interview he said:

"Had more people been willing to investigate the grounds at that time, the number who are congratulating themselves today on their purchases of Duluth realty would be vastly greater. Now even the brilliancy of Duluth's future as seen at that time is dimmed in the light of the enormous new industries that are to be hers. In addition to the 200,000-horse power plant of the Great Northern Power company the $5,000,000 being spent by the Wisconsin Central Railroad company at the Head of the Lakes, the $1,000,000 courthouse, the certainty of other railroads building into the city, the enlargement of the wholesale houses in the almost vain attempt to meet the rapidly increasing demands upon their capacity, she now has the surety of a dry dock to cost $2,000,000 and a steel plant, the initial cost of which will exceed $7,000,000. Great as these industries will, in themselves, prove, they are merely forerunners of far greater development along the same lines. Who can predict the end of the rapid growth sure to follow in the wake of these enterprises and the kindred industries certain to be attracted by them? Plainly, none can limit it. But shrewd business men can, and will, prepare for the harvest to be reaped from the advanced prices to be brought by good realty bought here today."

A GREAT TERRITORY!

TO THE PUBLIC:—

I feel confident that Duluth is bound to grow rapidly as it is so situated that it will naturally be the center of manufacturing, wholesaling and shipping for a great territory. This will enhance the value of its real estate and conservative investments should pay well. It will be my aim to furnish my customers with such investments and to look after same, if desired.

Fire Insurance written in very strong companies.

NO BETTER INVESTMENT THAN BUTTE-BALLAKLAVA COPPER STOCK.

THE Butte-Ballaklava Copper Company of Butte has but recently opened offices in Duluth at 502 Palladio building.

The men behind the company are all local men living in either Duluth, Superior or Hibbing. They need no introduction to Duluth people, and their backing should be sufficient recommendation to investors. The Duluth men interested in the promotion of the company are: Thomas Merritt, John Panton, I. Freimuth and H. W. Fisher. R. B. Dear of Superior is also interested, and the Hibbing men are P. H. Nelson, Gus Carlson, L. G. Sicard and W. J. Power.

The company is capitalized at 100,000 shares of a par value of $10 a share. The stock is being offered for subscription at $5 a share, fully paid and non-assessable. A cash payment of $2 a share is required, and the remainder is payable in three payments on June 1, July 1 and August 1.

The Butte-Ballaklava company has six acres of ground in the "Meaderville district." The same hill, a little farther west, is known as the Anaconda hill, and adjoining the Burke and Ballaklava claims of the company are the following mines, which require no word of praise: "Old Joe" and Mountain Chief of the North Butte and Amalgamated Copper companies; Leonard and Hattie Harvey of the Amalgamated and the Modoc, Modoc Extension, Colusa, Michael Devitt, and the famous Minnie Healey mines of the Amalgamated. The first group is on the north of the Burke and Ballaklava claims. The second group is on the east and the third group is on the south. On the west are several of the mines of the North Butte Copper company. The Burke and Ballaklava claims are therefore situated in the very center of the greatest group of copper producing mines in the world. Had it not been for the fact that they were tied up in litigation, they would have been sold long ago, but their ownership was not finally settled until October of last year.

TABLE OF ORE SHIPMENT

THE table of shipments from the Lake Superior mines, published in another part of this paper, is taken from the Iron Trade Review

Through an oversight it was not credited to that paper. The table is compiled every year by the Iron Trade Review and is a most complete and accurate statement of the shipments of the mines in the Lake Superior district.

Elliott & Company

Packing House—Dressed Meats and Live Stock.

DULUTH can boast of a modern and up-to-date packing plant. The Elliott & Co.'s packing plant was established in Duluth in 1899, beginning in a very modest way. Since that time it has grown steadily and rapidly, until it now covers about three acres of ground.

The company has reached out into all of the country surrounding Duluth for its trade, and its territory now includes all of the range towns, the towns along the Great Northern as far as Grand Rapids, the towns along the Northern Pacific as far as Hinckley, and the country tapped by the South Shore road as far east as Ashland and Bayfield.

It also ships its products to the settlements along the north shore of Lake Superior. Within this territory it competes successfully with the large packing houses of Chicago, Omaha and Kansas City, which have their branches in Duluth.

The company has its own smoke house and an ice house with a capacity of 3,000 tons. It deals in dressed meats, lard and other provisions and all kinds of live stock, making hams and bacon a specialty. The concern is in a most prosperous condition at the present time, having become firmly established in Duluth and the surrounding territory, and it is rapidly reaching out for new business.

R. Smith & Co.

Grain, Hay, and Feed.

OUT at Carlton, Minn., is located the feed mills and grain elevators, owned and operated by R. Smith & Co., whose Duluth offices are located at 318 West Superior street.

The company has a modern, well equipped mill with a grinding capacity of seventy-five tons per day. It turns out feed, rye flour, corn meal, and other coarse meals.

The company also handles grain, hay and mill stuffs.

During the year 1906, the company shipped a total of more than 1,000 cars. To handle this business it has five large warehouses in addition to the mill and an elevator at Carlton.

The elevator has a capacity of 30,000 bushels, and it is also used for storing grain in additon to that required by the company for its own purposes.

The company provides a ready market to the farmers in the vicinity for their grain, hay and farm produce, and it is enjoying its full measure of prosperity. It is one of the most important industries of the little village of Carlton.

The Radford Co.

Sash, Doorsand Blinds.

THIS is one of Duluth's big growing wholesale manufacturers and distributers of doors, windows, blinds, mouldings and all kinds of mill work, besides making a specialty of plate and window glass, and hardwood flooring. The business was established on Sept. 11, 1905, and proved a winner from the first. The sales for 1906 footed up to $250,000, spreading over all the territory north and west, tributary to Duluth, west to Idaho, north to Winnipeg and south to Nebraska. The office's shipping department and warehouses, size 100x100 feet, located at Nos. 110, 112, 114 East Michigan street, in the very heart of the wholesale center, as also another warehouse, size 96x120 feet, four stories and basement on Garfield avenue. Both of its warehouses are located on the Northern Pacific and terminal lines of railroads offering the best of shipping facilities. One of the leading specialties of this house is the "Radford front doors," which are known to the trade as the most perfect on the market. The manager and treasurer of The Radford company is W. J. Wright, who has pushed the business to the front by quoting right prices, selling standard grades, with no delay in filling orders. A trial order sent to The Radford company, Duluth, Minn., will make you a life customer of the company.

J. W. HILLIARD,

Contractor.

ONE of Duluth's best known contractors is J. W. Hilliard, who has to his credit, many of the most attractive and substantial office buildings that grace the business center of the city, among which we would name the Wolvin building, the home of the United States Steel corporation; the Marshall-Wells great hardware house; the Great Northern Power company's power house, and many other business blocks and residences, all of the best style of architecture. Mr. Hilliard is reliable and honest and always takes a live interest in every contract awarded to him to the end that his client may get value received for the money expended.

National Iron Co.

THE extraordinary development of industries that has marked the era since 1897 has afforded to men of intelligence and energy opportunities that have proved profitable in many directions and no better evidence is at hand of the possibilities that have been open than is given in the growth of the National Iron company. Dating its activity to its incorporation nine years ago, when it was organized as a corporation by Joshua Evered, W. M. Evered and H. R. Armstrong, as the National Iron works, the growth of the company has always been something in advance of the progress made in a community that felt, quite as much as any in the country, the promptings for expansion during this period of great prosperity. Manufacturing mechanical equipment for industrial plants the resources of the company were expanded with the developing times and the business which had been conducted in a limited territory at first was extended until it now takes in all of the United States and Canada. Basing its claims to attention and patronage on the fact that its products were in point of capacity for the work designed to be done, and in finish, the best in the market, and having the great advantage of being able to complete with the great manufacturers in the same lines throughout the country, the National Iron company—to which name the title of the corporation was changed in 1903—has thriven vastly and is now the most important institution of the kind in Duluth.

In the big plant of the company there are manufactured hoisting and drill engines of the most approved modern pattern as well as mining, saw mill and power transmitting machinery, for which there is a great demand in the country tributary to Duluth and in practically every state in the West. The company also turns out steel forges, steel beams, architectuarl iron and steel work, shaftings, split pulleys and complete power plants. A great repair department is maintained, which is extensively patronized by the large industrial enterprises of the mining and industrial community. The plant of the company is large and modern and the payroll is so large as to make it one of the most important industrial enterprises in the city.

Mr. Joshua Evered, one of the founders of the company, died in 1903 and the corporation is now officered by W. M. Evered, president and treasurer, and H. R. Armstrong, secretary.

WILL REVOLUTIONIZE STEEL INDUSTRY

GEOFFREY COMPANY CONTROLS TUNGSTEN STOCK.

IMPORTANT NEGOTIATIONS PENDING.

THE GEOFFREY COMPANY of this city has just concluded extended negotiations through which there is placed in its hands the exclusive sale of the entire treasury stock issues of the Pittsburg Gold & Tungsten Mining company of Montana. At the same time practically the entire individual stock holdings of owners and promoters have been (pooled) pending the development of the company's valuable properties.

The Pittsburg Gold & Tungsten Mining company is capitalized at $1,000,000, the par value of the shares being $1 each. The stock is full paid and non-assessable. Of the capital stock 520,000 shares, or more than half, have been retained in the treasury of the company for development purposes and 100,000 shares of this treasury stock are now offered for subscription at 25 cents per share.

Under contract arrangement with the Geoffrey company the next issue of 100,000 shares cannot be offered at less than 50 cents per share and the third 100,000 shares at no less than par.

It is expected that "Pittsburg" stock will have reached a market value of par or more long before the time for the third offer will have arrived and that it will easily pay handsome dividends on such par value after the first year.

The Pittsburg Gold & Tungsten Mining company is the absolute owner of seven promising gold and tungsten claims at Jardine in Bear Gulch, Park county, Montana. They aggregate about 140 acres and lie adjacent to the claims and property of the older and producing mine of the district, the so-called "Kimberly-Montana." From this adjoining property over $1,000,000 of free gold has been taken and, with a simple, inexpensive and more or less experimental plant, it already averages half the daily output in tungsten concentrates of all other United States tungsten fields combined.

The same rich vein matter of the older company has been traced through the claims of the "Pittsburg" and shafts have been sunk and a tunnel driven to verify the favorable surface indications. No finer specimens of scheelite have been found in the district than those taken from the "Pittsburg" dump.

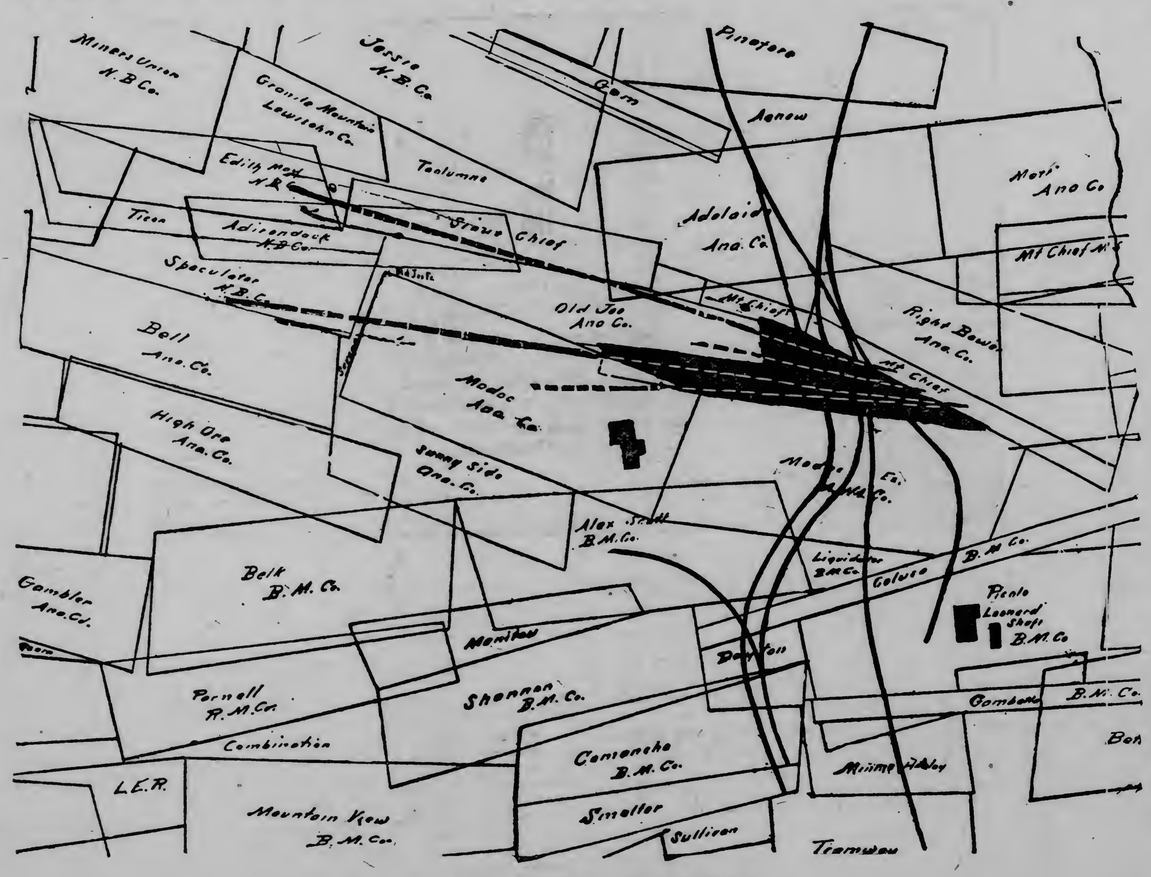
The magnitude and extent of the scheelite deposits of the Jardine district almost baffle description. They are destined to rattle the dry bones of the scientific and industrial world in no uncertain way. It is no far guess to predict that within three years the output in tungsten concentrates of the Jardine district will equal the combined tungsten production of the entire world outside.

At $1,000 a ton for tungsten concentrates, approximately the present figure, the return to operating companies must be enormous. At one-fourth the figure the income will still be princely and the way will have been opened to the extended use of tungsten in the rail and structural steel industry; for steel with a tungsten alloy is both hard and tough, resists heat, corrosion and expansion and contraction, does not crystalize, and furnishes the finest and most useful product the world has ever seen.

Important negotiations are pending for the sale to outside parties of a controlling interest in the "Pittsburg" company, and include the unsold treasury stock. Until such negotiations reach a favorable conclusion, however, the sale of the treasury stock to general investors will continue and subscriptions therefor will be taken as heretofore at the office of the Geoffrey company, 15 Phoenix block, Duluth. Zenith 'phone 612.

W. G. JOERNS,
Managing Agent.

SIX ACRES OF THE RICHEST GROUND, LOCATED IN THE RICHEST HILL IN THE WORLD



PROPERTY OF THE

BUTTE BALLAKLAVA COPPER CO.

The above map shows the exact location of the Burke and Ballaklava mining claims in Butte, Montana, relative to its location to the largest producing mines in the camp. It will be noticed at a glance that these two claims are surrounded on every side by the richest dividend payers in the district. Such well known mines as the Speculator of the North Butte Copper Company, The High Ore, The Bell, The Modoc, Old Joe and Mountain Chief properties of the Anaconda Company, the Colusa, Leonard, Hattie Harvey and Liquidator of the Boston & Montana Company, and the Minnie Healey of Heinze's fame are either adjoining the Burke and Ballaklava directly, or are within a few hundred feet distance. Some of the largest producers are mining large values on the same veins that are traversing the Burke and Ballaklava.

THREE OF THE RICHEST VEINS in the district are distinctively defined on these two claims and can be very easily traced—a fourth one, not showing on the surface, has been encountered in the workings of the shaft on the Ballaklava. The three veins showing on the surface are THE EDITH MAY VEIN, THE BELL-SPECULATOR VEIN AND THE OLD MODOC VEIN.

The Edith May vein traverses the Ballaklava for about 600 feet on the north. The Bell-Speculator vein runs through the entire center of the property for a distance of 1,500 feet. Both these two veins have developed in the North Butte Copper Company's mines into very rich copper ore bodies, a nd are among the largest producers of that company. The Modoc vein is traceable on the south of the Ballaklava for a distance of 500 feet; this vein is classed among the largest producers of the Boston & Montana Copper Company. Lessees are now working on the same vein a short distance from the Ballaklava line, and are extracting large values of silver and copper from the 200-foot level.

MAP OF BUTTE HILL

Showing Location and Veins of Butte Ballaklava Copper Co.'s Property.

The value of this vein has been demonstrated beyond a doubt. Drifts and crosscuts have been run from the Ballaklava shaft, which is 283 feet deep on the 70, 200, 230 and 260-foot levels, and ore has been encountered on all these levels assaying good values of copper, silver and gold. A crosscut extending from the High Ore through the Sunny Side and the MODOC TO THE BURKE, exposed an ore body on the Speculator vein 20 feet in width and 300 feet in depth, that being the extent of the exploration.

The average values of this ore body assayed 7 per cent copper, 12 ounces of silver and 80 cents gold.

THE BURKE AND BALLAKLAVA CLAIMS have been taken over by Duluth and Hibbing mining and business men, who have associated with them Eastern capitalists. A company has been organized under the laws of Arizona for the purpose of opening up and developing the property.

Never before has a mining property been brought to the attention of the public which was so compactly mineralized by veins of proven large ore bodies, and were it not for the fact that the property was tied up in litigation for over thirteen years, it would have been sold long ago.

The Butte Ballaklava Company has located offices in this city at 502 Palladio Building, where Prospectus with map of the property and any other information can be obtained.

W. A. WHITNEY, President and Treasurer. E. H. WHITNEY, Vice President and Manager.

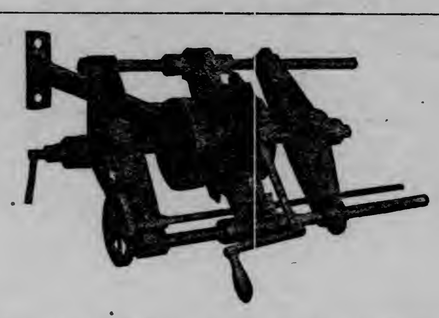
Wholesale Specialty House.

Merchandise and Rubber Goods.



THE one leading, progressive wholesale house for mechanical and rubber goods, mill, mining and lumbermen's supplies, rubber and leather belting, hose, packing, mats, matting, valves, rubber boots and shoes, pipe and fittings, lumbering tools and handles, fire hose and extinguishers, rubber and oiled clothing, miners' candlesticks, building papers, harness and shopwork, camp supplies, camp heaters, steam log haulers, automatic stack sockets for logging cars and sleighs, car and engine brasses, is that of E. G. Hilliard, No. 34 West Michigan street. This is its new location, where all old as well as new customers will not only find a large stock to select from but one of the best equipped wholesale houses in its line between Chicago and Denver. Mr. Hilliard, is one of Duluth's foremost young business men, that knows the true life of the jobbing house depends upon prices and the promtitude of filling orders, and as both of these are successfully met, the business of the firm has grown and prospered, until E. G. Hilliard's wholesale specialty house leads all others in the North and West in this territory.

Duluth Brass Works Company.

THIS is one of Duluth's special manufacturing plants that has grown and developed into one of the big industries of its class in the Northwest, occupying a new and spacious factory building at Fiftieth avenue west and Ramsey street. The Duluth Brass Works company has every modern facility and equipment for the manufacturing of everything in brass goods, railroad brass, babbit metal, round and hexagon stock brass, sole makers of Randolph's metallic compound for journal bearings and other lines of brass goods.

The Duluth Brass Works company was organized in 1905, but the business is one of the oldest established in Minnesota, having been first started at St. Paul nearly forty years ago by Mr. W. F. Bailey, the present superintendent of the works, who removed the plant to Duluth in 1892. The capital and resources of the company were materially expanded when the present organization was formed, with E. G. Hilliard as president. The business is in a very prosperous condition, and this is the most successful factory in the state in its line. It employs a large number of skilled workmen, and is one of the busy industries at the Head of the Lakes.

OUR PORTABLE CRANK PIN LATHE

PORTABLE LATHE, PATENTED AND MANUFACTURED BY MARINE IRON CO.

The most valuable bit of mechanism that has been produced for the use of engineers on vessels, or those operating plants remote from the machine shop, is the portable lathe which is illustrated above, and which is made by the Marine Iron company of Duluth. The machine, which was patented in 1903, weighs from 125 to 300 pounds, according to size and the character of the work to which it is to be applied. It can be readily moved about and applied to any sort of work, and its value on board ship has been tested in many cases where accidents have occurred, with the vessel far from port, and total disability, possibly wreck, might have followed if such an appliance as this had not been available. The tool occupies no space aboard a vessel and its uses are such as to give the engineer practically all the advantages of a machine shop for any emergency. Its value is also great in stationery plants where repairs cannot be readily had.

The lathe is the only one on the market that will turn a center crank pin as well as a side crank. It is used for turning cross heads, crank pins, journals and couplings.

The invention has appealed strongly to marine engineers and it is coming into very general use on thoroughly equipped modern vessels, where it supplies all the practical purposes of a machine shop for repairs. The lathe is made by the Marine Iron company and is the result of much patient investigation and experiment in a wide field of industry, the company having a very extensive business with the ship, mining and manufacturing interests at the Head of the Lakes. New and original work of a high character and wide range has given the company much experience and prestige, and they do an important line of business in the making of brass and gray iron castings, in heavy forging and steam fitting, and have had great success in the field they have made their own in turning cross heads, crank pins and journals in their place in the mechanical plant.

There is no hour of the day or night and no day in the year when, in an emergency, the Marine Iron company's resources may not be had by the marine man who finds himself in need of immediate assistance for repairs. This feature of the business is especially looked after.

Vessel owners and those who have to be prepared to cope with accidents to machinery on board ship or in the running of machine plants anywhere should inquire into the cost and capacity of the portable lathe, which is shown above.

BARTHE-MARTIN COMPANY

102-104 WEST MICHIGAN ST.

WHOLESALE GROCERS

102-104 WEST MICHIGAN ST.

SELLING DIRECT TO THE CONSUMER AT WHOLESALE PRICES

DISTINCTIVE BARTHE-MARTIN COMPANY METHOD.

The difference between the mere store-keeper and the "merchant" is that the former, like a nickel-in-the-slot machine, merely hands out what his patrons ask for, and requires them to do their own investigating and experimenting; but the genuine "merchant" relieves his patrons of the expense and uncertainties of these experiments, and gives them the full benefit of his skilled knowledge and experience.

We have always been "merchants," never "storekeepers." We first introduced our own selections of Coffees, Teas and Spices.

The public appreciated them and wanted other things bearing the Barthe-Martin's name. Our customers have learned that the best qualities and largest values are secured in purchasing goods bearing the name of Barthe-Martin Co.

OUR PROFIT SHARING PLAN.

PROFIT SHARING CERTIFICATES GIVEN WITH ALL YOUR CASH PURCHASES.

We issue to you a profit-sharing certificate for the amount of every order you send us, and when the total profit-sharing certificates sent you amount to $100.00, meaning when all your purchases from us have amounted to $100.00, send your certificates to us and we will send you free a Kitchen Cabinet, Parlor Table, Rattan Rocker, Oak Rocker, Morris Chair, Breakfast Table, Dishes, Silverware, Watch, Clock or your choice of the many other valuable articles contained in our profit-sharing list.

Given for $100 in Certificates.

Save your profit sharing certificates and continue sending your orders to us, and when your total orders sent us have amounted to $100.00 or more send to us and select the article or articles you want, which we will send you free as your share in our profits.

It Will Pay You Handsomely to take orders from others. When about to order, it will pay you to find out what your neighbor wants and include his goods with yours.

PRICE AND QUALITY GUARANTEE.

Every order sent us is accepted with the understanding and agreement that we not only guarantee any goods you order from us to reach you in perfect condition, guarantee them to please you, guarantee them to be of the highest standard of quality, above the average sold by other catalogue houses and retail dealers generally, but we also guarantee our prices, quality for quality, to be lower than you can buy from any other house, at home, in Duluth or elsewhere.

Send for our catalogue and read of our liberal profit-sharing terms as explained on pages 30 to 36. Read how you can accumulate certificates rapidly and share liberally in the profits, by taking orders from neighbors, friends and others.

If your name is not on our mailing list it should be.

We solicit the trade of all consumers who desire first-class goods at reasonable prices and who appreciate good treatment and prompt service.

Any customer of ours, any one buying goods from us, is entitled to share in the profits of this Business, receiving, free of any extra cost, any one of the valuable articles shown in our catalogue, subject only to the easy conditions hereinafter explained.

Whenever You Purchase Goods From Us amounting to $3.00 or more, we will send you a profit-sharing certificate, showing the amount of your purchase in dollars and cents. These certificates should be carefully preserved by you, and when you have received certificates amounting in dollars and cents enough to entitle you to any one or more of the articles wanted, send the certificates to us and the article you want will be sent to you free of any cost, carefully packed and delivered free on board the cars at Duluth or factory, and you will have only the freight or express charges to pay. You will not have to pay for the article you select from the profit-sharing list, as it is your share in our profits.

SEND FOR OUR CATALOGUE. YOU WILL SAVE MONEY AND GET THE BEST.

SELLING DIRECT TO THE CONSUMER AT WHOLESALE PRICES

OUR STANDARD OF QUALITY.

Nothing bears the endorsement of our Name unless pure, wholesome, and of the best quality. We admire handsome looking foods, but we attach more importance to the purity and palatableness of an article than to its appearance.

Adulterated, unwholesome foods we do not handle.

LOWEST POSSIBLE PRICE.

Our business began and has continued upon the basis of the Lowest Possible Prices. We aim to give our patrons the greatest possible value for their money. The rapid increase of our business and the purchase of merchandise direct from first hands enable us to quote the very lowest prices consistent with quality.

A critical comparison of our prices with those of any other reliable house in the Northwest clearly demonstrates the advantage of dealing at Barthe-Martin Company's.

Send for our Catalogue; it will be of service to you. It has been carefully compiled to enable the buyer to order as intelligently by mail or by telephone as in person.

Duluth's Coal Receipts for 1906 Increased 48½ Per Cent, Reaching 5,358,293 Tons

PITTSBURG COAL CO.'S DOCK NO. 5, ONE OF THEIR SIX DOCKS AT DULUTH-SUPERIOR HARBOR.

Receipts and Shipments of Coal for 1906

18 coal docks covering 400 acres—storage capacity (tons)	3,500,000
Total receipts for year (tons)	5,358,293
Increase in tonnage over 1905	1,750,738
Wage earners employed on docks	2,000

Cargoes of coal for 900 lake freighters—requiring 265,000 cars for distribution.

SIGNIFICANT FACTOR IN CITY BUILDING.

THE fuel supply question is one which is constantly being borne in upon the people of Northern latitudes and becomes of especial interest at manufacturing centers, where tremendous quantities of heat and power are continually required at all seasons of the year. The log heap fires which served our forefathers for dispensing warmth and cheer through their houses have given place to the boilers and furnaces with which modern houses are made comfortable in winter and the fuel consumed for the purpose of radiating the caloric is either wood, coal, oil, gas, peat or electricity, depending chiefly upon the proximity of a supply of one or another of these commodities. While many localities have an abundant supply of one or more of these articles, there are other places which are remote from available supplies of either of them and when, to the original price is added an expense for transportation, which is often several times the first cost, the fuel problem becomes a serious one.

A large share of the fuel used at the present day is consumed for manufacturing and commercial purposes, and it is interesting to note the localities where nature has placed the greatest stores of these commodities, the routes of transportation by which they are distributed and the influence which these circumstances exert in human affairs. For many years past the variety of fuel most used at points removed from its source of production is coal and the availability or scarcity of an abundant supply of this useful article has been a very potent factor in fixing the location of great industries and incidentally determining the sites of manufacturing cities.

NATURAL DISTRIBUTING CENTER.

Duluth is not only a consumer of vast quantities of coal, but its situation at the western extremity of the greatest internal waterway in the world—with the great mass of coal fields contiguous to the eastern extremity of the same waterway—makes it a natural distributing point for a great multitude of inland coal markets. A large share of the coal consumed in the Twin Cities is received by way of the Duluth harbor, to say nothing of hundreds of smaller cities in the West and Northwest which depend upon receiving their supplies of this very necessary fuel through this harbor and the thousands of farmers in the prairie states who depend upon receiving a supply of coal from this source to keep the frost from their hearthstones for several months of each year. When, as was the case during a part of the past winter, the arteries of commerce become blocked with excessive snow or glutted with merchandise requiring removal, there is likely to ensue considerable suffering and inconvenience, but this does not occur except at rare intervals and the difficulty would only be accentuated by depending upon any other source of supply.

SOME AMAZING STATISTICS.

The amount of coal received at this harbor during the season of 1906 showed a tremendous increase over the receipts for 1905. The figures for last season amounted to 5,358,293 tons, while in the previous year there were unloaded at the docks of this harbor 3,607,555 tons, a difference of a fraction over 48½ per cent. This This growing commerce has shown a striing development since 1878, in which year it amounted to only 31,000 tons. The facilities for handling this trade have been greatly expanded in the last few years and there are now in operation on the Duluth-Superior harbor eighteen coal docks with a combined storage capacity of 3,500,000 tons and covering a surface area, including the space devoted to railroad tracks, pockets, offices, etc., of 400 acres. These figures will be noticeably augmented upon the completion of the new coal docks now in course of construction by the Duluth, Missabe & Northern Railroad company. The docks now in operation upon this harbor are apportioned among the different corporations doing business here in this line are as follows: Pittsburg Coal company, six docks; Northwestern Fuel company, four docks; while each of the following companies have one dock: St. Paul & Western Coal company, Boston Coal Dock & Wharf company, Philadelphia & Reading Coal & Iron company, M. A. Hanna Coal company, Northern Coal & Dock company, Great Northern Railway company, Lehigh Valley Coal company, and the Zenith Furnace company.

GREATEST COAL DOCKS IN THE WORLD.

The amount of coal received at the docks of this harbor exceeds the receipts of that commodity by water at any other port in America, not excepting Chicago, Cleveland, Buffalo, New York or Boston. If loaded in cars, allowing twenty tons for an average carload and forty feet of track length for each car, with the locomotives, tenders, etc., necessary to its transportation, the coal handled at this port last season would make a continuous train long enough to reach from Pittsburg to Salt Lake City, or it would reach from Duluth to Seattle over the Great Northern railway tracks and leave a surplus sufficient to cover the branch from Spokane to Portland. The number of men employed by the coal industry at this harbor is 2,000, while the number of people indirectly employed as a result of this traffic, including those engaged in the mining and transportation of the material and in its handling at retail markets would be too intricate a problem to calculate with any accuracy. The stupendous proportions to which this traffic has attained has had the effect of greatly stimulating the invention and introduction of labor-saving machinery for loading and unloading coal and transferring the same from ship bottoms to railway cars. The docks at this harbor, being of modern design and construction, are equipped with the latest devices and conveniences for minimizing the labor and expense necessary in handling the tremendous cargoes of coal which are continually arriving during the season of navigation and require unloading with the least possible loss of time. The improved type of freighters carrying from 6,000 to 12,000 tons of coal in a single cargo are adapted to the use of the "clam shell" scoop or bucket by which a ton or more is automatically removed from the hold of a vessel at each trip and with a number of "clams" working simultaneously, it is only a question of a few hours until an entire cargo is transferred to the dock or loaded directly into waiting cars. The "clam" style of bucket or hopper is suspended from an overhead track on which it travels with its load from the water's edge to any desired point on the dock. Millions of dollars have been invested in the construction of these docks and in installing first-class equipment power required to propel the machinery used upon these docks has heretofore been generated by steam, but in most cases this force will now be superseded by electric power furnished by the Great Northern Power company from its newly installed plant. Not only does the maritime trade in coal terminating at this harbor exceed that of any other port in the world, but the largest single docks are located here and the two greatest domes in the world are here—surmounting the docks of the Lehigh Valley Coal company.

PECULIAR ECONOMIC CONDITION.

An item of some import in connection with the coal trade is the fact that many thousands of tons are converted into coke at or near the docks, thereby mantaining an industry of no mean proportions in itself. While much of the product of the coke ovens at this harbor is consumed locally, hundreds of carloads are shipped to the smelters of Montana and other Western places. It is interesting to note that economic conditions make it most expedient to manufacture the coke here—midway between the mines and the smelters and at the last point where it becomes necessary to break cargoes. It is more practicable to ship coal than coke by water, but the coke can be more advantageously transported by rail than could the coal, another condition which operates to the advantage of Duluth.

BIGGEST FLEET OF FREIGHT SHIPS IN THE WORLD SAILS UNDER THE FLAG OF PITTSBURG S. S. CO.

THE one hundred and five ships of the Pittsburg Steamship company, hailing from Duluth, constitute the greatest exclusive freight carrying fleet sailing under one ownership in the world. The fact sums the tale of the greatest development of commerce afloat that the world has ever seen. The building of the fleet and its contribution to the commerce of the inland seas of North America are a part of an achievement in fact which puts to the blush the romances of all the seas for all times. Mr. Rudyard Kipling's expressed desire to be taken somewhere east of Suez to the end that his imagination might be permitted to spread its wings is obviously about due to be amended to a yearning to be translated to some place west of the Soo where the imagination may be rested in contemplation of facts, in the form of shipping and shipmen, compared to which the petty trafficking of shipowners and their captains in the widely-snug seas of the "Shiny East" are as the cargoes and ships of the day of the old fore-and-after on the lakes by comparison with the monstrous loads and leviathan hulls of the new vessels that sail in and out of Duluth harbor.

The commerce of the world afloat—though it was directed always by the most enterprising men of their times in every country—was the last of the world's great institutions to be affected by the march of progress. The clipper ships of American owners trading to European and Oriental ports were perhaps the first to feel the effect of the impulses which came into being in the last century—and which now find expression in such gigantic enterprises as are realized in the modern ships of the Great Lakes—but they were alone in their class until the great Atlantic lines were organized and the new type of ship built. Then the Eastern seas became the dumping ground of the discarded ships of the Atlantic trade. The tramps of today that hustle from port to port of the Orient seeking for charters are to a great extent ships that have been discarded by the great Atlantic lines in the scramble to keep abreast of the demand for ships of the highest type for use in the trade that required and was willing to pay for the best service in passenger and freight transportation. Some of the great companies operating through and east of the Suez canal have many ships with picturesque names and trading to queer ports ablaze with the color that Mr. Kipling sings of, but, generally, they are far from being a fair type of the latest productions of marine architecture. Their names are written high in the romance of the seas, but those who live in and navigate them have little conception of what has been done to change the aspect of the carrying trade in ship bottoms. It is not on the broad waters of the Pacific, in the Oriental seas, that enterprise in floating commerce has been carried on. And the Atlantic trade—except in the case of the few great lines engaged in passenger and express traffic—is not embodied in ships of the highest type. The life of a ship in these days when the art of the marine architect travels abreast of development ashore, is of few days. It is one of the astonishing things of marine commerce how soon a ship becomes obsolete. These vessels that serve their brief period of usefulness in the passenger trade on the Atlantic, put into the freight trade in their home waters or sent east of Suez, or to the scrap pile, do not live long, but they still constitute, together with vessels of even an inferior class, the bulk of the shipping on salt water.

HISTORY OF SHIPPING ON THE LAKES IS BRIEF

It is only on the Great Lakes—where the history of the shipping is the tale of yesterday—that the ultimate in ship-building marks the quality of the ships. The strenuous demand for greater capacity in carrying and in handling cargo is felt nowhere in the wide world as it is on these land-locked seas, with their short season of activity and the vast and constantly increasing volume of freight to be handled. Having neither history nor sentiment the shipping of the lakes is purely a business proposition and its constant trend is to expansion in the size and equipment of the ships and to the elimination of loss of time in the handling of cargoes. The consequence of this tendency to modernize the ships and methods has been to centralize the carrying trade of the lakes in companies resourceful in capital and which have been able to have ships built to meet their own requirements, rather than to accept ordinary standards of marine architecture and the old methods of the handling of the ships. The eagerness with which capital has pursued the business of developing the resources of the country whose commerce may be carried on the lakes has imposed upon the shipping interests the necessity for supplying ships equal to this development and, as in the case of the United States Steel corporation, many of the great industrial institutions have found it expedient to engage in the building and management of ships themselves.

NEW SHIPS WERE BORN OF NECESSITY

These conditions—which have made possible the idealization of marine commerce—have within an incredibly short space of time resulted in the creation of such a fleet as that of the Pittsburg Steamship company, whose tonnage of freight carriers beggars, by comparison, the capacity of any other fleet of transporting vast—almost unheard of—quantities of iron ore produced on the Lake Superior ranges to the furnaces about the shores of Lake Erie. It was constructed with such swiftness and intelligence that, at a bound, the commerce of Duluth, in tons, was raised to such proportions that it has become the third port in the world in tonnage. This fleet will move during the season of navigation on the lakes in 1906, 12,000,000 tons of ore.

The creation of the Pittsburg Steamship company's fleet has been the work of a few years. It has been brought about by the knowledge that, given the necessary capital, it is cheaper to own and operate than to charter ships for the carrying of one's own freight. The economies that it has been possible to practice in the building of ships that are laid down on lines that specially fit them for the purposes to which they are devoted, have been extended to the mechanical equipment and operation of the vessels and there is no assemblage of ships afloat that equals this merchant navy in efficiency.

The experience of the company has induced the adoption of a line of policy that constantly increases the size of the ships of the fleet. There have been built this year, for the fleet, four ships each of which is 600 feet long, 58 feet beam and with a capacity of 12,000 gross tons. Four more of the same dimensions are now on the stocks and will be put into commission in the coming spring. And these are not mere steel shells but finely equipped ships with engines of great power, steam stearing gear, electric lighting, commodious cabins and quarters for the crew that would approximate the salt-water sailor's idea of heaven.

The considerations that have been held of the first importance in the building of the ships are capacity, power, sea-worthiness, facility in handling on the lakes and their connecting waters and facilities for loading and discharging cargo. In these particulars the entire fleet is subject at all times to overhauling or to be discarded. A number of good ships have been sold for the sole reason that they did not have capacity sufficient to meet the economic standards in administration set by the company managers. Nine whalebacks have been disposed of for this reason.

Whether the limit has been reached in the size of a question for the future to decide. It was believed that the Augustus B. Wolvin was, when she was built, three years ago, the ultimate in size and equipment for the purposes of the ore trade. Each year since then vessels have been built of a larger size and there is no reason to suppose that the limit has been reached yet.

SWIFT TRANSPORT IS FIRST ESSENTIAL

"Dispatch" is the slogan of the shipowner on the lakes and in the pursuit of this has come about the astonishing progress in the improvement of the vessels engaged in the ore carrying business of the United States Steel corporation in particular, and all shipping in general. Fourteen years ago the first shipment of ore from the Masaba range was made in two whalebacks of about two thousand tons each. This year the ore shipments from the Mesaba range mines will amount to about twenty-five million tons. The inconceivable vastness of this increase in output has been measured exactly by the increase in the shipping tonnage required to move it and it is but faintly expressed in the difference between the two little whalebacks that moved the ore in 1892 and the 12,000-ton monsters that stand for the latest attempt of the Pittsburg Steamship company to meet the present conditions. A signal indication of the changed conditions is given in the fact that the company has sold many boats of its whaleback fleet because their tonnage measurement did not represent the economic requirements of the new standards—and it is but a very few years since that the whaleback was regarded as the very type of the ore carrier.

During the past year the number of vessels owned and operated by the Pittsburg company has been reduced by the sale of the whalebacks and the loss of two ships by disaster. The storm of Nov. 28, 1905, put enough tonnage of the company out of commission temporarily to have brought utter disaster to some companies that are held to be large shipowners. Nine vessels sailing the flag of the Pittsburg company were driven ashore by the hurricane of that date and of these two, the Lafayette and the Maderia, were practically destroyed. The Mataafa, Crescent City, Corey, Manila, Edenborn, Coralia and Maia were floated. The Mataafa was raised and brought into Duluth harbor a wreck. The after part of the Lafayette, containing the machinery, was cut off and brought to the shipyards at Superior—a pathetic but striking evidence of the resourcefulness of the wrecking company. But the loss of these ships and the sale of the whalebacks has been more than compensated for in the addition to the fleet made by the building of four vessels with a total tonnage of 48,000 tons.

TWELVE NEW SHIPS BUILT

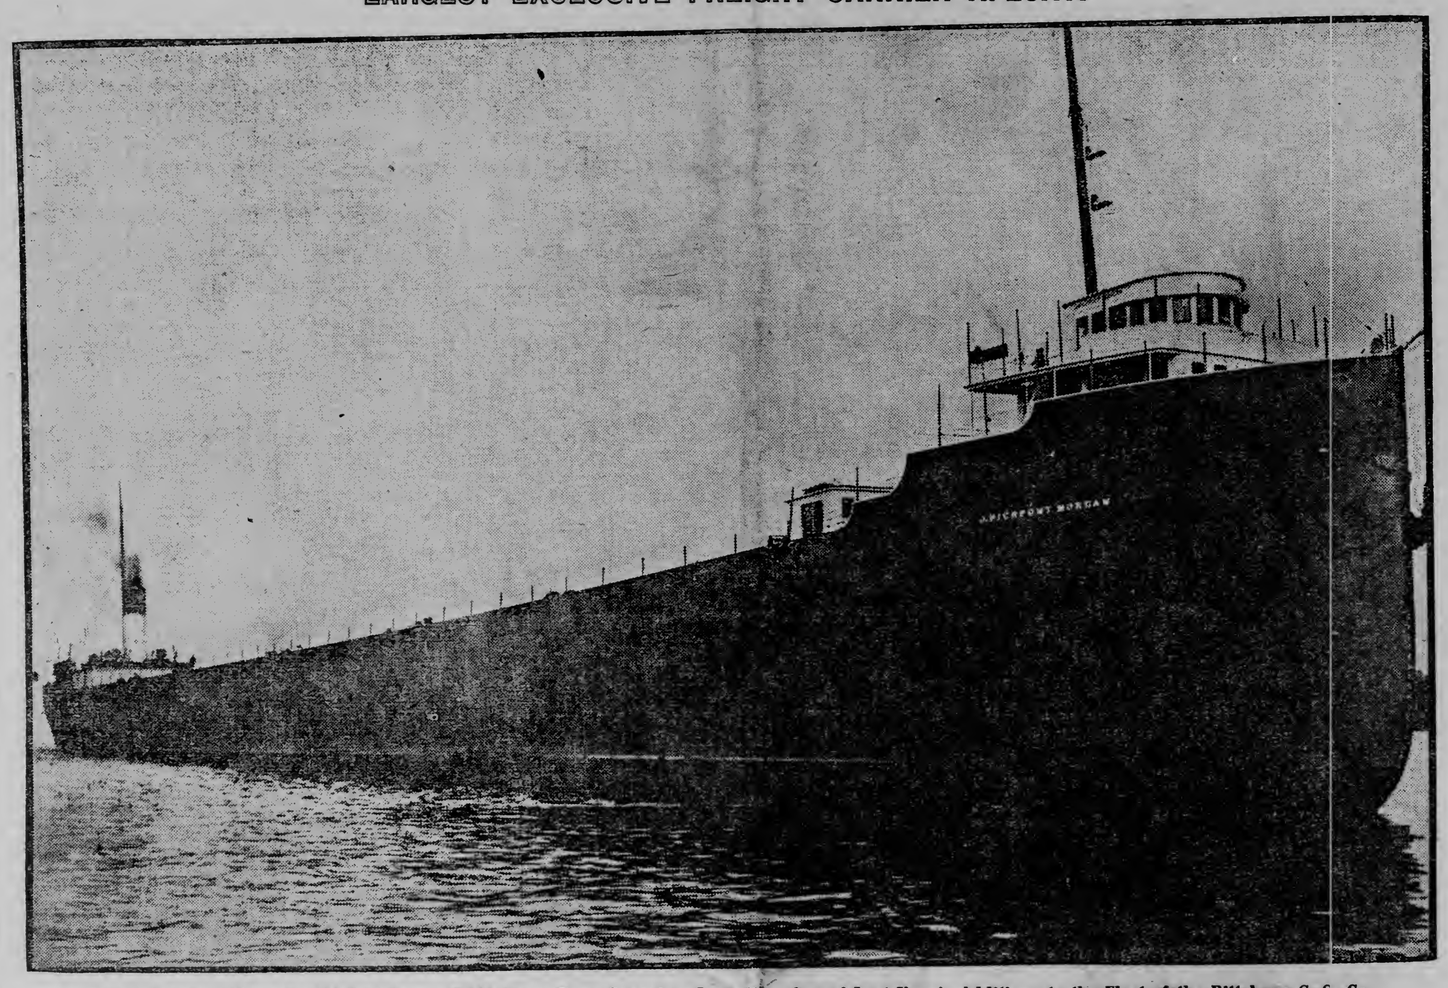
In the season of 1905 and 1906 the additions made to the fleet have been altogether by the building of new ships. In 1905 there were added to the fleet the W. E. Corey, the E. H. Gary, the Henry C. Frick and the George W. Perkins, each 569 feet long, 56 feet beam and with a capacity of 11,000 gross tons. This year there have been built the J. Pierpont Morgan, the H. H. Rogers, the N. B. Ream and the E. P. A. B. Widener, each 600 feet long, 58 feet beam and with a capacity of 12,000 gross tons. There are now on the stocks and will be put into commission in the spring of 1907 four more ships of the same dimensions as those built this year.

The new ships are the largest exclusive freight carriers in the world and are well up in the list of big ships now afloat. Some of the Atlantic liners are larger, but there are not many of them. From the fact that the ships now on the stocks are of the same sizes as the latest put into commission, it might be argued that the limit in size has been reached, but this does not follow at all. They simply represent the best results of experiment and investigation to date. They permit the utilization to the utmost of those mechanical devices now in use for the loading and unloading of ships. The improvement of those devices tomorrow would be sufficient justification for changing the size of the ships.

All of this new tonnage—representing a total of 140,000 tons added within the space of two years—is built to meet the requirements of the ore trade. Incidentally, the boats may be used for moving coal up the lakes, but that is not the chief consideration in their construction. The "hopper" hold, designed by Capt. A. B. Wolvin and first put into the ship named for him is—in improved form—the distinguishing characteristic in construction of the new vessels. This is practically the building of another hull within the outer walls of the ship, the cargo hold running with the lines of the hull down to within nine feet of the tank hold, then being drawn in—in hopper shape—to the tank top. The shape of the new hold—which was adopted by President Coulby of the company after consultation with the highest authorities in shipbuilding on the lakes—adds greatly to the capacity of the ship for carrying water ballast, and—what is the great desideratum—it permits the removal of the cargo without the use of shovelers. Additional strength is gained in the longitudinal structure by the elimination of the old arch construction—which only made for strengthening the deck—and the use of straight girders across the deck. There are no bulkheads whatever in the hold and the ore scoops may work unimpeded on the hopper bottom. The ships will take between eight and nine thousand tons of water ballast, permitting their easy navigation in all sorts of weather. The deck openings are provided by 36 hatches and these are operated by the Brouseau device, which permits the work to be done by two men. Astonishing speed is made in the loading of these monsters by the use of numerous legs running down from the ore pockets and the unloading is facilitated by the case with which a number of buckets may be used.

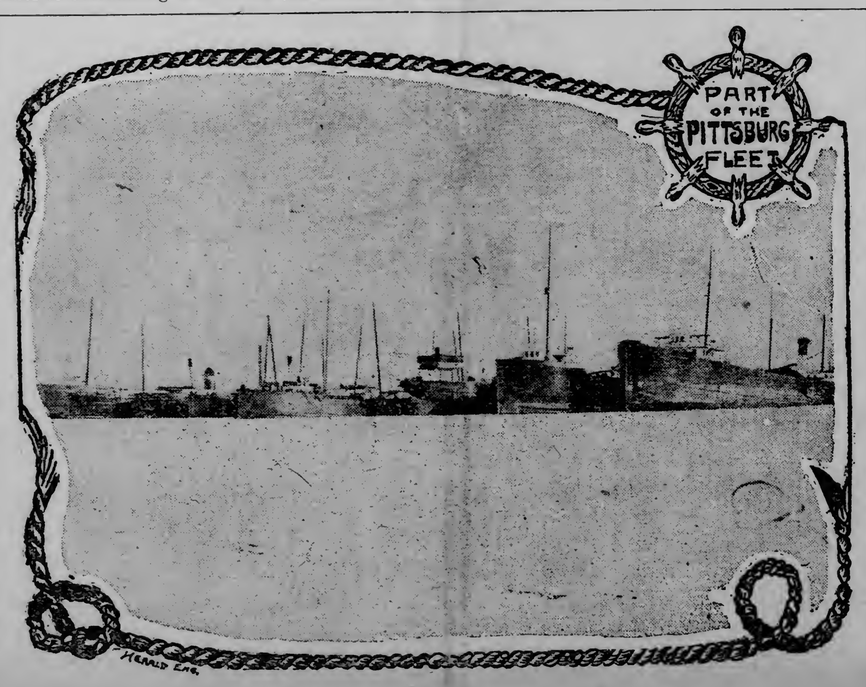
The engine equipments of the ships includes triple expansion engines with boiler capacity allowing 170 pounds pressure. Auxiliary engines operate the steering and mooring machinery and two electric lighting installations furnish light for each ship. The quarters for the crews are so constructed and furnished as to make them desirable homes for the men who live in the ships practically the whole season—the speed with which the vessels are loaded and the cargoes discharged admitting of very little liberty ashore from the opening to the end of the season.

TWO BIG SHIPS BUILT IN HOME WATERS



It is worth while observing that the contracts for two of these big ships were given to the Superior shipyards. The George W. Perkins was built at the Superior yards, and one of the 12,000-ton ships laid down now is being constructed in the same yards.

It will, of course, take some years to substitute ships of the largest size for the smaller carriers, and as there are now sixty-two vessels in the fleet that have a capacity in excess of 5,000 tons, and work with measurable satisfaction and economy, their use will not soon be dispensed with. But it is certain that the smaller ships will go as soon as bigger ones can be put in their place. As the twelve ships that have been added to the fleet, in those already built and those laid down, have sufficient capacity to move about 2,600,000 tons of ore in a season, it will be seen that a great saving in expense of operation will be made by giving up the use of the smaller vessels. Fifty ships of the new type 600 feet in length, would serve to carry the 10,000,000 or 11,000,000 tons of ore that will probably be carried this season by the existing fleet of 105 vessels and, as the big ships are handled nearly as readily as the smaller ones, true economy points inevitably to the big boat as the carrier of the future.



The fleet of the Pittsburg Steamship company, great as it is, by no means affords bottom for all the ore shipped down the lakes by the United States Steel corporation, and the chartered tonnage is very large. Nor is there reason to believe that the activity of the company in adding to its fleet will soon supply all the ships needed for the carrying of the product of the Steel corporation. In the adjustment of transportation charges the cost of chartered ships makes a figure, and ownership by the company is only profitable to a certain point. So long as the mines of the Lake Superior region continue to produce such vast quantities of ore—that is, for a generation or two, certainly—just so long will the shipping interests remain just behind in the progress of a development that is fast making the inland seas the most populous navigable waters on the face of the globe.

The fleet of the Pittsburg Steamship company is operated from the offices of the company in the Wolvin building, Duluth. The officers of the company are: H. Coulby, president and general manager; J. H. McLean, vice president; A. F. Harvey, assistant general manager; E. C. Collins, traffic manager; H. W. Brown, general agent; J. L. Mullen, auditor.

GREATEST OPERATING FORCE IN THE MINING WORLD IS THE OLIVER IRON MINING COMPANY

PIT OF THE MOUNTAIN IRON MINE.

The Magnitude of This Working Is Indicated by the Comparative Size of the Ore Train Running Through—Mountain Iron Has Yielded 13,000,000 Tons of Ore—Operated by the Oliver Iron Mining Company.—Photo by Maher.

THE Oliver Iron Mining company, the greatest iron mining organization in the world, produced last year, according to the report of the Minnesota commissioner of labor, 62.4 per cent of the ore mined in Minnesota—which amounted in the total to 21,830,885 tons; it gave employment to 12,000 men in all of its various enterprises; it operated thirty-one mines, among them several producing more than a million tons in the season.

There is no industrial machine in the state of Minnesota that nearly approaches this organization that carries the burden of administering the mining enterprises of the United States Steel corporation. It is almost directly responsible for the subsistence of forty thousand persons in Minnesota alone—for the mining man is likely to be blessed with a numerous family and large families are rather the rule than the exception among the communities on the iron ranges of this state. As the operation of the Minnesota mines only represents a part of its great activities and as it operates, as well, the mines of the Steel corporation in Wisconsin and Michigan, the total of its administrative work is something tremendous.

The existence of the Oliver Iron Mining company goes back for its original organization to the man for whom it is named—Henry W. Oliver, among the first of the manufacturers of the iron and steel world of Pittsburg to appreciate to its fullest the importance of the Minnesota ranges in the future of iron and steel. Mr. Oliver was a man of large ideas and full of enthusiasm. He is credited with having, by the sheer force of his personal enthusiasm, compelled Andrew Carnegie to come to an acknowledgment of the fact that the Minnesota ranges were essential to the welfare of his vast industrial schemes. The energy and persistency of Mr. Oliver was imparted to the men by whom he was surrounded and the organization which he created for the extraction of ore from the Minnesota deposits has developed into an institution of such magnitude that its operations can only be expressed in figures too large to convey any real appreciation of the amount of work it accomplishes in a year.

The assembled intelligence that is called the Oliver Iron Mining company is responsible for the invention or improvement of the methods of iron mining which have made the Minnesota ranges—and particularly the Mesaba range—unique in production and in the scope of its operations in exploration and development. Where difficulties have been presented that mining engineers said were insuperable those problems have been solved by advancing the standards of engineering. Early in the history of the development of the Mesaba it was apparent that new methods of mining must be devised to bring the vast amount of ore in sight to market. The business of the companies engaged in taking out the ore was to find means for moving millions of tons instead of thousands. Instead of taking the ore out of the earth through shafts it was found possible, by the exercise of the great organizing power of capital and intelligence, to strip off the surface of the earth and expose the ore which might then be taken out with five-ton steam shovels. And to do these things was the business of the Oliver Iron Mining company and others. How well it has worked in the pioneer field is demonstrated by the output. Twelve years ago there was but one mine in the world producing more than 500,000 tons of ore a year. Now that product passes without comment. Two years ago there were but two mines in Minnesota producing more than a million tons. Last year seven mines yielded more than that amount of ore.

STRIPPING ORE BODY PERMITS GREAT YIELD.

Since the advent of the Oliver company on the Mesaba range there have been improvements made in the methods of underground mining, for the same intelligence that has been directing the development of surface methods has been working in the bowels of the earth, but it is apparent to any one who has seen the frightful scars that gash and seam the face of the Mesaba range that the great production has been attained by uncovering the ore bodies. One sample result of the work of the Oliver company in a surface mine may be cited to show the difference in product between the open pit and the underground mines.

The Mountain Iron mine, operated by the Oliver company, made the first shipment of iron ore in the fall of 1892—namely 4,250 tons—and up to the close of 1905 has mined and shipped over twelve million tons or more than any mine in Minnesota. For seven years it has been in the million-ton-a-year class and in 1905 the product of the mine was 2,495,000 tons. It employs several hundred men also during the winter months on stripping work, making heavy repairs to its equipment and preparing for the next year's operations.

POLICY IS TO MAKE MEN CONTENTED.

As a matter of business policy the company seeks to have its employes contented. There is no sentiment about it—though it is not difficult to find evidence on the range that there is a good deal of sentiment in the regard in which the employes hold the chiefs of the corporation. It would be no trick at all for a stranger on the range to pick up a fight by assailing the big men of the Oliver company. The company has accepted all responsibility to society which falls on the conscientious employer of labor. It gives and expects fair play—a fair day's work for a fair day's pay—and when it has found that it is getting more work than it is paying for, according to its own profits, it has not wasted time in making things even by giving more money for the work.

In treating with the laborer the Oliver Iron Mining company regards him as an individual with his own salvation to work out but it removes as many obstacles from his path as possible. It has no sociological propaganda to carry on and it leaves the individual man untrammeled. It accepts the responsibility of making his surroundings as desirable as possible by contributing liberally, and without protest, to the public exchequer in the form of taxes. The mining communities are in receipt of a princely income from the taxes paid by the corporation and this is expended in the construction of schools and maintenance of public improvements of a character such as is not to be found in any other like community. In this expenditure the Oliver company has no hand. It adheres rigidly to the policy that it has no politics. It is a policy of non-interference that has brought its employes and the people of the community which it practically dominates to respect it as no other policy could. There are no "company stores," no attempt to interfere with the individual in any way. It pays cash for work and that is all the business it has with the individual. But it has a long arm and a wise head and its general influence for the betterment of its people is made manifest enough in the astonishing decrease in the illiteracy of the ranges and the great betterment of the material and moral status of the mining populaion. Its latest move in the direction of bettering the home surroundings of the operatives is in the establishment of the town of Coleraine, where opportunity will be given the individual to get a stake in the soil under conditions that must make for the increase of home-makers among the miners.

BETTERS CONDITIONS IN THE ORE MARKET.

As before stated the Oliver company, in the operation of its properties and in the treatment of individual lessees and mine owners, has pursued a policy that has made for the bettering of conditions in the ore market. It practically makes, through its immense resources, the price to be paid for ore and there is no chance for doubting the fact that the market is much better for the independent owner and operator than it was in the days when the same properties were controlled by the many companies that are now assembled in the Oliver. It prevents the demoralization of the market by husbanding its resources and reserves of ore. In pursuance of this liberal policy the company has lately gone into the development of properties on the Western Mesaba that might have lain idle for years unless they were taken by a corporation that could build a railroad to reach them. The extension of the Missabe railroad and the beginning of mining operations by the Oliver company have resulted in the establishment of a half dozen new towns within the past two years and will vastly increase the ore production of the range immediately, some of the properties being already in operation.

The Oliver company will produce this year upwards of 15,000,000 tons of ore on the Minnesota ranges, besides its enormous production on the other ranges, but it is not alone as a producing company that it finds use for its resources in intelligence and capital. It looks far ahead and is engaged in a work profoundly economical in conserving the ore resources of the ranges it is exploiting. It is not buying ore for mining today and tomorrow. It is carrying on a scheme of acquiring reserves which will be of immense advantage a generation hence. Under the old conditions in mining on the Mesaba each company was engaged in a mad race to attain the limit of production. The consequence was that a temporary check in the market for ore would effectually put the mine producing it out of business. Since the Oliver company has become a large factor in ore production its work has been so directed that the market has not been glutted and the ore has been produced in such fashion as to be immediately absorbed. There has been no demoralization of the range or shutting down of mines since the Steel corporation came into the field. The policy of the company looks to a continuance of the present conditions. So far as the Oliver company can prevent it there will be no exhaustion of deposits which may be best used in combination with other deposits.

The Oliver Iron Mining company by no means controls the Minnesota ranges. But its enterprise is of such a character that it is the pacemaker for all the mining companies. It experiments and investigates and its methods are always of the most advanced. In this particular and by reason of the extent of its operations it may be fairly said to dominate the Mesaba and Vermilion ranges. It puts no handicap upon individual effort but rather encourages enterprise that is for the good of the whole mining community. What work it can delegate to other companies and corporations it delegates, as for instance in the matter of stripping the mines. Its business is mining and in the carrying out of its business mission it goes to the limit required of an organization that has both capital and courage.

The Oliver Iron Mining company is officered by men who are essentially Duluth men and its general offices are located in the Wolvin building in this city. Thomas F. Cole is president of the company, W. J. Olcott, vice president, Pentecost Mitchell, general manager, and J. H. McLean, assistant general manager.

DULUTH AND IRON RANGE RAILROAD'S GREAT WORK

DULUTH & IRON RANGE RAILROAD DOCKS AT TWO HARBORS.

July 30, 1884, the first train load of ore to go out from Minnesota was hauled by the Duluth & Iron Range road from the Vermilion range mines to the newly established port at Two Harbors. Up to the moment that the ore was loaded onto the cars the matter of developing the Vermilion range mines was an experiment that was rather speculative and that was realized only through the profound beliefs of Charlmagne Tower, George C. Stone and their associates in the commercial riches of the range. They knew that the ore of the Vermilion was merchantable hematite, but it was not an easy matter to find money for the building of a railroad to bring that ore within reach of the shipping. In those days the great railroad development of the West was getting under way, but it was one thing to get the funds to build a railroad through a grain producing country where construction was inexpensive, and quite another affair to get the means for putting a road through a rough country for the purpose of making a mining property profitable. There was no other excuse for the building of the Iron Range road than to bring down the ore from the Vermilion range. There was no incidental traffic and, at that time, no well-founded hope of any. But the money was found, the road built and the first ore train run down to the docks twenty-two years ago.

The fact tells the whole story of how the event justified the faith of the projectors and builders of the Iron Range road.

In the twenty-two years that have elapsed since the first train was put into service on the Iron Range road the Mesabe range has been developed, the traffic of the railroad has increased to such immense proportions that it is not easily conceived of and the railroad has developed physically until it has a magnificent ore carrying equipment and has a passenger equipment that permits comparison with the finest of the great railroads of the country.

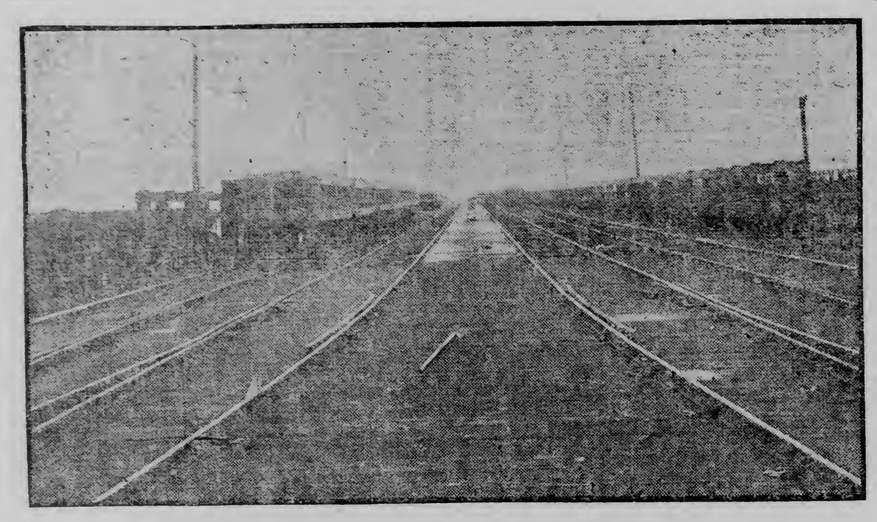
NEW METHODS MEET NEW CONDITIONS.

No more impressive demonstration of the demands made upon human ingenuity to devise means to meet conditions almost absolutely new could be given than is shown in the development of methods for handling ore on the Iron Range road and dock system. The rolling stock and docks in the first years of the installation of the system were adapted to the requirements of a traffic that called for the handling of a few thousand tons of ore—the shipments the first season amounted to but 62,000 tons. The docks were up-to-date for their time, but they would be considered primitive now. The cars were small and had no special equipment for ore carrying. The docks were low in structure and fitted only to meet the necessity of loading ore into vessels of draught and tonnage that would be reckoned insignificant in these days. A 10,000-ton ship is loaded now in half as many hours as one of 1,000 tons could be filled in those days. But from the first the methods and means of handling the ore were improved and, in these latter days—with the vastly increased output of the ranges and the demand for cheap steel and a tremendous amount of it—the progress of development has been very rapid.

The equipment of the early days was retired as it became inefficient, and it was wholly replaced long ago or improved out of recognition. The few miles of road that constituted the first construction has expanded until the road has 400 miles of track and a mileage of 161 miles. The trifling locomotive power has been increased until there are now in use eighty-seven engines of the best type and great power. The car equipment has been developed until the company has now in operation 5,000 cars, the ore cars being of the pressed steel hopper type of fifty tons capacity. The passenger equipment has been a point of pride with the managers of the road, and it is really fine, and the service and appointments perfect, according to the best standards. The entire system is practically all double-track and the roadbed and steel the best that can be provided by the liberal use of money.

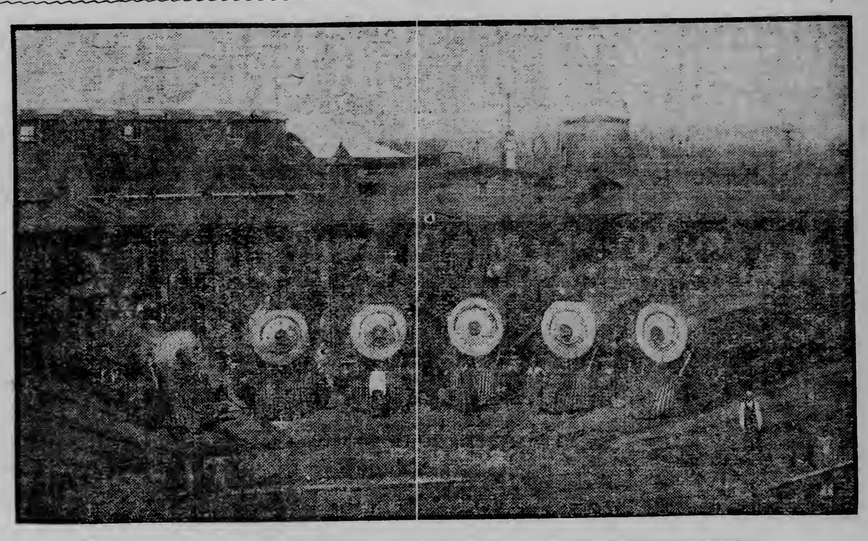
The dock equipment has kept pace with the improvement of the road. From the one insignificant little dock that was used in 1884 it has been expanded both in frontage and height until it is now extensive enough to accommodate many ships and to permit the loading of the biggest carriers on the lakes. There are five of these docks, having a total length of 8,124 feet, with 926 ore pockets and a storage capacity of 184,960 tons.

MESABA'S OPENING EXTENDS THE FIELD.



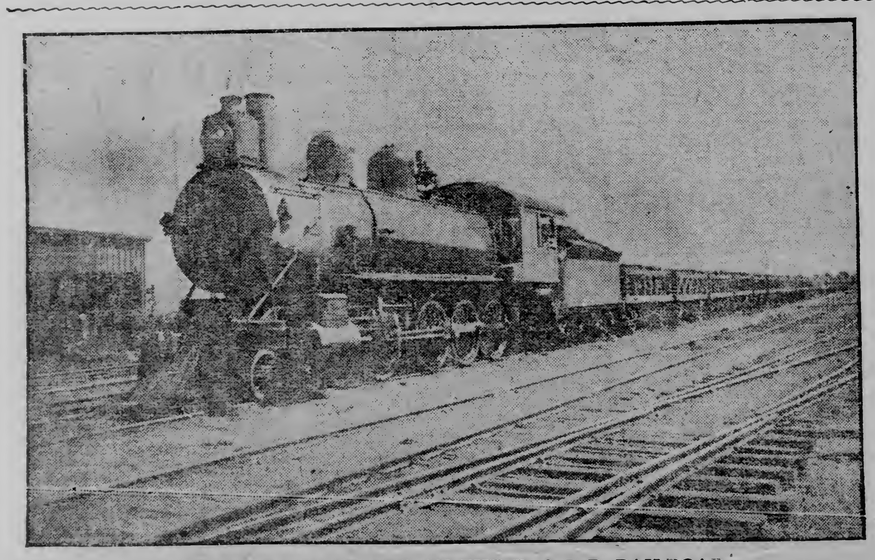
The field of the Iron Range railroad's usefulness in the largest sense was opened up when, in the early nineties, the discoveries on the Mesaba range were made and the crying need of the new range was for rail transportation to the docks. The Duluth & Iron Range road went speedily into the business of extending its lines into the Mesaba field. The mileage that must be built to reach mines of vast extent was comparatively insignificant. As a business proposition it would have been worth while building a road across a continent to reach the traffic that was to come out of those mines. So that it was to be expected that the Iron Range road would become a source of great profit to its stockholders and the object of solicitous attention on the part of the men who foresaw the possibilities for money making in the business of transporting the ores. Reaching out it touched Biwabik, Virginia, Eveleth, and other towns on the Mesaba and went with spirit into the development of those places commercially. On the Vermilion it fostered the towns of Ely and Tower and its policy in the handling of package freight and passengers has been calculated at all times to inure to the benefit of the range communities. The wisdom of this policy has been demonstrated in the growth of a freight and passenger business, aside from the ore traffic and its incidentals, that has now assumed proportions that are altogether satisfactory and out of all measure beyond what might have been looked for when the road was first laid out in the untracked wilderness.

The total ore tonnage hauled by the Duluth & Iron Range railroad last year was 7,781,768 tons. It paid in taxes on gross earnings the sum of $303,771.65. This year it will haul 8,000,000 G. tons of ore.



The Duluth & Iron Range road has experienced few of the vicissitudes that generally fall to the lot of the railroad at some stage of its existence. Being built for the specific purpose of moving the ore from the Vermilion range and finding for some years no other outlet for its activities but to take care of and develop that traffic, its projectors were not disappointed, nor were there any losses incurred in speculative building. The road passed from the hands of its original builders when Charlemagne Tower and his associates got their price for their property, and it then became a part of the property controlled by the Minnesota Iron company. When the development came on the Mesaba range the road was ready to take care of it and projected extensions were followed by realization and an immediate expansion of business—all this so fast that the road, as a railroad, never had any difficulties. The troublous days of 1893 was a time of expansion for the Iron Range road, and there were some men in control in those days whose faith in the range might have carried a weaker vessel than the railroad through without fear of breaking. The great difficulty for the road then was to secure equipment fast enough to supply the demand made for it by the increasing output. Upon the organization of the Steel Corporation it passed under that control and, like the other properties in that ownership, it has since developed enormously in capacity, traffic and earnings.

As before stated, it is not in the ore carrying trade alone that the Iron Range road has exercised its activities. It has fostered local trade and has perfected its roadbed, rails and rolling stock until it is one of the prize roads of the country in every form of equipment and administration. It has also done much to develop the lumber industry and will this year haul into Duluth to be sawed, more than 125,000,000 feet of pine. It brings in from Knife River all of the traffic of the Duluth & Northern Minnesota. At Two Harbors it has been almost the sole factor in the building of the town, which has become one of the great ports of the lakes in point of tonnage shipped.



The officers of the Duluth & Iron Range railroad company are: President, F. E. House; Vice President, T. F. Cole; Secretary, H. Johnson; Treasurer, F. C. Marshall; Auditor, general freight and passenger, H. Johnson; assistant secretary and assistant treasurer, Thomas Murray.

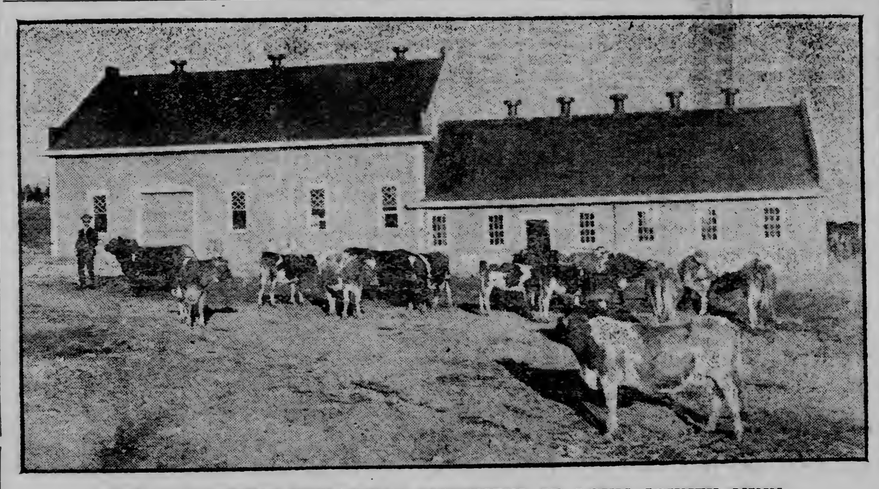
Magic Northland, With Ideal Climate and Fertile Soil

Favorite Region for Mixed Farming, Orchards, Small Fruits, Dairying, Stock Raising

IMPORTANCE OF AGRICULTURE.

In the modern race for the accumulation of wealth, to the winning of which almost every other consideration is subjected, the importance of the time honored calling of husbandry has been often overlooked and recent generations, in many cases, regard the avocation of the "hayseed" as one of minor consequence in the world's great march of progress. While not premeditated, the tendency of modern education is to breed a contempt for the soil from which spring all the world's greatest blessings.

Of the three great productive industries comprised in the terms: Agriculture, lumbering and mining, and through which all wealth is originally wrested from the earth, the first far transcends the other two in importance. From time immemorial it has been the most natural, healthful and popular pursuit of mankind and it is so today. In the year 1906 the value of farm products in the United States alone amounted to $6,800,000,000 which far overshadows the products of mills, factories, mines and workshops. The capital of the farmers of this country, including real estate, livestock and implements, approximates $28,000,000,000.



ADVANTAGES OF RURAL LIFE.

It is refreshing to note, however, that there is a marked tendency at the present time, among the most intelligent and progressive people to get "back to the soil" and many successful business men, weary of the nerve-racking turmoil of the cities, are retiring to rural homes in order to spend the balance of their days amid more peaceful surroundings, where it is practicable to live close to nature and rear their offsprings in an atmosphere which is conducive to the upbuilding of vigorous bodies as well as active minds and stable characters; for it is a fact that an agricultural life promotes reading and reflection while offering less inducement to moral degeneracy than the social whirl of the city or town and, with modern means of transportation and the extension of telephone lines and rural mail routes, the disadvantages formerly attributed to the isolation of farm life, no longer exist. As a rule, the best informed men and women of today are found upon the farms and were the cities not continually gathering recruits from the country, their growth and progress would very soon come to a halt. An erroneous impression has prevailed with some people that farming was an occupation requiring but little intelligence or education whereas, there is no other calling which requires as great a diversity of information as that of the successful agriculturist of the present day. There is less monotony in the life of the up-to-date farmer than in that of any other class of workmen and it requires more original thought and inventive skill.

ALL THE WORLD FOR MAN'S USE.

It is a mistake to suppose that a wise and beneficent Creator intended only a part of the earth's surface for the use and abode of mankind. Every part of this planet was designed to be of use to human beings in the great, munificent scheme of creation, a circumstance better realized today than ever before, and many localities once considered uninhabitable by civilized beings, are now peopled by some of the most prosperous and progressive communities in the world. While primitive man, whose wants were few, found a most congenial location for his existence in tropical climes where most of his physical needs were supplied with little effort on his part, the successive stages of progress made by civilization have each been marked by an increase in the number of material things required for man's use and these wants, in turn, have stimulated the industry and ingenuity by which he has striven to supply them. Without this stimulus, the world would, long since, have drifted into a lethargy of indolence, ignorance and depravity fearful to contemplate. The advances made in the art of husbandry as well as commerce, manufacturing and other industries are, primarily, the result of man's natural covetousness and a desire to better his condition steadily developed through many generations. The highest type of civilization today draws upon every part of the world to supply its wants.

One circumstance emphasized by the progress of the race is the fact that human development does not achieve its highest state in the most congenial climates, but that civilization often reaches its highest ideals in locations where the greatest efforts are required to combat the forces of nature. It is well established that the most vigorous and progressive nations have been developed in the higher latitudes of the north temperate zone. The nations whose military and civil achievements have been most conspicuous in the modern history of the world have been nurtured in climates once considered unfit for human habitation.

JOHN U. SEBENIUS' REGISTERED GUERNSEYS, ST. LOUIS COUNTY, MINN.

MISCONCEPTIONS CONCERNING NORTHLAND

Until quite recently much misapprehension prevailed regarding the agricultural advantages of the great Northland, a term which comprehends the vast empire formerly occupied by the pine and hardwood forests of Northern Minnesota, Wisconsin and Michigan, extending from Marquette on the east to Crookston on the west and from the latitude of the Twin Cities on the south to Rainy Lake on the north—an empire the area of which is one-half as great as that of the dominion ruled by the mikado of Japan and which equals the territory comprised in the six New England states together with that of Delaware and Maryland.

It was formerly believed, even by many people living in this region, but who had made no adequate investigation of the subject, that the climate and soil of this vast empire precluded the possibility of its ever being devoted to successful farming. No greater error could be imagined. But the oversights of one generation generally redound to the benefit of the next. Had the advantages in certain lines of farming in this section been realized thirty years ago, not an acre would now be for sale at the ridiculously low prices which prevail.

EXCELLENT SOIL AND CLIMATE.

It has been amply demonstrated that the average fertility of the soil of this region is unsurpassed by that of any other territory of equal area on the globe and it has been repeatedly shown that the chances of success for the settler of limited means in this region equal, if they do not exceed, those of the settler who makes a start in any other new and undeveloped country. The soil varies in different localities of this vast territory, but consists for the most part of black or sandy loams which are readily stirred by the plow and are surprisingly prolific, having been enriched for ages by decaying vegetation and the foliage of deciduous trees. In many localities the soil is impregnated with marl (disintegrated sea shells) which causes it to be wonderfully productive. The marl beds of Northern Minnesota now rank among the most valuable commercial fertilizers and large quantities of these deposits are sacked and shipped to florists and market gardeners in other sections of the country. People who are accustomed to soils of similar appearance in other places are inclined to think that these soils would not grow a weed until convinced of their mistakes by actual demonstration. The clay sub-soil which underlies the surface nearly everywhere helps to retain the moisture and fertility and these soils are not as readily exhausted as those of many places of much more promising appearance.

THE ERA OF DRAINAGE.

The best lands in the North are what is commonly termed swamp land that only need proper drainage by ditching to make them the choicest agricultural and grass lands that the sun has ever shone upon. The state of Minnesota alone owns 2,750,000 acres of wet and unfit land for cultivation in its present condition. Practically 90 per cent of this wet land is located in the counties of St. Louis, Itasca, Roseau, Beltrami, Aitkin, Lake and Cook. The Herald has made a persistent campaign during the whole of 1906 to arouse the state to the necessity of draining these lands in order to make them tillable and, finally, put them on the tax rolls. This educational campaign has brought the subject to the attention of the whole state and, as a result, the state will drain the whole of these lands under a system of state drainage. The reclaiming of these lands to agriculture will add untold millions of dollars of wealth annually to the Northland in the crops to be grown thereon. It is a well demonstrated fact that the low or wet lands are the most fertile in the state as to crop production and will be the high priced lands of the future. This 2,750,000 acres of swamp land, when drained, and cut up into farms of 100 acres each will add 27,500 farms or, at the rate of five to each family, will give us an increased population of 137,500 people where there is now a barren waste. This is a great educational work that The Herald has accomplished, for the state will furnish the money to carry on the work in a systematic manner to reclaim every acre of this rich and fertile valley land of the Northland which will create vast markets for Duluth's jobbing and industrial makeup. If this land is devoted to the one crop, timothy and clover, the 2,750,000 acres reclaimed by drainage, would produce on an average three tons per acre or 8,250,000 tons which at the average wholesale market price of $10 per ton would bring $82,500,000 annually, and if devoted to dairying and stock-raising, those figures would be doubled. It will be seen at a glance that state drainage is one of the most profitable investments, from a dollar-and-cents standpoint, that has ever been brought to the attention of our people. Now that the grand work has been inaugurated, there will be no backward step, but the great work of reclaiming the wet or swamp lands will go forward until every acre has been reclaimed to agriculture.

GOOD ROADS MOVEMENT GROWING.

For some time past a great movement has been in progress looking to the building of more and better wagon roads in many of the counties of Northern Minnesota and adjacent states. This is one of the innovations which have long been needed to encourage the settlement of the wild and undeveloped lands and enable the settlers already located in remote sections to market their products. Much has already been done toward this end by state and county authorities as well as by individual efforts. Many good highways have already been established but many more will be necessary in the near future. The Duluth & Iron Range Railroad company has set an excellent example by building a number of miles of good road for the accommodation of settlers upon its lands at Meadowlands, St. Louis county, an example worthy the emulation of other corporations and individuals owning large tracts of undeveloped lands in this portion of the state.

Movements are also on foot to promote the building of a number of lines of electric railroad through the country contiguous to Duluth in St. Louis and other counties. This would enable many farmers to send their crops, timber, etc., to this market without a long haul by team and would afford a practicable means of transportation for passengers and freight at all seasons. With the abundance of electric power which is now available there would seem to be no good reason why the scheme is not practicable and it is certain that nothing else would cause as rapid development of the agricultural sections contiguous to the city. A number of lines of steam railway are also in course of construction which will open up great tracts of territory which have hitherto been inaccessible to travel or settlement and a number of other lines are being projected. Among the lines which will be completed during the present year are the Duluth, Virginia & Winnipeg which will afford direct connection between this city and International Falls, one of the most promising towns of the Northland, and thence with all points along the line of the Canadian Northern railroad. The Minnesota & International railroad will also reach the same terminus by way of Bemidji and open up a vast region heretofore lacking in railroad facilities. The new line of the Wisconsin Central will intersect a region of the Badger state which has been far removed from transportation facilities.

APPLES GROWN ON J. H. NORTON'S FRUIT FARM, ST. LOUIS COUNTY, MINN.

PIONEERS WERE NOT FARMERS.

Some degree of plausibility was lent to the statement so often made that "Nothing would grow in this northern country," by the experience of many amateur farmers who secured homestead claims adjacent to sawmills, lumber camps, mines and other locations which promised them employment for most of the time. These settlers were, in most cases, men of little or no experience as tillers of the soil and, as their attention was given to the cultivation of their lands, only at intermittent periods when other work was slack, the result was much the same as might be expected from any other occupation pursued in this desultory fashion. In many instances, "claims" were made with the intention only of securing the timber thereon; in such cases, barely enough attempt at cultivation was made to comply with the requirements of the homestead law and as soon as title was secured and the timber disposed of, the lands were either abandoned or sold for a trifling consideration without the owner ever knowing or caring what its agricultural value might be.

PRACTICAL FARMERS NOW COMING.

Within a few years past, however, renewed attention has been drawn to the cut-over timber lands to much of which the rays of the sun penetrated for the first time in centuries after the lumbermen's work was done. Many experienced and practical farmers have been attracted to the Northland from the prairie states of the West and elsewhere. With these men have come advanced methods and modern ideas concerning the various branches of agriculture to which this region is adapted. Their experience has demonstrated beyond farther question the practicability of pursuing most branches of farming and stock raising with satisfactory results by men of energy, intelligence and practical experience in modern husbandry. Hundreds of improved farms have sprung into existence as if by magic and many localities have taken on the appearance of rural communities in the older states.

COMPARES FAVORABLY WITH OHIO VALLEY.

The problem presented to the settler in the Northland today is much the same as that which, in the early part of the last century, confronted the pioneers of Western Pennsylvania and Southern Ohio and Indiana, except that man's ingenuity has devised means for subduing the wilderness with a speed and effectiveness little dreamed of by our ancestors of 100 years ago. Another advantage possessed by the woodland pioneer of the present day is found in the fact that there is a market for every stick of timber remaining upon his land and he is not put to the necessity of laboriously burning huge log heaps for the sole purpose of removing them from his fields before beginning the work of cultivation. And when subdued, the lands of this vast region are found to be in every way as productive as the fertile bottoms and uplands of the Ohio valley.

It may be urged by those who have not given serious thought to the matter that the climate of this latitude will not permit the growing to maturity of some of the products of Southern Illinois, Indiana and Ohio. This again, is a delusion! For, while the winters of this region are more severe, there is always an abundance of snow affording a mantle of protection to vegetation throughout the winter and less frost penetrates the ground in an ordinary season than in the latitude referred to. It is not an uncommon occurrence for flowers to continue in bloom in the fall until covered with a blanket of snow and when the snow disappears in the spring, for the blossoms to be found still fresh and green and they often continue to thrive without interruption.

TWILIGHT PROLONGS GROWING SEASON.

Nature also makes compensatory provision for the apparent disadvantage of a short summer; the warm soil responds readily to the action of the sun's rays and, owing to the long twilights which prevail both morning and evening in northern latitudes, the mid-summer days are about three hours longer than in the Ohio valley. These conditions, together with the fact that there is plenty of moisture at all times, greatly stimulate the growth of plant life and the rapidity with which crops are matured is surprising to the beholder from lower latitudes.

The climate of this region will compare favorably with that of any portion of the United States, being invigorating and salubrious at all seasons of the year. Some people have supposed this region to be desirous as a place of residence only in summer, but the clear, dry bracing atmosphere of winter affords many delights unknown to people in latitudes which they imagine to be more congenial. Minnesota has long been famed as a mecca for people afflicted with malarial and lung affections and many people who have been driven to come here on this account have found, upon their recovery, that no other location afforded as many advantages for a continuous place of residence. Tornadoes and hailstorms are unknown in this region, as well as earthquakes and thunder storms are of rare occurrence.

LARGE FARMS NOT NECESSARY.

Like most other portions of the earth, this wondrous Northland is better adapted to growing some products than others, but every crop which has been successfully grown elsewhere in this latitude, thrives here. This region is not likely to soon become a formidable rival of states like Iowa and Nebraska in supplying the corn crop of the country, nor is it probable that the spring wheat crop of the Dakotas will be materially decreased owing to our competition. Nor is it at all necessary that we should compete with those great states in the production of such staples in order to become equally prosperous. Neither is it necessary that production should attain such bulky proportions as prevail in the West; for modern farming must be more intensive and results must be measured by the quality rather than the quantity of the product sent to market. Success depends as much upon intelligent marketing of the crop as it does upon its most advantageous production, a consideration which has been too often overlooked by western farmers.

INTENSIVE FARMING MOST PROFITABLE.

Contiguous to every city in the East may be found many farms comprising from five to twenty acres whose owners realize more clear profit from their crops than are made by the average western farmer with 160 acres or more of land. One great advantage possessed by the farmer in nearly every portion of the Northland is the proximity of a good cash market for whatever he may produce, and the man of intelligence and up-to-date ideas will realize as much net profits for his labor from a few acres in this region as can be done in many places from an area several times as great. In no place in the world are surer returns to be had for the labor intelligently and systematically expended. Protracted droughts and floods are unknown and no healthier climate can be found in the world.

As has been the case in many other localities, the severity of the winters of this region is being gradually decreased simultaneously with the clearing away of the forests and the consequent penetration of the sun's rays to the surface of the earth; tillage of the soil also has a modifying effect upon the climate and these changes will be more marked in future than they have been heretofore.

What Duluth and Its Neighbors Consume

Duluth daily consumes 500 bushels of potatoes and the Iron Range towns 400, making 900 bushels per day or 330,000 per year, while total receipts in 1906, were 1,100,000.

There are 5,000 gallons of milk and 400 of cream consumed daily in addition to condensed milk and cream.

We daily consume 10,000 pounds of butter or 3,500,000 pounds per annum.

The consumption of fruits and vegetables was 4,000 cars in 1906.

Total value of butter and cheese, eggs and poultry, fruits and vegetables marketed annually reaches $6,000,000.

The apple market in 1906 reached 40,000 barrels.

Hay and straw market in 1906 reached 6,500 carloads.

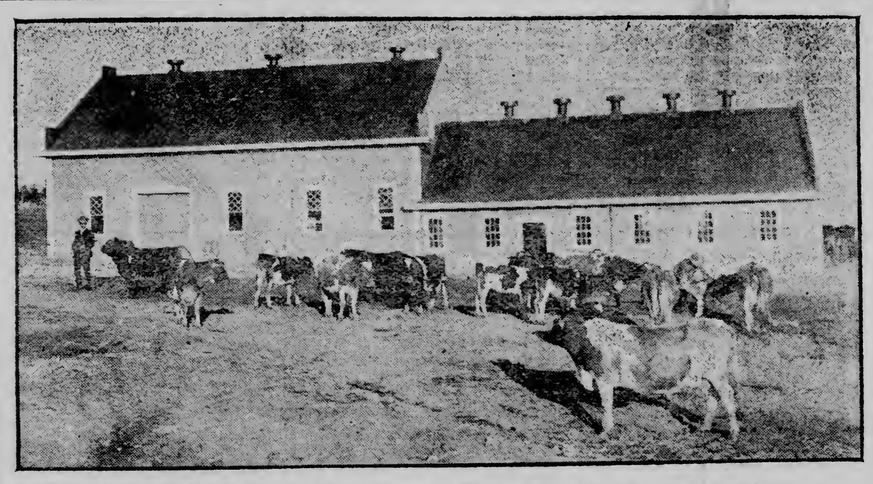
IMPORTANCE OF AGRICULTURE.

In the modern race for the accumulation of wealth, to the winning of which almost every other consideration is subjected, the importance of the time honored calling of husbandry has been often overlooked and recent generations, in many cases, regard the avocation of the "hayseed" as one of minor consequence in the world's great march of progress. While not premeditated, the tendency of modern education is to breed a contempt for the soil from which spring all the world's greatest blessings.

Of the three great productive industries comprised in the terms: Agriculture, lumbering and mining, and through which all wealth is originally wrested from the earth, the first far transcends the other two in importance. From time immemorial it has been the most natural, healthful and popular pursuit of mankind and it is so today. In the year 1906 the value of farm products in the United States alone amounted to $6,800,000,000 which far overshadows the products of mills, factories, mines and workshops. The capital of the farmers of this country, including real estate, livestock and implements, approximates $28,000,000,000.



ADVANTAGES OF RURAL LIFE.

It is refreshing to note, however, that there is a marked tendency at the present time, among the most intelligent and progressive people to get "back to the soil" and many successful business men, weary of the nerve-racking turmoil of the cities, are retiring to rural homes in order to spend the balance of their days amid more peaceful surroundings, where it is practicable to live close to nature and rear their offsprings in an atmosphere which is conducive to the upbuilding of vigorous bodies as well as active minds and stable characters; for it is a fact that an agricultural life promotes reading and reflection while offering less inducement to moral degeneracy than the social whirl of the city or town and, with modern means of transportation and the extension of telephone lines and rural mail routes, the disadvantages formerly attributed to the isolation of farm life, no longer exist. As a rule, the best informed men and women of today are found upon the farms and were the cities not continually gathering recruits from the country, their growth and progress would very soon come to a halt. An erroneous impression has prevailed with some people that farming was an occupation requiring but little intelligence or education whereas, there is no other calling which requires as great a diversity of information as that of the successful agriculturist of the present day. There is less monotony in the life of the up-to-date farmer than in that of any other class of workmen and it requires more original thought and inventive skill.

ALL THE WORLD FOR MAN'S USE.
